No person has been authorised by the Company to give any information or to make any representations in connection with the offering of Shares other than those contained in the Prospectus and, if given or made, such information or representations must not be relied on as having been made by the Company. The delivery of this Prospectus (whether or not accompanied by any reports) or the issue of Shares shall not, under any circumstances, create any implication that the affairs of the Company have not changed since the date hereof.

The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted. Prospective investors are required to inform themselves about and to observe any such restrictions. This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

Shares of this Company may not be offered, sold or delivered within the United States or to investors who are US Persons. A US Person is any person who:

- (i) is a United States person within the meaning of Section 7701(a)(30) of the US Internal Revenue Code of 1986, as amended, and the Treasury Regulations promulgated thereunder;
- (ii) is a US person within the meaning of Regulation S under the US Securities Act of 1933 (17 CFR § 230.902(k));
- (iii) is not a Non-United States person within the meaning of Rule 4.7 of the US Commodity Futures Trading Commission Regulations (17 CFR § 4.7(a)(1)(iv));
- (iv) is in the United States within the meaning of Rule 202(a)(30)-1 under the US Investment Advisers Act of 1940, as amended; or
- (v) is any trust, entity or other structure formed for the purpose of allowing US Persons to invest in the Company.

The Company and the ACD have not been and will not be registered in the United States of America under any applicable legislation.

Shares in the Company are not listed on any investment exchange.

Potential investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Shares.

The provisions of the Instrument of Incorporation are binding on each of its Shareholders (who are taken to have notice of them).

This Prospectus has been issued for the purpose of section 21 of the Financial Services and Markets Act 2000 by UBS Asset Management Funds Ltd.

This Prospectus is based on information, law and practice at the date hereof. An out of date prospectus cannot bind the Company when it has issued a new prospectus and investors should check with the Authorised Corporate Director (ACD) that this is the most recently published prospectus.

DEFINITIONS

"ACD"	UBS Asset Management Funds Ltd, the authorised corporate director of the Company
"Approved Bank"	<p>in relation to a bank account opened by the Company:</p> <p>(a) if the account is opened at a branch in the United Kingdom:</p> <p>(i) the Bank of England; or (ii) the central bank of a member state of the OECD; or (iii) a bank; or (iv) a building society ; or (v) a bank which is supervised by the central bank or other banking regulator of a member state of the OECD; or</p> <p>(b) if the account is opened elsewhere:</p> <p>(i) a bank in (a); or (ii) a credit institution established in an EEA State other than the United Kingdom and duly authorised by the relevant Home State regulator; or (iii) a bank which is regulated in the Isle of Man or the Channel Islands; or</p> <p>(c) a bank supervised by the South African Reserve Bank</p>
"Class" or "Classes"	in relation to Shares, means (according to the context) all of the Shares related to a single Fund or a particular class or classes of Share related to a single Fund
"COLL"	refers to the appropriate chapter or rule in the Collective Investment Schemes Sourcebook
"COLL Sourcebook"	the Collective Investment Schemes Sourcebook issued by the FCA as amended or re-enacted from time to time
"Company"	UBS Investment Funds ICVC V
"CSSF"	Commission de Surveillance du Secteur Financier

"Custodial Assets"	those financial instruments held by the Company that can be: (1) registered in a financial instrument's account opened in the Depositary's books; or (2) physically delivered to the Depositary
"Custodian"	JPMorgan Chase Bank N.A.
"Dealing Day"	Monday to Friday except: (1) for all funds a bank holiday in England and Wales; (2) in the case of the UBS Global Enhanced Equity Income Fund only, the last working day before Christmas and a public or bank holiday in Luxembourg; (3) any other days declared by the ACD to be a company holiday or other days at the ACD's discretion. Where the ACD declares additional days these will be available on the ACD's website at www.ubs.com/funds
"Depositary"	National Westminster Bank Plc, the depositary of the Company
"Director" or "Directors"	the directors of the Company from time to time (including the ACD)
"Distributor and/or Distributors"	UBS Asset Management (UK) Ltd
"EEA State"	a member state of the European Union and any other state that is within the European Economic Area
"efficient portfolio management" or "EPM"	as used in this prospectus, shall mean efficient portfolio management, hedging and investment techniques where derivatives are used for one or more of the following purposes: reduction of risk, reduction of cost or generation of additional income with an acceptably low level of risk, as more fully described in Appendix II, paragraph 48 (Efficient Portfolio Management of all Funds)
"Eligible Institution"	one of certain eligible institutions (being a BCD credit institution authorised by its home state regulator or a MiFID investment firm authorised

	by its home state regulator) as defined in the glossary to the FCA Handbook
"the FCA"	the Financial Conduct Authority
"FCA Handbook"	the FCA Handbook of Rules and Guidance
"fraction"	a smaller denomination Share (on the basis that one thousand smaller denomination Shares make one larger denomination Share)
"Fund" or "Funds"	a sub-fund of the Company (being part of the Scheme Property of the Company which is pooled separately) to which specific assets and liabilities of the Company may be allocated and which is invested in accordance with the investment objective applicable to such sub-fund
"Fund Administrator"	J.P. Morgan Europe Limited
"General Fees"	all fees and expenses incurred in the ordinary course of business of the Company, including (but not limited to) the fees and expenses of the auditors, tax, legal and other professional advisers, any costs incurred in taking out and maintaining any insurance policy in relation to the Company and its Directors, the costs of printing and distributing reports, accounts, prospectuses (including any periodic updates), details of NAVs and prices, expenses incurred in relation to company secretarial duties and shareholders meetings, the fees of the FCA and any corresponding periodic fees of any other appropriate regulatory authority and any payments otherwise due by virtue of the COLL Sourcebook
"ICVC"	Investment Company with Variable Capital
"Instrument of Incorporation"	the instrument of incorporation of the Company as amended from time to time
"Investment Manager"	UBS Asset Management (UK) Ltd

"ISA"	an individual savings account under The Individual Savings Account Regulations 1998 (as amended)
"Management Company of the Master SICAV"	UBS Fund Management (Luxembourg) S.A, R.C.S. Luxembourg 154.210
"Master SICAV"	UBS (Lux) Equity SICAV
"Master-Feeder Agreement"	the agreement between the Company and the Master SICAV
"Net Asset Value"	the value of the Scheme Property of the Company or of any Fund (as the context may require) less the liabilities of the Company (or of the Fund concerned) as calculated in accordance with the Instrument of Incorporation
"OEIC Regulations"	the Open-Ended Investment Companies Regulations 2001 as amended or re-enacted from time to time
"PRN"	the FCA's product reference number for an open-ended investment company, authorised unit trust or a sub-fund of either
"register"	the register of shareholders of the Company
"Regulations"	the OEIC Regulations and the FCA Handbook (including the COLL Sourcebook). Also referred to as FCA Rules or FCA Regulations
"Remuneration Policy"	has the meaning set out in the "Management and Administration" section of this Prospectus in the paragraph headed "ACD's remuneration policy"
"Scheme Property"	the property of the Company required under the COLL Sourcebook to be given for safekeeping to the Depositary
"SDRT"	stamp duty reserve tax
"Share" or "Shares"	a share or shares in the Company (including larger denomination Shares and fractions)

"Shareholder"	a holder of registered Shares in the Company
"switch"	the exchange of Shares of one Class or Fund for Shares of another Class or Fund
"Transfer Agent"	Northern Trust Global Services Limited
"UBS Asset Management (UK) Ltd"	a company incorporated in England and Wales with limited liability whose registered office is at 5 Broadgate, London EC2M 2QS
"UCITS Directive"	the European Parliament and Council Directive of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS") (No 2009/65/EC), as amended, including any delegated regulations made pursuant to and supplementing the UCITS Directive from time to time.
"valuation point"	the point, whether on a periodic basis or for a particular valuation, at which the ACD carries out a valuation of the Scheme Property for the Company or a Fund (as the case may be) for the purposes of determining the price at which Shares of a Class may be issued, cancelled or redeemed or for accounting. The valuation point for the Funds will be 12.00 noon except in the case of UBS Global Enhanced Equity Income Fund when it will be 11.59pm
"VAT"	value added tax

DETAILS OF THE COMPANY

General:

UBS Investment Funds ICVC V (PRN: 578608) is an open-ended investment company with variable capital incorporated in England and Wales under registered number IC947 and authorised by the FCA with effect from 17 July 2012. The Company is a UCITS Scheme which complies with COLL 5. The Company has an unlimited duration.

Shareholders are not liable for the debts of the Company.

Head office:

5 Broadgate, London EC2M 2QS

Address for service:

The Head Office is the address of the place in the United Kingdom for service on the Company of notices or other documents required or authorised to be served on it.

Base currency:

The base currency of the Company and each Fund is Pounds Sterling.

Share capital: Maximum £100,000,000,000

Minimum £100

Shares have no par value. The share capital of the Company at all times equals the sum of the Net Asset Values of each of the Funds.

The structure of the Company

The Funds:

The Company is an umbrella company for the purposes of the OEIC Regulations in that different Funds may be established from time to time by the Authorised Corporate Director (ACD) with the approval of the FCA. On the introduction of any new Fund or Class, a revised prospectus will be prepared setting out the relevant details of each Fund or Class.

The assets of each Fund will be treated as separate from those of every other Fund and will be invested in accordance with the investment objective and investment policy applicable to that Fund. The Funds are:

UBS Global Enhanced Equity Income Fund (PRN: 663079)

Details of the Funds are set out in the Investment Objectives, Policies and Other Details of the Funds section of this Prospectus.

The Funds are segregated portfolios of assets and, accordingly, the assets of a Fund belong exclusively to that Fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body, including the Company and any other Fund and shall not be available for any such purpose.

Subject to the above, each Fund will be charged with the liabilities, expenses, costs and charges of the Company attributable to that Fund and within the Funds charges will be allocated between Classes in accordance with the terms of issue of Shares of those Classes. Any assets, liabilities, expenses, costs or charges not attributable to a particular Fund may be allocated by the ACD in a manner which it believes is fair to the Shareholders generally. This will normally be pro rata to the Net Asset Value of the relevant Funds.

Please also see the paragraph entitled "Liabilities of the Company and the Funds" in the Risk Factors section of this Prospectus.

Shares:

Classes of Share within the Funds

Several Classes of Share may be issued in respect of each Fund. UBS Global Enhanced Equity Income Fund has share classes C, K and S. These are distinguished by their criteria for subscription and fee structure:

Share Class:	UBS Global Enhanced Equity Income Fund
Class C:	
minimum initial single lump-sum investment	£1,000
minimum subsequent investment	£500
minimum regular saving	£50
minimum holding	£500
initial charge	Nil
annual management charge	0.6%
Class K:	
	Available only to companies within the UBS group (and others at the discretion of the ACD). Charges for managing investments with Class K are charged outside the Fund by agreement between the ACD and individual investors.
minimum initial single lump-sum investment	£100,000
minimum subsequent investment	£10,000
minimum holding	£50,000
initial charge	Nil
annual management charge	Nil
Class S:	
	Investment in this class is entirely at the discretion of the ACD
minimum initial single lump-sum investment	£1,000,000
minimum	£10,000

Share Class:	UBS Global Enhanced Equity Income Fund
subsequent investment	
minimum holding	£500,000
initial charge	Nil
annual management charge	0.5%

The ACD may at its discretion accept subscriptions and/or holdings lower than the minimum amount(s).

The types and Classes of Shares available in each Fund are set out in the Details of the Company section of this Prospectus. Holders of income Shares are entitled to be paid the income attributed to such Shares on the relevant allocation dates. Holders of accumulation Shares are not entitled to be paid the income attributed to such Shares, but that income is automatically transferred to (and retained as part of) the capital assets of the relevant Fund on the relevant interim and/or annual accounting dates. This is reflected in the price of an accumulation Share.

The Instrument of Incorporation allows gross income and gross accumulation Shares to be issued as well as net income and net accumulation Shares. Net Shares are Shares in respect of which income allocated to them is distributed periodically to the relevant Shareholders (in the case of income Shares) or credited periodically to capital (in the case of accumulation Shares), in either case in accordance with relevant tax law net of any tax deducted or accounted for by the Company. Gross Shares are income or accumulation Shares where, in accordance with relevant tax law, distribution or allocation of income is made without any tax being deducted or accounted for by the Company. Currently, however, all references in this Prospectus to income and accumulation Shares are to net income and net accumulation Shares.

Where a Fund has different Classes, each Class may attract different charges and so monies may be deducted from Classes in unequal proportions. In these circumstances the proportionate interests of the Classes within a Fund will be adjusted accordingly.

Shareholders are entitled (subject to certain restrictions) to switch all or part of their Shares in a Class or a Fund for Shares in another Class within the same Fund or for Shares of the same or another Class within a different Fund of the Company or for shares of any other UBS Asset Management ICVCs where UBS Asset Management Funds Ltd acts as the Authorised Corporate Director. Details of this switching facility and the restrictions are set out in the Buying, Redeeming and Switching Shares section of this Prospectus.

The targeted investors for each Class of Shares are all the investors that fall within the category of investors that can invest in that Class of Shares and who can provide the minimum initial single lump sum investment (where applicable).

Changes to the Company

Where any changes are proposed to be made to the Company or a Fund the ACD will assess whether the change is fundamental, significant or notifiable in accordance with COLL 4.3. If the change is regarded as fundamental, Shareholder approval will be required. If the change is regarded as significant, not less than 60 days' prior written notice will be given to Shareholders. If the change is regarded as notifiable, Shareholders will receive suitable notice of the change.

INVESTMENT OBJECTIVES, POLICIES AND OTHER DETAILS OF THE FUNDS

Investment of the assets of each of the Funds must comply with the COLL Sourcebook and the investment objective and policy of the relevant Fund. Details of these investment objectives and policies are set out below.

The eligible markets on which the Funds may invest are set out in Appendix I. A detailed statement of the general investment and borrowing restrictions and the extent to which the Company may employ is set out in Appendix II.

It is possible to hold the Funds within a ISA tax-efficient wrapper. Please contact the ACD for further details.

Exposure to securities financing transactions

The Funds will neither make use of securities financing transactions (i.e. (i) repurchase transactions, (ii) securities or commodities lending and securities or commodities borrowing, (iii) buy-sell back transactions or sell-buy back transactions, and (iv) margin lending transactions) nor of total return swaps.

UBS Global Enhanced Equity Income Fund

Type of Sub-fund:

Feeder UCITS Scheme.

Investment objective and policy:

The Fund invests in the UBS (Lux) Equity SICAV – Global Income (USD), a sub-fund of UBS (Lux) Equity SICAV (the “Master Fund”) with the aim of generating above-average returns relative to that of the global equity market.

The Master Fund has a global investment focus and predominantly invests in the shares of small, medium and large companies in developed and emerging markets. The Master Fund aims to achieve above-average share earnings compared to the global equity market and to pay above-average share earnings (largely derived from dividends and call option premiums).

It is envisaged that the Fund will normally be near to fully invested in the Master Fund, though it may also invest in cash and near cash.

Please see Appendix IV for information in relation to UBS (Lux) Equity SICAV – Global Income (USD).

Classes of Share available:

- (i) Class C accumulation Shares
- (ii) Class K accumulation Shares
- (iii) Class S accumulation Shares
- (i) Class C income Shares
- (ii) Class K income Shares
- (iii) Class S income Shares

Fund launch date: 20 November 2014

Past Performance: Performance data (where available) is contained in the key investor information document for the relevant share class of the Fund which is available from the following website www.ubs.com/funds

Investor Profile: The Fund is aimed at investors who are looking to invest for the medium to long term, who are prepared to accept fluctuations in the value of their capital, including capital loss, and who are also prepared to accept the possibility of paying income and capital gains tax on returns. Investors should also be aware that the Master Fund's strategy of writing call options may reduce the potential for capital growth.

Global exposure and leverage: The Fund will not use leverage. The UBS (Lux) Equity SICAV – Global Income (USD) is permitted to use leverage and Shareholders should refer to the prospectus of UBS (Lux) Equity SICAV for further information which is available on request (free of charge) from the ACD).

BUYING, REDEEMING AND SWITCHING SHARES

The dealing office of the ACD is open on each Dealing Day to receive requests for the purchase, redemption and switching of Shares. Requests submitted after 12.00 noon will be dealt at the valuation point on the next day that is a Dealing Day.

Subject to and in accordance with the COLL Sourcebook the issue or cancellation of Shares may take place through the Company directly.

It is the ACD's policy generally not to hold Shares or seek to make a profit from holding Shares.

Buying Shares

Procedure:

Shares may be bought directly from the ACD or through your professional adviser or other intermediary. The targeted investors for each Class of Shares are all the investors that fall within the category of investors that can invest in that Class of Shares and who can provide the minimum initial single lump sum investment (where applicable). Class K Shares are restricted to companies within the UBS Group and to clients of companies within the UBS Group.

Shares may be bought by sending an application form (which must be accompanied by all required information including a completed FATCA/CRS self-certification form) to the Transfer Agent, Northern Trust Global Services Limited.

Forms may be obtained from the Transfer Agent or the client's client adviser and online through the following website: www.ubs.com

Valid applications to purchase Shares on any Dealing Day must be received by 12.00 noon. Applications will be processed at the Share price calculated, based on the Net Asset Value per Share, at the Valuation Point on that Dealing Day.

The ACD has the right to reject any application for Shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant.

Any subscription monies remaining after a whole number of Shares have been issued will not be returned to the applicant. Instead, smaller denomination Shares will be issued. A smaller denomination Share is equivalent to one thousandth of a larger denomination Share.

Documents the buyer will receive:

A contract note giving details of the number and price of Shares bought will be issued no later than the end of the business day following the later of receipt of the application to

buy Shares and the valuation point by reference to which the price is determined, together with, where appropriate, a notice of the applicant's right to cancel.

Settlement is due on receipt by the buyer of the contract note. An order for the purchase of Shares will only be deemed to have been accepted by the ACD once it is in receipt of cleared funds for the application. If settlement is not made within a reasonable period, then the ACD has the right to cancel any Shares issued in respect of the application.

Share certificates will not be issued in respect of Shares. Ownership of Shares will be evidenced by an entry on the Company's Register of Shareholders. Statements in respect of periodic distributions on Shares will show the number of Shares held by the recipient.

The Company has the power to issue bearer Shares but there are no present plans to do so.

Minimum subscriptions and holdings:

The minimum initial subscriptions, subsequent subscriptions and holdings for each Class of Share in a Fund are set out in the Details of the Company section of this Prospectus.

The targeted investors for each Class of Shares are all the investors that fall within the category of investors that can invest in that Class of Shares and who can provide the minimum initial single lump sum investment (where applicable).

Regular Savings Plan:

Class C Shares may be bought through the UBS Investment Funds Regular Savings Plan.

To invest in this way, Shareholders will need to complete a direct debit mandate and return it to Northern Trust Global Services Limited before contributions may begin. Monthly contributions may be increased, decreased (subject to maintaining the minimum level of contribution) or stopped at any time by notifying Northern Trust Global Services Limited in writing. If, however, payments are not made into the regular savings plan for more than three months and the Shareholder holds less than the minimum holding for that Class, then the ACD reserves the right to redeem that Shareholder's entire holding in that Class. Contract notes will not be issued to Shareholders investing through a regular savings plan.

Forms may be obtained from the Transfer Agent or the client's client adviser and online through the following website: www.ubs.com

Redeeming Shares

Procedure:

Every Shareholder has the right to require that the Company redeem his Shares on any Dealing Day unless the value of Shares which a Shareholder wishes to redeem will mean that the Shareholder will hold Shares with a value less than the required minimum holding in the relevant Class, in which case the Shareholder may be required, at the discretion of the ACD, to redeem his entire holding in that Class of Share in the relevant Fund.

All requests to redeem may be made to the Transfer Agent, Northern Trust Global Services Limited, by telephone on 0800 3583012, by sending an application form or in writing to Northern Trust Global Services Limited.

Requests for redemption of Shares on any Dealing Day must be received by 12 noon. Requests will be processed at the Share price calculated, based on the Net Asset Value per Share, at the Valuation Point on the relevant Dealing Day.

Forms may be obtained from the Transfer Agent or the client's client adviser and online through the following website: www.ubs.com

In addition the ACD may from time to time make arrangements to allow Shares to be redeemed on-line or through other communication media.

Documents a redeeming Shareholder will receive:

A contract note giving details of the number and price of Shares redeemed will be sent to the redeeming Shareholder (or the first named Shareholder, in the case of joint Shareholders) together with (if sufficient written instructions have not already been given) a form of renunciation for completion and execution by the Shareholder (or, in the case of a joint holding, by all the joint Shareholders) no later than the end of the business day following the later of the request to redeem Shares or the valuation point by reference to which the price is determined. Cheques in satisfaction of the redemption monies will be issued within four business days of the later of (a) receipt by the ACD of the form of renunciation (or other sufficient written instructions) duly signed and completed by all the relevant Shareholders, together with any other appropriate evidence of title, and (b) the valuation point following receipt by the ACD of the request to redeem.

Minimum redemption:

Part of a Shareholder's holding may be redeemed but the ACD reserves the right to refuse a redemption request if the value of the Shares of any Fund to be redeemed is less than the applicable minimum holding in respect of any Class of Share.

Switching

A Shareholder in a Fund may at any time switch all or some of his Shares of one Class or Fund ("the Original Shares") for Shares of another Class within the same Fund or of another Fund ("the New Shares") or for shares in any other UBS Asset Management ICVCs where UBS Asset Management Funds Ltd acts as the Authorised Corporate Director, subject to the restrictions defined in their prospectuses. The number of New Shares issued will be determined by reference to the respective prices of New Shares and Original Shares at the valuation point applicable at the time the Original Shares are redeemed and the New Shares are issued. For switching involving shares in other UBS Asset Management ICVCs, their valuation points will also apply.

Switching between all shares classes may be effected by sending an application form to Northern Trust Global Services Limited.

Switching into or between Class K Share is restricted to companies within the UBS Group and to clients of companies within the UBS Group.

The ACD may at its discretion accept transfer of title by written electronic communication.

Switching forms may be obtained from the Transfer Agent or the client's client adviser, and online through the following website: www.ubs.com

If the switch would result in the Shareholder holding a number of Original Shares or New Shares of a value which is less than the minimum holding in the Class concerned, the ACD may, if it thinks fit, convert the whole of the applicant's holding of Original Shares to New Shares (and make a charge on switching on such conversion) or refuse to effect any switch of the Original Shares. No switch will be allowed during any period when the right of Shareholders to require the redemption of their Shares is suspended. Save as otherwise specifically set out, the general provisions on procedures relating to redemption will apply equally to a switch. A duly completed switching form must be received by the ACD before 12.00 noon on a Dealing Day in the Fund or Funds concerned to be dealt with at the prices at the valuation point on that Dealing Day, or at such other date as may be approved by the ACD. Switching requests received after 12.00 noon will be held over until the next day that is a Dealing Day in each of the relevant Fund or Funds.

The ACD may adjust the number of New Shares to be issued to reflect the application of any charge on switching together with any other charges or levies or dilution

adjustments in respect of the application for the New Shares or redemption of the Original Shares as may be permitted pursuant to the COLL Sourcebook.

Please note that a switch of Shares in one Fund for Shares in any other Fund is treated as redemption of the Original Shares and a purchase of New Shares and will, for persons subject to United Kingdom taxation, be a realisation for the purposes of capital gains taxation.

A Shareholder who switches Shares in one Fund for Shares in any other Fund (or who switches between Classes of Shares) will not be given a right by law to withdraw from or cancel the transaction. The Shareholder will then be subject to the charges applicable to the new Fund or share class.

Dealing charges

The price per Share at which Shares are bought or redeemed is the Net Asset Value per Share and any dilution adjustment that may be applied. Any initial charge, redemption charge or dilution levy is payable in addition to the price.

Initial charge:

The ACD may impose a charge on the purchase of Shares in each Class. At present no initial charge is levied on purchases of any class of Shares.

Redemption charge:

The ACD may make a charge on the redemption of Shares in each Class. At present no redemption charge is levied on any class of Shares.

The ACD may introduce a redemption charge on any class of Shares or vary the rate or method of calculation of any redemption charge only in accordance with the FCA Rules and after the ACD has made available a revised version of the Prospectus showing the rate of charge and its commencement. Any redemption charge introduced will apply only to Shares sold since its introduction but not to shares previously in issue.

Charges on switching:

On the switching of Shares between Funds or Classes in the Company the Instrument of Incorporation authorises the Company to impose a charge on switching. At present no charge is levied on switches between any classes of Shares.

Switching into or between Class K Shares is restricted to companies within the UBS group and to clients of companies within the UBS group. For details of charges in relation to switching into any other UBS collective investment scheme, please contact the ACD.

For details of charges in relation to switching into funds of other UBS Asset Management ICVCs, please contact the ACD.

Other dealing information

Delivery Versus Payment ("DvP") Exemption

The ACD may make use of the DvP exemption as set out in the FCA Handbook, which provides for a one-day window during which money held for the purposes of settling a transaction in shares is not treated as 'client money'. Specifically, under the DvP exemption, money received by the ACD from an investor, or money due to be paid to an investor by the ACD, need not be treated as client money if: (i) the ACD receives the money from an investor for the subscription of shares and the money is passed to the relevant Fund's depository for the purpose of creating shares in the relevant Funds within the timeframes set out in the FCA Handbook; or (ii) the ACD holds the money in the course of redeeming shares provided that the proceeds of that redemption are paid to an investor within the timeframes set out in the FCA Handbook.

Dilution adjustment

The basis on which the Company's investments are valued for the purpose of calculating the price of Shares as stipulated in the COLL Sourcebook and the Instrument of Incorporation is summarised in the Calculation of the Net Asset Value section of this Prospectus. The actual cost of buying or redeeming a Fund's investments may be higher or lower than the mid-market value used in calculating the Share price. Under certain circumstances (for example, large volumes of deals) this may have a material adverse effect on the existing/continuing Shareholders' interest in the Fund. In order to prevent this effect, called "dilution", and in order to protect the interests of existing/continuing Shareholders, the ACD has the power to apply a "dilution adjustment" to the price on the purchase and/or redemption of Shares. If applied, the dilution adjustment will be made to the price of the Fund, with the effect that any extra capital invested/retained will become part of the relevant Fund and not paid to the ACD.

The dilution adjustment for each Fund will be calculated by reference to the estimated costs of dealing in the underlying investments of that Fund, including any dealing spreads, commission and transfer taxes. The price of each Class of Share in a Fund will be calculated separately but any dilution adjustment will, in percentage terms, affect the price of Shares of each Class identically.

The need to apply a dilution adjustment will depend on the volume of net purchases or redemptions of the Shares. The ACD may charge a dilution adjustment on the purchase and redemption of such shares if, in its opinion, the existing/continuing Shareholders might otherwise materially be adversely affected and if applying a dilution adjustment, so far as practicable, is fair to all existing and potential shareholders. In determining the rate of any dilution adjustment, the ACD may, in order to reduce volatility, take account

of the trend of a Fund to expand or contract and the transaction in Shares at a particular valuation point. Unless it is disadvantageous to shareholders, the dilution adjustment will normally be applied in the following circumstances:

1. On a Fund experiencing large levels of net purchases or redemptions relative to its size; for these purposes, a large level of net dealing is defined as net purchases or a redemptions of 3% or more of the value of the Fund. In respect of the UBS Global Enhanced Equity Income Fund a dilution adjustment will apply to all net purchases and redemptions without any threshold applying.
2. In any other case where the ACD is of the opinion that the interests of existing/continuing Shareholders or potential Shareholders require the imposition of a dilution adjustment.

As dilution is directly related to the inflows and outflows of monies from a Fund it is not possible to predict accurately whether dilution will occur at any future point in time or how frequently the ACD will need to make such a dilution adjustment. The actual dilution adjustment applied will depend on market conditions at or around the time at which the deal is struck. Please refer to Appendix III for the dilution adjustments applied by Fund and an indication of the frequency of application of such adjustments.

Market Timing

The ACD may refuse to accept a subscription or a switch from another Fund if it has reasonable grounds, relating to the circumstances of the shareholder concerned, for refusing to accept a subscription or a switch from them. In particular, the ACD may exercise this discretion if it believes the shareholder has been or intends to engage in market timing.

Money laundering

Under the UK money laundering regulations, as amended from time to time, the ACD is responsible to verify investor identity when the investor undertakes certain transactions and as part of ongoing client screening. This involves obtaining independent documentary evidence confirming identity and permanent residential address. This may also involve an electronic check of information. Normally these verification processes will not result in any delay in carrying out instructions but the ACD reserves the right to refuse to issue Shares, pay the proceeds of a redemption of Shares, or pay income on Shares to the investor until satisfactory proof of identity is obtained.

Transfers

Shareholders are entitled to transfer their Shares to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the ACD for this purpose. Completed instruments of transfer must be returned to the ACD in

order for the transfer to be registered by the ACD. The ACD may refuse to register a transfer unless an amount equivalent to the applicable SDRT has been paid.

Restrictions and compulsory transfer and redemption

The ACD may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no Shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Company incurring any liability to taxation which the Company is not able to recoup itself or suffering any other adverse consequence. In this connection, the ACD may, inter alia, reject at its discretion any application for the purchase, redemption, transfer or switching of Shares.

If it comes to the notice of the ACD that any Shares ("affected Shares"):

- (i) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- (ii) would result in the Company incurring any liability to taxation which the Company would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or
- (iii) are held in any manner by virtue of which the Shareholder or Shareholders in question is/are not qualified to hold such Shares or if it reasonably believes this to be the case;

the ACD may give notice to the Shareholder(s) of the affected Shares requiring the transfer of such Shares to a person who is qualified or entitled to own them or that a request in writing is given for the redemption of such Shares in accordance with the COLL Sourcebook. If any Shareholder upon whom such a notice is served does not within thirty days after the date of such notice transfer his affected Shares to a person qualified to own them or submit a written request for their redemption to the ACD or establish to the satisfaction of the ACD (whose judgement is final and binding) that he or the beneficial owner is qualified and entitled to own the affected Shares, he shall be deemed upon the expiry of that thirty day period to have given a request in writing for the redemption or cancellation (at the discretion of the ACD) of all the affected Shares.

A Shareholder who becomes aware that he is holding or owns affected Shares shall immediately, unless he has already received a notice as set out above, either transfer all his affected Shares to a person qualified to own them or submit a request in writing to the ACD for the redemption of all his affected Shares.

Where a request in writing is given or deemed to be given for the redemption of affected Shares, such redemption will be effected in the same manner as provided for under the COLL Sourcebook.

Deferred Redemptions

In times of high redemption, to protect the interests of continuing Shareholders the ACD may, at its discretion, defer all redemptions at any Dealing Day to the next Dealing Day where requested redemptions exceed 10 per cent of a relevant Fund's value. This will allow the ACD to match the sale of the scheme property to the level of redemptions, thereby reducing the impact of dilution on the relevant Fund. At the next such Dealing Day all deals relating to the earlier Dealing Day will be completed before those relating to a later Dealing Day are considered.

Shareholders in UBS Global Enhanced Equity Income Fund should also note that redemption requests of Shares may be deferred in further circumstances. This is because UBS Global Enhanced Equity Income Fund is a feeder fund which invests not less than 85% of assets in a master fund (being a sub-fund of the Master SICAV). Consequently, the capacity of UBS Global Enhanced Equity Income Fund to meet redemption requests depends largely on the capacity of the master fund to meet corresponding requests made to it by UBS Global Enhanced Equity Income Fund. The Management Company of the Master SICAV is permitted to defer redemption requests in the event of an excessively large volume of redemption requests until the corresponding assets of the sub-fund have been sold without unnecessary delay. Where requests are deferred in this manner by the Management Company of the Master SICAV, the ACD may likewise defer corresponding redemption requests of Shareholders of UBS Global Enhanced Equity Income Fund to each subsequent Dealing Day. This may be the case even where the combined redemption requests of Shareholders on a particular Dealing Day do not exceed the 10% threshold for UBS Global Enhanced Equity Income Fund.

Issue of Shares in exchange for in specie assets

The ACD may arrange for the Company to issue Shares in exchange for assets other than cash, but will only do so where the Depositary has taken reasonable care to determine, in accordance with the COLL sourcebook, that the Company's acquisition of those assets in exchange for the Shares concerned is not likely to result in any material prejudice to the interests of Shareholders.

The ACD will ensure that the beneficial interest in the assets is transferred to the Company with effect from the issue of the Shares.

The ACD will not issue Shares in any Fund in exchange for assets the holding of which would be inconsistent with the investment objective of that Fund.

In specie redemptions

If a Shareholder requests the redemption of Shares the ACD may, where it considers the deal to be substantial in relation to the total size of the Fund concerned or in some way advantageous or detrimental to the Fund, arrange, having given prior notice in writing to the Shareholder, that in place of payment for the Shares in cash, the Company transfers property or, if required by the Shareholder, the net proceeds of sale of the relevant property, to the Shareholder.

The ACD will select the property to be transferred in consultation with the Depositary. The Depositary must be satisfied that the transfer of the Scheme Property concerned would not be likely to result in any material prejudice to the interests of Shareholders.

Suspension of dealings in the Company

The ACD may, with the prior agreement of the Depositary, or must if the Depositary so requires, temporarily suspend, without notice to Shareholders, the issue, cancellation, sale and redemption of Shares (including any purchase and redemption on switching) in any or all of the Funds where due to exceptional circumstances it is in the interests of Shareholders in the Fund to suspend dealings (for example, but without limitation, on the closure or suspension of dealing on a relevant exchange, or the inability of the ACD to ascertain properly the value of any or all of the assets or realise any or all of the assets of a Fund).

The ACD will notify Shareholders of the Fund of the suspension as soon as practicable after suspension commences and will publish sufficient details to keep Shareholders informed about the suspension including, if known, its likely duration.

In the case of UBS Global Enhanced Equity Income Fund, as a feeder UCITS scheme, where the master scheme in which it invests temporarily suspends the issue, cancellation, sale and redemption of shares, where on its own initiative, that of its depositary or the CSSF, the ACD will be entitled to suspend dealing in Shares of the feeder fund. In such an event, Shareholders in UBS Global Enhanced Equity Income Fund should note that the ACD will not be in a position to end the suspension and commence dealing until the suspension of dealing in the relevant master fund has ceased.

Suspension is only allowed to continue for as long as it is justified having regard to the interests of the Shareholders of the Fund.

The ACD and the Depositary must formally review the suspension at least every 28 days.

During a suspension, none of the obligations in COLL 6.2 (Dealing) apply; and the ACD must comply with as much of COLL 6.3 (Valuation and pricing) as is practicable in the light of the suspension.

The suspension of dealings in Shares must cease as soon as practicable after the exceptional circumstances have ceased. For UBS Global Enhanced Equity Income Fund,

in the case of a suspension in dealing arising from a suspension imposed by its corresponding master UCITS, the suspension will only cease when the corresponding master UCITS resumes dealing in its shares.

Any suspension of dealings will be subject to the provisions of the COLL Sourcebook.

Recalculation of the Share price for the purposes of purchases and redemptions will commence on the next relevant valuation point following the ending of the suspension.

Governing law

All deals in Shares are governed by English law.

VALUATION OF THE COMPANY

The price of a Share is calculated by reference to the Net Asset Value of the Fund to which it relates. There shall only be a single price for a share in any Fund. The Net Asset Value per share of UBS Global Enhanced Equity Income Fund is calculated at 11.59 p.m.

The ACD may at any time during a Dealing Day carry out an additional valuation if it considers it desirable to do so. The ACD shall inform the Depositary of any decision to carry out such an additional valuation. Valuations may be carried out for effecting a scheme of amalgamation or reconstruction which do not create a Valuation Point for the purposes of dealings. Where permitted and subject to the Regulations, the ACD may in certain circumstances (for example where a significant event has occurred since the closure of a market) substitute a price with a more appropriate price which in its opinion reflects a fair and reasonable price for that investment.

The ACD will, upon completion of each valuation, notify the Depositary of the price of Shares, of each Class of each Fund and the amount of any dilution levy or dilution adjustment applicable in respect of any purchase or redemption of Shares, except where calculated purely for performance purposes.

Calculation of the Net Asset Value

The value of the property of the Company or of a Fund (as the case may be) shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions:

1. All the Scheme Property (including receivables) is to be included, subject to the following provisions.
2. Property which is not cash (or other assets dealt with in paragraph 3 below) or a contingent liability transaction shall be valued as follows and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:
 - (a) units or shares in a collective investment scheme:
 - (i) if a single price for buying and redeeming units or shares is quoted, at that price; or
 - (ii) if separate buying and redemption prices are quoted, at the average of the two prices provided the buying price has been reduced by any initial charge included therein and the redemption price has been increased by any exit or redemption charge attributable thereto; or
 - (iii) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists, or, if the most recent price available does not reflect the ACD's best estimate

of the value of the units or shares, at a value which in the opinion of the ACD, is fair and reasonable;

- (b) any other transferable security:
 - (i) if a single price for buying and redeeming the security is quoted, at that price; or
 - (ii) if separate buying and redemption prices are quoted, at the average of the two prices; or
 - (iii) if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists, or, if the most recent price available does not reflect the ACD's best estimate of the value of the security, at a value which in the opinion of the ACD is a fair and reasonable price for that investment;
 - (c) Scheme Property other than that described in (a) and (b) above at a value which, in the opinion of the ACD, is fair and reasonable.
3. Cash and amounts held in current and deposit accounts and in other time related deposits shall be valued at their nominal values.
 4. Property which is a contingent liability transaction shall be treated as follows:
 - (a) if it is a written option (and the premium for writing the option has become part of the Scheme Property), deduct the amount of the net valuation of premium receivable. If the Scheme Property is an off exchange option the method of valuation shall be agreed between the ACD and the Depositary;
 - (b) if it is any other form of contingent liability transaction, include it at the mark to market value (whether as a positive or negative value). If the Scheme Property is an off exchange derivative, include it at a valuation method agreed between the ACD and the Depositary.
 5. In determining the value of the Scheme Property, all instructions given to issue or cancel Shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.
 6. Subject to paragraphs 7 and 8 below, agreements for the unconditional sale or purchase of Scheme Property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and if, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
 7. Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 6.

8. All agreements are to be included under paragraph 6 which are, or ought reasonably to have been, known to the person valuing the property.
9. Deduct an estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) capital gains tax, income tax, corporation tax, VAT, SDRT, stamp duty, and any foreign taxes or duties.
10. Deduct an estimated amount for any liabilities payable out of the Scheme Property and any tax thereon treating periodic items as accruing from day to day.
11. Deduct the principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings.
12. Add an estimated amount for accrued claims for tax of whatever nature that may be recoverable.
13. Add any other credits or amounts due to be paid into the Scheme Property.
14. Add a sum representing any interest or any income accrued due or deemed to have accrued but not received.
15. Currencies or values in currencies other than Sterling shall be converted at the relevant valuation point at a rate of exchange that is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders.
16. Deduct the total amount of any performance fee that has accrued as at that time (if any) based on the calculation summarised in the Prospectus.

Price per Share in each Fund and each Class

The price per Share at which Shares are bought or redeemed is the Net Asset Value per Share and any dilution adjustment that may be applied. Any initial charge, redemption charge, SDRT provision or dilution levy is payable in addition to the price.

Pricing basis

The ACD deals on a forward pricing basis. A forward price is the price calculated at the next valuation point after the purchase or redemption is deemed to be accepted by the ACD.

Publication of prices

The most recent price of all C and S Shares only appear on UBS's website at www.ubs.com/funds, although the ACD may, at its discretion, publish prices of some or all Shares in the Financial Times or any other United Kingdom newspaper but may cease to do so without notification to Shareholders at any time.

The most recent prices of K Shares are available on the ACD's website at www.ubs.com/funds

As the ACD deals on a forward pricing basis, the prices that appear on our website or those available by telephone will not necessarily be the same as the one at which investors can currently deal. The ACD does not accept responsibility for the accuracy of the prices published in or for the non-publication of prices for reasons beyond the control of the ACD.

RISK FACTORS

Potential investors should consider the following risk factors before investing in the Company (or, in the case of specific risks applying to specific Funds, in those Funds).

General

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities. There can be no assurance that any appreciation in the value of investments will occur. The value of investments and the income derived from them may fall as well as rise and investors may not recoup the original amount they invest in the Company. There is no certainty that the investment objective of any Fund will actually be achieved and no warranty or representation is given to this effect.

Effect of initial charge or redemption charge

Where an initial charge or redemption charge is imposed, an investor who realises his Shares after a short period may not (even in the absence of a fall in the value of the relevant investments) realise the amount originally invested.

In particular, where a redemption charge is payable investors should note that the percentage rate at which the redemption charge is calculated is based on the market value rather than the initial value of the Shares. If the market value of the Shares has increased the redemption charge will show a corresponding increase. Currently there is no redemption charge. The Shares should be viewed as medium to long-term investments.

Charges to capital

The annual management charge and other expenses of a Fund may be deducted from the capital of the Fund in the event that income is insufficient for this purpose, subject to the provisions of the COLL Sourcebook.

Where an investment objective of a Fund is to treat the generation of income as a higher priority than capital growth, or the generation of income and capital growth have equal priority, all or part of the ACD's fee may be charged against capital instead of against income. This treatment of the ACD's fee will increase the amount of income (which may be taxable) available for distribution to Shareholders in the Fund concerned but may constrain capital growth.

Dilution levy and Dilution adjustment

Investors should note that in certain circumstances a dilution levy or dilution adjustment may be applied on the purchase or redemption of Shares (see "Other Dealing Information" in the Buying, Redeeming and Switching Shares section of this Prospectus).

Where a dilution levy or dilution adjustment is not applied, the Fund in question may incur dilution, which may constrain capital growth.

Suspension of dealings in Shares

Investors are reminded that in certain circumstances their right to redeem Shares (including a redemption by way of switching) may be suspended (see "Suspension of dealings in the Company" in the Buying, Redeeming and Switching Shares section of this Prospectus).

Liabilities of the Company and the Funds

As explained in the Details of the Company section under the OEIC Regulations, each Fund is a segregated portfolio of assets and those assets can only be used to meet the liabilities of, or claims against, that Fund. Whilst the OEIC Regulations provide for segregated liability between Funds, the concept of segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known whether a foreign court would give effect to the segregated liability and cross-investment provisions contained in the OEIC Regulations. Therefore, it is not possible to be certain that the assets of a Fund will always be completely insulated from the liabilities of another Fund of the Company in every circumstance.

Client Money and Depositary Insolvency

The Depositary has a duty to ensure that it safeguards and administers the scheme property in compliance with the provisions of the FCA Handbook governing the protection of client assets ("Client Asset Rules"). The Depositary is not under a duty to comply with the provisions of the FCA Handbook on handling money received or held for the purpose of buying or selling securities and investments ("Client Money"). Moreover, with respect to handling scheme property in the course of delivery versus payment transactions through a commercial settlement system ("CSS"), the scheme property may not be protected under the Client Asset Rules. In the event that the Depositary becomes insolvent or otherwise fails, there is a risk of loss or delay in return of any scheme property which consists of Client Money, client assets held in a CSS or any other client assets which the Depositary or any of its delegates is not required or has failed to hold in accordance with the Client Asset Rules.

Currency exchange rates

Currency fluctuations may adversely affect the value of a Fund's investments and, depending on an investor's currency of reference, currency fluctuations may adversely affect the value of his investment in Shares.

Derivatives

The Investment Manager may employ derivatives in the pursuit of the investment objectives as stated in this Prospectus and in accordance with its risk management policy. Derivative transactions may also be used for the purposes of hedging and efficient portfolio management. The use of derivatives may lead to higher volatility in the share price of these Funds.

Derivatives, which includes swaps, are potentially volatile, and these Funds may be exposed to additional risk and costs should the market move against these Funds' derivative positions. The market for swaps may sometimes be less liquid than other investments which in turn may require the Investment Manager to liquidate other Funds assets in order to meet unit holder redemptions.

When a fund uses derivatives to take 'short positions' in investments, it effectively allows it to sell a holding it does not own on the anticipation that the value will fall. However, if the value of that investment increases, it will have a negative effect on the Fund's value. In extreme stock market conditions, the Fund may be faced with unlimited losses which would mean your investment could become worthless.

Derivative Techniques

The COLL Sourcebook permits the Investment Manager to use certain techniques when investing in derivatives in order to manage a fund's exposure to particular counterparties and in relation to the use of collateral to reduce overall exposure to over-the-counter ("OTC") derivatives; for example a fund may take collateral from counterparties with whom they have an OTC derivative position and use that collateral to net off against the exposure they have to the counterparty under that OTC derivative position, for the purposes of complying with counterparty spread limits. The COLL Sourcebook also permits a fund to use derivatives to effectively short sell (agree to deliver the relevant asset without holding it in the scheme) under certain conditions.

Counterparties

In order to trade in OTC derivative instruments the Investment Manager may enter into an agreement with a counterparty. Whilst the Investment Manager will take account of certain available market information and factors to make an assessment of the credit worthiness of the counterparty, the Fund is at risk that the counterparty may not fulfil its obligations under the agreement. Any collateral paid by the Fund may not be returned, nor may any payments due to the Fund be made.

Alternative investments and Commodities

The fund may gain exposure to alternative investments such as property, commodities and hedge funds through the use of derivatives referencing indices designed to reproduce the performance of these asset classes. These underlying investments typically exhibit different performance characteristics to traditional assets and are subject to additional risks such as illiquidity in the underlying investments, a lack of transparency in the

underlying investments, significant price volatility and basis risk between the performance of the derivatives and the performance of the underlying.

Risks due to investment exposures

The following are risks relevant to the investments made by the underlying funds and the direct investments of the Funds.

Certain risks may apply only to a small percentage of the underlying investments held by a Fund and/or direct investments in equities and fixed income made by each Fund. To the extent that underlying funds or the Funds invest in emerging markets, Central and Eastern Europe (in particular Russia), smaller companies, bonds and high yield bonds the risks mentioned below may apply:

Emerging Markets

Investments in emerging markets may be more volatile than investments in more developed markets. Some of these markets may have relatively unstable governments, economies based on only a few industries and securities markets that trade only a limited number of securities. Many emerging markets do not have well developed regulatory systems and disclosure standards may be less stringent than those of developed markets.

The risks of expropriation, nationalisation and social, political and economic instability are greater in emerging markets than in more developed markets.

The following is a brief summary of some of the more common risks associated with emerging markets investment:

Fraudulent Securities – Given the lack of a regulatory structure it is possible that securities in which investments are made may be found to be fraudulent. As a result, it is possible that loss may be suffered.

Currency Fluctuations – Significant changes in the currencies of the countries in which investments are made in respect of the currency of denomination of the relevant Fund may occur following the investment of the Company in these currencies. These changes may impact the total return of the Fund to a significant degree. In respect of currencies of certain emerging countries, it is not possible to undertake currency hedging techniques.

Settlement and Custody Risks – Settlement and custody systems in emerging markets are not as well developed as those in developed markets. Standards may not be as high and supervisory and regulatory authorities not as sophisticated. As a result there may be risks that settlement may be delayed and that cash or securities could be disadvantaged.

Investment and Remittance Restrictions – In some cases, emerging markets may restrict the access of foreign investors to securities. As a result, certain equity securities may

not always be available to a Fund because the maximum permitted number of or investment by foreign shareholders has been reached. In addition, the outward remittance by foreign investors of their share of net profits, capital and dividends may be restricted or require governmental approval. The Company will only invest in markets in which it believes these restrictions to be acceptable. However, there can be no guarantee that additional restrictions will not be imposed.

Accounting – Accounting, auditing and financial reporting standards, practices and disclosure requirements applicable to companies in emerging markets differ from those applicable in more developed markets in respect of the nature, quality and timeliness of the information disclosed to investors and, accordingly, investment possibilities may be difficult to properly assess.

Potential implications of Brexit

On 23 June 2016 the United Kingdom held a referendum and voted to leave the European Union. This has led to volatility in the financial markets of the United Kingdom and more broadly across Europe and may also lead to weakening in consumer, corporate and financial confidence in such markets. The extent and process by which the United Kingdom will exit the European Union, and the longer term economic, legal, political and social framework to be put in place between the United Kingdom and the European Union are unclear at this stage and are likely to lead to ongoing political and economic uncertainty and periods of exacerbated volatility in both the United Kingdom and in wider European markets for some time. In particular, the decision made in the British referendum may lead to a call for similar referendums in other European jurisdictions which may cause increased economic volatility in the European and global markets. This mid to long term uncertainty may have an adverse effect on the economy generally and on the ability of the Company and its investments to execute their respective strategies and to receive attractive returns.

Leaving the European Union may also result in significant changes to law and regulation in the United Kingdom. It is not currently possible to assess the effect of these changes on the Company or the position of the shareholders (although such changes may result in the management arrangements for the Company having to be re-structured). Investors should be aware that these and other similar consequences following from the referendum result may adversely affect the value of the shares and the Company's performance.

Specific risk relating to Central and Eastern Europe and in particular Russia

Certain markets in Central and Eastern Europe present specific risks in relation to the settlement and safekeeping of securities. These risks result from the fact that physical securities may not exist in certain countries (such as Russia); as a consequence the ownership of securities is evidenced only on the issuer's register of shareholders. Each issuer is responsible for the appointment of its own registrar. In the case of Russia, this

results in a broad geographic distribution of several thousand registrars across Russia. Russia's Federal Commission for Securities and Capital Markets (the "Commission") has defined the responsibilities for registrar activities, including what constitutes evidence of ownership and transfer procedures. However, difficulties in enforcing the Commission's regulations mean that the potential for loss or error still remains and there is no guarantee that the registrars will act accordingly to the applicable laws and regulations. Widely accepted industry practices are still in the process of being established. When registration occurs, the registrar produces an extract of the register of shareholders as at that particular point in time. Ownership of shares is evidenced by the records of the registrar, but not by the possession of an extract of the register of shareholders. The extract is only evidence that registration has taken place. It is not negotiable and has no intrinsic value. In addition, a registrar will typically not accept an extract as evidence of ownership of shares and is not obligated to notify the Depositary, the Custodian or their local agents in Russia, if or when it amends the register of shareholders. As a consequence of this, Russian securities are not on physical deposit with the Depositary, the Custodian or their local agents in Russia. Therefore, neither the Depositary, Custodian nor their local agents in Russia can be considered as performing a physical safekeeping or custody function in the traditional sense. The registrars are neither agents of, nor responsible to the Depositary, Custodian or their local agents in Russia. The Depositary and the Custodian's liability only extends to their own negligence and wilful default and to that caused by negligence or wilful misconduct of their local agents in Russia, and does not extend to losses due to the liquidation, bankruptcy, negligence or wilful default of any registrar. In the event of such losses the ACD will have to pursue its rights directly against the issuer and/or its appointed registrar. The above risks in relation to safekeeping of securities in Russia may exist in a similar manner, in other Central and Eastern European countries in which a Fund may invest.

Smaller Companies

Funds investing in smaller companies invest in transferable securities that may be less liquid than the securities of larger companies, as a result of inadequate trading volume or restrictions on trading. Securities in smaller companies may possess greater potential for capital appreciation, but also involve risks, such as limited product lines, markets and financial or managerial resources and trading in such securities may be subject to more abrupt price movements than trading in the securities of larger companies.

Bonds

Bonds are subject to both actual and perceived measures of creditworthiness. Bonds, and especially high yield bonds, could be affected by adverse publicity and investor perception, which may not be based on fundamental analysis, and would have a negative effect on the value and liquidity of the bond.

High Yield Bonds

The Fund may invest in high yield bonds. With high yield bonds there is an increased risk of capital erosion through default or where the redemption yield is below the income yield and economic conditions and changes to interest levels may significantly impact the value of such bonds.

Master-Feeder Funds

Potential investors in the UBS Global Enhanced Equity Income Fund (the "Feeder Fund") should consider the following additional risk factors before investing.

Investors should take note of the risks of UBS (Lux) Equity SICAV – Global Income (USD) (the "Master Fund") set out in Appendix IV.

Investors are reminded that the right to subscribe for or redeem shares in a Feeder Fund may be suspended in circumstances where dealing in the respective Master Fund in which it invests are suspended. Please see "Suspension of dealings in the Company" above.

Master Fund Prices Late

In the event that the price of the Master Fund is not released within the agreed time frame then the Feeder Fund will also price late and deal confirmations may also be delayed. The Feeder Fund will not release a price until it receives a price from the Master Fund. In such situations, the Feeder Fund may need to defer redemptions or to suspend trading if, in the opinion of the ACD, that is in the best interests of shareholders in the Feeder Fund.

Tax

Investment in a Feeder Fund may not be as tax efficient as investing directly into the Master Fund depending on your tax status and residence.

The Feeder Fund invests at least 85% in the Luxembourg domiciled Master Fund. Investments made by the Luxembourg domiciled Master Fund on behalf of the Feeder Fund will be subject to Luxembourg's double tax treaties which may differ from UK's double tax treaties and in some cases may be less efficient.

Compensation for pricing errors in the Master Fund

In the event of an error in the pricing of shares in the Master Fund or sub-fund of the Master SICAV, a compensation payment to affected shareholders or former shareholders in that Master Fund or sub-fund of the Master SICAV, including the UBS Global Enhanced Equity Income Fund may be payable. In these circumstances, compensation may also be payable to former shareholders of the UBS Global Enhanced Equity Income Fund however

this will be determined on a case by case basis and in certain circumstances such compensation may not be payable.

MANAGEMENT AND ADMINISTRATION

Authorised Corporate Director

The ACD is UBS Asset Management Funds Ltd, which is a private company, limited by shares incorporated in England and Wales on 5 February 1988.

The directors of the ACD and their main business activities are:

S J Hutton, Head of UK Wholesale Distribution, UBS Asset Management

E C S Byrne, Head of AM UK, UBS Asset Management

P Davis, non-executive director

Registered Office and Head Office: 5 Broadgate, London EC2M 2QS

Ultimate holding company: UBS Group AG, a company incorporated under the laws of Switzerland

Share Capital: Issued and paid up: £26,000,000

The ACD is the authorised corporate director of UBS Investment Funds ICVC, UBS Investment Funds ICVC II, UBS Investment Funds ICVC III, UBS Investment Funds ICVC III and UBS Investment Funds ICVC V, all open-ended investment companies with variable capital.

The ACD is responsible for managing and administering the Company's affairs in compliance with the COLL Sourcebook. The ACD delegates certain investment management services to UBS Asset Management (UK) Ltd and certain administration functions to JP Morgan Chase Bank and J.P.Morgan Europe Limited, subject to the rules in the COLL Sourcebook.

The ACD has appointed Northern Trust Global Services Limited to provide registration services for all Share Classes and Funds.

The ACD has delegated the Fund Accounting and OTC Derivatives services to J.P.Morgan Europe Limited ("the Fund Accounting and OTC Derivatives Agreement").

Terms of appointment:

The appointment of the ACD has been made under an agreement dated 19 November 2014 between the Company and the ACD ("the ACD Agreement").

The ACD Agreement provides that the appointment of the ACD may be terminated on 6 months' written notice being given by the Company or immediately in certain circumstances, by notice in writing being given by the ACD to the Company, or by the Depositary or the Company to the ACD. Termination cannot take effect until the FCA has approved the change of director.

The ACD is entitled to its pro rata fees and expenses to the date of termination and any additional expenses necessarily incurred in settling or realising any outstanding obligations. No compensation for loss of office is provided for in the agreement. The ACD Agreement provides indemnities to the ACD except in the case of any matter arising as a direct result of its negligence, fraud or wilful default in the performance of its duties and obligations.

The ACD is under no obligation to account to the Depositary or the Shareholders for any profit it makes on the issue or reissue of Shares or cancellation of Shares that it has redeemed. The fees to which the ACD is entitled are set out in the Fees and Expenses section of this Prospectus.

ACD's remuneration policy:

The ACD has adopted a remuneration policy, the objectives of which are to ensure that the remuneration is in line with the applicable regulations, and more specifically with the provisions defined under (i) Alternative Investment Fund Managers (AIFM) Directive 2011/61/EU transposed into the Alternative Investment Fund Managers Regulations 2013; (ii) the Undertakings for Collective Investment in Transferable Securities (UCITS) Directive 2014/91/EU (the UCITS V Directive) transposed into the Undertakings for Collective Investment in Transferable Securities Regulations 2016, the AIFM Remuneration Code SYSC 19B, the UCITS Remuneration Code SYSC 19E and (ii) the ESMA guidelines on sound remuneration policies under the UCITS Directive and AIFMD published on 31 March 2016 (the Guidelines); and to comply with the UBS Remuneration policy framework. Such remuneration policy is reviewed at least annually.

The remuneration policy is intended to discourage excessive risk taking, contain measures to avoid conflicts of interest, be consistent with sound and effective risk management and with the UBS Group business strategy, objectives and values. This approach furthermore focuses on:

- The assessment of performance which is set in a multi-year framework appropriate to the holding periods recommended to the investors of the sub-funds in order to ensure that the assessment process is based on the longer-term performance of the sub-fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- The remuneration of all staff members is appropriately balanced between fixed and variable elements. The fixed component of the remuneration represents a sufficient high proportion of the total remuneration and allows a fully flexible bonus strategy, including the possibility to pay no variable remuneration component. The fixed remuneration is determined by taking into consideration the role of the individual employee, including responsibility and job complexity, performance and local market conditions. It is also to be noted that the company may, on its own discretion, offer fringe benefits to some employees which are an integral component of the fixed remuneration;

Any relevant disclosures shall be made in the annual reports of the ACD in accordance with the provisions of the UCITS V Directive.

Investors can find more details about the remuneration policy, including, but not limited to, the description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits are available on https://www.ubs.com/uk/en/asset_management/investors/publications.html.

A paper copy of such document is available free of charge from the ACD upon request.

The Depositary

National Westminster Bank Plc is the depositary of the Company.

The Depositary is incorporated in England as a public limited company. The registered and head office of the Depositary is at 135 Bishopsgate, London EC2M 3UR. The ultimate holding company of the Depositary is the Royal Bank of Scotland Group plc, which is incorporated in Scotland. The principal business activity of the Depositary is banking.

The Depositary is responsible for the safekeeping of scheme property, monitoring the cash flows of the Funds, and must ensure that certain processes carried out by the ACD are performed in accordance with the applicable rules and scheme documents.

In accordance with applicable laws (including the FCA Handbook), the Depositary is required to:

- ensure that: (i) the sale, issue, repurchase, redemption and cancellation of Shares; and (ii) the calculation of the Share price, is carried out in accordance with applicable laws (including the FCA Handbook), the Instrument of Incorporation and this Prospectus;

- carry out the instructions of the ACD (unless such instructions conflict with applicable laws (including the FCA Handbook), the Instrument of Incorporation and this Prospectus);
- ensure that, in transactions involving the Scheme Property, any consideration is remitted to the relevant Fund within the usual time limits;
- ensure that the income of the Company is applied in accordance with applicable laws (including the FCA Handbook), the Instrument of Incorporation and this Prospectus;
- ensure that the cash flows of the Company are properly monitored and that: (i) all payments made by or on behalf of applicants subscribing for Shares have been received; and (ii) all cash is booked in cash accounts in accordance with the FCA Handbook;
- hold in custody the Company's Custodial Assets in the Depositary's books within segregated accounts opened in the name of the Company or the ACD (acting on behalf of the Company) and, in respect of other assets (that are not the Company's Custodial Assets), verifying the ownership of such assets and maintaining records accordingly; and
- provide the ACD on a regular basis with a comprehensive inventory of all of the assets comprising the Scheme Property.

The Depositary or the sub-custodian may hold financial instruments in fungible or omnibus accounts and in order to facilitate timely settlement of trades financial instruments may be used by the sub-custodian for the account of another client of the sub-custodian and vice versa. The use of omnibus accounts gives rise to a potential risk that there could be a shortfall in the Fund assets held in such an account should the total of the Fund assets be less than the aggregate entitlement of the Company. It is expected that such risks will be mitigated by the sub-custodian's trade matching and reconciliation processes however in the event of an irreconcilable shortfall, the affected clients would bear the risk of any shortfall on a pro-rata basis and the Company may not recover all the Fund assets.

Terms of appointment:

The appointment of the Depositary has been made under an agreement dated 8 August 2016 between the Company, the ACD and the Depositary (the "Depositary Agreement").

The Depositary Agreement may be terminated on three months' written notice by the Depositary or the Company or immediately in certain circumstances but such notice may only take effect upon the appointment of a new depositary. However, the Company may not terminate the appointment of the Depositary, and the Depositary may not retire, unless and until a successor depositary has been appointed.

Under the Depositary Agreement, the Depositary is free to render similar services to others and the Depositary, the Company and the ACD are subject to a duty not to disclose confidential information. The powers, duties, rights and obligations of the Depositary, the Company and the ACD under the Depositary Agreement shall, to the extent of any conflict, be overridden by the FCA Rules.

Under the Depositary Agreement the Depositary will be liable to the Company for any loss of financial instruments held in Custody or for any liabilities incurred by the Company as a result of the Depositary's negligent or intentional failure to fulfil its obligations. However, the Depositary Agreement excludes the Depositary from any liability except in the case of fraud, wilful default, negligence or failure to exercise due care and diligence in the performance or non-performance of its obligations. It also provides that the Company will indemnify the Depositary for any loss suffered in the performance or non-performance of its obligations except in the case of fraud, wilful default, negligence or failure to exercise due care and diligence on its part.

The fees to which the Depositary is entitled are set out in the Fees and Expenses section of this Prospectus.

Delegation of the Depositary's custody and other functions:

Subject to certain conditions set out in the COLL Sourcebook, the Depositary may delegate its custody and certain other duties as depositary to a third party. The Depositary has appointed pursuant to a written agreement JPMorgan Chase Bank N.A. (the "**Custodian**") to provide certain custody services to the Depositary in respect of the Scheme Property.

The Custodian may appoint sub-delegates to provide custody services in respect of the Scheme Property, provided that any such sub-delegation complies with the COLL Sourcebook and the terms of the Custodian's appointment by the Depositary.

A list of the Custodian's sub-delegates (as at the date of this Prospectus) is set out in Appendix V. Up-to-date information concerning the Depositary's custody arrangements (including a description of the safekeeping duties delegated, a summary of any conflicts of interest that may arise from such delegation, and the identity of any custodians and

sub-custodians) may be available from time to time from the Depositary. A paper copy of this information is also available (free of charge) on request.

Generally, any third party to whom custody functions are to be delegated must be subject to effective prudential regulation (including minimum capital requirements) and regulatory supervision in the jurisdiction concerned. However, the Depositary may delegate (or permit the Custodian to sub-delegate) safekeeping duties to an entity that does not satisfy these requirements if: (i) the law of the relevant jurisdiction requires the financial instrument to be held in custody by a local entity; (ii) no other local entity satisfies these requirements; and (iii) the Depositary (or the Custodian, as applicable) delegates its functions to such entity only to the extent required by the legal constraints of that jurisdiction and for so long as there is no local entity that satisfies the requirements. The ACD's prior consent to such delegation must be obtained before such delegation arrangements become effective. The ACD may consent to such a delegation where (for example) the investment policy of a particular Fund permits the ACD to seek investment opportunities in emerging markets, and the custody arrangement is necessary in order for the Fund to gain exposure to appropriate investment opportunities in such markets. In these circumstances, there may be a risk that the custody practices and regulations in the relevant jurisdiction do not provide the same standard of protection as that provided under the FCA Rules.

The Depositary's liability to the Company will not be affected by any delegation of its functions to a third party.

The Depositary may: (i) perform its functions through a branch in another EEA State; and (ii) use the services of a CSS when carrying out its functions on behalf of the Company, and this not regarded as a delegation by the Depositary for the purposes of the COLL Sourcebook.

Depositary's responsibility:

As a general rule, and in accordance with applicable laws (including the FCA Handbook) in the event of a loss of any financial instrument held in custody (determined in accordance with the UCITS Directive, and in particular Article 18 of the UCITS Regulation), the Depositary will be required to return to the Company financial instruments of identical type and corresponding amount without undue delay.

However, the Depositary will generally not be responsible to the Company or the Shareholders for the loss of any financial instrument held in custody if the Depositary can prove that all of the following conditions are met: (i) the circumstances which led to the loss are not the result of an act or omission of the Depositary (or, if relevant, the Custodian or any sub-custodian to whom safekeeping of the financial instrument has been delegated); (ii) the Depositary could not reasonably have prevented the occurrence of the event which led to the loss, despite adopting all precautions incumbent on a diligent depositary under common industry practice; (iii) the Depositary could not

reasonably have prevented the loss despite rigorous and comprehensive due diligence as documented in accordance with the UCITS Directive.

The Depositary will be responsible to the Company for all other losses suffered by the Fund arising from the Depositary's negligence or intentional failure to properly fulfil its obligations pursuant to the UCITS Directive.

Shareholders may invoke the liability of the Depositary directly or indirectly through the Company, provided that this does not lead to the duplication of redress or to the unequal treatment of shareholders.

Subject to the OEIC Regulations and the COLL Sourcebook the Depositary Agreement provides indemnities to the Depositary against liabilities incurred by the Depositary in the proper performance of its duties in accordance with the terms of the Depositary Agreement.

The Investment Manager and Distributors

The ACD has appointed UBS Asset Management (UK) Ltd. The Investment Manager is a member of the same group of companies as the ACD.

The principal activity of the Investment Manager is the provision of discretionary investment management and financial advisory services. The Investment Manager is regulated in the conduct of investment business by the Financial Services Authority.

Terms of appointment:

Subject to appropriate controls imposed by the ACD, all relevant law and regulation, this Prospectus and the Instrument of Incorporation, the Investment Manager has discretion to take day-to-day investment decisions and to deal in investments in relation to the investment management of the relevant Fund, without prior reference to the ACD. The Investment Manager may delegate any of its functions to third parties (including associates) and shall give the ACD written notice of any such delegation which involves the exercise of its discretionary investment management powers. The Investment Manager may delegate any of its discretionary investment management powers to associates of the Investment Manager.

Under the Investment Management Agreement the ACD provides indemnities to the Investment Manager (except in the case of any matter arising as a direct result of its fraud, negligence, or wilful default). The ACD may be entitled under the indemnities in the ACD Agreement to recover from the Company amounts paid by the ACD under the indemnities in the Investment Management Agreement.

The Investment Management Agreement may be terminated on three months' written notice being given to the other by the Investment Manager or the ACD after an initial period of three months or immediately in certain circumstances.

UBS Asset Management (UK) Ltd has also been appointed as Distributor for the Funds by the ACD and it will distribute Shares in the Funds both direct to individuals and through financial intermediaries.

The Auditors

The auditors of the Company are Ernst & Young LLP of 1 More London Place, London SE1 2AF.

Legal advisers

The Company is advised by Eversheds LLP of One Wood Street, London EC2V 7WS.

Register of Shareholders

The Register of Shareholders may be inspected during normal business hours by any Shareholder or any Shareholder's duly authorised agent, at the office of Northern Trust Global Services Limited at PO BOX 3733, Wootton Bassett, Swindon, E14 5NT

The Master-Feeder Agreement

The Master-Feeder Agreement dated 19 November 2014 between the ACD and the Management Company of the Master SICAV in relation to UBS Global Enhanced Equity Income Fund sets out the terms on which (in accordance with the applicable laws of Luxembourg and England and Wales) the Management Company of the Master SICAV will provide the ACD with documents and both parties will provide each other with information and provide for the relevant arrangements in relation to UBS Global Enhanced Equity Income Fund's investments in the Master Fund. The Agreement covers, amongst other things, provisions relating to:

- access to information by UBS Global Enhanced Equity Income Fund and the Master SICAV;
- the basis of investment and disinvestment by the Feeder Fund in the Master Fund;
- changes to UBS Global Enhanced Equity Income Fund and the Master Fund;
- standard dealing arrangements;
- events affecting dealing arrangements;
- standard arrangements for the audit report; and
- changes to the standing arrangements.

Conflicts of interest

In carrying out their respective functions for the Company, the ACD and the Depositary are each required by the COLL Sourcebook to act honestly, fairly, professionally and independently, and solely in the interests of the Company and its Shareholders.

The ACD and its associates:

The FCA Handbook contains various requirements relating to transactions entered into between the Company and the ACD, the Investment Manager and the Investment Adviser, or any associate of them which may involve a conflict of interest. These are designed to protect the interests of the Company. Certain transactions between the Company and the ACD, or an associate of the ACD (including the Investment Manager and/or the Investment Adviser), may be voidable at the instance of the Company in certain circumstances. The ACD has a conflicts of interest policy which sets out a summary of the process for identification and management for potential material conflicts of interest, together with a summary of the oversight process.

The ACD, the Investment Managers and other companies within the UBS group may, from time to time, act as investment managers or advisers to other funds or sub-funds that follow similar investment objectives to those of the Funds. It is therefore possible that the ACD and/or the Investment Manager may in the course of their business have potential conflicts of interest with the Company or a particular Fund or between the Company and other funds managed by the ACD. Each of the ACD and the Investment Manager will, however, have regard in such event to its obligations under the ACD Agreement, the Investment Management Agreements respectively, the ACD's conflicts of interest of policy and, in particular, to its obligation to act in the best interests of the Company so far as practicable, having regard to its obligations to other clients, when undertaking any investment business where potential conflicts of interest may arise. Where a conflict of interest cannot be avoided or sufficiently managed in accordance with the ACD's conflict of interest policy the ACD and the Investment Manager will ensure that the Company and other collective investment schemes it manages are fairly treated.

The ACD acknowledges that there may be some situations where the organisational or administrative arrangements in place for the management of conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of the Company or its shareholders will be prevented. Should any such situations arise the ACD will disclose these to shareholders in an appropriate format.

The Depositary:

The Depositary must not carry out activities with regards to the Company or the ACD (the ACD acting on behalf of the Company) that may create conflicts of interest between the Company, the Shareholders, the ACD and the Depositary unless:

- the Depositary has properly identified any such potential conflicts of interest;

- the Depositary has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks; and
- the potential conflicts of interest are properly managed, monitored and disclosed to Shareholders.

The Depositary maintains a conflicts of interest policy to address these issues.

The Depositary may, from time to time, act as the depositary of other open-ended investment companies with variable capital and as trustee or custodian of other collective investment schemes. It is therefore possible the Depositary, and its members, directors, officers, agents or employees, may in the course of business have potential conflicts of interest with the Company and its Funds. The Depositary will at all times have regard in such event to its obligations to the Company and will endeavour to ensure that such conflicts are resolved fairly.

The ACD may also be a client or counterparty of the Depositary or its affiliates.

Up-to-date information on the Depositary, its duties, any conflicts that may arise, the safe-keeping functions delegated by the Depositary, the list of delegates and sub-delegates and any conflicts of interest that may arise from such a delegation will be made available to Shareholders on request.

FEES AND EXPENSES

General

The fees, costs and expenses relating to the authorisation and incorporation and establishment of the Company (or of any Fund formed after this Prospectus is superseded), the offer of Shares, the preparation and printing of this Prospectus and the fees of the professional advisers to the Company in connection with the offer will be paid out of the property of the Company.

The Company may pay out of the property of the Company any liabilities arising on the unitisation, amalgamation or reconstruction of the Company or of any Fund.

All fees or expenses payable by a Shareholder or out of the Scheme Property are set out in this section.

The Company may also pay out of the property of the Company charges and expenses incurred by the Company, which will include the following expenses:

1. the fees and expenses payable to the ACD and its delegates (which will include the fees and expenses payable to the Investment Manager), to the Depositary and to each Custodian;
2. the fees and expenses payable in respect of Fund Administration (including fund accounting costs), unless otherwise specified in this Prospectus;
3. any costs in respect of the preparation and calculation of the net asset value and prices of Shares in the Funds and the publication and circulation thereof (including the costs of electronic data/ information sources) and the costs of obtaining fund ratings and benchmarks;
4. expenses incurred in acquiring and disposing of investments;
5. the fees and expenses of the auditors;
6. the fees and expenses of tax advisers, legal advisers and other professional advisers of the company, including (for the avoidance of doubt) any legal costs arising from any Shareholder action;
7. costs incurred in taking out and maintaining any insurance policy in relation to the Company and/or its Directors;
8. any costs incurred in the preparation, modification, translation, production (including printing) and distribution of annual, half yearly or other reports or information provided for Shareholders, accounts, statements, contract notes and other like documentation, any Prospectuses, Key Investor Information Documents (apart from the costs of distributing any Key Investor Information

Document or any other pre-contractual disclosure required by law or regulation), any instrument of incorporation, ACD Agreement and any costs incurred as a result of periodic updates of or changes to any prospectus or instrument of incorporation and any other administrative expenses;

9. expenses incurred in company secretarial duties, including the cost of minute books and other documentation required to be maintained by the Company;
10. the costs of convening and holding Shareholder meetings (including meetings of Shareholders in any particular Fund and a particular Class within a Fund);
11. certain liabilities on amalgamation or reconstruction arising where the property of a body corporate or another collective investment scheme is transferred to the Depositary in consideration for the issue of Shares to the shareholders in that body or to participants in that other scheme in accordance with the COLL Sourcebook;
12. taxation and duties payable by the Company;
13. interest on and charges incurred in borrowings, stock lending arrangements or other permitted transactions;
14. any amount payable by the Company under any indemnity provisions contained in the Instrument of Incorporation or any agreement with any functionary of the Company;
15. fees of the FCA under the Financial Services and Markets Act 2000 and the corresponding periodic fees of any regulatory authority in a country or territory outside the United Kingdom in which Shares are or may lawfully be marketed;
16. any payments otherwise due by virtue of the COLL Sourcebook;
17. the costs and expenses of any systems providing functionalities and data for risk calculations;
18. the costs and expenses of any collateral management service provider;
19. all costs incurred in communicating with investors;
20. the fees and expenses of any paying agents, information agents or other entities which are required to be appointed by the Company by any regulatory authority; and
21. royalties, licensing fees and other like payments in relation to the use of intellectual property.

It is not currently proposed to seek a listing for the Shares on any stock exchange, but if a listing is sought in the future the fees connected with the listing will be payable by the Company.

Transfer Agency and Registrar Fees

For each Fund, the Company will be charged the following ongoing and registration expenses:

- a) fees and expenses in respect of establishing and maintaining the Register of Shareholders (and any plan sub-register) and related functions;
- b) expenses incurred in producing, distributing and dispatching income and other payments to Shareholders;

For Class C Shares the charge will be up to 0.15% to cover Transfer Agent and Registrar's costs. For Class K Shares the charge will be up to 0.07% to cover Transfer Agent and Registrar's costs.

The charge will accrue daily and be paid monthly represented by the Net Asset Value of the Fund calculated on each business day. The valuation used for each day that is not a business day will be the value calculated on the previous business day.

Fund Administration Fees

Each Fund will be charged an administration fee for pricing and accounting services based on a rate of between 0.005% and 0.06%, but subject to a minimum of £12,500 per annum per subfund.

Depository's and Custodians' fees

The Depository receives for its own account a periodic fee which will accrue daily and is represented by the Net Asset Value of the Fund calculated on each business day. The fee is payable monthly on the last business day in each calendar month in respect of that day and the period since the last business day in the preceding month and is payable on the 15th day of the month after the last business day in each month. The rate of the periodic fee is agreed between the ACD and the Depository and is currently 0.015% per annum on the first £100 million and then 0.010% on the remainder, per annum, of the value of relevant Fund, represented by the Net Asset Value of the Fund calculated on each business day.

The Depository charges a minimum fee per Fund of £7,500 per annum.

These rates can be varied from time to time in accordance with the COLL Sourcebook.

The first accrual in relation to any Fund will take place in respect of the period beginning on the day on which the first valuation of that Fund is made and ending on the last business day of the month in which that day falls.

In addition to the periodic fee referred to above, the Depositary shall also be entitled to be paid transaction and custody charges in relation to transaction handling and safekeeping of the Scheme Property as follows:

Item	Range
Transaction Charges	£3 to £100.
Custody Charges	0.002% to 0.4%.

These charges vary from country to country depending on the markets and the type of transaction involved. Transaction charges accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last business day of the month when such charges arose or as otherwise agreed between the Depositary and the ACD. Custody charges accrue and are payable as agreed from time to time by the ACD and the Depositary.

Where relevant, the Depositary may make a charge for (or otherwise benefit from) providing services in relation to: distributions, the provision of banking services, holding money on deposit, lending money, or engaging in stock lending or derivative transactions, in relation to the Fund and may purchase or sell or deal in the purchase or sale of Scheme Property, provided always that the services concerned and any such dealing are in accordance with the provisions of the FCA Handbook.

The Depositary will also be entitled to payment and reimbursement of all costs, liabilities and expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Instrument, the FCA Handbook or by the general law.

On a winding up of the Fund the Depositary will be entitled to its *pro rata* fees, charges and expenses to the date of winding up, the termination, or the redemption (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations.

Any value added tax on any fees, charges or expenses payable to the Depositary will be added to such fees, charges or expenses.

In each such case such payments, expenses and disbursements may be payable to any person (including the ACD or any associate or nominee of the Depositary or of the ACD) who has had the relevant duty delegated to it pursuant to the FCA Handbook by the Depositary.

Charges payable to the ACD

In payment for carrying out its duties and responsibilities the ACD is entitled to take an annual fee out of each Fund which is, for each Class, a percentage of the Fund's Net Asset Value. The annual management charge will accrue daily and be paid monthly represented by the Net Asset Value of the Fund calculated on each business day. The valuation used for each day that is not a business day will be the value calculated on the previous business day. The current management charges for the Funds (expressed as a percentage per annum of the Net Asset Value of each Fund) are:

	UBS Global Enhanced Equity Income Fund
Class C Shares	0.6%
Class K Shares	Nil
Class S Shares	0.5%
Charges taken from:	Capital

Should there be insufficient income to cover the deduction of the annual management charge the fee may be taken from capital.

The current annual fee payable to the ACD for a Class may only be increased in accordance with the COLL Sourcebook and after the ACD has made available a revised Prospectus showing the new rate of charge and its commencement date.

The ACD is also entitled to all reasonable, properly documented, out of pocket expenses incurred in the performance of its duties which may include legal and professional expenses of the ACD in relation to the proper performance of the ACD's duties under the ACD Agreement, or related to documents amending the ACD Agreements, all postage and communication costs incurred in the proper performance of duties under the ACD Agreement and all expenses incurred in notarising documents.

If a Class's expenses in any period exceed its income the ACD may take that excess from the capital property attributable to that Class.

Investment Manager's fee

The Investment Manager's fees and expenses (plus VAT where applicable) for providing investment management and investment advisory services will be paid by the ACD out of its remuneration under the ACD Agreement.

UBS Global Enhanced Equity Income Fund Feeder Specific Fees and Expenses

The costs payable by the UBS Global Enhanced Equity Income Fund by virtue of its investment in the shares of UBS (Lux) Equity SICAV – Global Income (USD), will comprise custody charges, transaction charges, taxes, regulator fees, transfer agent costs, registration/distribution fees, audit fees, special administration and publication, printing and posting costs. The aggregate charges comprise these costs together with the costs listed in this Prospectus as payable by the Fund.

Dealing Arrangements

The Investment Manager may make use of arrangements to enable it to obtain execution and research services which are beneficial to the Funds, both from counterparties and third parties. All transactions undertaken and the services provided under these arrangements in respect of the Funds will be subject to FCA rules and to the fundamental rule of providing best execution to the Funds. The benefits provided under any such arrangements must be those which assist in the provision of investment services to the Funds. Details of any such arrangements, if any, and a copy of the Investment Manager's policy on dealing arrangements and the commissions allocated separately to execution and research services will be made available on request.

Allocation of fees and expenses

All the above fees, duties and charges (other than those borne by the ACD) will be charged to the Fund in respect of which they were incurred. Where an expense is not considered to be attributable to any one Fund, the expense will normally be allocated to all Funds pro rata to the value of the Net Asset Value of the Funds, although the ACD has discretion to allocate these fees and expenses in a manner that it considers fair to Shareholders generally.

Expenses are allocated between capital and income in accordance with the COLL Sourcebook. Where expenses are allocated to capital this may constrain capital growth.

VAT is payable on the fees and expenses where appropriate.

Increases in fees and expenses

Any increase to the current fees and expenses may only be made in accordance with the COLL Sourcebook.

INSTRUMENT OF INCORPORATION

The Instrument of Incorporation of the Company (which is available for inspection at the ACD's offices at 5 Broadgate, London EC2M 2QS) contains provisions to the following effect:

17. Share capital

(a) The Company may from time to time issue Shares of different Classes in respect of a Fund, and the Directors may by resolution from time to time create additional Classes in respect of a Fund (whether or not falling within one of the Classes in existence on incorporation).

(b) The Directors may by resolution from time to time create additional Funds with such investment objectives and such restrictions as to geographic area, economic sector, monetary zone or category of transferable security, and denominated in such currencies, as the Directors from time to time determine.

(c) The special rights attaching to a Class are not (unless otherwise expressly provided by the conditions of issue of such Shares) deemed to be varied by:

- (i) the creation, allotment or issue of further Shares of any Class ranking *pari passu* with them;
- (ii) the switch of Shares of any Class into Shares of another Class;
- (iii) the creation, allotment, issue or redemption of Shares of another Class within the same Fund, provided that the interests of that other Class in the Fund represent fairly the financial contributions and benefits of Shareholders of that Class;
- (iv) the creation, allotment, issue or redemption of Shares of another Fund;
- (v) the exercise by the Directors of their powers to re-allocate assets, liabilities, expenses, costs or charges not attributable to one Fund only or to terminate a Fund; or
- (vi) the passing of any resolution at a meeting of another Fund which does not relate to the Fund in which the Class is interested.

18. Transfer of Shares

- (a) All transfers of registered Shares must be effected by transfer in writing in any usual or common form or in any other form as may be approved by the Directors.
- (b) A single instrument of transfer may not be given in respect of more than one Class.
- (c) In the case of a transfer to joint holders, the number of joint holders to whom a Share is to be transferred may not exceed four.
- (d) The Company may refuse to register a transfer of Shares unless an SDRT provision has been paid.
- (e) Gross shares are available only to certain categories of investors, and prospective investors in these Shares must complete the appropriate declaration (copies of which may be obtained from the ACD) and return it to the ACD, or provide the ACD with suitable evidence of eligibility to receive income gross, before the gross Shares can be transferred. (No gross shares are currently available as at the date of this Prospectus.)

19. Income

The following provisions apply in respect of Shares in issue in the Funds:

- (a) An allocation of income (whether annual or interim) to be made in respect of each Share issued by the Company or sold by the ACD during the accounting period in respect of which that income allocation is made, will be of the same amount as the allocation to be made in respect of the other Shares of the same Class issued in respect of the same Fund. This may include a capital sum ("income equalisation") representing the ACD's best estimate of the amount of income included in the price of that Share. This may be either the actual amount of income included in the issue price of that Share or an amount arrived at by taking the aggregate of the amounts of income included in the price in respect of all Shares of that Class bought or redeemed by Shareholders in the accounting period in question and dividing that aggregate amount by the number of such Shares and applying the resultant average to each of the Shares in question.
- (b) Each allocation of income made in respect of any Fund at a time when more than one Class is in issue that Fund, will be done by reference to the relevant Shareholders' proportionate interests in the property of the Fund in question. These will be ascertained for each Class as follows:

- (i) A notional account will be maintained for each Class. Each account will be referred to as a "Proportion Account".
- (ii) The word "proportion" in this context means the proportion that the balance on a Proportion Account at the relevant time bears to the balance on all the Proportion Accounts of a Fund at that time. The proportionate interest of a Class of Share in the assets and income of a Fund is its "proportion".
- (iii) There will be credited to a Proportion Account:
 - the subscription money (excluding any initial charges or any dilution levy or dilution adjustment if applicable) for the issue of Shares of the relevant Class;
 - that Class's proportion of the amount by which the Net Asset Value of the Fund exceeds the total subscription money for all Shares in the Fund;
 - that Class's proportion of the Fund's income received and receivable; and
 - any notional tax benefit under paragraph (v) below.
- (iv) There will be debited to a Proportion Account:
 - the redemption payment for the cancellation of Shares of the relevant Class;
 - the Class's proportion of the amount by which the Net Asset Value of the Fund falls short of the total subscription money for all Shares in the Fund;
 - all distributions of income (including equalisation) made to Shareholders of that Class;
 - all costs, charges and expenses incurred solely in respect of that Class;
 - that Class's share of the costs, charges and expenses incurred in respect of that Class and one or more other Classes in the Fund, but not in respect of the Fund as a whole;

- that Class's share of the costs, charges and expenses incurred in respect of or attributable to the Fund as a whole;
 - any SDRT charge; and
 - any notional tax liability under paragraph (v).
- (v) Any tax liability in respect of the Fund and any tax benefit received or receivable in respect of the Fund will be allocated between Classes in order to achieve, so far as possible, the same result as would have been achieved if each Class were itself a Fund so as not materially to prejudice any Class. The allocation will be carried out by the ACD after consultation with the Company's auditors.
- (vi) Where a Class is denominated in a currency that is not the base currency of the Company, the balance on the Proportion Account shall be converted into the base currency of the Company in order to ascertain the proportions of all Classes. Conversions between currencies shall be at a rate of exchange decided by the ACD as being a rate that is not likely to result in any material prejudice to the interests of Shareholders or potential Shareholders.
- (vii) The Proportion Accounts are memorandum accounts maintained for the purpose of calculating proportions. They do not represent debts from the Company to Shareholders or the other way round.

Each credit and debit to a Proportion Account shall be allocated to that account on the basis of that Class's proportion immediately before the allocation. All such adjustments shall be made as are necessary to ensure that on no occasion on which the proportions are ascertained is any amount counted more than once.

When Shares are issued thereafter each such Share will represent the same proportionate interest in the property of the relevant Fund as each other Share of the same type and Class then in issue in respect of that Fund.

The Company may adopt a method of calculating the amount of income to be allocated between the Shares in issue (or the Shares in issue in respect of any Fund) which is different to that set out in paragraph 3(b) above provided that the ACD is satisfied that such method is fair to Shareholders and that it is reasonable to adopt such method in the given circumstances.

20. Number of Directors

Unless otherwise determined by an extraordinary resolution of Shareholders the number of Directors shall not at any time exceed one.

21. Removal of ACD

The Company may by ordinary resolution remove the ACD before the expiry of its period of office, notwithstanding any provisions in the Instrument of Incorporation or in any agreement between the Company and the ACD, but the removal will not take effect until the FCA has approved the ACD's removal and a new ACD approved by the FCA has been appointed.

22. Proceedings at General Meetings

- (a) Prior to each general meeting a Director other than the ACD or an associate of the ACD or, if no such nomination is made, the Depositary, shall nominate an individual to act as chairman and if that person is not present within fifteen minutes (which shall be deemed a reasonable time) after the time appointed for holding the meeting or is not willing to act, the Shareholders present shall choose one of their number to be chairman of the meeting.
- (b) The chairman of any quorate general meeting may with the consent of the general meeting adjourn the meeting from time to time (or without date) and from place to place, and if he is directed by the general meeting to adjourn he must do so. No business can be transacted at an adjourned general meeting that might not lawfully have been transacted at the meeting from which the adjournment took place.
- (c) The Shareholders have rights under the COLL Sourcebook to demand a poll. In addition to these rights, a poll may be demanded by the chairman of the meeting or by the ACD on any resolution put to the vote of a general meeting.
- (d) Unless a poll is required, a declaration by the chairman that a resolution has been carried, or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the minute book or computer record of proceedings will be conclusive evidence of that fact. If a poll is required, it shall be taken in such manner as the chairman may direct.
- (e) The chairman may take any action he reasonably considers appropriate and not in contravention of any of the provisions of the Prospectus or the Instrument of Incorporation for, for example, the safety of people attending a general meeting, the proper and orderly conduct of the general meeting or in order to reflect the wishes of the majority.

23. Corporations acting by representatives

- (a) Any corporation which is a Shareholder may by resolution of its directors or other governing body and in respect of any Share or Shares of which it is the holder authorise such individual as it thinks fit to act as its representative at any general meeting of the Shareholders or of any Class meeting or Fund meeting. The individual so authorised shall be entitled to exercise the same powers on behalf of such corporation as the corporation could exercise in respect of such Share or Shares if it were an individual Shareholder.
- (b) Any corporation which is a Director may by resolution of its directors or other governing body authorise such individual as it thinks fit to act as its representative (but not the Depositary's representative) at any general meeting of the Shareholders, or of any Class meeting or Fund meeting or at any meeting of the Directors. The person so authorised shall be entitled to exercise the same powers at such meeting on behalf of such corporation as the corporation could exercise if it were an individual Director.

24. Class meetings and Fund meetings

The provisions of the Instrument of Incorporation relating to meetings shall apply to Class meetings and Fund meetings in the same way as they apply to general meetings.

25. Instrument of Incorporation

- (a) The Instrument of Incorporation may be amended by resolution of the ACD to the extent permitted by the COLL Sourcebook.
- (b) In the event of any conflict arising between any provision of the Instrument of Incorporation and the Regulations, the Regulations will prevail.

26. Indemnity

The Instrument of Incorporation contains provisions indemnifying the Directors, other officers and the Company's auditors against liability in certain circumstances otherwise than in respect of their negligence, default, breach of duty or breach of trust, and indemnifying the Depositary against liability in certain circumstances otherwise than in respect of its failure to exercise due care and diligence.

SHAREHOLDER MEETINGS AND VOTING RIGHTS

Annual general meeting

The Company does not hold annual general meetings.

Class and Fund meetings

The provisions below, unless the context otherwise requires, apply to Class meetings and meetings of Funds as they apply to general meetings of the Company, but by reference to Shares of the Class or Fund concerned and the Shareholders and value and prices of such Shares.

Requisitions of meetings

The ACD may requisition a general meeting at any time.

Shareholders may also requisition a general meeting of the Company. A requisition by Shareholders must state the objects of the meeting, be dated, be signed by Shareholders who, at the date of the requisition, are registered as holding not less than one tenth in value of all Shares then in issue and the requisition must be deposited at the head office of the Company. The ACD must convene a general meeting no later than eight weeks after receipt of such requisition.

Notice and quorum

Shareholders will receive at least fourteen days' notice of a general meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for a meeting is two Shareholders, present in person or by proxy. If after a reasonable time from the time set for an adjourned meeting there is not two Shareholders present in person or by proxy, the quorum for an adjourned meeting shall be one Shareholder entitled to be counted in a quorum present at the meeting. Notices of meetings and adjourned meetings will be sent to Shareholders at their registered addresses.

Voting rights

At a general meeting, on a show of hands every Shareholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.

On a poll vote, a Shareholder may vote either in person or by proxy. The voting rights attaching to each Share are such proportion of the voting rights attached to all the Shares in issue that the price of the Share bears to the aggregate price(s) of all the Shares in issue at a date to be determined by the ACD and stated in the notice of the meeting which is a reasonable time before the notice of meeting was sent out.

A Shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

Except where the COLL Sourcebook or the Instrument of Incorporation of the Company require an extraordinary resolution (which needs at least 75% of the votes cast at the

meeting to be in favour if the resolution is to be passed) any resolution required by the COLL Sourcebook will be passed by a simple majority of the votes validly cast for and against the resolution.

Where an extraordinary resolution is required to conduct business at a meeting of Shareholders and every Shareholder is prohibited under COLL 4.4.8R(4) from voting, a resolution may, with the prior written agreement of the Depositary to the process, instead be passed with the written consent of the shareholder representing 75% of the Shares in issue.

The ACD may not be counted in the quorum for a meeting and neither the ACD nor any associate (as defined in the COLL Sourcebook) of the ACD is entitled to vote at any meeting of the Company except in respect of Shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered Shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.

In the case of joint Shareholders, the vote of the most senior who votes, whether in person or by proxy, must be accepted to the exclusion of the votes of the other joint shareholders. For this purpose seniority must be determined by the order in which the names stand in the register of Shareholders.

“Shareholders” in this context means Shareholders entered on the register at a time to be determined by the ACD and stated in the notice of the meeting which is a reasonable time before the notices of the relevant meeting are sent out.

Variation of Class rights

The rights attached to a Class or Fund may not be varied in accordance with the COLL Sourcebook.

TAXATION

General

The information below is a general guide based on current United Kingdom law and HM Revenue & Customs practice, both of which are subject to change. It summarises the tax position of the Funds and of investors who are United Kingdom resident (except where otherwise indicated) and hold Shares as investments. Prospective investors who are in any doubt about their tax position, or who may be subject to tax in a jurisdiction other than the United Kingdom, are recommended to take professional advice.

The Funds

Each Fund will be treated as a separate entity for United Kingdom tax purposes.

The Funds are generally exempt from United Kingdom tax on capital gains realised on the disposal of investments (including interest-paying securities and derivatives, but excluding certain offshore funds) held within them.

The Funds will each be subject to corporation tax at 20% on income but after deducting allowable management expenses (including the agreed fees and expenses of the ACD and the Depositary) and any interest distributions. The Funds are exempt from taxation on dividends received from United Kingdom companies, overseas dividends (unless the Fund has elected to waive the exemption from tax on specific overseas dividends, in which case those dividends will be treated as taxable income of the Fund) and any part of dividend distributions from authorised unit trusts and United Kingdom open-ended investment companies that represent such dividends. Where a Fund suffers foreign tax on income received, this may normally be deducted from any United Kingdom tax due on that income or treated as an expense.

Shareholders

Income: general

Income will be accumulated or distributed by a Fund (i.e. a sub-Fund of the Company) as either interest or dividends under the United Kingdom tax legislation.

In order to accumulate or distribute income as interest for any given accumulation/distribution period, the Fund must satisfy specific provisions in the tax legislation throughout that period. One of the criteria is that the market value of the Fund's qualifying investments must exceed 60% of the market value of all the investments of the Fund (the "qualifying investments test"). Qualifying investments are defined in the legislation and include but are not limited to money placed at interest, securities other than shares in a company, shares in a building society, investments in another authorised investment fund which itself satisfies similar investment criteria and certain derivative contracts.

A Fund may be launched with the intention to accumulate or distribute income as interest. However, dividend distributions will be paid to shareholders if the Fund does not meet the criteria for it to pay interest distributions in respect of one or more distribution periods.

Income which is accumulated by a Fund is, for United Kingdom tax purposes, deemed to be distributed to shareholders on either the distribution date if one is specified or the last day of the Fund's accounting period if a date is not specified.

Income: Dividend Distributions

Dividend distributions will be accumulated (or distributed) with a tax credit. United Kingdom resident individuals liable to income tax at the basic rate will have no further liability to tax. Higher rate taxpayers will have to pay a further amount of income tax on their net dividends, as will additional rate taxpayers. Non-taxpayers may not reclaim the tax credits on dividend distributions paid. Corporate Shareholders who receive dividend distributions may have to treat part of this distribution as a dividend and part as an annual payment (in which case the partition will be indicated on the tax voucher). Any part representing dividends received from a United Kingdom company or overseas company (except the part, if any, representing overseas dividends for which the Fund has elected to waive the exemption from tax) will be treated as dividend income (that is, franked investment income) and no further tax will be due on it. The remainder will be received as an annual payment after deduction of income tax at the basic rate, and corporate Shareholders may, depending on their circumstances, be liable to tax on the grossed up amount, with the benefit of the 20% income tax credit attached or to reclaim part of the tax credit as shown on the tax voucher.

Non-United Kingdom resident Shareholders will generally not be entitled to reclaim any part of the tax credit on the dividend distribution from HM Revenue & Customs although it will normally satisfy their United Kingdom tax liability on that income. They may also be able to offset the tax credit against their liability to tax in their own country. This will depend on their personal circumstances and the terms of any double taxation agreement between the country of residence and the United Kingdom.

The Company may be required to report details of income paid to residents of the European Union and to residents of certain other jurisdictions to the HM Revenue & Customs each year (see the EU Savings Directive below) depending on the composition of the Scheme Property.

Income: Interest Distributions

Interest distributions will be accumulated (or distributed) after income tax at 20% has been deducted and paid to the HM Revenue & Customs (except as described below). A tax voucher showing the total interest distribution before the deduction of tax (gross interest), the tax deducted and the amount of the interest distribution after tax has been deducted (net interest) will be supplied to Shareholders.

For individual Shareholders, the gross interest will be subject to United Kingdom income tax at 20% in the case of basic rate taxpayers. The tax deducted will satisfy in full the tax liability on the interest of Shareholders subject to basic rate income tax. Shareholders who are higher rate taxpayers will have to pay further income tax, as will additional rate taxpayers. Non-taxpayers may reclaim any tax deducted from HM Revenue & Customs. Where Shares are held through ISAs their managers may reclaim any tax deducted.

Shareholders subject to United Kingdom corporation tax will be liable to tax on the gross interest but will receive credit for any income tax deducted.

Non-United Kingdom resident Shareholders may be entitled to a refund from HM Revenue & Customs of some or all of any tax deducted from their interest distributions. This will depend on their personal circumstances and the terms of any double taxation agreement between their country of residence and the United Kingdom.

In addition, Shareholders subject to corporation tax will be subject to taxation on the their investment in a Fund as if the holding is a "creditor relationship" if at any time during the investment holding period the Fund is more than 60% invested in qualifying investments. The effect is that any increase in the value of the investment in the Fund will be brought into account in the Shareholder's computation of taxable profits.

The ACD may pay interest distributions gross, that is without withholding any income tax from the payment, to certain types of investor. These include companies, pension funds, charities, shareholders who are not resident in the United Kingdom and the managers of ISAs. Any eligible investor wishing to receive interest distributions gross should contact the ACD who will provide the appropriate form to complete and return. The ACD may require a tax indemnity from the investor before it makes the payments gross.

The Company is required to report details of interest paid to residents of the European Union and to residents of certain other jurisdictions to the HM Revenue & Customs each year (see the EU Savings Directive below), and, on request, payments to United Kingdom residents.

Income equalisation

The first income allocation received by an investor after buying Shares may include an amount of income equalisation. This is effectively a repayment of the income equalisation paid by the investor as part of the purchase price. It is a return of capital, and is not taxable. Rather it should be deducted from the acquisition cost of the Shares for capital gains tax purposes.

Gains

Shareholders who are resident in the United Kingdom for tax purposes may, depending on their personal circumstances, be liable to capital gains tax or, if a corporate

Shareholder, corporation tax on gains arising from the redemption, transfer or other disposal of Shares (but not on switches between Classes within a Fund). Individuals will be liable to pay capital gains tax only where their total chargeable gains for the tax year exceed their annual capital gains tax exemption.

Part of any increase in value of accumulation Shares represents the accumulation of income (including income equalisation but excluding tax credits). These amounts may be added to the allowable cost when calculating the capital gain realised on their disposal.

Individual Shareholders will find further information in HM Revenue & Customs Help Sheets for the capital gains tax pages of their tax returns.

Stamp duty reserve tax

Following the abolition of stamp duty reserve tax on management dealings in shares in authorised investment funds, there will generally be no charge to stamp duty reserve tax when Shareholders surrender or redeem their Shares. However, where the redemption is satisfied by a non-pro rata in specie redemption, then a charge to stamp duty reserve tax may apply.

Stamp duty reserve tax is chargeable at a rate of 0.5% on certain sales and transfers of Shares in the Funds.

Reporting Regimes

The EU Savings Directive

Under the EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Directive") Member States of the European Union ("Member States") are required to provide to the tax authorities of other Member States details of payments of interest and other similar savings income paid by a person who is a "paying agent" to an individual (or certain other residual entities) resident in another Member State. Austria and Luxembourg will generally apply a withholding tax for a transitional period, unless during such period they elect otherwise. The rate of withholding tax in those jurisdictions is 35%. In April 2013, the Luxembourg government announced its intention to end its transitional period and move to automatic exchange of information under the Directive with effect from 1 January 2015. For a collective investment scheme, income may include distributions or dividends whether paid or accumulated, together with income arising as result of the sale or redemption of shares. Investors resident in prescribed territories outside the EU may also be included in the exchange of information. Information on these territories can be obtained from HM Revenue & Customs or your professional adviser.

Investors are advised to seek professional advice in relation to the specific laws and regulations which may be relevant to their investment in the funds.

The US Foreign Account Tax Compliance (FATCA) and similar provisions

Under an Intergovernmental Agreement ("IGA") concluded between the United Kingdom and the United States of America ("U.S."), the Funds will be classified as a Reporting UK Financial Institution for the purposes of FATCA. The main purpose of the legislation is to require Financial Institutions to identify and report the financial accounts of "Specified U.S. Persons", as defined by the IGA. In order to do so, shareholders may be required to provide further information regarding themselves on request. From 1 July 2014, the Company will report the financial accounts held by Specified U.S. Persons to HM Revenue & Customs, who will then provide such information to the U.S. Internal Revenue Service. Any shareholder refusing to provide the requisite information will also be reported.

Prospective investors should consult their own tax advisor with regard to the U.S. federal, state, local and non-U.S. tax reporting and certification requirements associated with an investment in the Funds.

OECD Common Reporting Standard

United Kingdom and a number of other jurisdictions propose to enter into multilateral arrangements modelled on the Common Reporting Standard for Automatic Exchange of Financial Account Information ("**CRS**") published by the Organisation for Economic Co-operation and Development (OECD). Under CRS which has been implemented into UK law, the Funds will be required to provide certain information to the HMRC about Investors resident or established in jurisdictions which are party to CRS arrangements (which information will in turn be provided to the relevant tax authorities). The requirements are similar to those which exist under FATCA with an expanded number of countries in respect of which account holders must be reported.

WINDING UP OF THE COMPANY OR A FUND

The Company or a Fund will not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under the COLL Sourcebook. A Fund may otherwise only be terminated under the COLL Sourcebook.

Where the Company or a Fund is to be wound up under the COLL Sourcebook, such winding up may only be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company or the Fund as appropriate) either that the Company or the Fund will be able to meet its liabilities within 12 months of the date of the statement or that the Company or the Fund will be unable to do so. The Company may not be wound up or a Fund terminated under the COLL Sourcebook if there is a vacancy in the position of ACD at the relevant time.

The Company or a Fund may be wound up under the COLL Sourcebook if:

- (a) an extraordinary resolution to that effect is passed by Shareholders; or
- (b) the period (if any) fixed for the duration of the Company or a particular Fund by the Instrument of Incorporation expires, or an event occurs on the occurrence of which the Instrument of Incorporation provides that the Company or a particular Fund is to be wound up (for example, if the share capital of the Company or (in relation to any Fund) the Net Asset Value of the Fund is below its prescribed minimum, or if a change in the laws or regulations of any country means that, in the ACD's opinion, it is desirable to terminate the Fund);
- (b) in the case of UBS Global Enhanced Equity Income Fund, the Fund shall be dissolved and liquidated if the master fund (in which the Fund invests) is liquidated or divided into two or more funds or merged with another fund, unless the FCA approves either (i) the investment of at least 85 % of the assets of the Fund into units of another master UCITS scheme, or (b) the Fund's conversion into a UCITS scheme which is not a feeder UCITS within the meaning of article 58(1) of the UCITS Directive, or
- (d) the FCA agrees to a request by the ACD for the revocation of the authorisation order in respect of the Company or the relevant Fund.

On the occurrence of any of the above:

- (a) the COLL Sourcebook relating to Valuation, Pricing, Dealing and Investment and Borrowing Powers will cease to apply to the Company or the relevant Fund;
- (b) the Company will cease to issue and cancel Shares in the Company or the relevant Fund and the ACD shall cease to sell or redeem Shares or arrange for the Company to issue or cancel them for the Company or the relevant Fund;
- (c) no transfer of a Share shall be registered and no other change to the Register of Shareholders shall be made without the sanction of the ACD;

- (d) where the Company is being wound up or a Fund terminated,, the Company or the Fund shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company or the termination of the Fund;
- (e) the corporate status and powers of the Company and, subject to (a) and (d) above, the powers of the ACD shall continue until the Company is dissolved.

The ACD shall, as soon as practicable after the Company or the Fund falls to be wound up, realise the assets and meet the liabilities of the Company or the Fund and, after paying out or retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up or termination, arrange for the Depositary to make one or more interim distributions out of the proceeds to Shareholders proportionately to their rights to participate in the property of the Company or the Fund. If the ACD has not previously notified Shareholders of the proposal to wind up the Company or terminate the Fund, the ACD shall, as soon as practicable after the commencement of winding up of the Company or the termination of the Fund, give written notice of the commencement to Shareholders. When the ACD has caused all of the property to be realised and all of the liabilities of the Company or the particular Fund to be realised, the ACD shall arrange for the Depositary to make a final distribution to Shareholders on or prior to the date on which the final account is sent to Shareholders of any balance remaining in proportion to their holdings in the Company or the particular Fund.

As soon as reasonably practicable after completion of the winding up of the Company or the particular Fund, the Depositary shall notify the FCA that the winding up or termination has been completed.

On completion of a winding up of the Company or the termination of a Fund, the Company will be dissolved or the Fund will be terminated and any money (including unclaimed distributions) still standing to the account of the Company or the Fund, will be paid into court within one month of the dissolution or the termination.

Following the completion of a winding up of either the Company or the termination of a Fund, the ACD must prepare a final account showing how the winding up took place and how the property was distributed. The auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. This final account and the auditors' report must be sent to the FCA and to each Shareholder within two months of the completion of the winding up.

GENERAL INFORMATION

Accounting periods

The annual accounting period of the Company ends each year on 31 May (the accounting reference date). The interim accounting period ends each year on 30 November.

Income allocations

Allocations of income are made in respect of the income available for allocation in each accounting period.

For all Funds except UBS Global Enhanced Equity Income Fund, distributions of income for each class in which income Shares are issued are paid on or before the relevant income allocation dates in each year as set out in the table below. Distributions will be made by CHAPS to a Shareholder's bank account or where this is not practicable by cheque.

Annual income allocation dates	31 July (or last business day of the month) in each year
--------------------------------	--

Half yearly income allocation date	31 January (or last business day of the month)
------------------------------------	--

For UBS Global Enhanced Equity Income Fund distributions of income for each class in which income Shares are issued monthly and are paid on or before the last business day of the month.

For Fund Classes in which accumulation Shares are issued, income will become part of the capital property of the Fund and will be reflected in the price of each such accumulation Share as at the end of the relevant accounting period.

If a distribution remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the relevant Fund (or, if that no longer exists, to the Company).

The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the relevant Fund in respect of that period, and deducting the charges and expenses of the relevant Fund paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the Company's auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and other matters.

Annual reports

The annual report of the Company will be published within four months of each annual accounting period and the half yearly report will be published within two months of each interim accounting period and are available free of charge to anyone who requests from the ACD. The annual report and half yearly reports are prepared as both long and short reports. Shareholders will receive copies of the annual and half yearly short reports on publication.

Unclaimed cash or assets

Any cash (except unclaimed distributions which will be returned to the relevant Fund or the Company) or assets due to a Shareholder which are unclaimed by a Shareholder on an account which has not been active for six years (in the case of cash) or twelve years (in the case of assets) will cease to be client money or client assets and may be paid to a registered charity of the ACD's choice. The ACD will take reasonable steps to contact Shareholders in accordance with the requirements set out in the FCA Handbook before the ACD makes any such payment to charity.

If the client money or client asset is equal to or below the 'de minimis level' set by the Client Asset Rules (that is, £25 or less for retail clients and £100 or less for professional clients) then there are fewer requirements for the ACD to fulfil before it may pay the money or asset to charity but it will still attempt to contact investors at least once before doing so. The time periods set out above during which the money or assets may not be 'paid away' to charity continue to apply.

If a claim is made after the monies have been paid away to charity, the ACD undertakes to make good any valid claim made against any cash or assets the ACD has paid to a registered charity.

Documents of the Company

The following documents may be inspected free of charge during normal business hours on any business day at the offices of the ACD at 5 Broadgate, London EC2M 2QS:

- (a) the most recent annual and half yearly reports of the Company;
- (b) the most recent version of the Prospectus;
- (c) the Instrument of Incorporation (as amended);
- (d) the most recent version of the Company's KIID;
- (e) the Master Feeder Agreement; and
- (f) the ACD agreement referred to under the heading Material Contracts below.

Shareholders may obtain copies of the above documents from the ACD. The ACD may make a charge at its discretion for copies of documents (apart from the most recent versions of the Prospectus, KIID and annual and half yearly long reports of the Company which are available free of charge to anyone who requests).

Material contracts

The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Company and are, or may be, material:

- (a) the ACD Agreement dated 19 November 2014 between the Company and the ACD; and
- (b) the Depositary Agreement dated 8 August 2016 between the Company, the ACD and the Depositary.

Details of the above contracts are given under the heading "Management and Administration".

Notices to Shareholders

All notices or other documents sent by the ACD to a Shareholder will be sent by normal post to the last address notified in writing to the Company by the Shareholder.

Complaints

Complaints concerning the operation or marketing of the Company may be referred to the Compliance Officer of the ACD at 5 Broadgate, London EC2M 2QS. If you are dissatisfied with the way your complaint is dealt with you may then complain direct to the Financial Ombudsman Service at South Quay Plaza, 183 Marsh Wall, London E14 9SR.

Non-accountability for profits

Neither the ACD, the Depositary, the Investment Manager (or any associate of the same) or the Auditor is liable to account to either each other or to Shareholders for any profits or benefits it makes or receives that are made or derived from or in connection with:

- (a) dealings in the units of the Funds; or
- (b) any transaction in the Scheme Property; or
- (c) the supply of services to the Funds.

Data Protection

The ACD will act as data controller (and in certain circumstances, data processor) within the meaning of the Data Protection Act 1998 (the "Data Protection Act") as amended or replaced from time to time. The ACD and its agents and affiliates may process and use personal data (as defined in the Data Protection Act) given by Shareholders pursuant to their investment in the Funds for the provision of services to Shareholders, which may include the transfer of such data out of the European Economic Area. Such data may also be used by the ACD and its agents and affiliates for the purposes of updating records relating to Shareholders and to advise Shareholders of additional products and services available to them, except in the case of any Shareholders who have indicated otherwise in writing to the ACD.

Strategy for the exercise of voting rights

The ACD has a strategy for determining when and how voting rights attached to ownership of Scheme Property are to be exercised for the benefit of each Fund. A summary of this strategy is available from the ACD upon request, as are the details of the actions taken on the basis of this strategy in relation to each Fund.

Collateral Management policy

The ACD has a collateral management policy which it keeps under regular review. The policy defines “eligible” types of collateral which the Funds may receive to mitigate counterparty exposure (including any applicable haircuts). A haircut is a reduction to the market value of the collateral in order to allow for a cushion in case the market value of that collateral falls. Collateral will generally be of high quality and liquid e.g. cash and government securities. The policy will also include any additional restrictions deemed appropriate by the ACD. The ACD will accept the types of collateral that are permitted by its collateral management policies from time to time.

Collateral will be subject to a haircut depending on the class of assets received. The haircut policy depends on the quality of assets received, their price volatility, together with the outcome of any stress tests performed under normal and exceptional liquidity conditions.

Where cash collateral is received, if it is reinvested, it will be diversified in accordance with the requirements of ESMA’s Guidelines on ETFs and other UCITS issues (ESMA/2012/832EN).

A Fund may be fully collateralised in securities issued or guaranteed by a Member State. The countries, agencies, or public international bodies issuing or guaranteeing securities which a Fund is able to accept as collateral for more than 20% of its net asset value are as follows:

Countries: Australia, Austria, Denmark, Japan, Norway, Germany, France, Belgium, UK, Sweden, Netherlands, Canada, Switzerland, US, Cyprus, Estonia, Finland, Greece, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Portugal, Slovakia Slovenia, Spain

Agencies and public international bodies: The African Development Bank, Asian Development Bank, Council of Europe Development Bank, European Bank for Reconstruction and Development, European Investment Bank, Inter-American Development Bank, International Bank for Reconstruction and Development, International Finance Corporation, Nordic Investment Bank, Kredietanstalt Fuer Wiederaufbau, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Federal Home Loan Bank, Government National Mortgage Association.

Where a Fund re-invests cash collateral in one or more permitted types of investment, there is a risk that the investment will earn less than the interest that is due to the counterparty in respect of that cash and that it will return less than the amount of cash that was invested.

Best Execution

The Investment Manager's execution policy sets out the basis upon which the Investment Manager will effect transactions and place orders in relation to the Company whilst complying with its obligations under the FCA Handbook to obtain the best possible result for the ACD on behalf of the Company.

Details of the best execution policy are available upon request from the ACD.]

APPENDIX I

ELIGIBLE MARKETS

Eligible markets for the Funds are regulated markets and markets established in EEA States which are regulated, operate regularly and are open to the public.

Subject to the Funds' individual investment objective and policy the following markets shall be eligible markets for the Company.

Securities Markets

any stock exchange which is:-

- located in any Member State of the European Union; or
- located in any Member State of the European Union or Norway; or
- located in any of the following countries:-

Australia

Canada

Japan

Hong Kong

New Zealand

Switzerland

United States of America

in any of the following stock exchanges or markets:-

Argentina - Bolsa de Comercio de Buenos Aires

APPENDIX II

INVESTMENT MANAGEMENT AND BORROWING POWERS OF THE COMPANY

1. Investment restrictions

1.1 The property of each Fund will be invested with the aim of achieving the investment objective of that Fund but subject to the limits on investment set out in the COLL Sourcebook. These limits apply to each Fund as summarised below.

1.2 Prudent spread of risk

The ACD must ensure that, taking account of the investment objectives and policy of the Funds, the property of the Funds aims to provide a prudent spread of risk.

2. Treatment of obligations

2.1 Where the COLL Sourcebook allows a transaction to be entered into or an investment to be retained only (for example, investment in warrants and nil and partly paid securities and the general power to accept or underwrite) if possible obligations arising out of the investment transactions or out of the retention would not cause any breach of any limits in COLL 5, it must be assumed that the maximum possible liability of the Funds under any other of those rules has also to be provided for.

2.2 Where a rule in the COLL Sourcebook permits an investment transaction to be entered into or an investment to be retained only if that investment transaction, or the retention, or other similar transactions, are covered:

2.2.1 it must be assumed that in applying any of those rules, each Fund must also simultaneously satisfy any other obligation relating to cover; and

2.2.2 no element of cover must be used more than once.

3. UCITS schemes: permitted types of scheme property

3.1 This paragraph 3 does not apply to UBS Global Enhanced Equity Income Fund.

3.2 The scheme property of a Fund must, subject to its investment objective and policy and except where otherwise provided by COLL 5, consist solely of any or all of:

3.2.1 transferable securities;

3.2.2 approved money-market instruments;

- 3.2.3 units in collective investment schemes;
- 3.2.4 derivatives and forward transactions;
- 3.2.5 deposits; and
- 3.2.6 movable and immovable property that is essential for the direct pursuit of the Company's business;

in accordance with the rules in COLL 5.2.

- 3.3 The requirements on spread do not apply until the expiry of a period of six months after the date of effect of the authorisation order in respect of the Funds (or on which the initial offer commenced if later) provided that the requirement to maintain prudent spread of risk is complied with.
- 3.4 It is not intended that the Funds will have an interest in any immovable property or tangible movable property.

4. **Feeder UCITS**

- 4.1 This paragraph 4 only applies to UBS Global Enhanced Equity Income Fund.
- 4.2 UBS Global Enhanced Equity Income Fund, being feeder UCITS, must invest at least 85% in value of their scheme property in UCITS of a master UCITS.
- 4.3 UBS Global Enhanced Equity Income Fund may hold up to 15% in value of scheme property in one or more of the following:
 - 4.3.1 cash or near cash in accordance with paragraph 41 below;
 - 4.3.2 derivatives and forward transactions which may only be used for the purposes of hedging in accordance with the rules set out below; and
 - 4.3.3 movable and immovable property which is essential for the direct pursuit of the business.

5. **Transferable Securities**

- 5.1 A transferable security is an investment falling within article 76 (Shares etc), article 77 (Instruments creating or acknowledging indebtedness), article 78 (Government and public securities), article 79 (Instruments giving entitlement to investments) and article 80 (Certificates representing certain securities) of the Regulated Activities Order.
- 5.2 An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party.

5.3 In applying paragraph 5.2 to an investment which is issued by a body corporate, and which is an investment falling within articles 76 (Shares, etc) or 77 (Instruments creating or acknowledging indebtedness) of the Regulated Activities Order, the need for any consent on the part of the body corporate or any members or debenture holders of it may be ignored.

5.4 An investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.

6. **Investment in transferable securities**

6.1 A Fund may invest in a transferable security only to the extent that the transferable security fulfils the following criteria:

6.1.1 the potential loss which the Fund may incur with respect to holding the transferable security is limited to the amount paid for it;

6.1.2 its liquidity does not compromise the ability of the ACD to comply with its obligation to redeem units at the request of any qualifying Shareholder (see COLL 6.2.16R(3));

6.1.3 reliable valuation is available for it as follows:

6.1.3.1 in the case of a transferable security admitted to or dealt in on an eligible market, where there are accurate, reliable and regular prices which are either market prices or prices made available by valuation systems independent from issuers;

6.1.3.2 in the case of a transferable security not admitted to or dealt in on an eligible market, where there is a valuation on a periodic basis which is derived from information from the issuer of the transferable security or from competent investment research;

6.1.4 appropriate information is available for it as follows:

6.1.4.1 in the case of a transferable security admitted to or dealt in on an eligible market, where there is regular, accurate and comprehensive information available to the market on the transferable security or, where relevant, on the portfolio of the transferable security;

6.1.4.2 in the case of a transferable security not admitted to or dealt in on an eligible market, where there is regular and accurate information available to the ACD on the

transferable security or, where relevant, on the portfolio of the transferable security;

6.1.5 it is negotiable; and

6.1.6 its risks are adequately captured by the risk management process of the ACD.

6.2 Unless there is information available to the ACD that would lead to a different determination, a transferable security which is admitted to or dealt in on an eligible market shall be presumed:

6.2.1 not to compromise the ability of the ACD to comply with its obligation to redeem units at the request of any qualifying Shareholder; and

6.2.2 to be negotiable.

6.3 Not more than 5% in value of a Fund is to consist of warrants.

7. Closed end funds constituting transferable securities

7.1 A unit in a closed end fund shall be taken to be a transferable security for the purposes of investment by a Fund, provided it fulfils the criteria for transferable securities set out in paragraph 6 (Investment in transferable securities), and either:

7.1.1 where the closed end fund is constituted as an investment company or a unit trust:

7.1.1.1 it is subject to corporate governance mechanisms applied to companies; and

7.1.1.2 where another person carries out asset management activity on its behalf, that person is subject to national regulation for the purpose of investor protection; or

7.1.2 where the closed end fund is constituted under the law of contract:

7.1.2.1 it is subject to corporate governance mechanisms equivalent to those applied to companies; and

7.1.2.2 it is managed by a person who is subject to national regulation for the purpose of investor protection.

8. Transferable securities linked to other assets

8.1 A Fund may invest in any other investment which shall be taken to be a transferable security for the purposes of investment by a Fund provided the investment:

8.1.1 fulfils the criteria for transferable securities set out in paragraph 6 (investment in transferable securities) above; and

8.1.2 is backed by or linked to the performance of other assets, which may differ from those in which a Fund can invest.

8.2 Where an investment in 8.1 contains an embedded derivative component (see COLL 5.2.19R(3A)), the requirements of this section with respect to derivatives and forwards will apply to that component.

9. **Approved Money Market Instruments**

9.1 An approved money-market instrument is a money-market instrument which is normally dealt in on the money market, is liquid and has a value which can be accurately determined at any time.

9.2 A money-market instrument shall be regarded as normally dealt in on the money market if it:

9.2.1 has a maturity at issuance of up to and including 397 days;

9.2.2 has a residual maturity of up to and including 397 days;

9.2.3 undergoes regular yield adjustments in line with money market conditions at least every 397 days; or

9.2.4 has a risk profile, including credit and interest rate risks, corresponding to that of an instrument which has a maturity as set out in 9.2.1 or 9.2.2 or is subject to yield adjustments as set out in 9.2.3.

9.3 A money-market instrument shall be regarded as liquid if it can be sold at limited cost in an adequately short time frame, taking into account the obligation of the ACD to redeem units at the request of any qualifying Shareholder (see COLL 6.2.16R(3)).

9.4 A money-market instrument shall be regarded as having a value which can be accurately determined at any time if accurate and reliable valuations systems, which fulfil the following criteria, are available:

9.4.1 enabling the ACD to calculate a net asset value in accordance with the value at which the instrument held in the portfolio could be exchanged between knowledgeable willing parties in an arm's length transaction; and

- 9.4.2 based either on market data or on valuation models including systems based on amortised costs.
- 9.5 A money-market instrument that is normally dealt in on the money market and is admitted to or dealt in on an eligible market shall be presumed to be liquid and have a value which can be accurately determined at any time unless there is information available to the ACD that would lead to a different determination.
- 10. **Transferable securities and money market instruments generally to be admitted or dealt in on an Eligible Market**
- 10.1 Transferable securities and approved money market instruments held within a Fund must be:
 - 10.1.1 admitted to or dealt on an eligible market (as described in paragraph 11.1) or
 - 10.1.2 dealt on an eligible market as described (in paragraph 11.1.2); or
 - 10.1.3 for an approved money market instrument not admitted to or dealt in on an eligible market, within 12.1; or
 - 10.1.4 recently issued transferable securities provided that:
 - 10.1.4.1 the terms of issue include an undertaking that application will be made to be admitted to an eligible market; and
 - 10.1.4.2 such admission is secured within a year of issue.
- 10.2 However, a Fund may invest no more than 10% of the scheme property in transferable securities and approved money-market instruments other than those referred to in 10.1
- 11. **Eligible markets regime: requirements**
- 11.1 A market is eligible for the purposes of the rules if it is:
 - 11.1.1 a regulated market (as defined for the purposes of COLL);
 - 11.1.2 a market in an EEA State which is regulated, operates regularly and is open to the public; or
 - 11.1.3 any market within 11.2
- 11.2 A market not falling within paragraph 11.1 is eligible for the purposes of COLL 5 if:

- 11.2.1 the ACD, after consultation with and notification to the Depositary, decides that market is appropriate for investment of, or dealing in, the Scheme Property;
- 11.2.2 the market is included in a list in the Prospectus; and
- 11.2.3 the Depositary has taken reasonable care to determine that:
 - 11.2.3.1 adequate custody arrangements can be provided for the investment dealt in on that market; and
 - 11.2.3.2 all reasonable steps have been taken by the ACD in deciding whether that market is eligible.
- 11.3 In paragraph 11.2.1, a market must not be considered appropriate unless it is regulated, operates regularly, is recognised as a market or exchange or as a self regulatory organisation by an overseas regulator, is open to the public, and is adequately liquid and has adequate arrangements for unimpeded transmission of income and capital to or for the order of investors.
- 11.4 The eligible markets in which the Funds may invest are set out in Appendix I.
- 12. **Money-market instruments with a regulated issuer**
- 12.1 In addition to instruments admitted to or dealt in on an eligible market, a Fund may invest in an approved money-market instrument provided it fulfils the following requirements:
 - 12.1.1 the issue or the issuer is regulated for the purpose of protecting investors and savings; and
 - 12.1.2 the instrument is issued or guaranteed in accordance with paragraph 13 (issuers and guarantors of money market instruments).
- 12.2 The issue or the issuer of a money-market instrument, other than one dealt in on an eligible market, shall be regarded as regulated for the purpose of protecting investors and savings if:
 - 12.2.1 the instrument is an approved money-market instrument;
 - 12.2.2 appropriate information is available for the instrument (including information which allows an appropriate assessment of the credit risks related to investment in it), in accordance with paragraph 14 (appropriate information for money market instruments); and
 - 12.2.3 the instrument is freely transferable.
- 13. **Issuers and guarantors of money-market instruments**

- 13.1 A Fund may invest in an approved money-market instrument if it is:
 - 13.1.1 issued or guaranteed by any one of the following:
 - 13.1.1.1 a central authority of an EEA State or, if the EEA State is a federal state, one of the members making up the federation;
 - 13.1.1.2 a regional or local authority of an EEA State;
 - 13.1.1.3 the European Central Bank or a central bank of an EEA State;
 - 13.1.1.4 the European Union or the European Investment Bank;
 - 13.1.1.5 a non-EEA State or, in the case of a federal state, one of the members making up the federation;
 - 13.1.1.6 a public international body to which one or more EEA States belong; or
 - 13.1.2 issued by a body, any securities of which are dealt in on an eligible market; or
 - 13.1.3 issued or guaranteed by an establishment which is:
 - 13.1.3.1 subject to prudential supervision in accordance with criteria defined by European Community law; or
 - 13.1.3.2 subject to and complies with prudential rules considered by the FCA to be at least as stringent as those laid down by European Community law.
- 13.2 An establishment shall be considered to satisfy the requirement in 13.1.3.2 if it is subject to and complies with prudential rules, and fulfils one or more of the following criteria:
 - 13.2.1 it is located in the European Economic Area;
 - 13.2.2 it is located in an OECD country belonging to the Group of Ten;
 - 13.2.3 it has at least investment grade rating;
 - 13.2.4 on the basis of an in-depth analysis of the issuer, it can be demonstrated that the prudential rules applicable to that issuer are at least as stringent as those laid down by European Community law.

14. **Appropriate information for money-market instruments**

14.1 In the case of an approved money-market instrument within 13.1.2 or issued by a body of the type referred to in COLL 5.2.10E(G); or which is issued by an authority within 13.1.1.2 or a public international body within 13.1.1.6 but is not guaranteed by a central authority within 13.1.1.1, the following information must be available:

14.1.1 information on both the issue or the issuance programme, and the legal and financial situation of the issuer prior to the issue of the instrument, verified by appropriately qualified third parties not subject to instructions from the issuer;

14.1.2 updates of that information on a regular basis and whenever a significant event occurs; and

14.1.3 available and reliable statistics on the issue or the issuance programme.

14.2 In the case of an approved money-market instrument issued or guaranteed by an establishment within 13.1.3, the following information must be available:

14.2.1 information on the issue or the issuance programme or on the legal and financial situation of the issuer prior to the issue of the instrument;

14.2.2 updates of that information on a regular basis and whenever a significant event occurs; and

14.2.3 available and reliable statistics on the issue or the issuance programme, or other data enabling an appropriate assessment of the credit risks related to investment in those instruments.

14.3 In the case of an approved money-market instrument:

14.3.1 within 13.1.1.1, 13.1.1.4 or 13.1.1.5; or

14.3.2 which is issued by an authority within 13.1.1.2 or a public international body within 13.1.1.6 and is guaranteed by a central authority within 13.1.1.1;

information must be available on both the issue or the issuance programme, and on the legal and financial situation of the issuer prior to the issue of the instrument.

15. **Spread: general**

- 15.1 This paragraph 15 on spread does not apply to government and public securities. Only the restriction in paragraph 15.8 applies to UBS Global Enhanced Equity Income Fund.
- 15.2 For the purposes of this requirement companies included in the same group for the purposes of consolidated accounts as defined in accordance with Directive 83/349/EEC or in the same group in accordance with international accounting standards are regarded as a single body.
- 15.3 Not more than 20% in value of the Scheme Property is to consist of deposits with a single body.
- 15.4 Not more than 5% in value of the Scheme Property is to consist of transferable securities or approved money market instruments issued by any single body.
- 15.5 The limit of 5% in paragraph 15.4 is raised to 10% in respect of up to 40% in value of the Scheme Property. Covered bonds need not to be taken into account for the purpose of applying the limit of 40%.
- 15.6 The limit of 5% in 15.4 is raised to 25% in value of the Scheme Property in respect of covered bonds, provided that when a Fund invests more than 5% in covered bonds issued by a single body. The total value of covered bonds held must not exceed 80% in value of the Scheme Property.
- 15.7 In applying paragraphs 15.4 and 15.5 certificates representing certain securities are treated as equivalent to the underlying security.
- 15.8 The exposure to any one counterparty in an OTC derivative transaction must not exceed 5% in value of the Scheme Property. This limit is raised to 10% where the counterparty is an Approved Bank.
- 15.9 Not more than 20% in value of the Scheme Property is to consist of transferable securities and approved money market instruments issued by the same group (as referred to in paragraph 15.2).
- 15.10 Not more than 20% in value of each Fund is to consist of the units of any one collective investment scheme.
- 15.11 In applying the limits in paragraphs 15.3, 15.4, 15.5, 15.7 and 15.8 and subject to 15.6, not more than 20% in value of the Scheme Property is to consist of any combination of two or more of the following:
- 15.11.1 transferable securities (including covered bonds) or approved money market instruments issued by a single body; or
- 15.11.2 deposits made with a single body; or

15.11.3 exposures from OTC derivatives transactions made with a single body.

16. Counterparty risk and issuer concentration

- 16.1 The ACD must ensure that counterparty risk arising from an OTC derivative is subject to the limits set out in paragraphs 15.8 and 15.11 above.
- 16.2 When calculating the exposure of a Fund to a counterparty in accordance with the limits in paragraph 15.8 the ACD must use the positive mark-to-market value of the OTC derivative contract with that counterparty.
- 16.3 An ACD may net the OTC derivative positions of a Fund with the same counterparty, provided they are able legally to enforce netting agreements with the counterparty on behalf of the Fund.
- 16.4 The netting agreements in paragraph 16.3 above are permissible only with respect to OTC derivatives with the same counterparty and not in relation to any other exposures the Fund may have with that same counterparty.
- 16.5 The ACD may reduce the exposure of Scheme Property to a counterparty of an OTC derivative through the receipt of collateral. Collateral received must be sufficiently liquid so that it can be sold quickly at a price that is close to its pre-sale valuation and must otherwise be eligible collateral which meets the requirements of the ESMA Guidelines on ETFs and other UCITS issues (ESMA/2012/832EN).
- 16.6 The ACD must take collateral into account in calculating exposure to counterparty risk in accordance with the limits in paragraph 16.8 when it passes collateral to an OTC counterparty on behalf of a Fund.
- 16.7 Collateral passed in accordance with paragraph 16.6 may be taken into account on a net basis only if the ACD is able legally to enforce netting arrangements with this counterparty on behalf of that Fund.
- 16.8 The ACD must calculate the issuer concentration limits referred to in paragraph 15.11 on the basis of the underlying exposure created through the use of OTC derivatives pursuant to the commitment approach.
- 16.9 In relation to the exposure arising from OTC derivatives as referred to in paragraph 15.11, the ACD must include any exposure to OTC derivative counterparty risk in the calculation.

17. Spread: Government and public securities

- 17.1 The above restrictions do not apply to government and public securities ("such securities"). The restrictions in relation to such securities are set out below.
- 17.2 Where no more than 35% in value of the Scheme Property is invested in such securities issued by any one body, there is no limit on the amount which may be invested in such securities or in any one issue.
- 17.3 Each Fund may invest more than 35% in value of the Scheme Property in such securities issued by any one body provided that:
 - 17.3.1 the ACD has before any such investment is made consulted with the Depositary and as a result considers that the issuer of such securities is one which is appropriate in accordance with the investment objectives of the Fund;
 - 17.3.2 no more than 30% in value of the Scheme Property consists of such securities of any one issue;
 - 17.3.3 the Scheme Property includes such securities issued by that or another issuer, of at least six different issues; and
 - 17.3.4 the disclosures required by COLL have been made.
- 17.4 In relation to such securities:
 - 17.4.1 issue, issued and issuer include guarantee, guaranteed and guarantor; and
 - 17.4.2 an issue differs from another if there is a difference as to repayment date, rate of interest, guarantor or other material terms of the issue.

The Funds may invest more than 35% in value of the Scheme Property in Government and public securities issued by or on behalf of the following governments: Australia, Austria, Belgium, Brazil, Canada, Chile, China, Denmark, Egypt, Finland, France, Germany, Greece, Hong Kong, Indonesia, India, Ireland, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, Peru, Philippines, Poland, Portugal, Russia, Singapore, South Korea, South Africa, Spain, Sweden, Switzerland, Thailand, Taiwan, United Kingdom (including the Scottish Administration, the Executive Committee of the Northern Ireland Assembly and the National Assembly of Wales), Turkey, United States, and by the following public international bodies: US Federal Government (Treasuries and TIPs) and Government National Mortgage Association (GNMA).
- 17.5 Notwithstanding paragraph 15.1 above, and subject to paragraphs 17.2 and 17.3, in applying the 20% limit in 15.11 with respect to a single body, government and public securities issued by that body shall be taken into account.

18. Investment in collective investment schemes

18.1 This paragraph 18 does not apply to UBS Global Enhanced Equity Income Fund.

18.2 Not more than 10% of the Scheme Property of any Fund is to consist of units in other collective investment schemes ("second schemes") and in any event only if the second scheme complies with the following requirements:

18.2.1 it is a scheme which complies with the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or

18.2.2 is recognised under the provisions of section 270 of the Act (Schemes authorised in designated countries or territories); or

18.2.3 is authorised as a non-UCITS retail scheme (provided the requirements of article 50(1)(e) of the UCITS Directive are met); or

18.2.4 is authorised in another EEA State (provided the requirements of article 50(1)(e) of the UCITS Directive are met); or

18.2.5 is authorised by the competent authority of an OECD member country (other than another EEA State) which has:

(i) signed the IOSCO Multilateral Memorandum of Understanding; and

(ii) approved the Fund's management company, rules and depositary/custody arrangements

18.2.6 (provided the requirements of article 50(1)(e) of the UCITS Directive are met)

18.2.7 it is a scheme which complies where relevant with paragraphs 19 and 20 below; and

18.2.8 it is a scheme which has terms which prohibit more than 10% in value of the Scheme Property consisting of units in collective investment schemes.

18.3 A Fund may invest in collective investment schemes managed or operated by the ACD or an associate of the ACD, provided the restrictions on charging fees to the Fund in the COLL Sourcebook are complied with.

.

19. Investment in associated collective investment schemes

19.1 In this paragraph 19, only paragraph 19.2 applies to UBS Global Enhanced Equity Income Fund.

19.2 A Fund must not invest in or dispose of units in another collective investment scheme if that collective investment scheme is managed or operated by (or, if it is an open-ended investment company has as its authorised corporate director) the ACD of the Company or an associate of the ACD, unless:

19.2.1 the prospectus of the investing authorised fund clearly states that the property of that investing fund may include such units; and

19.2.2 the rules in paragraph 20 below are complied with.

19.3 Where a Fund invests in or disposes of units in another sub-fund of the same umbrella (the "Second Sub-Fund"):

19.3.1 the prospectus of the umbrella must clearly state that the scheme property attributable to the investing or disposing sub-fund may include units in another sub-fund of the same umbrella; and

19.3.2 the rules in paragraph 20 below must be complied with, modified such that references to the "Fund" are taken to be references to the investing or disposing sub-fund and references to the "second scheme" are taken to be references to the Second Sub-Fund.

20. **Investment in other group schemes**

20.1 This paragraph 20 does not apply to UBS Global Enhanced Equity Income Fund.

20.2 Where an investment or disposal is made under paragraph 19, and there is a charge in respect of such investment or disposal, the ACD of the Fund making the investment or disposal must pay the Fund the amounts referred to in paragraphs 20.3 and 20.4 within four business days following the date of the agreement to invest or dispose.

20.3 When an investment is made, the amount referred to in paragraph 20.2 is either:

20.3.1.1 any amount by which the consideration paid by the Fund for the units in the second scheme exceeds the price that would have been paid for the benefit of the second scheme had the units been newly issued or sold by it; or

20.3.1.2 if such price cannot be ascertained by the ACD, the maximum amount of any charge permitted to be made by the seller of units in the second scheme;

20.4 When a disposal is made, the amount referred to in paragraph 20.2 is any charge made for the account of the authorised fund manager or operator of the second scheme or an Associate of any of them in respect of the disposal.

20.5 In this paragraph 20:

20.5.1.1 any addition to or deduction from the consideration paid on the acquisition or disposal of units in the second scheme, which is applied for the benefit of the second scheme and is, or is like, a dilution levy or dilution adjustment or stamp duty reserve tax provision, is to be treated as part of the price of the units and not as part of any charge; and

20.5.1.2 any switching charge made in respect of an exchange of units in one Fund or separate part of the second scheme for units in another Fund or separate part of that scheme is to be included as part of the consideration paid for the units.

21. **Investment in nil and partly paid securities**

21.1 A transferable security or an approved money market instrument on which any sum is unpaid falls within a power of investment only if it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Fund, at the time when payment is required, without contravening the rules in COLL 5.

22. **Derivatives - general**

22.1 Under the COLL Sourcebook derivatives are permitted for UCITS schemes for investment purposes and derivative transactions may be used for the purposes of hedging or meeting the investment objectives or both. Each of the Funds may use derivatives for investment purposes as set out in this Appendix. Although it is not intended to use derivatives aggressively, if they are used, this may lead to high volatility in the share price of these Funds. Please see the Risk Factors section of this Prospectus for a description of the risks associated with investment in derivatives by the Funds.

22.2 A transaction in derivatives or a forward transaction must not be effected for a Fund unless the transaction is of a kind specified in paragraph 23 (Permitted transactions (derivatives and forwards)); and the transaction is covered, as required by paragraph 36 (Cover for investment in derivatives).

22.3 Where a Fund invests in derivatives, the exposure to the underlying assets must not exceed the limits set out in COLL in relation to spread (COLL 5.2.11 R Spread: general and COLL 5.2.12 R Spread: government and public securities) except for index based derivatives where the rules below apply.

- 22.4 Where a transferable security or money market instrument embeds a derivative, this must be taken into account for the purposes of complying with the following section.
- 22.5 A transferable security or an approved money-market instrument will embed a derivative if it contains a component which fulfils the following criteria:
- 22.5.1 by virtue of that component some or all of the cash flows that otherwise would be required by the transferable security or approved money-market instrument which functions as host contract can be modified according to a specified interest rate, financial instrument price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, and therefore vary in a way similar to a stand-alone derivative;
 - 22.5.2 its economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and
 - 22.5.3 it has a significant impact on the risk profile and pricing of the transferable security or approved money-market instrument.
 - 22.5.4 A transferable security or an approved money-market instrument does not embed a derivative where it contains a component which is contractually transferable independently of the transferable security or the approved money-market instrument. That component shall be deemed to be a separate instrument.
- 22.6 Where a scheme invests in an index based derivative, provided the relevant index falls within paragraph 34 the underlying constituents of the index do not have to be taken into account for the purposes of the rules on spread in COLL 5.2.11R and COLL 5.2.12R. The rebalancing frequency of the underlying index of such financial derivative instruments is determined by the index provider and there would be no cost to a Fund when the index rebalances.
- 22.7 The relaxation in 22.6 is subject to the ACD continuing to ensure that the Scheme Property provides a prudent spread of risk.
- 22.8 A Fund may enter into a range of swap transactions in pursuit of its investment objective (including total return swaps) or other financial derivatives instruments with similar characteristics. The underlying assets and investment strategies or such swaps, to which exposure will be gained, are described in the investment objective and policy of the relevant Fund.
- 22.9 A Fund may not enter into such a swap or other derivative transaction where (1) the counterparty is permitted to have discretion over the composition or management of a Fund's portfolio or over the underlying of financial derivative

instruments used by a Fund; or (2) the Counterparty's approval is required in relation to any investment decision made by a Fund.

- 22.10 The counterparties of these transactions will be highly rated financial institutions specialising in these types of transactions and approved by the Investment Manager.

23. Permitted transactions (derivatives and forwards)

- 23.1 A transaction in a derivative must be in an approved derivative; or be one which complies with paragraph 27 (OTC transactions in derivatives).

- 23.2 A transaction in a derivative must have the underlying consisting of any or all of the following to which the scheme is dedicated:

23.2.1 transferable securities permitted under paragraph 10 (Transferable securities and money market instruments generally to be admitted or dealt in on an Eligible Market);

23.2.2 approved money market instruments permitted under paragraph 10 (Transferable securities and money market instruments generally to be admitted or dealt in on an Eligible Market) above;

23.2.3 deposits permitted under paragraph 30 (investment in deposits) below;

23.2.4 derivatives permitted under this rule;

23.2.5 collective investment scheme units permitted under paragraph 18 (investment collective investment schemes) above;

23.2.6 financial indices which satisfy the criteria set out at paragraph 24 (financial indices underlying derivatives) below;

23.2.7 interest rates;

23.2.8 foreign exchange rates; and

23.2.9 currencies.

- 23.3 A transaction in an approved derivative must be effected on or under the rules of an eligible derivatives market.

- 23.4 A transaction in a derivative must not cause a Fund to diverge from its investment objectives as stated in the Instrument constituting the scheme and the most recently published version of this Prospectus.

- 23.5 A transaction in a derivative must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more, transferable securities approved, money market instruments, units in collective investment schemes, or derivatives provided that a sale is not to be considered as uncovered if the conditions in paragraph 26 (Requirement to cover sales) are satisfied.
- 23.6 Any forward transaction must be with an Eligible Institution or an Approved Bank.
- 23.7 A derivative includes an instrument which fulfils the following criteria:
- 23.7.1 it allows the transfer of the credit risk of the underlying independently from the other risks associated with that underlying;
 - 23.7.2 it does not result in the delivery or the transfer of assets other than those referred to in paragraph 3 above (UCITS schemes: permitted types of scheme property) including cash;
 - 23.7.3 in the case of an OTC derivative, it complies with the requirements in paragraph 27 (OTC transactions in derivatives);
 - 23.7.4 its risks are adequately captured by the risk management process of the ACD, and by its internal control mechanisms in the case of risks of asymmetry of information between the ACD and the counterparty to the derivative, resulting from potential access of the counterparty to non-public information on persons whose assets are used as the underlying by that derivative.
- 23.8 A Fund may not undertake transactions in derivatives on commodities.

24. **Financial indices underlying derivatives**

- 24.1 The financial indices referred to in 23.2.6 are those which satisfy the following criteria:
- 24.1.1 the index is sufficiently diversified;
 - 24.1.2 the index represents an adequate benchmark for the market to which it refers; and
 - 24.1.3 the index is published in an appropriate manner.
- 24.2 A financial index is sufficiently diversified if:
- 24.2.1 it is composed in such a way that price movements or trading activities regarding one component do not unduly influence the performance of the whole index;

- 24.2.2 where it is composed of assets in which a Fund is permitted to invest, its composition is at least diversified in accordance with the requirements with respect to spread and concentration set out in this section; and
 - 24.2.3 where it is composed of assets in which a Fund cannot invest, it is diversified in a way which is equivalent to the diversification achieved by the requirements with respect to spread and concentration set out in this section.
- 24.3 A financial index represents an adequate benchmark for the market to which it refers if:
- 24.3.1 it measures the performance of a representative group of underlyings in a relevant and appropriate way;
 - 24.3.2 it is revised or rebalanced periodically to ensure that it continues to reflect the markets to which it refers, following criteria which are publicly available; and
 - 24.3.3 the underlyings are sufficiently liquid, allowing users to replicate it if necessary.
- 24.4 A financial index is published in an appropriate manner if:
- 24.4.1 its publication process relies on sound procedures to collect prices, and calculate and subsequently publish the index value, including pricing procedures for components where a market price is not available; and
 - 24.4.2 material information on matters such as index calculation, rebalancing methodologies, index changes or any operational difficulties in providing timely or accurate information is provided on a wide and timely basis.
- 24.5 Where the composition of underlyings of a transaction in a derivative does not satisfy the requirements for a financial index, the underlyings for that transaction shall where they satisfy the requirements with respect to other underlyings pursuant to 23.2, be regarded as a combination of those underlyings.

25. **Transactions for the purchase of property**

A derivative or forward transaction which will or could lead to the delivery of property for the account of a Fund may be entered into only if that property can be held for the account of the Fund, and the ACD having taken reasonable care determines that delivery of the property under the transaction will not occur or will not lead to a breach of the rules in the COLL Sourcebook.

26. Requirement to cover sales

- 26.1 No agreement by or on behalf of the Company to dispose of property or rights may be made unless the obligation to make the disposal and any other similar obligation could immediately be honoured by the Company by delivery of property or the assignment (or, in Scotland, assignation) of rights, and the property and rights above are owned by the Company at the time of the agreement. This requirement does not apply to a deposit.

27. OTC transactions in derivatives

- 27.1 Any transaction in an OTC derivative must be:

- 27.1.1 with an approved counterparty; A counterparty to a transaction in derivatives is approved only if the counterparty is an Eligible Institution or an Approved Bank; or a person whose permission (including any requirements or limitations), as published in the FCA Register or whose Home State authorisation, permits it to enter into the transaction as principal off-exchange;
- 27.1.2 on approved terms; the terms of the transaction in derivatives are approved only if the ACD carries out, at least daily, a reliable and verifiable valuation in respect of that transaction corresponding to its fair value (being the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction) and which does not rely only on market quotations by the counterparty; and can enter into one or more further transactions to sell, liquidate or close out that transaction at any time, at its fair value.
- 27.1.3 capable of reliable valuation; a transaction in derivatives is capable of reliable valuation only if the ACD having taken reasonable care determines that, throughout the life of the derivative (if the transaction is entered into), it will be able to value the investment concerned with reasonable accuracy: on the basis of an up-to-date market value which the ACD and the Depositary have agreed is reliable; or if that value is not available, on the basis of a pricing model which the ACD and the Depositary have agreed uses an adequate recognised methodology; and
- 27.1.4 subject to verifiable valuation; a transaction in derivatives is subject to verifiable valuation only if, throughout the life of the derivative (if the transaction is entered into) verification of the valuation is carried out by:

- 27.1.4.1 an appropriate third party which is independent from the counterparty of the derivative, at an adequate frequency and in such a way that the ACD is able to check it; or
- 27.1.4.2 a department within the ACD which is independent from the department in charge of managing the scheme property and which is adequately equipped for such a purpose.

28. **Valuation of OTC derivatives**

28.1 For the purposes of paragraph 27.1.2 the ACD must:

- 28.1.1 establish, implement and maintain arrangements and procedures which ensure appropriate, transparent and fair valuation of the exposures of a Fund to OTC derivatives; and
- 28.1.2 ensure that the fair value of OTC derivatives is subject to adequate, accurate and independent assessment.

28.2 Where the arrangements and procedures referred to in paragraph 28.1 above involve the performance of certain activities by third parties, the ACD must comply with the requirements in SYSC 8.1.13 R (Additional requirements for a management company) and COLL 6.6A.4 R (4) to (6) (Due diligence requirements of AFMs of UCITS schemes).

28.3 The arrangements and procedures referred to in this paragraph must be:

- 28.3.1 adequate and proportionate to the nature and complexity of the OTC derivative concerned; and
- 28.3.2 adequately documented.

29. **Risk Management**

29.1 The ACD uses a risk management process (including a risk management policy) in accordance with COLL 6.12, as reviewed by the Depositary and filed with the FCA, enabling it to monitor and measure at any time the risk of a Fund's positions and their contribution to the overall risk profile of the Fund. The following details of the risk management process must be regularly notified to the FCA and at least on an annual basis:

- 29.1.1 a true and fair view of the types of derivatives and forward transactions to be used within the Fund together with their underlying risks and any relevant quantitative limits.

- 29.1.2 the methods for estimating risks in derivative and forward transactions.
- 29.2 The ACD must notify the FCA in advance of any material alteration to the details above.
30. **Investment in deposits**
- 30.1 A Fund may invest in deposits only with an Approved Bank and which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months.
31. **Significant influence**
- 31.1 The Company must not acquire transferable securities issued by a body corporate and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that body corporate if:
- 31.1.1 immediately before the acquisition, the aggregate of any such securities held by the Company gives the Company power to significantly influence the conduct of business of that body corporate; or
- 31.1.2 the acquisition gives the Company that power.
- 31.2 For the purposes of paragraph 31.1, the Company is to be taken to have power significantly to influence the conduct of business of a body corporate if it can, because of the transferable securities held by it, exercise or control the exercise of 20% or more of the voting rights in that body corporate (disregarding for this purpose any temporary suspension of voting rights in respect of the transferable securities of that body corporate).
32. **Concentration**
- This paragraph 32 does not apply to UBS Global Enhanced Equity Income Fund.
- A UCITS scheme:
- 32.1 must not acquire transferable securities (other than debt securities) which:
- 32.1.1 do not carry a right to vote on any matter at a general meeting of the body corporate that issued them; and
- 32.1.2 represent more than 10% of those securities issued by that body corporate;
- 32.2 must not acquire more than 10% of the debt securities issued by any single body;

- 32.3 must not acquire more than 25% of the units in a collective investment scheme;
- 32.4 must not acquire more than 10% of the approved money market instruments issued by any single body; and
- 32.5 need not comply with the limits in paragraphs 32.2 to 32.4 if, at the time of acquisition, the net amount in issue of the relevant investment cannot be calculated.

33. **Schemes replicating an index**

Please note that this investment power is not relevant for any of the existing Funds although it may be applicable to any new Funds of the Company.

- 33.1 Notwithstanding paragraph 15 (spread: general) a Fund may invest up to 20% in value of the Scheme Property in shares and debentures which are issued by the same body where the stated investment policy is to replicate the composition of a relevant index as defined below.
- 33.2 Replication of the composition of a relevant index shall be understood to be a reference to replication of the composition of the underlying assets of that index, including the use of techniques and instruments permitted for the purpose of efficient portfolio management.
- 33.3 The 20% limit in 33.1 can be raised for a particular Fund up to 35% in value of the Scheme Property, but only in respect of one body and where justified by exceptional market conditions.
- 33.4 In the case of a fund replicating an index the Scheme Property need not consist of the exact composition and weighting of the underlying in the relevant index where deviation from this is expedient for reasons of poor liquidity or excessive cost to the scheme in trading in an underlying investment.

34. **Relevant Indices**

- 34.1 The indices referred to above are those which satisfy the following criteria:
 - 34.1.1 the composition is sufficiently diversified;
 - 34.1.2 the index represents an adequate benchmark for the market to which it refers; and
 - 34.1.3 the index is published in an appropriate manner.
- 34.2 The composition of an index is sufficiently diversified if its components adhere to the spread and concentration requirements in this section.

34.3 An index represents an adequate benchmark if its provider uses a recognised methodology which generally does not result in the exclusion of a major issuer of the market to which it refers.

34.4 An index is published in an appropriate manner if:

34.4.1 it is accessible to the public;

34.4.2 the index provider is independent from the index-replicating Fund; this does not preclude index providers and the Fund from forming part of the same group, provided that effective arrangements for the management of conflicts of interest are in place.

35. **Derivatives exposure**

35.1 A Fund may invest in derivatives and forward transactions as part of its investment policy as long as the exposure to which the Fund is committed by that transaction itself is suitably covered from within its Scheme Property. Exposure will include any initial outlay in respect of that transaction.

35.2 Cover ensures that a Fund is not exposed to the risk of loss of property, including money, to an extent greater than the net value of the Scheme Property. Therefore, a Fund must hold Scheme Property sufficient in value or amount to match the exposure arising from a derivative obligation to which the Fund is committed. Paragraph 36 (Cover for investment in derivatives) sets out detailed requirements for cover of a Fund.

35.3 Cover used in respect of one transaction in derivatives or forward transaction must not be used for cover in respect of another transaction in derivatives or a forward transaction.

36. **Cover for investment in derivatives**

36.1 A Fund may invest in derivatives and forward transactions as part of its investment policy provided:

36.1.1 its global exposure relating to derivatives and forward transactions held in the Fund does not exceed the net value of the scheme property; and

36.1.2 its global exposure to the underlying assets does not exceed in aggregate the investment limits laid down in paragraph 15 above.

37. **Cover and borrowing**

37.1 Cash obtained from borrowing, and borrowing which the ACD reasonably regards an Eligible Institution or an Approved Bank to be committed to provide, is

available for cover under the previous paragraph 36 (Cover for investment in derivatives) as long as the normal limits on borrowing (see below) are observed.

- 37.2 Where, for the purposes of this paragraph the Company borrows an amount of currency from an Eligible Institution or an Approved Bank; and keeps an amount in another currency, at least equal to such borrowing for the time on deposit with the lender (or his agent or nominee), then this applies as if the borrowed currency, and not the deposited currency, were part of the Scheme Property, and the normal limits on borrowing under paragraph 42 (General power to borrow) do not apply to that borrowing.

38. Calculation of global exposure

- 38.1 The ACD must calculate the global exposure of a Fund on at least a daily basis.

- 38.2 The ACD must calculate the global exposure of any Fund it manages either as:

38.2.1 the incremental exposure and leverage generated through the use of derivatives and forward transactions (including embedded derivatives as referred to in paragraph 22 (Derivatives: general), which may not exceed 100% of the net value of the Scheme Property; or

38.2.2 the market risk of the Scheme Property

- 38.3 UBS Global Enhanced Equity Income Fund must combine their own direct exposure with either:

38.3.1 the master UCITS actual exposure to derivatives and forward transactions in proportion to its investment into the master UCITS; or

38.3.2 the master UCITS potential maximum global exposure to derivatives and forward transactions provided for in the master UCITS prospectus in proportion to its investment in the master UCITS.

- 38.4 For the purposes of this section exposure must be calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

- 38.5 The ACD must calculate the global exposure of a Fund by using:

38.5.1 commitment approach; or

38.5.2 the value at risk approach.

- 38.6 The ACD must ensure that the method selected above is appropriate, taking into account:

38.6.1 the investment strategy pursued by the Fund;

- 38.6.2 types and complexities of the derivatives and forward transactions used; and
 - 38.6.3 the proportion of the scheme property comprising derivatives and forward transactions.
- 38.7 Where a Fund employs techniques and instruments including repo contracts or stock lending transactions in accordance with paragraph 49 (Stock lending) in order to generate additional leverage or exposure to market risk, the authorised fund manager must take those transactions into consideration when calculating global exposure.
39. **Commitment approach**
- 39.1 Where the ACD uses the commitment approach for the calculation of global exposure, it must:
- 39.1.1 ensure that it applies this approach to all derivative and forward transactions (including embedded derivatives as referred to in paragraph 22 (Derivatives: general)), whether used as part of the Fund's general investment policy, for the purposes of risk reduction or for the purposes of efficient portfolio management in accordance with paragraph 49 (Stock lending); and
 - 39.1.2 convert each derivative or forward transaction into the market value of an equivalent position in the underlying asset of that derivative or forward (standard commitment approach).
 - 39.1.3 The ACD may apply other calculation methods which are equivalent to the standard commitment approach.
- 39.2 For the commitment approach, the ACD may take account of netting and hedging arrangements when calculating global exposure of a Fund, where these arrangements do not disregard obvious and material risks and result in a clear reduction in risk exposure.
- 39.3 Where the use of derivatives or forward transactions does not generate incremental exposure for the Fund, the underlying exposure need not be included in the commitment calculation
- 39.4 Where the commitment approach is used, temporary borrowing arrangements entered into on behalf of the Fund in accordance with paragraph 42 (General power to borrow) need not form part of the global exposure calculation.
40. **Value at risk approach**

Value at risk (or VaR) is a means of measuring the maximum potential loss to a Fund due to market risk. VaR is expressed as the maximum potential loss at a given "confidence" level over a specific period. In calculating VaR, the ACD uses historical data on the performance assets. The period used for this purpose is the "observation period".

For example, if a fund has a VaR of £4 million based on a 99% confidence level on a 1 month (20 business days) holding period, this means that, under normal market conditions, the fund can be 99% confident that a change in the value of its portfolio would not result in a decrease of more than £4 million in 1 month.

VaR is calculated using the "absolute VaR" approach or the "relative VaR" approach.

Absolute VaR

"Absolute VaR" is the VaR of a Fund expressed as a percentage of the Net Asset Value of the Fund. In the example above, if £4 million equals 20% of that fund's net asset value, the absolute VaR would be 20%. For each Fund using absolute VaR, the ACD sets a maximum VaR limit. So if, in the example above, the VaR limit is set at 20% and, on any particular day, the calculation showed the absolute VaR to be 25%, the ACD would need to take steps to change the portfolio so that the VaR came back to a maximum of 20%.

Absolute VaR is generally an appropriate approach for funds investing in multi-asset classes which do not define their investment target in relation to a benchmark but rather to an absolute return target.

The absolute VaR of a Fund cannot be greater than 20% of its Net Asset Value

Relative VaR

"Relative VaR" is the VaR of a Fund divided by the VaR of a benchmark or reference portfolio (ie a portfolio similar to the Fund's portfolio but which does not include derivatives). The benchmark or reference portfolio can be an actual benchmark or reference portfolio or a fictitious benchmark or portfolio. For a Fund that uses the relative VaR approach, the relative VaR on the Fund's portfolio must not exceed twice the VaR on the comparable benchmark or reference portfolio.

Following the example above, if the daily VaR calculation showed the VaR to be £4 million and the VaR of the reference portfolio to be £1 million, the relative VaR of the would exceed twice the VaR on the reference portfolio and the ACD would need to take steps to change the portfolio so that the VaR came back to a maximum of twice the VaR on the reference portfolio.

Leverage

VaR does not always take into account leverage generated on a Fund's portfolio. In this context, leverage relates to the notional values of a Fund's derivatives positions compared with the cash required to take out those positions. For example, if a fund has a Net Asset Value of £100 and enters into a transaction with a notional value of £1,000, the leverage would be 10:1 or 1000%. Leverage in this context is not related to money borrowed by a Fund to make investments. Where a Fund uses VaR to calculate its global exposure, the ACD will monitor the leverage of the Fund separately. Where appropriate, the expected leverage for each such Fund is set out in the Investment Objectives, Policies and Other Details of the Funds section of this Prospectus.

The approach used by the ACD in respect of calculating global exposure for each Fund is set out in the Investment Objectives, Policies and Other Details of the Funds section of this Prospectus.

41. Cash and near cash

41.1 Cash and near cash must not be retained in the Scheme Property of a Fund except to the extent that, this may reasonably be regarded as necessary in order to enable:

41.1.1 the pursuit of the Fund's investment objectives; or

41.1.2 redemption of shares; or

41.1.3 efficient management of the Fund in accordance with its investment objectives; or

41.1.4 other purposes which may reasonably be regarded as ancillary to the investment objectives of the Fund.

41.2 During the period of an initial offer the Scheme Property may consist of cash and near cash without limitation.

42. General power to borrow

42.1 A Fund may, in accordance with this paragraph and paragraph 43, borrow money for the use of the Fund on terms that the borrowing is to be repayable out of the Scheme Property. This power to borrow is subject to the obligation of the Fund to comply with any restriction in the instrument constituting the Fund.

- 42.2 The Fund may borrow under paragraph 42.1 only from an Eligible Institution or an Approved Bank.
- 42.3 The ACD must ensure that any borrowing is on a temporary basis and that borrowings are not persistent, and for this purpose the ACD must have regard in particular to:
- 42.3.1 the duration of any period of borrowing; and
- 42.3.2 the number of occasions on which it has resorted to borrowing in any period.
- 42.4 The ACD must ensure that no period of borrowing exceeds three months, without the consent of the Depositary.
- 42.5 These borrowing restrictions do not apply to "back to back" borrowing for currency hedging purposes.
- 42.6 The Fund must not issue any debenture unless it acknowledges or creates a borrowing that complies with paragraph 42.1 to 42.5.

43. **Borrowing limits**

- 43.1 The ACD must ensure that the Fund's borrowing does not, on any business day, exceed 10% of the value of the Scheme Property of the Fund.
- 43.2 In this paragraph 43, "borrowing" includes, as well as borrowing in a conventional manner, any other arrangement (including a combination of derivatives) designed to achieve a temporary injection of money into the Scheme Property in the expectation that the sum will be repaid.
- 43.3 For each Fund, borrowing does not include any arrangement for the Fund to pay to a third party (including the ACD) any set up costs which the Fund is entitled to amortise and which were paid on behalf of the Fund by the third party.

44. **Restrictions on lending of money**

- 44.1 None of the money in the Scheme Property of a Fund may be lent and, for the purposes of this prohibition, money is lent by the Fund if it is paid to a person ("the payee") on the basis that it should be repaid, whether or not by the payee.
- 44.2 Acquiring a debenture is not lending for the purposes of paragraph 44.1; nor is the placing of money on deposit or in a current account.
- 44.3 Paragraph 44.1 does not prevent the Fund from providing an officer of the Fund with funds to meet expenditure to be incurred by him for the purposes of the Fund (or for the purposes of enabling him properly to perform his duties as an

officer of the Fund) or from doing anything to enable an officer to avoid incurring such expenditure.

45. Restrictions on lending of property other than money

- 45.1 The Scheme Property of a Fund other than money must not be lent by way of deposit or otherwise.
- 45.2 Transactions permitted by paragraph 49 (stock lending) are not lending for the purposes of paragraph 45.1.
- 45.3 The Scheme Property of the Fund must not be mortgaged.
- 45.4 Paragraph 43.1 does not prevent a Fund from providing an officer of the Fund with funds to meet expenditure to be incurred by him for the purposes of the Fund (or for the purposes of enabling him properly to perform his duties as an officer of the Fund) or from doing anything to enable an officer to avoid incurring such expenditure.

46. General power to accept or underwrite placings

- 46.1 This paragraph 46 does not apply to UBS Global Enhanced Equity Income Fund.
- 46.2 Any power in Chapter 5 of the COLL Sourcebook to invest in transferable securities may be used for the purpose of entering into transactions to which this section applies, subject to compliance with any restriction in the Instrument of Incorporation.
- 46.3 This section applies, subject to paragraph 46.4, to any agreement or understanding which:
 - 46.3.1 is an underwriting or sub-underwriting agreement; or
 - 46.3.2 contemplates that securities will or may be issued or subscribed for or acquired for the account of the Fund.
- 46.4 Paragraph 46.3 does not apply to:
 - 46.4.1 an option; or
 - 46.4.2 a purchase of a transferable security which confers a right to:
 - 46.4.2.1 subscribe for or acquire a transferable security; or
 - 46.4.2.2 convert one transferable security into another.
 - 46.4.3 The exposure of the Fund to agreements and understandings within paragraph 46.3 must, on any business day:

46.4.3.1 be covered in accordance with the requirements of rule 5.3.3R of the COLL Sourcebook; and

46.4.3.2 be such that, if all possible obligations arising under them had immediately to be met in full, there would be no breach of any limit in Chapter 5 of the COLL Sourcebook.

47. Guarantees and indemnities

47.1 The Fund or the Depositary for the account of the Fund must not provide any guarantee or indemnity in respect of the obligation of any person.

47.2 None of the Scheme Property of the Fund may be used to discharge any obligation arising under a guarantee or indemnity with respect to the obligation of any person.

47.3 Paragraphs 47.1 and 47.2 do not apply in respect of the Fund to:

47.3.1 any indemnity or guarantee given for margin requirements where the derivatives or forward transactions are being used in accordance with the FCA rules;

47.3.2 an indemnity falling within the provisions of regulation 62(3) (Exemptions from liability to be void) of the OEIC Regulations;

47.3.3 an indemnity (other than any provision in it which is void under regulation 62 of the OEIC Regulations) given to the Depositary against any liability incurred by it as a consequence of the safekeeping of any of the Scheme Property by it or by anyone retained by it to assist it to perform its function of the safekeeping of the Scheme Property; and

47.3.4 an indemnity given to a person winding up a scheme if the indemnity is given for the purposes of arrangements by which the whole or part of the property of that scheme becomes the first property of the Fund and the holders of units in that scheme become the first shareholders in the Fund.

48. Efficient Portfolio Management

48.1 A Fund may, where permitted by its investment policy, use its property to enter into transactions for the purposes of EPM. Permitted EPM transactions (excluding stock lending arrangements) are transactions in derivatives (i.e. options, futures, forward transactions or contracts for differences) dealt in or traded on an eligible market; off-exchange options or contracts for differences resembling options; or synthetic futures in certain circumstances. The eligible markets for the Funds are set out in Appendix I.

48.2 Any forward transactions must be with an approved counterparty (eligible institutions, money market institutions etc). A derivatives or forward transaction which would or could lead to delivery of property to the Depositary may be entered into only if such property can be held by the Fund, and the ACD reasonably believes that delivery of the property pursuant to the transaction will not lead to a breach of the COLL Sourcebook.

48.3 There is no limit on the amount of the property which may be used for EPM but the transactions must satisfy the three broadly based requirements set out below:

48.3.1 A transaction must be reasonably believed by the ACD to be economically appropriate to the efficient portfolio management of the Company. This means that, for transactions undertaken to reduce risk or cost (or both), the transaction alone or in combination will diminish a risk or cost of a kind or level that it is sensible to reduce.

EPM must not include speculative transactions.

48.3.2 The purpose of an EPM transaction for the Funds must be to achieve one of the following in respect of a Fund:

Reduction of risk. This allows for the use of the technique of cross-currency hedging in order to switch all or part of the property away from a currency the ACD considers unduly prone to risk, to another currency. This aim also permits the use of tactical asset allocation.

Reduction of cost. The aims of reduction of risk or cost, together or separately, allow the ACD on a temporary basis to use the technique of tactical asset allocation. Tactical asset allocation permits the ACD to undertake a switch in exposure by use of derivatives, rather than through the sale and purchase of the property. If a transaction for a Fund relates to the acquisition or potential acquisition of transferable securities, the ACD must intend that the Fund should invest in transferable securities within a reasonable time and the ACD must thereafter ensure that, unless the position has itself been closed out, that intention is realised within that reasonable time.

The generation of additional capital or income for the Fund (so called "enhancement strategies") with an acceptably low level of risk. There is an acceptably low level of risk in any case where the ACD reasonably believes that the Fund is certain (or certain barring events which are not reasonably foreseeable) to derive a benefit. The generation of additional capital or income may arise out of taking advantage of price imperfections or from the receipt of a premium for writing covered call or covered put options (even if the benefit is obtained at the expense

of the chance of yet greater benefit) or pursuant to stock lending arrangements as permitted by the COLL Sourcebook (see below).

The relevant purpose must relate to property (whether precisely identified or not) which is to be or is proposed to be acquired for the Fund or anticipated cash receipts of the Fund, if due to be received at some time and likely to be received within one month.

49. Stock lending

49.1 This paragraph 49 does not apply to UBS Global Enhanced Equity Income Fund.

49.2 The entry into stock lending arrangements or repo contracts for the account of a Fund is permitted for the generation of additional income for the benefit of the Fund, and hence for its investors.

49.3 The stock lending permitted by this section may be exercised by a Fund when it reasonably appears to the Company to be appropriate to do so with a view to generating additional income for the Fund with an acceptable degree of risk.

49.4 The Company or the Depositary at the request of Company may enter into a repo contract, or a stock lending arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C), but only if:

49.4.1 all the terms of the agreement under which securities are to be reacquired by the Depositary for the account of the Company are in a form which is acceptable to the Depositary and are in accordance with good market practice;

49.4.2 the counterparty is:

49.4.2.1 an authorised person; or

49.4.2.2 a person authorised by a Home State regulator; or

49.4.2.3 a person registered as a broker-dealer with the Securities and Exchange Commission of the United States of America; or

49.4.2.4 a bank, or a branch of a bank, supervised and authorised to deal in investments as principal, with respect to OTC derivatives by at least one of the following federal banking supervisory authorities of the United States of America: the Office of the Comptroller of the Currency; the Federal Deposit Insurance Corporation; the Board of Governors of

the Federal Reserve System; and the Office of Thrift Supervision; and

49.4.3 collateral is obtained to secure the obligation of the counterparty under the terms referred to in 49.4.1 and the collateral is:

49.4.3.1 acceptable to the Depositary;

49.4.3.2 adequate ; and

49.4.3.3 sufficiently immediate.

49.5 The counterparty for the purpose of paragraph 49.4 is the person who is obliged under the agreement referred to in paragraph 49.4.1 to transfer to the Depositary the securities transferred by the Depositary under the stock lending arrangement or securities of the same kind.

49.6 Paragraph 49.4.3 does not apply to a stock lending transaction made through Euroclear Bank SA/NV's Securities Lending and Borrowing Programme.

49.7 There is no limit on the value of the Scheme Property which may be the subject of repo contracts or stock lending transactions.

50. **Treatment of collateral**

50.1 Collateral is adequate for the purposes of this paragraph only if it is:

50.1.1 transferred to the Depositary or its agent;

50.1.2 at least equal in value, at the time of the transfer to the Depositary, to the value of the securities transferred by the Depositary; and

50.1.3 in the form of one or more of:

50.1.4 cash; or

50.1.5 a certificate of deposit; or

50.1.6 a letter of credit; or

50.1.7 a readily realisable security ; or

50.1.8 commercial paper with no embedded derivative content; or

50.1.9 a qualifying money market fund.

50.2 Where the collateral is invested in units in a qualifying money market fund managed or operated by (or, for an ICVC, whose authorised corporate director

is) the ACD or an associate of the ACD, the conditions in paragraph 20 must be complied with.

51. Collateral is sufficiently immediate for the purposes of this paragraph if:

51.1.1 it is transferred before or at the time of the transfer of the securities by the Depositary; or

51.1.2 the Depositary takes reasonable care to determine at the time referred to in paragraph 51.1.1 that it will be transferred at the latest by the close of business on the day of the transfer.

51.2 The Depositary must ensure that the value of the collateral at all times is at least equal to the value of the securities transferred by the Depositary.

51.3 The duty in paragraph 51.2 may be regarded as satisfied in respect of collateral the validity of which is about to expire or has expired where the Depositary takes reasonable care to determine that sufficient collateral will again be transferred at the latest by the close of business on the day of expiry.

51.4 Any agreement for transfer at a future date of securities or of collateral (or of the equivalent of either) under this paragraph may be regarded, for the purposes of valuation and pricing of the Company or this Appendix, as an unconditional agreement for the sale or transfer of property, whether or not the property is part of the property of the authorised fund.

51.5 Collateral transferred to the Depositary is part of the Scheme Property for the purposes of the rules in the COLL Sourcebook, except in the following respects:

51.5.1 it does not fall to be included in any calculation of NAV or this Appendix, because it is offset under paragraph 51.4 by an obligation to transfer; and

51.5.2 it does not count as Scheme Property for any purpose of this Appendix other than this paragraph.

51.6 Paragraphs 51.4 and 51.5.1 do not apply to any valuation of collateral itself for the purposes of this paragraph.

APPENDIX III
DILUTION FIGURES

Name of Fund	Standard Dilution Levy (Paid to Fund)	Frequency of dilution adjustment applied per fund during the period 1 January 2016 to 31 December 2016
UBS Global Enhanced Equity Income Fund	Up to 2%	Nil

APPENDIX IV

MASTER SICAV INFORMATION

The below is a summary description of UBS (Lux) Equity SICAV – Global Income (USD) (the “Master Fund”), sub-fund of UBS (Lux) Equity SICAV, in which UBS Global Enhanced Equity Income Fund (the “Feeder Fund”) invests not less than 85% of assets. For further information in relation to the Master Fund, Shareholders should refer to the prospectus of UBS (Lux) Equity SICAV which is available on request (free of charge) from the ACD).

The Master SICAV and its organisation

The Master Fund is a sub-fund of UBS (Lux) Equity SICAV, an open-ended investment company established with variable capital (*société d’investissement à capital variable* or SICAV) and a UCITS scheme organised under the laws of Luxembourg and authorised and regulated by the CSSF.

The investment objective and policy of the Master SICAV

Investment objective

The aim of the Master SICAV is to achieve high growth with appropriate earnings, while giving due consideration to capital security and the liquidity of the Company’s assets.

General investment policy

The Master SICAV sub-funds invest at least two-thirds of their assets in equities, other equity shares, dividend right certificates and in an ancillary basis in warrants on equities and other equity shares. Furthermore, if the name of a sub-fund features a country or region, it may invest up to a maximum of one-third of its net assets in countries/regions other than those which its name suggests.

In line with the following guidelines on investment instruments and restrictions, and independently of their respective names, each sub-fund may invest up to 25% of its net assets in convertible and warrant issues whose warrants entitle the holder to subscribe to securities, and up to 15% of net assets in bonds, notes and other fixed income and floating-rate investments (incl. floating rate notes) issued by public authorities, semi-public enterprises or private borrowers, as well as in money market papers and, linked to the aforementioned, in options on debt instruments issued by the above borrowers. Up to 15% of the net assets may be invested in claims of any type whose income may be qualified as “interest” within the meaning of EU Directive 2003/48/EC of 3 June 2003 on the taxation of interest income. The sub-fund invests a maximum of 10% of its assets in UCITS or UCI, unless stipulated to the contrary in the investment policy of the relevant sub-fund. The Master SICAV may, as a main element in achieving the investment policy for each sub-fund, within the statutory limits, use special techniques and financial instruments whose underlying assets are securities, money market instruments and other financial instruments. The markets in derivatives are volatile and both the chance

of earning returns and the risk of suffering losses are higher than with investments in securities. Each sub-fund may hold liquid funds on an ancillary basis.

Specific investment policy of UBS (Lux) Equity SICAV – Global Income (USD)

This sub-fund has a global investment focus and predominantly invests in equities or other equity shares in small, medium and large-cap companies in developed countries and emerging markets. The goal of the sub-fund's investment strategy is to achieve above-average share earnings compared to the yields on the global equity markets. The share earnings may originate from dividends, call option premiums and other sources. In this way, the sub-fund may use derivative financial instruments for investment purposes. As the sub-fund invests in many foreign currencies due to its global orientation, in order to reduce the foreign currency risks, the portfolio or parts of it may be hedged against the reference currency of the sub-fund. The distributing (-dist) share classes of this sub-fund may distribute capital as well as income (e.g. from dividends). Income and capital may be distributed in two separate coupons. Investors in some jurisdictions may incur a higher rate of tax on distributed capital than on any capital gains which are realised on disposal of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist) share classes. Investors may be taxed at a later point in time on income and capital arising from accumulating (-acc) share classes compared to distributing (-dist) share classes. Investors should seek their own tax advice. This sub-fund also makes investments in emerging markets. For the aforementioned reasons, the sub-fund is especially suitable for risk-conscious investors.

Risk profile of the Master Fund

The Master Fund may be subject to substantial fluctuations and no guarantee can be given that the value of a share will not fall below its value at the time of acquisition.

Factors that can trigger such fluctuations or influence their scale include but are not limited to:

- company-specific changes,
- changes in interest rates,
- changes in exchange rates,
- changes in raw material prices and energy resources
- changes affecting economic factors such as employment, public expenditure and indebtedness, inflation,
- changes in the legal environment,
- changes in investor confidence in certain asset classes (e.g. equities), markets,

- countries, industries and sectors, and
- changes in the prices of raw materials.

By diversifying investments, the Master Fund seeks to partially reduce the negative impact of these risks on their value.

Use of derivatives

The Master Fund may employ derivative financial instruments. Derivative financial instruments are instruments that derive their value from other finance instruments (so-called underlyings).

Derivatives may be conditional or unconditional. Conditional derivatives (contingent claims) are those that give a party to the legal transaction the right, but not the obligation, to use a derivative instrument (e.g. an option). Unconditional derivatives (futures) impose the obligation on both parties to provide the service owed at a specific time defined in the contract (e.g. forwards, futures, swaps).

The derivatives are traded on stock exchanges (exchange-traded derivatives), as well as over the counter (OTC derivatives). In the case of derivatives traded on a stock exchange (e.g. futures), the stock exchange itself is also one of the parties in each transaction. These transactions are cleared and settled through a clearing house (clearing agent). OTC derivatives (e.g. forwards and swaps) are entered into directly by two parties, whereas exchange-traded derivatives are entered into using a middleman.

Investments in derivatives are subject to general market risk, settlement risk, credit risk and liquidity risk.

However, the nature of these risks may be altered as a result of the special features of the derivative financial instruments, and may in some cases be higher than the risks associated with an investment in the underlying instrument.

For this reason, the use of derivatives requires not only an understanding of the underlying instrument, but also in-depth knowledge of the derivatives themselves. With derivatives, the credit risk is the risk that a party may not meet (or cannot meet) its obligations under a specific or multiple contracts.

The credit risk for derivatives traded on a stock exchange is, generally speaking, lower than that of derivatives traded over-the-counter on the open market, because the clearing agent that acts as counterparty of every OTC derivative accepts a settlement guarantee. To reduce the overall risk of default, the guarantee is supported by a daily payment system maintained by the clearing agent, in which the assets required for cover are calculated. Despite OTC derivatives not possessing any such settlement guarantee, their default risk is generally limited by the investment restrictions of the Master Fund. Even in cases where the difference between the mutually owed payments (e.g. interest

rate swaps, total return swaps) is owed, as opposed to the delivery or exchange of the underlying assets (e.g. options, forwards, credit default swaps), the Master Fund's potential loss is limited to this difference in the event of default by the counterparty.

The credit risk can be reduced by depositing collateral. To trade derivatives on a stock exchange, participants must deposit collateral with a clearing agent in the form of liquid funds (initial margin). The clearing agent will evaluate (and settle, where appropriate) the outstanding positions of each participant, as well as re-evaluate the existing collateral on a daily basis. If the collateral's value falls below a certain threshold (maintenance margin), the participant in question will be required by the clearing agent to bring this value up to its original level by paying in additional collateral (variation margin). With OTC derivatives, this credit risk may also be reduced by the respective counterparty providing collateral, by offsetting different derivative positions that were entered into with this counterparty, as well as through a careful selection process for counterparties.

There are also liquidity risks, as it may be difficult to buy or sell certain instruments. When derivative transactions are particularly large, or the corresponding market is illiquid (as may be the case with derivatives traded over-the-counter on the open market), it may in some cases not always be possible to fully execute a transaction, or else it may only be possible to liquidate a position subject to high costs.

Other risks associated with the use of derivatives include the risk of incorrectly valuing or determining the price of derivatives. There is also the possibility that derivatives do not completely correlate with their underlying assets, interest rates or indices. Many derivatives are complex and are frequently subjectively valued. Inappropriate valuations can result in higher cash payment requirements in relation to counterparties or in a loss of value for the Master Fund.

Risk management

Risk management in accordance with the commitment approach and the value-at risk approach is applied pursuant to the applicable laws and regulatory provisions. In line with CSSF circular 13/559 (on the ESMA guidelines on ETFs and other UCITS issues), the risk management procedure will also be applied within the scope of collateral management (see "Collateral management" below) and the techniques and instruments for the efficient management of the Master Funds.

Leverage

Leverage is defined pursuant to the applicable ESMA directives and CSSF Circular 11/512 as the total of the nominal values of the derivatives used by the respective Subfund. According to the definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to. Where applicable, the expected leverage is expressed in the table below as a ratio between the total of the nominal value and the

net asset value of the Master Fund and is based on historical data (25/07/2013). Greater leverage amounts may be attained for the Master Fund, under certain circumstances.

Sub fund	Global risk calculation method	Expected leverage value	Reference portfolio
UBS (Lux) Equity SICAV – Global Income (USD)	Relative VaR approach	0.40	The reference portfolio reflects the properties of a broadly diversified portfolio of international shares

Collateral Management

If a Master Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Master Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing collateral (see above).

Collateral may be provided in the form of liquid assets in highly liquid currencies, highly liquid equities and first-rate government bonds. The Master Fund will only accept such financial instruments as collateral, which would allow it (after objective and appropriate valuation) to liquidate these within an appropriate time period. The Master Fund, or a service provider appointed by the Master Fund, must assess the collateral's value at least once a day. The collateral's value must be higher than the value of the position of the respective OTC counterparty. However, this value may fluctuate between two consecutive valuations. After each valuation, however, it is ensured (where appropriate, by requesting additional collateral) that the collateral is increased by the desired amount to meet the value of the respective OTC counterparty's position (mark-to-market). In order to adequately take into account the risks related to the collateral in question, the Master Fund determines whether the value of the collateral to be requested should be increased, or whether this value should be depreciated by an appropriate, conservatively measured amount (haircut). The larger the collateral's value may fluctuate, the higher the markdown. The markdown is highest for equities. Securities deposited as collateral may not have been issued by the corresponding OTC counterparty or have a high correlation with this OTC counterparty. Securities deposited as collateral are held by the Custodian Bank/Custodian in favour of the Master Fund and may not be sold, invested or pledged by the Master Fund.

The Master Fund shall ensure that the collateral transferred to it is adequately diversified, particularly regarding geographic dispersal, diversification across different markets and

diversification of the concentration risk. The latter is considered to be sufficiently diversified if securities and money market instruments held as collateral and issued by a single issuer do not exceed 20% of the Master Fund's net assets. Collateral that is deposited in the form of liquid funds may be invested by the Master Fund. Investments may only be made in: sight deposits or deposits at notice; high quality government bonds; repurchase transactions, subject to certain requirements; short-term money-market funds within the meaning of CESR Guidelines 10-049 regarding the definition of European money-market instruments. The restrictions listed in the previous paragraph also apply to the diversification of the concentration risk.

Bankruptcy and insolvency events or other credit events with the Custodian bank or within their subcustodian/correspondent bank network may result in the rights of the Master Fund in connection with the security to be delayed or restricted in other ways. If the Master Fund is owed a security pursuant to an applicable agreement, then any such security is to be transferred to the OTC counterparty as agreed between the Master Fund and the OTC counterparty. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Custodian Bank or within their subcustodian/ correspondent bank network may result in the rights or recognition of the Master Fund in connection with the security to be delayed, restricted or even eliminated, which would go so far as to force the Master Fund to fulfil its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation. The Master Fund shall decide on an internal framework agreement that determines the details of the above-mentioned requirements and values, particularly regarding the types of collateral accepted the amounts to be added to and subtracted from the respective collateral, as well as the investment policy for liquid funds that are deposited as collateral. This framework agreement is reviewed and adapted where appropriate by the Master Fund on a regular basis.

Tax

The information below is a general guide based on current United Kingdom law and HM Revenue & Customs practice, both of which are subject to change. It summarises the tax position of the Funds and of investors who are United Kingdom resident (except where otherwise indicated) and hold Shares as investments. Prospective investors who are in any doubt about their tax position, or who may be subject to tax in a jurisdiction other than the United Kingdom, are recommended to take professional advice.

The Fund

The Tax position of the Feeder Fund is as described for the other Funds in the main Taxation section above. The Feeder Fund should be exempt from tax on gains realised on the disposal of shares in the Master Fund provided they are certified as a reporting funds by HM Revenue & Customs; the Master SICAV intends to apply for its certification and anticipates that it will be received.

Shareholders

Income: general

Income will be accumulated or distributed as dividends under the UK tax legislation as the Master Funds invest predominantly in equities.

Income: Dividend Distributions

The position is as described in the main Taxation section above.

General

For information about income equalisation, gains, stamp duty reserve tax and reporting regimes, see the main Taxation section above.

GBP Share Class

The Feeder Fund will invest in a Sterling ("GBP") denominated share class of the Master Fund. The GBP Share Classes will be hedged to the base currency of the Master Fund.
