PR No. HMH/15/2015; HMA/9/2015

Report of Factual Findings on the corporate governance reporting of bank muscat SAOG and its application of the corporate governance practices in accordance with the CMA's Code of Corporate Governance

TO THE SHAREHOLDERS OF bank muscat SAOG

We have performed the procedures prescribed in the Capital Market Authority's (CMA) circular no 16/2003, dated 29 December 2003 with respect to the accompanying corporate governance report of bank muscat SAOG (the Bank) and its application of corporate governance practices in accordance with the CMA's Code of Corporate Governance issued under circular no. 11/2002 dated 3 June 2002 and the CMA's Rules and Guidelines on disclosure, issued under CMA administrative decision 5, dated 27 June 2007. Our engagement was undertaken in accordance with the International Standard on Related Services applicable to agreed-upon procedures engagements. The procedures were performed solely to assist you in evaluating the extent of the Bank's compliance with the code as issued by the CMA.

We report our findings below:

We found that the Bank's corporate governance report fairly reflects the Bank's application of the provisions of the code and is free from any material misrepresentation.

Because the above procedures do not constitute either an audit or a review made in accordance with International Standards on Auditing or International Standards on Review Engagements, we do not express any assurance on the corporate governance report.

Had we performed additional procedures or had we performed an audit or review of the corporate governance report in accordance with International Standards on Auditing or International Standards on Review Engagements, other matters might have come to our attention that would have been reported to you.

Our report is solely for the purpose set forth in the first paragraph of this report and for your information and is not to be used for any other purpose. This report relates only to the accompanying corporate governance report of bank muscat SAOG to be included in its annual report for the year ended 31 December 2015 and does not extend to any financial statements of bank muscat SAOG, taken as a whole.

Ent. Joing LLC 23 February 2016

Chairman's Report 2015

Dear Shareholders,

I am glad to share with you the encouraging results achieved by the bank during 2015. Amid the challenging economic and financial situation marked by low oil prices, the key business lines of the bank recorded healthy performance on expected lines.

Oman's Economy

The Sultanate's economic growth in 2015 stood at 3 per cent, mainly due to pressure on revenue amid year-long low oil prices. The economic and fiscal reliance on the oil and gas sector added pressure to public finance. Oman's financial buffers, domestic savings and healthy banking sector served as a source of stable funding for the government. The banking and financial sector maintained healthy credit growth of over 10 per cent while Muscat Securities Market (MSM) reflected the changing outlook for the region owing to low oil prices. Oman's inflation level averaged 2.9 per cent in 2015.

Financial Overview

The bank posted a net profit of RO 175.45 million in 2015 compared to RO 163.23 million reported in 2014, an increase of 7.5 per cent. Net Interest Income from Conventional Banking and Income from Islamic Financing stood at RO 260.51 million for the year of 2015 compared to RO 243.64 million in 2014, an increase of 6.9 per cent.

Non-interest income at RO 147.23 million was higher by 5.6 per cent compared to RO 139.47 million for the year ended 31st December 2014. Operating expenses for the year ended 31st December 2015 at RO 171.06 million was higher by 8.3 per cent as compared to RO 157.89 million in 2014.

Impairment for credit losses for the year of 2015 was RO 71.98 million as against RO 64.33 million in 2014. Recoveries from impairment for credit loss were RO 35.88 million for the year 2015 as against RO 26.06 million in 2014. Share of income from associates for the year 2015 was RO 2.56 million as against RO 1.52 million in 2014.

Net Loans and advances from conventional operation increased by 4.9 per cent to RO 6,695 million as against RO 6,386 million as at 31st December 2014. Customer deposits, including CDs from the conventional operations increased by 6.2 per cent to RO 6,738 million as against RO 6,345 million as at 31st December 2014.

Islamic financing receivables amounted to RO 635 million as of 31st December 2015 compared to RO 400 million in 2014. Islamic Banking customer deposits amounted to RO 625 million as of 31st December 2015 compared to RO 283 million reported on 31st December 2014.

The basic earnings per share were RO 0.077 in 2015 as against RO 0.071 in 2014. The bank's capital adequacy ratio stood at 16.10 per cent as on 31 December 2015 after appropriation for proposed dividend for the year 2015 against the minimum required level of 12.625 per cent as per Basel III regulations issued by the Central Bank of Oman.

The Board of Directors has proposed 30 per cent dividend for the year 2015. Continuing the Bank's strong dividend payment track record, the Board of Directors has proposed 25 per cent cash dividend which is consistent with the cash dividend paid in the last five years. In addition, 5 per cent dividend in the form of bonus shares has been proposed. The Bank has retained sufficient level of profits to further strengthen the capital base and be better positioned for possible future challenging market conditions.

Shareholders would receive cash dividend of RO 0.025 per ordinary share of RO 0.100 each aggregating to RO 57.29 million on bank's existing share capital. In addition, they would receive bonus shares in the proportion of one share for every 20 ordinary shares aggregating to 114,591,130 shares of RO 0.100 each amounting to RO 11.46 million. The proposed cash dividend and issuance of bonus shares are subject to formal approval of the Annual General Meeting of the shareholders and the regulatory authorities.

Strategic initiatives

• In line with the strategy for the coming period, the bank expanded the Management Team and unveiled a new Organisational Structure focusing on customer-centricity, operational efficiencies and career opportunities for talented young Omanis.

Key developments

- The only IPO on the Muscat Securities Market during 2015 for Phoenix Power Company was led by the bank and was an overwhelming success. The IPO of RO 56.2 million was hugely oversubscribed demonstrating the bank's strong franchise with local and international investors
- The debt finance group raised RO 385 million for Oman Electricity Transmission Company SAOC via an international bond offering. This issuance was the first international bond issuance by a Government owned entity from Oman.
- In step with the bank's strategy to enhance technology-driven digital banking, the bank
 upgraded its mobile banking application with new services and enhanced its internet
 banking services to retail and corporate customers. The bank also launched Oman's first
 electronic branch in the banking sector.
- Marking the 45th year of Oman's Renaissance anniversary, the bank widened the scope of al wathbah Academy training programme to benefit 30 aspiring entrepreneurs from Batinah and Dhofar regions as new centres were opened in Sohar and Salalah to offer 8-month SME training programme leading to accredited international certification.
- The bank was mandated to arrange syndicated loans for new developments in the real estate, contractor accommodation and oil & gas sectors. In addition, it was also mandated as a Lead Arranger for two power & related water projects.
- In one of the largest real estate financial transactions in the Sultanate, the bank signed an agreement with Saraya Bandar Jissah to finance development of Oman's luxurious integrated tourism complex (ITC) in Muscat.

- Meethaq inked various project financing contracts for providing Shari'a compliant financing with various prestigious companies and developers in Oman, including the national carrier Oman Air for acquiring its second Boeing 787 Dreamliner, Oman Shipping company for VLCCs, Muscat Grand Mall (phase 2) and Oman Sebacic Duqm.
- Meethaq Islamic Banking sustained its leading position in the Islamic banking industry in Oman and witnessed tremendous growth in terms of deposit mobilization, financing receivable in both retail and corporate, branch network, product and services. Meethaq also provided advice to the Ministry of Finance on the debut Sovereign Sukuk issuance of RO 250 million.

Awards and Accolades

The bank won prestigious global, regional and local awards in 2015. The notable accolades included the Best Bank in Oman by Euromoney and Global Finance, Asian Banker's Best Bank in Middle East and Africa for Liquidity Risk Management, and Global Investor's Oman Asset Manager of the Year. The bank also won prestigious awards from Deutsche Bank and JP Morgan Bank for outstanding performance in euro and dollar denominated fund transfer and commercial payments. In recognition of a distinct identity visible through innovative HR strategies, the bank won the GCC Best Employer Brand award by the Employer Branding Institute, CMO Asia.

The Year Ahead

Cautious optimism prevails for Oman's economy in 2016 owing to its stable fundamentals and prudent policies to support fiscal reforms and non-oil sectors. The austerity measures to plug falling oil revenues are expected to help Oman maintain the economic and financial position. The 2016 budget and the 9th Five Year Plan projects provide room for the private sector to participate in infrastructure projects which will continue to give a fillip to the economy as well as generate employment opportunities.

In Conclusion

On behalf of the Board of Directors, I take this opportunity to thank the banking community, both in Oman and overseas, the shareholders and clients for the confidence reposed in the bank. I would also like to thank the Management Team and all our employees for their dedication and commitment to press ahead amid the challenging situation to reach higher levels of excellence. Following 33 years of successful growth, the Sultanate's flagship financial institution is poised to further consolidate its leading position, driven by the 'Let's Do More' vision which reflects the strategy for the coming period.

The Board of Directors welcomes and supports the measures taken by the Central Bank of Oman and the Capital Market Authority to strengthen the financial market in the Sultanate. The foresight and market-friendly policies adopted by His Majesty's Government have helped the bank to record encouraging results.

As Oman marches into 46th year of the glorious Renaissance in 2016, we express our deep gratitude and appreciation to our leader, His Majesty Sultan Qaboos Bin Said for his vision and guidance, which has helped the country along its path of success, growth and prosperity.

Khalid bin Mustahail Al Mashani

The _

CORPORATE GOVERNANCE STATEMENT

Corporate Governance is the system by which business corporations are directed and controlled. The Corporate Governance structure specifies the roles of different participants in the corporation, such as the Board, managers, shareholders and other stakeholders, and spells out the rules and procedures for making decisions on corporate affairs. By doing this, it also provides the structure through which the entity's objectives are set, measured and monitored.

The Board of Directors of bank muscat SAOG (bank muscat or the Bank) is committed to the highest standards of Corporate Governance. The Bank is committed to raising the bar even further so as to set a leading example of the letter and spirit of the Code of Corporate Governance laid out by the Capital Market Authority (CMA) and the regulations for Corporate Governance of Banking and Financial Institutions issued by the Central Bank of Oman (CBO). This commitment was reflected in the Bank being awarded first place in the CMA Corporate Governance Excellence Awards in the Financial Sector for the year 2011. In addition, the Bank won the overall CMA award which included participation from listed companies across Financial, Industrial and Services sectors. These two prestigious accolades were a follow on from being awarded second prize in the Middle East North Africa (MENA) region for Corporate Governance excellence by the Hawkamah Institute in 2010. Following on from this success, the Bank also took first place in the Hawkamah Corporate Governance awards in 2012 and won a further Hawkamah award in 2013. In 2014, Hawkamah judged bank muscat as the top listed Omani Bank, which demonstrated continued excellence in this area.

The CMA Code of Corporate Governance for Public Listed Companies issued by circular no. 4.2015 in July 2015 and amendments and the CBO circular BM 932 on Corporate Governance of Banking and Financial Institutions are the principal codes and drivers of Corporate Governance practices in the Sultanate of Oman. bank muscat fully complies with all of their provisions. The CMA Code of Corporate Governance can be found at the following website, www.cma.gov.om. In addition, due to its listing on the London Stock Exchange through its Global Depository Receipts, the Bank is required to comply with section 7.2 of the FSA Handbook on Disclosure and Transparency Rules and has done so in this report.

Corporate Governance has also been defined more narrowly as the relationship of an entity to its shareholders or more broadly as its relationship to society. That is why, in 2008, a department dedicated to Corporate Social Responsibility was established with the vision of adopting a new approach of addressing society's needs through inspiring new forms of true partnership among all sectors of society to serve the community in the best way. There is a separate sustainability report section in this year's annual report.

Board of Directors

The roles of the Chairman of the Board of Directors (the Board) and Chief Executive Officer (CEO) are separated with a clear division of responsibilities at the head of the Bank between the running of the Board and the executive management responsibility for running bank muscat's business. The Board of Directors is responsible for overseeing how management serves the long-term interests of shareholders and other key stakeholders.

The Bank's Board of Directors principal responsibilities are as follows:

- policy formulation, supervision of major initiatives, overseeing policy implementation, ensuring compliance with laws and regulations, nurturing proper and ethical behavior, transparency and integrity in stakeholders' reporting;
- approval of commercial and financial policies and the budget, so as to achieve its objectives and preserve and enhance the interest of its shareholders and other stakeholders;
- preparation, review and updating of the plans necessary for the accomplishment of the Bank's aims and the performance of its activities, in light of the objectives for which it was incorporated;
- adoption of the Bank's disclosure procedures, and monitoring their application in accordance with the rules and conditions of the Capital Market Authority and the Central Bank of Oman;
- supervision of the performance of the Executive Management, and ensuring that work is properly attended to, so as to achieve the Bank's aims, in the light of the objectives for which it was incorporated;
- appointment of the CEO, the Deputy Chief Executive and the Chief Operating Officer, as well as appointment of the officers answering to either of them pursuant to the organizational structure of the Bank;
- appraisal of the performance of the Executive Management mentioned and appraisal of the work carried out by the committees affiliated to the Board; and
- approval of the financial statements pertaining to the Bank's business and the results of its
 activities which are submitted to the Board by the Executive Management every three
 months, so as to disclose its true financial position and performance.

Performance Review

In 2012, the Board employed Ernst and Young to conduct an independent evaluation of its practices and processes. Specifically the evaluation focused on the following areas:

- Compliance with applicable regulations;
- Role of the directors and effectiveness of challenge to executives;
- Substance of agenda and mandate (e.g. papers , minutes and other evidence)
- Board Structure;
- Board Composition;
- Board Processes;
- Board Conduct.

The review was completed over a period of two months and involved detailed interviews with the Chairman, all members of the Board and Executive Management. The final report was presented to the Board and the overall summary position was that the directors of bank muscat had established a process of constant improvement and excellence and that many of the Banks practices are already comparable to leading global practices. In line with its commitment to continuously improve and enhance its corporate governance framework, the Bank has selected KPMG to perform the $\frac{2015}{2016}$ Board Evaluation exercise

Process of nomination of the directors

The Board, with the Nomination and Compensation Committee reviews the required skills of directors to ensure they meet the "fit and proper" criteria prescribed by the CMA and the CBO. Approvals are obtained from the CMA before the director is approved by the shareholders at a general meeting. Directors approved by the general meeting must meet the CBO's requirements before they are confirmed as members on the Board. Shareholders retain the power to elect any candidate to the Board irrespective of whether the candidate is recommended by the Board or not.

Election process and functioning of the Board

The Board of Directors is elected by the shareholders of the Bank at an Annual/Ordinary General Meeting. The Board is elected for a three year term. The Board reports to the shareholders at the Annual General Meeting (AGM) or specially convened general meetings of the shareholders. The meetings of the shareholders are convened after giving adequate notice and with detailed agenda notes being sent to them. The AGM's are well attended by shareholders and there is healthy discussion and interaction between members of the Board, shareholders and functionaries of the Bank. All members of the Board of Directors attend the AGM. Any absence necessitated by urgent circumstances by any member of the Board, is conveyed to the Chairman and shareholders.

The Board is comprised of nine members, elected by the shareholders at the Bank's AGM on March 20, 2013, for a period of three years. All members of the Board attended the AGM. The current term of the Board of Directors will expire before March 31, 2016 as per the Commercial Companies Law, where an election will take place at the AGM.

Changes in the Board structure, constitution and membership

The constitution of the Board, election process for Board members and shareholders' interests are areas of prime concern for the good governance commitment of the Bank.

No director is a member of the Board of more than four public joint stock companies or banks whose principal place of business is in the Sultanate of Oman, or is a Chairperson of more than two such companies.

Details of Board members are outlined in "Table 2".

Independence of Board members

There are no executives of the Bank who are members of the Board. Six members of the Board are independent in terms of the parameters prescribed by the Code of Corporate Governance for Muscat Securities Market listed companies and its amendments. Furthermore, the Capital Market Authority has announced a revised Code of Corporate Governance for Publicly Listed Companies in July 2015. According to the revised CMA Code of Corporate Governance a director shall be deemed non-independent including but not limited to the following cases:

- 1. Holding ten per cent (10%) or more of the company shares, its parent company, or any of its subsidiary or associate companies;
- 2. Representing a juristic person who holds ten per cent (10%) or more of the company shares, its parent company, or any of its subsidiary or associate companies;
- 3. Had been, during the two years preceding candidacy or nomination to the board, a senior executive of the company, its parent company or any of its subsidiary or associate companies;
- 4. Being a first degree relative of any of the directors of the company, its parent company or any of its subsidiary or associate companies;
- 5. Being a first degree relative of any of the senior executives of the company, its parent company or any of its subsidiary or associate companies;
- 6. Being a director of the parent company or any of the subsidiary or associate companies of the company being nominated for its board membership;
- 7. Being, during the two years preceding candidacy or nomination to the board, an employee of any of parties contractually engaged with the company (including external auditors, major suppliers or civil society organisations ("CSO") where the latter received a support in excess of 25% of the annual budget of such CSOs);
- 8. Being, during the two years preceding candidacy or nomination to the board, an employee of the parent company or any of its subsidiary or associate companies;
- 9. Holding about 20% of the shares of any of the above mentioned parties during the two years preceding candidacy or nomination to the board.

Remuneration to the Board and Top Management

The sitting fees paid to the directors in 2015 amounted to RO 74,125/- in addition to a total remuneration being paid to Directors amounting to RO 125,875/-. The total remuneration and sitting fees paid/accrued to members of the Board of Directors for the year 2015, met the maximum total limit of RO 200,000/- prescribed by the Commercial Companies Law No. (4/1974) as amended by the Royal Decree No. (99/2005). As all members of the Board are Non-Executive Directors; no fixed remuneration or performance linked incentives are applicable.

The total remuneration paid/accrued to the top six executives of the Bank for the year 2015 was 3.730 million. This includes salary, allowances and performance related incentives. This remuneration was approved by the Board of Directors.

Committees of the Board and their functioning

During the year 2015, there were three committees of the Board which provided able and effective support to the full Board in carrying out its responsibilities. The three committees and their primary responsibilities were as follows:

1) Board Risk Management Committee

The Board Risk Committee (BRC) at bank muscat oversees the risk management function and provides recommendations to the Board of Directors on the risk-reward strategy, risk appetite and risk policies, regulatory guidance on risk management, capital management and framework for managing all applicable risks. The Board reviews and approves the risk management

strategy and defines its risk appetite, which is cascaded down to various business segments. The BRC supervises and ensures that the Bank achieves its business plans in compliance with the risk appetite set by the Board of Directors. Its key responsibilities are as follows:

- Formulates risk policy including credit, market and liquidity, operational risks, and protective services with a view to achieve the strategic objectives of the Bank;
- Ensures that the Bank maintains a strong quality risk portfolio;
- Oversees risk policy implementation to ensure these policies are in compliance with the relevant laws and regulations;
- Fosters transparency and integrity in stakeholder reporting;
- Embrace and spread awareness in improved risk management practices and risk governance in the bank.

The following areas were discussed at the BRMC meetings during 2015 and the appropriate recommendations were presented to the Board of Directors for their approval:

- The BRC received and reviewed the Risk Policy Compliance Report at quarterly intervals.
 These reports provide a status of compliance with the risk levels set by the Board of
 Directors. The key issues from the report were discussed in detail and appropriate feedback
 / guidance was provided on same;
- A detailed presentation on the impact on oil price volatility on the economy, the banking sector and the Bank was made and there were discussions on the risk mitigation strategies and opportunities presented by the emerging environment;
- The BRC received the Internal Capital Adequacy Assessment Process (ICAAP) of the bank.
 This was followed by a review of capital, based on stress testing and a forward looking ICAAP;
- BRC did a portfolio review of Investments, Country and Bank exposures and reviewed the revised business strategy in light of the changes in regulatory guidelines;
- BRC did a review of overall market risk and liquidity risk management in the Bank which
 included a review of interest rate risk, FX risk, investment risk and commodity risk along
 with Value at Risk methodology followed to measure market risk;
- BRC reviewed the corporate banking portfolio of the Bank with in-depth focus on top corporate relationships. BRC reviewed the strengths, weaknesses and the risk mitigants available for each of the key lending relationships;
- A review of the performance of the retail credit portfolio was done by BRC focusing on asset quality, risk cost and yield along with new initiatives taken to grow the portfolio and improve portfolio quality;
- BRC did a review of Meethaq portfolio including asset quality, customer profile and concentration;
- BRC reviewed the asset classification process, status of recovery actions, legal process, and challenges faced during the recovery process based on inputs from the remedial credit department;
- Following the nomination of the bank as a DSIB, BRC members discussed the draft D-SIB guidelines issued by the regulator, its impact on the bank and the status of compliance with the regulatory requirements. The members deliberated on the capital management strategy in light of the above.

In the joint meeting of Board Risk and Audit committee the following topics were covered:

- Risk management framework adapted and followed in the Bank including the 3 lines of defence model followed to manage risk. The committee also reviewed the bank's risk appetite framework;
- Top 10 risks faced by the Bank. Each of the top 10 risks were reviewed in detail including its likelihood, impact and recommendations to mitigate it;
- Presentation on Internal Control Environment was made by Internal Audit department. The
 coverage included the bank's control environment, major activities in 2015 and reviewed the
 key issues raised during the year.
- Review of the Protective Service Unit in the Bank was performed, encompassing the following:
 - Physical security;
 - Information Technology security;
 - Business Continuity Management.
- BRC did a review of Information Technology and Operations along with key initiatives planned for 2015-16;
- BRC reviewed the overall risk management process in place at the bank. Based on the business strategy and the operating environment, they provided guidance on the priorities for 2016.

2) Board Audit Committee

The primary responsibilities and functions of the Audit Committee are to provide assistance to the Board of Directors in fulfilling its responsibilities of monitoring/overseeing the financial reporting process, the adequacy and effectiveness of the systems of internal control, the effectiveness of the audit process and the Bank's process of complying with the relevant laws and regulations. The Audit Committee meets frequently to review the work of the Internal Audit Department, challenge the Bank's management and to assess the overall control environment prevailing in the organization. It reviews the reports presented by Internal Audit and other bodies in its deliberations and offers guidance and direction in the area of risk management, including fraud and related controls. Brigadier General Nasser bin Mohamed Al Harthy was appointed Chairman of the Audit Committee on April 4, 2011.

The Audit Committee reviews on an annual basis the Audit Committee Charter, Management Control Policy, Internal Audit Activity Charter and has approved a Code of Ethics policy for all internal auditors within the department. These are key to reinforce the organizational independence of internal audit and to establish their rules of engagement throughout the Bank. The Audit Committee has adopted a risk based approach and accordingly reviews and approves the Annual Audit Plan on that basis. The Audit Plan contains sufficient flexibility to adapt to new and emerging risks, changing circumstances, business strategy, products and services.

The Audit Committee views a robust fraud management framework as a priority and has sponsored a number of initiatives in this area, including the requirement for all staff to complete a fraud awareness programme and successfully complete the associated examination. Additionally, bank muscat is one of a few entities in the Sultanate to have approved a Whistle Blower Protection Policy and encourages all employees to report wrongdoing wherever they see it.

In 2015, the Chief Internal Audit Officer and the Audit Committee commissioned Protiviti, global risk services and assurance specialists, to perform an external quality review of the Internal Audit department as is required by International Standard for the Professional practice of Internal Auditing. This review must be performed at least once every five years. In line with the International Professional Practices framework promulgated by the Institute of Internal Auditors, the Internal Audit activity was assessed as being compliant with these standards and rated as an advanced internal audit function. Therefore, the Internal Audit function is permitted to use the words "conducted in accordance with international standards" in its reports. The external quality review, once again, affirms that the internal audit activity conforms to the International Professional Practices Framework of IIA.

The Audit Committee places enormous emphasis on the professional development of all internal audit staff to ensure that they are able to perform their duties to the highest level possible. Adequate financial and other resources are made available to the function and, in particular, to support the attainment of relevant qualifications and certifications in areas such as Accounting, Internal Audit, Fraud, Risk Management, Information Security, Islamic Finance, Compliance and Anti-Money laundering.

Both the Board Risk Management Committee and the Audit Committee met as per schedule during the year 2015 and have performed the responsibilities delegated to them.

3) Board Nomination and Compensation Committee

The Board Nomination and Compensation Committee is responsible for:

- leading the process for Board and Management appointments, through the identification and nomination of relevant candidates for Board approval; and
- Setting the principles, parameters and governance framework of the Bank's Compensation policy. In 2015, this involved:
 - a review and approval of a Revised Performance Management and Compensation Policy, Rewards and Incentive Review as per the Central Bank of Oman's guidelines titled "Staff Compensation in Banks";
 - Reviewing the talent management framework and succession planning in the bank;
 - An approval of a performance based reward distribution criteria for Management Team members;
 - A review of the Management Team optimization project and proposal of a new organizational structure for the bank;
 - A Review and amendment of performance management, rewards and incentive policy in line with the (28) rules issued by the Financial Stability Board as introduced by the CBO.

The shareholding structure of the Bank is as follows:

Major Shareholders	%
Royal Court Affairs	23.58
Dubai Financial Group "LLC"	12.33
HSBC A/C Ministry of Defense Pension Fund	6.48
Civil Service Employees Pension Fund	4.92

Muscat Overseas Company "LLC"	4.03
HSBC A/C JPMCB A/C IFC capitalization equity fund LP	3.01
Oman National Investment Development Company SAOC (NIFCO)	2.96
Public Authority for Social Insurance	2.67
HSBC A/C CITIBK A/C International Finance Corporation	2.20
Royal Oman Police Pension Fund	1.89
Others	35.92

Out of 2,291,819,375 fully paid-up shares 823,269,555 shares are held by around 7,153 (MDSRC) Muscat Depository and Securities Registration Company registered shareholders. There is a difference of 3,222 shares with the outstanding capital of bank muscat which we understand from MCD is due to fractional shares which will remain with bank muscat.

Rights of shareholders

All the Bank's shares shall carry equal rights which are inherent in the ownership thereof, namely the right to receive dividends declared and approved at the general meeting, the preferential right of subscription for new shares, the right to a share in the distribution of the Bank's assets upon liquidation, the right to transfer shares in accordance with the law, the right to inspect the Bank's statement of financial position, statement of comprehensive income and register of shareholders, the right to receive notice of and the right to participate and vote at general meetings in person or by proxy, the right to apply for annulment of any decision by the general meeting or the Board of Directors, which is contrary to the law or the Articles of the Bank or regulations, and the right to institute actions against the directors and auditors of the Bank on behalf of the shareholders or on behalf of the Bank pursuant to the provisions of Article (110) of the Commercial Companies Law No. (4/1974) and its amendments. Issuance of new shares for shareholders as bonus shares does not require the approval of the EGM, whereas private placement requires EGM. The regulatory framework in the Sultanate of Oman does not facilitate a buyback of its own shares by the Bank.

To this end, bank muscat gives minority shareholders prime importance in terms of safeguarding their interests and ensuring that their views are reflected in shareholders meetings. The "one share one vote" principle applies to all shareholders so that minority shareholders can nominate members of the Board and can take action against the Board or the management if the actions of the Board or management are in any way prejudicial to their interests.

Related party transactions, dealings and policy

There is a comprehensive policy on related party dealings, and processes and procedures laid down which are followed in the matter of all loans and advances given to directors and their related parties and also any transactions with companies in which directors have a significant/controlling interest.

Details of loans and advances, if any, given to any Director or his related parties are furnished with full details in the notes to the financial statements given in the annual report as public disclosures. Other transactions with Directors carried in the normal course of business and

without any preferential treatment are disclosed to the shareholders along with the agenda notes for the AGM.

Affirmations

- 1. The Board of Directors and management affirm that the Bank is in strong financial health and is expected to meet current growth and expansion plans.
- 2. The Board conducts a review of the effectiveness of the Bank's system of internal controls at least once every year and finds the systems effective.
- 3. There is a well laid down procedure for write-off of loan dues and write off is resorted to only after all other means of retrieval have exhausted.
- 4. All financial statements are prepared after proper scrutiny of the books of accounts and the Bank follows the International Financial Reporting Standards (IFRS) in the preparation and presentation of its accounts.
- 5. The Bank has implemented a robust internal check and control environment to ensure accurate and timely financial reporting and financial consolidation. The Bank's financial performance and business performance are reported to the Board of Directors regularly after a detailed review and analysis by the Finance Department. Financial statements are prepared using appropriate accounting policies which are consistently applied. The Bank has established necessary operational procedures and controls to ensure accurate and timely processing of transactions and accounting. The interim financials are reviewed by the Internal Audit Department before presenting to the Audit Committee and the Board of Directors for final approval, thereafter.
- 6. There are well designed policies and procedures in place for all Bank operations as is expected of a large Bank with an international presence.
- 7. For insurable matters, the Bank has taken adequate cover to ensure insurance protection for properties and insurable assets.
- 8. The Bank complies fully with the CMA Code of Corporate Governance for Public Listed Companies and amendments.
- 9. The Bank has completed all the necessary preparation for meeting Basel II Pillar III standards.
- 10. The Bank meets the Capital Adequacy Standards (Capital Adequacy Ratio-CAR) prescribed by the Basel Committee and the CBO.
- 11. For 2015, the Board of Directors has proposed 30 per cent dividend, continuing with the Bank's strong dividend payment track record. The Board of Directors have proposed 25 per cent cash dividend for the year 2015 which is consistent with the cash dividend paid in the last five years. In addition, 5 per cent dividend in the form of bonus shares has been proposed. The bank has retained sufficient level of profits to further strengthen the capital base and be better positioned for possible future challenging market conditions. Shareholders will receive cash dividend of RO 0.025 per ordinary share of RO 0.100 each aggregating to RO 57.29 million on bank's existing share capital. In addition, they will receive bonus shares in the proportion of one share for every 20 ordinary shares aggregating to 114,591,130 shares of RO 0.100 each amounting to RO 11.46 million. The proposed cash dividend and issuance of bonus shares are subject to formal approval of the Annual General Meeting of the shareholders and the regulatory authorities.
- 12. The Bank prepares a Management Discussion and Analysis report which is included as a separate section in the Annual Report.

Dividend Policy

The Board follows a conservative dividend policy so as to provide adequate reserves and provisions to meet any circumstances that may arise due to internal or external contingencies. The policy seeks to reward shareholders yet looks at future growth in terms of capital adequacy through profit retention.

Disclosures, disclosure policy and investor information

- 1. bank muscat attaches the utmost priority to shareholder rights and disclosure of information. All the Banks' news and developments, including the financial statements, are available to any shareholder who seeks this information. Any shareholder seeking any information about the Bank may approach the Bank for same.
- 2. The latest news and information about the Bank is also available on its website, www.bank muscat.com.
- 3. There is a comprehensive Disclosure Policy, a Disclosure Committee and nominated spokespersons for disclosure of information news and data relating to the Bank to shareholders, stakeholders and the public. All material information is disclosed in a timely and systematic manner to shareholders and stakeholders.
- 4. Items of investor information are posted simultaneously on the Bank's website <u>www.bank</u> <u>muscat.com</u> and all interested are encouraged to access this information at convenience.
- 5. During the last three years, no fines were imposed on the Bank by the CMA for regulatory fines.
- 6. During the year 2015, an amount of RO 230,960/- was accrued/paid to the Bank's external auditors against the audit and assurance related work. The Bank uses different external auditors in different jurisdictions it operates. The payments to external auditors are for the bank's operations in Oman, KSA and Kuwait for audit and other assurance related work.
- 7. The Bank presented to a number of analysts and investors from local, regional and international jurisdictions during the year.

bank muscat's equity share price and price band in the Muscat Securities Market

Kindly see table 3 given at the end of this report for a month-wise listing of share prices of Bank muscat's shares on the Muscat Securities Market.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF bank muscat SAOG

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of bank muscat SAOG (the "Bank" or the "Parent Company") and its subsidiary (together the "Group"), which comprise the consolidated statement of financial position as at 31 December 2015, and the consolidated statement of comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Directors' responsibility for the consolidated financial statements

The Bank's Board of Directors is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards and relevant requirements of the Commercial Companies Laws of 1974, as amended, and the Capital Market Authority and for such internal control as Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2015, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

Report on other legal and regulatory requirements

In our opinion, the consolidated financial statements comply, in all material respects, with the relevant requirements of the Commercial Companies Law of 1974, as amended and the Capital Market Authority.

Management Discussion & Analysis 2015

Global Economy

In 2015, the world economy grappled with the fall in oil prices and other commodity prices. According to the World Bank, global growth fell short of expectations in 2015, decelerating to 2.4 per cent from 2.6 per cent in 2014. The low performance mainly reflected a continued deceleration in emerging and developing economies amid post-crisis lows in commodity prices, weaker capital flows and subdued global trade. The prospect of rising interest rates in the US and an economic slowdown in China fed uncertainty and a higher risk of economic vulnerability worldwide.

Oman's Economy

The Sultanate's economic growth in 2015 stood at 3 per cent, mainly due to pressure on revenue amid year-long low oil prices. The economic and fiscal reliance on the oil and gas sector added pressure to public finance. Oman's financial buffers, domestic savings and healthy banking sector served as a source of stable funding for the government. Oman's fiscal deficits widened as hydrocarbon-related government revenues dropped by more than 40 per cent.

Financial sector

The banking and financial sector maintained a healthy credit growth of 8.3 per cent at the end of November 2015. The aggregate deposits of Omani banks rose by 4 per cent to RO 18 billion in November 2015 from RO 17.3 billion for the same period in 2014. Muscat Securities Market (MSM) reflected the changing outlook for the region owing to low oil prices. Oman's inflation level averaged 2.9 per cent in 2015.

Opportunities and Threats

In light of the challenging outlook for Oman's economy, the 2016 budget has taken bold decisions reflecting prudent and careful planning. The realistic budget focuses on supporting growth and stimulating the private sector as infrastructure projects continue to give a fillip to the economy.

The banking sector is poised to sustain growth owing to the government's continued focus on economic diversification and infrastructure development across the Sultanate. Perceived challenges relating to Oman's economy are mainly linked to low oil prices. Since domestic economic growth and oil prices tend to move together, declining oil prices can result in both external and fiscal account deficit.

The government's fiscal prudence over the years resulting in building up reserves is seen providing a cushion to sustain growth in the near-term. Oman's low debt-to-GDP ratio at 4 per cent is also favourable to help raise finance for development projects. The bank reckons that product innovation and improved level of service for both conventional and electronic channels will be the key to making a difference in banking excellence.

Segment–wise performance

The key business lines of the bank recorded healthy performance during 2015. The bank's core business activities are divided into the broad areas of Retail Banking, Corporate Banking, Investment Banking, Treasury, Asset Management, Premier Banking, Financial Institution and International Operations. Key support functions include Information Technology, Operations, Human Resources, Finance and Risk Management.

Retail Banking

bank muscat continued to provide an unrivalled experience to retail customers in 2015 with the right mix of traditional and electronic channels.

The bank's commitment to inculcate a healthy savings habit among the public was well received as RO 9 million was given away as prize money for al Mazyona Savings Scheme with guaranteed prizes to winners in all governorates and exclusive prizes for ladies, children, youth and high saving customers.

The bank launched Oman's first electronic branch in the banking sector. Located in the prime new retail destination - Oman Avenues Mall — the eBranch offers modern facilities like social corner where customers can interact on social media channels, video calling facility to speak face-to-face with Call Centre employees, customer appointment booking and feedback kiosk.

Enhancing the electronic and digital channels, the bank upgraded its feature-rich mobile banking application, introducing unique new services to do more banking from anywhere, anytime. The new easy-to-use mBanking services include fund transfers across the world via the bank's SWIFT network; speed transfer to India, the Philippines and Sri Lanka and mutual fund purchases. Winner of the coveted His Majesty Sultan Qaboos Award for the Best Public eService, mBanking is Oman's preferred mobile banking service with more than 350,000 registered customers.

The bank launched a new internet banking portal for both retail and corporate customers. The new features include direct utility bill payment and salary uploads by corporates.

Widening the reach of traditional channels, the bank opened five new service centres catering to the requirements of expatriate customers. Targeted at customers in high demand areas, the bank also launched 2 new mobile ATM trucks. The bank has the largest network of 153 branches, 432 ATMs and 184 CDMs.

Micro, Small and Medium Enterprises (MSME) are of strategic importance to the economy as they have an impact on employment and economic growth. To support the Omani economy by providing financing to under-served micro and small businesses, the bank launched 4 more najahi sales centres, taking the total number of centres to 8.

The Open Day series to reach customers across the Sultanate generated excellent response, benefitting hundreds of customers who availed the special rate of interest on personal finance.

bank muscat Premier Banking serves all premier customers of the bank through - Private, Priority and Privilege banking - providing personalised service catering to their complex financial needs. With one department serving all premier customers of the bank, the new Premier Banking segmentation reflects the customer-centric vision of the bank. Committed to further enhancing banking services to the premier segment, the bank's strategy focuses on business growth opportunities from the customer perspective with dedicated relationship managers, exclusive centres and online services. During the year, bank muscat Private continued to provide comprehensive bespoke solutions to preserve secure and grow wealth of premier customers. With experience and expertise, bank muscat Private Banking provides an exceptional breadth and depth of wealth management solutions, including investment, wealth structuring, advisory and banking across multiple jurisdictions around the globe and diverse asset classes.

Providing a differentiated and specialised banking experience, asalah Priority Banking played a unique role in response to client's preferences with a long-lasting presence and profound understanding forming a strong franchise that distinguishes asalah from competitors. asalah's revamped model was an immediate response to the rapidly growing customer segment.

During the year, the bank launched Al Jawhar Privilege Banking aimed at providing a distinct banking experience to its core customer segment. Designed around the unique lifestyle and banking requirements of the largest customer segment, Al Jawhar is the first-of-its-kind Privilege banking service in Oman.

Looking ahead, the bank remains committed to elevate premier banking service to unparalleled heights.

Corporate Banking

The Corporate Banking Department forged long-term and value-based relationships with almost all corporate entities in Oman, offering a wide range of sector-specific products backed by high quality service and relationship management. Continuing with its diversified growth strategy, the bank focused on identifying industry specific opportunities. Maintaining credit quality gained priority with an emphasis on proactive monitoring of credit, market and operational risks.

During the year, the bank rolled out its enhanced Corporate Internet Banking services with state-of-the-art features. The bank is in the process of relocating its corporate branch in Batinah region to a more dynamic and convenient location. The bank is focused on delivering superior customer service levels through new corporate branches combined with technology enabled solutions. A transaction banking desk was set up during the year comprising competent domain experts to service financial and operating needs of customers in the areas of cash management, current accounts and remittances.

In Project & Structured Finance, the bank maintained its leadership position by playing an integral part in several large-scale and key infrastructure projects. The bank's deep sectoral expertise along with innovative structuring capabilities and sound due diligence techniques enabled the team to pursue opportunities that cater to the long-term financing requirements of various projects in the Sultanate. These include projects in key sectors such as oil & gas, petrochemicals, shipping, real estate, aviation, power & water.

The bank was mandated to arrange syndicated loans for new developments in the real estate, contractor accommodation, and oil & gas sectors. In addition, the bank was also mandated as Lead Arranger for two power & related water projects.

Small & Medium Enterprises (SME) form the foundation of industrial, trade and services sector in Oman. Taking cognizance of the same, the bank has been providing the required support to the SME sector. The bank's support stems from the strong belief that SMEs help boost the local economy, contribute to the GDP and create employment opportunities. The bank's experience in partnering with SMEs has enabled it to develop non-traditional techniques for assessing credit risk and providing appropriate solutions distinct to their needs.

The bank supports SMEs through innovative financial products as well as non-financial services to grow their businesses. The bank organised al Wathbah Ramadhan Souq and other networking forums to encourage entrepreneurs to build their business. During the year, the bank partnered with the Ministry of Tourism, the Public Authority for SME development 'Riyada' and Malta Enterprises Fund by entering into Memorandums of Understanding aimed at strengthening the SME sector.

As a member of the Global Banking Alliance for Women Market, the SME team undertook a study tour to visit Westpac Bank, Australia and gained insights on best practices in supporting women entrepreneurs.

Investment Banking

The Investment Banking division maintained its market leadership with innovative financing solutions. In 2015, the division achieved closure for an aggregate of RO 2.2 billion of capital raises.

The debt finance group raised US\$ 1 billion (OMR 385 million) for Oman Electricity Transmission Company SAOC via an international bond offering. This issuance was the first international bond issuance by a Government-owned entity from Oman. The transaction received industry recognition and awards by GFC Bonds, Loans & Sukuks Awards Middle East for Sovereign/Quasi-Sovereign Financing Deal of the Year 2015 and Investment Grade Bond/Sukuk Deal of the year 2015.

The OETC transaction was the first in a series of long-term debt financing transactions in the electricity transmission and distribution sector and has since been followed by the successful closure of long-term financings for Muscat Electricity Distribution Company SAOC and Mazoon Electricity Distribution Company SAOC. The successful and timely financing led to a significant improvement in the long-term financial flexibility of the Government-owned entities in the sector.

During the year, the debt finance group acted as the sole issue manager for the debut RO 250 million Sukuk issuance by the Government of Oman. This transaction not only marked the first ever issuance of Shari'a compliant paper by the Government of Oman but also used for the first time in the Omani capital market history a book-building process with a uniform price auction for bond price discovery and this novel pricing

process was well received by investors. The transaction was a step towards further developing Oman's capital market.

The only IPO on the Muscat Securities Market during 2015 for Phoenix Power Company was led by the equity group and was an overwhelming success. The IPO of RO 56.2 million was hugely oversubscribed demonstrating the bank's strong franchise with local and international investors. In yet another first, the equity group launched and closed the Izdihar Real Estate Fund, which is the first real estate fund in Oman structured on REIT principles. Izdihar Real Estate Fund has become the only fund of its type to be structured under the CMA's fund regulations in Oman and was well received in the market.

Asset Management

The Asset Management Division remains the biggest wealth manager in Oman and a leading player in the region with total assets under management (AUM) of \$1.7 billion. While returns from the division's flagship mutual funds, the Muscat Fund and Oryx Fund, were negative during the year, both funds outperformed their benchmarks by 2.4% and 7.2% respectively. The funds were able to achieve this outperformance on account of better stock selection. The Money Market Fund with a yield of 1.09 per cent continues to offer an attractive alternative to the call and short-term deposits. The fixed income portfolios also generated positive returns and outperformed the competition.

During the year, the Asset Management Division concluded Series II of its GCC Property Income Fund that invests in properties offering a regular annual yield of 7 to 8 per cent. The Series II closing will invest in a commercial mall and warehouse property. The Fund continues to evaluate a number of assets and has a strong pipeline of deals.

In 2016, the Asset Management Division plans to add new products and widen its client base targeting institutions in Oman, GCC, and international markets.

Treasury & Capital Markets

The Treasury & Capital Markets (T&CM) Division maintained its leadership position despite increased competition in 2015. **bank muscat** is the only bank in the country to offer a full suite of treasury products and services on 24X7 basis. The treasury products and services include hedging for foreign exchange requirements, managing interest rate risks, eliminating commodity price risks from businesses, offering fixed income investment opportunities across the region and globe. The service encompasses East Asian time as well as early New York time zones spanning all international and GCC working days. The T&CM Division was instrumental in managing the Omani Riyal liquidity by active participation in the cash and forward markets which also helped in boosting the net interest income. The division ensured availability of liquidity in both local as well as foreign currency at all times and actively monitored and hedged interest rate risk. By initiating proactive measures bank was able to protect margins though lending spreads squeezed globally.

During 2015, the T&CM Division added several new clients spread across the GCC and Asia to its portfolio. To enhance productivity, reduce cost and improve service turnaround time, the bank successfully implemented a state-of-the-art new treasury software. The bank believes, this, along with a continued focus on sharing information and offering quality service to customers will create a sustainable competitive edge for its client-focused business for the years ahead.

International Operations

The International Operations of the bank is aimed at providing regional coverage to customers through the network of branches, representative offices and associates/subsidiaries.

The year 2015 was challenging for the GCC economies due to low oil prices and credit growth was modest in the markets we operate in, \sim 9% and \sim 6.5% year-on-year in Saudi Arabia and Kuwait respectively. Margins came under pressure during the year, both on account of competition for fewer assets as well as higher cost of funding.

Riyadh (Saudi Arabia) Branch

The Riyadh Branch added new customers and its loan portfolio grew in line with the market. It also posted modest growth in operating income and operating profits. However, the branch had to make additional provisions (to increase coverage of existing NPLs and against some new NPLs) and as a result the branch reported net loss for the year.

Kuwait Branch

Kuwait Branch recorded strong loan growth and increase in customer base. A few accounts have shown signs of stress, but these have been successfully restructured. The branch posted modest operating and net profits for the year. While operating profits were up from 2014 levels, higher general provisions (on account of business growth) resulted in net profits being around the same levels as 2014.

Muscat Capital

Muscat Capital continued to grow its business, especially its Assets Under Management in the Wealth/ Asset Management business, launching new funds, including real estate and IPO funds. Its market share in the brokerage business also improved. As a result, Muscat Capital, grew its net profits significantly from previous years, though in absolute terms they continue to be modest.

Al Salam Bank, Bahrain

Pursuant to the acquisition of BMI Bank by Al Salam Bank in 2014, the bank is a 14.7% shareholder in ASBB. The investment in Al Salam Bank is accounted for as an associate

and the bank is locked into the ASBB investment till March 2017. ASBB is listed on Bahrain bourse and Dubai Financial Market.

During the year, the integration of the 2 institutions was substantially implemented. The combined entity has benefited through a larger capital base, improved ratios and operating synergies.

ASBB reported modest profits for the year 2015. However, like many other GCC stocks, its share price has declined significantly following the decline in oil prices.

Mangal Keshav Securities Ltd (MKSL)

The bank completed its exit from MKSL in August 2015 through the last tranche of share buyback (the first two tranches were done in 2014). Losses associated with this exit were accounted for in 2013.

Singapore and Dubai Representative Offices

These offices, located in regional financial hubs, continue to operate as marketing offices and assist the bank in maintaining relationships with banking counterparties.

Risk Management

The bank reckons risk management as an area of core competence and has made steady investments to enhance risk management capabilities.

The bank's risk management, benchmarked to industry best practices, is in line with its nomination as the sole Domestic Systemically Important Bank (DSIB) in Oman. As a designated DSIB, the bank has framed and adopted the Recovery and Resolution Planning.

During the year, the bank formed a separate Management Risk Committee with oversight over enterprise-wide risks. The bank also carried out an external validation of the Internal Capital Adequacy Assessment Process (ICAAP). The risk rating models used in decision making were validated internally to make sure that their performance was in line with expectations.

In line with prevailing economic situation and geared for meeting unforeseen eventualities, the bank conducted stress tests under different stress scenarios and adopted measures to meet emerging challenges. To reinforce the risk culture in the bank, which is critical to sound risk management, the risk appetite framed by the Board were cascaded down to business units at a granular level and compliance to the appetite measured, reported and suitable corrective action, where warranted, were taken.

Information Technology, Operations & Infrastructure

The year 2015 was rewarding for the Information Technology Division. Aligning with the bank's vision to provide world class services through the latest technology and innovation, the IT Division endeavoured to implement emerging IT infrastructure, applications and tools in the organisation to further enhance timely, accurate, optimised and higher quality services to customers.

The IT Division worked on more than 100 projects of which 41 were fully delivered. The bank redefined the payment landscape towards a cashless environment by launching a feature-rich Internet banking portal and upgrading the existing mobile banking application enabling customers to do more banking from anywhere, anytime.

The implementation of iMAL core banking resulted in cutting edge Islamic banking channel services, including ATM/CDM, debit card, mobile banking and internet banking for Meethag customers.

The bank migrated to Murex treasury system, which offers an end-to-end suite for treasury front-middle-back office, accounting & reporting enabling traders to capture contracts with live market rates to extend best practice customer service. The upgrade

of Trade Finance application (TI+) has enabled the bank to benefit from the latest technology while also reducing operational cost.

The implementation of 3PAR Storage server for IT storage infrastructure has empowered the bank to deliver performance with true enterprise class features. Deployment of high end information security infrastructure and monitoring tools ensures the bank's information security defence capability by providing a high degree of protection. The bank also successfully completed the disaster recovery drill and business continuity exercise conforming to the bank's highest BCP standards.

Finance

Finance department plays a key role in planning and decision making process by supporting the Management Executive Committee (Mexco) and the Board of Directors. In the year 2015, the department focused on providing strategic support in achieving the business targets as planned and aligning the organisation to the challenging macro business conditions in terms of forward planning, strengthen liquidity position, improve profitability and operate with a strong capital base.

The department played a key role in ensuring an optimum level of cost to income ratio by managing the bank's overall cost base with only a reasonable increase and also paving platform for further cost efficiency measures in the years to come. The objective is to manage the cost base with possible level of flexibility to scale down during challenging business environment.

Commenced work on IFRS 9 impact assessment during the year 2015 in order to be ready for adoption of the standard well in time. The department also played a key role in complying with Basel III requirements in terms of capital and funding including the DSIB related requirements.

The department plays key role in important committees like Mexco, Asset Liability Committee, Management Risk Committee and IT Committee.

Human Resources Management

The bank recognises that its employees are the mainstay to meeting strategic objectives. The bank is focused on continuously enhancing the capabilities of its human resources and 2015 witnessed some significant developments towards this endeavour.

In all, 523 employees were recruited across all business functions achieving an Omanisation level of 93.90% as at 31 December 2015. Over 10,131 learning opportunities were provided by the Learning Centre through 774 courses and 16,222 training man-days were covered during 2015.

The bank adopted a new framework for Talent Management and Succession Planning in line with international best practices. This included implementation of upgraded Oracle HRMS systems in the areas of Talent Management, Succession Planning, Learning Management, Performance Management, Human Capital Analytics and the launch of Knowledge Management. A total of 213 roles were identified as Critical roles and their succession plans developed. The bank also identified 396 employees as Talent and put in place their Individual Development Plans (IDP).

The bank arranged the "Strategy for Growth and Long Term Value Creation" programme for the Board of Directors facilitated by INSEAD.

The bank also facilitated Al Wathbah SME Academy programme for employees and clients, aimed at enhancing the role of SMEs in the national economy. Eight Relationship Managers in SME and Retail Enterprise completed the programme.

A total of 13 Relationship Managers successfully completed the Omega Performance Credit Certification and a 2nd batch of 18 Relationship Managers from Corporate Banking, Credit Administration, Retail Enterprises and Risk Management have commenced the programme.

Twenty-five Relationship Managers and Sales Managers from Priority Banking and the branches successfully completed the Professional Relationship Managers programme facilitated by Mercuri International (UK).

The bank completed a leadership assessment and development programme for 75 Senior Executives in collaboration with Korn Ferry Inc, USA.

The bank continues to remain a preferred destination for college students seeking internship programmes. This year, a total of 742 students were offered internship opportunities in the bank as part of its Corporate Social Responsibility initiatives.

Three Management Team members attended the General Management Programme (GMP) at Harvard Business School (HBS), USA and two more are scheduled to participate early 2016.

A total of 145 Managers from departments and branches successfully completed the Tatweer Programme in 2015. Two more batches totalling 30 employees commenced in 2015.

Fifty employees were granted Educational Assistance (EAS) to pursue education at local universities and colleges in Oman and three graduated in 2015.

Six employees were selected for programmes in overseas universities under the Scholarship Scheme totalling 50 employees of whom eight graduated in 2015.

The Employee Engagement programme – CONNECT reached all regions with employees participating in various sports, arts and minds initiatives.

Meethaq Islamic Banking

Meethaq Islamic Banking achieved robust growth and sustained its leading position in the Islamic banking industry in Oman in terms of financing receivables, branch network, products and services, IT infrastructure development and human resources.

Five exclusive branches were opened during the year, taking the Meethaq branch network to 17. The widest reach in the market helps Meethaq to further strengthen relations with customers. As part of efforts to enhance service, Meethaq launched exclusive Call Centre operations.

In order to offer innovative products and customer-centric service, Meethaq commissioned the new iMal core banking system during the year. Offering premier services, Meethaq launched "Hafawa" Priority Banking with nine dedicated centers across the country.

Meethaq took a major stride in supporting the Sultanate's economic development as Oman's first and only Sharia-based aircraft finance was extended to the national carrier Oman Air for acquiring its second Boeing 787 Dreamliner. Meethaq led major project finance transactions with Oman Shipping Company for very large crude carriers (VLCCs) and Oman Sebacic company in Duqm. Meethaq also signed memorandum of understandings (MoUs) with various real estate projects to extend Shari'a compliant home finance.

Awards and Recognition

The strategic developments and achievements earned high commendations as the bank received prestigious foreign, regional and local awards.

- In recognition of banking excellence reflecting consistency of performance and innovative strategies, the bank won the 'Best Bank in Oman' awards by Global Finance, Euromoney and the Banker Middle East.
- Endorsing corporate leadership, the bank topped listed Omani companies ranked in the Forbes Top 500 Companies in the Arab World 2015.
- In recognition of the key role in the development of the local equity and debt markets and an impressive impact on the national economy, the bank won the 'Best Investment Bank in Oman' award by Global Finance.
- Consistency in performance and strategic investment decisions in the middle of challenging market conditions earned **bank muscat** Asset Management the Oman Asset Manager of the Year award by Emea Finance and Global Investor.
- In recognition of superior risk management practices, the bank was chosen, the first in the region, for the Best Bank in Middle East and Africa for Liquidity Risk Management award by the Asian Banker.
- The bank's uncompromising passion for excellence as the standard bearer of corporate Oman was endorsed by the OER Top 20 award for the Best Performing Listed Company in Oman.
- The bank won prestigious awards from Deutsche Bank and JP Morgan Bank for outstanding performance in euro and dollar denominated fund transfer and commercial payments.
- In recognition of a distinct identity visible through innovative HR strategies, the bank won the GCC Best Employer Brand award by the Employer Branding Institute, CMO Asia.
- The bank's unique support to social development initiatives was honoured during the presentation of His Majesty Sultan Qaboos award for voluntary work.

The Year Ahead

With the government announcing 2016 budget expenditures and revenues at RO 11.9 billion and RO 8.6 billion respectively, leading to a deficit of RO 3.3 billion, the outlook

for Oman's economy is challenging. The development expenditure forms 11.34% of total spending against 11.7% in 2015. The deficit is 38.4 per cent of total revenues. According to the International Monetary Fund (IMF), the outlook for global economic growth raises concern as growth in global trade has slowed considerably and a decline in raw material prices is posing problems for economies reliant on commodities, especially oil producing countries.

As at 31 December 2015

1. LEGAL STATUS AND PRINCIPAL ACTIVITIES

bank muscat SAOG (the Bank or the Parent Company) is a joint stock company incorporated in the Sultanate of Oman and is engaged in commercial and investment banking activities through a network of 154 branches within the Sultanate of Oman and one branch each in Riyadh, Kingdom of Saudi Arabia and Kuwait. The Bank has representative offices in Dubai, United Arab Emirates and Singapore. The Bank has a subsidiary in Riyadh, Kingdom of Saudi Arabia. The Bank operates in Oman under a banking license issued by the Central Bank of Oman (CBO) and is covered by its deposit insurance scheme. The Bank has its primary listing on the Muscat Securities Market.

The Bank and its subsidiary (together, the Group) operate in five countries (2014 - five countries) and employed 3,712 employees as of 31 December 2015 (2014: 3,607).

During 2013, the Parent Company inaugurated "Meethaq Islamic banking window" ("Meethaq") in the Sultanate of Oman to carry out banking and other financial activities in accordance with Islamic Shari'a rules and regulations. Meethaq operates under an Islamic banking license granted by the CBO on 13 January 2013. Meethaq's Shari'a Supervisory Board is entrusted to ensure Meethaq's adherence to Shari'a rules and principles in its transactions and activities. The principal activities of Meethaq include: accepting customer deposits; providing Shari'a compliant financing based on various Shari'a compliant modes; undertaking Shari'a compliant investment activities permitted under the CBO's Regulated Islamic Banking Services as defined in the licensing framework. As of 31 December 2015, Meethaq has 16 branches (2014 - 11 branches) in the Sultanate of Oman.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), the applicable regulations of the CBO, the requirements of the Commercial Companies Law of 1974, as amended and disclosure requirements of the Capital Market Authority of the Sultanate of Oman.

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

2.2 Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, modified to include the revaluation of freehold land and buildings and the measurement at fair value of derivative financial instruments, available-for-sale investment securities and investment recorded at fair value through profit or loss. The carrying values of recognised assets and liabilities that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationships.

The consolidated statement of financial position is presented in descending order of liquidity as this presentation is more appropriate to the Group's operations.

As at 31 December 2015

2. BASIS OF PREPARATION (continued)

2.2 Basis of preparation (continued)

The Islamic window operation of the Parent Company; "Meethaq" uses Financial Accounting Standards ("FAS"), issued by Accounting and Auditing Organisation for Islamic Financial Institutions ("AAOIFI"), for preparation and reporting of its financial information. Meethaq's financial information is included in the results of the Bank, after adjusting financial reporting differences, if any, between AAOIFI and IFRS.

For the ease of users, relevant balances of Meethaq are separately presented in these consolidated financial statements wherever applicable. A complete set of standalone financial statements of Meethaq, prepared under AAOIFI, is included in the Bank's annual report.

2.3 Functional and presentation currency

These consolidated financial statements are presented in Rial Omani, which is the Group's functional currency and also in US Dollars, for the convenience of the readers. The US Dollar amounts, which are presented in these consolidated financial statements have been translated from the Rial Omani amounts at an exchange rate of US Dollar 1 = RO 0.385. All financial information presented in Rial Omani and US Dollars has been rounded to the nearest thousands, unless otherwise stated.

2.4 (a) New and amended standards and interpretations to IFRS relevant to the Group

For the year ended 31 December 2015, the Group has adopted all of the new and revised standards and interpretations issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Interpretations Committee (IFRIC) of the IASB that are relevant to its operations and effective for periods beginning on 1 January 2015.

The following new standards and amendments became effective as of 1 January 2015:

- Amendments to IAS 19 Defined Benefit Plans: Employee Contributions
- Annual Improvements 2010-2012 Cycle
- IFRS 2 Share-based Payment
- IFRS 3 Business Combinations
- IFRS 8 Operating Segments
- IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets
- IAS 24 Related Party Disclosures
- Annual Improvements 2011-2013 Cycle
- IFRS 3 Business Combinations
- IFRS 13 Fair Value Measurement
- IAS 40 Investment Property

The adoption of above standards and interpretations has not resulted in any major changes to the Group's accounting policies and has not affected the amounts reported for the current and prior periods.

2.4 (b) Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group:

The following new standards and amendments have been issued by the International Accounting Standards Board (IASB) but are not yet mandatory for the year ended 31 December 2015:

IFRS 9 - Financial Instruments: In July 2014, the IASB issued final version of IFRS 9: Financial Instruments, which reflects all the phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but comparative information is not compulsory.

As at 31 December 2015

2. BASIS OF PREPARATION (continued)

The Parent Company and Group is in the process of performing a high-level impact assessment of IFRS 9. This preliminary assessment is based on currently available information and may be subject to changes arising from further detailed analyses or additional reasonable and supportable information being made available to the Parent Company and Group in the future. Overall, the Parent Company and Group expect no significant impact on its balance sheet and equity except for the effect of applying the impairment requirements of IFRS 9. The Parent Company and Group plan to adopt the new standard on the required effective date.

IFRS 15 - Revenue from Contracts with Customers: IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognising revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2018 with early adoption permitted. The Parent Company and Group are currently assessing the impact of IFRS 15 and plan to adopt the new standard on the required effective date. The Parent Company and Group are considering the clarifications issued by the IASB in an exposure draft in July 2015 and will monitor any further developments.

IFRS 16 – Leases: the IASB issued IFRS 16 Leases which requires lessees to recognise assets and liabilities for most leases. For lessors there is little change to the existing accounting in *IAS 17 Leases*. The new standard will be effective for the annual periods beginning on or after 1 January 2019. Early application is permitted, provided the new revenue standard, IFRS 15 Revenue from Contracts with customers, has been applied, or is applied at the same date as IFRS 16. The Parent Company and Group plan to adopt the new standard on the required effective date.

Other IASB Standards and Interpretations that have been issued but are not yet mandatory, and have not been early adopted by the Group, are not expected to have a material impact on the Group's consolidated financial statements.

2.5 Consolidation

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Group and its subsidiary as at 31 December 2015. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

As at 31 December 2015

2. BASIS OF PREPARATION (continued)

2.5 Consolidation (continued)

(a) Basis of consolidation (continued)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- · derecognises the assets (including goodwill) and liabilities of the subsidiary
- · derecognises the carrying amount of any non-controlling interests
- derecognises the cumulative translation differences recorded in equity
- · recognises the fair value of the consideration received
- recognises the fair value of any investment retained
- · recognises any surplus or deficit in profit or loss
- reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

(b) Transactions with non-controlling interests

The Group treats transactions with non-controlling interests as transactions with equity owners of the group. The acquisition of an additional ownership interest in a subsidiary without a change of control is accounted for as an equity transaction in accordance with IFRS 10. Any excess or deficit of consideration paid over the carrying amount of the non-controlling interests is recognised in equity of the parent in transactions where the non-controlling interests are acquired or sold without loss of control.

When the Group ceases to have control or significant influence, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

bank muscat SAOG NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2015

2 BASIS OF PREPARATION (continued)

2.5 Consolidation (continued)

(c) Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining significant influence or joint control is similar to those necessary to determine control over subsidiaries. The Group's investments in its associates are accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, then recognises the loss as 'Share of results of associates in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

As at 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by the Group to all periods presented in these consolidated financial statements.

3.1 Foreign currency translation

- (i) Transactions in foreign currencies are translated into Rial Omani at exchange rates ruling at the value dates of the transactions.
- (ii) Monetary assets and liabilities denominated in foreign currencies are translated into Rial Omani at exchange rates ruling at the reporting date. The foreign currency gain or loss on monetary items is the difference between amortised costs in the Rial Omani at the beginning of the period, adjusted for effective interest and payments during the period and the amortised costs in foreign currency translated at the exchange rate at the end of the period. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.
- (iii) Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to Rial Omani at the exchange rate at the date that the fair value was determined. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as available-for-sale, are included in other comprehensive income.
- (iv) On consolidation, the assets and liabilities of foreign operations are translated into Rial Omani at the rate of exchange prevailing at the reporting date and their income statements are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the profit or loss in other operating expenses or other operating income. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operations and translated at closing rate.

3.2 Revenue and expense recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

3.2.1 Interest

For all financial instruments measured at amortised cost, interest bearing financial assets classified as available-for-sale and financial instruments designated at fair value through profit or loss, interest income or expense is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

3.2 Revenue and expense recognition (continued)

3.2.1 Interest (continued)

The carrying amount of the financial asset or financial liability is adjusted if the Group revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original EIR and the change in carrying amount is recorded as "interest income' for financial assets and "interest expense" for financial liabilities. However, for a reclassified financial asset for which the Group subsequently increases its estimates of future cash receipts as a result of increased recoverability of

those cash receipts, the effect of that increase is recognised as an adjustment to the EIR from the date of the change in estimate.

Interest income, which is doubtful of recovery is included in loan impairment and excluded from income, until it is received in cash.

3.2.2 Fees and commission

Fees and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate. Other fees and commission income, including service charges, advisory fees, processing fees, syndication fees and others are recognised when they are due.

3.2.3 Dividends

Dividend income is recognised in the consolidated statement of comprehensive income in 'Other operating income', when the Group's right to receive income is established.

3.2.4 Provisions

A provision is recognised if, as a result of past event, the Group has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligations. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability.

3.3 Financial assets and liabilities

3.3.1 Classification

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, held to maturity and available-for-sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) Financial assets at fair value through profit or loss

Financial assets and financial liabilities classified in this category are those that have been designated by management upon initial recognition. Management may only designate an instrument at fair value through profit or loss upon initial recognition when the following criteria are met, and designation is determined on an instrument-by-instrument basis:

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Financial assets and liabilities (continued)

3.3.1 Classification (continued)

(a) Financial assets at fair value through profit or loss (continued)

- i) The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis.
- ii) The assets and liabilities are part of a group of financial assets, financial liabilities or both, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- iii) The financial instrument contains one or more embedded derivatives, which significantly modify the cash flows that would otherwise be required by the contract.

Financial assets and financial liabilities at fair value through profit or loss are recorded in the statement of financial position at fair value. Changes in fair value are recorded in other operating income. Interest earned or incurred is accrued in interest income or interest expense, respectively, using the EIR, while

dividend income is recorded in other operating income when the right to the payment has been established.

(b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

When the Group is the lessor in a lease agreement that transfers substantially all of the risks and rewards incidental to ownership of an asset to the lessee, the arrangement is presented within loans and advances.

Loans and receivables are initially recognised at fair value – which is the cash consideration to originate or purchase the loan including any transaction costs – and measured subsequently at amortised cost using the effective interest rate method. Interest on loans is included in the consolidated statement of comprehensive income and is reported as 'interest income'. In the case of an impairment, the impairment loss is reported as a deduction from the carrying value of the loan and recognised in the consolidated statement of comprehensive income as 'Impairment for credit losses'.

(c) Held to maturity

Held to maturity financial assets are non-derivative assets with fixed or determinable payments and fixed maturity that the Group has the positive intent and ability to hold to maturity and which are not designated at fair value through profit or loss or available-for-sale.

These are initially recognised at fair value including direct and incremental transaction costs and measured subsequently at amortised cost, using the effective interest method.

Interest on held to maturity investments is included in the consolidated statement of comprehensive income and reported as 'interest income'. In the case of impairment, the impairment loss is been reported as a deduction from the carrying value of the investment and recognised in the consolidated statement of comprehensive income as 'impairment for investments'. Held to maturity investments are corporate bonds and treasury bills.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Financial assets and liabilities (continued)

3.3.1 Classification (continued)

(d) Available-for-sale financial assets

Available-for-sale investments include equity and debt securities. Equity investments classified as available-for-sale are those which are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are intended to be held for an indefinite period of time and may be sold in response to needs for liquidity or in response to changes in the market conditions

The Group has not designated any loans or receivables as available-for-sale.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value.

Unrealised gains and losses are recognised directly in equity (other comprehensive income) in the change in fair value of investments available-for-sale. When the investment is disposed of, the cumulative gain or loss previously recognised in equity is recognised in the profit or loss in other operating income. Interest earned whilst holding available-for-sale financial investments is reported as interest income using the EIR. Dividends earned whilst holding available-for-sale financial investments are recognised in the profit or loss as other operating income when the right of the payment has been established. The losses arising from impairment of such investments are recognised in the profit or loss in impairment for investments and removed from the change in fair value of investments available-for-sale.

(e) 'Day 1' profit or loss

When the transaction price differs from the fair value of other observable current market transactions in the same instrument, or based on a valuation technique whose variables include only data from observable markets, the Group immediately recognises the difference between the transaction price and fair value (a Day 1 profit or loss) in other operating income. In cases where fair value is determined using data which is not observable, the difference between the transaction price and model value is only recognised in the income statement when the inputs become observable, or when the instrument is derecognised.

3.3.2 Derivative financial instruments and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- (i) hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge);
- (ii) hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge); or
- (iii) hedges of a net investment in a foreign operation (net investment hedge).

- 3 SIGNIFICANT ACCOUNTING POLICIES (continued)
- 3.3 Financial assets and liabilities (continued)
- 3.3.2 Derivative financial instruments and hedging activities (continued)

The Group makes use of derivative instruments to manage exposures to interest rate, foreign currency and credit risks, including exposures arising from highly probable forecast transactions and firm commitments. In order to manage particular risks, the Group applies hedge accounting for transactions which meet specified criteria. Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any such derivative instruments are recognised immediately in the statement of comprehensive income within 'Other operating income'.

At inception of the hedge relationship, the Group formally documents the relationship between the hedged item and the hedging instrument, including the nature of the risk, the risk management objective and strategy for undertaking the hedge and the method that will be used to assess the effectiveness of the hedging relationship at inception and ongoing basis.

At each hedge effectiveness assessment date, a hedge relationship must be expected to be highly effective on a prospective basis and demonstrate that it was effective (retrospective effectiveness) for the designated period in order to qualify for hedge accounting. A formal assessment is undertaken by comparing the hedging instrument's effectiveness in offsetting the changes in fair value or cash flows attributable to the hedged risk in the hedged item, both at inception and at each quarter end on an ongoing basis. A hedge is expected to be highly effective if the changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated were offset by the hedging instrument in a range of 80% to 125% and were expected to achieve such offset in future periods. Hedge ineffectiveness is recognised in the profit or loss in 'other operating income'. For situations where the hedged item is a forecast transaction, the Group also assesses whether the transaction is highly probable and an exposure to variations in cash flows that could ultimately affect the profit or loss.

(i) Fair value hedges

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging derivative is recognised in the profit or loss in other operating income. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item in the consolidated statement of financial position and is also recognised in the profit or loss in other operating income. If the hedging instrument expires or is sold, terminated or exercised, or where the hedge no longer meets the criteria for hedge accounting, the hedge relationship is discontinued prospectively. For hedged items recorded at amortised cost, the difference between the carrying value of the hedged item on termination and the face value is amortised over the remaining term of the original hedge using the recalculated EIR method. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the profit or loss.

(ii) Cash flow hedges

For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognised directly in equity in the Cash flow hedge reserve. The ineffective portion of the gain or loss on the hedging instrument is recognised immediately in other operating income in the profit or loss.

When the hedged cash flow affects the profit or loss, the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the profit or loss. When the forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in the other comprehensive income are removed from the reserve and included in the initial cost of the asset or liability.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Financial assets and liabilities (continued)

3.3.2 Derivative financial instruments and hedging activities (continued)

(ii) Cash flow hedges (continued)

When a hedging instrument expires, or is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in other comprehensive income at that time remains in other comprehensive income and is recognised when the hedged forecast transaction is ultimately recognised in the profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in other comprehensive income is immediately transferred to the profit or loss.

3.3.3 Recognition

The Group initially recognises loans and advances, deposits, debt securities issued and subordinated liabilities on the date that they are originated. All other financial assets and liabilities are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

3.3.4 Derecognition

(i) Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - The Group has transferred substantially all the risks and rewards of the asset; Or
 - The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass—through arrangement, and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

(ii) Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Financial assets and liabilities (continued)

3.3.5 Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards or for gains and losses arising from a Group of similar transactions.

3.3.6 Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the EIR of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

3.3.7 Fair value measurement

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on a number of accounting policies and methods. Where applicable, information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. Details are set out in note 43.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Financial assets and liabilities (continued)

3.3.7 Fair value measurement (continued)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Group analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the Group verifies the major inputs applied in the latest valuation by agreeing the information in the Valuation computation to contracts and other relevant documents.

The Group also compares each the changes in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.3.8 Investment in equity and debt securities

For investments traded in organised financial markets, fair value is determined by reference to Stock Exchange quoted market prices at the close of business on the reporting date.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted equity investments fair value is determined by reference to the market value of a similar investment or is based on the expected discounted cash flows.

3.3.9 Fair value measurement of derivatives

The fair value of forward contracts is estimated based on observable market inputs for such contracts as on the reporting date.

The fair value of interest rate swaps is arrived at by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date.

3.4 Identification and measurement of impairment of financial assets

(a) Assets carried at amortised cost

The Group assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and an impairment loss is incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the group about the following loss events as well as considering the guidelines issued by the Central Bank of Oman:

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 Identification and measurement of impairment of financial assets (continued)

(a) Assets carried at amortised cost (continued)

- significant financial difficulty of the issuer or obligor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- the Group granting to the borrower, for economic or legal reasons relating to the borrower's financial difficulty, a concession that the lender would not otherwise consider;
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for that financial asset because of financial difficulties;
 or
- observable data indicating that there is a measurable decrease in the estimated future cash
 flows from a group of financial assets since the initial recognition of those assets, although the
 decrease cannot yet be identified with the individual financial assets in the group, including
 adverse changes in the payment status of borrowers in the group, or national or local
 economic conditions that correlate with defaults on the assets in the group.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a Group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables or held-to-maturity investments carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the statement of comprehensive income. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

Future cash flows in a Group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the Group and historical loss experience for assets with credit risk characteristics similar to those in the Group.

The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

When a loan is uncollectible, it is written off against the related allowance for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

If in a subsequent period, the amount of impairment loss decreases and decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the consolidated statement of comprehensive income. Also refer to notes 2.5 (c) associates, 3.3.1. (b) loans and receivables and 3.3.1. (c) held to maturity investments.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 Identification and measurement of impairment of financial assets (continued)

(b) Assets classified as available-for-sale

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. For debt securities, the Group uses the criteria referred to at (a) above. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is removed from equity and recognised in the profit or loss. Impairment losses on equity instruments recognised in the profit or loss are not reversed through separate profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through the profit or loss.

(c) Renegotiated loans

Where possible, the Group seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original effective interest rate.

3.5 Non-current assets held for sale

The Group classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

The criteria for held for sale classification is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of reclassification.

Equity accounting for investment in associate ceases once classified and included as held for sale.

Investment in an associate classified as held for sale is disclosed in Note 8 to the consolidated financial statements.

3.6 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, balances with Group, treasury bills and money market placements and deposits maturing within three months of the date of acquisition. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

3.7 Due from banks

These are stated at cost, less any amounts written off and provisions for impairment. Due from banks include Nostro balances, placements and loans to banks.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.8 Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and impairment loss. Cost includes expenditures that are directly attributable to the acquisition of the asset.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Revaluations of freehold land and buildings are carried out every five years on an open market value for existing use basis, by an independent valuer. Increases in the carrying amount arising on revaluation are credited to other comprehensive income and shown as revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged in other comprehensive income and debited against other reserves directly in equity; all other decreases are charged to the statement of comprehensive income. On disposal the related revaluation surplus is transferred directly to retained earnings. Transfers from revaluation surplus to retained earnings are not made through statement of comprehensive income. Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

	Years
Freehold and leasehold buildings	20 - 50
Leased hold improvements	5 - 10
Furniture, fixtures and equipment	5 - 10
Motor vehicles	3 - 5

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'Other operating income' in the statement of comprehensive income.

Repairs and renewals are charged to the statement of comprehensive income when the expense is incurred. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure is recognised in the statement of comprehensive income as an expense as incurred.

3.9 Collateral pending sale

The Group occasionally acquires real estate in settlement of certain loans and advances. Real estate is stated at the lower of the net realisable value of the related loans and advances and the current fair value of such assets. Gains or losses on disposal and unrealised losses on revaluation are recognised in the statement of comprehensive income.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.10 Business combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss. It is then considered in the determination of goodwill.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IAS 39 *Financial Instruments: Recognition and Measurement*, is measured at fair value with changes in fair value recognised either in either profit or loss or as a change to OCI. If the contingent consideration is not within the scope of IAS 39, it is measured in accordance with the appropriate IFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

3.11 Deposits

Deposits from banks and customers, debt securities and subordinated liabilities are the Group's sources of funding. These are initially measured at fair value plus transaction costs and subsequently measured at their amortised cost using the EIR.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 Income tax

Income tax expense comprises current and deferred tax. Taxation is provided in accordance with Omani fiscal regulations.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date and any adjustments to tax payable in respect of previous years.

Income tax is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Deferred tax assets/liabilities are calculated using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the reporting date.

The carrying amount of deferred income tax assets/liabilities is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

3.13 Fiduciary assets

The Group provides trustee, corporate administration, investment management and advisory services to third parties, which involve the Group making allocation and purchase and sale decisions in relation to a wide range of financial instruments. Those assets that are held in a fiduciary capacity are not included in these consolidated financial statements.

3.14 Acceptances

Acceptances are disclosed on the consolidated statement of financial position under other assets with corresponding liability disclosed under other liabilities. Therefore, there is no off-balance sheet commitment for acceptances.

3.15 Repurchase and resale agreements

Securities sold subject to repurchase agreements ('repos') are reclassified in the financial statements as pledged assets when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in deposits from banks or deposits from customers, as appropriate. Securities purchased under agreements to resell ('reverse repos') are recorded as loans and advances to other banks or customers, as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method. Securities lent to counterparties are also retained in the consolidated financial statements.

3.16 Trade and settlement date accounting

All regular way purchases and sales of financial assets are recognised on the trade date, i.e. the date that the entity commits to purchase the asset. Regular way purchase or sales are purchases or sales of financial assets that require delivery of assets within the timeframe generally established by regulation or convention in the market place.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.17 Leases

Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease at the fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight-line basis over the lease term.

3.18 Employee terminal benefits

Contributions to a defined contribution retirement plan, for Omani employees, in accordance with the Oman Social Insurance Scheme, are recognised as expense in the statement of comprehensive income when accrued.

The Group's obligation in respect of non-Omani terminal benefits, which is an unfunded defined benefit retirement plan, is the amount of future benefit that such employees have earned in return for their service in current and prior periods.

3.19 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprises convertible notes.

3.20 Financial guarantees contracts

Financial guarantees are contracts that require the issuer to make specified payments to reimburse the beneficiary for a loss incurred because the debtor fails to make payments when due, in accordance with the terms of the debt. Such guarantees are given to banks, financial institutions or other entities on behalf of the customers.

Financial guarantees are initially recognised in the financial statements at fair value on the date the guarantee was issued. Subsequent to initial recognition, the Group's liabilities under such guarantees are measured at the higher of initial measurement, less amortisation calculated to recognise in the statement of comprehensive income the fee income earned on the straight line basis over the life of the guarantee and the best estimate of the expenditure required to settle any financial obligation arising at the reporting date. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgment of management. Any increase in the liability relating to guarantees is taken to the statement of comprehensive income.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

3.21 Borrowings

Borrowings are recognised initially at fair value, being their issue proceeds (fair value of consideration received) net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds, net of transaction costs, and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

3.22 Dividend on ordinary shares

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Parent Company's shareholders. Interim dividends are deducted from equity when they are paid.

Dividends for the year that are approved after the reporting date are dealt with as an event after the balance sheet date.

3.23 Directors' remuneration

The board of directors' remuneration is accrued within the limits specified by the Capital Market Authority and the requirements of the Commercial Companies Law of the Sultanate of Oman.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of consolidated financial statements requires the Management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. The resulting accounting estimates will, by definition, seldom equal the related actual results. Specific fair value estimates are disclosed in note 43.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The Group's significant accounting estimates were on:

(a) Impairment losses on loans and advances

The Group reviews its loan portfolios to assess impairment at least on a quarterly basis. In determining whether an impairment loss should be recorded in the consolidated statement of comprehensive income, the Group makes judgements as to whether there is any observable data indicating an impairment followed by measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified within that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers and or national or local economic conditions that correlate with defaults on assets in the Group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed periodically to reduce any difference between loss estimates and actual loss experience. For individually significant loans and advances which are impaired, the necessary impairment loss is considered based on the future cash flow estimates. Individually significant loans and advances which are not impaired and all individually insignificant loans and advances are then assessed collectively considering historical experience and observable data on a portfolio basis, in groups of assets with similar risk characteristics to determine whether collective impairment loss to be made. In determining collective impairment loss, the Group takes into account several factors including credit quality, concentration risk, levels of past due, sector performance, available collateral and macro economic conditions.

(b) Impairment on due from banks

The Group reviews its portfolio of due from banks on a quarterly basis to assess impairment. In determining whether an impairment loss should be recorded in the consolidated statement of comprehensive income, the Group makes judgements as to whether there is any observable data indicating an impairment. For individually impaired placements, the Group considers the necessary impairment loss based on the expected cash flows and borrower's financial position. In addition, the Group assesses the portfolio on a collective basis and estimates the collective impairment loss if any. The judgements and estimates used for impairment assessment depend on a number of parameters which include the borrower's financial condition, local and international economic conditions and economic outlook.

(c) Fair value of derivatives and other financial instruments

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. The Group uses expected cash flow analysis for various available-for-sale financial assets that are not traded in active markets.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

(d) Impairment of available-for-sale equity investments

The Group determines that available-for-sale equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost or objective evidence of impairment exists. This determination of what is considered to be significant or prolonged requires judgement. In applying judgement, the Group evaluates among other factors, the volatility in share price. Objective evidence of impairment may be due to deterioration in the financial health of the investee, industry and sector performance.

(e) Impairment loss on investments in associates

The Group reviews its investments in associates periodically and evaluates the objective evidence of impairment. Objective evidence includes the performance of associate, the future business model, local economic conditions and other relevant factors. Based on the objective evidences, the Group determines the need for impairment loss on investments in associates.

(f) Taxes

Uncertainties exist with respect to the interpretation of tax regulations and the amount and timing of future taxable income. Given the wide range of business relationships and nature of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of finalisation of tax assessments of the Group. The amount of such provisions is based on various factors, such as experience of previous tax assessments and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

(156)	-	Transfer to memorandum portfolio	-	(60)
(164)	-	Transfer to collateral pending sale	-	(63)
54,917	59,544	At 31 December (b)	22,925	21,144
672,452	773,265	Total impairment (a) + (b)	297,707	258,894

Recoveries during the year of RO 35.879 million (2014: RO 26.063 million) include RO 0.991 million (2014- RO 0.992 million) recovered from loans written off earlier. The loans written off during the year include an amount of RO nil (2014: RO 0.06 million) transferred to memorandum portfolio, which were fully provided by the Group.

As of 31 December 2015, loans and advances on which contractual interest is not being accrued or has not been recognised amounted to RO 209.5 million (2014 - RO 200.1 million).

During the year, written off loans amounting to RO 1.67 million (2014: RO 2.66 million) were regularised. Accordingly these loans were reclassified from memorandum account to loans and advances. These accounts were fully provided.

8. OTHER ASSETS

10. INVESTMENTS IN A SUBSIDIARY

Details regarding the Parent company's investment in a subsidiary are set out below:

Company name	Country of incorporation	Proportion held	
	•	2015	2014
Muscat Capital LLC	Kingdom of Saudi Arabia (KSA)	100%	100%

As at 31 December 2015, the authorised and issued share capital of the subsidiary is SAR 60 million (2014 - SAR 60 million).

During 2014, Muscat Capital LLC had a reduction in its share capital from SAR 100 million to SAR 60 million through equivalent reduction in accumulated losses from SAR 42.7 million to SAR 2.7 million. The reduction in capital is in conformity with the provisions of the KSA Companies Law in an event a limited liability company's losses exceed fifty percent of its share capital. Relevant regulatory approvals from CBO and Capital Market Authority, Oman have been obtained. During 2014, the bank acquired additional stake of 3.74% for a consideration of RO 423 thousands, adjusting its receivable from non-controlling interests stakeholder.

11. INVESTMENTS IN AN ASSOCIATE

2014	2015		2015	2014
US\$ 000's	US\$ 000's		RO 000's	RO 000's
123,244	124,016	Al Salam Bank ('ASB'), Kingdom of Bahrain	47,746	47,449

During 2015, share of results from associate amounted to RO 2.561 million (2014: RO 1.515 million) and share of other comprehensive expense from associate amounted to RO 0.62 million (2014: share of other comprehensive income of RO 0.2 million).

(i) Investment in BMI Bank B.S.C. (c), Kingdom of Bahrain (BMI)

On 30 March 2014, ASB, Bahrain acquired BMI by issuing 11 shares for 1 share of BMI. In accordance with the share swap ratio, the Bank received 315,494,795 shares in ASB in exchange of 28,681,345 shares of BMI resulting in its 14.74% shareholding in ASB. The market value of the bank's shareholding in ASB on the date of acquisition amounted to RO 68.98 million.

The Bank has accounted for investment in ASB as an associate at an adjusted market value of RO 46 million and recorded the difference between fair value of investment in ASB and carrying value of investment in BMI as a gain on derecognition of investment in BMI. This gain amounting to RO 9.48 million is included as part of other operating income in the consolidated statement of comprehensive income.

11. INVESTMENTS IN AN ASSOCIATE (continued)

(ii) Al Salam Bank ('ASB'), Kingdom of Bahrain

As of 31 December 2015, the Bank held 14.74% (2014 - 14.74%) shareholding in ASB. The bank is the single largest shareholder in ASB and has board representation. Accordingly, the bank has significant influence over ASB and the investment is recorded as an associate. The carrying value of the investment in ASB as on 31 December 2015 was as follows:

2014 US\$ 000's	2015 US\$ 000's		2015 RO 000's	2014 RO 000's
119,481 3,231 532 -	123,244 6,652 (1,603) (4,187) (91)	Carrying value of the Investment Share of results for the period Share of other comprehensive income Dividends received Other movements	47,449 2,561 (617) (1,612) (35)	46,000 1,244 205 -
123,244	124,015	At 31 December	47,746	47,449

The Bank's share of the results and other comprehensive income of ASB are reflected on the basis of reviewed results for the period ended 30 September 2015. The financial statements of ASB are prepared in accordance with Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI). The Management of the Bank believes that it is not practicable to restate the financial statements of ASB in order to reflect the position as per International Financial Reporting Standards and also considers the impact not to be material to the Group.

(iii) Financial information relating to ASB as at 30 September 2015

Financial information relating to an associate is summarised as follows

2014	2015		2015	2014
US\$ 000's	US\$ 000's		RO 000's	RO 000's
93,784	96,125	Total revenue Net income Total assets Total liability	37,008	36,107

Land and buildings above includes leasehold land and buildings of RO 34,186 thousands (2014: RO 34,975 thousands). The Bank has a policy to revalue its owned land and buildings at the end of every five years. In accordance with the bank's policy, the owned land and buildings were revalued during 2012 by independent professional valuers on an open market basis.

The revaluation reserve is not available for distribution until the related asset is disposed.

13. FINANCE LEASE LIABILITIES

The Group has entered into a lease agreement with a third party (a quasi government entity) to lease a purpose built head office which was constructed for exclusive use of the Group. The construction of building was completed in 2009. The lease is for a period of 50 years. The annual lease payment of building for the initial 25 years is RO 2.7 million. Subsequently, for the next 10 years, the annual rent will increase by 25% to RO 3.4 million. From 36th year onwards, the annual rent will further increase by 10% to RO 3.7 million. Due to which the minimum lease payments in the first 25 years of the lease period are less than the finance charges payable every year.

The minimum lease payments and total liability in respect of these leases relating to future periods are as follows:

2014 US\$ 000's	2015 US\$ 000's		2015 RO 000's	2014 RO 000's

17. CERTIFICATES OF DEPOSIT

During the year, certificates of deposits amounting to RO 46 million (2014: RO 1 million) were matured. The certificates of deposits issued by the Parent Company were unsecured and denominated in Rial Omani. The maturity profile and interest rate are disclosed in notes 42.3.2 and 42.4.4 respectively.

18. EURO MEDIUM TERM NOTES

Euro medium term notes are issued by the Parent Company under its Euro Medium Term Note Programme and are denominated in US Dollars. These are non-convertible, unsecured and listed on Luxemburg stock exchange. During 2015 and 2014, no new notes were issued or matured. The Parent Company has entered into an interest rate swap, which is designated as a fair value hedge, for hedging the interest rate risk on Euro medium term notes. The cumulative change in the fair value of the Euro medium term notes (hedged item) attributable to the risk hedged is recorded as part of the carrying value of the Euro medium term notes and accordingly presented in statement of financial position. The maturity profile and interest rates of floating rate notes are disclosed in notes 42.3.2 and 42.4.4 respectively.

19. MANDATORY CONVERTIBLE BONDS

19. MANDATORY CONVERTIBLE BONDS (continued)

The maturity profile and interest rate of mandatory convertible bonds are disclosed in notes 42.3.2 and 42.4.4 respectively. Mandatory convertible bonds were issued by the Parent Company as part of its dividend distribution. On maturity, the bonds will be converted to ordinary shares of the Parent Company by using a "conversion price" which will be calculated by applying 20% discount to 3 month average share price of the Parent Company on the Muscat Securities Market prior to the conversion. During 2015, there were no maturities of mandatory convertible bonds. During Q1-2014, the remaining 50% of bonds issued by the Bank in 2009 as part of its dividend distribution for the year 2008, representing RO 16.157 million were matured. Based on the terms of prospectus, conversion price was calculated at RO 0.531 which represented a 20% discount to average closing market price over the preceding 90 calendar day period prior to the conversion date after adjusting for the impact of bonus shares issued in Q1-2014. The Bank issued 30,427,504 shares on account of conversion.

21. TAXATION (continued)

i) The tax rate applicable to the Parent Company is 12% (2014 - 12%). For the purpose of determining the tax expense for the year, the accounting profit has been adjusted for tax purposes. Adjustments for tax purposes include items relating to both income and expense. After giving effect to these adjustments, the average effective tax rate is estimated to be 11.17% (2014 - 12.37%).

The difference between the applicable tax rate of 12% (2014 - 12%) and effective tax rate of 11.17% (2014: 12.37%) arises due to tax effect of income not considered to be taxable and expenses not considered to be deductible. The adjustments are based on the current understanding of the existing tax laws, regulations and practices.

ii) The reconciliation of taxation on the accounting profit before tax for the year at RO 197.5 million (2014: RO 186.3 million) after the basic exemption limit of RO 30,000 and the taxation charge in the consolidated financial statements is as follows:

2014 US\$ 000's	2015 US\$ 000's		2015 RO 000's	2014 RO 000's

22 SUBORDINATED LIABILITIES

In accordance with the CBO regulations, subordinated loans are included in the calculation of supplementary capital as defined by the Bank for International Settlements (BIS) for capital adequacy purposes. During the year, the Bank obtained Tier II capital of nil (2014: RO nil) and repaid RO nil million (2014: RO 6.4 million).

2014	2015		2015	2014
US\$ 000's	US\$ 000's		RO 000's	RO 000's

624,545	624,545		240,450	240,450

Subordinated loans are repayable at par on maturity. The maturity profile and interest rate of subordinated liabilities are disclosed in notes 42.3.2 and 42.4.4 respectively.

23. SHARE CAPITAL

Share capital

The authorised share capital of the Parent Company is 3,500,000,000 shares of RO 0.100 each (2014: 3,500,000,000 of RO 0.100 each). At 31 December 2015, 2,291,822,597 shares of RO 0.100 each (2014: 2,182,688,188 shares of RO 0.100 each) have been issued and fully paid. The Bank's shares are listed on Muscat Securities Market, Bahrain stock exchange and London stock exchange. Listing in London stock exchange is through Global Depository Receipts issued by the Bank.

During March 2014, the bank converted remaining 50% portion of its mandatory convertible bonds issued in 2009 into share capital (note 19). The conversion amounting to RO 16.157 million was credited to the share capital and share premium amounting to RO 3.043 million and RO 13.114 million, respectively.

Significant shareholders

The following shareholders held 10% or more of the Parent Company's capital, either individually or together with other Group companies:

2014			2015	5
No.of shares	% holding		No.of shares	% holding
514,733,262	23.58%	Royal Court Affairs	540,469,925	23.58%
269.211.333	12.33%	Dubai Financial Group	282.671.899	12.33%

24 LEGAL AND GENERAL RESERVES

- (i) In accordance with the Omani Commercial Companies Law of 1974, the Parent Company is required to transfer 10% of its profit for the year to legal reserve until the accumulated balance of the reserve equals one third of the Parent Company's paid up share capital. During the year RO 3,638 thousands (2014: RO 1,021 thousands) was transferred from profits to legal reserve. After this transfer the Parent Company's legal reserve is equal to one third of its share capital.
- (ii) The general reserve is established to support the operations and the capital structure of the Group.

25. SUBORDINATED LOAN RESERVE

The subordinated loan reserve is created in accordance with the guidelines provided by the Bank of International Settlement and CBO. During the year 2015, the Parent Company transferred RO 20 million (2014: 36.28 million) to subordinated loan reserve from its retained profit.

A subordinated loan of RO Nil was repaid during the year (2014: RO 6.42 million). On maturity, the reserve of RO Nil (2014: RO 6.42 million) related to this loan was thus transferred to general reserve.

26. PROPOSED DIVIDENDS

The Board of Directors has proposed a dividend of 30%, 25% in the form of cash and 5% in the form of bonus shares. Thus shareholders would receive cash dividend of RO 0.025 per ordinary share of RO 0.100 each aggregating to RO 57.296 million on Bank's existing share capital. In addition, they would receive bonus shares in the proportion of one share for every 20 ordinary shares aggregating to 114,591,130 shares of RO 0.100 each amounting to RO 11.46 million. The proposed cash dividend and issuance of bonus shares are subject to formal approval of the Annual General Meeting of the shareholders and regulatory authorities.

For 2014, the Board of Directors had proposed a dividend of 45%, 25% in the form of cash,5% in the form of Bonus Shares and 15% in the form of mandatory-convertible bonds which was approved by the Bank's shareholders in its Annual General Meeting held on 18 March 2015. Thus shareholders received cash dividend of RO 0.025 per ordinary share of RO 0.100 each aggregating to RO 54.57 million on the Bank's existing share capital. In addition, they received bonus shares in the proportion of one share for every 20 shares aggregating to 109,134,409 shares of RO 0.100 each amounting to RO 10.91 million. They also received mandatory-convertible bonds of RO 0.015 per ordinary share of RO 0.100 each aggregating to RO 32.74 million (including issue expenses). The mandatory-convertible bonds carry an annual coupon rate of 3.5% per annum. These bonds will mature after a period of 3 years from the date of issuance. On maturity, the bonds will be converted to ordinary shares of the Bank by using a "conversion price" which will be calculated by applying 20% discount to 3 month average share price of the Bank on the Muscat Securities Market prior to the conversion. The bonds are listed on the Muscat Securities Market.

27. NET ASSETS PER SHARE

The calculation of net assets per share is based on net assets as at 31 December 2015 attributable to ordinary shareholders of RO 1,396.959 million (2014: RO 1,312.067 million) and on ordinary shares 2,291,822,597 (2014: 2,182,688,188 ordinary shares) being the number of shares outstanding as at 31 December 2015.

28. CONTINGENT LIABILITIES AND COMMITMENTS

(a) Legal proceedings

Litigation is a common occurrence in the Banking industry due to the nature of the business undertaken. The Bank has formal controls and policies for managing legal claims. Once professional advice has been obtained and the amount of loss reasonably estimated, the Bank makes adjustments to account for any adverse effects which the claims may have on its financial standing. At year-end, there were a number of legal proceedings outstanding against the Parent Company. No provision has been made, as professional advice indicates that it is unlikely that any significant loss will arise.

(b) Credit related commitments

Credit related commitments include commitments to extend credit, standby letters of credit and guarantees which are designed to meet the requirements of the Parent Company's customers.

Commitments to extend credit represent contractual commitments to make loans and revolving credits. Commitments generally have fixed expiration dates or other termination clauses and require the payment of a fee. Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash obligations.

Standby letters of credit and guarantees commit the Parent Company to make payments on behalf of customers contingent upon the failure of the customer to perform under the terms of the contract.

Irrevocable commitments to extend credit at the reporting date amounted to RO 619.3 million (2014: RO 401.5 million).

As of the reporting date, commitments on behalf of customers, for which there were corresponding customer liabilities consisted of the following:

2014	2015		2015	2014
US \$ 000's	US \$ 000's		RO 000's	RO 000's
1,213,335	2,126,585	Letters of credit	818,735	467,134
5,274,096	6,149,810	Guarantees	2,367,677	2,030,527
6,487,431	8,276,395		3,186,412	2,497,661

(c) Capital commitments

As of the reporting date, capital commitments were as follows:

2014	2015		2015	2014
US \$ 000's	US \$ 000's		RO 000's	RO 000's
5,000	5,078	Purchase of property and equipment	1,955	1,925

⁽d) As of the reporting date, the bank has not pledged any of its assets as security (2014: no assets were pledged).

⁽e) As of the reporting date, the amount payable on partly paid shares investments held by the Bank was RO 5.8 million (2014: RO 5.9 million)

28. CONTINGENT LIABILITIES AND COMMITMENTS (continued)

28.1 Concentration of credit related commitments

The table below analyses the concentration of credit related commitments by economic sector:

2014	2015		2015	2014

(21,595)	(21,953)	Less: provisions H.E. Sheikh Mustahail Ahmed Al	(8,452)	(8,314)
106,273	74,548	Mashani group companies	28,701	40,915
12,049	8,231	Others	3,169	4,639
124,254	125,485		48,312	47,838

The income and expenses in respect of related parties included in the consolidated financial statements are as follows:

2014 US \$ 000's	2015 US \$ 000's		2015 RO 000's	2014 RO 000's
4,060 1,397	2,920 1,428	Interest income Interest expenditure	1,124 550	1,563 538
18	-	Commission and other income	-	7
338	327	Directors' remuneration	126	130
182	192	Directors' sitting fees	74	70

On restructuring arrangement of the Bank's exposure to Dubai Financial Group during 2014 the suspended interest RO 1.1 million was written off.

Interest expense incurred on deposits:

Items of expense which were paid to related parties or holders of 10% or more of the bank's shares, or their family members, during the year can be further analysed as follows:

2014 US \$ 000's	2015 US \$ 000's		2015 RO 000's	2014 RO 000's
839	792	Royal Court Affairs H.E. Sheikh Mustahail Ahmed Al	305	323
545	621	Mashani group companies	239	210
13	16	Others	6	5
1,397	1,429		550	538

36. RELATED PARTY TRANSACTIONS (continued)

Key management compensation

Key management comprises of 6 members (2014: 6 members) of the management executive committee in the year 2015.

2014	2015		2015	2014
US \$ 000's	US \$ 000's		RO 000's	RO 000's
9,873	9,504	Salaries and other short-term benefits	3,659	3,801
171	184	Post-employment benefits	71	66
10,044	9,688		3,730	3,867

The amounts disclosed in the table are the amounts accrued / paid recognised as an expense during the reporting period related to key management personnel. Certain components of key management compensation are on deferral basis and are disclosed accordingly. The previous year figures are revised considering the actual payment wherever applicable.

37. FIDUCIARY ACTIVITIES

The bank's fiduciary activities consist of investment management activities conducted as trustee and manager for a number of investment funds and individuals. The aggregate amounts of funds managed, which are not included in the Group's statement of financial position, are as follows:

2014	2015		2015	2014
US \$ 000's	US \$ 000's		RO 000's	RO 000's
1,244,262	1,191,101	Funds under management	458,574	479,041

38. DERIVATIVES

In the ordinary course of business, the Group enters into various types of transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instrument, reference rate or index. These derivatives are stated at fair value. The fair value of a derivative is the equivalent of the unrealised gain or loss from marking to market the derivative using prevailing market rates or internal pricing models. Unrealised gains or losses on derivatives classified as held for trading and fair value hedges are included in the statement of comprehensive income. The Group uses the following derivative financial instruments:

Derivative product types

Forwards and futures are contractual agreements to either buy or sell a specified currency, commodity or financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in the over-the-counter market. Forward rate agreements are effectively tailor-made interest rate futures which fix a forward rate of interest on a notional loan, for an agreed period of time starting on a specified future date.

Interest rate swaps are contractual agreements between two parties to exchange interest differentials based on a specific notional amount. Counter parties generally exchange fixed and floating rate interest payments based on a notional value in a single currency.

38. DERIVATIVES (continued)

Derivative product types (continued)

Options are contractual agreements that convey the right, but not the obligation, to either buy or sell a specific amount of a commodity, foreign currency or financial instrument at a fixed price, either at a fixed future date or at any time within a specified period. The Group transacts only in currency options for its customers. The Group does not engage in writing of options.

Derivatives held or issued for hedging purposes

As part of its asset and liability management, the Group uses derivatives for hedging purposes in order to reduce its exposure to currency and interest rate risks. This is achieved by hedging specific financial instruments and forecasted transactions as well as strategic hedging against overall financial position exposures.

The Group uses forward foreign exchange contracts, currency options and currency swaps to hedge against specifically identified currency risks. In addition, the Group uses interest rate swaps to hedge against the changes in the cash flow arising from certain fixed interest rate loans and deposits.

For interest rate risks strategic hedging is carried out by monitoring the repricing of financial assets and liabilities and entering into interest rate swaps to hedge a proportion of the interest rate exposure. As strategic hedging does not qualify for special hedge accounting, the related derivatives are accounted for as trading instruments.

The Parent Company has entered into interest rate swaps that are designated as a fair value hedges, for hedging the interest rate risk movement on Euro medium term notes and certain of its customer deposits and as cash flow hedge for hedging the cash flow volatility risk on its subordinated liabilities. The cumulative change in the fair value of the hedged liabilities attributable to the risk hedged is recorded as part of their respective carrying values and are accordingly presented in statement of financial position.

The table on the following page shows the positive and negative fair values of derivative financial instruments, which are equivalent to the market values, together with the notional amounts analysed by the term to maturity. The notional amount is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2015

41. SEGMENTAL INFORMATION

Management has determined the operating segments based on the reports reviewed by the executive committee that are used to make strategic decisions. The committee considers the business from both a geographic and product perspective. Geographically, management considers the performance of whole bank in Oman and International markets. The Oman market is further segregated into corporate, consumer, wholesale and Islamic banking, as all of these business lines are located in Oman. Segment information in respect of geographical locations is as follows:

For the year ended 31 December 2015:

42. FINANCIAL RISK MANAGEMENT

42.1 Introduction and overview

Risk Management is a process by which bank muscat SAOG (the group) identifies key risks, applies consistent, understandable risk measures, and chooses which risks to reduce and which to hold and by what means and establishes procedures to monitor and report the resulting risk position for necessary action. The objective of risk management is to ensure that the group operates within the risk appetite levels set by its Board of Directors while various business functions pursue their objective of maximizing the risk adjusted returns. The Group has exposure to the following core risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

Risk management is the overall responsibility of the group's Board of Directors and managed through the Board Risk Committee (BRC). BRC provides recommendations to the Board of Directors on the risk-reward strategy, risk appetite and policies and framework for managing different types of risks. The Bank also has a Management Risk Committee (MRC) to facilitate achievement of the Bank's strategic objectives within the Board approved risk appetite, without exposing the Bank to undue risks or risk concentration. MRC provides recommendations to the Board of Directors through BRC on the risk-reward strategy, policies and framework for managing various risks. The Chief Risk Officer is the chairman of the Management Risk Committee. The Board reviews and approves the risk management strategy of the group and defines the risk appetite of the group. The Board approved strategy is implemented at management level through management committees. For the purpose of day-to-day management of risks, the group has created an independent Risk Management department (RMD). Risk Management department objectively reviews and ensures that the various functions of the group operate in compliance with the risk parameters set by the Board of Directors. Risk Management department has a direct reporting line to the Board of Directors of the group.

The risk appetite, approved by the Board of Directors of the group, in various business areas is defined and communicated through an enterprise-wide risk policy. The group's risk policy, approved by the Board of Directors, analyses and sets risk limits for core risks - Credit risk, Liquidity risk, Market risk and Operational risk. The risk levels of each of these categories is measured and monitored on a continuous basis and compliance to prescribed risk levels reported on a quarterly basis. This ensures prudent management of the risks assumed by the group in its normal course of business. The risk policy is updated regularly, based on an analysis of the economic trends and the operating environment in the countries where the group operates.

The group's risk management processes have proven effective throughout the review year. group's Board of Directors have remained closely involved with key risk management initiatives, in ensuring the group's risks are effectively managed, appropriate levels of liquidity are maintained and adequate capital is held in line with the requirements.

The group recognises that an effective risk management process is key to its objective of enhancing shareholder value and is committed to developing risk management as an area of core competence. It continues in investing in its risk management capabilities so as to ensure that it is able to deliver on its growth plans while managing the underlying risks in an effective manner.

42.2 Credit risk

42.2.1 Management of credit risk

Credit risk is the potential loss resulting from the failure of a borrower or counter party to honour its financial or contractual obligations in accordance with the agreed terms. It includes the below sub types:

- Cross border risk
- Counterparty Risk
- Settlement risk

42. FINANCIAL RISK MANAGEMENT (continued)

42.2 Credit risk (continued)

42.2.1 Management of credit risk (continued)

The function of credit risk management is to maximise the Group's risk-adjusted rate of return by maintaining credit risk exposure within acceptable parameters. Credit risk makes up the largest part of the group's risk exposure. Credit risk management process of the Group begins with the risk policy, updated regularly, which clearly defines parameters for each type of risks assumed by the Group.

Risk limit control and mitigation policies

The Group has set for itself clear and well defined limits to address different dimensions of credit risk including credit concentration risk. Compliance, with the various parameters set in the risk policy, is reviewed on a regular basis and exceptions are reported to enable remedial actions. The Group addresses credit risk through the following process:

- All credit processes Approval, disbursal, administration, classification, recoveries and write-off, all are governed by the Group's credit manual which is reviewed by Risk Management department and approved by appropriate approval authorities. The credit policy stipulates clear guidelines for each of these functions and the lending authority at various levels as stipulated in appropriate 'Lending Authority Limits'.
- All Corporate lending proposals, where the proposed credit limit for a borrower or related group exceeds a threshold, are submitted for approval/renewal to the appropriate authority after an independent review by the Risk Management Department whose comments are incorporated into the proposal.
- All Corporate relationships are reviewed at least once a year. Retail portfolio, including credit cards and mortgage portfolio, is reviewed on a portfolio basis at a product level at least once a year.
- Concentration of exposure to counterparties, geographies and sector are governed and monitored according to regulatory norms and limits prescribed in the Group's risk policy.
- Credit exposures are risk rated to provide support for credit decisions. The portfolio is analysed based on risk grades and risk grade migration to focus on management of prevalent credit risk.
- Retail portfolio is rated using an application score card.

A robust collateral management system is in place to mitigate any operational risk. The Group has a strong credit administration process that ensures compliance with terms of approval, documentation and continuous review to ensure quality of credit and collaterals. While securities such as listed equities are valued regularly, credit policy mandates securities obtained by way of legal mortgage over real estate to be valued at least once in 3 years or more frequently if situation warrants.

The Group executes Credit Support annex to the International Swaps and Derivatives Association (ISDA) document with major counterparty banks to mitigate credit risk arising out of change in the value of underlying for the derivative exposures. The Treasury Middle office undertakes daily valuation of all the derivative deals and raises appropriate margin calls.

Longer-term finance and lending to corporate entities are generally secured; revolving individual credit facilities are generally unsecured. In addition, in order to minimise the credit loss, the Group will seek additional collateral from the counterparty as soon as impairment indicators are noticed for the relevant individual loans and advances. Collateral held as security for financial assets other than loans and advances, is determined by the nature of the instrument. Debt securities, treasury and other eligible bills are generally unsecured.

42. FINANCIAL RISK MANAGEMENT (continued)

42.2 Credit risk (continued)

42.2.1 Management of credit risk (continued)

All loans and advances of the Group are regularly monitored to ensure compliance with the stipulated repayment terms. Those loans and advances are classified into one of the 5 risk classification categories: Standard, Special Mention, Substandard, Doubtful, and Loss – as stipulated by Central group of Oman regulations and guidelines. The responsibility for identifying problem accounts and classifying them rests with business line function.

42.2.2 Exposure to credit risk – Statement of financial position items Loans and advances and Islamic financing to customers

42.2.2 Exposure to credit risk – Statement of financial position items (continued)

	Loans and advances and Islamic financing to			
	customers		Due from ban	ks
	2015	2014	2015	2014
	RO 000's	RO 000's	RO 000's	RO 000's
Neither past due nor impaired				
Standard	6,813,965	6,416,836	997,041	1,043,776
Special mention	456,783	368,126	-	-
Gross amount	7,270,748	6,784,962	997,041	1,043,776
Allowance for impairment	(121,623)	(112,327)	(5,550)	(4,950)
Carrying amount	7,149,125	6,672,635	991,491	1,038,826
Total carrying amount	7,330,215	6,785,915	991,491	1,038,826
Carrying amount in USD'000	19,039,520	17,625,753	2,575,300	2,698,249
Total allowances for impairment	(297,707)	(258,894)	(5,550)	(4,950)
US\$ 000's	(773,265)	(672,452)	(14,415)	(12,857)

Total impairment above includes impairment for off-balance sheet exposures as well.

As on 31 December 2015, restructured and rescheduled loans in standard and special mentioned portfolios amounted to RO 96 million (2014: RO 54 million) and in classified portfolio amounted to RO 64 million (2014: RO 62 million).

Maximum exposure to credit risk before collateral held or other credit enhancements for all on-balance sheet assets are based on net carrying amounts as reported in the statement of financial position.

The maximum credit risk equivalents relating to off-balance sheet items calculated as per Basel II guidelines are as follows:

2014	2015		2015	2014
US\$ 000's	US\$ 000's		RO 000's	RO 000's
744,686	629,161	Financial guarantees	242,227	286,704
2,164,034	2,484,803	Other credit related liabilities	956,649	833,153
482,977	561,470	Loan commitments	216,166	185,946
3,391,697	3,675,434		1,415,042	1,305,803

The above table represents a worst case scenario of credit risk exposure as of 31 December 2015 and 2014, without taking into account of any collateral held or other credit enhancements attached.

42. FINANCIAL RISK MANAGEMENT (continued)

42.2 Credit risk (continued)

42.2.2 Exposure to credit risk - Statement of financial position items (continued)

Management is confident in its ability to continue to control and sustain minimal exposure of credit risk resulting from the Group's loan and advances portfolio based on the following:

- Regular review of the loans and advances portfolio to identify any potential risk;
- 97.3% of the loans and advances portfolio are considered to be neither past due nor impaired (2014: 98.3%);
- Of the RO 4,649 million (2014: RO 4,301 million) loans and advances assessed on an individual basis, less than 3% (2014: 3.2%) is impaired;
- Personal and housing loans represent 39.05% (2014: 38.95%) of total loans and advances which are backed by salary assignment and/or by collaterals;
- Well diversified loans and advances portfolio to avoid concentration risk in segment, sector, geographies and counterparty.

42.2.3 Impaired loans and securities

Impaired loans and securities are loans and securities for which the Group determines that it is probable that it will be unable to collect all principal and interest due according to the contractual terms of the loan and security agreements. Those loans are categorised either as Sub-standard, Doubtful or Loss in the internal credit risk system.

42.2.4 Past due but not impaired loans

Loans and securities where contractual interest or principal payments are past due but the Group believes that impairment is not appropriate on the basis of the stage of collection of amounts owed to the Group.

42.2.5 Allowances for impairment

The Group establishes an allowance for impairment losses that represents its estimate of incurred losses in its loan portfolio. The main components of this allowance are a specific loss component that relates to individually significant exposures. A collective loan loss allowance is established for Groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans subject to individual assessment for impairment. The Group makes provision for bad and doubtful debts promptly when required in line with the conservative provisioning norms it has set for itself.

42.2.6 Write-off policy

The Group writes off a loan or security and any related allowances for impairment when the Group determines that the loan or security is uncollectible. This determination is reached after considering factors such as the occurrence of significant changes in the borrower's financial position such that the borrower can no longer pay the obligation or that proceeds from collateral will not be sufficient to pay back the entire exposure or legal measures to recover the dues. For smaller balance standardised loans, charge off decisions generally based on a product specific past due status and borrower's capacity to repay the loan.

The Group holds collateral against credit exposures to customers in the form of cash on deposits, bank guarantees, quoted securities, mortgage interest over property, other registered securities over assets and other guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing and are updated regularly.

42. FINANCIAL RISK MANAGEMENT (continued)

42.2 Credit risk (continued)

42.2.7 Analysis of impairment and collaterals

(a) An estimate of the fair value of collateral and other security enhancements held against financial assets is shown below:

and Islami	d advances c financing tomers		Loans and ad Islamic fina custor	ancing to

	=======================================	

42. FINANCIAL RISK MANAGEMENT (continued)

42.2.9 Concentration of credit risk

Concentrations of credit risk arise when a number of counter parties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be affected similarly by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The Group seeks to manage its credit risk exposure through diversification of lending activities to avoid undue concentrations of risks with individuals or Groups of customers in specific locations or businesses. It also obtains appropriate security concentration by location for loans and advances and is measured based on the location of the Group holding the asset, which has a high co-relation with the location of the borrower. Concentration by location for investment securities is measured based on the location of the issuer of the security.

An analysis of concentrations of credit risk as the reporting date is shown below.

	Gross lo advances a	and Islamic

US\$ 000's	19,812,785	18,298,205	2,589,715	2,711,106		

42.2.10 Settlement risk

The Group's activities may give rise to risk at the time of settlement of transactions and trades. Settlement risk is the risk of loss due to the failure of counterparty to honor its obligation to deliver cash, securities or other assets as contractually agreed.

The Group mitigates settlement risk by conducting settlements through a settlement / clearing agent or having bilateral payment netting agreements.

42.3 Liquidity risk

Liquidity risk is the potential inability of the Group to meet its maturing obligations to counterparty.

42.3.1 Management of liquidity risk

Liquidity risk arises when the group is unable to generate sufficient cash resources to meet obligations as they fall due or can do so only at materially disadvantageous terms. Such liquidity risk may arise even when the institution is solvent. Liquidity stress may be caused by counterparties withdrawing credit lines or of not rolling over existing funding or as a result of general disruption in the markets or run on group deposits etc.

Asset Liability Committee (ALCO) of the group manages the liquidity position of the group. In order to ensure that the group meets its financial obligations as and when they fall due, cash flow positions are closely monitored. Liquidity risk management ensures that the group has the ability, under varying levels of stress to efficiently and economically meet liquidity needs.

The group consciously diversifies its funding base to include deposits raised from intergroup, issue of Certificate of deposits, retail customer deposits, bonds and medium term funds raised through Euro medium term notes and subordinated liabilities. These together with the strength of the Group's equity and asset quality ensure that funds are available at competitive rates at all times.

The sources and maturities of assets and liabilities are closely monitored to avoid any undue concentration and ensure a robust management of liquidity risks. The Group undertakes structural profiling based on the actual behavioral patterns of customers to study the structural liquidity position and initiate measures to fund these gaps.

42. FINANCIAL RISK MANAGEMENT (continued)

42.3. Liquidity risk (continued)

42.3.1 Management of liquidity risk (continued)

The group undertakes liquidity management through both cash flow approach and stock approach. Under stock approach, Liquid assets to total deposits and Liquid assets to total assets ratios are closely monitored and managed. Under cash approach, assets and liabilities are bucketed based on their residual maturity to ascertain liquidity gaps. The ALCO reviews the liquidity position on a continuous basis.

The Group's statement on maturity of asset and liability is outlined in note 42.3.2 to the consolidated financial statements.

42.3.2. Exposure to liquidity risk

The key measure used by the Group for managing liquidity risk is the ratio of liquid assets to total deposits and liquid assets to total assets. For this purpose the liquid assets include cash and balances with Central Banks, government securities, treasury bills and due from banks. The table below provides the ratio of liquid assets to deposits from customers and liquid assets to total assets at the reporting date and during the reporting period.

	Liquid assets to total assets ratio		Liquid assets to to ratio	tal deposits
	2015	2014	2015	2014
As at 31 December	20.12%	22.16%	27.65%	34.10%
Average for the period	23.05%	26.19%	32.46%	33.07%
Maximum for the period	26.45%	28.30%	36.43%	35.70%
Minimum for the period	19.53%	24.12%	27.65%	30.45%

42. FINANCIAL RISK MANAGEMENT (continued)

42.3. Liquidity risk (continued)

42.3.2 Exposure to liquidity risk (continued)

The table below analyses the Group's non-derivative financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. Derivative financial liabilities are included in the analysis if their contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows.

The asset and liability maturity profile was as follows:

	On demand or within 3	Four months to	One to	More than	
	months	12 months	five years	five years	Total

Shareholders' funds	-	-	-	3,407,967	3,407,967
Total liabilities and equity	6,036,038	4,106,354	8,354,826	6,771,141	25,268,359
Future interest cash flows	48,945	143,818	356,878	269,545	819,186

Interest cash flows shown in the above table represent inflows and outflows up to the contractual maturity of financial assets and liabilities. Mismatch in interest cash flows arise as contractual maturity of financial assets is longer than contractual maturity of financial liabilities. Historically, financial liabilities are rolled over on contractual maturity which is not considered in the future interest cash flow calculations. Furthermore, the interest cash flows do not factor in the stable nature of unambiguous maturity financial liabilities such as demand and savings accounts.

As on the reporting date, deposits from Ministries and other Government organisations represent 35.8% of the total customer deposits (2014: 31%).

42.4 Market risk

42.4.1 Management of market risks

The Group sets limits for each product and risk type in order to ensure that the Group's market risk is managed well within the overall regulatory requirements set by the Central Bank of Oman and internal regulations contained in the Risk Policy. The Group does not enter into trading positions in commodities & derivatives. Limits and all internal/external guidelines are strictly adhered to, deviations, if any, are immediately escalated and action taken wherever necessary.

The principal categories of market risk faced by the Group are set out below:

- Foreign exchange risk
- Investment price risk
- Interest rate risk
- Commodity price risk

42.4.2 Foreign exchange risk

Foreign exchange risk is the risk of loss due to volatility in the exchange rates. Foreign exchange risk management in the Group is ensured through regular measurement and monitoring of open foreign exchange positions against approved limits. Majority of the foreign exchange transactions carried out by the division are on behalf of corporate customers and are on a back-to-back basis. The treasury ensures that positions with customers are covered in the interbank market.

The Group conservatively restricts its open currency position at below 35% of its net worth as against the regulatory limit of 40% of net worth.

42. FINANCIAL RISK MANAGEMENT (continued)

42.4 Market risk (continued)

42.4.2 Foreign exchange risk (continued)

It also stipulates that exposure on any single non parity currency should be restricted to the extent of 3% of Parent Company's net worth and restricted to the extent of 10% of the Parent Company's net worth for all non-parity currencies taken together. As at the reporting date, the Group had the following net exposures denominated in foreign currencies:

2014 USD 000's	2015 USD 000's		2015 RO 000's	2014 RO 000's
598,532	458,405	US Dollar	176,486	230,435
186,042	176,379	Saudi Riyal	67,906	71,626
123,847	127,730	Bahraini Dinar	49,176	47,681
59,387	343	UAE Dirhams	132	22,864
58,868	60,964	Kuwait Dinar	23,471	22,664
8,743	8,416	Pakistani Rupee	3,240	3,366
7,301	9,761	Indian Rupee	3,758	2,811
4,982	14,945	Qatari Riyal	5,754	1,918
5,842	8,158	Others	3,141	2,249
1,053,544	865,101		333,064	405,614

Positions are monitored on a daily basis to ensure positions are maintained within the limits approved by the Central Bank of Oman.

The net exposure in foreign currencies includes foreign currency exposure on investment in overseas associates and branches of equivalent RO 93 million (2014: RO 100 million) which are exempted from regulatory limit on foreign exchange exposure.

The Group's significant portion of foreign exchange exposure is in USD and other GCC currencies which have other than Kuwaiti Dinar fixed parity with Omani Rial.

Exposure and sensitivity analysis:

The table below indicates the sensitivity analysis of foreign exchange exposure of the Group to changes in the non-parity foreign currency prices as at 31 December 2015 with all other variables held constant.

Non parity foreign currency net	At 31 Decem % of change	ber 2015	At 31 December 2014		
assets	in the currency price(+/-)	Change in profit (+/-)	% of change in the currency price(+/-)	Change in profit (+/-)	
Indian Rupees	10%	376	10%	281	
Pakistani Rupees	10%	324	10%	337	
Kuwaiti Dinar	10%	2,347	10%	2,266	
Others	10%	314	10%	225	

42. FINANCIAL RISK MANAGEMENT (continued)

42.4 Market risk (continued)

42.4.3 Investment Price Risk

Investment price risk is the risk of decline in the market value of the Group's portfolio as a result of diminishment in the market value of individual investments. The Group's investments are governed by the Investment Policy and Risk Policy approved by the Board of Directors and are subject to rigorous due diligence. Investment limits such as position limits, exposure limits, stop loss limits, sectorial limits are defined in various policies enabling proper risk management of the Group's investments. The Group's Investment Committee monitors the investments. The rating and cost vis-a-vis the market price of the instruments are monitored on daily basis and necessary actions taken to reduce exposure, if needed. Traded portfolio is revalued on daily basis and the rest at regular interval to ensure that unrealised losses, if any, on account of reduction in the market value of the investments over its cost remain within the acceptable parameters defined in the Group's Investment Policy.

Exposure and sensitivity analysis

The Group analyses price sensitivity of the equity portfolio as follows:

- a) For the local quoted equity portfolio, based on the beta factor of the portfolio performance to the MSM30 Index performance.
- For the international quoted equity portfolio, based on the individual security market price movement.

The Group's market risk is affected mainly by changes to the actual market price of financial assets. Actual performance of the Group's local equity portfolio has a correlation to the performance of MSM30 Index.

The beta of the Group's quoted local equity portfolio against the MSM30 Index for 2015 was 0.19. Thus, a +/-5% change in the value of MSM30 index may result in 0.93 % change in the value of Group's quoted local equity portfolio, amounting to RO 541 thousand adjustment in the unrealised gain recognised in the statement of other comprehensive income for the year.

The beta of the Group's quoted local equity portfolio against the MSM30 Index for 2014 was 0.62. Thus, a +/-5% change in the value of MSM30 index may result in 3.10% change in the value of Group's quoted local equity portfolio, amounting to RO 1.86 million adjustment in the unrealised gain recognised in the statement of other comprehensive income for the year.

International quoted equity portfolio of the Group comprises of shares listed in GCC stock markets, Indian Stock markets and other international markets. A +/-5% change in the market price of the respective securities, have resulted in change in value of the portfolio of +/- RO2.36 million (2014: +/-RO 1.91 million) and consequently increased or decreased in the unrealised gain recognised in the statement of other comprehensive income.

42.4.4. Interest rate risk management.

Interest rate risk is the risk of adverse impact on the Bank's financial position due to change in market interest rates. While the impact on the trading book is by way of change in the value of the portfolio, the banking book leads to impact on the net Interest Income (NII) and/or Economic Value of Equity (EVE). The short term impact of interest rate risk is measured by studying the impact on the NII of the Bank while the long term impact is measured through the study of the impact on the Economic Value of Equity. The responsibility for interest rate risk management rests with the Parent Company's Treasury under the supervision of the ALCO. The Group's interest rate sensitivity position of assets and liabilities, based on the contractual repricing or maturity dates, whichever dates are earlier, is as follows:

42. FINANCIAL RISK MANAGEMENT (continued)

42.4 Market risk (continued)

42.4.4. Interest rate risk management (continued)

- (i) The off-balance sheet gap represents the net notional amount of off-balance sheet financial instruments, including interest rate swaps which are used to manage interest rate risk.
- (ii) The repricing profile is based on the remaining period to the next interest repricing date.
- (iii) An asset (or positive) gap position exists when assets reprice more quickly or in greater proportion than liabilities during a given period and tends to benefit net interest income in a rising interest rate environment. A liability (or negative) gap position exists when liabilities reprice more quickly or in greater proportion than assets during a given period and tends to benefit net interest income in a declining interest rate environment.

Re-pricing gap is the difference between interest rate sensitive assets and liabilities spread over distinct maturity bands based on residual maturity or re-pricing dates. The Parent Company uses currency-wise and consolidated re-pricing gaps to quantify interest rate risk exposure over distinct maturities and analyse the magnitude of portfolio changes necessary to alter existing risk profile. The distribution of assets and liabilities over these time bands is done based on the actual repricing schedules. The schedules are used as a guideline to assess interest rate risk sensitivity and to focus the efforts towards reducing the mismatch in the repricing pattern of assets and liabilities.

The Parent Company uses simulation reports as an effective tool for understanding risk exposure under variety of interest rate scenarios. These reports help ALCO to understand the direction of interest rate risk in the Parent Company and decide on the appropriate strategy and hedging mechanism for managing it. The Parent Company's current on- and off-balance sheet exposures are evaluated under static environment to quantify potential effect of external interest rate shocks on the earnings and economic value of equity at risk, using assumptions about future course of interest rates and changes in Parent Company's business profile. The impact of interest rate changes on EVE is monitored by recognising the changes in the value of assets and liabilities for a given change in the market interest rate. The interest rate risk management is facilitated by limits of 5% NII impact and 20% impact on EVE for a 200 basis points shock.

An analysis of the Group's sensitivity to an increase or decrease in market interest rates is as follows:

Impact on Net Interest income	+200 bps	-200 bps	+100 bps	-100 bps	+50 bps	-50 bps

42. FINANCIAL RISK MANAGEMENT (continued)

42.5 Commodity Price Risk

As part of its treasury operations, the Group offers commodities hedging facility to its clients. Customers of the group who are exposed to commodities like Copper, Aluminium and also Jewellers with exposure to gold prices cover their commodity exposures through the Group. The Group covers all its commodity exposures back-to-back in the intergroup market.

The Group operates in the commodities market purely as a provider of hedging facilities and does not either trade in commodities or bullion or maintain positions in commodities. Customers of the Group are sanctioned a transaction volume limit based on their turn-over/ orders as well as a Variation Margin limit is applied to mitigate any mark-to-mark related credit exposures for the Group. The transaction volume limit is to restrict the total outstanding contracts value to the business requirement of the customer and the variation margin limit is to protect the Group from excessive credit risk due to adverse price movement in the underlying commodity prices. Margin calls for additional collateral or cash deposits is demanded from customers on the breach of the Variation Margin limit. The treasury middle-office monitors customers' positions and MTMs on daily basis.

42.6 Operational risks

Operational risk is the deficiencies in information systems/internal controls or uncontrollable external events will result in loss. The risk is associated with human error, systems failure and inadequate procedures or control and external causes. As per the Basel Committee on Banking Supervision (BCBS), operational risk is the risk of monetary losses resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk but excludes strategic and reputational risk.

Losses from external events such as a natural disaster that has a potential to damage the Group's physical assets or electrical or telecommunications failures that disrupt business are relatively easier to define than losses from internal problems such as employee fraud and product flaws. The risks from internal problems are more closely tied to the Group's specific products and business lines; they are more specific to the Group's operations than the risks due to external events. Operational risks faced by the Group include IT Security, telecom failure, fraud, and operational errors.

The Group has developed its own Operational Risk Management Software to aid assessment of operational risks as well as the collection and analysis of operational losses.

The Group's risk policy provides the framework to identify, assess, monitor, control and report operational risks in a consistent and comprehensive manner across the Group. Operational Risk Management function independently supports business units in the management of operational risks. Operational risk management in the Group is driven by the objective to increase the efficiency and effectiveness of the available resources, minimise losses and utilise opportunities. The main objectives of Operational Risk Management are as follows:

- To achieve strong risk control by harnessing the latest risk management technologies and techniques, resulting
 in a distinctive risk management capability, enabling business units to meet their performance and growth
 objectives.
- To enable adequate capital allocation in respect of potential impact of operational risks
- To minimize the impact of operational risks through means such as a fully functional IT Disaster Recovery facility, Business Continuity Plans, up-to-date documentation and by developing general operational risk awareness within the group.

Operational risk appetite is defined at a business unit and Group level. Business units have the primary responsibility for identifying, measuring and managing the operational risks that are inherent in their respective operations. Operational risk is controlled through a series of strong internal controls and audits, well-defined segregation of duties and reporting lines, detailed operational manuals and standards. The responsibility of overseeing the process lies with Operational Risk Unit in accordance with the Operational Risk Management Framework. Internal Audit independently reviews effectiveness of the Group's internal controls and its ability to minimise the impact of operational risks.

42. FINANCIAL RISK MANAGEMENT (continued)

42.6 Operational risks (continued)

The Operations committee is the primary oversight body for operational risk. The Operations committee is represented by business and control functions and is responsible for ensuring that the group has an adequate risk management process that covers identification, evaluation and management of operational risks and the formulation of adequate policies pertaining to operational risk management.

Business Continuity Planning (BCP)

Business Continuity Management within the Group is the implementation and management of preventative measures, planning and preparation to ensure the group can continue to operate following an incident, significant unplanned event or major operational disruption. The Group ensures that its systems and procedures are resilient to ensure business continuity through potential situations of failure. The Group has put in place Business Continuity Plans (BCP) to ensure that its business runs effectively in the event of most unforeseen disasters as required by the CBO Business Continuity Guidelines, the Basel Committee Joint Forum High-level principles for business continuity and international business continuity standards. The Group continuously strengthens and enhances its existing plans by implementing a robust business continuity framework to ensure that its systems and procedures are resilient and ready to meet 'emergency preparedness'. The BCM Committee is entrusted with the responsibility of formulating, adopting, implementing, testing and maintaining a robust BCP for the Group. The BCM Committee continuously review and agree the strategic Business Continuity assessment and planning information to ensure Business Continuity Management, planning and maintenance responsibilities are assigned, understood and implemented across the business areas.

The Group has made significant strides in enhancing its business continuity framework. Some of the major developments in line with the objective of the continuous evolution of the Group's BCM framework were:

- BCM Committee ensures business continuity is closely aligned and integrated with business initiatives and developments.
- Fire evacuation drills were conducted for each section of the Seeb Head Office and a collective, full-fledged surprise fire drill and evacuation was conducted in conjunction with the Royal Oman Police. Fire evacuation response leaders were appointed and trained.
- Comprehensive testing of the recovery of the groups key systems and applications was conducted in conjunction with the Business.
- The group's Business Recovery Centre of the group has the capability to meet any unforeseen disaster and
 ensure continual operational capability in the event of a major operational disruption. To ensure the functionality
 of the Business Recovery Centre.

42.7 Capital management

42.7.1 Regulatory capital

The Parent Company's regulator, Central Bank of Oman (CBO), sets and monitors capital requirements for the Parent Company as a whole. In implementing Basel III's capital requirement, the CBO requires the Parent Company to maintain a minimum of 12.625% ratio of total capital to total risk-weighted assets. The group's regulatory capital is analysed into three tiers:

- Tier I capital, which includes ordinary share capital, share premium, distributable and non-distributable
 reserves and retained earnings (net of proposed dividend) after deductions for goodwill and fifty percent of
 carrying value of investment in associates as per the regulatory adjustments that are included in equity but are
 treated differently for capital adequacy purposes;
- Tier II capital, which includes qualifying subordinated liabilities, collective impairment allowances and the element of the fair value reserve relating to unrealised gains on equity instruments classified as available-for-sale after deductions for fifty percent of carrying value of investments in associates;
- Tier III capital which includes qualifying subordinated liabilities (net of reserves).

42. FINANCIAL RISK MANAGEMENT (continued)

42.7.1 Regulatory capital (continued)

Various limits are applied to elements of the capital base. The qualifying Tier II and Tier III capital cannot exceed Tier I capital; qualifying subordinated liabilities may not exceed fifty percent of Tier I capital; and amount of collective impairment allowances that may be included as part of Tier II capital is limited to 1.25 percent of the total risk-weighted assets.

42.7.2 Capital adequacy

Capital adequacy indicates the ability of the group in meeting any contingency without compromising the interest of the depositors and to provide credit across the business cycles. Sufficient capital in relation to the risk profile of the Group's assets helps promote financial stability and confidence of the stakeholders and creditors. The Group aims to maximise the shareholder's value through an optimal capital structure that protects the stakeholders interests under most extreme stress situations, provides sufficient room for growth while meeting the regulatory requirements and at the same time gives a reasonable return to the shareholders. The Group has a forward looking capital policy which considers the current risk, planned growth and an assessment of the emerging risk for the forecasted period.

While risk coverage is the prime factor influencing capital retention, the Group is conscious of the fact that as a business entity, its capital needs to be serviced and a comfortable rate of return needs to be provided to the shareholders. Excessive capital will dilute the return on capital and this in turn can exert pressure for profitability, propelling business asset growth resulting in the group assuming higher levels of risk. Hence, with regards to the retention of capital, the Group's policy is governed by the need for adequately providing for associated risks and the needs for servicing the capital retained. The Group makes good use of subordinated loans as Tier II Capital and raises share capital as and when the need arises. The Group's strong and diverse shareholder profile gives the Group the necessary confidence in its ability to raise capital when it is needed.

The Group desires to move to more advanced approaches for measuring credit risk, market risk and operational risk and has put in place a 'building block' approach. A road map has been laid down for each core area of risk viz. credit, market, operational. Progress has been made in line with the road map and is being monitored on a continuous basis and reported.

Basel III regulatory reporting

The Central Bank of Oman has issued final guidelines on the implementation of the new capital norms along with the phase-in arrangements and reporting norms. The Group remains strongly capitalised and is ahead of the transitional phase-in arrangements.

15.92%	16.10%	Total capital	16.10%	15.92%

The total regulatory capital adequacy ratio of 16.10% (2014:15.92%) is after considering the proposed dividend of 30%:25% Cash and 5% Stock (2014: 25% Cash, 5% Stock and 15% Mandatory convertible bonds). The total capital adequacy pre consideration of dividend would be 16.71% (2014: 16.52%).

Capital Adequacy as per Basel II reporting for monitoring purposes:

The following table sets out the capital adequacy position as per Basel II guidelines issued by Central Bank of Oman of the Group for monitoring purposes:

2014 USD 000's	2015 USD 000's		2015 RO 000's	2014 RO 000's
3,122,864 694,034	3,341,805 660,333	Tier I Capital Tier II Capital	1,286,594 254,229	1,202,303 267,203
3,816,898	4,002,138	Total regulatory capital	1,540,823	1,469,506
		Risk weighted assets		
20,883,691	21,680,961	Credit risk	8,347,170	8,040,221
1,228,545	1,073,642	Market risk	413,352	472,990
1,649,397	1,783,743	Operational risk	686,741	635,018
23,761,633	24,538,346	Total risk weighted assets	9,447,263	9,148,229
16.06%	16.31%	Capital ratios Total regulatory capital expressed as a % of total risk weighted assets	16.31%	16.06%
	10.5176	total risk weighted assets	======	
13.14%	13.62%	Total Tier I capital expressed as a % of total risk weighted assets	13.62%	13.14%

The total regulatory capital adequacy ratio of 16.31% (2014: 16.06%) is after considering the proposed dividend of 25% Cash and 5% Stock(2014: 25% Cash, 5% Stock and 15% mandatory convertible bonds). The total capital adequacy ratio pre consideration of dividend would be 16.42% (2014: 16.66%).

42. FINANCIAL RISK MANAGEMENT (continued)

42.7 Capital management (continued)

42.7.3 Internal Capital Adequacy Assessment Process (ICAAP):

The Bank has in place Internal Capital Adequacy Assessment Process (ICAAP) which provides an assessment of the Bank's actual capital adequacy on an advanced Economic Capital measure. ICAAP incorporates the impact of residual risk including business risk, concentration risk, correlation risk, interest rate risk on banking book. The purpose of the Bank's ICAAP is not only to provide a detailed assessment of its current capital adequacy, but also to project future capital adequacy ratios in line with approved business plans in order to evaluate their validity from a risk perspective. The process covers a forward looking plan for the next 5 years. The overall framework has introduced a structured methodology for a comprehensive forward-looking assessment of capital based on the Bank's risk profile. It is also expected that the establishment of ICAAP in the Bank will facilitate the awareness for risk sensitive topics when it comes to strategic decisions like acquisitions, launch of new products or organic growth targets. It will scrutinize the current business model of the Bank and may lead to corresponding adjustments if the inherent risk goes beyond the Bank's risk appetite. ICAAP was approved by the Board of Directors through Board Risk Committee. On a quarterly basis, reporting is done to the Board on the adequacy of capital. The Bank believes that its current and foreseen capital endowment is suitable to support its business strategy in a soothing market environment. The present plan will be updated at least annually for a rolling, forward-looking planning period of 5 years.

In order to determine the Bank's capability to withstand adverse conditions, in addition to the base case, a stress scenario has also been examined. This scenario assumes a prolonged recession and specifically incorporates a deterioration of credit quality, increased IRRBB and Market Risk as well as a decrease in retained profits.

42.7.4 Capital allocation

The allocation of capital between specific business units and activities is, to large extent, driven by optimisation of the return on capital allocated. Although maximisation of the return on risk-adjusted capital is the principal basis used in determining how capital is allocated within the Bank to particular business units or activities, it is not the sole basis used for decision making. Other factors such as synergies between the units or activities, the availability of management and other resources, and the fit of the activity with the Bank's longer term strategic objectives are taken in to account while allocating capital.

43. FAIR VALUE INFORMATION

Based on the valuation methodology outlined below, the fair values of all on and off-balance sheet financial instruments at reporting dates are considered by the Board and Management not to be materially different to their book values:

	Notes	Loans and receivables RO 000's	Available-for- sale RO 000's	Held-to- maturity RO 000's	Fair value through profit or loss RO 000's	Other amortised cost RO 000's	Total carrying value RO 000's	Fair value RO 000's

43. FAIR VALUE INFORMATION (continued)

Effective 1 January 2010, the Group adopted the amendment to IFRS 7 for financial instruments that are measured in the statement of financial position at fair value; this requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The following table presents the Group's assets and liabilities that are measured at fair value at 31 December:

2015	Level 1 RO 000's	Level 2 RO 000's	Level 3 RO 000's	Total RO 000's

Exchange differences	(2)	-	(2)
At 31 December 2014	23,912	36,004	59,916

As of 31 December 2015, 59% (2014: 36%) of the level 3 equity securities were valued on the basis of the latest available audited financial statements and 41% (2014: 64%) were valued on the basis of latest available capital accounts statements of the investee companies received from independent fund managers. The debt investments were carried at cost. The Group holds adequate provisioning on the above investments as of the reporting date.

43.1 Estimation of fair values

The following summarises the major methods and assumptions used in estimating the fair values of assets and liabilities:

43.1.1 Loans and advances

Fair value is calculated based on discounted expected future principal and interest cash flows. Loan repayments are assumed to occur at contractual repayment dates, where applicable. For loans that do not have fixed repayment dates or that are subject to prepayment risk, repayments are estimated based on experience in previous periods when interest rates were at levels similar to current levels, adjusted for any differences in interest rate outlook. Expected future cash flows are estimated considering credit risk and any indication of impairment. Expected future cash flows for homogeneous categories of loans are estimated on a portfolio basis and discounted at current rates offered for similar loans to new borrowers with similar credit profiles. The estimated fair values of loans reflect changes in credit status since the loans were made and changes in interest rates in the case of fixed rate loans.

43.1.2 Investments carried at cost and derivatives

Fair value is based on quoted market prices at the reporting date without any deduction for transaction costs. If a quoted market price is not available, fair value is estimated based on discounted cash flow and other valuation techniques.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate for a similar instrument at the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2015

43. FAIR VALUE INFORMATION (continued)

43.1 Estimation of fair values (continued)

43.1.3 Bank and customer deposits

For demand deposits and deposits with no defined maturities, fair value is taken to be the amount payable on demand at the reporting date. The estimated fair value of fixed-maturity deposits, including certificates of deposit, is based on discounted cash flows using rates currently offered for deposits of similar remaining maturities. The value of long-term relationships with depositors is not taken into account in estimating fair values.

43.1.4 Other on-balance sheet financial instruments

The fair values of all on-balance sheet financial instruments are considered to approximate their book values.

43.1.5 Off-balance sheet financial instruments

No fair value adjustment is made with respect to credit-related off-balance sheet financial instruments, which include commitments to extend credit, standby letters of credit and guarantees, as the related future income streams materially reflect contractual fees and commissions actually charged at the reporting date for agreements of similar credit standing and maturity.

Foreign exchange contracts are valued based on market prices. The market value adjustments in respect of foreign exchange contracts are included in the book values of other assets and other liabilities.

44. COMPARATIVE FIGURES

No material corresponding figures for 2014 included for comparative purposes were reclassified.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF bank muscat SAOG

Report on the Financial Statements

We have audited the accompanying statement of financial position of Islamic banking window of bank muscat SAOG (hereinafter bank muscat referred as the "the Bank" and its islamic banking window as "Meethaq") as of 31 December 2015 and the related statements of income, cash flows, changes in owner's equity and sources and uses of charity fund for the year ended 31 December 2015 and a summary of significant accounting policies and other explanatory information. These financial statements and the Meethaq's undertaking to operate in accordance with Islamic Shari'a Rules and Principles as determined by the Shari'a Supervisory Board are the responsibility of the Bank's Board of Directors. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Auditing Standards for Islamic Financial Institutions issued by the Accounting and Auditing Organisation for Islamic Financial Institutions ("AAOIFI"). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Meethaq as of 31 December 2015, the results of its operations, its cash flows, changes in owner's equity and sources and uses of charity fund for the year ended 31 December 2015 in accordance with the Islamic Shari'a Rules and Principles as determined by the Shari'a Supervisory Board of the Bank and Financial Accounting Standards issued by AAOIFI.

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2015

1 LEGAL STATUS AND PRINCIPAL ACTIVITIES

bank muscat SAOG (the "Bank" or the "Head office") established "Meethaq Islamic banking window" ("Meethaq") in the Sultanate of Oman to carry out banking and other financial activities in accordance with Islamic Shari'a rules and regulations. Meethaq operates under an Islamic banking licence granted by the Central Bank of Oman ("the CBO") on 13 January 2013. Meethaq's Shari'a Supervisory Board is entrusted to ensure Meethaq's adherence to Shari'a rules and principles in its transactions and activities.

Meethaq offers a full range of Islamic banking services and products. The principal activities of Meethaq include: accepting Shari'a compliant customer deposits; providing Shari'a compliant financing based on various Shari'a compliant modes; undertaking investment activities; providing commercial banking services and other investment activities permitted under the CBO's Regulated Islamic Banking Services as defined in the licensing framework. As of 31 December 2015, Meethaq has 16 operating branches in the Sultanate of Oman and its registered address is P.O. Box 134, Ruwi, P C 112, Sultanate of Oman.

2 BASIS OF PREPARATION

2.1 Statement of compliance

In accordance with the requirements of Section 1.2 of Title 3 of the IBRF issued by CBO, the financial statements are prepared in accordance with Financial Accounting Standards (FAS) issued by Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI), the Sharia Rules and Principles as determined by the Sharia Supervisory Board of the Meethaq and other applicable requirements of CBO. In accordance with the requirements of AAOIFI, for matters which are not covered by AAOIFI and other directives, the Islamic Window uses the relevant International Financial Reporting Standards (IFRS) issued by International Accounting Standards Board (IASB).

2.2 Basis of measurement

The financial statements are prepared under historical cost basis convention except for equity type investments at fair value through equity, debt type investments at fair value through income statement and derivative financial instruments.

2.3 Functional and presentation currency

The financial statements are presented in Rial Omani (RO) which is Meethaq's functional currency and also in US Dollars, for the convenience of the readers. The US Dollar amounts, which are presented in these financial statements have been translated from the Rial Omani amounts at an exchange rate of US Dollar 1 = RO 0.385. All financial information presented in Rial Omani and US Dollars has been rounded to the nearest thousands, unless otherwise stated.

3 ACCOUNTING POLICIES

3.1 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below:

3.1.1 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, balances with Central Bank of Oman, due from and due to banks and highly liquid financial assets with original maturities of up to three months, which are subject to insignificant risk of changes in their fair value, and are used by the Islamic Window in management of its short term commitments. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

3.1.2 Due from banks

Due from banks comprise of receivables under Wakala contracts and Nostro balances. Wakala contracts are recognised at fair value of consideration paid less amounts settled, if any. Profits on Wakala balances are received as per the respective agreement. Nostro balances are current accounts of Meethag with other financial institutions.

3.1.3 Murabaha receivables

Murabaha receivables are stated net of deferred profits, amounts written off and provision for impairment, if any.

Murabaha receivables are sales on deferred payment terms. Meethaq arranges a murabaha transaction by buying an asset (which represents the object of the murabaha) and then sells this asset to murabeh (beneficiary) after computing a margin of profit over cost. The sale price (cost plus the profit margin) is repaid in installments by the murabeh over the agreed period. Promise made in the murabaha to the purchase orderer is binding upon the customer.

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2015

3.1 Summary of significant accounting policies (continued)

3.1.4 Musharaka

Musharaka contract represents a partnership between Meethaq and a customer whereby each party contributes to the capital in equal or varying proportions to develop a new asset or share in an existing one, and whereby each of the party becomes an owner of the capital on a permanent or declining basis and shall have a share of profits or losses. These are stated at the fair value of consideration given less any amounts written off and provision for impairment, if any. In Diminishing Musharaka based transactions, Meethaq enters into a Musharaka based on Shirkat-ul-milk for financing an agreed share of fixed asset (e.g. house, land, plant or machinery) with its customers and enters into periodic profit payment agreement on Ijara basis for the utilisation of Meethaq's Musharaka share by the customer. Over the tenor, one partner's investment in the partnership declines on account of the other partner's increase in the partnership investment through repayment of the former partner's share.

3.1.5 Ijarah Muntahia Bittamleek

Ijarah assets (Ijarah Muntahia Bittamleek) are stated at cost less accumulated depreciation and any impairment in value. Under the terms of lease, the legal tittle of the assets passes at the end of the lease term, provided that all the lease installments are settled. Depreciation is calculated on systematic basis to reduce the cost of leased assets over the period of lease. The Meethaq assesses at each reporting date whether there is objective evidence that these assets are impaired. Impairment losses are measured as the difference between the carrying amount of the asset (including lease rental receivables) and the estimated recoverable amount. Impairment losses, if any, are recognised in the income statement.

3.1.6 Investments

Investments comprise of equity type instruments carried at fair value through equity and debt type instruments carried at fair value through statement of income and at amortised cost.

All investments, are initially recognised at cost, being the fair value of the consideration given including acquisition charges associated with the investment, except in the case of investment carried at fair value through statement of income, if any.

Equity-type instruments at fair value through equity

Subsequent to acquisition, investments designated at fair value through equity are re-measured at fair value with unrealised gains or losses recognised proportionately in owner's equity and equity of investment account holders until the investment is derecognised or determined to be impaired at which time the cumulative gain or loss previously recorded in owner's equity or equity of investment account holders is recognised in the statement of income. Where a reliable measure of fair value for equity instruments is not available, these are measured at cost. Impairment losses on equity type instruments carried at fair value through equity are not reversed through the statement of income.

Debt-type instruments at fair value through statement of income

Subsequent to acquisition, investments designated at fair value through statement of income are re-measured at fair value with unrealised gains or losses recognised in the statement of income. All other gains or losses arising from these investments are also recognised in statement of income.

Debt-type instruments at amortised cost

Investments which have fixed or determinable payments and where Meethaq has both the intent and ability to hold to maturity are classified as debt type instrument carried at amortised cost. Such investments are carried at amortised cost, less provision for impairment in value. Amortised cost is calculated by taking into account any premium or discount on acquisition. Any gain or loss on such type of instruments is recognised in the statement of income, when the instruments are derecognised or impaired.

3.1.7 Derivative financial instruments

Meethaq holds derivative financial instruments to hedge its foreign currency exposures. However, it does not apply hedge accounting. Hence, foreign exchange trading positions, including spot and forward contracts, are revalued at prevailing market rates at reporting date and the resultant gains and losses for the financial year are recognised in the statement of income.

3.1.8 Property and equipment

Property and equipment are stated at cost less accumulated depreciation. The cost of additions and major improvements are capitalised. Maintenance and repairs are charged to the statement of income as incurred. Gains or losses on disposal are reflected in other operating income. Depreciation is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2015

3.1 Summary of significant accounting policies (continued)

3.1.8 Property and equipment (continued)

Years
Furniture, fixtures and equipment 5 - 10
Hardware and software 5 - 10

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

3.1.9 Due to banks under Wakala

Due to banks and financial institutions comprise of payables under Wakala contracts. These are recognised at fair value of consideration received less amounts settled, if any. Profits on these accounts are paid as per the respective agreement.

3.1.10 Current accounts

Current accounts are funds received under Qard whereby the principal amount is guaranteed to be repaid by Meethaq. These funds are neither entitled to any profit nor bear any losses. Current accounts are stated at fair value of consideration received less amounts settled, if any.

3.1.11 Equity of investment account holders

Equity of investment account holders comprises of deposits obtained on the basis of Mudaraba which are invested in Islamic assets. There is no restriction on Meethaq for the use of the equity of investment account holders. Equity of investment account holders is measured at the fair value of the consideration received less amounts settled.

3.1.12 Investment risk reserve

Investment risk reserves are amounts appropriated out of the income of equity of investment account holders, after allocating the mudarib share, in order to cater against future losses for equity of investment account holders.

3.1.13 Profit equalisation reserve

Meethaq appropriates a certain amount in excess of the profit to be distributed to equity of investment account holders before taking into consideration the Mudarib share of income. This is used to maintain a certain level of return on investment for equity of investment account holders.

3.1.14 Revenue recognition

Murabaha receivables

Profit on murabaha receivables is recognised when the income is both contractually determinable and quantifiable at the commencement of the transaction. Such income is recognised by proportionately allocating the attributable profits over the deferred period whereby each financial period carries its portion of profits irrespective of when the cash is received, net of suspended interest.

Musharaka

Income on Musharaka is recognised when the right to receive payment is established or when distribution is made, net of suspended interest.

Ijarah Muntahia Bittamleek

Income from Ijarah Muntahia Bittamleek assets is recognised on a time-apportioned basis over the lease term, net of depreciation. Income related to non-performing Ijarah Muntahia Bittamleek assets is excluded from statement of income.

Profit suspension

Profit receivable which is doubtful of recovery is excluded from the profit recognised until it is received in cash.

Meethag's share of income from equity of investment account holders (as Rabalmal and Mudarib)

Income is allocated proportionately between equity of investment account holders and shareholders on the basis of their respective investment in the pool before allocation of the mudarib fees. Meethaq's share as a mudarib for managing the equity of investment account holders is accrued based on the terms and conditions of the related mudaraba agreements.

At 31 December 2015

3.1 Summary of significant accounting policies (continued)

3.1.14 Revenue recognition (continued)

Fees and commission income

Fees and commission income is recognised when earned.

Commission on letters of credit and letters of quarantee are recognised as income over the period of the transaction.

Fees for structuring and arrangement of financing transactions for and on behalf of other parties are recognised when the Islamic Window has fulfilled all its obligations in connection with the related transaction.

Investment income

Income from investments at amortised cost is recognised on a time-proportionate basis based on underlying rate of return. Dividend income is recognised when the Meethaq's right to receive the payment is established.

3.1.15 Return on equity of investment account holders

Return on equity of investment accountholders is calculated based on the income generated from jointly financed assets after deducting the expenses related to investment pool (mudarib expenses). Mudarib expenses include all direct expenses incurred by Meethaq, including specific provisions. Meethaq's "mudarib share of income" is deducted from the investors' share of income before distributing such income.

3.1.16 Taxation

Taxation is calculated and paid by the Head office on an overall basis. Taxation expense in the financial statements represents allocation of such taxation to the Meethag.

3.1.17 Provisions

Provisions are recognised when Meethaq has a present obligation (legal or constructive) arising from a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

3.1.18 Derecognition of financial assets and liabilities

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- (i) the right to receive cash flows from the asset has expired;
- (ii) Meethaq retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- (iii) Meethaq has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

3.1.19 Identification and measurement of impairment assets

At each reporting date, the Meethaq reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the greater of net selling price and value in use.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment loss is recognised as an expense immediately in the income statement.

3.1.20 Earnings prohibited by Shari'a

Meethaq is committed to avoid recognising any income generated from non-Islamic sources. Accordingly, all non-Islamic income, if any, is credited to a charity fund where Meethaq uses these funds for social welfare activities.

At 31 December 2015

3.1 Summary of significant accounting policies (continued)

3.1.21 Foreign currencies

Transactions in foreign currencies are translated into Rial Omani at exchange rates ruling at the value dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Rial Omani at exchange rates ruling at the reporting date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item.

3.1.22 Employees' end of service benefits

Contributions to a defined contribution retirement plan, for Omani employees, in accordance with the Oman Social Insurance Scheme, are recognised as expense in the statement of income when accrued. Meethaq's obligation in respect of non-Omani terminal benefits, which is an unfunded defined benefit retirement plan, is the amount of future benefit that such employees have earned in return for their service in current and prior periods. This amount is accrued and recognised as an expense in the statement of income.

3.1.23 Joint and self financed

Assets that are jointly owned by Meethaq and the equity of investment account holders are classified under the caption "jointly financed" in the financial statements. Assets that are financed solely by Meethaq, if any, are classified under "self financed".

3.1.24 7akah

Meethaq is not required to pay Zakah on behalf of shareholders and investment account holders. It is the responsibility of shareholders and investment account holders to pay Zakah.

3.1.25 Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the statement of financial position when there is a legal or religious enforceable right to set off the recognised amounts and Meethaq intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

3.1.26 Commingling of funds

The funds of Islamic Window are not commingled with the funds of Conventional Operations of the Bank.

3.1.27 Fair value

Fair value is determined for each financial asset individually in accordance with the valuation policies set out below:

- For quoted investments that are traded in organised financial markets, fair value is determined by reference to the quoted market bid prices prevailing on the statement of financial position date.
- For unquoted investments, fair values is determined by reference to recent significant buy or sell transaction with third parties that are either completed or are in progress. Where no recent significant transactions have been completed or are in progress, fair value is determined by reference to the current market value of similar investments. For others, the fair value is based on the net present value of estimated future cash flows, or other relevant valuation methods.
- For investments that have fixed or determinable cash flows, fair value is based on the net present value of estimated future cash flows determined by the Islamic Window using current profit rates. For investments with similar terms and risk characteristics.
- Investments which cannot be remeasured to fair value using any of the above techniques are carried at cost, less impairment loss, if any.

At 31 December 2015

3.2 Significant accounting judgments and estimates

The preparation of Meethaq's financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements. The most significant use of judgments and estimates is as follows:

Impairment provisions against financing contracts with customers

Meethaq reviews its financing contracts at each reporting date to assess whether an impairment provision should be recorded in the financial statements. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about factors involving varying degrees of judgments and uncertainty. Actual results may differ due to changes in the underlying facts.

In addition to specific provisions against individually significant financing contracts, Meethaq also makes a collective impairment provision against exposures which, although not specifically identified as requiring a specific provision, have a greater risk of default than when originally granted. This takes into consideration, factors such as any deterioration in country risk, industry, and technological obsolescence, as well as identified structural weaknesses or deterioration in cash flows.

Liquidity

Meethaq manages its liquidity through consideration of the maturity profile of its assets, liabilities and investment accounts which is set out in the liquidity risk disclosures. This requires judgment when determining the maturity of assets, liabilities and investment accounts with no specific maturities.

Classification of investments

Management decides on acquisition of:

- an equity type financial asset, whether it should be carried at fair value through equity or through statement of income, and
- For a debt type financial asset, whether it should be carried at amortised cost or at fair value through statement of income.

3.3 Standard issued but not yet effective

FAS 27 - Investment Accounts

FAS 27 will replace FAS 5 - 'Disclosures of Bases for Profit Allocation between Owner's Equity and Investment Account Holders' and FAS 6 - 'Equity of Investment Account Holders and their Equivalent'. Upon adoption of this standard certain disclosures with respect to investment account holders and bases of profit allocation will be enhanced without having any significant impact on the financial statements of the Islamic Window.

FAS 27 is applicable for financial periods beginning from 1 January 2016. Meethaq intends to adopt the standard from its effective date.

3.4 New and amended standards, and interpretations

These financial statements have been prepared using accounting policies, which are consistent with those used in the preparation of the financial statements for the year ended 31 December 2014, except for amendment to FAS 23 which have been issued by AAOIFI.

Amendment to FAS 23 - Consolidation

The amendment introduced to FAS 23 is to give clarification on the way an Islamic financial institution (IFI) should determine if financial statements of an investee company, or a subsidiary, should be consolidated with its own. The amendment provides clarification that, in addition to the existing stipulations in the standard, control may also exist through rights arising from other contractual arrangement, voting rights of the Islamic financial institutions that give de facto power over an entity, potential voting rights, or a combination of these factors.

In terms of voting rights, the amendment also clarifies that an IFI shall consider only substantive voting rights in its assessment of whether the institution has power over an entity. In order to be substantive, the voting rights need to be exercisable when relevant decisions are required to be made and the holder of such rights must have the practical ability to exercise those rights. Determination of voting rights shall include current substantive voting rights and currently-exercisable voting rights

The amendments and clarifications are effective for the annual financial periods ending on or after 31 December 2015. The transition provision requires retrospective application including restatement of previous period comparatives. The amendment had no impact on the financial statements of the Meethaq.

Others include charity payable of RO 18 thousands (2014 - RO 7 thousands) which has been accumulated during the year.

Meethaq is not a separate taxable entity. The tax is calculated and paid on an overall basis by the head office. Based on the effective tax rate, Head office has allocated a taxation provision to Meethaq.

At 31 December 2015

12 EQUITY OF INVESTMENT ACCOUNT HOLDERS

Equity of investment account holders ('IAH') is commingled with Meethaq's funds and utilised in the business of Meethaq according to the weights of each type of fund. These weights are declared by Meethaq at the beginning of each month. Mudarib expenses are charged to the pool which include all direct expenses incurred by Meethaq, including impairment provisions. Meethaq's effective share in profits as Mudarib for the period was 24.3% (2014: 56.1%). The rate of return on each type of investment account is disclosed by Meethaq on a monthly basis. As of 31 December, the breakup of equity of investment account holders is as follows:

	2014 US\$'000	2015 US\$'000		2015 RO'000	2014 RO'000
	86,956 654,782	158,325 1,058,626 107,055	Savings accounts Fixed term accounts Other deposits	60,955 407,571 41,216	33,478 252,091

21 RISK MANAGEMENT

Meethaq's risk management is centralised at the level of Head office. It is a process whereby the Head office identifies key risks, applies consistent, understandable risk measures, and chooses which risks to reduce and which to hold and by what means and establishes procedures to monitor and report the resulting risk position for necessary action. The objective of risk management is to ensure that Meethaq operates within the risk appetite levels set by the Bank's Board of Directors while pursuing its objective of maximising the risk adjusted returns. The overall risk management philosophy of the Bank is disclosed in the consolidated financial statements of the Bank. Specific disclosures pertaining to the following risks, for which Meethaq is exposed, are given below:

a) Liquidity risk

Liquidity risk is the risk that Meethaq will be unable to meet its payment obligations when they fall due under normal and stress circumstances. Asset Liability Committee (ALCO) of the Bank manages the liquidity position of Meethaq. In order to ensure that Meethaq meets its financial obligations as and when they fall due, cash flow positions are closely monitored. If required, Meethaq, being a window operation of the Bank, obtains funding from the Head office.

At 31 December 2015

21 RISK MANAGEMENT (continued)

a) Liquidity risk (continued)

The table below summarises the maturity profile of Meethaq's assets, liabilities and investment accounts as of 31 December 2015 based on expected periods to cash conversion from the statement of financial position date:

21 RISK MANAGEMENT (continued)

b) Market risk

Market risk arises from fluctuations in profit rates, equity prices and foreign exchange rates.

Profit rate risk

Profit rate risk is the risk that Meethaq will incur a financial loss as a result of mismatch in the profit rate on Meethaq's assets and liabilities.

The profit distribution to Investment Accounts is based on profit sharing agreements. Therefore, Meethaq is not subject to any significant profit rate risk. However, the profit sharing agreements will result in Displaced Commercial Risk (DCR) when Meethaq's results do not allow Meethaq to distribute profits in line with the market rates. To cater against DCR, Meethag creates profit equalisation reserve as disclosed in note 12.

Effective profit rate on profit bearing assets, liabilities and equity of investment account holders as of 31 December 2015 are as follows:

	2015	2014
Assets:		
Murabaha and other receivables	4.17%	5.22%
Ijarah Muntahia Bittamleek	2.32%	-
Due from banks	0.27%	0.41%
Musharaka	5.33%	5.67%
Investments	4.25%	5.00%
Liabilities:		
Due to banks under Wakala	0.63%	0.39%
Equity of Investment Account Holders		
Savings accounts	0.73%	0.58%
Fixed term accounts	1.89%	2.21%
Other deposits	0.45%	-

Foreign exchange risk

Foreign exchange risk arise from the movement of the rate of exchange over a period of time. Positions are monitored on a regular basis to ensure that they are maintained within established approved limits. The following table summarises the exposure by currency as of 31 December 2015.

		2015	
	Assets RO'000	Liabilities RO'000	Net RO'000
US Dollars Euro UAE Dirham Others	832,843 33,010 888 -	852,652 33,005 879 1	(19,809) 5 9 (1)
		2014	
	Assets RO'000	Liabilities RO'000	Net RO'000
US Dollars	49,038	50,684	(1,646)
Euro	18	-	18
UAE Dirham	34	7	28
Others	-	4	(4)

Foreign currency risk sensitivity analysis

A 5% change in foreign exchange rates, with all other variables held constant, will have an impact of RO 990 thousands on Meethaq's statement of income (2014 - RO 80 thousands).

Equity price risk

Equity price risk is the risk that the fair values of equities decrease as the result of changes in the levels of equity indices and the value of individual stocks. A 10% change in equity indices will have an impact of RO 641 thousands on the equity of Meethaq (2014 - RO 286 thousands).

At 31 December 2015

21 RISK MANAGEMENT (continued)

c) Credit risk

Credit risk is the risk that one party to a financial contract will fail to discharge an obligation and cause the other party to incur a financial loss. Meethaq credit risk is managed by monitoring credit exposures, continually assessing the creditworthiness of counterparties, and by entering into collateral agreements in the form of mortgages, pledge of assets and personal guarantees.

Maximum exposure to credit risk

The table below shows the maximum exposure to credit risk by type of Islamic financing contracts before the effect of mitigation through the use of collateral or other credit enhancements.

d) Operational risk

Operational risk is the deficiencies in information systems/internal controls or uncontrollable external events that will result in loss. The risk is associated with human error, systems failure and inadequate procedures or control and external causes. As per the Basel Committee on grouping Supervision (BCBS), operational risk is the risk of monetary losses resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk but excludes strategic and reputational risk.

As the management of all other risks, operational risk for Meethaq is managed centrally at the Head office level. The detailed operational risk management approach is disclosed in the consolidated financial statements of the Bank.

At 31 December 2015

22 CONCENTRATION OF ASSETS, LIABILITIES AND INVESTMENT ACCOUNTS

All the assets, liabilities and Investment account holders (IAH's) of Meethaq are located in Oman. The distribution of assets, liabilities and investment accounts is as follows:

Assets	Liabilities	IAH's	Assets	Liabilities	IAH's

23 CAPITAL MANAGEMENT

Central Bank of Oman (CBO), sets and monitors capital requirements for the Bank as whole as well as individually for Meethaq being a window operation. A minimum of 12.625% ratio of total capital to total risk-weighted assets ratio is required to be maintained by Meethaq. The regulatory capital of Meethaq is analysed into the following tiers:

- Tier I capital, which includes share capital allocated from the Head office;
- Tier II capital, which includes collective impairment allowance to the extent of 1.75% of the risk weighted The following table sets out the capital adequacy position of Meethaq:

2014	2015 US\$'000		2015 RO'000	2014 RO'000

At 31 December 2015

24 FAIR VALUE OF ASSETS AND LIABILITIES (continued)

Fair value hierarchy

Fair values of quoted securities/sukuks are derived from quoted market prices in active markets, if available. For unquoted securities/sukuks, fair value is estimated using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

Meethaq uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy at 31 December 2015:

Level 1	Level 3	Total	
RO'000	RO'000	RO'000	
3,630	-	3,630	
-	3,372	3,372

	2,372	2,372	
490	2,372	2,862	
	3,630 - 51,227 54,857 Level 1 RO'000	RO'000 RO'000 3,630 - - 3,372 51,227 - 54,857 3,372 Level 1 Level 3 RO'000 RO'000 490 - - 2,372	

Transfers between Level 1, Level 2 and Level 3

During the year ended 31 December 2015 and 2014 there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurement.

25. COMPARATIVE FIGURES

Certain corresponding figures for 2014 have been reclassified in order to conform with the presentation for the current year. Such reclassifications are not considered material and do not affect previously reported net income or owners' equity.
