

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

# **Xtrackers**

# Xtrackers II EUR Corporate Bond ex Financials UCITS ETF Share Class: 1C (ISIN: LU0484968655), (WKN: DBX0E6), (Currency: EUR) a sub fund of Xtrackers II. The Fund is managed by Deutsche Asset Management S.A., part of the DWS Group.

Objectives & Investment Policy

The aim is for your investment to reflect the performance of the Bloomberg Barclays Euro Corporate ex Financial Bond Index (Index).

The Index aims to reflect the performance of certain types of tradable debt (bonds) issued by companies which are denominated in Euro, excluding those bonds issued by financial institutions.

The composition of bonds on the Index is rebalanced monthly. On each rebalancing date, specific rules are applied to determine which bonds are eligible for inclusion which include a bond minimum time to maturity and amount outstanding and minimum 'investment grade' bond ratings from major ratings agencies. The Index is sponsored by Bloomberg Barclays Indices. To achieve the aim, the Fund will attempt to replicate the Index by buying a portfolio of securities that may comprise the constituents of the Index or other unrelated investments as determined by the investment manager and the sub-portfolio manager, which are DWS Group entities.

The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). The Fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund.

No dividends will be paid on your shares.

You may redeem your investment on demand on a daily basis.

#### **Risk and Reward Profile**

Lower	Risk	Higher R	lisk 🕨 🕨			
Potentially I	ower reward	ł		Р	otentially hig	gher reward
1	2	3	4	5	6	7

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 3 because of the low range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund will attempt to replicate the performance of the Index less costs, but your investment is not expected to match the performance of the Index precisely. Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's performance to be substantially different from the performance of the Index.

DWS entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

Fluctuations in interest rates of the currency of the shares, the Index or the other assets of the Fund may affect the value of your investment.

The Index provides a notional exposure to the value and/or return of certain bonds which may fall. Markets in these asset classes may at times become volatile or illiquid. This means that ordinary trading activity may occasionally be disrupted or impossible. The Index may be affected.

The Fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets.

The Fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

The Funds may invest in bonds which are exposed to credit risk and interest rate risk. Credit risk means that there is a risk that the bond issuer may be unable to pay interest or repay the bond principal, resulting in your investment suffering a loss. Interest rate risk means that if interest rates rise, typically the value of the bond will fall, which could also affect the value of your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

To the extent the Fund undertakes securities lending to reduce costs, the Fund will ultimately be allocated 70% of the associated revenue generated, Deutsche Asset Management (UK) Limited, as Sub-Portfolio Manager, will be allocated 15%, and Deutsche Bank AG, as securities lending agent, will be allocated 15%. To facilitate this, the Fund will initially receive 85% of the associated revenue generated from which Deutsche Asset Management (UK) Limited will receive its allocation. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

#### **Past Performance**

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.
