

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None*
Exit charge	None*
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.65%
Charges taken from the fund under certain specific conditions	
Performance fee	None

\*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

\*Authorised participants dealing directly with the fund will pay related transaction costs. Authorised participants switching between the fund and other funds within the Company will be subject to a switching fee of up to 3% of the Net Asset Value per share.

Any entry and exit charges shown are maximum figures, and in some cases investors may pay less. You can find out the actual charges from your financial adviser or distributor.

A switching charge of up to 3% may be payable for switching shares (except in the case of an entry/exit charge paid by the fund when buying or selling units in another sub-fund).

The ongoing charges figure shown here is an estimate of the charges. An estimate is being used since the Investment Manager agreed to voluntarily limit total ongoing charges to the number shown, which is net of a fee waiver of 0.10% of the annual management fee currently provided for in the Prospectus. The annual management fee will revert to the gross figure upon the expiry of the fee waiver. The annual report for each financial year will include detail on the exact charges made. The ongoing charges figure also excludes portfolio transaction costs. The figure may vary from year to year.

In the event that the Fund's operational expenses exceed the stated ongoing charges figure of 0.65%, the investment Manager shall discharge any excess out of its own assets.

The ongoing charges figure is based on the fund's annual management fee, whereby the Investment Manager shall be responsible for the fund's operational expenses.

For more information about charges, please see "Fees, Costs and Expenses" in the Prospectus.
