The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## FRAMLINGTON EQUITIES

# AXA Global Distribution Fund

A Sub-Fund of AXA Distribution Investment ICVC

Share class : AXA Global Distribution Fund Z Accumulation GBP (ISIN : GB0008309063)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

## Objective and Investment Policy

### Investment Objective

The aim of this Fund is to provide income with some prospect for long-term capital growth.

### Investment Policy

The Fund invests in a mix of shares in listed companies worldwide and bonds issued by governments of major developed countries worldwide (which are linked to the rate of inflation in those countries) and cash. The Fund's typical asset mix would range between 50-60% investment in shares and 40-50% in Government bonds and cash.

In constructing the Fund's portfolio, the fund manager references a composite benchmark made up of the following indices in the stated proportions: 55% MSCI AC World Total Return Net; 45% ICE BofAML Global Govt Inflation Linked (the "Benchmark"). The fund manager has full discretion to select index-linked bond investments for the Fund in line with the above investment policy, and in doing so may take into account the Benchmark. When investing in shares the fund manager uses a proprietary stock selection model to identify companies that it believes to be attractive, relative to their industry peers, based on the model's analysis of their financial data. This means that, while the fund manager has discretion to select the shares for the Fund,

the Fund's divergence from the Benchmark is controlled when investing in shares. The Benchmark is designed to measure the performance of medium to large-cap stocks from 23 developed and 24 emerging markets and index-linked bonds issued by governments of major developed countries. This Benchmark best represents the types of bonds and companies in which the Fund predominantly invests. Where shares or bonds are denominated in a currency other than UK Pound Sterling, the Fund reduces the impact of changes in its value as a result of movements in exchange rates between the currency and Sterling through the use of foreign exchange hedging techniques (which involves the use of derivatives (financial instruments which derive their value from the value of other assets)). This Fund is actively managed in reference to the Benchmark, which may be used by investors to compare the Fund's performance.

### Income

Income from investments in the Fund will be rolled up into the value of your shares if you hold accumulation shares.

### Fund Currency

The reference currency of the Fund is Sterling.

### Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within five years.

### Processing of subscription and redemption orders

Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time.

The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £100,000

Minimum subsequent investment: £5,000

## Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

### Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

### Additional Risks

Risk linked to Method and Model: attention is drawn to the fact that the Fund's strategy is based on the utilisation of a proprietary share selection model. The effectiveness of the model is not guaranteed and the utilisation of the model may not result in the investment objective being met.

Inflation Linked Bond Risk: unlike other bonds, an inflation protected security (such as index linked gilts) reduces the negative effect of inflation on its real value. The market value of such securities will be affected both by the market's perception of future movements in interest rates and the future rate of inflation. Therefore the market value of such securities (and the value of the Fund) may not move in line with inflation rates in the short to medium term.

Currency Risk: the Fund holds investments denominated in currencies other than the base currency of the Fund. As a result, exchange rate movements may cause the value of investments (and any income received from them) to fall or rise affecting the Fund's value.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

## FRAMLINGTON EQUITIES

### AXA Global Distribution Fund

## Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested.	

### Charges taken from the fund over a year

Ongoing Charges	0.80%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending December 2018. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://retail.axa-im.co.uk/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at [www.axa-im.com](http://www.axa-im.com).

## Past Performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Fund was launched on 01/09/1999 and the share class in 1999.

Past performance has been calculated in Sterling and is expressed as a percentage change of the Fund's Net Asset Value at each year end.

The comparator benchmark for the Fund is a composite benchmark made up of 55% MSCI AC World Total Return Net; 45% ICE BofAML Global Govt Inflation Linked.

## Practical Information

### Depository:

HSBC Bank Plc  
Registered Office  
8 Canada Square  
London, E14 5HQ

### Further information:

More detailed information on this Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge from the Fund's Management Company, the Administrator, the Fund's distributors or online at [www.axa-im.com](http://www.axa-im.com). These documents are available in English.

The assets and liabilities of the Fund are segregated by UK law and are therefore protected from any losses suffered by other Sub-Funds in the AXA Distribution Investment ICVC.

More share classes are available for this Fund. For more details about other share classes, please refer to the prospectus, which is available at [www.axa-im.com](http://www.axa-im.com).

Details of the up to date remuneration policy of the Management Company are published online at <https://www.axa-im.com/en/remuneration>. This includes the description of how remuneration and benefits are awarded for employees, and information on the remuneration committee. The Management Company provides a paper copy free of charge upon request.

### Net Asset Value Publication:

The Net Asset Value per share is available at [www.axa-im.com](http://www.axa-im.com), and at the registered office of the Fund's Management Company.

### Tax Legislation:

The Fund is subject to the tax laws and regulations of the United Kingdom. Depending on your own country of residence this might have an impact on your investments. For further details, you should consult a tax adviser.

### Liability Statement:

AXA Investment Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

### Switching between Funds:

Shareholders may apply for their shares to be converted into shares of another Fund, provided that the conditions for accessing the target share class are fulfilled. Investment would be at the Net Asset Value of the target fund, calculated at the applicable Valuation Point following receipt of the conversion request.

The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus.

For more details about how to switch Fund, please refer to the section in the Fund's prospectus entitled "Can I switch shares and what are the implications?", which is available at [www.axa-im.com](http://www.axa-im.com).
