

# Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## MGTS AFH Tactical Core Fund ‘R’ Acc (ISIN: GB00B8KTVT88)

This fund is managed by Margetts Fund Management Ltd.

### Objective and Investment Policy

- The fund aims to provide long term capital growth.
- The fund may invest into other funds.
- The fund may also hold company shares, property linked assets, corporate bonds, government bonds, convertible bonds and cash or near cash investments.
- The fund will normally include exposure to fixed interest markets, UK, Europe and worldwide shares.
- The fund is designed with a medium risk investment strategy and is expected to fall to a similar degree as global stock markets during periods of market falls.
- The manager has discretion over the assets held within the fund. As a means of monitoring performance the manager will review performance against a composite benchmark of 40% IA (Investment Association) UK Gilt, 30% IA UK All Companies and 30% IA Global.
- The minimum exposure to developed equity markets is 30% and the maximum is 90%. The minimum exposure to fixed interest markets is 10% and the maximum is 50%.
- In the event that the manager believes that significant market falls could occur, the fund may sell investments and hold a high proportion of cash or holdings similar to cash.
- Income arising from the fund will be reinvested and reflected in the share price.
- You may redeem shares in the fund usually on each business day.
- Derivatives and forward transactions may be used for hedging purposes only. The prices of these instruments can change very quickly and are based on the movement of another asset. Hedging means that they can only be used to reduce the effect of an existing exposure such as currency in order to reduce overall risk.

### Risk and Reward Profile

The following risks may not be fully captured by the risk score:

- The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.
- The risk and reward score is not guaranteed and may change over time.
- The fund is designed to be used as a core component within a wider discretionary portfolio and may not be suitable for all investors.
- The lowest category does not mean risk free.
- The fund could hold significant cash or near cash weightings. If investment markets generally rose during this period, against the manager’s expectation, then the fund performance would be reduced.
- The fund is actively managed and the manager will use its skill and judgement to identify investments which offer value. There is no guarantee that the manager will be successful.
- The fund may be exposed to currencies other than the base currency and is subject to currency fluctuations which could result in losses to the fund.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before you invest.	
Charges taken from the fund over a year.	
Ongoing charges	0.83%
Performance Fee	None

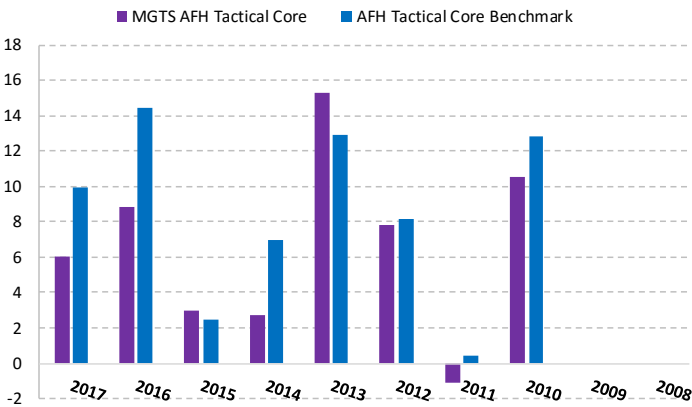

The entry and exit charges shown are the maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The ongoing charges figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

You will find more details about the calculation of the charges by checking section 29 of the prospectus.

## Past Performance

- Past performance is not a reliable guide to future performance.
- The past performance shown here takes account of all charges and costs with the exception of entry and switching charges and is inclusive of net reinvested income.
- The fund was launched in November 2009.
- The performance is calculated in pounds sterling.
