

Xtrackers MSCI World UCITS ETF

Share Class: 1C (ISIN: IE00BJ0KDQ92), (WKN: A1XB5U), (Currency: USD)

a sub fund of Xtrackers (IE) plc. The Fund is managed by DWS Investment S.A., part of the DWS Group.

Objectives & Investment Policy

The Fund is passively managed. The aim is for your investment to track the performance, before fees and expenses, of the MSCI Total Return Net World Index (Index) which is designed to reflect the performance of the shares of certain companies of various developed countries.

The companies making up the Index are large and medium sized companies based on the combined value of a company's readily available shares as compared to other companies. A company's weighting in the Index depends on its relative size.

As of 31 May 2019, the Index consists of the following developed markets: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States of America.

The underlying constituents of the Index are listed in multiple currencies.

The Index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax.

The Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions. The Index is calculated in US Dollars on a daily basis.

To achieve the aim, the Fund will attempt to replicate the Index, before fees and expenses, by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as the Index as determined by DWS entities.

The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The Fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund.

No dividends will be paid on your shares.

You may redeem your shares on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 5 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund will attempt to replicate the performance of the Index less costs, but your investment is not expected to match the performance of the Index precisely. Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's performance to be substantially different from the performance of the Index.

DWS entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Index is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you may be negatively affected by, or may not benefit from, the lack of such adjustments in changing market circumstances.

The Index may also be subject to disruption or adjustment events which may prevent its calculation or lead to adjustments to the rules of the Index which may cause your investment to suffer losses.

Investors in the Fund are exposed to fluctuations between the currencies of the underlying constituents of the Index (being the Fund's assets) and US Dollar.

The Fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing charges	0.19%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the Fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the year ending October 2018. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.

To the extent the Fund undertakes securities lending to generate revenue, the Fund will ultimately be allocated 70% of the associated revenue, the securities lending agent, which will be a DWS entity or other Deutsche Bank entity, will be allocated 15% and the remaining 15% will be allocated to the DWS entity which monitors such activities, as set out in the prospectus. To facilitate this the Fund may receive associated revenues and allocate revenue to the securities lending agent and DWS entity which monitors such activities, in the proportions set out in the prospectus. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2014 and the share class was launched in 2014.

Past performance has been calculated in USD.
