

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liquid Alternative Strategies Share Class R Acc GBP (ISIN: LU1396374701), (SEDOL: BZ57R09)

a sub fund of Barclays Portfolios SICAV. This Fund is managed by FundRock Management Company S.A.

Objectives & Investment Policy

The aim is to increase the value of your investment over the long term.

The Fund is actively managed and is known as a “fund of funds” which means that it invests mainly in other investment funds which aim to make a return in all market conditions (absolute returns). The Fund may invest in these funds directly or by using financial contracts (known as derivatives). To a lesser degree, the Fund may invest directly in shares, debt and cash.

The Fund aims to make an annual return of 3% more than the rate at which banks in Great Britain lend to each other on an

overnight basis (as calculated by the Wholesale Market Brokers’ Association in Great Britain) (SONIA).

The Fund may use derivatives to help achieve its aim, manage risk, reduce costs or improve results.

Income is not distributed and is rolled up (accumulated) into the value of your investment.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You may sell your investment on a weekly basis.

Risk and Reward Profile

The risk and reward indicator is calculated using historical data (and in the case of insufficient historical fund performance data, using the historical returns of a representative benchmark) which may not be a reliable indicator of the Fund’s future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 3 because of the low range and frequency of price movements (volatility) of the underlying investments in which the Fund invests.

The following are additional risks not covered by the risk and reward category.

The Fund may have exposure to a small number of investments or to a few countries, industries, sectors of the economy or issuers. This can make the share price of the Fund fluctuate significantly.

The Fund may invest a large part of its assets in other funds for which investment decisions are made independently of the

Fund. Investments held by other funds may be denominated in a currency other than the currency of the shares in the Fund and/or the currency of your investment. Currency fluctuations may affect the value of your investment. Investment in other funds may also lead to duplication of fees and commissions.

In some circumstances, investments may be more difficult to buy or sell at reasonable prices or at all. As a result, changes in the value of investments and the price of shares in the Fund may be unpredictable.

The Fund is not guaranteed and your investment is at risk. You may lose some or all of your investment.

The Fund may use financial contracts (known as derivatives) for various reasons, including to try to reduce the effect of currency fluctuations between the currency of its assets and the base currency of the Fund, or to reduce the effect of market or interest rate movements (known as hedging). The effectiveness of any hedging strategy is not guaranteed to succeed and may prevent the Fund from benefitting from an increase in value of a particular currency. Future legal or regulatory change could have a substantial adverse effect on the fund and your investment.

More information in relation to risks in general may be found in the “Risk Factors” section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.
