

L&G Gold Mining UCITS ETF

ETF (UCITS compliant) USD Accumulating ETF Class

FUND AIM

The L&G Gold Mining UCITS ETF (the "ETF") aims to track the performance of the DAXglobal® Gold Miners Index (the "Index"). More information on the Index can be found on page 2 of this document.

RISK AND REWARD PROFILE

This ETF is rated 7 due to the nature of its investments and its risks.

The rating is calculated based on historical data and may not be a reliable indication of the ETF's future risk profile.

The risk category may shift over time.

The lowest category on the above scale does not mean "risk free."

WHO IS THIS FUND FOR?

- This ETF is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio
- Although investors can take their money out at any time, this ETF may not be appropriate for those who plan to withdraw their money within five years
- If you do not understand the information in this document, the key investor information document or the prospectus, we recommend that you seek additional information or advice to help you decide if this ETF is suitable for you.

INDEX DESCRIPTION

The Index aims to track the performance of a basket of stocks of gold mining companies that generate at least 50% of their revenues from gold mining industry.

The Index is comprised of companies which are publically traded on various stock exchanges around the world that generate at least 50% of their revenues from the gold mining industry which is deemed to include exploration drilling, geological assessment, financing, development, extraction, initial refinement and delivery of gold ore.

A company is only eligible for inclusion in the Index if it is of a sufficient size (determined by reference to the total market value of its shares) and it is sufficiently "liquid" (a measure of how actively its shares are traded on a daily basis). Within the Index, each company is weighted according to its relative "liquidity" (i.e. how actively its shares are traded relative to the other companies in the Index).

INVESTMENT MANAGER

GO ETF Solutions LLP is the investment manager for each of the exchange traded funds (ETFs) issued by Legal & General UCITS ETF Plc and is responsible for the day-to-day investment management decisions for this ETF. The team is highly experienced with respect to all aspects relating to the management of an ETF portfolio, including collateral management, OTC swap trading, adherence to UCITS regulations and counterparty exposure and monitoring.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up. You may not get back the amount you originally invested.
- An investment in the ETF involves a significant degree of risk. Any decision to invest should be based on the information contained in the relevant prospectus. Prospective investors should obtain their own independent accounting, tax and legal advice and should consult their own professional advisers to ascertain the suitability of the ETF as an investment.
- An investment in the ETF may expose investors to specific risks associated with the gold mining industry, including government policies and regulation, economic forces and the price of gold bullion. The price of gold bullion may fluctuate substantially over short periods of time and so the price of shares in the ETF may be more volatile than the price of gold itself or other types of investments.
- If a swap counterparty is no longer willing or able to continue entering into swaps with the ETF, the ETF will not be able to continue tracking the Index.
- If a swap counterparty increases the cost of entering into swaps with the ETF, the ETF's performance will be negatively impacted.
- Third party service providers (such as swap counterparties or the ETF's depositary) may go bankrupt and fail to pay money due to the ETF or return property belonging to the ETF.
- If the Index provider stops calculating the Index or if the ETF's license to track the Index is terminated, the ETF may have to be closed.
- It may not always be possible to buy and sell ETF shares on a stock exchange or at prices closely reflecting the NAV.
- There is no capital guarantee or protection on the value of the ETF. Investors can lose all the capital invested in the ETF.
- Please refer to the "Risk Factors" section of the Issuer's Prospectus and the Fund Supplement.
