Alquity Indian Subcontinent Fund GBP Y Class Institutional/Reporting Shares

ISIN: LU1070052268

Alquity SICAV - Alquity Indian Subcontinent Fund (the 'Fund') is a sub-fund of Alquity SICAV. Lemanik Asset Management S.A. is the Management Company of the Fund.

OBJECTIVES & INVESTMENT POLICY

Objective

The Fund aims to achieve long-term capital appreciation by investing in Indian securities. Details of these are shown below under 'Investment Policy'.

Investment Policy

- The Fund will invest at least two-thirds of its net assets in equity securities listed on the regulated exchanges of India, Pakistan, Bangladesh and Sri Lanka (the Indian Subcontinent).
- The Fund may also invest in equity securities listed on regulated exchanges outside of the Indian Subcontinent where more than 50% of revenue, income or operating profit is realised in the region, or will be reasonably expected to do so in the near future.
- The Fund will primarily focus on companies that will benefit from the long-term growth opportunities of the Indian Subcontinent. This will include investing in small and mid-cap companies, as well as large-cap companies where the investment manager identifies unrecognised investment opportunities.
- The Fund will mainly invest, directly or indirectly, in equities.
- The Fund may also invest in assets such as bonds, Money Market Instruments, time deposits, derivative instruments etc.
- The Fund may, on an ancillary basis, hold cash and equivalents.
- The investment process of the Fund encompasses the consideration of environmental, social and governance (ESG) factors.
- The Fund does not use a benchmark.

Other information

- Investment in the Fund should be regarded as a long-term investment.
- You can buy and sell shares in the Fund from Monday to Friday, except on Luxembourg public holidays.
- Provided the order is received prior to 12pm Luxembourg time, the order will be processed at the next valuation point. This assumes that all relevant regulatory documentation, including that for the customer identity and anti-money laundering, is already in place.
- Any income received by the Fund will be added to the capital value of the Fund and not distributed to investors. However, for certain classes of shares ("Distribution Shares"), the Board of Directors may decide to make distributions of income and capital gains. For these Distribution Shares (identified in the sub-fund's relevant data sheet under Appendix III in the prospectus with "(dis)" next to the ISIN

Code), it is expected that the net income (net of expenses and reserves) actually received by the relevant sub-fund attributable to the relevant class will be distributed to the relevant shareholders.

RISK & REWARD PROFILE

Typically Lower Rewards				Typically Higher Rewards		
Lower Risk				Higher Risk		
1	2	3	4	5	6	7

- The Risk and Reward Indicator table shows where this share class ranks in terms of its potential risk and return. The higher the rank, the greater the potential reward but the greater the risk of losing capital.
- This indicator is based on historical data and is not a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- A risk and reward indicator of '1' does not mean that the investment is risk free.
- The indicator is not a measure of the possibility of losing your investment.
- A complete set of risk factors is set out in the prospectus of Alquity SICAV under Section XIII, entitled 'Special Consideration on Risks'.

The risk indicator for the Fund is as above because:

- The price of securities, and the income from them, can rise and fall because of currency or stock market movements.
- As the Fund invests in securities of companies on the Indian Subcontinent, its performance will be affected by economic downturns or other factors affecting the region as a whole, and/or specific countries and markets on the Indian Subcontinent where the Fund invests.
- Overseas investments inevitably carry a risk of changes to the political environment in that region. In Asia many countries have been subject to political instability and are undergoing economic, political and social change. The performance of the Fund may be affected by perceived or actual risks relating to social, religious or political influences.
- Many governments in the region have exercised, and continue to exercise, substantial influence over the private sector, and as such governmental actions can sometimes be seen as an additional risk.
- As the Fund invests in emerging and frontier markets, there is a higher degree of risk to value as these markets are sometimes not as regulated

as those of developed economies, and in addition shares may be more difficult to buy or sell of demand.

- As the investments may be in currencies that are subject to greater fluctuations than shares denominated in US Dollars, there is a higher degree of risk to value.
- Investments in emerging and frontier markets such the Indian Subcontinent may carry higher dealing costs due to the various other risks applicable as noted earlier. Also doing business in the region can involve some high administration and trading costs.

CHARGES

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.

- The entry charge is included in the purchase price of each share. At present for this class of share, there is no exit charge.
- The entry charge show in the maximum figure. In some cases you might pay less. You can find out actual entry charges from your financial adviser.
- For more information about charges, please see section VI of the Alquity SICAV's prospectus, which is available at www.alquity.com.

One off charges taken before or after you invest*

Entry Charge	Up to 5%
Exit Charge	0%

*The charges shown are maximum figures. In some cases you may pay less.

Charges taken from this class of share over a year

Ongoing Charge	1.9%
-----------------------	------

This charge represents a single figure, which encompasses all annual charges, and other payments out of the Fund's assets excluding portfolio charges, and performance fees, which are disclosed below. Alquity SICAV's annual report for each financial year will include detail on the exact charges made.
