WisdomTree Emerging Markets Equity Income UCITS ETF

ISIN: IE00BQQ3Q067

a share class of WisdomTree Emerging Markets Equity Income UCITS ETF (the “Fund”)

which is a sub-fund of WisdomTree Issuer ICAV. Managed by WisdomTree Management Limited.

Objectives and Investment Policy

- The Fund seeks to track the price and yield performance, before fees and expenses of the WisdomTree Emerging Markets High Dividend Index (the “Index”).
- The Index is rule-based and a fundamentally weighted and is comprised of the highest dividend yielding common stocks selected from the WisdomTree Emerging Markets Dividend Index (the “Parent Index”), based on a composite risk score screening (“Composite Risk Score”) which is made up of three factors (value, quality and momentum) each carrying an equal weighting
- Companies within the Parent Index are ranked by dividend yield and Composite Risk Score, respectively.
- Securities ranking in the highest 30% by dividend yield and which do not fall in the bottom 20% of the Composite Risk Score are selected for inclusion within the Index.
- The weight of each component company in the Index is calculated based on the aggregate cash dividends it is projected to pay in the coming year (the “Dividend Stream”) and its Composite Risk Score. The component companies with the top/middle/bottom 1/3 Composite Risk Scores will have their Dividend Stream adjusted by 1.5x, 1.0x and 0.5x respectively (the “Adjusted Dividend Stream”). Component companies are then weighted annually in the Index to reflect their proportionate share of the Adjusted Dividend Stream. Companies projected to pay more dividends and have higher Composite Risk Scores are more heavily weighted.
- To be included in the Index, securities must meet minimum market capitalisation and liquidity requirements, have paid dividends over the prior annual cycle and be listed on a stock exchange in one of the following countries Brazil, Chile, China, Czech Republic, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey.
- The Index is “reconstituted” annually on the basis of the above eligibility and weighting methodology.
- In order to achieve its objective, the Fund will employ a “passive management” (or indexing) investment approach and will invest in a portfolio of equity securities that so far as possible and practicable consists of a representative sample of the component securities of the Index.
- As it may be difficult, expensive or otherwise inefficient to purchase all the securities in the Index, the Fund may also hold shares or other securities which produce a similar investment return to securities in the Index or may invest in collective investment schemes.
- The Fund may enter into repurchase/reverse repurchase agreements and stock lending arrangements solely for the purposes of efficient portfolio management, subject to the conditions and within the limits set out in the prospectus for WisdomTree Issuer ICAV (the “Prospectus”).
- Shares of the Fund (“Shares”) are listed on one or more stock exchanges. Typically, only Authorised Participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.
- Distribution policy: Income received by the Fund’s investments will normally be distributed Semi-annually in respect of the Shares of this class.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Currency: The base currency of the Fund is US Dollar. The currency of denomination of this share class is US Dollar.
- For full investment objectives and policy details, please refer to the supplement to the Prospectus for the Fund (the “Supplement”).

Risk and Reward Profile

- The categorisation above is not guaranteed to remain unchanged and may shift over time.
- The lowest category (1) does not imply a risk-free investment.
- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The categorisation above (6) is due to the nature of the Fund’s investments and risk associated with those investments, including:
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
 - Investment risk may be concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
- Risks not covered by the indicator, but which are materially relevant to the Fund include:
 - Emerging market risk: This Fund may invest in emerging market countries and/or their securities markets. This can be more risky than investing in markets of more developed countries.
 - Currency Risk: The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.
 - Tracking error risk: The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.
 - There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.
 - It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.
 - Counterparty risk: The Fund is subject to the risk that third parties with which the Fund may transact may go bankrupt or fail to pay money due to the Fund or return property belonging to the Fund.
- For a complete overview of all risks attached to this Fund, refer to the

section entitled "Risk Factors" in the Supplement and the Prospectus
