This annual report and audited financial statements (the "Report and Accounts") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Accounts. To the extent that there is any inconsistency between the English language Report and Accounts and the Report and Accounts in another language, the English language Report and Accounts will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Accounts in a language other than English, the language of the Report and Accounts on which such action is based shall prevail. Any disputes as to the terms of the Report and Accounts, regardless of the language of the Report and Accounts, shall be governed by and construed in accordance with the laws of Ireland.

For Swiss Investors: The prospectus of the Company, Articles of Association, the Key Investor Information Documents ("KIIDs"), the Company's latest published audited Annual Report and Accounts and latest unaudited Semi-annual Report and Accounts, as applicable and a detailed list of investments purchased and sold for each Fund during the year can be obtained on request and free of charge from the representative in Switzerland.

For German Investors: The prospectus, KIIDs and a full statement of portfolio changes are available, free of charge, from the German Information Agent.

The Company is duly registered with the Comisión Nacional de Mercado de Valores in Spain under number 542.

Company

Registered office of the Company: 200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

BACKGROUND

Institutional Cash Series plc (the "Company") is an open-ended investment company with variable capital. It has segregated liability between its Funds and is organised under the laws of Ireland and is regulated by the Central Bank of Ireland ("CBI") as a public limited company ("plc") pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

The Company is structured as an umbrella fund and will comprise separate funds (each a "Fund", together the "Funds") of the Company. The shares of each Fund may be grouped into different classes of shares (each a "share class"). Each Fund will represent a separate portfolio of assets and may consist of one or more share classes. Each share class may apply different subscription and redemption provisions, charges, fees or brokerage arrangements. The creation of an additional class of shares will be notified to the CBI in advance. The portfolio of assets maintained for each Fund will be invested in accordance with the investment objectives and policies applicable to each Fund as set out in the prospectus. Certain share classes of the Company are listed on the Irish Stock Exchange.

The term "Funds" shall be deemed to mean either the Funds of the Company, or if the context so requires, the Manager or its delegate acting for the account of the relevant Funds. The term "BlackRock" is used to represent BlackRock Investment Management (UK) Limited. The term "Investment Manager" is used to represent BlackRock Investment Management (UK) Limited and/or BlackRock Capital Management, Inc., as appropriate. The term "Group Company" is used to represent BlackRock, Inc. group companies and any of their affiliates and connected persons.

The Company had 10 Funds in operation as at 30 September 2018.

| Fund name ¹ | Performance measure |
|--|---|
| Institutional Euro Assets Liquidity Fund | 7-Day EUR LIBID |
| Institutional Euro Government Liquidity Fund | Overnight EUR LIBID |
| Institutional Euro Liquidity Fund | 7-Day EUR LIBID |
| Institutional Euro Ultra Short Bond Fund | Bank of America Merrill Lynch 3-Month Average LIBID |
| Institutional Sterling Government Liquidity Fund | Overnight GBP LIBID |
| Institutional Sterling Liquidity Fund | 7-Day GBP LIBID |
| Institutional Sterling Ultra Short Bond Fund | 3-Month GBP LIBID |
| Institutional US Dollar Liquidity Fund | 7-Day USD LIBID |
| Institutional US Dollar Ultra Short Bond Fund | 3-Month US Dollar LIBID |
| Institutional US Treasury Fund | FTSE 1-Month Treasury Bill Index |

¹The Funds are not managed by reference to a benchmark index.

Changes to the Company during the year

On 24 October 2017, G Distributing Shares were fully redeemed for the Institutional Euro Liquidity Fund.

On 20 December 2017, G Accumulating Shares were fully redeemed for the Institutional Euro Liquidity Fund.

On 29 December 2017, an updated prospectus was issued for the Company to incorporate the following changes:

- Product Governance disclosure for the purposes of drawing a distributor's attention to the requirement that they consider the information made available by the manufacturers of the fund units under MiFID II including, without limitation, target market information.
- Inclusion of the new N Class shares.
- The criteria for "Typical Investor" has been amended from Retail and Institutional to Retail and Professional.
- Revision of Fees and Expenses as a result of MiFID II.
- Revision of Conflicts of Interest.
- Revision of Appendix VI for changes to the Depositary Delegates.

On 31 January 2018, an updated prospectus was issued for the Company to incorporate the following changes:

- Inclusion of Laws and regulations introduced by Member States of the European Union ("EU") to implement MiFID II and the EU's Markets in Financial Instruments Regulation ("MiFIR").
- Appendix V Share Classes is updated in respect to the Minimum Initial Subscription amount for all the Funds.

On 6 February 2018, an updated prospectus was issued for the Company. There were no material changes to be disclosed.

BACKGROUND (continued)

Changes to the Company during the year (continued)

With effect from 9 March 2018, the performance measure name for Institutional US Treasury Fund has been rebranded from CitiGroup 1- Month Treasury Bill Index to FTSE 1-Month Treasury Bill Index.

On 12 March 2018, an updated prospectus was issued for the Company. There were no material changes to be disclosed.

On 26 March 2018, G Distributing Shares were fully redeemed for the Institutional Sterling Liquidity Fund.

On 16 May 2018, the G Accumulating Shares were launched for the Institutional US Treasury Fund.

On 17 May 2018, the G Distributing Shares were launched for the Institutional US Treasury Fund.

On 9 July 2018, the N Class Shares were launched for the Institutional US Dollar Liquidity Fund and Institutional US Treasury Fund.

On 26 July 2018, the G Accumulating Shares were launched for the Institutional US Dollar Ultra Short Bond Fund.

On 30 August 2018, the Heritage Shares were launched for the Institutional Sterling Ultra Short Bond Fund.

Changes to the Board of Directors of the Company

With effect from 15 November 2017, David Moroney was appointed as a non-executive Director of the Company.

With effect from 20 November 2017, Jessica Irschick was appointed as a non-executive Director of the Company.

Audit tender

On 16 June 2014, the European parliament and council passed into law a new Audit Directive and Regulation ("Directive") which updated the EU regulatory framework on statutory audits. Member states had two years to implement legislation to transpose, adopt and publish the provisions to comply with the Directive, and on 15 June 2016 a Statutory Instrument was signed in Ireland that gave effect to the Directive. Accordingly, such legislation will apply to the year-end commencing 1 October 2016, being the first financial year starting on or after 17 June 2016. The legislation covers mandatory audit firm rotation, additional restrictions on the provision of non-audit services, requirements relating to audit committee oversight of the performance of the audit, and new requirements regarding reporting by the Auditors.

The Audit Committee conducted a competitive tender process during 2017 for the position of auditors of the Company, resulting in a recommendation that EY be appointed as external auditors for the financial year commencing 1 October 2018. A resolution proposing this appointment will be presented to shareholders at the March 2019 AGM. The process undertaken to reach this decision involved written submissions and presentations by each of the invited firms. This transition process will continue to be a focus for the Audit Committee in 2018 and 2019.

Potential Implications of Brexit

In a referendum held on 23 June 2016, the electorate of the United Kingdom ("UK") resolved to leave the EU. The result has led to political and economic instability and volatility in the financial markets of the UK and more broadly across Europe.

It may also lead to weakening in consumer, corporate and financial confidence in such markets as the UK finalises the terms of its exit from the EU. The extent of the impact will depend in part on the nature of the arrangements that are put in place between the UK and the EU following the eventual Brexit deal and the extent to which the UK continues to apply laws that are based on EU legislation. The longer term process to implement the political, economic and legal framework that is agreed between the UK and the EU is likely to lead to continuing uncertainty and periods of exacerbated volatility in both the UK and in wider European markets.

The UK's exit from the EU, the anticipation of the exit, or the terms of the exit could also create significant uncertainty in the UK (and potentially global) financial markets, which may materially and adversely affect the performance of the Funds, the Funds' Net Asset Value ("NAV"), the Funds' earning and returns to Shareholders. It could also potentially make it more difficult to raise capital in the EU and/or increase the regulatory compliance burden which could restrict the Funds' future activities and thereby negatively affect returns. Currency volatility resulting from this uncertainty may mean that the returns of the Fund and its investments are adversely affected by market movements, potential decline in the value of the British Pound and/or Euro, and any downgrading of UK sovereign credit rating. This may also make it more difficult, or more expensive, for the Company to execute prudent currency hedging policies.

This mid to long term uncertainty may have an adverse effect on the economy generally and on the ability of the Company and its investments to execute their respective strategies and to receive attractive returns, and may also result in increased costs to the Company.

BACKGROUND (continued)

Total expense ratio

The total expense ratio ("TER") shown below and overleaf expresses the sum of all fees, operating costs and expenses, with the exception of direct trading costs, charged to each Fund's assets as a percentage of the average Fund assets based on a twelvemonth period ended 30 September 2018.

The TER is calculated in accordance with European Securities and Markets Authority ("ESMA") guidelines on the methodology for calculation of the ongoing charges figure in the KIID.

Transactions with Connected Parties

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between the Funds and the Manager or Depositary to the Funds, the delegates or sub-delegates of the Manager or Depositary (excluding any nongroup company sub-custodian appointed by a Depositary) and any associated or Group company of the Manager, Depositary, delegate or sub-delegate ("Connected Parties") must be conducted at arm's length and in the best interests of the shareholders.

The Board of Directors of the Company ("Board") is satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Parties and that transactions with Connected Parties entered into during the year complied with this obligation.

INVESTMENT MANAGER'S REPORT

INVESTMENT OBJECTIVE

Institutional Euro Assets Liquidity Fund

The investment objective of the Institutional Euro Assets Liquidity Fund is to provide a return in line with money market rates consistent with preservation of principal and liquidity by the maintenance of a portfolio of high quality short term "money market" instruments.

Institutional Euro Government Liquidity Fund

The investment objective of the Institutional Euro Government Liquidity Fund is to seek a moderate level of current income as is consistent with liquidity and stability of principal.

Institutional Euro Liquidity Fund

The investment objective of the Institutional Euro Liquidity Fund is to maximise current income consistent with preservation of principal and liquidity by the maintenance of a portfolio of high quality short term "money market" instruments.

Institutional Euro Ultra Short Bond Fund

The investment objective of the Institutional Euro Ultra Short Bond Fund is to generate current income and a reasonable degree of liquidity consistent with a low volatility of principal, through the maintenance of a portfolio of high quality money market and fixed income instruments including floating rate securities.

Institutional Sterling Government Liquidity Fund

The investment objective of the Institutional Sterling Government Liquidity Fund is to seek a moderate level of current income as is consistent with the liquidity and stability of principal.

Institutional Sterling Liquidity Fund

The investment objective of the Institutional Sterling Liquidity Fund is to maximise current income consistent with preservation of principal and liquidity by the maintenance of a portfolio of high quality short term "money market" instruments.

Institutional Sterling Ultra Short Bond Fund

The investment objective of the Institutional Sterling Ultra Short Bond Fund is to generate current income and a reasonable degree of liquidity consistent with low volatility of principal, through the maintenance of a portfolio of high quality money market and fixed income instruments including floating rate securities.

Institutional US Dollar Liquidity Fund

The investment objective of the Institutional US Dollar Liquidity Fund is to maximise current income consistent with preservation of principal and liquidity by the maintenance of a portfolio of high quality short term "money market" instruments.

Institutional US Dollar Ultra Short Bond Fund

The investment objective of the Institutional US Dollar Ultra Short Bond Fund is to seek to maximise current income consistent with the preservation of principal and a reasonable degree of liquidity through the maintenance of a portfolio of high quality short to medium-term fixed income instruments including money market, floating rate and asset backed securities.

Institutional US Treasury Fund

The investment objective of the Institutional US Treasury Fund is to seek a moderate level of current income as is consistent with liquidity and stability of principal.

INVESTMENT MANAGER'S REPORT (continued)

FUND PERFORMANCE

Disclosed in the table below are the performance returns for the primary share class for each Fund, net of fees, which has been selected as a representative share class. Performance returns for any other share class can be made available on request.

Calculation methodology is based on industry standards.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current prospectus, of which the most recent annual report and audited accounts and interim report and unaudited accounts as well as KIIDs form an integral part. Copies are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors.

The returns are net of management fees and expenses. Due to accounting policy requirements under FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share as calculated in accordance with the valuation methodology as set out in the prospectus. Details of the difference between the NAV as calculated in accordance with the valuation methodology as set out in the prospectus and the NAV as per the financial statements are set out in the notes to the financial statements.

The performance of the Funds for the year under review is shown below:

| Fund name ¹ | Fund return for the year ended 30 September 2018 (%) | Performance measure return for the year ended 30 September 2018 (%) |
|---|---|--|
| Institutional Euro Assets Liquidity Fund ² | (0.39) | (0.55) |
| Institutional Euro Government Liquidity Fund ³ | (0.75) | (0.49) |
| Institutional Euro Liquidity Fund ³ | (0.46) | (0.55) |
| Institutional Euro Ultra Short Bond Fund ³ | (0.27) | (0.46) |
| Institutional Sterling Government Liquidity Fund ³ | 0.24 | 0.37 |
| Institutional Sterling Liquidity Fund ³ | 0.55 | 0.38 |
| Institutional Sterling Ultra Short Bond Fund ³ | 0.76 | 0.50 |
| Institutional US Dollar Liquidity Fund ³ | 1.89 | 1.52 |
| Institutional US Dollar Ultra Short Bond Fund ⁴ | 2.05 | 1.81 |
| Institutional US Treasury Fund ³ | 1.41 | 1.51 |

¹The performance measure returns included in the table above are provided for reference only.

²The returns in the table above are those of the Agency Share Class.

³The returns in the table above are those of the Core Share Class.

⁴The returns in the table above are those of the Select Share Class.

The Fund performance is quoted as the sum of daily dividend rates, net of fees.

INVESTMENT MANAGER'S REPORT (continued)

PERFORMANCE AND ACTIVITY

Institutional Euro Assets Liquidity Fund

The Fund returned (0.39)% net of fees in the twelve months ended 30 September 2018, outperforming its performance measure, the 7-Day EUR London Interbank Bid Rate ("LIBID"), which returned (0.55)%.

During the year, we maintained Weighted Average Maturities ("WAMs") above 50 days, in line with expectations that rates will remain at their current level through summer 2019. The additional duration is gained by adding positions in three to six month maturity money market instruments, avoiding more deeply negative yields in shorter maturities and reducing reinvestment risk.

We are concentrated on maintaining high levels of liquidity and managing to a longer WAM, due to the impact of current European Central Bank ("ECB") expansionary policy. The Fund maintains a large bucket of daily liquid assets at roughly 15% to 20% of the Fund. We remain buyers of asset backed commercial paper supported by systemically important banks from our approved list, largely in sub one month maturities.

Institutional Euro Government Liquidity Fund

The Fund returned (0.75)% net of fees in the twelve months ended 30 September 2018, underperforming its performance measure, the Overnight EUR LIBID, which returned (0.49)%.

During the year, we maintained WAMs above 50 days, in line with expectations that rates will remain at their current level through summer 2019. This was mainly accomplished through purchasing French Treasury Bills (BTFs) and short French bonds, alongside German Government guaranteed supranational agencies that price favourably to Reverse Repurchase Agreements.

The credit rating of the Fund as at 30 September 2018 was AAAmmf: Fitch Aaa-mf: Moody's, and AAAm: S&P.

Institutional Euro Liquidity Fund

The Fund returned (0.46)% net of fees in the twelve months ended 30 September 2018, outperforming its performance measure, the 7-Day EUR LIBID, which returned (0.55)%.

During the year, we maintained WAMs above 50 days, in line with expectations that rates will remain at their current level through summer 2019. The additional duration is gained by adding positions in three to six month maturity money market instruments, avoiding more deeply negative yields in shorter maturities and reducing reinvestment risk.

We are concentrated on maintaining high levels of liquidity and managing to a longer WAM, due to the impact of current ECB expansionary policy. The Fund maintains a large bucket of daily liquid assets at roughly 20% to 25% of the Fund. We remain buyers of asset backed commercial paper supported by systemically important banks from our approved list, largely in sub one month maturities.

The credit rating of the Fund as at 30 September 2018 was AAAmmf: Fitch Aaa-mf: Moody's, and AAAm: S&P.

Institutional Euro Ultra Short Bond Fund

The Fund returned (0.27)% net of fees in the twelve months ended 30 September 2018, outperforming its performance measure, the Bank of America Merrill Lynch 3-Month Average LIBID, which returned (0.46)%.

We are focusing on trades which offer better relative value than Euro 3-month Euribor and limit duration risk. We have looked to opportunistically add fixed rate issuance in the 6 months to one-year part of the curve as we see some steepening. Additionally, we will continue to monitor 2-year floating rate notes in high quality corporate and bank names and add them when they offer attractive spreads over 3-month Euribor.

The credit rating of the Fund as at 30 September 2018 was Aaf: S&P.

Institutional Sterling Government Liquidity Fund

The Fund returned 0.24% net of fees in the twelve months ended 30 September 2018, underperforming its performance measure, the Overnight GBP LIBID, which returned 0.37%.

For the majority of the period we have been targeting a WAM in the low 40-day range. Since the August rate hike, we have seen UK Treasury Bills reprice sufficiently to offer relative value to Reverse Repurchase agreements and have therefore been active in adding Bill exposure. The Fund continues to only have exposure to the UK sovereign debt.

The credit rating of the Fund as at 30 September 2018 was AAAmmf: Fitch Aaa-mf: Moody's, and AAAm: S&P.

INVESTMENT MANAGER'S REPORT (continued)

PERFORMANCE AND ACTIVITY (continued)

Institutional Sterling Liquidity Fund

The Fund returned 0.55% net of fees in the twelve months ended 30 September 2018, outperforming its performance measure, the 7-Day GBP LIBID, which returned 0.38%.

Prior to each of the rate hikes over the year, we allowed the WAM of the Fund to drift in to the low 40-day range. Additionally, we looked to take advantage of issuers pricing in the hikes before the Monetary Policy Committee ("MPC") moving and added some duration at attractive spreads. At the August MPC meeting, we saw a flattening of the front-end of the yield curve and levels in three and six month paper trade 3-5 basis points richer. Immediately following the meeting, we extended the WAM and are now in the low-mid 40-day range and we will look to opportunistically add more duration when we see relative value.

We have maintained a large overnight liquidity buffer, roughly 20% to 25% of the portfolio.

The credit rating of the Fund as at 30 September 2018 was AAAmmf: Fitch Aaa-mf: Moody's, and AAAm: S&P.

Institutional Sterling Ultra Short Bond Fund

The Fund returned 0.76% net of fees in the twelve months ended 30 September 2018, outperforming its performance measure, the 3-Month GBP LIBID, which returned 0.50%.

For the majority of the year, we targeted 2-year floating rate notes in corporate and bank issuers names which offer attractive spreads to fixed rate issuances. Additionally, these offered us protection to interest rate risk and reset higher following each of the two bank rate increases during the year. In the back half of the year we focused on fixed rate opportunities in the three-to-six-month part of the curve which steepened off the increased chance of an August rate hike.

The credit rating of the Fund as at 30 September 2018 was Aaf: S&P.

Institutional US Dollar Liquidity Fund

The Institutional US Dollar Liquidity Fund returned 1.89% net of fees in the twelve months ending 30 September 2018, outperforming its performance measure, the 7-Day USD LIBID, which returned 1.52%.

The credit rating of the Fund as of 31 March 2018 was AAAmmf-Fitch, Aaa-mf- Moody's, and AAAm-S&P.

Institutional US Dollar Ultra Short Bond Fund

The Fund returned 2.05% net of fees in the twelve month period ending 30 September 2018, outperforming its performance measure, 3 month U.S. Dollar LIBID, which returned 1.81% over the year.

As of 30 September 2018, the Fund had a duration of 0.32 years and a portfolio credit rating of AAf (assigned by S&P). The exposure to floating rate securities was 28%.

Institutional US Treasury Fund

The Fund returned 1.41% net of fees in the twelve month period ending 30 September 2018, underperforming its performance measure, FTSE 1-Month Treasury Bill Index, which returned 1.51% over the year.

Positioning during the beginning of the period was initially influenced by where the 'X' date related to the debt ceiling would fall. It had been a moving target since the end of the suspension period on 8 December 2017. Estimates varied with late February to early March 2018 being the most likely timeframe for it to occur. As the Treasury positioned itself for reaching its limit, Treasury bill supply was reduced impacting market yields across the curve. Once the debt ceiling was re-suspended the market reacted immediately as the anticipation of additional bill supply caused yields to back-up. As we anticipated the Federal Open Market Committee ("FOMC") would hike rates at their March meeting, duration profiles would have typically shortened. However, partly due to the additional bill supply, pricing in the market fairly compensated you for investments in longer tenors. As such, our Investment duration was managed higher as we approached the meeting.

As Treasury bill supply typically follows seasonal issuance patterns, supply turned negative as we approached the 15 April tax date. This was especially so during this tax season as it was announced that collections were up 21% from the prior year. As such, the market experienced significant Treasury bill paydowns past early April. The reduced supply of Treasuries and with it lower yields had impacted our investment decisions. Additionally, we did expect the FOMC to again hike interest rates at their June meeting followed by high probabilities for additional hikes in both September, which was ultimately delivered, and December giving the market four total hikes for 2018. For these reasons, our investment strategy had ended the period biased toward a more conservative structure with a shorter duration profile.

INVESTMENT MANAGER'S REPORT (continued)

PERFORMANCE AND ACTIVITY (continued)

Institutional US Treasury Fund (continued)

Through the fourth quarter of 2018 we expect Treasury bill supply to increase which should put upward pressure on yields across the curve. Longer tenor trades will be selective while allowing for duration room to extend should opportunities arise.

MARKET REVIEW

Institutional Euro Assets Liquidity Fund Institutional Euro Government Liquidity Fund Institutional Euro Liquidity Fund Institutional Euro Ultra Short Bond Fund

During the reporting period of the twelve months ending 30 September 2018, the ECB maintained interest rates at their current level. However, the ECB announced that they would taper their quantitative easing ("QE") programme, down to EUR 15 billion a month until December 2018 and net asset purchases will be halted in December. Importantly, both the tapering and ending of net asset purchases are subject to incoming data confirming the Governing Council's medium-term inflation outlook. The ECB also stated that maturing debt will be reinvested for as long as necessary. In addition, the ECB offered clarity on rates, which they have previously stated will stay on hold until 'well beyond' the end of the QE programme. In their statement they pledged to keep interest rates at current record lows 'at least through the summer of 2019.'

The Euribor curve stayed relatively flat in the front-end of the curve with the three and six-month at (0.32)% and (0.27)%, respectively. However, 12-month Euribor is beginning to push upward and now sits at (0.16)% due to the expectation that the ECB will begin looking at interest rate hikes after summer 2019.

Institutional Sterling Government Liquidity Fund Institutional Sterling Liquidity Fund Institutional Sterling Ultra Short Bond Fund

During the reporting period of the twelve months ending 30 September 2018, the Bank of England's ("BoE") MPC elected to raise interest rates two times, increasing the bank rate from 0.25% to 0.75%.

In September, the MPC highlighted that growth has been stronger than expected and therefore they revised their third quarter gross domestic product ("GDP") forecast up to 0.5% from 0.4%. In addition, they noted that Brexit uncertainty has increased since August and will remain the biggest challenge that the BoE faces moving forward. Lastly, they reiterated their view that ongoing tightening is likely, and that 'limited and gradual' rate increases will be needed over the next few years.

LIBOR increased throughout the period due to the multiple increases in the bank rate with the three, six and twelve-month LIBOR levels ending the period at 0.80%, 0.90% and 1.06%, respectively.

Institutional US Dollar Liquidity Fund Institutional US Dollar Ultra Short Bond Fund Institutional US Treasury Fund

During the reporting period, the FOMC increased the Federal Funds target range four times, at the December, March, June, and September meetings. As of 30 September 2018, the overnight target range stands at 2.00 – 2.25%.

At the beginning of the reporting period, our strategy was focused on capitalising on the recent repricing higher of the rates curve and widening of credit spreads related to year end funding pressures. We took that opportunity and spread duration by adding 1 year fixed rate corporate bonds at 1.90% to 2.15%.

The first half of 2018 was marked by massive bill supply and a related material widening of LIBOR-OIS. On the heels of the widest front-end credit spreads witnessed since 2008, we found value in 6-month to 12-month fixed rate commercial paper and certificates of deposit. We also looked to add 12-month to 24-month floating rate notes which would protect the Funds from rising rates and reset off of an elevated LIBOR. Toward the end of the reporting period, the Funds took a more defensive stance as LIBOR-OIS had retraced all of the widening seen in the first half of 2018.

At the end of the reporting period, FOMC chairman Jerome Powell had communicated to markets his particularly optimistic outlook for the economy and that the Federal Reserve ("Fed") is "a long way" from neutral on interest rates, resulting in a further repricing higher of front end rates.

INVESTMENT MANAGER'S REPORT (continued)

MARKET REVIEW (continued)

A combination of strategies was employed during the course of the 12-month period, all shared a prevailing theme; overweight high-quality first tier floating-rate credit investments and underweight U.S. government securities while concurrently managing to a higher than mandated short-term liquidity position. At the beginning of the reporting period, in anticipation of a 25 basis points rate increase at the 13 December 2017 FOMC meeting and in preparation of potential seasonal outflows immediately following, a conservative duration posture was employed. This was achieved by targeting investments maturing 60-days and shorter, specifically prior to the end of 2017. Shortly in the new year and immediately following the resolution of the debt ceiling limit in early February, the U.S. Treasury issued roughly \$332 billion net new supply over a 5-week period ending 29 March 2018. The issuance, combined with Fed Fund futures projecting the first rate increase of the year to occur at the March FOMC meeting and an ongoing conservative duration posture by various cash accounts in anticipation of potential outflows in response to the repatriation of assets held offshore by domestic corporations, resulted in a significant backup in the short credit market. 3-month LIBOR, when measured from the start of the year to period ending 29 March 2018, rose 62 basis points and OIS (Overnight Index Swap) moved to projecting three 0.25% rate increases this year up from two earlier in the year. Yields of first-tier fixed and floating-rate credit maturing 3 to 12-months cheapened and/or widened as much as 8 to 48 basis points over the same time period. In response to the move and to take advantage of the backup, cash was allocated to credit, fixed and floating-rate investments maturing out to 12-months with an overweight to 3-month fixed. As the massive amount of bill supply was slowly absorbed by the market, levels of credit gradually normalised and LIBOR-OIS tightened to 20 basis points. In fact, shortly before the reporting period closed, credit spreads hit a floor, essentially erasing the back-up earlier in the year.

To end the period, the WAM and weighted average life ("WAL") of the Fund stood at 27 and 71 days respectively. Liquidity, when measured 5-business days and in, measured 39% and total assets equaled \$42.8 billion. Of note, in August, assets reached an all time high during the period at \$47.6 billion.

Outlook

Institutional Euro Assets Liquidity Fund Institutional Euro Government Liquidity Fund Institutional Euro Liquidity Fund Institutional Euro Ultra Short Bond Fund

Despite the ECB announcing the intended end of their QE programme and forward guidance on rates, excess liquidity will continue to rise through December 2018 which will keep downward pressure on short end euro rates. The ECB's forward guidance remains dependent on their medium-term inflation outlook; therefore, we will keep a keen eye on inflation and other key economic data and how it evolves over the coming months.

Institutional Sterling Government Liquidity Fund Institutional Sterling Liquidity Fund Institutional Sterling Ultra Short Bond Fund

Moving forward, in our opinion the ongoing Brexit negotiations will be the dominant concern of the BoE and will hold the key to the path of interest rates. A successful outcome to Brexit negotiations in the form of a 'soft Brexit' will likely lead to 'limited and gradual ongoing tightening' over the forecasted horizon. While a no deal or 'hard Brexit could potentially lead to a reversal of the MPC's August rate hike.

Institutional US Dollar Liquidity Fund Institutional US Dollar Ultra Short Bond Fund Institutional US Treasury Fund

We continue to anticipate a 0.25% increase in the Fed Funds target rate range by the FOMC in December. While international trade dynamics could eventually become a headwind to economic growth, further rate hikes on a quarterly basis are possible in our view over much of 2019 as long as financial conditions remain reasonably accommodative. By our estimation, credit spreads should remain stable in the weeks ahead. That said, as we move into November and December we believe that increased U.S. Treasury bill issuance, an ongoing contraction in liquidity in the banking system from the normalisation of the Fed's balance sheet, and year-end balance sheet pressures at certain global systemically important banks could contribute to modest credit spread widening later in the year.

BlackRock Investment Management (UK) Limited BlackRock Capital Management, Inc.

DIRECTORS' REPORT

The Directors present their report and financial statements for the year ended 30 September 2018.

Statement of Directors' responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Irish law, Financial Reporting Standard 102 ("FRS 102"), the financial reporting standard applicable in the United Kingdom and Republic of Ireland issued by the Financial Reporting Council and in compliance with the Irish Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations").

Irish Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company for that year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis, unless it is appropriate to presume that the Company will not continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper books of accounts which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with FRS 102 and comply with the Irish Companies Act 2014 (as amended) and the UCITS Regulations. In this regard J.P. Morgan Administration Services (Ireland) Limited has been appointed for the year for the purpose of maintaining proper books of accounts and for preparing the financial statements. Accordingly, the books of accounts are kept at the following address:

200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

The Directors are also responsible for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors have entrusted the assets of the Company to the Depositary for safekeeping and in this regard the Directors have appointed J.P. Morgan Bank (Ireland) plc as Depositary. The address at which this business is conducted is as follows:

200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

The financial statements are published on the BlackRock website. The Directors, together with the Manager and BlackRock Advisors (UK) Limited are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Corporate Governance

The Board is committed to maintaining the highest standards of corporate governance and is accountable to its shareholders for the governance of the Company's affairs. The Board has put in place a framework for corporate governance which it believes is appropriate for a collective investment scheme and which will enable the Company to comply with the relevant provisions of the Irish Funds Industry Association Corporate Governance Code for Collective Investment Schemes and Management Companies (the "IFIA Code") effective as of 1 January 2012 which is available at: https://www.irishfunds.ie/regulatory-technical/corporate-governance.

DIRECTORS' REPORT (continued)

Corporate Governance (continued)

The Company has voluntarily adopted the IFIA Code and has applied the IFIA Code to the Company for all accounting periods beginning on or after 1 January 2012.

The Board considers that the Company has complied with each of the provisions contained within the IFIA Code throughout this accounting period.

The Company is also subject to corporate governance practices imposed by:

- i. The Companies Act 2014 (as amended) may be obtained at http://www.irishstatutebook.ie/home.html;
- ii. The Articles of Association of the Company which are available for inspection at the registered office of the Company; and
- iii. The Central Bank in their UCITS Notices and Guidance Notes which can be obtained from the Central Bank's website at:http://www.centralbank.ie.

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Administrator to maintain the accounting records of the Company are required to be approved by the Board of Directors of the Company and filed with the Central Bank. The financial statements are prepared in accordance with applicable Irish law and Generally Accepted Accounting Practice in Ireland. The accounting information given in the annual report is required to be audited. The Auditors' report, including any qualifications, is reproduced in full in the annual report of the Company.

Shareholders' meetings are governed by the Articles of Association of the Company and the Irish Companies Act 2014 (as amended). Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting ("AGM") of the Company within fifteen months of the date of the previous AGM. Not less than twenty one days notice of every AGM and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days notice must be given in the case of any other general meeting unless the Auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitute a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him. The chairman of a general meeting of the Company or at least five members present in person or by proxy or any holder or holders of shares present in person or by proxy representing at least one tenth of the total voting rights of all the shareholders having the right to vote at such meeting may demand a poll.

Mr Paul McNaughton and Mr Paul McGowan are deemed to be independent Directors of the Company in that they are deemed to be independent in character and judgement and free from relationships or circumstances which may affect, or could appear to affect, each Director's judgement. They are independent of the Manager, the Investment Manager and other third party service providers such as the Administrator and Depositary.

The business of the Company is managed by the Directors, who meet once a month. The Directors delegate certain functions to the Manager and the Depositary. In turn the Manager appoints the Administrator (to whom certain administration functions are delegated) and the Investment Manager (to whom principal distribution and investment management functions are delegated). A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two Directors.

Effective 31 March 2013, the Board of Directors established a Nominations Committee comprising a majority of independent Directors and appointed Mr Paul McNaughton as the independent Chairman. This Committee is responsible for reviewing the composition of the Board and Board Committees to ensure they are properly constituted and balanced in terms of skills, experience and diversity. The Nominations Committee meeting took place on 28 November 2018.

DIRECTORS' REPORT (continued)

Corporate Governance (continued)

The Nominations Committee, together with the Board, acknowledges the importance of diversity to enhance its operations. During the selection process the Board and Nominations Committee are committed to selecting those with diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes. The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each director to contribute individually, and as part of the board team, to the effectiveness of the Board. Subject to that overriding principle, the Board believe that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst board members is of great value when considering overall board balance in making new appointments to the Board. The Board's priority is to ensure that it continues to have strong leadership and the relevant skills to deliver the business strategy. The implementation of the Board's diversity on the Board and leads succession planning for appointments to the Board. The Nominations Committee will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminatory. The Board's policy is to aspire to have women make up at least 30% of the Board's membership and currently has a female representation of 20%. The current Board composition reflects diverse age, gender, educational and professional backgrounds.

Also effective 31 March 2013, the Board of Directors established an Audit Committee comprising two independent Directors including the Chairman. Mr Paul McGowan was appointed independent Chairman of the Audit Committee. The Audit Committee met twelve times during the period in order to discharge its duties and it reported directly to the Board. Any matters which came before the Audit Committee and which required the consideration or a decision of the Board are immediately escalated to the Board.

Results and dividends

The results and dividends for the year of the Company are set out in the Income Statement.

The Manager has made a successful application of "Reporting Fund" status to apply to certain share classes under the Statutory Instrument 2009/ 3001 (The Offshore Funds (Tax) Regulations 2009). A list of the share classes which currently have 'reporting fund' status is available at https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds.

Significant events since the year end

The significant events which have occurred since the Balance Sheet date are set out in the notes to the financial statements.

Directors' and Company Secretary's interests and transactions

The Directors and Company Secretary had no interest in the shares of the Company during or at the end of the year to 30 September 2018 (2017: Nil).

Barry O'Dwyer, David Moroney and Jessica Irschick are non-executive Directors of the Company and also employees of the BlackRock Group.

No Director had at any time during the year, a material interest in any contract of significance, in relation to the business of the Company (2017: Nil).

Going concern

The financial statements of the Company have been prepared on a going concern basis. The Company is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Funds are reviewed on a regular basis throughout the financial year. Therefore the Directors believe that the Company will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Company.

Review of business and future developments

A review of market activities can be found in the Investment Manager's report.

Risk management objectives and policies

Please refer to note 4, Financial instruments and risks.

DIRECTORS' REPORT (continued)

Independent auditors

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Following the 2017 audit tender process, the Directors recommend the appointment of Ernst & Young as independent auditors, in accordance with section 380 of the Companies Act 2014 (as amended).

Directors' Compliance Statement

In accordance with Section 225 of the Companies Act 2014 (as amended), the Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations and confirm that:

- 1. A compliance policy has been prepared setting out the Company's procedures (that, in the Directors' opinion, are appropriate to the Company) for ensuring compliance by the Company with its relevant obligations;
- 2. An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Company's relevant obligations; and
- 3. An annual review procedure has been put in place to review the Company's relevant obligation and ensure a structure is in place to comply with these obligations.

On behalf of the Board of Directors

Paul McNaughton

Director

Paul McGowan Director

23 January 2019

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Institutional Cash Series plc ('the Company') for the year ended 30 September 2018 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) UCITS Regulations, 2011, as amended by the European Communities (Undertakings for Collective Investment in Transferable Securities) (Amendment) UCITS Regulations, 2016 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1))(Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion the Company has been managed in that period, in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary must state why this is the case and outline the steps which we have taken to ensure the situation is rectified.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the provisions of its Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) Otherwise in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) Otherwise in accordance with the provisions of the Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulation.

For and on behalf of

J.P. Morgan Bank (Ireland) plc 200 Capital Dock 79 Sir John Rogerson's Quay Dublin 2, D02 RK57 Ireland

23 January 2019

Report on the audit of the financial statements

Opinion

In our opinion, Institutional Cash Series Plc's financial statements:

- give a true and fair view of the Company's and funds' assets, liabilities and financial position as at 30 September 2018 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and audited financial statements, which comprise:

- the Balance Sheet as at 30 September 2018;
- the Income Statement for the year then ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders for the year then ended;
- the Schedule of Investments for each of the funds as at 30 September 2018; and
- the notes to the financial statements for the Company and for each of its funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company.

We have provided no non-audit services to the Company in the period from 1 October 2017 to 30 September 2018.

Our audit approach

Overview

Materiality

• Overall materiality: 50 basis points of Net Assets Value ("NAV") at 30 September 2018 for each of the Company's funds.

Audit scope

• The Company is an open-ended investment Company with variable capital and engages BlackRock Asset Management Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the funds at an individual level.

Key audit matters

- Existence of financial assets at fair value through profit or loss.
- Valuation of financial assets at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

| Key audit matter | How our audit addressed the key audit matter |
|---|---|
| <i>Existence of financial assets at fair value through profit or loss</i> See significant accounting policies a) "Investments" in the notes to the financial statements of the Company for further details. The financial assets at fair value through profit or loss included in the balance sheet of each fund are held in the funds' name at 30 September 2018. This is considered a key audit matter as it represents the principal element of the financial statements. | at 30 September 2018, agreeing amounts held to the accounting records. We obtained independent confirmation from the counterparties for Reverse Repurchase Agreements and Time |
| Valuation of financial assets at fair value through profit or loss See significant accounting policies a) "Investments" and financial instruments and risks d) "Valuation of financial instruments" in the notes to the financial statements of the Company for further details. The financial assets at fair value through profit or loss included on the balance sheet of the fund at 30 September 2018 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland. This is considered a key audit matter as it represents the principal element of the financial statements. | of the Bonds and Liquidity Instruments, (excluding Time Deposits), to third party vendor sources. We tested the valuation of the Reverse Repurchase Agreements and Time Deposits at fair value by independently obtaining confirmation from the counterparties, and agreeing the par value of the Reverse Repurchase Agreements and Time Deposits to the accounting records. |

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 30 September 2018 there are 10 funds operating. The Company's Balance Sheet, Income Statement, and Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders are an aggregation of the positions and results of the funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to BlackRock Investment Management (UK) Limited and/or BlackRock Capital Management Inc., as appropriate, (the 'Investment Manager') and to J.P. Morgan Administration Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed J.P. Morgan Bank (Ireland) plc (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's funds as follows:

| Overall materiality and how determined it | we 50 basis points (2017: 50 basis points) of Net Assets Value ("NAV") at 30 September 2018 for each of the Company's funds. |
|---|---|
| Rationale for benchmark applied | We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a fund level, taking account of the capital and income returns. |

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 5 basis points of each fund's NAV, for NAV per share impacting differences (2017: 5 basis points of each fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's and funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's and funds' ability to continue as going concerns.

Reporting on other information

The other information comprises all of the information in the Annual Report and audited financial statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

Directors' Report

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 September 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Corporate governance statement

- In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 and regulation 6 of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 is contained in the Corporate Governance Statement.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' responsibilities the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 9 December 1998 to audit the financial statements for the year ended 30 September 2000 and subsequent financial periods. The period of total uninterrupted engagement is 19 years, covering the years ended 30 September 2000 to 30 September 2018.

Mary Ruane for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm Dublin 23 January 2019

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 September 2018

1. COMPANY DETAILS

Institutional Cash Series Plc is an open-ended investment company with variable capital. It has segregated liability between its Funds and is organised under the laws of Ireland and is regulated by the CBI as a public limited company pursuant to the Companies Act 2014 (as amended) and the UCITS Regulations.

The registered office of the Company is J.P. Morgan House, International Financial Services Centre, Dublin 1, Ireland.

2. BASIS OF PREPARATION

The financial statements have been prepared for the year ended 30 September 2018.

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

Statement of compliance

The financial statements of the Company are prepared in accordance with Financial Reporting Standard 102 ("FRS 102"), the financial reporting standard applicable in the United Kingdom and Republic of Ireland issued by the Financial Reporting Council and the CBI's UCITS Regulations.

The Company has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting cash flow statements.

The information required by FRS 102 to be included in a Statement of Comprehensive Income is contained in the Income Statement of each Fund.

Basis of measurement

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. The financial statements for the Funds are prepared on a going concern basis.

All references to net assets throughout this document refer to net assets attributable to redeemable participating shareholders unless otherwise stated.

Functional and presentation currency

Foreign currency items included in the Company's financial statements are measured using the functional currency of the Company which is Pound Sterling.

Foreign currency items included in each Fund's financial statements are measured in the Fund's functional currency which is shown in the table below:

| Fund name | Currency |
|--|----------|
| Institutional Euro Assets Liquidity Fund | EUR |
| Institutional Euro Government Liquidity Fund | EUR |
| Institutional Euro Liquidity Fund | EUR |
| Institutional Euro Ultra Short Bond Fund | EUR |
| Institutional Sterling Government Liquidity Fund | GBP |
| Institutional Sterling Liquidity Fund | GBP |
| Institutional Sterling Ultra Short Bond Fund | GBP |
| Institutional US Dollar Liquidity Fund | USD |
| Institutional US Dollar Ultra Short Bond Fund | USD |
| Institutional US Treasury Fund | USD |

The presentation currency of the Funds' financial statements is the same as the functional currency.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

2. BASIS OF PREPARATION (continued)

Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency.

The following Funds held cross umbrella investments as at 30 September 2018, the market value of which represents 0.24% of the combined net assets (30 September 2017: 0.19%). These investments have not been eliminated for presentation purposes of the combined results.

| Fund | Cross Umbrella Investment | Value GBP ('000) |
|---|--|------------------|
| Institutional Euro Assets Liquidity Fund | Institutional Euro Liquidity Fund | 178,111 |
| Institutional Euro Ultra Short Bond Fund | Institutional Euro Liquidity Fund | 23,242 |
| Institutional Sterling Ultra Short Bond Fund | Institutional Sterling Liquidity Fund | 41,918 |
| Institutional US Dollar Ultra Short Bond Fund | Institutional US Dollar Liquidity Fund | 17,772 |

The opening NAV of the Company has been restated at the exchange rate ruling at 30 September 2018. The resulting gain of GBP 1,475,202,000 is due to the movement in exchange rates between 30 September 2017 and 30 September 2018 (year ended 30 September 2017: loss of GBP (764,330,000)). This is a notional loss which has no impact on the NAV of the individual Funds.

Please refer to note 19 of the financial statements for details of exchange rates.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Funds' accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the actual results. Actual results may differ from these estimates and these differences could be material. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities predominantly relate to the fair value of financial instruments, as discussed in the Significant Accounting Policies.

The Funds have changed their valuation inputs for measuring fair value for listed financial assets and liabilities, for financial statements purposes, to be in line with the valuation methodology prescribed in the prospectus for the purpose of determining NAV, as a practical expedient for measuring fair value. The change in valuation inputs is considered to be a change in estimate in accordance with FRS 102.

Changes in data inputs and assumptions about these factors could affect the reported fair value of Financial Derivative Instruments ("FDIs") and the differences could be material.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Investments

To achieve their investment objectives as outlined in the prospectus, the Funds may invest in listed and unlisted investments, collective investment schemes ("CIS"), liquidity instruments, bonds, reverse repurchase agreements ("reverse repos") and FDIs.

Fair value measurement and recognition

On initial application of FRS 102, in accounting for its financial instruments a reporting entity is required to apply either a) the full provisions of section 11 "Basic Financial Instruments" and section 12 "Other Financial Instruments" of FRS 102, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of Sections 11 and 12 of FRS 102; or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and/or IAS 39 (as amended following the publication of IFRS 9) and only the disclosure requirements of Sections 11 and 12 as they apply to financial institutions.

Classification of investments

The Funds classify their investments as financial assets and financial liabilities at fair value through profit or loss. The category of financial assets and financial liabilities through profit or loss comprises financial instruments designated by the Board at inception, as being at fair value through profit or loss and/or held for trading

Financial assets and financials liabilities designated at fair value through profit or loss, at inception, are those that are managed and their performance evaluated on a fair value basis in accordance with the documented investment strategy.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Recognition/derecognition of investments

Purchases and sales of investments are accounted for on the day the trade transaction takes place. Investments are derecognised when the rights to receive cash flows from the investments have expired or the risks and rewards of ownership have all been substantially transferred.

Realised gains and losses on disposals are calculated using the first-in-first-out ("FIFO") method and are reflected as net gains/(losses) on financial assets/(liabilities) at fair value through profit or loss in the Income Statement.

a) Investments (continued)

Initial measurement of investments

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities are presented in the Income Statement, in the period in which they arise. Transaction costs on purchases and sales of investments are included in the net gains/(losses) on financial assets/(liabilities) at fair value through profit or loss in the Income Statement.

Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

i) Listed investments

As at year end, investments which are quoted, listed, traded or dealt on a market or exchange are based on quoted prices which, for the purposes of the financial statements is in line with the valuation methodology prescribed in the prospectus.

ii) Unlisted investments

In the case of an investment which is not quoted, listed or dealt in on a recognised market, or in respect of which a listed, traded or dealt price or quotation is not available at the time of valuation, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm or corporation (appointed for such purpose by the Board in consultation with the Investment Manager and approved for the purpose by the Depositary), and such fair value shall be determined on the basis of the probable realisation value of the investment.

The Board shall be entitled to adopt an alternative method of valuing any particular asset if they consider that the methods of valuation set out above do not provide a fair valuation of a particular asset and provided that the alternative method of valuation is approved by the Depositary.

iii) Collective investment schemes ("CIS")

The Investment Manager may also pursue the Funds' investment objectives by allocating the Funds' assets to other collective investment vehicles including those that are managed by the Investment Manager or one of its affiliates.

The fair value of any investment which is a unit of participation in an unlisted or money market CIS shall be calculated by reference to the unaudited NAV, on the valuation date of such unit of participation as calculated by the administrator of the CIS and in accordance with the requirements of the scheme of which the relevant investment is a unit/share of participation.

The unaudited NAV of the underlying CIS is reflected gross of any redemption costs which may potentially arise upon redemption from the underlying CIS.

Any potential subscription or redemption costs are at the discretion of the board of the underlying CIS, in both the value applied and any partial or full waiver thereof.

The underlying CIS may be subject to various fees and expenses, which may include management fees, performance fees, administration fees or depositary fees, or a combination of those fees, attributable to the relevant unit/share class in which the Fund is invested.

iv) Liquidity instruments

Commercial papers and certificates of deposit held are valued based on the mid-market price at the year-end date.

Time deposits are short-term highly liquid investments valued at par and are readily convertible to known amounts of cash and are held for the purpose of meeting short-term cash commitments.

The liquidity instruments are disclosed at fair value through profit or loss in the Schedules of Investments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

a) Investments (continued)

Valuation of investments (continued)

v) Banker's acceptance ("BA")

BAs are non interest-bearing notes sold at a discount and redeemed by the accepting bank at maturity for the full face value. Technically, a BA is a draft or bill of exchange generated from foreign or domestic trade and stamped 'accepted' by a bank. The bank's acceptance makes the BA an irrevocable primary obligation of the accepting bank. Both the accepting bank and the ultimate borrower guarantee payment. BAs may be issued by either domestic Canadian banks, the Canadian subsidiaries of foreign banks or the Canadian branches of foreign banks. BAs are valued using vendor prices.

vi) Financial derivative instruments ("FDIs")

The Funds' derivatives comprise of forward currency contracts which are recognised initially at fair value. Transaction costs are expensed in the Income Statement. Subsequent to initial recognition they are measured at fair value with changes in fair value recognised in the Income Statement.

vii) Reverse repurchase agreements ("reverse repos")

Securities purchased under agreements to resell are treated as collateralised financing transactions and are carried at the amounts at which the securities were acquired which approximates fair value. Reverse repos are financial contracts where the lender buys securities for cash from a borrower and agrees to resell those securities at a later date.

It is the policy of the Company to obtain possession of collateral on the settlement date with a market value at least equal to the principal amount loaned under resale agreements.

The Funds monitor the collateral fair value relative to the amounts due under the agreements, including accrued interest, throughout the lives of the agreements and, when necessary, requires transfer of cash or securities in order to manage exposure and liquidity.

Interest earned on the securities purchased is recorded as income in the Income Statement. Details of the non-cash collateral held at the year end are disclosed in the notes to the financial statements.

b) Income recognition

i) CIS income

CIS income is recognised when the distributions are declared by the underlying CIS.

ii) Bond interest income

Bond interest income is recognised as income using the effective interest method.

iii) Other interest income

Other interest is recognised as income using the effective interest method.

iv) Amortisation/accretion of premiums/discounts on purchase of interest-bearing securities

Premiums or discounts on the purchase of bonds are being amortised over the life of the investment using the effective interest method.

c) Fees and expenses

Expenses are accounted for on an accruals basis with the exception of transaction charges relating to the acquisition and realisation of investments which are charged as incurred.

Expenses directly attributable to a class of shares are paid out of the assets of the Fund attributable to the relevant class and debited as an expense against the NAV of each class of shares.

Other interest expense is accrued on a daily basis using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Negative yield on financial assets

Negative yield on financial assets relating to interest from a negative effective interest rate on a financial asset is accreted daily and is recognised in the Income Statement over the life of the underlying instrument.

e) Distributions

Distributions are accounted for as finance costs in the Income Statement.

The Board may declare distributions on the shares of the distributing classes in respect of each financial year. Distributions may be paid out of the net income of a Fund.

Distributions will not be made to the shareholders of the accumulating share classes. The income and other profits will be accumulated and reinvested in the Fund on behalf of these shareholders.

As previously approved by shareholders, the option exists to implement a reverse distribution mechanism ("RDM") in relation to the distributing shares in the Funds. The RDM allows, in the event of negative yields in money markets, the cancellation of distributing shares or reduction of accumulating shares to the value of the negative income should the situation arise.

The implementation of the RDM has resulted in the cancellation of shares in the Institutional Euro Assets Liquidity Fund, the Institutional Euro Government Liquidity Fund, the Institutional Euro Liquidity Fund and Institutional Sterling Government Liquidity Fund. Income attributable to the RDM is recognised in the Income Statement.

f) Reverse Distribution Mechanism ("RDM")

RDM allows in the event of negative yields in money markets, the cancellation of distributing shares or reduction of accumulating shares to the value of the negative income in accordance with the provisions of the prospectus. Income attributable to the RDM is recognised in the Income Statement.

g) Redeemable participating shares

Subscriptions and redemptions are accounted for on the day the trade transaction takes place.

The redeemable participating shares are redeemable at the option of the shareholders, and are classified as financial liabilities. Any distributions on these shares are recognised in the Income Statement as finance costs.

The redeemable participating shares can be redeemed for cash equal to a proportionate share of the NAV calculated in accordance with the Company's prospectus. The redeemable participating shares are carried at the redemption amount that is payable at the balance sheet date if the shareholder exercised their right to put the shares back to the Company.

The amount disclosed as being attributable to the redeemable participating shares, either individually or in aggregate, is reflected gross of any duties and charges which may potentially arise upon redemption from the Company.

Any potential duties and charges are at the discretion of the Directors of the Board.

The implementation of the RDM has resulted in the cancellation of shares in the Institutional Euro Assets Liquidity Fund, Institutional Euro Government Liquidity Fund, Institutional Euro Liquidity Fund and Institutional Sterling Government Liquidity Fund. The Cancellation of shares attributable to the RDM are recognised in the Statement of Changes in net assets attributable to redeemable participating shareholders.

h) Transaction costs

Transaction costs on purchases or sales of financial assets or financial liabilities are included in net gains/(losses) on financial assets at fair value through profit or loss within the Income Statement of each Fund. Separately identifiable transaction costs are disclosed in the notes to the financial statements. Depositary transaction costs are not separately identifiable as they form part of the management fee of the Fund, see notes to the financial statements for more details.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Foreign currency

Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction. Subscriptions and redemptions of shares in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the year end.

The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in net gains/(losses) on financial assets/(liabilities) at fair value through profit or loss in the Income Statement.

j) Receivables

Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition. They are subsequently measured at amortised cost using the effective interest method less provision for impairment.

k) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost. The difference between proceeds and the amount payable is recognised over the period of the payable using the effective interest method.

I) Cash

Cash in the Balance Sheet may include deposits held on call with banks which are subject to an insignificant risk of changes in value.

Bank overdrafts are classified as liabilities in the Balance Sheet.

m) Cash equivalents

Cash equivalents include short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

n) Duties and charges

In certain market conditions, the difference between the price at which assets are valued for the purpose of calculating the NAV and the market price at which such assets were bought, as a result of a subscription, or sold, as a result of a redemption, may be significant.

This may result in an adjustment to the subscription/redemption price for duties and charges, in order to protect the interests of the other shareholders in the Company by mitigating the effects of dilution. This adjustment is calculated by reference to the costs of dealing in the underlying investments of the Funds, including any dealing spreads, which can vary with market conditions and thus vary over time.

Where duties and charges are applied in the context of a subscription or redemption, they will have an impact on the value of an investment of a subscribing or redeeming investor and as a result are reflected as part of proceeds from issue of redeemable participating shares/payments on redemption of redeemable participating shares in the Statement of Changes in net assets attributable to redeemable participating shareholders.

o) Collateral

Cash collateral provided by the Funds is identified on the Balance Sheet as cash collateral and is not included as a component of cash and cash equivalents.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

o) Collateral (continued)

Cash collateral provided to the Funds by counterparties is identified on the Balance Sheet as cash collateral payable. The Funds may reinvest this cash collateral and the assets purchased are included in financial assets at fair value through profit or loss on the Balance Sheet.

For collateral received from counterparties other than cash, a disclosure of the collateral provided is made in the notes to the financial statements.

p) Adjustment to align to the valuation methodology as set out in the prospectus

The difference between the NAV stated in the financial statements and the valuation methodology indicated in the prospectus, results in an adjustment between the net assets as per the financial statements and the dealing NAV. There was no difference between the net assets per the financial statements and the dealing NAV in the current year.

Establishment costs are amortised over a period of 60 months for the purposes of calculating the dealing NAV as detailed in the prospectus. FRS 102 requires such costs to be expensed when incurred therefore, for the purposes of the financial statements, any unamortised establishment costs have been recognised in full in the Income Statement in the year in which they were incurred.

Consequently, the differences described above adjust the carrying amount of the net assets attributable to redeemable participating shareholders and the cumulative differences are included in "Adjustment to align to the valuation methodology set out in the prospectus" in the notes to the financial statements.

q) Equalisation on distributions

For tax and accounting purposes, the Board implements income equalisation arrangements to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the accounting year.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS

Introduction and overview

The Funds' investment activity exposes them to the various types of risk which are associated with the financial instruments and markets in which they invest. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in the Funds.

Risk management framework

The Board reviews quarterly investment performance reports and receives semi-annual presentations from the Investment Manager covering the Company's performance and risk profile during the year. The Directors have delegated certain duties and responsibilities to the Manager with regard to the day-to-day management of the Company. The Manager has in turn delegated the day-to-day administration of the investment programme to the Investment Manager. The Investment Manager is also responsible for ensuring that the Company is managed within the terms of its investment guidelines and limits set out in the prospectus. The Board reserves to themselves the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Company. The Manager has appointed a Risk Manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised group which performs an independent risk management function. The RQA Group independently identifies, measures and monitors investment risk. The RQA Group tracks the actual risk management practices being deployed across the different Funds. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place across the Funds. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

a) Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by other price, currency and interest rate movements. It represents the potential loss the Funds may suffer through holding market positions in the face of market movements.

The Funds are exposed to market risk by virtue of their investment into CIS, liquidity instruments, bonds, reverse repos and FDIs.

A key metric the RQA Group uses to measure market risk is Value at Risk ("VaR") which encompasses price, currency and interest rate risk. The RQA Group is a centralised group which performs an independent risk management function. The group independently identifies, measures and monitors investment risk.

VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market movements in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on a confidence level of 99% with a holding period of 1 day and a historical observation period of not less than 1 year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% 1 day VaR means that the expectation is that 99% of the time over a 1 day period the Fund will lose less than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

It is noted that the use of VaR methodology has limitations, namely that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that the Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts will not occur more frequently.

The 1 day VaR as of 30 September 2018 and 30 September 2017 based on a 99% confidence level is outlined in the tables below and overleaf:

| Fund name | 30 September 2018 | 30 September 2017 |
|--|-------------------|-------------------|
| Institutional Euro Assets Liquidity Fund | 0.00% | 0.00% |
| Institutional Euro Government Liquidity Fund | 0.00% | 0.01% |
| Institutional Euro Liquidity Fund | 0.00% | 0.01% |
| Institutional Euro Ultra Short Bond Fund | 0.01% | 0.01% |

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

a) Market risk (continued)

| Fund name | 30 September 2018 | 30 September 2017 |
|--|-------------------|-------------------|
| Institutional Sterling Government Liquidity Fund | 0.00% | 0.00% |
| Institutional Sterling Liquidity Fund | 0.00% | 0.00% |
| Institutional Sterling Ultra Short Bond Fund | 0.01% | 0.01% |
| Institutional US Dollar Liquidity Fund | 0.01% | 0.00% |
| Institutional US Dollar Ultra Short Bond Fund | 0.01% | 0.00% |
| Institutional US Treasury Fund | 0.00% | 0.00% |

i) Market risk arising from foreign currency risk

Exposure to foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Funds may invest in securities denominated in currencies other than their functional currency. Consequently, the Funds are exposed to risks that the exchange rate of their functional currency relative to other currencies may change in a manner which has an adverse effect on the value of the portion of the Fund's assets which are denominated in currencies other than their own currency.

The Funds may also invest in CIS and FDIs with foreign currency exposures and thus gain further exposure to foreign currency risk.

Where the Funds invest in CIS they may have indirect exposure to foreign currency risk whereby the value of an underlying asset may fluctuate as a result of a change in foreign exchange rates of investments held which are denominated in currencies other than the underlying CIS's own currency.

Management of foreign currency risk

The Funds may also invest in forward currency contracts and thus gain further exposure to foreign currency risk. Exchange rate exposures are managed within parameters utilising forward currency contracts where required. The realised and unrealised gains or losses relating to these forward currency contracts are allocated to the relevant share class. The details of the open forward currency contracts in place at the year end date are disclosed in the Schedules of Investments.

ii) Market risk arising from interest rate risk

Exposure to interest rate risk

Interest rate risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Funds are exposed to interest rate risk specifically through their investments in interest bearing financial assets/liabilities at fair value through profit or loss. These securities are disclosed in the Schedules of Investments.

The Funds are also exposed to interest rate risk on their cash balances held at J.P. Morgan Bank (Ireland) plc. Cash held on deposit at J.P. Morgan Bank (Ireland) plc receives/incurs interest at the prevailing daily rates, which may be negative depending on the currency in which the cash is held (e.g. Euro).

The Funds also have indirect exposure to interest rate risk through their investments into CIS, whereby the value of an underlying asset may fluctuate as a result of a change in interest rates.

Management of interest rate risk

Interest rate risk exposure is managed by constantly monitoring the position for deviations outside of a pre-determined tolerance level and, when necessary, rebalancing back to the original desired parameters.

Cash is invested into CIS to generate a return to help offset any losses arising as a result of unfavourable movements in interest rates.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

a) Market risk (continued)

iii) Market risk arising from other price risk

Exposure to other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

The Funds are exposed to market price risk arising from their investments in CIS, liquidity instruments, bonds, supranational, reverse repos and FDIs. The exposure of the Funds to other price risk is the fair value of the investments held as shown in the Schedules of Investments of the Funds. The investment concentrations within the portfolios are disclosed in the Funds' Schedules of Investments by investment type.

Management of other price risk

By diversifying the portfolio, where this is appropriate and consistent with the Funds' objectives, the risk that a price change of a particular investment will have a material impact on the NAV of the Funds is minimised.

The other price risk inherent in the CIS holdings is monitored by the Investment Manager, by understanding the investment objectives of the underlying fund as well as their internal control policies and regular risk and performance reporting.

The investments into CIS are all investments into related party funds. Such CIS are subject to the same control procedures the Investment Manager employs for the Funds.

There is a risk that the valuation of the Funds may not fairly reflect the value of the investments in underlying funds at a specific time due to events outside the control of the Directors, which could result in significant losses or inaccurate pricing for the Funds. To mitigate this risk the Company may temporarily suspend the determination of the NAV of any Fund until a fair or reasonable valuation of the investments held can be realised.

b) Liquidity risk

Exposure to liquidity risk

Liquidity risk is the risk that the Funds will encounter difficulties in meeting obligations associated with financial liabilities.

Liquidity risk to the Funds arises from the redemption requests of investors and the liquidity of the underlying investments the Funds has invested in.

The Funds' shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of the Funds' NAV, excluding any duties and charges where applicable.

The Funds are therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands.

The Funds may invest in CIS which can impose notice periods or other restrictions on redemptions and this increases the liquidity risk of the Fund.

The Funds are also exposed to the liquidity risk of daily margin calls on FDIs.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

b) Liquidity risk (continued)

Exposure to liquidity risk (continued)

The table below details the Fund's liquidity analysis of its financial liabilities as at 30 September 2018. The table has been drawn up based on the undiscounted gross cash outflows relating to the contractual maturities of the financial liabilities:

| | Less than | 1-3 | 3 months to | | |
|---|-----------|----------|-------------|-------------|-----------|
| Liquidity analysis | 1 month | months | 1 year | than 1 year | Total |
| Institutional US Dollar Ultra Short Bond Fund | USD '000 | USD '000 | USD '000 | USD '000 | USD '000 |
| Payables | 16,444 | - | - | - | 16,444 |
| Gross cash outflows on forward currency contracts ¹ | 4,849 | - | 13,955 | - | 18,804 |
| Net asset value attributable to redeemable participating shareholders | 1,262,736 | _ | _ | - | 1,262,736 |

¹The outflows are off-set by inflows of USD 18,507,000 as at 30 September 2018.

The table below details the Fund's liquidity analysis of its financial liabilities as at 30 September 2017. The table has been drawn up based on the undiscounted gross cash outflows relating to the contractual maturities of the financial liabilities:

| | Less than | 1-3 | 3 months to | Greater | |
|---|-----------|----------|-------------|-------------|----------|
| Liquidity analysis | 1 month | months | 1 year | than 1 year | Total |
| Institutional US Dollar Ultra Short Bond Fund | USD '000 | USD '000 | USD '000 | USD '000 | USD '000 |
| Payables | 4,067 | - | - | - | 4,067 |
| Gross cash outflows on forward currency contracts ¹ | 37,607 | 15,996 | - | - | 53,603 |
| Net asset value attributable to redeemable participating shareholders | 694,206 | _ | _ | _ | 694,206 |

¹The outflows are off-set by inflows of USD 54,226,000 as at 30 September 2017.

As at 30 September 2018 and 30 September 2017, financial liabilities of all funds except Institutional US Dollar Ultra Short Bond Fund were payable within one month of the year end date.

Management of liquidity risk

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands. Asset disposals may also be required to meet redemption requests. However, timely sale of trading positions can be impaired by many factors including decreased trading volume and increased price volatility. As a result, the Funds may experience difficulties in disposing of assets to satisfy liquidity demands.

The Funds' liquidity risk is managed by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward-looking cash reports which project cash obligations. These reports allow them to manage their cash obligations. If redemption requests from all holders of shares in a Fund exceed more than 10% of the shares of the Fund in issue on any particular dealing day, the Directors shall be entitled, at their discretion, to refuse to redeem such excess number of shares in issue in the Fund. The shares which are not redeemed at any given dealing day shall be redeemed on each subsequent dealing day on a pro-rata basis in priority to any requests received thereafter. Duties and charges may also be charged as detailed in the Significant Accounting Policies note 3(n).

For the avoidance of doubt, none of the assets of the Funds are subject to special liquidity arrangements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

c) Credit / counterparty risk

Exposure to credit / counterparty risk

Counterparty credit risk arises from the failure of the counterparty to perform according to the terms of the contract. The Funds' exposure to counterparty credit risk is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from the Funds.

The investment concentrations within the portfolios are disclosed in the Schedules of Investments by investment type. CIS are classified as cash equivalents. Liquidity instruments are primarily classified by the country of issuer of the liquidity instruments. Bonds are primarily classified by the country of incorporation of the issuer. Reverse repos are primarily classified by the country of incorporation/issuer of the underlying securities that the Fund has agreed to repurchase from the counterparty.

All over the counter ("OTC") FDIs are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including total return swaps ("TRS") and contracts for difference ("CFDs")) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs. All non-cash collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement. The Funds' maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency and any net unrealised gains as disclosed in the Schedules of Investments.

The carrying value of financial assets together with cash held with counterparties best represents the Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of the ISDA Master Agreement and netting, which would reduce the overall counterparty credit risk exposure. Cash held as security by the counterparty to derivative contracts is subject to the credit risk of the counterparty.

Management of credit / counterparty risk

Credit risk is monitored and managed by BlackRock's Risk & Quantitative Analysis ("RQA") Counterparty & Concentration Risk Team. The BlackRock RQA Counterparty & Concentration Risk Team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty & Credit Officer and selected team members to whom specific credit authority has been delegated.

As such, counterparty approvals may be granted by the Chief Counterparty & Credit Officer or by identified RQA Counterparty Credit Risk Officers who have been formally delegated authority by the Chief Counterparty & Credit Officer.

The BlackRock RQA Counterparty & Concentration Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management processes. All prospective and existing counterparties require the approval of the BlackRock RQA Counterparty & Concentration Risk Team.

There were no past due or impaired assets as of 30 September 2018 (30 September 2017: Nil).

i) Depositary

Exposure to credit / counterparty risk from Depositary

The Depositary is J.P. Morgan Bank (Ireland) plc. Substantially all of the assets and cash other than the FDIs of the Funds are held by J.P. Morgan Bank (Ireland) plc at year end. The Funds' are exposed to credit risk through the use of J.P. Morgan Bank (Ireland) plc as Depositary for its investments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

c) Credit / counterparty risk (continued)

i) Depositary (continued)

Exposure to credit / counterparty risk from Depositary (continued)

Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to its cash and investments held by the Depositary to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the Schedules of Investments as well as cash and cash equivalents, as disclosed on the Balance Sheet of each Fund.

The Funds will be exposed to the credit risk of the Depositary, or any sub-custodian or other delegate used by the Depositary regarding cash balances held in accounts with same. In the event of insolvency or bankruptcy of the Depositary or any sub-custodian or other delegate used by the Depositary, the Funds will be treated as a general creditor of the Depositary. sub-custodian or other delegate used by the Depositary.

The Depositary does not have a credit rating, however, its parent company J.P. Morgan Chase Bank N.A. has a long-term credit rating from Standard & Poor's of A+ (30 September 2017: A+).

Management of credit / counterparty risk from Depositary

To mitigate the Funds' credit risk with respect to the Depositary, the Investment Manager employs specific procedures to ensure that the Depositary employed is a reputable institution and that the associated credit risk is acceptable to the Funds.

ii) Counterparties

All transactions in listed securities are settled/paid for upon delivery using approved counterparties. The risk of default is considered to be minimal as delivery of securities and payment is made simultaneously. The trade will fail if either party fails to meet its obligation.

Credit risk arising on transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

Management of counterparties

The Funds only transact with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies.

Cash held as security by the counterparties to FDIs, as disclosed on the Balance Sheet and Schedules of Investments, is subject to the credit risk of the counterparty.

The table below details the total number of derivative and liquidity instruments counterparties the Funds are exposed to, the maximum exposure to any one counterparty which is calculated on a net basis and the lowest long-term credit rating of any one counterparty (or its ultimate parent, if it is unrated):

| As at 30 September 2018 | Currency | Total number of counterparties | Maximum exposure to any one counterparty '000 | Collateral held '000 | Lowest credit rating of any one counterparty |
|---|----------|--------------------------------------|--|-------------------------|---|
| Institutional Euro Assets Liquidity Fund | EUR | 2 | 61,000 | - | A-1 |
| Institutional Euro Liquidity Fund | EUR | 11 | 400,000 | - | A-1 |
| Institutional Sterling Liquidity Fund | GBP | 12 | 2,000,000 | - | A-1 |
| Institutional US Dollar Liquidity Fund | USD | 11 | 1,305,000 | - | A-1 |
| Institutional US Dollar Ultra Short Bond Fund | USD | 3 | _ | _ | A-1 |

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

c) Credit / counterparty risk (continued)

ii) Counterparties (continued)

Management of counterparties (continued)

The table below details the total number of derivative and liquidity instruments counterparties the Funds are exposed to, the maximum exposure to any one counterparty which is calculated on a net basis and the lowest long-term credit rating of any one counterparty (or its ultimate parent, if it is unrated):

| As at 30 September 2017 | Currency | Total number of counterparties | Maximum exposure to any one counterparty '000 | Collateral held '000 | Lowest credit rating of any one counterparty |
|--|----------|--------------------------------------|--|-------------------------|---|
| Institutional Euro Assets Liquidity Fund | EUR | 1 | 150,000 | - | A-1 |
| Institutional Euro Liquidity Fund | EUR | 11 | 150,000 | Ι | A-1 |
| Institutional Sterling Government Liquidity Fund | GBP | 1 | 50,000 | - | A-1+ |
| Institutional Sterling Liquidity Fund | GBP | 15 | 400,000 | - | A-1 |
| Institutional US Dollar Liquidity Fund | USD | 10 | 900,000 | - | A-1 |
| Institutional US Dollar Ultra Short Bond Fund | USD | 4 | 319 | _ | A-2 |

iii) Debt securities

Issuer credit risk is the default risk of one of the issuers of any securities held by the Funds. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities.

The Funds' investments in bonds expose them to the default risk of the issuer with regards to interest or principal payments.

Management of credit / counterparty risk related to debt securities

To manage this risk, the Investment Manager, where appropriate and consistent with the Funds' objectives, invests in a wide range of securities and monitors the credit ratings of the investments as disclosed in the credit rating profile table.

The ratings of the debt securities are continually monitored by the BlackRock Portfolio Management Group ("PMG") and for nonrated or securities with subordinated or lower credit ratings, additional specific procedures are employed to ensure the associated credit risk is acceptable to the Funds.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

The table below details the credit rating profile of the bonds and liquidity instruments held by the Funds:

| As at 30 September 2018 | Currency | Investment grade % of Debt Securities | Non-investment grade % of Debt Securities | Not rated % of Debt Securities | Total % of Debt Securities |
|--|----------|--|--|--------------------------------------|----------------------------------|
| Institutional Euro Assets Liquidity Fund | EUR | 100.00 | - | - | 100.00 |
| Institutional Euro Government Liquidity Fund | EUR | 100.00 | - | - | 100.00 |
| Institutional Euro Liquidity Fund | EUR | 100.00 | - | - | 100.00 |
| Institutional Euro Ultra Short Bond Fund | EUR | 100.00 | - | - | 100.00 |
| Institutional Sterling Government Liquidity Fund | GBP | 100.00 | - | - | 100.00 |
| Institutional Sterling Liquidity Fund | GBP | 100.00 | - | - | 100.00 |
| Institutional Sterling Ultra Short Bond Fund | GBP | 100.00 | - | _ | 100.00 |
| Institutional US Dollar Liquidity Fund | USD | 100.00 | - | - | 100.00 |
| Institutional US Dollar Ultra Short Bond Fund | USD | 100.00 | - | - | 100.00 |
| Institutional US Treasury Fund | USD | 100.00 | - | _ | 100.00 |

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

c) Credit / counterparty risk (continued)

iii) Debt securities (continued)

Management of credit / counterparty risk related to debt securities (continued)

| As at 30 September 2017 | Currency | Investment grade % of Debt Securities | Non-investment grade % of Debt Securities | Not rated % of Debt Securities | Total % of Debt Securities |

| Institutional US Treasury Fund | USD | 100.00 | - | _ | 100.00 |

iv) Other securities

The Funds are indirectly exposed to the counterparty and credit risks from their investments in CIS. Those investments in CIS managed by the BlackRock Group are subject to the same control procedures the Investment Managers employ for the Funds.

Issuer and/or Counterparty credit risks in the Funds also arise from their investments in reverse repos and time deposits.

The reverse repos are both bi-lateral and tri-party.

Management of credit / counterparty risk related to other securities

The Funds monitor collateral fair value relative to the amounts payable under the agreements, including accrued interest, throughout the lives of the agreements and, when necessary, requires transfer of collateral in order to manage exposure and liquidity. This collateral is used to reduce counterparty risk exposure.

The Funds' sale and repurchase, and reverse sale and repurchase transactions are covered by master agreements. Upon an event of default, the repurchase date for all outstanding transactions under the agreement will be brought forward, the amounts due from each party are established and set-off and only a single amount is due or payable in settlement of all transactions.

v) Over-the-Counter ("OTC") financial derivative instruments

The Funds' holdings in forward currency contracts present credit risk. The Funds' maximum exposure to credit risk is equal to the notional amount of the currency contract and any unrealised gains as disclosed in their Schedules of Investments. Forward currency contracts do not generally require variation margins and thus the counterparty credit risk is monitored through the BlackRock RQA Counterparty & Concentration Risk Team who monitor the creditworthiness of the counterparty. The counterparties for forward currency contracts are disclosed in the Schedules of Investments.

Trading in OTC FDIs which have not been collateralised gives rise to counterparty exposure. Credit risk arises from the failure of the counterparty to perform according to the terms of the contract as these derivative transactions are traded bilaterally and not through a central clearing counterparty. The exposure of the Fund to credit risk on OTC FDIs is set out in the Schedules of Investments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

c) Credit / counterparty risk (continued)

v) Over-the-Counter ("OTC") financial derivative instruments (continued)

Management of credit / counterparty risk related to OTC financial derivative instruments

The Funds mitigate the risk exposure to each counterparty by obtaining collateral from the counterparty in a form which complies with the terms of the collateral agreements. This collateral is used to reduce counterparty risk exposure.

The Funds engage in activities which may require collateral to be paid to counterparty ("pledged collateral") or may hold collateral received ("inbound collateral") from a counterparty. The Funds use inbound collateral received from a counterparty to reduce the credit risk associated with any trading activity the Funds have engaged in.

The Funds have the right to sell or repledge collateral received in the form of securities. The Funds have the right to reinvest cash collateral received. Securities pledged as collateral have been annotated on the Schedules of Investments and separately disclosed on the Balance Sheets.

Cash collateral pledged by the Funds is separately identified on the Balance Sheets as cash collateral and is not included as a component of cash and cash equivalents. Inbound cash collateral received by the Funds is reflected on the Balance Sheets as cash collateral payable. The Funds are also exposed to counterparty risk of rehypothecation of pledged collateral. The fair value of inbound cash collateral and cash collateral pledged is reflected on the Balance Sheets of the Funds.

vi) Other receivables

Receivables are disclosed in the notes to the financial statements of each Fund. The counterparties to positions included in receivables are the same counterparties discussed previously under credit risk and subject to the same scrutiny by the BlackRock RQA Counterparty & Concentration Risk Team. The Funds monitor the ageing of receivables to mitigate this risk.

d) Valuation of financial instruments

The Funds classify financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1 - Quoted prices for identical instruments in active markets

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm's length basis. The Funds do not adjust the quoted price for these instruments.

Level 2 - Valuation techniques using observable inputs

This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity determined inputs.

Level 3 - Valuation techniques using significant unobservable inputs

This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation.

This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)

d) Valuation of financial instruments (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes 'observable' inputs requires significant judgement by the Investment Manager. The Investment Manager considers observable inputs to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The tables below and overleaf are an analysis of the Funds' financial assets and financial liabilities measured at fair value at 30 September 2018:

| | Level 1 | Level 2 | Level 3 | Total |
|--|----------|------------|----------|------------|
| Institutional Euro Assets Liquidity Fund | EUR '000 | EUR '000 | EUR '000 | EUR '000 |
| Financial assets at fair value through profit or loss: | | | | |
| Liquidity instruments | _ | 1,712,936 | _ | 1,712,936 |
| Bonds | - | 144,361 | _ | 144,361 |
| Total | - | 1,857,297 | _ | 1,857,297 |
| Institutional Euro Government Liquidity Fund | EUR '000 | EUR '000 | EUR '000 | EUR '000 |
| Financial assets at fair value through profit or loss: | | | | |
| Bonds | - | 62,316 | _ | 62,316 |

| Total | _ | 7,604,478 | _ | 7,604,478 |

Financial instruments valued based on dealer quotations or alternative pricing sources, such as model valuations, supported by either directly or indirectly observable inputs are classified within level 2. These includes liquidity instruments, bonds, reverse repos and FDIs.

As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between level 1 and level 2 for financial assets and liabilities which are recorded at fair value as at 30 September 2018 and 30 September 2017.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. There were no level 3 securities held as at 30 September 2018 and 30 September 2017.

8. OPERATING EXPENSES (continued)

Management Fees

Fees earned by the Manager during the year and balances outstanding as at 30 September 2018 and 30 September 2017 are disclosed on the previous two pages and in note 12, respectively.

The Manager has agreed with the Company to limit the annual expenses (as defined in the prospectus) of each class within a Fund to a maximum of 1% per annum of the NAV of such class, or to such lesser amount as the Manager may agree for any class within a Fund.

The Manager has further agreed that the annual expenses within a Fund will be capped at the rates set out in the table below:

| | Current Cap |
|--------------------------|-------------|
| Share Class | % |
| Admin I Shares | 0.25 |
| Admin II Shares | 0.30 |
| Admin III Shares | 0.45 |
| Admin IV Shares | 0.70 |
| Agency Shares | 0.03 |
| Aon Captives Shares | 0.15 |
| Core Shares | 0.20 |
| FA Class | 0.20 |
| G Accumulating Shares | 0.20 |
| G Accumulating II Shares | 0.25 |
| G Distributing Shares | 0.20 |
| G Distributing I Shares | 0.15 |
| G Distributing II Shares | 0.25 |
| Heritage Shares | 0.125 |
| N Class Shares | 0.20 |
| Premier Shares | 0.10 |
| S (Acc) Shares | 0.10 |
| Select Shares | 0.15 |

The Manager will be responsible for discharging from its fee the annual expenses of the Funds. Where actual fees and costs incurred exceed the amount paid to the Manager, the excess will be discharged by the Manager from its own assets.

Management fees waiver

The Manager has agreed with the Company to waive some or all of its fees on the Institutional Sterling Government Liquidity Fund, Institutional Sterling Liquidity Fund and Institutional US Treasury Fund when in a low interest rate environment. Following the activation of the RDM, a reduced management fee is charged on the Institutional Euro Assets Liquidity Fund, Institutional Euro Government Liquidity Fund, Institutional Euro Liquidity Fund and Institutional Sterling Government Liquidity Fund, Institutional Euro Assets Liquidity Fund, Institutional Euro Sovernment Liquidity Fund, Institutional Euro Liquidity Fund and Institutional Sterling Government Liquidity Fund, Institutional Euro Liquidity Fund and Institutional Sterling Government Liquidity Fund.

9. DISTRIBUTIONS TO REDEEMABLE PARTICIPATING SHAREHOLDERS

The Company may declare and pay dividends on any distributing class of shares in the Company. In accordance with the prospectus, any dividend which has remained unclaimed for six years from the date of its declaration shall be forfeited and cease to remain owing by the Company to investors and become the property of the relevant Fund.

10. TAXATION

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

b)Certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

16. TRANSACTION COSTS

In order to achieve its investment objective, a Fund may incur transaction costs in relation to trading activity on its portfolio.

For the years ended 30 September 2018 and 30 September 2017 there were no separately identifiable transaction costs in the Funds.

For fixed income investments, transaction costs will be included in the purchase and sales price of the investment, and are not separately disclosed as transaction costs.

17. SOFT COMMISSIONS

There were no soft commission arrangements entered into by the Investment Manager on behalf of the Company during the years ended 30 September 2018 and 30 September 2017.

18. COMMITMENTS AND CONTINGENT LIABILITIES

There were no significant commitments or contingent liabilities for the years ended 30 September 2018 and 30 September 2017.

19. EXCHANGE RATES

The rates of exchange ruling as at 30 September 2018 and 30 September 2017 were:

| | 30 September 2018 | 30 September 2017 |

20. RELATED PARTIES

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions.

The following entities are related parties to the Company as at 30 September 2018:

| Related Parties | Entities |
|--|--|
| Manager | BlackRock Asset Management Ireland Limited |
| Investment Manager and Principal Distributor | BlackRock Investment Management (UK) Limited |
| US Investment Manager | BlackRock Capital Management, Inc. |
| Representative in Switzerland | BlackRock Asset Management Schweiz AG |

The ultimate holding company of the Manager, Investment Manager, Principal Distributor, US Investment Manager and Representative in Switzerland is BlackRock Inc., a company incorporated in Delaware, USA. PNC Financial Services Group, Inc. ("PNC") is a substantial shareholder in BlackRock, Inc.

Fees paid to the Manager during the year, the nature of these transactions and balances outstanding at the year-end are disclosed in notes 8 and 12 respectively. There is a management fee waiver on the Institutional Sterling Government Liquidity Fund, Institutional Sterling Liquidity Fund and Institutional US Treasury Fund. The management fee waiver is disclosed in note 8 of each Fund.

The non-executive Directors of the Company as at 30 September 2018 are presented in the table below:

| Director | Employee of the BlackRock Group | Director of BlackRock affiliates and/or other funds managed by BlackRock |
|------------------|---------------------------------|---|
| Paul McNaughton | No | Yes |
| Paul McGowan | No | Yes |
| Barry O'Dwyer | Yes | Yes |
| Teresa O'Flynn | Yes | Yes |
| David Moroney | Yes | Yes |
| Jessica Irschick | Yes | Yes |

The Directors of the Company and the Manager who are also employees of the BlackRock Group are not entitled to receive Directors' fees.

On 5 October 2017, there was a subscription settled with an in-specie transfer of assets to Institutional Euro Ultra Short Bond Fund with a total value of EUR 623,480,000 from a related party fund - BlackRock Liability Solutions Funds € Cash Fund.

Holdings in other funds managed by BlackRock

Investments in funds managed by BlackRock, Inc. and BlackRock affiliates are marked on the relevant Funds' Schedule of Investments.

For income earned on these related party funds please refer to note 5.

The Company held cross umbrella investments as at 30 September 2018.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

20. RELATED PARTIES (continued)

Holdings in other funds managed by BlackRock (continued)

Further information on the fees incurred from investing in these underlying funds is presented in the table below. These disclosed fees are the maximum charges capped as per the prospectus of the underlying funds and actual fees charged may be lower:

| Investments | Fee paid by Fund |
|---|--|
| Investment Company - UCITS authorised in Ireland by CBI | |
| Institutional Euro Liquidity Fund - Agency (Dis) Shares ¹ | Annual expense capped at 0.03% of NAV ² |
| Institutional Sterling Liquidity Fund - Agency (Dis) Shares ¹ | Annual expense capped at 0.03% of NAV ² |
| Institutional US Dollar Liquidity Fund - Agency (Dis) Shares ¹ | Annual expense capped at 0.03% of NAV ² |

¹Institutional Euro Liquidity Fund, Institutional Sterling Liquidity Fund and Institutional US Dollar Liquidity Fund are funds of the Company.

²The Manager of these investments will be responsible for discharging from its fee the annual expenses of the funds. Where actual fees and costs incurred exceed the amount paid to the manager, the excess will be discharged by the manager from its own assets.

The following investors

(i) are funds managed by the BlackRock Group or are affiliates of BlackRock, Inc. or

(ii) are investors (other than those listed in (i) above) who held 20% or more of the voting shares in issue in the Fund and are as a result, considered to be related parties to the Funds.

As at 30 September 2018:

| Fund name | Total % of shares held by funds managed by the BlackRock Group or held by affiliates of BlackRock, Inc. | Number of investors holding 20% or more of the voting shares in issue who are not affiliates of the BlackRock Group or BlackRock, Inc. | Total % of shares held by shareholders holding 20% or more of the voting shares in issue who are not affiliates of the BlackRock Group or BlackRock, Inc. |
|--|---|---|--|
| Institutional Euro Assets Liquidity Fund | 76.77 | Nil | Nil |
| Institutional Euro Government Liquidity Fund | 0.13 | 3 | 89.59 |

All related party transactions were carried out at arm's length in the ordinary course of business. The terms and returns received by the related parties in making the investments above were no more favourable than those received by other investors investing into the same shares classes.

No provisions have been recognised by the Company against amounts due from related parties at the year end date (30 September 2017: Nil).

No amounts have been written off in the year in respect of amounts due to or from related parties (30 September 2017: Nil).

No commitments secured or unsecured or guarantees have been entered into with related parties during the year (30 September 2017: Nil).

21. EFFICIENT PORTFOLIO MANAGEMENT

The Company may engage in derivative transactions and reverse repos for the purpose of efficient portfolio management. Please see further disclosures in credit / counterparty risk note and Schedules of Investments.

22. COLLATERAL PLEDGED TO THE FUNDS

The Fund is the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. If the counterparty fulfils its obligations in relation to the investment, the Fund will return an equal amount of cash to the counterparty on maturity or sale of the investment.

All cash collateral has been reinvested into the assets of the Funds.

When the Fund returns securities collateral to the counterparty, it must be of the same type, nominal value, description and amount as the securities that were transferred to the Fund.

Cash collateral pledged to the Funds as at 30 September 2018 and 30 September 2017 is disclosed on the Balance Sheet of each Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 September 2018

22. COLLATERAL PLEDGED TO THE FUNDS (continued)

The table below details the total value of securities collateral pledged to the Funds as at 30 September 2018 and 30 September 2017:

| | | As at 30 September 2018 | As at 30 September 2017 |
|--|----------|-------------------------|-------------------------|
| | | Securities collateral | Securities collateral |
| Fund Name | Currency | ·000 | '000 |
| Institutional Euro Government Liquidity Fund | EUR | 10,182 | 40,800 |
| Institutional Euro Liquidity Fund | EUR | 1,271,570 | 2,574,413 |
| Institutional Sterling Government Liquidity Fund | GBP | 903,917 | 658,056 |
| Institutional Sterling Liquidity Fund | GBP | 4,237,270 | 8,125,738 |
| Institutional US Dollar Liquidity Fund | USD | 1,976,178 | 670,473 |
| Institutional US Treasury Fund | USD | 5,689,765 | 4,153,774 |

23. SIGNIFICANT SUBSEQUENT EVENTS

On 21 November 2018, an updated addendum to the prospectus was issued for the Company.

With effect from 30 November 2018, Ms Teresa O'Flynn is temporarily stepping down from the Board for personal reasons. The Board expect that Ms O'Flynn will be re-appointed in 2019.

Effective 10 December 2018, the registered address of the Manager was updated to 1st Floor, 2 Ballsbridge Park, Ballsbridge, Dublin 4, D04 YW83, Ireland.

Effective 10 December 2018, the registered address of the Depositary, Administrator, Registrar and Transfer Agent was updated to 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

Effective 10 December 2018, the registered office address is updated to 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

On 14 December 2018, there was a subscription settled with an in-specie transfer of assets to Institutional Sterling Ultra Short Bond Fund from a related party fund - BlackRock Liability Solutions Funds £ Cash Fund.

On 14 January 2019, an updated prospectus was issued incorporating the requirements of the European Money Market Funds Regulation ("MMFR") for the below listed sub-funds:

| Fund (current name) | Fund (new name) |
|--|--|
| Institutional Euro Assets Liquidity Fund | BlackRock ICS Euro Assets Liquidity Fund |
| Institutional Euro Ultra Short Bond Fund | BlackRock ICS Euro Ultra Short Bond Fund |
| Institutional Sterling Government Liquidity Fund | BlackRock ICS Sterling Government Liquidity Fund |
| Institutional Sterling Liquidity Fund | BlackRock ICS Sterling Liquidity Fund |
| Institutional Sterling Ultra Short Bond Fund | BlackRock ICS Sterling Ultra Short Bond Fund |
| Institutional US Dollar Liquidity Fund | BlackRock ICS US Dollar Liquidity Fund |
| Institutional US Dollar Ultra Short Bond Fund | BlackRock ICS US Dollar Ultra Short Bond Fund |
| Institutional US Dollar Treasury Fund | BlackRock ICS US Dollar Treasury Fund |

The 14 January 2019 prospectus also includes disclosure on two new Funds which are yet to be launched:

- BlackRock ICS Sterling Assets Liquidity Fund
- BlackRock ICS US Dollar Assets Liquidity Fund

Due to the continued uncertainty with the application of the Reverse Distribution Mechanism ("RDM") under the MMFR regime the following RDM impacted Funds have postponed their MMFR authorisation to a date in March 2019 (which will include the issue of a new Prospectus), in accordance with the flexibility provided by Article 44 of the MMFR:

- Institutional Euro Government Liquidity Fund (to be re-named 'BlackRock ICS Euro Government Liquidity Fund' when the new Prospectus is issued)
- Institutional Euro Liquidity Fund (to be re-named 'BlackRock ICS Euro Liquidity Fund' when the new Prospectus is issued).

24. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 23 January 2019.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

¹There were no sales during the year.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

¹There were 3 sales during the year.

REGULATORY DISCLOSURES (Unaudited)

Global exposure and leverage

In accordance with UCITS Regulations issued by the CBI, the Manager is required to employ a risk management process which enables it to accurately monitor and manage the global exposure of the Funds to FDIs.

The Manager uses a methodology known as the commitment approach to measure the global exposure of the Funds and manage the potential loss to the Funds due to market risk. In accordance with the UCITS Regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

The commitment approach is a methodology that aggregates the underlying market or notional value of FDIs to determine the global exposure of the Fund.

The exposures to FDIs at year end are marked on the relevant Fund's Schedule of Investments.

Please refer to the market risk section in the financial instruments and risks, note 4, for further details on the measure of VaR.

For the year ended 30 September 2018 global exposure is measured using the commitment approach for all Funds.

REPORT ON REMUNERATION (Unaudited)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive.

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Role of the Compensation Committees

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and all of its subsidiaries, including the Manager); and (b) the Manager's board of directors (the "Manager's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

0

The MDCC's primary purposes include:

- to provide oversight of:
 - o BlackRock's executive compensation programmes;
 - o BlackRock's employee benefit plans;
 - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator; and

• reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;

• reviewing, assessing and making reports and recommendations to the BlackRock, Inc. board of directors (the "BlackRock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and

• in accordance with applicable UK and European regulations and guidance, to act as the Remuneration Committee for BlackRock's EMEA regulated entities.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 10 meetings during 2017. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Manager's Board

The Manager's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

The Manager's Board (through independent review by the relevant control functions) remains satisfied with the implementation of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

REPORT ON REMUNERATION (Unaudited) (continued)

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of preincentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock's Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Manager.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well-defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock, Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance;
- discourage excessive risk-taking; and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

REPORT ON REMUNERATION (Unaudited) (continued)

Link between pay and performance (continued)

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards from the "Partner Plan" and "Targeted Equity Award Plan" are made to select senior leaders to provide greater linkage with future business results. The long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin¹ and Organic Revenue Growth². Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

¹As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

²Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

REPORT ON REMUNERATION (Unaudited) (continued)

Link between pay and performance (continued)

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

Quantitative Remuneration Disclosure

The Manager is required under UCITS to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager's UCITS-related business according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Manager to its staff which has been attributed to the Manager's UCITSrelated business in respect of the Manager's financial year ending 31 December 2017 is GBP 3.7 million. This figure is comprised of fixed remuneration of GBP 1.5 million and variable remuneration of GBP 2.2 million. There were a total of 52 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager, which has been attributed to the Manager's UCITS-related business in respect of the Manager's financial year ending 31 December 2017, to its senior management was GBP 0.2 million, and to other members of its staff whose actions have a material impact on the risk profile of the Fund was GBP 3.5 million.

SUPPLEMENTARY INFORMATION (Unaudited)

Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for hedging purposes (to protect an asset of a Fund against, or minimise liability from, fluctuations in market value or foreign currency exposures) or for efficient portfolio management purposes (with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to the Fund provided such transactions are not speculative in nature). Investment in FDI which give exposure to foreign exchange will only be used for hedging purposes. Such techniques and instruments may include investments in exchange-traded or OTC FDI, such as futures and currency forwards (which may be used to manage market and currency risk respectively), options (including call and put options which may be used to achieve cost efficiencies), swaps, including credit default swaps (which may be used to manage interest rate and credit risk respectively), and contracts for difference. A Fund may also invest in the FDI as part of its investment strategy where such intention is disclosed in the Fund's investment policy and provided that the counterparties to such transactions are institutions subject to prudential supervision and, in relation to OTC transactions, belong to categories approved by the CBI.

The Investment Manager employs a risk management process in respect of the Funds in accordance with the requirements of the Central Bank to enable it to accurately monitor, measure and manage, the global exposure from FDIs ("global exposure") which each Fund gains. The Investment Manager uses a methodology known as the Commitment Approach in order to measure the global exposure of the Funds and manage the potential loss to them due to market risk. The Company will, on request, provide supplemental information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investment.

In addition to the investments in FDIs noted above, the Funds may employ other techniques and instruments relating to transferable securities and money market instruments subject to the UCITS Regulations and to conditions imposed by the CBI such as repurchase/reverse repurchase agreements and securities lending.

Reverse Repurchase Agreements

The table below details the value of reverse repurchase agreements as a proportion of the Funds' NAV, as at 30 September 2018 and the returns earned on reverse repurchase agreements for the year ended 30 September 2018:

| | | Reverse repurchase agreements | |
|--|----------|----------------------------------|-----------------------|
| Fund name | Currency | % of NAV | Total returns '000 |
| Institutional Euro Government Liquidity Fund | EUR | 29.07 | (394) |
| Institutional Euro Liquidity Fund | EUR | 6.20 | (12,580) |
| Institutional Sterling Government Liquidity Fund | GBP | 39.72 | 4,926 |
| Institutional Sterling Liquidity Fund | GBP | 11.73 | 19,094 |
| Institutional US Dollar Liquidity Fund | USD | 4.50 | 15,623 |
| Institutional US Treasury Fund | USD | 49.58 | 71,207 |

All returns from reverse repurchase agreements will accrue to the Funds and are not subject to any returns sharing arrangements with the Fund's Manager or any other third parties.

SUPPLEMENTARY INFORMATION (Unaudited) (continued)

Reverse Repurchase Agreements (continued)

The tables below and overleaf detail the value of reverse repurchase agreements and associated collateral received, analysed by counterparty as at 30 September 2018. The value of Collateral posted or received does not include accrued interest or reflect haircuts applied by the relevant counterparty:

| Societe Generale | France |
| Societe Generale SA | Luxembourg |
| TD Securities (USA) LLC | United States |

GLOSSARY (Unaudited)

Forward currency contracts

A forward currency contract is an agreement between two parties to buy or sell a certain underlying currency at a certain date in the future, at a specified price. The change in unrealised gain or loss on open forward currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract as at the year end date. Change in unrealised gains and losses are included on the Balance Sheet.

Forward currency contracts are fair valued and the change, if any, is recorded as net gains/(losses) on financial assets/(liabilities) at fair value through profit or loss in the Income Statement.

Realised gains or losses are recognised on the maturity of a forward currency contract, as the difference between the rate that the forward currency contract was entered into and the closing spot rate at the settlement date of the forward currency contract. Realised gains or losses and changes in unrealised gains or losses are recognised in the net gains/(losses) on financial assets/(liabilities) at fair value through profit or loss in the Income Statement.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, it is measured at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Equalisation on Distributions

Equalisation arrangements are applied in the case of non-accumulating shares in the Funds. These arrangements are intended to ensure that the income distribution per share is not affected by changes in the number of shares in issue during the year.

To ensure that each shareholder receives the same rate of distribution per share, the buying price of each share contains an amount called equalisation. This is equivalent to the net of distributable income less expense accrued in the Fund at the time of purchase/sale. As part of the distribution payment, the average amount of this equalisation is returned to shareholders who subscribed to or redeemed from the Fund during the year.

The equalisation element of the distribution is treated as a finance cost in the Income Statement.
