Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Multi Asset Open Defensive Fund

a sub-fund of Fidelity Investment Funds IV

N Accumulation Shares (ISIN: GB00BC7GXK56)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

- Aims to provide an average annual return of 4% after deduction of ongoing fund charges over a typical market cycle of 5-7 years. The return target assumes the deduction of the ongoing charges figure (OCF) on the Y share class. There is no guarantee that this return will be achieved by the fund. The fund typically has a large exposure to lower risk investments with the aim of mitigating the risk of capital losses.
- Invests in a range of global assets to gain exposure to global markets mainly in bonds and cash, however, it is intended that the fund may also have exposure to equities, property and commodities.
- The fund provides global exposure to a diversified range of assets by primarily investing in funds. The fund typically invests more than 65% in sub-funds of an Irish UCITS fund (Fidelity Common Contractual Fund II) operated by Fidelity which subsequently utilise the experience and specialisms of a number of investment managers (which may include Fidelity) to manage the underlying assets. The fund can also invest directly into transferable securities, money market instruments, cash and deposits, and is also able to use derivatives for efficient portfolio management and investment purposes.
- Asset allocation exposure of the fund will be actively managed subject to it remaining within the following parameters in all market conditions: 0-35% equity, 15-100% debt instruments (which may include high yield and emerging market debt), 0-30% cash and 0-30% alternatives (such as infrastructure securities and Real Estate Investment Trusts).
- Can use derivatives with the aim of risk or cost reduction or to generate additional capital or income in line with the fund's risk profile. May also make extensive use of derivatives including more complex instruments or strategies to achieve the investment objective and these may result in leverage.
- The fund has discretion in its choices of investments within its objectives and policies.
- Income is accumulated in the share price.
- Shares can usually be bought and sold each business day of the fund.

Risk and Reward Profile

Typically lower rewards

Typically lower rewards

Typically higher rewards

1 2 3 4 5 6 7

- The risk category was calculated using historical performance data.
- The risk category may not be a reliable indication of the future risk profile of the fund, is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.

Charges for this fund (ISIN: GB00BC7GXK56)

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment

One-off charges taken before or after you invest

Entry charge N/A Exit charge N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 1.00%

Charges taken from the fund under certain specific conditions

Performance fee N/A

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor. The ongoing charges figure shown here for this class is an estimate of the charges. This figure may vary from year to year. It excludes:

- performance fees;
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 05/02/2013. This class was launched on 24/07/2013. Past performance has been calculated in GBP.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an ^{1*1} in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Investment Objective section shall refer to a benchmark and information on previous benchmarks may be found in the Annual Report and Accounts.
