KMEFIC FTSE Kuwait Equity UCITS ETF - Acc

Factsheet | Data as of 30 Apr 2019

Investment Objective

KMEFIC FTSE Kuwait Equity UCITS ETF (KUW8), is a UCITS compliant Exchange Traded Fund domiciled in Ireland. The Fund tracks an index of large, mid and small cap Kuwaiti securities trading on the Kuwait Stock Exchange that meet requirements for liquidity, free float and foreign ownership restrictions. The Fund seeks to provide exposure to a country with significant growth potential.

Why KUW8?

**Efficient:**

In a single trade, access a diverse basket of Kuwaiti securities across market capitalization bands and industry sectors

**Unique:**

The only UCITS ETF to provide targeted exposure to Kuwait

**Diversification:**

KUW8 avoids concentration in larger stocks by capping constituent weights at 15% during a semi-annual rebalance.

Key Risks

1. The value of equities and equity-related securities can be affected by daily stock and currency market movements.
2. Emerging and Frontier markets are subject to greater market volatility than developed markets.
3. Investors capital is fully at risk and investors may not get back the amount originally invested.
4. Exchange rate fluctuations could have a negative or positive effect on returns.

ETF Advantages

Diversified	Liquid
Transparent	Cost-efficient
Tradable

Index Information

The FTSE Kuwait All Cap 15% Capped Index is a market-capitalization weighted index designed to represent the performance of Kuwaiti large, mid and small cap stocks. Companies are capped at 15% on a quarterly basis to avoid over-concentration. The index is part of the FTSE Global Equity Index Series (GEIS), which covers 99% of the world's investable market capitalization.

IMPORTANT INFORMATION

This factsheet is approved for professional use only. The fund to which it relates is a UCITS fund and accordingly is available for purchase by all investor types, including retail and professional investors. The content in this document is issued by HANetf Limited ("HANetf"), an appointed representative of Mirabella Advisers LLP, which is authorised and regulated by the Financial Conduct Authority ("FCA"). For professional clients only. Past performance is not a reliable indicator of future performance. Any historical performance included on this document may be based on back testing. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of such strategy would have been. Back tested performance is purely hypothetical and is provided on this document solely for informational purposes. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. The value of any investment may be affected by exchange rate movements.

Any decision to invest should be based on the information contained in the appropriate prospectus and after seeking independent investment, tax and legal advice. These products may not be available in your market or suitable for you. The content of this document does not constitute investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment. An investment in an ETF is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETFs involve numerous risks including among others, general market risks relating to the relevant underlying index, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks.

The information contained on this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of shares in the United States or any province or territory thereof, where none of the Issuers or their products are authorised or registered for distribution and where no prospectus of any of the Issuers has been filed with any securities commission or regulatory authority. No document or information on this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the Issuers, nor any securities issued by them, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes. The products discussed on this document are issued by HANetf ICAV.

This document may contain forward looking statements including statements regarding our belief or current expectations with regards to the performance of certain assets classes and/or sectors. Forward looking statements are subject to certain risks, uncertainties and assumptions. There can be no assurance that such statements will be accurate and actual results could differ materially from those anticipated in such statements. Therefore, readers are cautioned not to place undue reliance on these forward-looking statements. HANetf ICAV is an open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds and with variable capital organised under the laws of Ireland and authorised by the Central Bank of Ireland ("CBI"). Investors should read the prospectus of HANetf ICAV ("HANetf Prospectus") before investing and should refer to the section of the HANetf Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the Shares.

This Factsheet does not constitute an offer to sell, or the solicitation of an offer to subscribe for or buy, the shares in Kuwait. The shares have not been licensed for offering, promotion, marketing, advertisement or sale in the State of Kuwait by the Capital Markets Authority or any other relevant Kuwaiti government agency. The offering, promotion, marketing, advertisement or sale of the shares in the State of Kuwait on the basis of a private placement or public offering is, therefore, prohibited in accordance with Law No. 7 of 2010 and the Executive Bylaws for Law No. 7 of 2010, as amended, which govern the issue, offer, marketing and sale of securities in the State of Kuwait ("Kuwait Securities Laws").

Hence, in accordance with the Kuwait Securities Laws, no private or public offering of the shares is or will be made in the State of Kuwait, no agreement relating to the sale of the shares will be concluded in the State of Kuwait and no marketing or solicitation or inducement activities are being used to offer or market the shares in the State of Kuwait.

RISK FACTORS

While the general risk factors set out in the section entitled Risk Factors in the Prospectus apply to the SubFund, the following risk factors described in the Prospectus under the headings Absence of prior active market, Capital Controls and Sanctions Risk, Concentration Risk, Emerging Market Risks, Currency Risk, Interest Rate Risk, Liquidity of Investments, Small- and Mid-Capitalisation Risk, Political and/or Legal/Regulatory Risk, Regulatory Restrictions, Index Rebalancing and Costs Risk and Issuer-specific Risk are particularly relevant for the Sub-Fund. In addition, the following to the above, the following risk is also relevant to this Sub-Fund: 9.1 Sectoral Investment Risk To the extent the SubFund invests a significant portion of its assets in the securities of companies of a sector, it is more likely to be impacted by events or conditions affecting that sector. The Sub-Fund may invest a relatively large percentage of its assets in sectors, including the consumer discretionary sector, the information technology sector and the financial sector, which sectors have tended to form a relatively large percentage of the Index. Further details of the specific risk relevant to these sectors are set out below.

Consumer Discretionary Sector Risk:

This sector consists of, for example, automobile, media and retail companies. The consumer discretionary sector of the economy can be significantly affected by, among other things, economic growth, worldwide demand and consumers' disposable income levels and propensity to spend.

Information Technology Sector Risk:

This sector can be significantly affected by, among other things, the supply and demand for specific products and services, the pace of technological development and government regulation. Challenges facing companies in the information technology sector include distressed cash flows due to the need to commit substantial capital to meet increasing competition, particularly in formulating new products and services using new technology, technological innovations that make existing products and services obsolete, and satisfying consumer demand.
