Website:	www.jupiteram.com/JUKG
Call number:	+442038171000
Regulator:	Financial Conduct Authority - regulator of the Manager
Document valid as at:	11/04/2019

What is this product?

Type:

The Company is a closed-ended investment company whose shares are listed on the premium segment of the Official List of the UK Listing Authority and traded on the main market of London Stock Exchange. The Company's ordinary shares are therefore available to the general public.

Shares of the Company are bought and sold via markets. Typically at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it.

Objectives:

To grow money invested in the company over the long-term through holding predominantly listed shares.

There are no specific individual stock, sector, geographical or market capitalisation limitations or weightings applicable to the construction of the company's investment portfolio. Nevertheless, the Company will invest principally in companies which are listed on a UK stock exchange and/or which undertake a significant proportion of their business in the United Kingdom. No single investment holding shall constitute more than 10% of the Company's total assets at the time of investment.

The Company has the power to use derivative instruments for investment purposes. Derivatives allow the Investment Adviser to track changes in the price of an item, for example a company share, without actually owning it. Derivatives may be used to gain exposure to a number of different asset classes, including company shares, financial indices, commodities and currency exchange rates. The Company may also use derivatives to reduce risk.

The Company has a flexible loan facility it can use for investment purposes (known as gearing) with a view to enhancing returns. The maximum level of gearing will be 20% of the Company's total assets at the time of initiating the loan.

The Company is not restricted to investing in constituent companies of the Benchmark (FTSE All-Share Index (Total Return)).

Intended retail investor:

This product has been designed for retail investors.

This product has been designed to form part of a broader portfolio of investments and should be purchased with advice or on an execution only basis by an investor. Investors must be able to bear loss of capital in order to seek to generate higher potential return and should be prepared to remain invested for at least the recommended holding period.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified the risk classes of the underlying investment strategies as 4 out of 7, which is a medium risk class.

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The share price of an investment company may differ from the Net Asset Value due to the level of supply and demand for units. A high level of supply may result in the price of the investment company trading below the

Net Asset Value. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

Investing in an investment trust company carries risks, which investors should be aware of. The following risks are applicable to investing in this company:

Market & Exchange Rate risk, Gearing risk, Derivative risk, Counterparty risk, Concentration risk and Share Price risk.

For further explanation of the risks, please visit www.jupiteram.com/Risk-Details.

Performance scenarios

Investment 10000 GBP				
Scenarios		1 year	3 years	5 years (recommended holding period)
Stress scenario	What might you get back after costs	2 844.97	5 331.41	4 349.06
	Average return each year (%)	-71.55	-18.91	-15.34
Unfavourable scenario	What might you get back after costs	8 034.21	6 590.88	5 643.84
	Average return each year (%)	-19.66	-12.97	-10.81
Moderate scenario	What might you get back after costs	9 724.75	9 153.5	8 615.8
	Average return each year (%)	-2.75	-2.91	-2.94
Favourable scenario	What might you get back after costs	11 680.2	12 614.4	13 051.26
	Average return each year (%)	16.8	8.05	5.47

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10 000 GBP.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on share price total returns from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

What happens if Jupiter UK Growth Investment Trust PLC is unable to pay out?

As a shareholder of the Company you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay out.

What are the costs?

Costs over Time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment 10000 GBP	1 year	3 years	5 years (recommended holding period)
Total costs GBP	147.48	422.81	673.44
Impact on return (RIY) per year (%)	1.47	1.47	1.47

Composition of Costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

This table shows the impact on return per year			
One-Off costs	Entry costs (%)	0%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.
	Exit costs (%)	0%	The Impact of the costs of exiting your investment
Ongoing costs	Portfolio transaction costs (%)	0.38%	The impact of the costs of us buying and selling underlying investments for the product

	Other ongoing costs (%)	1.11%	The impact of the costs that we take each year for managing your investments
Incidental costs	Performance Fee (%)	0.18%	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark.
	Carried interests (%)	0%	The impact of the carried interest. We take these from your investment if the product outperforms its benchmark.

How long should I hold it and can I take my money out early?

Recommended minimum holding period: 5 years

The Company's ordinary shares are designed to be held over the long term and may not be suitable as short-term investments. There is no guarantee that any appreciation in the value of the Company's investments will occur and investors may not get back the full value of their investments. The value of the ordinary shares and the income derived from them (if any) may go down as well as up. Although the ordinary shares are traded on the Main Market, it is possible that there may not be a liquid market in the shares and investors may have difficulty selling them. Accordingly, investors may be unable to realise their shares at the quoted market price (or at the prevailing net asset value per share), or at all.

How can I complain?

As a shareholder of the Company you do not have the right to complain to the Financial Ombudsman Service (FOS) about the management of the Company. Complaints about the company or the key information document should be sent to the address stated below, for the attention of the Company Secretary.

Postal address: The Zig Zag Building, 70 Victoria Street, London, UK, SW1E 6SQ
