## Highlights

#### Building a portfolio of Stranded Fields:

- The Company anticipates the continued focus on the identification and development of stranded and marginal fields through the investment in, and relationship with, Marginal Field Development Company (MFDevCo) Ltd. ('MFDevCo') in which Nu-Oil and Gas plc. ('Nu-Oil' or the 'Company') holds a 50% interest.
- This marginal field strategy will seek to utilise innovative engineering solutions that reduce both Capex and Opex and are redeployable to build a portfolio of low risk, highly appraised marginal assets.
- The Company continues to actively seek new assets in conjunction with MFDevCo.

#### Western Newfoundland:

- The Company entered into a Production Sharing Agreement (the 'PSA') with PVF Energy Services Inc. ('PVF') for PL2002-01(A) on 31 January 2017. The PSA provides for the Company to receive 50% of net revenue from production following the recovery of any costs incurred by PVF in performing its obligations.
- PVF has faced some challenges in developing operations on PL2002-01(A) which has resulted in unexpected delays hampering, but not halting progress.
- The Company, with PVF and others are also in discussion regarding wider regional rejuvenation plans which would provide a step change in the portfolio interest as it currently stands.

#### Financial:

- Loss before tax for the year was £1,878,000 (2017: £1,671,000). The main area of expense has been
  the continuing development of the foundations for the marginal field initiative. Management continued to
  maintain its cost discipline in western Newfoundland, this cost discipline was in part off-set by the
  continued expenditure with respect to the implementation of the marginal field strategy. The loss
  included depreciation, amortisation and provision charges of £341,000 in the period relating to tangible
  and intangible assets consistent with its accounting policies.
- The Group has a net liability position of £1,053,000 (2017: £1,880,000). The net liabilities are mainly due to the loan owed to Shard Capital Management ('Shard') and to related party creditors. At this time neither Shard nor related parties have sought to recover these debts.
- The Group had cash balances of £861,000 at 30 June 2018 (2017: £654,000).
- The status of commercial discussions, the Company's ability to raise capital and the Company's cash position provide management with the confidence that the business model has the potential to allow the Group to satisfy its liabilities and operate as a going concern.
- During the year the Company raised £2,706,000 net through the issue of new ordinary shares.

## <u>OUTLOOK</u>

- Clear focused strategy for commercialising stranded and marginal fields.
- Recent enquiries provide directors and management with confidence regarding the viability of the business model and provide confidence that the Company can add further projects to its portfolio.

## Strategic Report

#### Chairman's Statement and Operational Review

As Chairman I reconfirm that our objective remains to build our company, primarily through its interest in Marginal Field Development Company ('MFDevCo') Ltd. ('MFDevCo'), into a leader in the development and production of marginal or stranded oil and gas fields with a portfolio of offshore and onshore assets. In this statement I will outline the progress we have made towards that objective this year. Our priority remains to secure projects and access production as quickly as possible.

The Company continues to focus on its strategy to target undervalued opportunities within the oil and gas sector which are generally referred to as marginal or stranded assets. There is a huge population which varies according to changes in the external environment such as oil price, field size, economic strategies and many other factors. It's a dynamic population increasing and decreasing according to changes in external factors and hence complex but if successfully acquired, such opportunities can be very profitable for far lower investment than if commenced at the exploration stage. This is why we believe our strategy is attractive from an economic point of view, but also why it is complex to implement.

We continue to negotiate a number of specific opportunities at different stages of the 'commercialisation cycle'; we have submitted proposals which are being considered and we are hopeful that we will be able to update shareholders with positive developments in due course. Our marginal field proposals span a range from larger scale opportunities to more standard repeatable and smaller projects, resources are being applied proportionally as required. We are building a team to speed delivery and as always, our objective remains the identification and acquisition of projects in the 'marginal, stranded' domain with the most appropriate revenue stream and efficient use of capital to maximise returns.

These opportunities are the result of the Company's continual innovation, whether it be configuring technology, embracing novel ways to recover resources or adopting ideas from other industries, which enable us to identify and generate additional value. Similarly, as we strive to maximise the value from our current assets, we seek new opportunities to create value in both domains, offshore and onshore. With this mindset the Board has identified new opportunities which fit our strategy to target low-risk, undervalued assets, in addition to the acquisition of projects by MFDevCo and the development of our assets in Canada, via Enegi Oil Inc. ('Enegi'). MFDevCo is focused on offshore projects, particularly where there is established production or resources that can generate near-term revenue; Nu-Oil will also seek suitable onshore projects. We will prioritise appraisal opportunities but will also consider exploration opportunities where the value of new investment is demonstrable. By 'demonstrable', we mean where it can be shown that the risk / return trade off is significantly better than industry norms.

#### Marginal Field Development Company (MFDevCo) Ltd.

MFDevCo has made tangible progress in a number of ways this year. Firstly, negotiations have continued on a number of larger scale and undervalued opportunities with effort directed to complete the key tasks required to meet MFDevCo's objectives and those of the counterparty. The technical evaluation including operating plans has been satisfactorily concluded, with the assistance of consortium members, and are being integrated with financing requirements. The larger the size and value of the project, the longer it takes to conclude the negotiations and noting the 'arbitrage' element that characterises the opportunities we target, shareholders will, I am sure, understand the complexities involved to conclude a deal. Significant project finance will be required to unlock these opportunities but there are innovative means, analagous to shipping finance, in which this can be done.

#### STRATEGIC REPORT

## CHAIRMAN'S STATEMENT AND OPERATIONAL REVIEW (Continued)

The second strand of activity during the past year has focused on the smaller projects which can be acquired and developed more quickly to deliver significant growth. MFDevCo has continued to evaluate ways that Helvick and Dunmore, in both of which MFDevCo has a 10% interest with the option to increase to 50%, might be economically developed. Noting that they typify what the U.K.'s Oil and Gas Authority ('OGA') and others refer to as 'small pools', while great fanfare surrounded the industry's initiative to unlock these fields, it is unsurprising that little appears to have been achieved given the cost and market volatility associated with traditional developments approaches. MFDevCo believes it has identified a development mode that could make Helvick and Dunmore economic to develop and has informed its licence partners accordingly. We believe that this work will create 'standard, repeatable' projects I referred to earlier which, logically, should be quicker to deliver.

The third strand of activity is consistent with my theme of continual innovation. There are a number of aspects to this including more innovative approaches to project delivery, financing, use of proven technology and how these impact upon the opportunities that can be garnered. We have identified an alternative way to commercialise a subset of late-life marginal fields and significant progress has been made to create a larger population of viable targets which will have a strong impact upon potential growth. Once we are comfortable with its viability shareholders will be informed.

This brings me neatly to the fourth strand of activity currently being undertaken which is the restructuring of the management and team to implement the above plans more effectively than we have been able to do to date. During the year we have recruited a number of people with the experience to manage the interface with the consortium more effectively and as a result to speed up the evaluation and assessment process of identified opportunities. Due diligence is an imperative in choice of opportunity and this additional resource is a significant benefit. Three positions have been filled, that of Developments Manager, Projects Manager and CEO of MFDevCo (Brazil) Limited, a recently formed subsidiary of MFDevCo.

#### Western Newfoundland

The Company remains committed to developing the assets in western Newfoundland which it holds via its 100% owned Canadian operating subsidiary, Enegi. Operating in western Newfoundland has always presented unique challenges but even noting the difficulties associated with the region, we have a high degree of confidence in the potential of these assets and the possibility to use them as catalyst for a wider regional development.

The Board has been reassessing the approach to generate production from PL2002-01(A) (also known as Garden Hill) more effectively than has resulted from the activities being undertaken by PVF Energy Services Inc. ('PVF'). We are committed to optimising the value of Garden Hill, which in-house subsurface models built up over the years, and acknowledged as the most comprehensive available models of the area, indicate holds up to 97mmboe. We entered into the Production Sharing Agreement ('PSA') with PVF believing this would achieve our objective and PVF has expended around C\$1 million on the work programme to date. However, shareholders will be aware that a variety of technical issues have delayed the production test on the PAP#1-ST#3 well. Technical and commercial discussions with PVF are ongoing to determine the most effective route to achieving production. These discussions are expected to conclude imminently at which point we will update the market with our plan for the next stage of development.

Furthermore, meetings have taken place with the Department of Natural Resources ("DNR") in order to judge the viability of the regional play we are considering and this information will be important input as to when we and on what terms we choose to conclude a farm-in.

#### STRATEGIC REPORT CHAIRMAN'S STATEMENT AND OPERATIONAL REVIEW (Continued)

#### EL1070

The Company also holds, via Enegi, 100% interest in the deep rights in Exploration Licence 1070 ('EL1070'), which is located almost adjacent to Garden Hill. While exploration is not our priority, we believe this licence has significant potential. Meetings have been held with the Canada-Newfoundland Offshore Petroleum Board ('C-NLOPB') to determine how the licence can be advanced while the moratorium on hydraulic fracturing is in place and which affects the shallow rights, held by Shoal Point Energy ('SPE'). Further discussions took place with G2 Energy Corp. ("G2") who wish to extend the current agreement, although our own discussions with the regulator will provide better direction and G2's option was allowed to lapse. As a result, we intend to take direct contact with SPE to agree the way forward and we will update the market accordingly.

#### Outlook

As I am, shareholders will be frustrated by delays in concluding project negotiations. Unfortunately, this is a characteristic of the oil sector as a result of the scale of projects, regulatory and legal hurdles, complexity of operations, construction and general engineering. However, I am confident that we will be able to announce the first acquisition of a marginal field, along with its development plan, in 2019. As we work to close negotiations for larger marginal field projects, I expect the Company to expand its portfolio by acquiring the smaller, late-life projects I have outlined.

The demand for solutions capable of unlocking marginal fields continues to grow worldwide. Support from governments is driven by the need for energy security, the falling away without replacement of so many projects and the concern that energy resources must be utilised.

I emphasise again, that negotiations to secure marginal field projects of various types are ongoing and, with much of the due diligence completed, potential sources of finance and build facility identified, and the Consortium ready to go, MFDevCo is well placed to start project development once agreement is reached.

I expect activities in Newfoundland to deliver results within the year ahead. While the marginal fields we are advancing will MFDevCo will be the future of the Company, I look forward to finally seeing past efforts deliver value from these legacy assets.

Finally, I would like to thank both management and shareholders for their continued support and look forward to realising the rewards from the opportunities that have been created over the last few years.

the M. Ruf

Alan Minty

Chairman

27 December 2018

## Strategic Report

## **Financial Review**

The Consolidated Financial Statements and notes on pages 32 through to 60 should be read in conjunction with this review which has been included to assist in the understanding of the Group's financial position at 30 June 2018.

#### Revenue

No revenue was generated during the year. Management awaits the results of activity on its lease, PL2002-01(A), to assess the likelihood of it becoming revenue generating in future years. The Company entered into a Production Sharing Agreement (the 'PSA') with PVF Energy Services Inc. ('PVF') for PL2002-01(A) in January 2017. The PSA provides for the Company to receive 50% of net revenue from production following the recovery of any costs incurred by PVF in performing its obligations.

#### Loss before tax

Loss before tax for the year was £1,878,000 (2017: £1,671,000 loss). The main area of expense has been the continuing development of the marginal field initiative. Management continued to cut costs in western Newfoundland but maintained its expenditure with respect to the implementation of the marginal field strategy. The loss included depreciation, amortisaton and provision charges of £341,000 (2017: £367,000) in the period relating to tangible and intangible assets. Operating loss in effect was £1,537,000.

#### **Statement of Financial Position**

The consolidated statement of financial position for the Group is shown on page 33. Net liabilities at 30 June 2018 were £1,053,000 (2017: net liabilities of £1,880,000). The decrease in net liabilities reflects fundraising activities that were undertaken in the period. During the year the Company raised £2,706,000 through the issue of new ordinary shares. The majority of the Group's liabilities are due to related parties and to Shard Capital Management. It is the Group's view that these creditors are supportive of the Group.

At 30 June 2018, the Group had cash balances of £861,000 compared to £654,000 at 30 June 2017. The Group had trade and other payables of £3,381,000 at 30 June 2018 (2017: £3,781,000). These cash balances when considered with the additional information provided in Note 1 to the financial statements allow the Directors to conclude that the Group and Company should be treated as a going concern.

#### Cash flows

Cash inflows for the year were £207,000 compared to a cash inflow of £654,000 in 2017. The Group's cash position was carefully managed during the year while it sought to implement its marginal field strategy.

#### Future funding and capital requirements

The Directors believe the Group has developed a very attractive business model in choosing to focus on the development of stranded and marginal fields. The Directors believe that the Group has the necessary foundations in place with the potential to see an upturn in activity in 2019. Management believes the Company has sufficient resources to allow significant, tangible progress to be achieved from its current resources in the short term but longer term and as a result of the size of projects that the Company is targeting, further funding, much of it project finance, will be required to realise project returns.

#### Principal risks and uncertainties

Principal risks and uncertainties are included in the Directors' report on page 18.

STRATEGIC REPORT FINANCIAL REVIEW (Continued)

#### Key performance indicators

Key performance indicators are referenced in the Directors' report on page 20.

On behalf of the board

Damian Minty Chief Financial Officer 27 December 2018

## **Directors And Advisers**

## **Directors' Biographies**

#### Alan Minty, Executive Chairman (Age 72)

Mr. Minty qualified as a Chartered Engineer in 1975. He has over 30 years' industrial experience, having worked for companies such as Anglo American Corporation, British Steel Corporation and Occidental Oil Corporation/Petromin as well as having extensive experience of the oil and gas industry worldwide and in Newfoundland in particular. Mr. Minty's first experience in the offshore industry was as a risk adviser for the Norwegian Petroleum Directorate in 1979 where he was a member of the team responsible for the development of risk-based regulations. Since then he has worked on major contracts for clients such as Mobil, BP, Amerada Hess, Shell, Texaco, and, in Newfoundland, on the Hibernia, Terra Nova, and White Rose projects. Mr. Minty has a BSc in Mechanical Engineering from Manchester University and an MSc in Management Studies from Bradford Management Centre.

#### Nigel Burton, Chief Executive Officer (Age 60)

Dr Burton has over 25 years' experience in operational and financial management, debt and equity financing, acquisition and integration of businesses, disposals, IPOs and trade sales. Following over 14 years as an Investment Banker at leading City institutions including UBS Warburg and Deutsche Bank, including as the Managing Director responsible for the energy and utilities industries, Dr Burton spent 15 years as CFO of a number of private and public companies, including Navig8 Product Tankers Inc, PetroSaudi Oil Services Limited, Advanced Power AG and Granby Oil and Gas plc. and is currently Chairman of Polemos plc. and Remote Monitored Systems plc. Dr Burton is a Chartered Electrical Engineer (FIET) and a Past President of the Institute of Engineering and Technology. He has a BSc. (First Class Hons) in Electrical and Electronic Engineering and a Ph.D. in Acoustic Imaging at University College London.

#### Damian Minty, Chief Financial Officer (Age 44)

Mr. Minty is a Chartered Accountant with over 15 years' experience. His initial experience was as an auditor in a large accountancy firm before moving to London to work at JP Morgan and Deutsche Bank. Mr. Minty was the Commercial Manager of the Company after the IPO before taking over as Chief Financial Officer in 2009. He holds a BSc in Computer Science and Management Studies.

### Frank Jackson, Non-Executive Director (Age 70)

Mr. Jackson has over 20 years' experience in the oil and gas sector where he has raised significant funds, taken companies to market and negotiated hydrocarbon asset transactions. Most recently, Mr. Jackson was the Executive Commercial Director of Aurelian Oil and Gas which during his association with the company raised over C\$100m. Mr. Jackson has an MBA from the University of Cape Town and is a Fellow of the Chartered Institute of Secretaries and Administrators.

#### Tejvinder Minhas, Non-Executive Director (Age 46)

Mr. Minhas is a Chartered Secretary and was the Company Secretary for the Company from September 2007 until July 2017 when he became a Non-Executive Director of the Company. He has extensive experience advising on commercial, contractual, legal and compliance matters. Prior to joining, Mr. Minhas worked as a Commercial Manager within the oil and gas sector. He holds a BSc in Economics, a Graduate Diploma in Law and is a Fellow of the Chartered Institute of Company Secretaries.

## Mike Bowman, Non-Executive Director (Age 65)

Professor Mike Bowman has over 30 years' experience in the field of development and production geology spending his whole career in industry with BP, where he worked his way up to the position of Vice President of Geoscience and Subsurface. He is now a Professor of Development and Production Geology at the University of Manchester. Professor Bowman holds a Ph.D. in Geology from the University of Sheffield.

#### Corporate Governance

Taking into account the size, the industry that the Company operates in, the nature of the Group's operations and the stage of development of the Company, the Board underwrites best practice in corporate governance as appropriate. As a public company listed on AIM the Board acknowledges that it is responsible and accountable to all stakeholders, shareholders, suppliers, staff, clients, customers and contractors.

The Board adopted the principles of the 2018 Quoted Companies Alliance Corporate Governance Code ("the QCA Code") to support the Company's governance framework. The Directors acknowledge the importance of the ten principles set out in the QCA Code and the statement available on the Company's website (<u>http://nu-oilandgas.com/investors/governance</u>) illustrates the Company's compliance or explanation where not fully compliant.

#### **Corporate Governance Statement**

The Code requires the Company to apply the ten principles and publish certain disclosures in our Annual Report and/or on our website.

The Company's primary objective is to build sustainable and long-term value for shareholders through the implementation of its strategy and business model. In conjunction with that objective, the importance of communication and developing an understanding of shareholder expectations has been recognised by the Company and consequently a dedicated Investor Relations Representative is in place to facilitate shareholder engagement. The role of the Investor Relations Representative is judged to be integral to meeting the needs of shareholders, understanding their expectations, encouraging shareholder interaction and providing a channel to communicate directly with the Company.

Through the Investor Relations Representative, Annual General Meetings, the Company's website, multimedia, social media, the annual reports and the Regulatory News Service etc., the Company is able to offer multiple and various channels of communication to meet and understand shareholders' needs and expectations.

The primary point of contact for shareholder correspondence is the Investor Relations Representative who can be contacted via email: <u>investor.relations@nu-oilandgas.com</u>. In accordance with the Company's Communications Policy, communications comply with AIM Rules and Market Abuse Regulations. All Material Information will be publicly disseminated in a non-exclusionary and non-selective manner. The Company's historical annual reports and other governance-related material, including notices of all general meetings over the last five years, can be found on the Company website within the investors section: <u>www.nu-oilandgas.com/investors/</u>.

The Company seeks to grow shareholder value through the implementation of its business model, namely: the acquisition and development of oil and gas assets. That model leverages the technical, commercial and financial experience of the Company's directors and senior management in identifying, evaluating and developing those assets and opportunities. The implementation of the model through opportunity delivery requires careful consideration of the resources and stakeholder engagements required.

The Company recognises that integral to the success of its business model is its collaboration with stakeholders. Through its joint venture, Marginal Field Development Company ("MFDevCo"), a number of collaboration agreements with respected specialists have been structured to assemble a consortium of strategic partnerships. This consortium reflects the importance the Company places on relationships with its partners and supply chain.

It is apparent that growing shareholder value requires engagement and collaboration across the stakeholder base, where those stakeholders include, but are not limited to: shareholders, members of staff, partners, suppliers, financiers, local communities, government and regulatory bodies. The Company maintains close dialogue with these stakeholders. Issues are monitored and resolved as necessary, with due consideration of the appropriate level of senior or professional oversight.

The Company's Annual Report and Accounts outline the principal risks and uncertainties and identifies how the board has embedded effective risk management in order to execute and delivery strategy.

The Board recognises decisions made regarding strategy and risk are likely to influence the culture of the Company. In addition, the tone and culture set by the Board helps to attract and retain the people and partners needed to achieve the corporate objectives it sets.

As appropriate, the Company seeks to ensure all employees, partners and suppliers understand the Company's ethical values and behaviours. The close working relationships developed within the Company provide opportunity to demonstrate ethical behaviour and for possible deviations to be easily identified and quickly addressed.

Clear policies and procedures are in place to deal with anti-bribery & corruption risk as well as a whistleblowing policy which provides a clear process for unethical conduct to be appropriately reviewed and addressed. These have been communicated to all staff.

The Directors and applicable employees are aware of the obligations under AIM Rule 21 and to ensure compliance the Company has adopted a share dealing code which reflects the model code on share dealings set out in the Listing Rules.

The Company additionally maintains an open relationship with its Nominated Adviser to ensure compliance with AIM and MAR rules more generally, as appropriate.

The Board comprises six Directors of which three are executives and three are non-executives, reflecting a blend of different experience and backgrounds. All Directors bring independent judgement where appropriate to bear on issues affecting the Company and all have full and timely access to information necessary to enable them to discharge their duties. The Directors have a wide and varying array of experience in the industry.

The Board is satisfied it has a suitable balance between independence on the one hand, and knowledge of the Company on the other, to enable it to discharge its duties and responsibilities effectively, and that all Directors have adequate time to fill their roles. The Non-Executive Directors are independent of management and have no material relationship with the Company.

The Board meets throughout the year and all major decisions are taken by the Board. The Group's day-to-day operations are managed by the Executive Directors. All Directors have access to the Company Secretary. All Directors receive full Board papers in sufficient time before Board meetings, and any further supporting papers and information are readily available to all Directors on request.

The Directors are responsible for the stewardship of the Company and for overseeing the conduct of the business of the Company and the activities of management, who are responsible for the day-to-day operations of the business. The Directors' primary responsibilities are to preserve and enhance long-term shareholder value and to ensure that the Company can meet its obligations on an on-going basis and that it continues to operate in a reliable and safe manner.

Management are responsible for the day to day operational affairs and decisions in accordance with the strategy, direction and business standards set by the Directors. Management reports to the Directors on a formal basis at least four times a year and there is frequent informal contact between the management and the Directors.

All Directors and Committees have access to independent professional advice when required. The cost of such professional advice is covered by the Company.

The Executive Chairman, is responsible for leading an effective board, implementing a good corporate governance culture and ensuring appropriate strategic focus and direction. In addition, in conjunction with the Executive, he has responsibility for the strategic development, for communicating it clearly to the Board and, once approved by the Board, for implementing it. The Company notes that the Chairman should be independent from the day to day business of the Company, however, it has been determined that the Executive Chairman's experience and knowledge of the business are of exceptional benefit to the success of the Company.

All the executive directors have particular roles and responsibilities. Details of the current Directors, their roles and background are set out on Page 11 of this Annual Report and on the Company's website at <u>www.nu-oilandgas.com/about-us</u>. Details of the company's committees and terms of reference can be found in the investors section of the Company's website: <u>www.nu-oilandgas.com/investors/</u>.

The Board will have a formal schedule of matters reserved to it for decision including matters relating to strategic planning, key investment decisions, risk management and mitigation, senior management determination and assessment, corporate transactions, financing, communication planning and internal control integrity. The number of board meetings and attendance records will be included in the Company's Annual Report, which can be found on the Company website within the investors section: <u>www.nu-oilandgas.com/investors/Annual-Reports</u>.

As soon as is practicable after any general meeting has concluded, the results of the meeting are released through a regulatory news service and a copy of the announcement is posted on the Company website within the investors section: <u>www.nu-oilandgas.com/investors/</u>. The announcement will also provide details of the total number of voting shares in issue and the number of shares in respect of which valid proxy appointments were received; a table will be included showing the number of votes for and against each resolution and also the number within the chairman's discretion. Excluded from the table will be abstentions, votes withheld, and proxy appointments received from holders who appointed someone other than the chairman of the meeting as their proxy. In the event that a significant proportion of votes (e.g. 20% of independent votes) is cast against a resolution at any general meeting, the Company will provide an explanation of actions which will be taken as a result.

The Company's board is small and focused on implementing the Company's strategy. Given the size and nature of the Company, the Board does not consider it practical to have a formal performance evaluation procedure in place, as described and recommended in the QCA Code. The Board will reassess this decision as the Company continues to grow.

Succession planning is regarded by the Board as important to ensure that the Company has potential replacements should they be required and to ensure the success of the business. Where possible given the Company's size, its future leaders are identified, and development plans are implemented to prepare those people identified for future roles.

The nomination committee assist the Directors with the appointment and re-appointment of Directors to the Board and to senior executive office. Details of the nominations committee are reflected elsewhere on our website. We expect the Board evaluation process to evolve over time so that it becomes linked to succession.

#### **Business Model and Strategy**

The Company's principal activities are described within the Principal Activities section of the Director's Report. Further detail is provided on the Company website within the About Us section: <u>http://nu-oilandgas.com/about-us</u> and within the Description of the Business provided within the AIM Rule 26 section: <u>http://nu-oilandgas.com/investors/aim-rule-26-information</u>.

#### **Risk Management**

The Board is responsible for putting in place and communicating a sound system to manage risk.

Management determines the Company's risk profile and is responsible for overseeing and approving risk management strategy and policies, internal compliance and internal control. The Company's process of risk management and internal compliance and control includes:

- establishing the Company's goals and objectives, and implementing and monitoring strategies and policies to achieve these goals and objectives;
- continuously identifying and reacting to risks that might impact upon the achievement of the Company's goals and objectives, and monitoring the environment for emerging factors and trends that affect these risks;
- formulating risk management strategies to manage identified risks and designing and implementing appropriate risk management policies and internal controls; and
- monitoring the performance of, and continuously improving the effectiveness of, risk management systems and internal compliance and controls, including an ongoing assessment of the effectiveness of risk management and internal compliance and control.

#### **Board meetings**

The Board has an obligation to meet at least four times a year which take place either with a quorum or a full complement of Directors present. Meetings are supplemented by conference calls during intervening months. The executive and non-executive directors maintain frequent contact to discuss any issues of concern they may have and to keep them fully briefed on the Group's operations.

The number of meetings held and attended by each of the directors of the Company during the financial period are:.

Director	Number of meetings held during the time the director held office	Number of meetings attended
Alan Minty	10	10
Nigel Burton	10	7
Damian Minty	10	10
Tejvinder Minhas	10	10
Frank Jackson	10	10
Mike Bowman	10	8

#### Independent Professional Advice

All Directors and Committees have access to independent professional advice when required. The cost of such professional advice is covered by the Group.

#### Committees

The Directors currently have in place three committees of Directors: an Audit Committee, a Remuneration Committee and a Nomination Committee. Each of these committees operates within written terms of reference approved by the Directors. Brief details of each committee are set out below, but fuller terms of reference can be found on the Company's website.

- Audit Committee: The Audit Committee's mandate is to assist the Directors in fulfilling their responsibilities with respect to the Group's financial statements and other financial information required to be disclosed by the Company to the public, the Group's compliance with legal and regulatory requirements, and the performance of the Company's external auditor. The committee comprises two Directors: Frank Jackson (Chair), Prof. Mike Bowman.
- **Remuneration Committee:** The Remuneration Committee's mandate is to assist the Directors in fulfilling their oversight responsibilities with respect to developing compensation and human resource policies and developing and assessing executive management compensation, development and succession. The committee now comprises two Directors: Frank Jackson (Chair), Prof. Mike Bowman.
- **Nomination Committee:** The Nomination Committee's mandate is to assist the Directors with the appointment and re-appointment of Directors to the Board and to senior executive office. The Committee now comprises two Directors: Prof. Mike Bowman (Chairman) and Frank Jackson.

#### Insurance

The Group maintains general commercial insurance cover as is appropriate for a business of its size and complexity. Frequently, specific cover is required by local regulators and the Group complies with these requirements. Additionally, during the financial year, at the date of the financial statements and at the date of the approval of the financial statements the Group held directors' and officers' insurance cover which is a qualifying third party indemnity insurance. The levels of insurance cover for all types of liability are reviewed on an annual basis.

## Health, Safety, The Environment And Corporate Social Responsibility

How we operate:

- We run our business in compliance with the law and applicable regulation
- We diligently pursue the safety and well-being of our people at all times
- We act openly and honestly in all our business dealings
- We strive to be a good partner with local communities and in the environments in which we operate
- We will seek to comply with best practice in terms of corporate governance and business practice

Our objective is to operate safely, to minimise our impact on the environment and to foster and support long-term development and self-sustaining enterprise in local communities.

#### Health and safety

The safety of our staff, contractors and those in our local communities is of paramount concern to us and we are pleased to report that there were no significant health or safety incidents during the year.

The Company has an established Health, Safety and Environmental ("HSE") policy that is reviewed on an annual basis. Where we do not have the in-house skills to develop and implement this policy, we work with specialist consultants to ensure proper control of our activities. The Company's HSE policy is supported by the Board which receives updates at Board meetings on HSE activities and any incidents which occur.

In light of our role as operator of our assets, we have commenced a thorough review and further development of our HSE systems and processes to ensure that we're ready to take on the new challenges we will face.

#### Environment

The Company's objective is to minimise our impact on the local environment and, during the year, Nu-Oil and Gas plc reported no environmental issues. The Company continues to maintain an excellent track record of operating as a partner in western Newfoundland, an area of high environmental sensitivity.

The Company is aware of the importance of managing the external impact of our operations and environmental impact assessments are undertaken as a key part of our operations planning. Nu-Oil and Gas has staff who are qualified professionals to undertake our environmental planning. This team is augmented where appropriate through the use of external specialist consultants.

We are committed to transparent disclosure and clear communication of our activities and policies, both internally and externally. We are constantly refining our policies and procedures to manage the increasing range of risks we face in our business and to facilitate our day to day work.

#### Corporate social responsibility

Nu-Oil and Gas plc recognises both the business imperative and the moral obligation to carry out our activities in a socially responsible way. The Company's aim is to contribute to the communities in which we operate through:

*Our staff:* They will be trained and developed in roles providing fulfilling employment whilst maintaining a culture which encourages an enjoyable work-life balance.

*Our supply chain:* We will collaborate with suppliers to develop long term partnerships, locally, whenever possible, based on fair procurement methods, where long term reward is our objective and not adversarial relationships.

*Our role in the community:* We will recognise the environmental, social and economic needs of the communities we work in and involve them in suitable initiatives that utilise our skills, time and financial support.

*Our operations:* We will develop our assets using sustainable, safe methods of work while striving to continuously improve them for the benefit of all stakeholders.

## **Directors' Report**

The Directors submit their report together with the audited Company and Consolidated Financial Statements of Nu-Oil and Gas plc, a publicly limited company, for the year ended 30 June 2018.

#### Principal activities

The principal activity of the Company and Group is the identification, development and operation of hydrocarbon opportunities with its focus being on the acquisition of stranded/marginal fields, the location of which could be in any jurisdiction. The Group's head office is in Manchester, United Kingdom and there is a regional office in Newfoundland, Canada.

Nu-Oil and Gas plc was incorporated in the United Kingdom and Enegi Oil Inc., which is the principal operating subsidiary of the Group, was incorporated in the Province of Newfoundland and Labrador in order to acquire a portfolio of oil and gas assets on the Port au Port peninsula in western Newfoundland.

#### Business review and future developments

A review of the Group's operations during the year, the results of those operations and the future prospects for the Group are contained in the Chairman's Statement and Operational Review and Financial Review on pages 4 to 8.

#### Directors

The Directors who served in office during the financial year and up to the date of signing the Financial Statements were as follows:

Alan Minty Nigel Burton Damian Minty Frank Jackson Tejvinder Minhas Mike Bowman

#### **Results and dividends**

The Consolidated Financial Statements for the year ended 30 June 2018 are as set out on pages 32 to 60. The Group's loss for the year was £1,878,000 (2017: £1,671,000). The Company is unable to recommend the payment of a dividend at this time (2017: £nil).

#### Capital structure and significant shareholders

Details of the issued share capital together with details of movements in share capital during the year are included in the Consolidated Statement of Changes in Equity on page 35 and in Note 13 to the Consolidated Financial Statements. Details of employee share schemes are set out in Note 16 to the Consolidated Financial Statements.

With respect to significant shareholders, as at the reporting date Charles Tuthill held 5.32% of the Company's share capital.

#### Annual General Meeting

The Company's next Annual General Meeting will be held before 25 January 2018. A notice of the Annual General Meeting will be issued at least 21 days in advance.

#### **Principal Risks and Uncertainties**

The Group is subject to various risks as a result of operating, industrial, financial, political, legal and social conditions at any given point in time which management consider in applying its strategy. The Directors consider the following risk factors, which are not exhaustive, particularly relevant to the Group's business activities:

#### DIRECTORS' REPORT (Continued) Principal Risks and Uncertainties (Continued)

*Exploration and development risk:* The exploration and development of hydrocarbons is speculative and involves a high degree of risk. These risks include the possibility that the Group will not discover sufficient oil or gas reserves to exploit commercially or that those reserves which it does discover cannot be recovered economically.

Ability to exploit discoveries: It may not always be possible for the Group to participate in the exploitation of discoveries. Exploitation may involve the need to obtain licences or clearances from government authorities in the relevant jurisdiction, which may require conditions to be satisfied and/or the exercise of discretion by those authorities. It may or may not be possible for such conditions to be satisfied.

Uncertainty of reserve estimates: There are numerous uncertainties inherent in estimating quantities of oil and natural gas reserves and the future cash flows attributable to such reserves. In general, estimates of economically recoverable oil and gas reserves and the future net cash flows therefrom are based upon a number of variable factors and assumptions including reservoir characteristics based upon geological, geophysical and engineering assessments, future oil and natural gas prices and quality differentials, production rates and the timing and amount of capital expenditures.

*Environment:* The Group is subject to extensive environmental and safety legislation, which may become more stringent. The Group may require further approvals before it can undertake activities which may affect the environment.

#### **Financial Risk Management**

The Group is subject to certain financial risks which management routinely consider. The Directors consider the following risk factors, which are not exhaustive, particularly relevant to the Group's business activities:

*Currency risk:* The Group is exposed to changes in the exchange rate between the British pound and Canadian dollar (CAD). Such movements could significantly impact the financial performance of the Group. The Group's principal operating subsidiary holds a significant proportion of its cash and cash equivalents in CAD and has a functional currency of CAD.

At each period end, assets and liabilities that are held in a currency other than the Group's reporting currency are translated into sterling. The resultant foreign currency gain or loss arising is reflected in the consolidated statement of comprehensive income (SOCI) in the period in which it arises. During the year, a further 10% gain in the value of CAD versus the pound would have led to an increase in the amount recognised in the SOCI of £20,000 (2017: increase of £35,000).

Going forward, the Group will mitigate the effects of its structural currency exposure by converting funds raised for investment and operations into the relevant currency of the investment or operations when the funds are raised. The Group's policy will also be to hedge most of its foreign exchange exposure at the point when a contractual obligation creates a forward exposure. The Group's policy is not to undertake any speculative currency positions.

*Commodity prices:* Any future revenues and cash flows will come primarily from the sale of oil and gas. If oil and gas prices should fall below and remain below the Group's cost of production for any sustained period, the Group may experience losses and may be forced to curtail or suspend some or all of its operations. In addition, the Group would also have to assess the economic impact of low oil or gas prices on the Group's ability to recover any losses which the Group may incur during this period and on the Group's ability to maintain adequate reserves.

Oil and gas prices are volatile and are influenced by factors beyond the Group's control such as supply and demand, political and social developments, exchange rates, interest rates and inflation.

#### DIRECTORS' REPORT (Continued) Financial Risk Management (Continued)

*Liquidity risk:* The Group has based its future projections on achieving commercial production from the implementation of the Marginal Field Initiative business model. The implementation of the Marginal Field Initiative business plan will require an injection of new capital into the business, but the value that additional capital is able to generate should significantly exceed the effect of any potential shareholder dilution.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company has access to funding and these are considered sufficient to meet the anticipated funding requirements. Rolling cash flow forecasts of the Company's liquidity requirements are monitored to ensure it has sufficient cash to meet operational needs over the next twelve months.

*Counterparty risk:* The Group shares working interests in its offshore prospects with third parties. To the extent that these third parties are unable to meet their obligations under the terms of the exploration licence, the Group may face additional costs for developing those assets. The Directors monitor the financial positions of these working interest partners and look to minimise the risk of additional costs through the use of farm-in and farm-out arrangements if appropriate.

*Financing risk:* As the Group does not yet produce significant revenues it needs to continue to raise finance to implement its business strategy. The Board regularly monitors the availability of finance to ensure that it has sufficient confidence it can fund the actions that the Group needs to take to implement its strategy.

#### **Key Performance Indicators**

The performance of the business and its people are measured across financial and operational functions. At this stage of the Company's development the Directors do not consider that standard industry indicators are relevant in assessing the Company's performance. The measures by which the Company assesses its performance will vary from year to year until it is in a position where standard industry indicators are relevant. The board and executives' performance is judged on the delivery of the desired outcomes and a summary of these targets is listed below:

- Financially de-risk the Company's cost exposure to the development of the Newfoundland asset and wider regional development;
- Diversify asset base with further asset or corporate acquisitions to build on the marginal field strategic focus;
- Explore opportunities to monetise assets following success.

Additionally, general corporate and operational objectives include HSE, cost control, staff diversity, sustainability and investor support.

#### Contracts of significance

The Group has a number of contracts that are fundamental to its ongoing economic success and these all relate to its rights to conduct operations on its assets.

In Canada, the Group holds production lease PL2002-01(A) which covers an onshore area in western Newfoundland and exploration licence EL1070 which covers an area just off the coast of western Newfoundland. Each gives the Group the right to explore and then produce oil and gas from geological structures within the area defined by the lease or licence. The lease and licence have certain conditions attached to them relating to the making of deposits, carrying out of exploration and development programs and minimum expenditure. If the Group fails to meet these commitments, it risks either rescission or expiry of the lease and licence. During the year, the Group met all its commitments under both the lease and licence.

#### DIRECTORS' REPORT (Continued) Contracts of Significance (Continued)

In 2013 the Company entered into a joint venture agreement with ABTechnology Ltd which provides the Company with its shareholding in Marginal Field Development Company (MFDevCo) Ltd. (formerly ABT Oil and Gas Ltd.) through which it implements its strategy of acquiring a portfolio of interests in marginal and stranded fields.

The Company has a loan agreement with Shard Capital Management which has a current outstanding amount of £1,643,000 (2017: £1,780,000). It is repayable on demand but the Company has the option to convert the loan to equity.

#### Independent auditors

A resolution to reappoint PricewaterhouseCoopers LLP as the Company's Auditors will be proposed at the forthcoming Annual General Meeting.

#### Share capital

The Company's share capital underwent a reorganisation during 2015. Following the reorganisation, the share capital of the Company represents ordinary shares and deferred shares. Ordinary shares carry one vote per share and carry equal right to dividend. Both classes of shares are classified in equity but deferred shares carry restrictions. No dividends have been paid to any shareholder. The company has not acquired any of its own shares during the year.

#### Insurance

The Company maintains general commercial insurance cover as is appropriate for a business of its size and complexity. Frequently, specific cover is required by local regulators and the Company complies with these requirements. Additionally, during the financial year and at the date of the financial statements the Company held directors' and officers' insurance cover which is a qualifying, third party indemnity insurance. The levels of insurance cover for all types of liability are reviewed on an annual basis.

#### Going concern

The Directors continue to adopt the going concern basis in preparing the Consolidated and Parent company Financial Statements as they have a reasonable expectation that the Group and Company has, or will be able to obtain, adequate resources to continue operating for the foreseeable future. In forming this judgement the Directors reviewed the Group's funding, budget and business plan for the twelve months from signing the financial statements. The Directors have relied upon the critical assumption that the Group will be able to achieve the key milestones of the business plan associated with its strategy to acquire and develop stranded and marginal fields which they believe will result in the availability of adequate additional funding.

The Directors have concluded that to the extent that these assumptions are not valid, there exists a material uncertainty that casts significant doubt upon the Group's and the Company's ability to continue as a going concern. Nevertheless after making enquiries, and considering the uncertainties to assumptions described, and based on the relevant facts and information available on the date the financial statements were approved by the board, the Directors consider these assumptions to be valid and as such they continue to adopt the going concern basis in preparing the financial statements.

#### Capital Risk Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

#### Directors' Interests

All Directors' interests in the shares of the Company are given on pages 24 to 25.

#### DIRECTORS' REPORT (Continued)

#### **Disclosure of information to auditors**

As far as each Director is aware, there is no relevant audit information of which the Company's Auditors are unaware. In addition, each Director has taken all the steps that he ought to have taken as a Director in order to make himself aware of any relevant audit information and to establish that the Company's Auditors are aware of that information.

Approved by the Board of Directors on 27 December 2018 and signed on its behalf

Ala M. Ruf

Alan Minty **Chairman** Nu-Oil and Gas plc Registered number 6370792

## Statement Of Directors' Responsibilities In Respect To The Financial Statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the group financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and company financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company and of the profit or loss of the group and company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable IFRSs as adopted by the European Union have been followed for the group financial statements and IFRSs as adopted by the European Union have been followed for the company financial statements, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are responsible for the maintenance and integrity of the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

#### Directors confirmations

The directors consider that the annual report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the group and company's position and performance, business model and strategy.

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the group and company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the group and company's auditors are aware of that information.

By order of the Board

David Lau Company Secretary 27 December 2018

## **Unaudited Directors' Remuneration Report**

This report has been approved by the Board. An ordinary resolution to approve this report will be put to shareholders at the next annual general meeting. It sets out the Company's policy on the remuneration of the Directors for the current and forthcoming financial years. Although AIM listed companies are not required to provide a remuneration report and, as such, the report below is unaudited, Nu-Oil and Gas plc is committed to high standards of corporate reporting and has included the following report.

#### Remuneration committee

At the year end of 30 June 2018, the remuneration committee comprised of two Directors: Frank Jackson (Chairman) and Prof. Mike Bowman.

The purpose of the remuneration committee is to ensure that the executive directors of the Company are fairly rewarded for their individual contribution to the overall performance of the Company and to demonstrate to shareholders that the remuneration of the executive directors of the Company is set by an individual who has no personal interest in the outcome of their decisions and who will have due regard to the interests of the shareholders.

#### **Remuneration policy**

The Company's policy on remuneration is to attract and retain the best people available as the Directors believe this is one of the best ways of ensuring the Company's future success. The remuneration packages offered to directors use a combination of performance related and non-performance related elements designed to incentivise directors and align their interests with those of shareholders.

#### Procedures for fixing remuneration and other benefits

The basic salaries and other benefits applicable to the executive directors are decided by the remuneration committee. The remuneration committee also sets the criteria for bonuses and any other performance based remuneration. The committee is then responsible for measuring the extent to which these criteria have been achieved and setting the level of bonus awarded.

#### Report on remuneration

The committee is authorised to obtain such external professional advice and expertise as it considers necessary, and consults with the chairman of the Company. It is also authorised by the Board to investigate any matter within its terms of reference and seek any information that it requires from any employee. During the year, the committee did not seek any external advice.

#### **Directors' interests in shares**

The number of ordinary shares of 0.1 pence each in the Company controlled by the Directors was as follows:

	30 June 2018	30 June 2017
Alan Minty <sup>(1)</sup>	12,608,911	12,608,911
Nigel Burton	4,000,000	4,000,000
Frank Jackson	2,000,000	2,000,000

(1) The number of shares stated is the total number held by Alan Minty and any companies that he controls

#### Equity incentives

The Company operates a Performance Share Plan which is an equity reward and incentive scheme which is designed to motivate executives and staff with a view to increasing shareholder value. The remuneration committee oversees the Performance Share Plan, approves the subscription price of awards under the Plan and the performance criteria to be satisfied before exercise is permitted, and monitors the effectiveness of the Performance Share Plan as an incentive to the executives and staff.

#### UNAUDITED DIRECTORS' REMUNERATION REPORT (Continued) Equity Incentives (continued)

Under the Performance Share Plan, the options outstanding to Directors and Senior Management, as approved by the Company's Remuneration Committee, is as follows:

Name	Already Vested	Average Vest Price (£)	To Vest	Average Vest Price (£)	Total Options
Alan Minty	20,000,000	0.006	-	-	20,000,000
Damian Minty	20,000,000	0.006	-	-	20,000,000
Tejvinder	20,000,000	0.006	-	-	20,000,000
Minhas					
Nigel Burton	8,000,000	0.006	-	-	8,000,000
Frank Jackson	8,000,000	0.006	-	-	8,000,000
Mike Bowman	4,000,000	0.006	-	-	4,000,000

No options were exercised in the year.

#### **Directors' contracts**

Directors are appointed subject to re-election at any annual general meeting at which, pursuant to the Company's articles of association, they are required to retire by rotation. Such re-election will take place at regular intervals of not more than every three years.

#### **Remuneration of non-executive directors**

The board sets the remuneration levels for non-executive directors. They do not receive any pension or other benefits. Their level of remuneration is based on outside advice and a review of current practice in other companies.

#### **Directors' emoluments**

The following emoluments were paid or are payable to directors for the year ended 30 June 2018:

	Salaries and fees year ended 30 June 2018	Salaries and fees year ended 30 June
	£'000	2017
		£'000
Alan Minty	160	190
Nigel Burton	48	48
Damian Minty	120	150
Tejvinder Minhas (Non-executive director)	30	120
Frank Jackson (Non-executive director)	30	30
Mike Bowman (Non-executive director)	-	-

#### Pensions

The Group currently has no pension arrangements in place although it may put such arrangements in place in the future.

the M. Mark

Alan Minty **Chairman** 27 December 2018

## Audit Committee Report

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Company's management has the primary responsibility for the financial statements, for maintaining effective internal control over financial reporting, and for assessing the effectiveness of internal control over financial reporting.

In fulfilling its oversight responsibilities, the Committee reviewed and discussed the audited financial statements and related schedules in the Annual Report with Company management, including a discussion of the quality, not just the acceptability, of the accounting principles; the reasonableness of significant judgments; and the clarity of disclosures in the financial statements.

The Committee is governed by the Terms of Reference summarised on the Company's website.

The Committee discussed with the Company's independent auditors the overall scope and plans for their audit. The Committee meets with the independent auditors to discuss the results of their examinations and their evaluation of the Company's internal control, including internal control over financial reporting and the overall quality of the Company's financial reporting.

The Audit Committee recognises the importance of maintaining the independence of the Company's Independent Auditors, both in fact and appearance. Each year, the Committee evaluates the qualifications, performance and independence of the Company's Independent Auditors and determines whether to re-engage the current Independent Auditors. In doing so, the Audit Committee considers the quality and efficiency of the services provided by the auditors, the auditors' capabilities and the auditors' technical expertise and knowledge of the Company's operations and industry. Based on this evaluation, the Audit Committee has retained PricewaterhouseCoopers LLP ('PwC') as the Company's Independent Auditor for 2018. PwC has been the Independent Auditors for the Company (or its predecessor) since 2008.

Although the Audit Committee has the sole authority to appoint the Independent Auditors, the Audit Committee will continue to recommend that the Board ask the shareholders, at the Annual Meeting, to ratify the appointment of the Independent Auditors.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the audited consolidated financial statements and related schedules in the Annual Report for the year ended 30 June 2018 be approved by Board.

The Committee is comprised solely of independent directors.

Audit Committee Chair	Frank Jackson
Audit Committee Member	Professor Mike Bowman

## Report on the audit of the financial statements

#### Opinion

In our opinion, Nu-Oil and Gas Plc's group financial statements and company financial statements (the "financial statements"):

- give a true and fair view of the state of the group's and of the company's affairs as at 30 June 2018 and of the group's loss and the group's and the company's cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the company's financial statements, as applied in accordance with the provisions of the Companies Act 2006; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the consolidated and company statements of financial position as at 30 June 2018; the consolidated income statement and statement of comprehensive income, the consolidated and company statements of cash flows, and the consolidated and company statements of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Material uncertainty relating to going concern

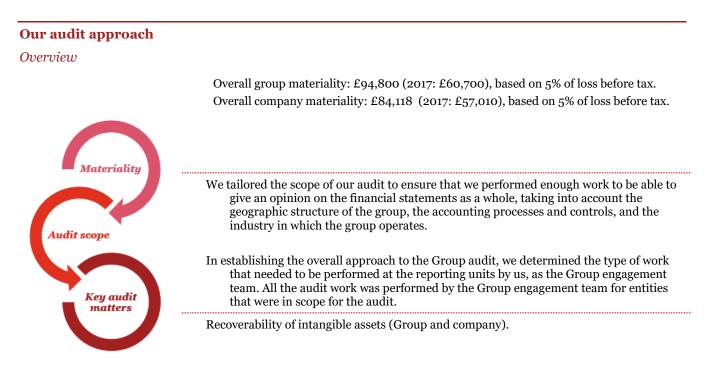

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosure made in note 1 to the financial statements concerning the group's and parent company's ability to continue as a going concern. Note 1 describes the critical assumptions relied upon by the directors relating to the achievement of the key milestones of the business plan associated with the marginal and stranded field strategy which will result in the availability of adequate additional funding. These conditions, along with the other matters explained in note 1 to the financial statements, indicate the existence of a material uncertainty which may cast significant doubt about the group's and parent company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the group and parent company were unable to continue as a going concern.

#### Explanation of the material uncertainty

Note 1 to the financial statements details the directors' disclosures of the material uncertainty relating to going concern. The future performance of the Group is dependent on meeting key milestones, which will enable the Group to raise additional funds.

#### What audit work we performed

We reviewed management's future plans for the business and cash flow forecasts for the 12 months to 31 December 2019. We challenged these forecasts, taking into account current levels of expenditure. We obtained information on the progress of projects in order to evaluate the critical assumptions in achieving the milestones. We consider the future raising of funds required to finance the Group to be a reasonable assumption on the basis that management have raised funds historically. Based on our work we agree with management's assessment that a material uncertainty exists on the group's and parent company's ability to continue as a going concern.

#### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain.

As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

#### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to going concern, described in the Material uncertainty relating to going concern section above, we determined the matter described below to be the key audit matter to be communicated in our report. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
Recoverability of intangible assets	
The group has material intangible assets in relation to capitalised exploration costs and capitalised development	We obtained management's assessment of the future plans for these assets and verified supporting information.
costs. The parent company has material capitalised development costs.	We recalculated the amortisation charge in relation to the exploration costs and confirmed that the charge is materially accurate.
Given that the parent company and group remain loss making and the associated intangibles are yet to generate income there is deemed to be a significant risk in relation to recoverability of these assets.	We assessed the development costs against the criteria set out in IAS 37. Given the technology involved will be at risk of obsolescence after a number of years we concur with management's decision to provide for an element of the costs to reflect this risk.
	Based on the work performed we agree with management's treatment of amortisation and impairment of intangibles.

#### How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group and the company, the accounting processes and controls, and the industry in which they operate.

#### Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

	Group financial statements	Company financial statements
Overall materiality	£94,800 (2017: £60,700).	£84,118 (2017: £57,010).
How we determined it	5% of loss before tax.	5% of loss before tax.
Rationale for benchmark applied	Consistent with last year, we applied this benchmark as we believe that loss before tax is the most relevant measure of measuring the group's performance.	Consistent with last year, we applied this benchmark as we believe that loss before tax is the most relevant measure of measuring the company's performance.

For each component in the scope of our group audit, we allocated a materiality that is less than our overall group materiality. The range of materiality allocated across components was between £75,840 and £84,118.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £4,740 (Group audit) (2017: £3,040) and £4,206 (Company audit) (2017: £2,850) as well as misstatements below those amounts that, in our view, warranted reporting for qualitative reasons.

#### **Reporting on other information**

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

#### Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 30 June 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in respect to the Financial Statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

#### Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## **Other required reporting**

#### **Companies Act 2006 exception reporting**

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the company financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Philip Storer (Senior Statutory Auditor)

for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors Manchester 27 December 2018

## Notes to The Financial Statements

#### CORPORATE INFORMATION

The consolidated and Company financial statements of Nu-Oil and Gas plc ("NUOG" or the "Company" and its subsidiaries, together the "Group") for the year ended 30 June 2018 were authorised for issue in accordance with a resolution of the Board of Directors on 27 December 2018.

Nu-Oil and Gas plc was incorporated in the United Kingdom on 13 September 2007 and has registered address of 5th Floor, Castlefield House, Liverpool Road, Manchester, M3 4SB. Enegi Oil Inc., which is the principal operating subsidiary of the Group, was incorporated in the Province of Newfoundland and Labrador in Canada on 5 May 2006 and has registered address of 36, Quidi Vidi Road, St.John's, NL A1A 1C1, Canada. The Group is domiciled in the UK for tax purposes and its shares are listed on the Alternative Investments Market ("AIM") of the London Stock Exchange.

The principal activity of the Company and Group is the identification, development and operation of hydrocarbon opportunities with its focus being on the acquisition of stranded/marginal fields the location of which could be in any jurisdiction.

#### 1. BASIS OF PREPARATION

The consolidated financial statements of the Group and the financial statements of the parent Company have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs as adopted by the EU), the Companies Act 2006 that applies to companies reporting under IFRS, and IFRS-IC interpretations. The consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 2.

#### a) New and amended standards adopted by the group

There are no new or amended standards adopted by the group in the year.

#### b) New standards, amendments and interpretations not yet adopted

The following new standards, which have been issued but are not yet effective, have not been early adopted by the Group or Parent Company:

- IFRS 9 'Financial instruments (effective for annual periods beginning on or after 1 January 2018);
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 January 2018);
- Amendment to IFRS 15, 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 January 2018);
- IFRS 16 'Leases' (effective for annual periods beginning on or after 1 January 2019).

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 1. BASIS OF PREPARATION (Continued)

These changes are not expected to have a material impact on the Group.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Group.

#### Going concern

The Directors continue to adopt the going concern basis in preparing the Consolidated and Parent company Financial Statements as they have a reasonable expectation that the Group and Company has sufficient resources for the short term and, will be able to obtain adequate funding to continue operating for the foreseeable future. In forming this judgement the Directors reviewed the Group's funding, budget and business plan for the twelve months from signing the financial statements. The Directors have relied upon the critical assumption that the Group will be able to achieve the key milestones of the business plan associated with its strategy to acquire and develop stranded and marginal fields which they believe will result in the availability of adequate additional funding.

The assumptions described above reflect the Company's circumstances at the date that the financial statements were approved by the Board and to the extent that any of the assumptions are shown to not be valid the Directors believe that there are a number of actions that they may take to ensure that the Company remains a going concern. To the extent that the above assumptions are not valid, there exists a material uncertainty that may cast significant doubt upon the Group's and the Company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the Group or Parent Company were not considered to be a going concern.

#### **Basis of consolidation**

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances, income and expenses on transactions between group companies are eliminated. Profits and losses resulting from inter-company transactions that are recognised in assets are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Associates are all entities over which the group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying value is increased or decreased to recognise the investor's share of the change in net assets of the investee after the date of acquisition.

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 1. BASIS OF PREPARATION (Continued)

The group's share of post-acquisition profit or loss is recognised in the income statement, and its share of postacquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. Distributions received from an associate reduce the carrying amount of the investment.

The Group has a 50% interest in the Marginal Field Development (MFDevCo) Ltd. The directors deem that the Group has significant influence but not control over this entity. In accordance with IAS 28 this investment is accounted for using the equity method of accounting. At the year end the investment balance is held at £nil after deduction of the Group's share of post-acquisition losses recognised.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies have been applied consistently throughout the year.

#### **Revenue recognition**

Production revenues are recognised upon transfer of title to the customer upon collection or delivery of oil. Revenue comprises the fair value of the consideration received or receivable for the sale of oil production net of sales taxes.

#### Segment Reporting

IFRS 8 Operating Segments requires that the segments should be reported on the same basis as the internal reporting information that is provided to the chief operating decision-maker. The group adopts this policy and the chief operating decision-maker has been identified as the Board of Directors of the Company.

#### Tangible and intangible oil and gas assets

Tangible oil and gas assets relate to assets for a specific prospect where proven reserves are known to exist. Such assets include the development expenditure in bringing a specific prospect into production.

Intangible oil and gas assets relate to assets for a specific prospect without proven reserves. Such assets include exploration costs at a specific site to locate proven reserves. At the point where proven reserves are discovered intangible assets are transferred to tangible assets.

Intangible assets also include expenditure on the development of engineering solutions adopted in the Marginal Field Initiative such that the key engineering principles of those solutions could be easily replicated for application to other projects.

#### Oil and gas properties

Properties comprise payments made to obtain or extend the working interest in a specific prospect. Property acquisition costs are capitalised within oil and gas properties and depreciated on a straight-line basis at the point production commences. Property assets are reviewed on an annual basis to confirm that drilling activity is planned and it is not impaired. If no future activity is planned, the remaining balance of the licence and property acquisition costs is written off. Upon determination of economically recoverable reserves ("proved reserves" or "commercial reserves"), the costs are depreciated over the useful economic life of the related prospect based on known production levels and estimated commercial reserves.

#### Intangible capitalised exploration costs

Geological and geophysical exploration costs are charged against income as incurred. Costs directly associated with an exploration well are capitalised as an intangible asset until the drilling of the well is complete and the results have been evaluated. If hydrocarbons are not found, but it is deemed possible that further expenditure on the drilled well will lead to a hydrocarbon discovery, the costs associated with the well continue to be capitalised as an intangible asset.

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Until the commencement of further expenditure on the drilled well the capitalised exploration costs will be deemed to have a useful economic life of 5 years and will be amortised accordingly. If the planned further activity on the well is deemed to have been terminated, then the full value of the associated intangible asset is written off but reinstated should the activity on the well recommence at a future date.

If hydrocarbons are not found, and are not expected to be discovered, the total exploration expenditure is written off. If hydrocarbons are found and are likely to be capable of commercial development, the costs continue to be carried as an asset. All such carried costs are subject to technical, commercial and management review at least once a year to confirm the continued intent to develop or otherwise extract value from the discovery. When this is no longer the case, the costs are written off.

When proved reserves of oil and natural gas are determined, development is sanctioned and production (rather than testing) commences, the relevant expenditure is transferred to development assets within tangible fixed assets. At that point, the Company will begin to depreciate the assets over the course of their useful life.

#### Tangible capitalised development costs

Expenditure on the drilling of development wells, including unsuccessful development or delineation wells, and the construction, installation or completion of infrastructure facilities such as storage tanks, is capitalised within tangible fixed assets as development costs.

Development assets are accumulated on a field by field basis and represent the cost of developing the commercial reserves discovered and bringing them into production. Changes in the estimates of commercial reserves or future field development are dealt with prospectively.

Tangible capitalised development costs are assessed for impairment annually.

#### Production assets

The net book values of production assets are depreciated on a field by field basis using the unit of production method by reference to the ratio of production in the period to the related commercial reserves of the field, taking into account any future development expenditures at current prices necessary to bring those reserves into production. The Group had no assets of this nature during the year.

#### Impairment of tangible and intangible oil and gas assets

The Company assesses assets or groups of assets for impairment annually. Individual assets are grouped for impairment assessment purposes at the lowest level at which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. If any such indication of impairment exists, the Company makes an estimate of the recoverable value of the asset. An asset group's recoverable amount is the higher of its fair value less costs to sell and its value in use. Where the carrying amount of an asset group exceeds its recoverable amount, the asset group is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are adjusted for the risks specific to the asset group and are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money.

The Company has no assets with an indefinite useful life.

#### Licences

Exploration licence costs capitalised within intangible assets are reviewed at each reporting date to confirm that there is no indication that the carrying amount exceeds the recoverable amount. This review includes confirming that exploration drilling is still under way or committed or that it has been determined, or work is under way to determine, that the discovery is economically viable based on a range of technical and commercial considerations and sufficient progress is being made on establishing development plans and timing. If no future activity is planned, the remaining balance of the licence costs is written off. Upon recognition of proved reserves and internal approval for development, the relevant expenditure is transferred to property, plant and equipment.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Intangible capitalised development costs

Expenditure incurred on the development of solutions, processes and systems that can be utilised within the marginal field initiative is capitalised within tangible fixed assets as development costs.

Intangible capitalised development costs are assessed for impairment annually.

#### Fixtures and fittings, equipment

Office furniture, fittings and equipment is stated at cost less accumulated depreciation and any impairment losses. The initial cost of an asset comprises its purchase price, any costs directly attributable to bringing the asset into operation, the initial estimate of any decommissioning obligation, if any, and, for qualifying assets, borrowing costs.

Office furniture, fittings and equipment is depreciated on a straight-line basis over its expected useful life. The useful life of the Company's office furniture, fittings and equipment is as follows:

Office equipment	3 to 15 years
Office furniture, fixtures and fittings	5 to 15 years

The expected useful lives and residual values of office furniture, fittings and equipment are reviewed on an annual basis and, if necessary, changes in useful lives are accounted for prospectively. The carrying value of office furniture, fittings and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. An item of office furniture, fittings and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated income statement in the period the item is derecognised.

#### Other long-term assets

Long term assets usually in the form of deposits or investments, are recognised initially at fair value and subsequently measured at amortised cost less any provisions for impairment. A provision for impairment is established when there is objective evidence that the Company will not benefit from cash flows of an amount at least equal to the carrying value of the asset.

#### **Financial instruments**

#### Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less any provisions for impairment. A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts due. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the consolidated income statement within administrative costs. Subsequent recoveries of amounts previously written off are credited against administrative costs in the income statement.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, and other short-term, highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

#### Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest of the assets of the Group after deducting all of its liabilities.

#### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Trade and other payables

Trade payables are non interest bearing and are stated initially at fair value and then amortised cost.

#### Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

#### Asset retirement provisions

The Company recognises the fair value of estimated asset retirement provisions related to well sites as a liability when new wells are drilled. The asset retirement cost is recorded as part of the cost of the related long-lived asset at an amount that is equal to the initial estimated fair value of the asset retirement provision. Fair value is estimated using the present value of the future estimated cash flows, adjusted for inflation, using the Company's credit adjusted risk-free interest rate.

Changes in the estimated provision resulting from revisions to estimated timing or amount of undiscounted cash flows are recognised as a change in the asset retirement provision and the related asset retirement cost. Actual retirement expenditures incurred are charged against the provisions in the period incurred. Over provisions and under provisions are set off against profit for the period in which the over or under provision is recognised.

#### **Employee Benefit Trust**

The assets and liabilities of the Employee Benefit Trust are brought onto the balance sheet of the Company. Shares held by the trust are consolidated as a deduction from equity.

#### Performance Share Plan costs

The fair value of awards granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date, using an appropriate pricing model taking into account the terms and conditions upon which the award was granted, and is spread over the period during which the awards vest. The amount recognised as an expense is adjusted to reflect the actual number of share awards that vest in the same period. At each balance sheet date, the Company revises its estimates of the number of options that are expected to vest. The Company recognises the impact of the revision to original estimates, if any, in the income statement, with a corresponding adjustment to equity.

#### Foreign currency translation

The Company's functional currency is Sterling. Enegi Oil Inc.'s (a subsidiary) functional currency is Canadian dollars. The Group's presentation currency is Sterling.

In preparing the financial statements of the individual companies, transactions in foreign currencies other than the functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair values that are denominated in foreign currencies are translated at the rates prevailing on the tare date at the rates prevailing at the date when the fair values were determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not re-translated.

Exchange rate differences arising on the settlement of monetary items and on the retranslation of monetary items are included in profit or loss for the period. Exchange rate differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

# 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

On consolidation, the assets and liabilities of the Group's foreign operations are translated at exchange rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the rate at the date of the transaction is used.

Exchange differences that arise on long term intra-Group loans are recognised in the income statement in the individual financial statements of each Group company.

#### Income taxes

#### Current income tax

Current income tax assets and liabilities for the current and prior period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the balance sheet date.

#### Deferred income tax

Deferred income tax is provided using the liability method on temporary differences at the consolidated balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable income will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying value of deferred income tax asset is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each consolidated balance sheet date and are recognised to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the income statement.

Deferred income tax assets and liabilities are offset, if a legally enforceable right exists to set off current assets against current income tax liabilities, and the deferred income taxes relate to the same taxable entity and the same taxation authority.

#### Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

#### **Accrued liabilities**

Trade payables and accrued liabilities are carried at payment or settlement amounts. Where agreements have been reached with suppliers to discount the amount payable, the discount is only recognised at the point at which it becomes unconditional.

#### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Share capital

Issued share capital is recorded in the balance sheet at nominal value with any premium at the date of issue being credited to the share premium account. The share premium account is used to write off directly related expenses of any share issue.

#### Share-based transactions

From time to time, the Company may pay for goods or services through the issue of new shares. The cost of such equity-settled transactions is recognised in the income statement, together with a corresponding increase in equity, in the period during which the goods or services are received.

The value of such share based payments is measured by reference to the fair value of the goods or services received or the market value of the shares issued, whichever value is more readily determinable.

#### Warrants

From time to time, the Company may issue warrants to suppliers as partial payment for goods or services or to investors or advisers in relation to the raising of new equity finance. When warrants are issued as partial payment for goods or services related to operations, the fair value of those warrants is recognised as a cost in the income statement. When warrants are issued in relation to the raising of new equity finance, the fair value of those warrants is set off against share premium. Warrants issued but not exercised are held in a warrant reserve within equity.

#### Investment in subsidiary undertakings

Investments in subsidiary undertakings are recorded at cost plus incidental expenses less any provision for impairment. Impairment reviews are performed by the Directors when there has been an indication of potential impairment.

#### Critical accounting judgments and estimates in applying the Group's accounting policies

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments and estimates that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates. In the process of applying the Group's accounting policies, management have made the following estimates that may have a significant effect on the amounts recognised in the financial statements:

Asset retirement obligation: Under the terms of the lease and licence, the Group is obliged to return the associated land to the state it was in when the lease and licence were first awarded. The Group has recognised a provision in its consolidated statement of financial position in relation to this future obligation. This provision is based on a series of assumptions and estimates which are set out in Note 9.

*Exploration costs:* Under the successful efforts method of accounting for exploration costs, such costs are capitalised as intangible assets by reference to the appropriate pool costs, and are assessed for impairment when circumstances suggest that the carrying amount may exceed its recoverable value. This assessment involves judgment as to (i) the likely future commerciality of the asset and when such commerciality should be determined, (ii) future revenues and costs pertaining to any wider cost pool with which the asset in question is associated, and (iii) the discount rate to be applied to such revenues and costs for the purpose of deriving recoverable value.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of tangible and intangible oil and gas assets: The Company assesses assets or groups of assets for impairment annually. Individual assets are grouped for impairment assessment purposes at the lowest level at which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. If any such indication of impairment exists, the Company makes an estimate of the recoverable value of the asset. An asset group's recoverable amount is the higher of its fair value less costs to sell and its value in use. Where the carrying amount of an asset group exceeds its recoverable amount, the asset group is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are adjusted for the risks specific to the asset group and are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money.

*Capitalisation of Intangible Development Costs:* The Company capitalises expenditure on the development of engineering solutions adopted in the Marginal Field Initiative such that the key engineering principles of those solutions could be easily replicated for application to other projects. To recognise the advancing nature of technology and solutions within the field of engineering the Company assesses for impairment annually.

*Impairment of Investments:* The Company assesses the carrying value of its investment in all entities in which its holds an equity interest on an annual basis. It considers impairing such investments if the underlying value of the investment is deemed to not support the carrying value of the investment.

#### Finance Costs

Finance costs include costs associated with the Company's management of cash, cash equivalents and debt. To the extent interest expense on borrowings are included within finance costs, the interest expense is calculated using the effective interest rate method.

#### 3. SEGMENTAL INFORMATION

IFRS 8 Operating Segments requires that the segments should be reported on the same basis as the internal reporting information that is provided to the chief operating decision-maker. The group adopts this policy and the chief operating decision-maker has been identified as the Board of Directors of the Company. The Directors consider there to be two operating and reportable segments, being that of the development of the marginal field initiative and the operations in western Newfoundland.

Internal reports reviewed regularly by the Board provide information to allow the chief operating decision-maker to allocate resources and make decisions about the operations.

Over the past year, given the state of the Group's operations, the chief operating decision maker relies primarily on an understanding of the cash requirements of the business to make decisions about how resources are to be allocated across the business. The oil and gas industry has experienced a significant downturn which has affected the operations of the Group. Nevertheless, the Company has been able to generate new investment into each operating segment. In western Newfoundland the new investment has taken the form of a production sharing agreement under which its operating costs are covered by a third party.

The marginal field initiative operating segment is contained within the parent company, Nu-Oil and Gas plc. The results of that operating segment are shown under the Consolidated Income Statement on page 32 and its net liabilities are shown on page 34 via the Company Statement of Financial Position.

The operations in western Newfoundland are conducted by Nu-Oil and Gas plc.'s wholly owned subsidiary Enegi Oil Inc. Management have reduced costs significantly over recent periods such that its reported loss for the period is £134,000 (2017: £180,000), excluding intercompany items. It should be noted that the loss for 2018 includes an amortisation cost of £118,000 from the adoption of the accounting policy with respect to Exploration Licence EL1070.

# NOTES TO THE FINANCIAL STATEMENTS (Continued) 3. SEGMENTAL INFORMATION (Continued)

Excluding intercompany balances, the net assets of Enegi Oil Inc. at 2018 are as follows:

	2018 £'000	2017 £'000
Non-current assets		
Tangible fixed assets	4	9
Intangible fixed assets	326	453
Other long-term assets	477	493
	807	955
Current assets		
Trade and other receivables	34	15
Cash and cash equivalents	-	-
	34	15
Total assets	841	970
Current liabilities		
Trade and other payables	(196)	(222)
Due to related parties	(183)	(189)
	(379)	(411)
Non-current liabilities		
Provisions	(470)	(489)
Total liabilities	(849)	(900)

#### 4. ADMINISTRATIVE EXPENSES

Administrative expenses included in the consolidated income statement are as follows:

	2018 £'000	2017 £'000
Depreciation, amortisation and impairment of assets (Note 8)	341	367
Consulting	-	137
Employee benefit expense (Note 17)	264	463
Directors fees (Note 17)	210	96
Site operations	-	12
Legal and professional	219	118
Accounting and finance fees	153	62
Write back of overstated liabilities	-	(46)
Business travel	41	33
Office running costs	42	14
Rent and Rates	6	22
Recharge of costs incurred on the development of MFDevCo	(235)	(211)
Provision for receivables due from MFDevCo	<b>`595</b>	<b>`39</b> 0
Other expenses	36	-
	1,672	1,457

4. ADMINISTRATIVE EXPENSES (Continued)

Any geological or geophysical costs which are not capitalised have been charged as professional fees.

#### Auditors' remuneration

During the year, the Group obtained various services from its auditors, the costs of which are set out below:

	2018 £'000	2017 £'000
Fees payable to company's auditors and its associates for the audit of parent company and consolidated financial statements	35	35
Fees payable to company's auditors and its associates for other services	-	10
Fees for tax compliance services	3	3
	38	48
5. FINANCE COSTS	2018	2017
	£'000	£'000
Interest expense	206	214
	206	214

On 25 November 2013, the Company obtained a loan of £1,000,000 from Shard Capital Management. Under the terms of the loan, which had a term of 12 months, the Company was due to pay an interest amount of £200,000.

In December 2014, the Company obtained a further loan of £200,000 from Shard Capital Management. Under the terms of the loan, the Company was due to pay a further £120,000 interest on the original loan of £1,000,000 from November 2013 and £20,000 on the additional loan of £200,000 for a total interest expense in the period of £140,000. Interest continues to accrue as shown above and Shard Capital Management holds security over PL2002-01(A) for the debt and the Company has the right to convert the debt to equity.

## 6. TAXATION

The Group has no current or deferred tax charge in the current or previous financial year. The Group has a net unrecognised deferred income tax asset. Differences were accounted for as follows:

	2018 £'000	2017 £'000
Loss before tax	(1,878)	(1,671)
Statutory income tax rate	19.00%	19.75%
Expected income tax recovery	(357)	(330)
Effect of overseas tax rates	(21)	(70)
Permanent difference	21	11
Transferred to losses	357	389
Total tax	-	-

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 6. TAXATION (Continued)

The deferred income tax asset not recognised at 30 June 2018 is comprised of the following:

	2018 £'000	2017 £'000
Non-capital loss carried forward	8,377	8,020
Canadian Pool Assets	1,746	1,805
	10,123	9,825

As at 30 June 2018, the Group had Canadian Development Expense pool carry forward of £3.2 million, Canadian Exploration Expense pool carry forward of £0.3 million and non-capital loss carry forward balances of approximately £19.54 million (£1.82 million will expire in 2026, £2.16 million will expire in 2027, £1.19 million will expire in 2028, £2.75 million will expire in 2029, £0.80 million will expire in 2030, £1.36 million will expire in 2031, £1.09 million will expire in 2032, £1.59 million will expire in 2033, £1.0 million will expire in 2034, £4.57 million will expire in 2036, £0.75 million will expire in 2037 and £0.21 million will expire in 2038) that are available to reduce future years' taxable income.

Deferred tax assets were not recognised as there is significant uncertainty regarding the timing of future profits against which these assets could be utilised.

#### 7. LOSS PER SHARE (EXPRESSED IN PENCE PER SHARE)

Loss per share amounts are calculated by dividing the loss for the year by the weighted average number of common shares in issue during the year.

	2018 £'000	2017 £'000
Loss attributable to shareholders of the Company	(1,878)	(1,671)
Weighted average number of shares in issue	1,257,654,599	708,074,539
Fully diluted weighted average number of shares in issue	1,257,654,599	708,074,539
Basic loss per share (expressed in pence per share)	(0.1p)	(0.2p)
Diluted loss per share (expressed in pence per share)	(0.1p)	(0.2p)

#### 8. TANGIBLE FIXED ASSETS AND INTANGIBLE ASSETS

#### Group

As at 30 June 2018, the cost of tangible fixed assets consisted of the following:

	Restated oil and gas properties £'000	Restated tangible capitalised development costs £'000	Fixtures and fittings, equipment £'000	Asset Retirement Obligation £'000	Restated Total £'000
Balance at 01 July 2016	3,842	14,080	423	799	19,144
Foreign exchange movement	111	418	6	11	546
Balance at 30 June 2017	3,953	14,498	429	810	19,690
Foreign exchange movement	(130)	(491)	-	-	(621)
Balance at 30 June 2018	3,823	14,007	429	810	19,069

Balances at 01 July 2016 have been restated to include the transfer between tangibles and intangibles performed in 2017. There is no impact to the balances at 30 June 2017 and 30 June 2018.

As at 30 June 2018, the accumulated depreciation and impairment of tangible fixed assets consisted of the following:

	Oil and gas properties £'000	Tangible capitalised development costs £'000	Fixtures and fittings, equipment £'000	Asset Retirement Obligation £'000	Total £'000
Balance at 01 July 2016	(3,842)	(14,080)	(5)	(789)	(18,716)
Charge for the year Foreign exchange movement	- (111)	- (418)	(188) (3)	(1) (11)	(189) (543)
Balance at 30 June 2017	(3,953)	(14,498)	(196)	(801)	(19,448)
Charge for the year Foreign exchange movement	- 130	- 491	(46)	(1)	(47) 621
Balance at 30 June 2018	(3,823)	(14,007)	(242)	(802)	(18,874)

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 8. TANGIBLE FIXED ASSETS AND INTANGIBLE ASSETS (Continued)

As at 30 June 2018, the net book value of tangible fixed assets was:

	Oil and gas properties £'000	Tangible capitalised development costs £'000	Fixtures and fittings, equipment £'000	Asset Retirement Obligation £'000	Total £'000
Net book value at 30 June 2018	-	-	187	8	195
Net book value at 30 June 2017	-	-	233	9	242

As at 30 June 2018, the cost of intangible oil and gas assets consisted of the following:

	Intangible capitalised development costs £'000	Restated capitalised exploration costs £'000	Licences £'000	Total £'000
Balance at 01 July 2016	899	1,943	472	3,314
Foreign Exchange Movement	-	43	14	57
Balance at 30 June 2017	899	1,986	486	3,371
Foreign Exchange Movement	-	(67)	(16)	(83)
Balance at 30 June 2018	899	1,919	470	3,288

Balances at 01 July 2016 have been restated to include the transfer between tangibles and intangibles performed in 2017. There is no impact to the balances at 30 June 2017 and 30 June 2018

As at 30 June 2018, the accumulated amortisation and impairment of intangible oil and gas assets consisted of the following:

	Intangible capitalised development costs £'000	Capitalised exploration costs £'000	Licences £'000	Total £'000
Balance at 01 July 2016	(51)	(1,503)	(472)	(2,026)
Impairment charge for the year	(178)	-	-	(178)
Foreign Exchange Movement		(30)	(14)	(44)
Balance at 30 June 2017	(229)	(1,533)	(486)	(2,248)
Impairment charge for the year	(179)	-	-	(179)
Amortisation charge for the year	-	(115)	-	(115)
Foreign Exchange Movement	-	51	16	67
Balance at 30 June 2018	(408)	(1,597)	(470)	(2,475)

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 8. TANGIBLE FIXED ASSETS AND INTANGIBLE ASSETS (Continued)

#### 8. TANGIBLE FIXED ASSETS AND INTANGIBLE ASSETS (Continued)

As at 30 June 2018, the net book value of intangible oil and gas assets was:

	Capitalised development costs £'000	Capitalised exploration costs £'000	Licences £'000	Total £'000
<b>Net book value at 30 June 2018</b>	<b>491</b>	<b>322</b>	-	<b>813</b>
Net book value at 30 June 2017	670	453		1,123

During the prior year, the Directors conducted a review of the carrying value of the Group's tangible and intangible fixed assets and after considering the implied valuation of discounted cash flow models that consider the future productivity of the PAP#1 well the Directors concluded that its producing Canadian assets should remain fully impaired. The Company applied its accounting policy to the intangible capitalised development costs and has retained value on Shoal Point on EL1070 pending the outcome of a regulatory assessment of fracking.

Tangible assets attributable to the company equalled £187,000 (2017: £233,000). Intangible assets for the company equalled £491,000 (2017: £670,000).

#### 9. PROVISIONS

Under the terms of the lease and licence, the Company is obliged to return the associated land to the state it was in when the lease and licence were first awarded. This involves closing in any wells and removing the well-head equipment, removing any buildings, engineering structures, materials and waste from the site and then replanting the land to restore it to its original condition. It is not expected that the liability contemplated by the provision would be payable before 2023 as PL2002-01(A) was extended until 11 August 2022 during the year.

The Company recognises this future obligation in its consolidated statement of financial position as a provision. The following table presents the reconciliation of the beginning and ending aggregate carrying amount of the obligations associated with the retirement of the Company's oil and gas assets:

	2018 £'000	2017 £'000
Balance at beginning of year	489	466
Effects of foreign currency translation	(15)	32
Effect of discount rate unwinding	(4)	(9)
Balance at end of year	470	489

The Group is confident that the provision taken at 30 June 2018 accurately reflects the current value of its future obligations.

At 30 June 2018, the estimated future cash flows required to settle this obligation totalled £470,000. Assuming an inflation rate of 2.0%, the undiscounted future cost of this obligation was £500,000. The liability for the expected cash flow requirement has been discounted using a pre-tax risk-free rate of 1.5%. This obligation will be settled based on the operating lives of the underlying assets, which currently are estimated to be from one to fifteen years with the majority of costs expected to occur between 2022 and 2023. Any settlement amounts will be funded from general corporate resources at the time of retirement and removal.

#### **10. OTHER LONG-TERM ASSETS AND INVESTMENTS**

As at 30 June 2018, the Group's other long-term assets consisted of the following:

2018 £'000	2017 £'000
Licence deposits 477	493
477	493

The licence deposits are held by the relevant regulatory body. They were paid over when the Company acquired its stakes in the lease and licence and will either be returned at the expiry of the lease and licence or set off against royalty payments if and when they become due.

The majority of the licence deposits relate to the Company's activities on production lease PL2002-01 in western Newfoundland. The production lease expired in August 2012 and as the lease contained a producing well, production lease PL2002-01(A) was issued which expires in August 2022 following the recent award of a 5-year extension to the expiry of PL2002-01(A).

As at 30 June 2018, the Company's investments consisted of the following:

2018	2017
£'000	£'000
Investment in Group Companies at 1 July 478	516
Impairment (152)	(38)
Investment in Group Companies at 30 June 326	478

During the year, the Directors conducted a review of the carrying value of the Company's other long-term assets, which consists of investments in Group companies and in MFDevCo as described in Note 21. The balance represents the carrying value of the investment in Enegi Oil Inc. Impairment in the period reflects the application of the Group's accounting policy with respect to the amortisation of Enegi Oil Inc.'s capitalised exploration costs.

The Group holds a 50% interest in MFDevCo in which it has invested as part of its marginal or stranded field strategy. Its investment has been accounted for using the equity method and as is deemed at this point to have zero value as the cumulative losses in MFDevCo exceed the investment that has been made by the Group. Losses at this stage of MFDevCo's development are as expected as MFDevCo seeks to establish itself.

The Group has no obligations to contribute to any excess losses or creditors that reside within MFDevCo.

#### 11. TRADE AND OTHER RECEIVABLES

As at 30 June 2018, trade and other receivables consisted of the following:

	2018 £'000	2017 £'000
Sales taxes receivable	178	162
Prepayments and other receivables	815	760
	993	922

At 30 June 2018, trade and other receivables were within trading terms and therefore considered to be fully recoverable and as a result there was no provision for impairment (2017: £nil).

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 11. TRADE AND OTHER RECEIVABLES (Continued)

The trade and other receivables showing in the Company's statement of financial position relate to sales taxes receivable of £168,000 (2017: £154,000) and prepayments and other receivables of £790,000 (2017: £753,000).

The majority of the Group's other receivables relate to services that it has provided to MFDevCo as part of its marginal field strategy. The Group expects these balances to be repaid or converted to equity in MFDevCo in the course of the next 12 months. Nevertheless, the Group has decided to continue to provide against receivables balances due from MFDevCo over 4 years to reflect the pre-revenue nature of the business, reversing such provision upon settlement or conversion.

### 12. DUE TO RELATED PARTIES

#### Group

The Group incurred the following charges during the year with companies related by way of directors or common shareholders:

	2018 £'000	2017 £'000
RMRI Group (U.K.)	208	259
	208	259

The transactions above include Directors' Fees of £150,000 for both fees attributable to the year and prior years in which directors deferred fees due to the financial state of the Group. Transactions occurred in the normal course of operations and, where applicable, are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

The balances owed to related parties outlined below are, unsecured, not guaranteed, and are to be settled under normal credit terms, as would have applied with unrelated parties, and have arisen from the transactions referred to above.

	2018 £'000	2017 £'000
RMRI Group (U.K.)	358	855
RMRI (Canada) Inc.	183	189
	541	1,044

In addition to the above, £556,000 (2017: £529,000) is recorded in the Company's accruals as Applications for Payment but not yet invoiced. Applications for Payment are utilised where there is uncertainty with respect to the timing of payment so as to not generate a VAT liability for the service provider until payment is made.

Alan Minty and Damian Minty are shareholders in the related parties listed above and RMRI holds a 50% interest in MFDevCo. Management believe that the related parties have been crucial to the operation of the Company during the year. They expect the related parties to continue to provide certain services to the Company in the future. Any transactions with related parties are approved by an independent director.

#### Company

In 2018 the Company was owed an additional £136,000 by its principal trading subsidiary, Enegi Oil Inc. As a result of the trading performance of Enegi Oil Inc. the Company has provided in full against this additional receivable in 2018 and as such the amount carried at 30 June 2018 was £nil.

#### NOTES TO THE FINANCIAL STATEMENTS (Continued) 12. DUE TO RELATED PARTIES (Continued)

Amounts owed by the Company to the companies listed above totalled £358,000 (2017: £855,000). During the year the Company incurred charges of £58,000, excluding Directors' fees from the RMRI group companies.

#### **13. ORDINARY SHARE CAPITAL AND SHARE PREMIUM ACCOUNT**

In October 2015, the Company undertook a reorganisation of its share capital. Under the Companies Act a company is unable to issue shares at a subscription price which is lower than the nominal value. Therefore, in order to raise additional funding a reorganisation of the company's share capital was performed.

The reorganisation subdivided existing shares into new ordinary shares with a nominal value of £0.001 and deferred shares with a nominal value of £0.009. The deferred shares, amongst other things, are not traded, do not receive dividends and do not have voting rights. The issue of new ordinary shares will not require the issuance of deferred shares to new subscribers. At the time of the reorganisation 189,792,348 shares were in circulation.

At 30 June 2018, the Company had the following shares in issue:

	Number of shares	Ordinary Share capital £'000
Issued ordinary shares of 0.1p each	1,364,027,131	1,364
Issued deferred shares of 0.9p each	189,792,348	1,708

The weighted average number of ordinary shares in issue during the year was 1,257,654,599 (2017: 708,074,539).

The movement in share capital and share premium in the current is as follows:

Group and Company	Number of Ordinary Shares (thousands)	Number of Deferred Shares (thousands)	Ordinary share capital £'000	Share premium account £'000	Total £'000
<b>At 1 July 2017</b> Share Placements and exercise of Warrants	<b>1,048,792</b> 315,235	189,792 -	<b>2,757</b> 315	<b>28,671</b> 2,391	<b>31,428</b> 2,706
Effect of Warrants At 30 June 2018	- 1,364,027	- 189,792	3,072	- 31,062	- 34,134

Included in shares issued and fully paid are 860,000 shares issued to the Employee Benefit Trust.

As at 30 June 2018, the warrants relating to the Company's ordinary share capital had been issued:

	Number of shares	Exercise price £	Expiry date
Warrants issued to Company's Nominated Advisor Warrants issued to Novum Securities	9,416,885 13,043,478	0.0063 0.0115	6/11/21 28/03/21
Warrants issued to Reaufort Securities Ltd.	10,000,000	0.0113	27/07/22

#### 14. TRADE AND OTHER PAYABLES

As at 30 June 2018, the Group's trade and other payables consisted of the following:

	2018 £'000	2017 £'000
Trade payables	481	367
Accruals	1,157	1,532
Taxation and social security	98	10
Loan repayable to Shard Capital	1,643	1,780
Other payables	2	92
	3,381	3,781

On 25 November 2013, the Company obtained a loan of £1,000,000 from Shard Capital Management. Under the terms of the loan, which had a term of 12 months, the Company was due to pay an interest amount of £200,000.

In December 2014, the Company obtained a further loan of £200,000 from Shard Capital Management. Under the terms of the loan, the Company was due to pay a further £120,000 interest on the original loan of £1,000,000 from November 2013 and £20,000 on the additional loan of £200,000 for a total interest expense in the period of £140,000. The loan and interest are repayable on demand. In the current year additional interest of £206,000 has been accrued on the loan balance.

The trade and other payables shown in the Company's statement of financial position relate to trade payables and accruals of £1,531,000 (2017: £1,768,000), other payables £11,000 (2017: £11,000) and Loan repayable to Shard Capital of £1,643,000 (2017: £1,780,000).

#### 15. CASH USED IN OPERATIONS

During the year ended 30 June 2017, the net change in the Group's working capital balances were made up as follows:

	2018 £'000	2017 £'000
Loss before income tax	(1,878)	(1,671)
Decrease in related party payable	(503)	(470)
Decrease in trade and other payables	(57)	(823)
Depreciation, amortisation and impairment	341	<b>36</b> 7
(Increase) / decrease in receivables	(71)	228
Other non-cash movements	12	(6)
Cash flows used in operating activities	(2,156)	(2,375)

During the year ended 30 June 2018, the net change in the Company's non-cash working capital balances was made up as follows:

	2018	2017
	£'000	£'000
Loss before income tax	(1,954)	(1,606)
Decrease in related party payable	(497)	(476)
Decrease in trade and other payables	(31)	(599)
(Increase) / decrease in receivables	(51)	42
Depreciation, amortisation and impairment	377	226
Other non-cash movements	-	38
Cash flows used in operating activities	(2,156)	(2,375)

#### 16. PERFORMANCE SHARE PLAN

The Company commenced the operation of a Performance Share Plan which is an equity incentive scheme at the time of the Company's initial public offering in March 2008. The remuneration committee oversees the Performance Share Plan, approves the subscription price of awards under the Plan and any criteria to be satisfied before exercise is permitted, and monitors the effectiveness of the Performance Share Plan as an incentive to the executives and staff.

Under the terms of the Plan, an employee benefit trust ('EBT') subscribed for ordinary shares in the Company. The trust is administered by Appleby Limited. The trustee can distribute shares at its discretion directly to beneficiaries on the recommendation of the Board. All administrative costs associated with the EBT are met by the Company. The Employee Benefit Trust owns shares to be distributed at the discretion of the trustees and the employee owns any value in the shares in excess of the subscription price.

On 20 March 2008, the Company placed 860,000 shares into the EBT. The market price of the shares was  $\pounds$ 1.81 each and the market value of the shares was  $\pounds$ 1,556,600. At 30 June 2018, the EBT jointly owned 860,000 shares in the Company with a nominal value of  $\pounds$ 8,600, representing 0.06% of the allotted share capital of the Company. None of the shares held were under option or conditionally gifted.

Under the Performance Share Plan, the options outstanding to Directors and Senior Management, as approved by the Company's Remuneration Committee, is as follows:

Name	Already Vested	Average Vest Price (£)	To Vest	Average Vest Price (£)	Total Options
Alan Minty	20,000,000	0.006	-	-	20,000,000
Damian Minty	20,000,000	0.006	-	-	20,000,000
Tejvinder Minhas	20,000,000	0.006	-	-	20,000,000
Nigel Burton	8,000,000	0.006			8,000,000
Frank Jackson	8,000,000	0.006	-	-	8,000,000
Mike Bowman	4,000,000	0.006			4,000,000

#### **17. EMPLOYEES AND DIRECTORS**

During the year, the Group incurred employee benefit costs as follows:

	2018 £'000	2017 £'000
Wages and salaries	218	412
Directors' fees	210	108
Social security costs	46	51
	474	571

During the year, the average monthly number of people employed (including executive directors) was as follows:

	2018 Number of employees	2017 Number of employees
Average monthly number of people employed	5	5

The Directors during the year were:

	Date of appointment	Date of resignation
Alan Minty	13 September 2007	-
Nigel Burton	20 October 2015	
Damian Minty	1 October 2011	-
Prof. Mike Bowman (Non-executive director)	31 March 2014	-
Frank Jackson (Non-executive director)	1 October 2011	-
Tejvinder Minhas (Non-executive director)	28 March 2013	-

Effective July 2017, Tejvinder Minhas, Executive Director, moved to a position of Non-Executive Director with the Company. The executive directors are considered to be the key management personnel of the Group. Their aggregate remuneration was as follows:

	2018 £'000	2017 £'000
Short-term employee benefits	168	400
Directors' fees	160	108
	328	508

The largest director emoluments for the year were £160,000 (2017: £190,000).

#### **18. COMMITMENTS AND CONTINGENCIES**

#### Capital commitments

Under the terms of the Group's interest in its petroleum lease, the Group commenced a seismic research programme prior to 12 August 2007 as required. The cost to complete the seismic research programme is  $\pounds$ 1,178,250. None of the costs that relate to the seismic programme have been incurred to date.

#### **19. FINANCIAL INSTRUMENTS**

The Company's principal financial instruments comprise cash, trade and other receivables, trade and other payables and accruals and amounts owed to related parties. The carrying values of the Company's financial instruments approximate their fair values due to the short-term maturity and normal trade credit terms of these instruments.

#### 20. FINANCIAL RISK MANAGEMENT

The Group is subject to certain financial risks. The Directors consider the following risk factors, which are not exhaustive, particularly relevant to the Group's business activities:

*Currency risk:* The Group is exposed to changes in the exchange rate between the British pound and Canadian dollar (CAD). Such movements could significantly impact the financial performance of the Group. The Group's principal operating subsidiary holds a significant proportion of its cash and cash equivalents in CAD and has a functional currency of CAD.

At each period end, assets and liabilities that are held in a currency other than the Group's reporting currency are translated into sterling. The resultant foreign currency gain or loss arising is reflected in the consolidated statement of comprehensive income (SOCI) in the period in which it arises. During the year, a further 10% gain in the value of CAD versus the pound would have led to an increase in the amount recognised in the SOCI of £20,000 (2017: increase of £35,000).

Going forward, the Group will mitigate the effects of its structural currency exposure by converting funds raised for investment and operations into the relevant currency of the investment or operations when the funds are raised. The Group's policy will also be to hedge most of its foreign exchange exposure at the point when a contractual obligation creates a forward exposure. The Group's policy is not to undertake any speculative currency positions.

*Commodity prices:* The Group's future revenues and cash flows will come primarily from the sale of oil and gas. If oil and gas prices should fall below and remain below the Group's cost of production for any sustained period, the Group may experience losses and may be forced to curtail or suspend some or all of its operations. In addition, the Group would also have to assess the economic impact of low oil or gas prices on the Group's ability to recover any losses which the Group may incur during this period and on the Group's ability to maintain adequate reserves.

Oil and gas prices are volatile and are influenced by factors beyond the Group's control such as supply and demand, political and social developments, exchange rates, interest rates and inflation.

*Liquidity risk:* The Group has based its future projections on achieving commercial production from the implementation of the Marginal Field Initiative business model. The implementation of the Marginal Field Initiative business plan will require an injection of new capital into the business, but the value that additional capital is able to generate should significantly exceed the effect of any potential shareholder dilution.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company has access to funding and these are considered sufficient to meet the anticipated funding requirements. Rolling cash flow forecasts of the Company's liquidity requirements are monitored to ensure it has sufficient cash to meet operational needs over the next twelve months.

*Counterparty risk:* The Group shares working interests in its offshore prospects with third parties. To the extent that these third parties are unable to meet their obligations under the terms of the exploration licence, the Group may face additional costs for developing those assets. The Directors monitor the financial positions of these working interest partners and look to minimise the risk of additional costs through the use of farm-in and farm-out arrangements if appropriate.

#### 21. SUBSIDIARY COMPANIES AND INVESTMENTS

#### **Principal Group investments**

The principal Group investments are disclosed below. For a full list of subsidiaries see annual return per Companies House. Other than the effect of foreign exchange, transactions between subsidiaries and between the parent Company and its subsidiaries are eliminated on consolidation.

Name	Nature of business	Country of incorporation	Type of share	Subsidiary / Investment	Group shareholding
Enegi Finance Limited	Intra-group finance provider	UK	Ordinary	Subsidiary	100%
Gestion Resources Limited	Working interest holder	UK	Ordinary	Subsidiary	100% via Enegi Oil Inc.
Enegi Oil Inc.	Principal operating subsidiary	Canada	Ordinary	Subsidiary	100%
Marginal Field Development Company (MFDevCo) Ltd.	Marginal field development solutions	UK	Ordinary	Investment	50%

All investments are held at cost less any provision for diminution in value.

The registered office of each company is as follows:

Name	Registered Address	Country of incorporation
Enegi Finance Limited	5th Floor, Castlefield House, Liverpool Road,Manchester. M3 4SB	UK
Gestion Resources Limited	5th Floor, Castlefield House, Liverpool Road,Manchester. M3 4SB	UK
Enegi Oil Inc. Marginal Field Development Company (MFDevCo) Ltd.	36, Quidi Vidi Road, St. Johns, Newfoundland 5th Floor, Castlefield House, Liverpool Road,Manchester. M3 4SB	Canada UK

# Appendix I - Glossary Of Terms

Term	Description
2D	Two-dimensional images created by bouncing sound waves off underground rock formations; used to determine best places to drill for hydrocarbons
API	A gravity scale established by the American Petroleum Institute and in general use in the petroleum industry, the unit being called "the A.P.I. degree.". API gravity, is a measure of how heavy or light a petroleum liquid is compared to water. If its API gravity is greater than 10, it is lighter and floats on water; if less than 10, it is heavier and sinks. Crude oil is classified as light, medium or heavy, according to its measured API gravity:
	- Light crude oil is defined as having an API gravity higher than 31.1 °API
	- Medium oil is defined as having an API gravity between 22.3°API and 31.1 °API
	- Heavy oil is defined as having an API gravity below 22.3 °API
Appraisal	Well drilled after the discovery of oil or gas to establish the limits of the reservoir, the productivity of wells in it and the properties of the oil or gas.
Barrel	(bbl: barrel; mmbbls: million barrels) a unit of measure for oil and petroleum products equal to 42 US gallons or 35 imperial gallons
BOE	Barrels of oil equivalent
BOPD	Barrels of oil per day
Exploration	The phase of operations which covers the search for oil or gas by carrying out detailed geological and geophysical surveys followed up where appropriate by exploratory drilling
Exploration Licence	Licence issued by the DNR allowing the holder to explore for hydrocarbons within a defined geographical area or geological feature
Farm-In	When a company acquires an interest in a block by taking over all or part of the financial commitment for drilling an exploration well
Farm-Out	A contractual agreement with an owner who holds a working interest in an oil and gas lease to assign all or part of that interest to another party in exchange for fulfilling contractually specified conditions
Horizontal Sidetrack	Technique for cutting a bore hole in geological strata in a horizontal, rather than normal vertical, direction

APPENDIX I - GLOSSARY (Continued)	OF TERMS
Interval	a vertical section of rock distinct from that above or below
Joint Operating Agreement	An agreement under which two or more companies agree to combine some of their operations as a means of sharing costs and reducing operating expenses
Line Cutting	The process of clearing land in advance of a seismic survey
ММВО	Millions of barrels of oil
Non-Operator	A member of a joint venture that is not the operator
Operator	One member of a joint venture is appointed operator and has the responsibility of carrying out operations on behalf of the joint venture
P10	Using probabilistic methods to analyse geological and engineering data it has been determined that there should be at least a 10 per cent., probability that the quantities actually recovered will equal or exceed the estimate
P50	Using probabilistic methods to analyse geological and engineering data it has been determined that there should be at least a 50 per cent., probability that the quantities actually recovered will equal or exceed the estimate
P90	Using probabilistic methods to analyse geological and engineering data it has been determined that there should be at least a 90 per cent., probability that the quantities actually recovered will equal or exceed the estimate
Play	The activities associated with petroleum development in an area
Port au Port Peninsula	The Port au Port Peninsula is a peninsula in the Canadian province of Newfoundland and Labrador. Roughly triangular in shape, it is located on the west coast of the island of Newfoundland
Production	1. The phase of the petroleum industry that deals with bringing the well fluids to the surface and separating them and storing, gauging, and otherwise preparing the product for delivery. 2. The amount of oil or gas produced in a given period
Production Lease	Licence issued by the DNR allowing the holder to explore for hydrocarbons within a defined geographical area or geological feature
Prospect	Potential accumulation that is sufficiently well defined to represent a viable drilling target
Re-Entry	The process of re-entering an existing well

# APPENDIX I - GLOSSARY OF TERMS (Continued)

Reservoir	A subsurface, porous, permeable rock formation in which oil and gas are found
Reservoir pressure	The average pressure within the reservoir at any given time
Seismic Acquisition	Acquisition of seismic data through a seismic survey
Seismic Survey	A survey through which data is acquired by reflecting sound from underground strata and is processed to yield a picture of the sub-surface geology of an area
Side Track	A remedial operation that results in creation of a new section of well bore
Spud	To commence drilling operations
Upstream	Upstream covers the exploration, production and transport prior to refining
Working Interest	A company's equity interest in a project before reduction for royalties or production share owed to others under the applicable fiscal terms
