

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Royal London Short Duration Credit Fund (Accumulation - Class M Shares)

A sub-fund of Royal London Bond Funds II ICVC      ISIN: GB00BJ4KW792  
Managed by Royal London Unit Trust Managers Limited

### Objectives and investment policy

**Objective** The Fund's investment objective is to achieve a total return over the medium term (3-5 years) by investing at least 80% in sterling-denominated bonds, of which at least 70% will be short duration (5 years or less).

The Fund's performance target is to outperform the ICE Bank of America Merrill Lynch 1-5 Year Sterling Non-Gilt Index (the "Index") over a rolling 5-year period. For further information on the Fund's index, please refer to the Prospectus.

The Fund is actively managed.

**Policy** At least 80% of the Fund will be invested in the bonds of companies and other organisations (known as corporate bonds) that are listed in sterling, of which 70% will have a duration of less than five years. Floating-rate notes, asset-backed securities, supranational bonds and agency bonds are included in this segment of the Fund.

The remainder of the Fund's assets may be invested in a range of securities, including UK government bonds, the bonds of companies and other organisations that are listed in a currency other than sterling and preference shares. A limited amount may also be invested in bonds with a duration greater than five years and up to 10% can be invested in other funds, known as collective investment schemes.

A limited amount of the Fund's assets may be invested in other transferable securities and money market instruments. The Fund may also hold a small amount of its portfolio in derivatives (investments that derive their value from another closely related underlying investment) for the purposes of efficient portfolio management.

Cash is unlikely to exceed 5% of assets.

For more information on investment terms used in this document please refer to the glossary on our website:

<https://www.rlam.co.uk/Home/Intermediaries/Supplementary-links/Glossary/>.

**Recommendation** The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Concepts to understand

**Bonds** are defined as fixed-income investments issued as debt by companies and public bodies to raise finance. Investors in bonds receive a previously agreed, non-variable interest payment until the investment matures. Corporate bonds are those issued by companies to raise finance.

**Total Return** A total return is a combination of capital growth and income. Capital growth is defined as the rise in an investment's value over time and income as the payment an investment generates, such as dividends or bond coupons.

**Rolling 5 Year Period** A rolling 5-year period is any period of five years, no matter which day you start on.

**Duration** is an investment's sensitivity to interest-rate changes measured in years.

**Efficient Portfolio Management** A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

### Risk and reward profile

The Fund is ranked in risk category 3 because its simulated share price has shown a low to medium level of volatility historically. The Fund was formed by merger and the SRR1 was calculated using historic data from the merging fund and may not be a reliable indicator of the future risk profile of the fund. As an investment, bonds are typically more volatile than money market instruments but less volatile than shares. Bonds issued by corporations are typically more volatile than bonds issued by governments. The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology that is used by all companies offering such funds in Europe.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

**Credit Risk** Issuers of certain fixed income securities could become unable to make income or capital payments on their debt. As such the value of a security will fall in the event of a rating downgrade or default of the issuer. In general fixed income securities that pay a higher level of income usually have a lower credit rating because of the increased risk of default.

**Interest Rate Risk** Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

**Liquidity Risk** In difficult market conditions the value of certain fund investments may be less predictable than normal. In some cases this may make such investments harder to sell at the last quoted market price, or at a price considered to be fair. Such conditions could result in unpredictable changes in the value of your holding.

For more about fund risks, see the "Risk Factors" section in the Prospectus ([www.rlam.co.uk/Home/Individual-Investor/Fund-Performance--Prices/](https://www.rlam.co.uk/Home/Individual-Investor/Fund-Performance--Prices/))

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

### One-off charges taken before or after you invest:

Entry charge	None
--------------	------

Exit charge	None
-------------	------

### Charges taken from the fund over a year:

Ongoing charge	0.35%
----------------	-------

### Charges taken from the fund under specific conditions:

Performance fee	None
-----------------	------

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure shown is an estimate of the charges because the share class only launched on 12 April 2019. The annual report for each financial year will include details on the exact charges made.

For more information about charges, see the expenses section in the full Prospectus and supplement, available at [www.rlam.co.uk/Home/Individual-Investor/Fund-Performance--Prices/](http://www.rlam.co.uk/Home/Individual-Investor/Fund-Performance--Prices/)

## Past performance

There is insufficient data to provide a useful indication of past performance to investors.

The Fund was launched on 12 April 2019 and the share class on 12 April 2019.

The Fund was formed by a merger on 12 April 2019. The performance shown below is that of the merging fund. The merging fund had the same investment objectives and policy as this fund.

### The Royal London Short Duration Credit Fund (Accumulation - Class M Shares) in GBP

There is insufficient data  
to produce a useful indication of  
past performance for  
the share class

Source: RLAM and DataStream as at 31 December 2019

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance.

## Practical information

**Depository:** HSBC Bank plc

**Additional Information:** This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on this fund (including the Supplementary Information Document), on other share classes of this fund and on other funds, or to obtain a free copy of the Fund's Prospectus or the annual and semi-annual shareholder reports, call the information line or write to the registered office, details of which are below. Alternatively, visit [www.rlam.co.uk](http://www.rlam.co.uk). The Prospectus and shareholder reports are in English.

This document describes one share class of the Fund. The Prospectus and annual and semi-annual shareholder reports are prepared for the entire fund across all share classes.

For fund performance and most recent share price, visit [www.rlam.co.uk](http://www.rlam.co.uk).

Should you wish to switch share classes or funds, please see the "Switching" section of the Prospectus for details.

**Tax:** Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund. Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

**Notices:** Royal London Unit Trust Managers may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the UCITS.

The Fund is a sub-fund of Royal London Bond Funds II ICVC (a UCITS umbrella company). The prospectus and long reports (shareholder reports) are prepared for the entire company. The assets and liabilities of each sub-fund are segregated by law. Therefore, the assets of the Fund belong exclusively to it and are not available to meet the liabilities of any other fund of Royal London Bond Funds II ICVC.

This Fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority (FCA).

Details of the Company's remuneration policy are available at [www.rlam.co.uk](http://www.rlam.co.uk) including: (a) a description of how remuneration and benefits are calculated; and (b) the identities of persons responsible for awarding remuneration and benefits. A paper copy of these details may be obtained, free of charge, on request from the Company, at the address below.
