

JOHCM Global Select Fund

Fund overview

- Objective: to generate long-term total returns through active management of a concentrated portfolio of global equities
- Fund managers Christopher Lees and Nudgem Richyal have a growth at a reasonable price (GARP) philosophy and aim for consistency of returns by exploiting multiple market anomalies/inefficiencies
- They believe that they increase the probability of finding attractive stocks by looking where traditional growth investors do not look: stocks early in the growth life-cycle, off the beaten track, or in out of favour areas of the stock market that are recovering

Past performance is no guarantee of future performance.

The value of an investment and the income from it can fall as well as rise as a result of market and currency fluctuations and you may not get back the amount originally invested. Investing in companies in emerging markets involves higher risk than investing in established economies or securities markets. Emerging Markets may have less stable legal and political systems, which could affect the safe-keeping or value of assets. The Fund's investment include shares in small-cap companies and these tend to be traded less frequently and in lower volumes than larger companies making them potentially less liquid and more volatile. We recommend that you read the Prospectus and Key Investor Information Document available from the address overleaf or from our website. Information on how JOHCM handles personal data which it receives can be found in the JOHCM Privacy Statement on our website: www.johcm.com.

Source: JOHCM/MSCI Barra/Bloomberg, NAV of Share Class A in GBP, net income reinvested, net of fees. The A GBP Class was launched on 30 September 2008. Benchmark: MSCI AC World NR (12pm adjusted). Performance of other share classes may vary and is available on request.

*Annualised since launch. **Sector quartile ranking: IA Global, and Lipper Global Equity Global domiciled in the UK, offshore Ireland, or offshore Luxembourg.
