# JPMorgan Indian Investment Trust plc

Half Year Report & Financial Statements for the six months ended 31st March 2019

# **Your Company**

# **Objective**

Capital growth from investments in India.

#### **Investment Policies**

- To invest in a diversified portfolio of equity and equity-related securities of Indian companies.
- To invest also in companies which earn a material part of their revenues from India.
- The Company will not invest in the other countries of the Indian sub-continent nor in Sri Lanka.
- To invest no more than 15% of gross assets in other listed investment companies (including investment trusts).
- To use gearing when appropriate to increase potential returns to shareholders; the Company's gearing policy is to use short-term gearing for tactical purposes, up to a maximum level of 15% of shareholders' funds.

#### **Benchmark**

MSCI India Index expressed in sterling terms.

#### **Risk**

Investors should note that there can be significant economic and political risks inherent in investing in a single emerging economy such as India. As such, the Indian market can exhibit more volatility than developed markets and this should be taken into consideration when evaluating the suitability of the Company as a potential investment.

# **Capital Structure**

At 31st March 2019, the Company's issued share capital comprised 125,617,586 Ordinary shares of 25p each, including 21,042,646 shares held in Treasury.

### **Continuation Vote**

The Company's Articles of Association require that, at the Annual General Meeting to be held in 2024 and every fifth year thereafter, the Directors must propose a resolution that the Company continues as an investment trust.

## **Management Company**

The Company employs JPMorgan Funds Limited ('JPMF' or the 'Manager') as its Alternative Investment Fund Manager. JPMF delegates the management of the Company's portfolio to JPMorgan Asset Management (UK) Limited ('JPMAM').

# Financial Conduct Authority ('FCA') regulation of 'non-mainstream pooled investments' and MiFID II 'complex instruments'

The Company currently conducts its affairs so that the shares issued by JPMorgan Indian Investment Trust plc can be recommended by Independent Financial Advisers to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future.

The shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment trust.

# **AIC**

The Company is a member of the Association of Investment Companies.

# Website

The Company's website, which can be found at www.jpmindian.co.uk, includes useful information on the Company, such as daily prices, factsheets and current and historic half year and annual reports.

# Why invest in the JPMorgan Indian Investment Trust

# Our heritage and our team

JPMorgan Indian Investment Trust plc is the largest London-listed Indian equity fund focussing purely on Indian companies. The Company provides exposure to a market to which it is difficult to gain access through a growth-orientated portfolio of Indian equities. Seasoned Indian equities experts, Rukhshad Shroff and Rajendra Nair, bring with them deep investment experience, complemented by the insights of J.P. Morgan Asset Management's extensive network of emerging markets specialists. Their on-the-ground experience and in-depth knowledge of local markets enable them to make longer-term appraisals of companies and not be side tracked by short-term noise.

# **Our Investment Approach**

The Company's managers invest in good quality businesses with superior growth prospects, holding them for the long-term to benefit from the growth potential of India. India presents opportunity for long-term growth, with an increasingly affluent population and companies supported by a young and educated workforce. The investment managers look to capitalise on this potential, concentrating on domestically-focused companies that are well-managed and benefit from the long-term growth opportunity of India.

<sup>&</sup>lt;sup>2</sup> Ongoing charges are calculated at the group level, which is consistent with prior year calculations. Details of the basis of calculation are given on page 31.

Richard Rurns Chairman

# **Performance**

In the first six months of the Company's financial year to 31st March 2019, the Company produced a total return on net assets of +10.3%. This was slightly higher than our benchmark index, the MSCI India Index (in sterling terms), which returned +10.0% over the same period. In their report which follows, the Investment Managers provide some commentary on the Indian market and details of the factors which affected Company's performance.

The return to shareholders was +14.1%, reflecting a narrowing of the discount over the six months from 14.5% to 11.5% at the period end.

As I have stated previously, the Board judges performance over the long term. Whilst the Company performed in line with the benchmark index over the most recent six months, its longer term performance is mixed, the Company having outperformed the benchmark over five years but underperforming it over the three and ten years to 31st March 2019.

In November 2013, the Board announced an obligation to make a tender offer to shareholders if, over the three years from 1st October 2013, the Company underperformed its benchmark. Over the three years to 30th September 2016, the Company significantly outperformed and therefore no such tender offer was made. As I explained in the last annual report, in 2016 the Board renewed its commitment to shareholders by undertaking to offer a tender for up to 25% of the issued share capital, at NAV less costs, should the Company underperform the benchmark index over the three years to 30th September 2019. If that is the case, relevant information will be provided to shareholders after the year end.

# Gearing

The Company has a three year floating rate £100 million loan facility to provide the Investment Managers with the flexibility to gear the portfolio when they think it is appropriate to do so. As at 31st March 2019, the Company's portfolio was 0.0% geared. Please note that gearing continues to be calculated on a pro forma group basis in order to give shareholders clarity on the overall levels of borrowing.

# **Discount Management**

The Board has guidelines in place with regard to the management of the discount of the share price to net asset value at which the Company's shares trade. During the six months under review, the Company did not buy back any shares into Treasury. It currently holds 21,042,646 shares in Treasury which may only be reissued at a premium to the prevailing net asset value at the time of reissue.

## **Taxation**

As I have explained previously, the India-Mauritius tax treaty has been amended and the advantages of investing in India via Mauritius have, to a large degree, been removed. However, it remains advantageous for the Company to continue to hold its investments made prior to February 2018 through the Mauritius subsidiary company until such time as the Investment Managers decide to reduce or sell those holdings. Therefore the Company's assets will move to the UK parent company through natural trading over a number of years. This process is underway and at the time of writing approximately £147 million of the Group's investments are held directly by the parent company.

# Outlook

The results of the 2019 general election were announced on 23rd May. The outcome was a victory for the incumbent government of Mr. Modi, which, for a time at least, removes the political uncertainty which is an almost permanent feature of the Indian scene. The BJP is generally seen as being 'pro business' and the market's initial reaction has been to rise. However, as the Managers point out in their report, there has been no particular correlation between the party or parties in power and GDP growth in India. As ever, growth in corporate profits will be the key determinant of investor returns. I am optimistic that our portfolio is placed to perform well.

#### **Market Review**

The Indian market just managed a double digit return over the six months under review. Along the way it substantially outperformed the broader Asian region in the last calendar quarter of 2018, before underperforming it in the first three months of 2019.

Bolstered by a declining oil price, India was one of a minority of Asian markets which posted a positive US dollar return over the final months of 2018. This was achieved despite a somewhat soft third quarter GDP number of 7.1%, down from 8.2% in the previous quarter, although the prior number had been flattered by a low base due to the earlier impact of the introduction of the Goods and Services Tax.

Following anticipated interest rate increases from the Reserve Bank of India (the 'RBI') in June and in August, contrary to consensus expectations it kept rates unchanged in October. This decision was followed by the surprise of the mid-term resignation of the RBI's governor, Urjit Patel. Although Mr Patel cited 'personal reasons' for his departure, there was speculation that he objected to government intervention in the workings of India's central bank.

The strong relative performance towards the close of 2018 was not sustained into the new year. In January 2019 India was the only Asian market to register losses in absolute terms. Some cyclical indicators suggested slower economic growth, with the corporate reporting season indicating that an overall recovery in earnings and profitability remains elusive. There was also some controversy over the accuracy of India's economic data.

A different facet of political risk manifested itself in February as military tension between India and Pakistan flared up. While the immediate threat of conflict was defused relatively quickly it acted as a reminder both of the risks in and around Kashmir and also of a tendency amongst some politicians to capitalise on the friction with an eye on the Hindu majority within India's electorate. Following the clash, PM Modi enjoyed an increase in popularity.

Against our expectations, in early February the RBI reduced interest rates by 25 basis points to 6.25%. It also changed the policy stance to neutral, citing the necessity of extending activity beyond government spending on infrastructure into higher private investment and consumption.

Given that the reduction took place in the run-up to the election, and as the current RBI governor is a career bureaucrat who was appointed after the surprise resignation of his predecessor, it raised some questions about political interference. That said, inflation is well within the RBI's target of 4% (CPI is 2% currently) and therefore real interest rates are high enough for the Monetary Policy Committee to ease monetary policy further in the near term.

# **Performance Review**

The Company performed in line with the benchmark over the six month period. Sector allocation was positive, while stock selection detracted. Gearing was a very minor detractor.

At the sector level it was beneficial to be overweight financials and to be underweight health care and information technology. The financials sector bounced following a series of scandals and mis-steps over the previous quarters (including fraud at Punjab National Bank, an unexpected change of CEO at Yes Bank and default at Infrastructure Leasing & Financial Services ('IF&LS')). We have been seeing growing signs that the long awaited repair in the banking sector is now well and truly underway. In the first instance this benefited banks with somewhat weaker franchises like ICICI Bank and Yes Bank. Our performance suffered from not holding either. However, we retain our belief that this underpenetrated sector is best held via higher quality companies which will gain market share over time. For example HDFC Bank was the single largest contributor to the Company's performance over the period.

As for health care and IT, over the six months as a whole, the Indian rupee strengthened against both US dollar and pound sterling. This acted as a drag on sectors which are seen to be particular beneficiaries of a weak currency.

Stock selection detracted from the Company's performance. Commercial vehicle company Ashok Leyland declined on growth fears and, in addition to the zero positions in ICICI Bank and Yes Bank mentioned above, it was painful not to own Bajaj Finance. After a correction early in the fourth quarter of 2018, Reliance Industries resumed its upwards march. While telecoms arm JIO continued to gain subscribers, management pledged to deleverage the balance sheet, albeit with few details. We continue to avoid the stock.

# **Outlook**

Prime Minister Modi's retention of power in the recent general election and the majority won by the BJP Party has led to a stronger mandate for the incumbent. However, while continuity of Prime Minister should be helpful, at no point was the prospect of a negative general election outcome priced in by markets. Moreover in the longer run we see no particular correlation between which party is in power and the pace of GDP growth in India. What is more crucial is that over the past five years nominal GDP growth has not fed through to earnings growth: market earnings have been essentially flat for some time now. The key reason is that the banking sector has been through a negative earnings cycle on the back of non-performing loans. Provisioning for bad assets is now at more realistic levels and capital positions are being rebuilt. Normalisation of financial conditions should result in an earnings rebound. The path towards higher returns looks much clearer and more achievable.

We remain of the view that this is an early cycle economy. While valuations may not appear to be cheap relative to historic levels, with forward PE around the five year average but above the ten year average, we think that is partly because the corporate earnings cycle is depressed. An economic recovery and normalised earnings would make valuations appear cheaper and the long run growth prospects remain very compelling.

The Company does not have any income or expense that is not included in the net (loss)/profit for the period. Accordingly the 'Net (loss)/profit' for the period, is also the 'Total comprehensive income' for the period, as defined in IAS1 (revised).

All revenue and capital items in the above statement derive from continuing operations. No operations were acquired or discontinued in the year.

The 'Total' column of this statement represents the Company's Statement of Comprehensive Income, prepared in accordance with IFRS. The supplementary 'Revenue' and 'Capital' columns are prepared under guidance published by the Association of Investment Companies.

All of the (loss)/profit and total comprehensive income is attributable to the equity shareholders of JPMorgan Indian Investment Trust plc, the Company. There are no minority interests.

This is the Company's Statement of Comprehensive Income. The Group's Statement of Comprehensive Income is disclosed in note 8 on page 21. Together with reconciliations between the Company's and the Group's statements, this information has been included following an amendment to IFRS 10 which became effective from the 2017 financial year.

### FOR THE SIX MONTHS ENDED 31ST MARCH 2019

#### **Principal activity** 1.

The principal activity of the Company is that of an investment trust company within the meaning of Section 1158 of the Corporation Tax Act 2010.

#### **Financial Statements** 2.

The financial information for the six months ended 31st March 2019 and 2018 has not been audited or reviewed by the Company's auditors.

The financial information contained in these half year financial statements does not constitute statutory accounts as defined in Section 434 of the Companies Act 2006.

The information for the Company for the year ended 30th September 2018 has been extracted from the latest published audited financial statements. Those financial statements have been delivered to the Registrar of Companies and included the report of the auditors which was unqualified and did not contain a statement under either Section 498(2) or 498(3) of the Companies Act 2006.

#### **Accounting policies** 3.

The financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRS'), which comprise standards and interpretations approved by the International Accounting Standards Board to the extent that they have been adopted by the European Union.

Where presentational guidance set out in the Statement of Recommended Practice (the 'SORP') for investment trusts issued by the Association of Investment Companies in November 2014 and updated in February 2018 is consistent with the requirements of IFRS, the financial statements have been prepared on a basis compliant with the recommendations of the SORP.

The accounting policies applied to this condensed set of financial statements are consistent with those applied in the financial statements for the year ended 30th September 2018.

JPMorgan Indian Investment Trust plc has a 100% holding in JPMorgan Indian Investment Company (Mauritius) Limited, which qualifies as an investment entity under IFRS 10. The subsidiary is valued at fair value, and the total value at 31st March 2019 is disclosed on a separate line of the Statement of Financial Position. In addition the List of Investments has been prepared on a look through basis, meaning the stocks held by the subsidiary are disclosed.

|    | Total return/(loss) per share   | 75.55p  | (28.84)p  | (61.69)p  |

# 5. Net asset value per share

|   | (Unaudited)<br>Six months ended<br>31st March 2019 | (Unaudited)<br>Six months ended<br>31st March 2018 | (Audited)<br>Year ended<br>30th September 2018 |
|---|--|--|--|
| Net assets (£'000)  Number of shares in issue excluding shares held | 849,154  | 809,212  | 770,145  |
| in Treasury   | 104,574,940  | 105,222,615  | 104,574,940                                    |
| Net asset value per share   | 812.0p   | 769.0p   | 736.5p   |

The Company will only re-issue shares held in Treasury at a premium and therefore these shares have no dilutive potential.

# 6. Disclosures regarding financial instruments measured at fair value

The disclosures required by the IFRS 13: 'Fair Value Measurement' are given below. The Company's financial instruments within the scope of IFRS 13 that are held at fair value comprise its investment portfolio.

The investments are categorised into a hierarchy consisting of the following three levels:

Level 1 - valued using unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 - valued by reference to valuation techniques using other observable inputs not included within Level 1.

Level 3 - valued by reference to valuation techniques using unobservable inputs.

The recognition and measurement policies for financial instruments measured at fair value are consistent with those disclosed in the last annual financial statements.

The following tables set out the fair value measurements using the IFRS 13 hierarchy at the relevant period end:

|                    | (Unaudited)<br>Six months ended<br>31st March 2019 |                      | Six mo           | Unaudited)<br>nths ended           | (Audited)<br>Year ended<br>30th September 2018 |                      |  |

| Closing net debt            | -  | (16,500) | _                            | (16,500)                                     |

The Company has a £100 million loan facility with Scotiabank, expiring in August 2020. Under the terms of the facility, both the parent and subsidiary company may draw down at an interest rate of LIBOR, plus a margin and mandatory costs. At 30th September 2018, £18.0 million was drawn down by the subsidiary company only.

# **Supplemental information**

Under International Financial Reporting Standards 10 ('IFRS 10'), the Company qualifies as an 'investment entity' and is not permitted to consolidate its subsidiary company. Instead, the subsidiary company is shown as an investment at fair value through profit or loss.

To allow shareholders to compare the Company's performance and financial position as reported in this Half Year Report and Financial Statements with historically published figures which were prepared on a consolidated basis, the Company has produced the following supplemental information and reconciliations between the statutory 'Company-only' financial statements presented on pages 15 and 18 with the figures that would have been published prior to the change to IFRS 10 as presented in this section.

The reconciliations below have been included to provide additional clarity and meaningful comparison.

The Company is required to make the following disclosures in its Half Year Report.

# **Principal Risks and Uncertainties**

The principal risks and uncertainties faced by the Company fall into the following broad categories: investment and strategy; market; legal and regulatory; taxation; corporate governance and shareholder relations; operational, including cyber crime; financial; and political and economic. Information on each of these areas is given in the Business Review within the Annual Report and Financial Statements for the year ended 30th September 2018.

# **Related Parties Transactions**

During the first six months of the current financial year, no transactions with related parties have taken place which have materially affected the financial position or the performance of the Company during the period.

# **Going Concern**

The Directors believe, having considered the Company's investment objective, risk management policies, capital management policies and procedures, nature of the portfolio and expenditure projections, that the Company has adequate resources, an appropriate financial structure and suitable management arrangements in place to continue in operational existence for the foreseeable future and more specifically, that there are no material uncertainties pertaining to the Company that would prevent its ability to continue in such operation existence for at least twelve months from the date of the approval of this half yearly financial report. For these reasons, they consider there is reasonable evidence to continue to adopt the going concern basis in preparing the accounts.

# **Directors' Responsibilities**

The Board of Directors confirms that, to the best of its knowledge:

- (i) the condensed set of financial statements contained within the half yearly financial report has been prepared in accordance with the Accounting Standards Board's Statement 'Half Yearly Financial Reports' and gives a true and fair view of the state of affairs of the Company and of the assets, liabilities, financial position and net return of the Company, as at 31st March 2019, as required by the UK Listing Authority Disclosure and Transparency Rules 4.2.4R; and
- (ii) the interim management report includes a fair review of the information required by 4.2.7R and 4.2.8R of the UK Listing Authority Disclosure and Transparency Rules.

In order to provide these confirmations, and in preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business:

and the Directors confirm that they have done so.

For and on behalf of the Board Richard Burns Chairman

3rd June 2019

#### Return to Shareholders (APM)

Total return to shareholders, on a last traded price to last traded price basis, assuming that all dividends received were reinvested, without transaction costs, into the shares of the Company at the time the shares were quoted ex-dividend.

| Total return calculation                     | Page | 31st March 2019 |     |
|--|------|-----------------|-----|
| Opening share price (p)                      | 5    | 630.0           | (a) |
| Closing share price (p)                      | 5    | 719.0           | (b) |
| Total return to shareholders (c = b / a - 1) |      | 14.1%           | (c) |

# Return on Net Assets (APM)

Total return on net asset value ('NAV') per share, on a bid value to bid value basis, assuming that all dividends paid out by the Company were reinvested, without transaction costs, into the shares of the Company at the NAV per share at the time the shares were quoted ex-dividend.

| Total return calculation                   | Page | 31st March 2019 |     |
|--|------|-----------------|-----|
| Opening cum-income NAV per share (p)       | 5    | 736.5           | (a) |
| Closing cum-income NAV per share (p)       | 5    | 812.0           | (b) |
| Total return on net assets (c = b / a - 1) |      | 10.3%           | (c) |

#### Benchmark total return (APM)

Total return on the benchmark, on a closing-market value to closing-market value basis, assuming that all dividends received were reinvested, without transaction costs, in the shares of the underlying companies at the time the shares were quoted ex-dividend.

The benchmark is a recognised index of stocks which should not be taken as wholly representative of the Company's investment universe. The Company's investment strategy does not follow or 'track' this index and consequently, there may be some divergence between the Company's performance and that of the benchmark.

# Gearing/(net cash) at the group level (APM)

Gearing represents the excess amount above shareholders' funds of total investments, expressed as a percentage of the shareholders' funds. If the amount calculated is negative, this is shown as a 'net cash' position.

|   | Six  | months ended       | Year ended             |     |
|---|------|--------------------|------------------------|-----|
|   |      | 31st March<br>2019 | 31st September<br>2018 |     |

| Investments held at fair value through profit or loss | 17   | 849,439            | 772,207                | (a) |
| Net assets  | 17   | 849,154            | 770,145                | (b) |
| Gearing/(net cash) (c = a / b - 1)                    |      | 0.0%               | 0.3%                   | (c) |

# Ongoing charges at the group level (APM)

The ongoing charges represent the Company's management fee and all other operating expenses excluding finance costs payable, expressed as a percentage of the average of the daily cum-income net assets during the year and is calculated in accordance with guidance issued by the Association of Investment Companies.

|  | Six months ended<br>31st March |         | Year ended<br>31st September |     |

| Ongoing Charges (c = (a / b) x 2)                      |                                | 1.05%   |                              | (c) |
| Ongoing Charges (d = a / b)                            |                                |         | 1.09%                        | (d) |

# Share price discount/premium to Net Asset Value ('NAV') per share (APM)

If the share price of an investment trust is lower than the NAV per share, the shares are said to be trading at a discount. The discount is shown as a percentage of the NAV per share.

The opposite of a discount is a premium. It is more common for an investment trust company's shares to trade at a discount than at a premium (page 5).

J.P. Morgan investment trusts are eligible investments within a stocks & shares individual savings account (ISA) and Junior ISA. For the 2019/20 tax year, from 6th April 2019 and ending 5th April 2020, the annual ISA allowance is £20,000 and the Junior ISA annual allowance is £4,368.

You can invest in a J.P. Morgan investment trust through the following:

# Through a professional adviser

Professional advisers are usually able to access the products of all the companies in the market and can help you find an investment that suits your individual circumstances. An adviser will let you know the fee for their service before you go ahead. You can find an adviser at unbiased.co.uk

You may also buy investment trusts through stockbrokers, wealth managers and banks.

To familiarise yourself with the Financial Conduct Authority (FCA) adviser charging and commission rules, visit fca.org.uk

# Information for J.P. Morgan Investment Account and Stocks & Shares ISA account holders

On 8th April 2019, J.P. Morgan Asset Management informed holders of J.P. Morgan investment accounts and stocks & shares ISA savings products that it had decided to cease managing these accounts. Investors are able to remain invested in J.P. Morgan managed investment trusts by transferring to another service provider.

Information regarding the transfer arrangements has been provided, detailing the options to; transfer to an alternative third party provider, re-register the investment into certificated form or sell the investment. Where no alternative instruction is received the account will be transferred later in the year, in line with the correspondence sent by J.P. Morgan on 8th April 2019.

For full details of all the options available to investors, please refer to correspondence sent by J.P. Morgan on 8th April 2019, contact your financial adviser or contact J.P. Morgan's Client Administration Centre on 0800 20 40 20/+44 (0) 1268 44 44 70.

# Be ScamSmart

# **Investment scams are** designed to look like genuine investments

#### Spot the warning signs

Have you been:

- contacted out of the blue
- promised tempting returns and told the investment is safe
- called repeatedly, or
- told the offer is only available for a limited time?

If so, you might have been contacted by fraudsters.

## Avoid investment fraud

## 1 Reject cold calls

If you've received unsolicited contact about an investment opportunity, chances are it's a high risk investment or a scam. You should treat the call with extreme caution. The safest thing to do is to hang up.

### 2 Check the FCA Warning List

The FCA Warning List is a list of firms and individuals we know are operating without our authorisation.

# 3 Get impartial advice

Think about getting impartial financial advice before you hand over any money. Seek advice from someone unconnected to the firm that has approached you.

# Report a Scam

If you suspect that you have been approached by fraudsters please tell the FCA using the reporting form at www.fca.org.uk/consumers/reportscam-unauthorised-firm. You can also call the FCA Consumer Helpline on 0800 111 6768

If you have lost money to investment fraud, you should report it to Action Fraud on 0300 123 2040 or online at www.actionfraud.police.uk

Find out more at www.fca.org.uk/scamsmart

Remember: if it sounds too good to be true, it probably is!
