

# Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FP Apollo Multi Asset Adventurous Fund, a sub-fund of FP Apollo Multi Asset Management Funds

Class F Accumulation (ISIN GB00B67BB375)

The Fund is managed by FundRock Partners Limited.

### Objective and investment policy

**Objective:**

The investment objective of the Fund is to maximise long term capital growth by pursuing an adventurous investment strategy.

**Policy:**

- The Fund will invest in a range of assets including collective investment schemes, closed-ended funds, transferable securities and/or money market instruments.
- The Fund may also seek investment diversification by obtaining exposure to alternative asset classes including hedge funds, private equity, commodities and indirectly in property. Foreign currency exposure may be hedged back to the base currency.
- The Fund may utilise derivatives for the purposes of efficient portfolio management.

**Other information:**

- You can buy and sell shares on most business days where the London Stock Exchange is open for a full range of services.

- The Fund’s base currency is Pounds Sterling.
- We carry out investors’ requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.
- Investment in the Fund should be regarded as long-term, which is upwards of three to five years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- As you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

### Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean ‘risk free’.
- The Class D Shares above appear as a “4” on the scale. This is because the Fund by its nature invests in a mixture of investments. The value of some of these investments may vary more widely than others.
- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

- Counterparty Risk—The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.
- Liquidity Risk—Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.
- Management Risk—Investment management techniques that have worked in normal market conditions could prove ineffective or detrimental at other times.

- Exchange Rate Risk—Fluctuations in exchange rates may cause the value of your investment to rise or fall.
- Investing in other collective investment schemes - The Fund may invest in other regulated collective investment schemes. As an investor of another collective investment scheme, the Fund will bear, along with the other investors, its portion of the expenses of the other collective investment scheme, including management, performance and/or other fees. These fees will be in addition to the management fees and other expenses which a Fund bears directly with its own operations.
- Non-UCITS Retail Schemes (NURS) - The Fund is classed as a NURS and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
- Hedging transactions - Hedging transactions may be entered into whether the Euro or US dollar (as appropriate) is declining or increasing in value relative to Sterling. Where such hedging is undertaken it may substantially protect investors in the relevant Class against a decrease in the value of Sterling relative to the US dollar or Euro but it may also preclude investors from benefiting from an increase in the value of Sterling against those currencies. While the Fund may attempt to hedge currency risks, there can be no guarantee that it will be successful in doing so.
- For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited – Apollo, PO Box 10263, Chelmsford CM99 2AS or, during normal business hours on 01268 44 8215.
