SPDR ICE BofAML Emerging Markets Corporate Bond UCITS ETF (the "Fund")

A sub-fund of SSGA SPDR ETFs Europe I plc (a UCITS compliant Exchange Traded Fund).

Share Class: SPDR ICE BofAML Emerging Markets Corporate Bond UCITS ETF (Dist) (ISIN IE00B7LFXY77)

Objectives and Investment Policy

Investment Objective

The objective of the Fund is to track the performance of US dollar-denominated emerging markets corporate debt publicly issued in the US domestic and Eurobond markets.

Investment Policy

The Fund seeks to track the performance of the ICE BofAML Emerging Markets Diversified Corporate ex-144A Index (the "Index") as closely as possible.

The Fund invests primarily in securities included in the Index. These include emerging market bonds publicly issued in the US domestic and Eurobond markets. Securities must be fixed rate, U.S. dollar-denominated, senior or secured debt with a maturity of at least one year remaining until maturity. Securities must have an amount outstanding of at least US\$500 million and be rated CCC- or above as defined by the Index methodology. As it may be difficult to purchase all securities in the Index efficiently, in seeking to track the performance of the Index the Fund will use a stratified sampling strategy to build a representative portfolio. Consequently, the Fund will typically hold only a subset of the securities included in the Index.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. However, shares of the

Fund may be purchased or sold through brokers on one or more stock exchanges. The Fund trades on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund.

The Fund does not currently engage in securities lending.

Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.spdrs.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be paid to shareholders in respect of the shares.

The Fund's shares are issued in U.S. Dollars.

Please refer to the Prospectus for more information.

Risk and Reward Profile

Risk Disclaimer

The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.

For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.

The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.

As the Fund's risk category has been calculated using historical data, it may not be a reliable indication of the Fund's future risk profile.

The Fund's risk category shown is not guaranteed and may change in the future.

Why is this Fund in this category?

The Fund is in risk category 3 as its return has experienced medium rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.

Concentration Risk: When the Fund focuses its investments in a particular way, the issues affecting the investments will have a greater effect than if the Fund was more diversified. This concentration may also limit the Fund's liquidity.

Credit Risk: The value of debt securities that the Fund purchases may be impacted by the ability of the issuer of those securities to pay the amounts of interest and principal owed as they become due. If there is a negative

perception of the issuer's ability to meet its payment obligations, the value of the debt security may decrease.

Duration / Interest Rate Risk: Changes in interest rates are likely to affect the value of debt instruments in which this Fund invests. A change in interest rates could have a substantial and immediate negative effect on the values of the Fund's investments.

Emerging Market Risk: The Fund invests in securities issued by companies and/or governments and government agencies in emerging markets. Political, market, social, regulatory and/or economic instabilities in emerging market countries may reduce the value of the Fund's investments.

Index Tracking Risk: The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.

Liquidity Risk & ETF Liquidity Risk: Lack of a ready market or resale restrictions may limit the Fund's ability to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount and may affect the ability to meet redemptions on a timely basis. Where the Fund invests in illiquid securities or does not trade in large volumes, the bid offer spreads may widen, the Fund may be exposed to increased valuation risk and reduced ability to trade. Shares in the Fund may also trade at prices materially different to the last available NAV.

Lower Rated Securities Risk: Lower-quality debt securities can involve a substantially greater risk of default, illiquidity and volatility than higher quality debt securities. Their value may decline significantly over short periods and they tend to be more sensitive to adverse news about the issuer, the market or the economy in general.

Russia Risk: This Fund invests in Russian securities. There are significant risks inherent in such investments in connection with Russian securities.

Please refer to the Prospectus for full details about the risks associated with this Fund.
