Past performance is not a reliable indicator of future results. *Performance data for periods less than 1 year is illustrated on a cumulative growth basis. The Fund's performance is measured against the performance of the FTSE All-Share Index (the "Benchmark") which the manager of the Fund has assessed to be the most appropriate Benchmark for comparison. The Benchmark is not a target for the Fund, nor is the Fund constrained by the Benchmark as the Fund has flexibility to invest in securities and asset classes not included in the Benchmark. The Fund will only invest in securities and asset classes that are stated in the Fund Prospectus or Fund Supplement. IA Sector performance data are post-tax returns that take into account the taxes a hypothetical investor pays on fund distributions and capital gains. S.I. - since inception 01/11/2012.
