Portfolio: Operational Performance Update

The portfolio has demonstrated resilience, with the COVID-19 pandemic not having a material impact on operations during the period

UK

Development and Construction assets

- **Huntsman Energy Centre:** Commissioning was briefly delayed by COVID-19. This has now recommenced and is expected to be operational by H1 2021
- **Supermarket Solar:** Installation at Tesco sites was paused temporarily but has now re-started. Seven sites are now operational and income generative

Continental Europe

Oliva Spanish Cogeneration

- Assets remained resilient and operational through the COVID-19 lockdown with offtakers continuing to operate within the food industry sector, deemed essential
- Near-term revenue reductions are materially mitigated by the RoRi¹ regime which compensates for fluctuations in revenues and costs

USA

Primary Energy

- Offtakers continued to operate during the year as deemed essential manufacturing sector resulting in resilient performance from the assets
- Ironside provides energy services to a blast furnace that was temporarily idled between April and August. During this period, a new offtake contract was finalised extending the contract for a further 10 years
- Operational improvements and repairs required over the course of the year have been largely completed

Portfolio: Breakdown of Portfolio Value by Credit Counterparty

SEEIT's portfolio seeks to provide attractive long-term revenues, backed by solid contractual arrangements with the host counterparties

Credit Counterparties

The majority of the Company's revenues are associated with investment grade or equivalent counterparties. The proportion may change as a result of new investment opportunities, or changes in the credit standing of existing counterparties

As at 7 December 2020, SEEIT's credit counterparties comprise:

Security of revenues and risk mitigation considerations

- Portfolio diversification by counterparties, geographies and sectors
- Investing in projects that play an important role in their economy or community
- Investing in projects that have a value beyond their existing owner
- Investing in projects with strategic importance beyond the use of the existing counterparty
- Diversification of credit risk where there is no single counterparty in an investment
- Ownership or security package over project assets that have substantial value

1. Based upon 30 September 2020 Portfolio Valuation plus acquisitions at cost

2. A sale of substantially all of the operations of ArcelorMittal USA to Cleveland Cliffs (NYSE: CLF) was announced on 28 September 2020. The acquisition makes Cleveland Cliffs the largest flat rolled steel producer in North America. ArcelorMittal will continue to hold a meaningful stake via its interest in Cleveland Cliffs. Although Cleveland Cliffs is not itself investment grade, the efficiencies involved with vertically integrating iron ore supply with steel production present opportunities to significantly increase the cost competitiveness and therefore profitability and output at the steel mills to which the Company's investment portfolio relates

SEEIT: Foreign Exchange Hedging

The key objective of managing FX risk is to minimise volatility in the NAV from movements in foreign exchange rates

SEEIT's hedging strategy seeks to protect both the income and capital elements of the portfolio from movements in foreign exchange rates and to provide stability and predictability of Sterling cash flows

SEEIT achieved this through:

- **Income basis:** achieved by hedging forecast investment income from non-Sterling investments for up to 24 months through foreign exchange forward sales
- **Capital basis:** achieved by hedging a significant portion of the portfolio value through rolling foreign exchange forward sales. The Investment Manager also seeks to utilise corporate debt facilities in the local currency to reduce foreign exchange exposure

To date this objective has been met and there has been minimal impact on NAV from material movements in FX rates

This presentation must not be made available to persons who are not Relevant Persons. No person should act or rely on this presentation and persons distributing this presentation must satisfy themselves that it is lawful to do so. Outside of the United Kingdom, the Transaction (as defined below) is directed at Qualified Investors only in the following Member States: Belgium, Denmark, Finland, Iceland, Ireland, Netherlands, Norway and Sweden. The Investment Manager has not registered a passport for marketing under the passporting programme set out in the AIFM Directive in any other Member State (each an "Ineligible Member State"). No offers pursuant to the Transaction may be made or accepted in any Ineligible Member State. No steps have been taken by any person in respect of any Member State to allow the Shares to be marketed (as such term is defined in the relevant legislation implementing the AIFM Directive) lawfully in that Member State. By accepting this presentation you represent, warrant and agree that you are a Relevant Person.

Any sale of shares in the United States or to US Persons may only be made to persons reasonably believed to be QIBs that are also QPs. The Company will not be registered under the Investment Company Act, and investors in the Shares will not be entitled to the benefits of regulation under the Investment Company Act. Furthermore, the Investment Manager is not registered under the U.S. Investment Advisers Act of 1940, as amended (the "Investment Advisers Act"), and investors in the Shares and the Company will not be entitled to the benefits of the requirements applicable to investment managers registered under the Investment Advisers Act.

The distribution of Shares in Canada will only be made on a private placement basis in accordance with applicable securities laws. As a consequence, certain protections, rights and remedies provided by such securities laws will not be available to investors in Canada. The Shares, if and when issued, will be subject to restrictions on transfer pursuant to their terms, and are subject to further restrictions on transfer and resale in Canada, and in some cases outside of Canada, until such time as: (a) the appropriate "restricted periods" have been satisfied; (b) a further statutory exemption is relied upon by the investor; (c) an appropriate discretionary order is obtained pursuant to the applicable securities laws; or (d) a final receipt is issued by the relevant securities regulatory authority for a prospectus prepared with respect to distribution of the Shares. Please note that as the Company will not be a reporting issuer in any Canadian jurisdiction, the applicable restricted period may never expire and if no further statutory exemption may be relied upon, if no discretionary order is obtained, or no prospectus issued for which a receipt is obtained, this could result in an investor having to hold the securities for an indefinite period of time. The Company is not responsible for ensuring compliance by investors with any resale restrictions. Canadian purchasers are advised to seek legal advice prior to any resale of the Shares.

This presentation does not constitute or form part of any offer for sale or subscription or any solicitation of any offer to buy or subscribe for any securities and neither this document nor any part of it forms the basis of or may be relied on in connection with or act as an inducement to enter into any contract or commitment whatsoever. INFORMATION TO DISTRIBUTORS

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("Directive 2014/65/EU"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing Directive 2014/65/EU; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the Ordinary Shares and C Shares have been subject to a product approval process, which has determined that the Ordinary Shares and C Shares to be issued pursuant to the Initial Issue and the Share Issuance Programme are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in Directive 2014/65/EU; and (ii) eligible for distribution through all distribution channels as are permitted by Directive 2014/65/EU (the "Target Market Assessment").

Notwithstanding the Target Market Assessment, distributors should note that: the price of the Ordinary Shares and C Shares may decline and investors could lose all or part of their investment; the Ordinary Shares and the C Shares offer no guaranteed income and no capital protection; and an investment in the Ordinary Shares and/or C Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Share Issuance Programme. Furthermore, it is noted that, notwithstanding the Target Market Assessment, Jefferies will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of Directive 2014/65/EU; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Ordinary Shares and/or the C Shares.

Each distributor is responsible for undertaking its own Target Market Assessment in respect of the Ordinary Shares and the C Shares and determining appropriate distribution channels.

PRIIPS REGULATION

In accordance with the Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs) and its implementing and delegated acts (the "PRIIPs Regulation"), a key information document in respect of the Ordinary Shares has been prepared by the Investment Manager and is available to investors at www.sdcleit.com. If you are distributing the Ordinary Shares, it is your responsibility to ensure that the relevant key information document is provided to any clients that are "retail clients".

The Investment Manager is the only manufacturer of the Ordinary Shares for the purposes of the PRIIPs Regulation and Jefferies is not the manufacturer for these purposes. Jefferies makes no representations, express or implied, and accepts no responsibility whatsoever for the contents of the key information document prepared by the Investment Manager nor accepts any responsibility to update the contents of the key information document in accordance with the PRIIPs Regulation, to undertake any review processes in relation thereto or to provide such key information document to future distributors of Ordinary Shares. Jefferies and its Affiliates accordingly disclaim all and any liability whether arising in tort or contract or otherwise which it or they might have in respect of the key information document prepared by the Investment Manager.
