

BNY Mellon Global Dynamic Bond Fund

Institutional Shares W (Inc.)

INVESTMENT OBJECTIVE AND PERFORMANCE BENCHMARK

To maximise the total return, comprising income and capital growth. The Fund is managed to seek a minimum return of cash (1 month GBP LIBOR)+2%per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed.

Source for all performance: Lipper as at 31 January 2020. Fund Performance for the Institutional Shares W (Income) calculated as total return, including reinvested income net of UK tax and charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available upon request.

¹For Income Share Classes, Income Paid is the cash amount distributed, net of UK tax, for £1000 invested at the beginning of each period. This is for illustrative purposes only and does not take into account effects of inflation or other factors that may have a negative impact on an investment.

 The Sub-Fund uses sterling cash (1 month GBP LIBOR) +2% per annum over five years before fees as a target set for the Sub-Fund's performance to match or exceed. The ACD (Authorised Corporate Director) considers 1 month GBP LIBOR +2% per annum over five years before fees to be an appropriate target because 1 month GBP LIBOR is representative of cash and the Sub-Fund's investment objective is to seek a minimum return of sterling cash +2% per annum.

BNY Mellon Global Dynamic Bond Fund: As at 31 January 2020

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objectives.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- Emerging Markets have additional risks due to less-developed market practices.
- The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors"

The fund can invest more than 35% of net assets in different Transferable Securities and Money Market Instruments issued or guaranteed by any EEA State, its local authorities, a third country or public international bodies of which one or more EEA States are members.

Effective 10 June 2019, the Fund name changed from Newton Global Dynamic Bond Fund to the BNY Mellon Global Dynamic Bond Fund.
