BNY MELLON
INVESTMENT MANAGEMENT

INSIGHT EQUITY INCOME BOOSTER FUND

INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00B8SFP070)

A SUB-FUND OF BNY MELLON INVESTMENT FUNDS

THIS FUND IS MANAGED BY BNY MELLON FUND MANAGERS LIMITED

OBJECTIVES AND INVESTMENT POLICY

OBJECTIVE

To provide an enhanced level of income with potential for capital growth. The policy of the Fund is to invest primarily in UK listed equity and equity related securities.

POLICY

The Fund Will:

- invest primarily in the UK;
- invest in company shares and similar investments mainly of large companies which it believes offer more stable cash flows;
- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income;
- enter into call options either as a buyer or a seller. As a buyer this gives the right, but not the obligation, to buy shares in the

future at a fixed rate, therefore guaranteeing the purchase price. As a seller they agree to give the buyer of the option the underlying shares, at the agreed price, if the buyer exercises their option rights; and

- limit investment in other collective investment schemes to 10%.

Treatment of income: net income from investments will be retained within the Fund and reflected in the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each working day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 10,000,000.

RISK AND REWARD PROFILE

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 5 because its historical value has shown moderately high volatility. With a Fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Geographic Concentration Risk:** The Fund primarily invests in a single market which may have a significant impact on the value of the Fund.

– **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

– **Charges to Capital:** The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.

– **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

– **Capital Depreciation Risk:** The Fund undertakes investment activities that are designed to maximise the generation of income. This may result in a reduction of capital.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

CHARGES

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.
