

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## THREADNEEDLE MANAGED EQUITY FOCUSED FUND

Class Z Accumulation Units (GBP) GB00BRTM3H38 regulated by the FCA.

This Fund is managed by Threadneedle Investment Services Limited (the "Management Company") (part of the Columbia and Threadneedle group of companies).

### Objectives and Investment Policy

The aim of the Fund is to grow the amount you invested and provide income.

The Fund will invest at least two-thirds of its assets in other funds managed and operated by companies in the Threadneedle group of companies. These funds may invest worldwide.

The Fund will invest with a focus on funds that invest in company shares, but will also invest in funds that invest in bonds (which are similar to a loan and pay a fixed or variable interest rate).

Up to 20% of the Fund may be invested in funds that use derivatives for investment purposes. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

The Fund may also invest in asset classes and instruments different from those stated above.

The Fund makes active investment decisions.

Income from investments in the Fund will be added to the value of your shares.

You can buy and sell units in the Fund on any day that is a business day in London. You can find more detail on the objectives and investment policy of the Fund in the section of the prospectus with the heading "Investment objectives, policies and other details of each Trust".

### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards

Higher Risk, Typically higher rewards

- The Fund is rated 4 because historically it has shown a medium level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- As this Fund invests into other funds you should consider the underlying investments and overall risks.
- The Fund invests in securities whose value would be significantly affected if the issuer refused, was unable to or was perceived to be unable to pay.
- Changes in interest rates are likely to affect the Fund's value. In general, as interest rates rise, the price of a fixed rate bond will fall, and vice versa.
- The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- As the Fund is dual priced, there is a price to buy units and a different price to sell them. The price at which you deal may change depending on whether the Fund is experiencing inflows or outflows of cash, and any change will mean an increase or decrease in the price at which you deal.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry Charge:	3.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the fund over a year

Ongoing Charges:	0.99%
------------------	-------

### Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure is based on expenses for the year ending 15/05/18. This figure may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

## Past Performance

Source: Morningstar

Past performance is not a guide to future performance.

Fund launch date: 26/08/1997

Share/unit class launch date: 16/12/2014

Performance is calculated in GBP.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

◇ Past performance before share class launch date includes data for another share / unit class or fund with similar characteristics.

△ Before this date the Fund had different characteristics.
