Report on Review of Consolidated Interim Condensed Financial Information

To the Shareholders and Board of Directors of PJSC Gazprom

Introduction

We have reviewed the accompanying consolidated interim condensed balance sheet of PJSC Gazprom and its subsidiaries as of 31 March 2015 and the related consolidated interim condensed statements of comprehensive income, cash flows and changes in equity and notes to the consolidated interim condensed financial information for the three-month period then ended. Management is responsible for the preparation and presentation of this consolidated interim condensed financial information in accordance with International Accounting Standard 34 Interim Financial Reporting. Our responsibility is to express a conclusion on this consolidated interim condensed financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim condensed financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 Interim Financial Reporting.

President of FBK, LLC

S.M. Shapiguzov

PJSC GAZPROM
NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL INFORMATION
(UNAUDITED) – 31 MARCH 2015
(in millions of Russian Roubles)

1 NATURE OF OPERATIONS

Public Joint Stock Company Gazprom (PJSC Gazprom) and its subsidiaries (the “Group”) operate one of the largest gas pipeline systems in the world, are responsible for the major part of gas production and high pressure gas transportation in the Russian Federation. The Group is a major supplier of gas to European countries. The Group is also engaged in oil production, refining activities, electric and heat energy generation. The Government of the Russian Federation is the ultimate controlling party of PJSC Gazprom and has a controlling interest (including both direct and indirect ownership) of over 50 % in PJSC Gazprom.

The Group is involved in the following principal activities:

- exploration and production of gas;
- transportation of gas;
- sales of gas within Russian Federation and abroad;
- gas storage;
- production of crude oil and gas condensate;
- processing of oil, gas condensate and other hydrocarbons, and sales of refined products;
- electric and heat energy generation and sales.

Other activities primarily include production of other goods, works and services.

The gas business is subject to seasonal fluctuations with peak demand in the first and fourth quarters of each year. Typically approximately 30 % of total annual gas volumes are shipped in the first calendar quarter.

On 17 July 2015 Open Joint Stock Company Gazprom was renamed into Public Joint Stock Company Gazprom. The change in the Company’s legal status is reflected in the new version of the Articles of Association approved by the annual General Shareholders Meeting. The Company’s name was changed with a view to bring it in line with the provisions of Chapter IV of the Civil Code of the Russian Federation.

2 ECONOMIC ENVIRONMENT IN THE RUSSIAN FEDERATION

The Russian Federation displays certain characteristics of an emerging market. Tax, currency and customs legislation is subject to varying interpretations and contributes to the challenges faced by companies operating in the Russian Federation.

The political and economic instability, situation in Ukraine, the current impact and ongoing situation with sanctions, uncertainty and volatility of the financial and trade markets and other risks have had and may continue to have effects on the Russian economy.

The future economic development of the Russian Federation is dependent upon external factors and internal measures undertaken by the government to sustain growth, and to change the tax, legal and regulatory environment. Management believes it is taking all necessary measures to support the sustainability and development of the Group’s business in the current business and economic environment. The future economic and regulatory situation and its impact on the Group’s operations may differ from management’s current expectations.

3 BASIS OF PRESENTATION

This consolidated interim condensed financial information is prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting”. The consolidated interim condensed financial information should be read in conjunction with the consolidated financial statements for the year ended 31 December 2014 prepared in accordance with International Financial Reporting Standards (“IFRS”).

The official Russian Rouble (“RUB”) to US Dollar (“USD”) foreign exchange rates as determined by the Central Bank of the Russian Federation were as follows:

- as of 31 March 2015 – 58.46 (as of 31 March 2014 – 35.69);
- as of 31 December 2014 – 56.26 (as of 31 December 2013 – 32.73).

PJSC GAZPROM
NOTES TO THE CONSOLIDATED INTERIM CONDENSED FINANCIAL INFORMATION
(UNAUDITED) – 31 MARCH 2015
(in millions of Russian Roubles)

3 BASIS OF PRESENTATION (continued)

The official RUB to Euro foreign exchange rates as determined by the Central Bank of the Russian Federation were as follows:

- as of 31 March 2015 – 63.37 (as of 31 March 2014 – 49.05);
- as of 31 December 2014 – 68.34 (as of 31 December 2013 – 44.97).

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

The principal accounting policies followed by the Group and the critical accounting estimates in applying accounting policies are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2014.

Profit tax in the interim periods is accrued using a tax rate that would be applicable to expected total annual earnings.

Application of new IFRSs

A number of amendments to current IFRSs and new IFRICs became effective for the periods beginning on or after 1 January 2015:

- Amendments to IAS 19 Employee benefit. The amendments allow entities to recognize employee contributions as a reduction in the service cost in the period in which the related employee service is rendered, instead of attributing the contributions to the periods of service, if the amount of the employee contributions is independent of the number of years of service;
- Annual amendments to IFRSs 2012, 2013 and 2014.

The Group has reviewed amended standards while preparing this Consolidated Interim Condensed Financial Information. The amended standards have no significant impact on the Group's Interim Consolidated Condensed Financial Information.

Standards and Amendments to existing Standards that are not yet effective and have not been early adopted by the Group

Certain new standards and interpretations have been issued that are mandatory for the annual periods beginning on or after 1 January 2016. In particular, the Group has not early adopted the standards and amendments:

- The amendments to IFRS 11 Joint Arrangements (issued in May 2014 and effective for annual periods beginning on or after 1 January 2016) on accounting for acquisitions of interests in joint operations. This amendment adds new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business.
- The amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets (issued in May 2014 and effective for annual periods beginning on or after 1 January 2016) on clarification of acceptable methods of depreciation and amortization. In this amendment the International Accounting Standards Board clarifies that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset.
- IFRS 15 Revenue from Contracts with Customers (issued in May 2014 and effective for annual periods beginning on or after 1 January 2017). The new standard introduces the core principle that revenue must be recognized when the goods and services are transferred to the customer, at the transaction price. Any bundled goods and services that are distinct must be separately recognized, and any discounts or rebates on the contract price must generally be allocated to the separate elements. When the consideration varies for any reason, minimum amounts must be recognized if they are not at significant risk of reversal. Costs incurred to secure contracts with customers have to be recognized as an asset and amortized over the period when the benefits of the contract are consumed.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES
(continued)

- The amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (issued on 11 September 2014 and effective for annual periods beginning on or after 1 January 2016). These amendments eliminate an inconsistency between the requirements of IFRS 10 Consolidated Financial Statements and those of IAS 28 Investments in Associates and Joint Ventures in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business. A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are held by a subsidiary.
- The amendments to IAS 1 Presentation of Financial Statements (issued in December 2014 and effective for annual periods beginning on or after 1 January 2016). The standard was amended to clarify the concept of materiality and explains that an entity need not provide a specific disclosure required by an IFRS if the information resulting from that disclosure is not material, even if the IFRS contains a list of specific requirements or describes them as minimum requirements. The standard also provides new guidance on subtotals in financial statements.
- The amendments to IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interests in Other Entities and IAS 28 Investments in Associates and Joint Ventures (issued in August 2014 and effective for annual periods on or after 1 January 2016). These standards were amended to clarify that an investment entity should measure at fair value through profit or loss all of its subsidiaries that are themselves investment entities. In addition, the exemption from preparing consolidated financial statements if the entity's ultimate or any intermediate parent produces consolidated financial statements available for public use was amended to clarify that the exemption applies regardless whether the subsidiaries are consolidated or are measured at fair value through profit or loss in accordance with IFRS 10 Consolidated Financial Statements in such ultimate or any intermediate parent's financial statements.
- The amendments to IFRS 9 Financial Instruments (issued in July 2014 and effective for annual periods beginning on or after 1 January 2018). The amendments are under adopting for application in the Russian Federation. IFRS 9 Financial Instruments replaces those parts of IAS 39 Financial Instruments: Recognition and Measurement relating to the classification and measurement of financial assets. Financial assets are required to be classified into two measurement categories: those to be measured subsequently at fair value, and those to be measured subsequently at amortized cost. The decision is to be made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. Hedge accounting requirements were amended to align accounting more closely with risk management. The standard provides entities with an accounting policy choice between applying the hedge accounting requirements of IFRS 9 Financial Instruments or continuing to apply IAS 39 Financial Instruments: Recognition and Measurement to all hedging instruments because the standard currently does not address accounting for macro hedging.

The Group is currently assessing the impact of the amendments on its financial position and results of operations.

5 SEGMENT INFORMATION

The Group operates as a vertically integrated business with substantially all external gas sales generated by the Distribution segment.

The Board of Directors and Management Committee of PJSC Gazprom (the Governing bodies) provide general management of the Group, an assessment of the operating results and allocate resources using different internal financial information.

Based on that the following reportable segments within the Group were determined:

- Production of gas – exploration and production of gas;
- Transport – transportation of gas;
- Distribution – sales of gas within Russian Federation and abroad;
- Gas storage – storage of extracted and purchased gas in underground gas storages;
- Production of crude oil and gas condensate – exploration and production of oil and gas condensate, sales of crude oil and gas condensate;
- Refining – processing of oil, gas condensate and other hydrocarbons, and sales of refined products;
- Electric and heat energy generation and sales.

Other activities have been included within “All other segments” column.

The inter-segment sales mainly consist of:

- Production of gas – sales of gas to the Distribution and Refining segments;
- Transport – rendering transportation services to the Distribution segment;
- Distribution – sales of gas to the Transport segment for own needs and to the Electric and heat energy generation and sales segment;
- Gas storage – sales of gas storage services to the Distribution segment;
- Production of crude oil and gas condensate – sales of oil and gas condensate to the Refining segment for further processing;
- Refining – sales of refined hydrocarbon products to other segments.

Internal transfer prices, mostly for Production of gas, Transport and Gas storage segments, are established by the management of the Group with the objective of providing specific funding requirements of the individual subsidiaries within each segment.

The Governing bodies assess the performance, assets and liabilities of the operating segments based on the internal financial reporting. The effects of certain non-recurring transactions and events, such as business acquisitions, and the effects of some adjustments that may be considered necessary to reconcile the internal financial information to IFRS consolidated financial statements are not included within the operating segments which are reviewed by the Governing bodies on a central basis. Gains and losses on available-for-sale financial assets, and financial income and expenses are also not allocated to the operating segments.

¹ In May 2014 the shares in all gas transportation companies that belonged to W&G Beteiligungs-GmbH & Co. KG were transferred to WIGA Transport Beteiligungs-GmbH & Co. KG. As of 31 March 2015 WIGA Transport Beteiligungs-GmbH & Co. KG forms an independent subgroup of associated undertakings.

² In July 2015 CJSC Achimgaz was renamed into JSC Achimgaz with a view to bring the name of the company in line with the provisions of Chapter IV of the Civil Code of the Russian Federation.

³ As of 31 December 2014 an impairment provision was created for investment in Shtokman Development AG in the amount of RUB 27,378 million. Respective expense is included in share of net income of associated undertakings and joint ventures in the consolidated statement of comprehensive income for the year ended 31 December 2014.

⁴ In accordance with the provisions of the Third Energy Package of the European Union regarding the split between the gas transmission and distribution activities in August 2013 AB Lietuvos dujos transferred assets, liabilities and rights related to gas transportation to AB Amber Grid, an associate of the Group. In June 2014 the Group sold its 37 % interests in associates, AB Lietuvos dujos and AB Amber Grid, to companies controlled by the Republic of Lithuania for Euro 121 million.

⁵ In December 2014 the Group became the owner of 100 % interest in South Stream Transport B.V., the company responsible for the offshore part of the South Stream project, by acquiring shares of EDF International S.A.S., Wintershall Holding GmbH and ENI International B.V.

Summarized financial information on the Group's principal associated undertakings and joint ventures is presented in tables below.

The values, disclosed in the tables, represent total assets, liabilities, revenues, income (loss) of the Group's principal associated undertakings and joint ventures and not the Group's share.

The differences between the carrying value of investments in associated undertakings and joint ventures and the calculated Group's share in their net assets are mostly attributable to translation differences.

14 PROFIT TAX

Profit tax is recognised based on the estimated average annual effective profit tax rate applied to the profit before tax for the three months ended 31 March 2015. Differences between the recognition criteria in Russian statutory taxation regulations and IFRS give rise to certain temporary differences between the carrying value of certain assets and liabilities for financial reporting purposes and for profit tax purposes. The tax effect of the movement on these temporary differences is recorded at the applicable statutory rates, including the prevailing rate of 20 % in the Russian Federation.

	31 March 2015	Differences recognition and reversals	31 December 2014	31 March 2014	Differences recognition and reversals	31 December 2013
Tax effects of taxable temporary differences:

¹ On 1 January 2015 changes came into effect to the Chapter 22 “Excises” of the Tax Code of the Russian Federation, according to which natural gas is subject to excise tax, if it is stipulated by international treaties of the Russian Federation. The disclosed information about revenue and excise tax reflects special aspects of the Group activities and also is made for the purpose of comparability of the financial figures.

² Retroactive gas price adjustments relate to gas deliveries in 2013-2014 for which a discount has been agreed or is in the process of negotiations. The effects of gas price adjustments, including corresponding impacts on profit tax, are recorded when they become probable and a reliable estimate of the amounts can be made. The effect of retroactive gas price adjustments on sales for the three month ended 31 March 2015 was a credit of RUB 16,425 reflecting a decrease in a related accrual following estimates made and agreements reached prior to the issuance of this consolidated interim condensed financial information.

Provision for decommissioning and site restoration costs	107,212	104,168
Other	<u>21,655</u>	<u>21,663</u>
	316,981	297,106

The Group operates post-employment benefits, which are recorded as defined benefit plan in the consolidated financial statements under IAS 19 Employee benefits. Defined benefit plan covers the majority employees of the Group. These benefits include pension benefits provided by the non-governmental pension fund, NPF Gazfund, and certain post-retirement benefits from the Group provided upon retirement.

The net pension assets related to benefits, provided by the pension plan NPF Gazfund in the amount of RUB 71,288 million and RUB 111,742 million as of 31 March 2015 and 31 December 2014, respectively, are presented within other non-current assets in the consolidated interim condensed balance sheet. In accordance with IAS 19 Employee benefits, pension assets are recorded at estimated fair value subject to certain limitations. As of 31 March 2015 and 31 December 2014 management estimated the fair value of these assets at RUB 378,476 million and RUB 391,227 million, respectively. The pension assets comprise shares of PJSC Gazprom, shares of Gazprombank (Joint-stock Company) and other assets held by NPF Gazfund.

Provision for post-employment benefit obligations recognized in the consolidated interim condensed balance sheet is as follows:

	31 March 2015		31 December 2014	
	Funded benefits - provided through NPF Gazfund	Unfunded liabilities - other benefits	Funded benefits - provided through NPF Gazfund	Unfunded liabilities - other benefits
Present value of benefit obligations	(307,188)	(188,114)	(279,485)	(171,275)
Fair value of plan assets	<u>378,476</u>	<u>-</u>	<u>391,227</u>	<u>-</u>
Net balance asset (liability)	71,288	(188,114)	111,742	(171,275)

The amounts associated with post-employment benefit obligations recognized in operating expenses are as follows:

	Three months ended 31 March	
	2015	2014
Current service cost	6,612	7,010
Net interest expense	<u>1,924</u>	<u>1,793</u>
Total expenses included in staff costs	8,536	8,803

The principal assumptions used for post-employment benefit obligations for the three months ended 31 March 2015 were the same as those applied for the year ended 31 December 2014 with exception of the discount rate based on interest rates of government securities. The decrease in the discount rate from 12.50 % to 11.80 % resulted in recognition of an actuarial loss of RUB 29,355 million in other comprehensive income for the three months ended 31 March 2015.

Remeasurements to be recognized in other comprehensive income are as follows:

	Three months ended 31 March	
	2015	2014
Actuarial (losses) gains	(29,355)	50,448
Return on assets excluding amounts included in net interest expense	<u>(24,993)</u>	<u>(56,607)</u>

21 FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of financial assets and liabilities is determined as follows:

a) Financial instruments in Level 1

The fair value of financial instruments traded in active markets is based on quoted market closing prices at the reporting date.

b) Financial instruments in Level 2

The fair value of financial instruments that are not traded in an active market is determined by using various valuation techniques, primarily based on market or income approach, such as discounted cash flows valuation method. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on Group specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

c) Financial instruments in Level 3

If one or more of the significant inputs in the valuation model used to fair value an instrument is not based on observable market data, the instrument is included in Level 3.

As of 31 March 2015 and 31 December 2014 the Group had the following assets and liabilities that are measured at fair value:

There were no transfers between Levels 1, 2 and 3 and changes in valuation techniques during the period. For the three months ended 31 March 2015 and 2014 the Group has recognised available-for-sale investments losses from other comprehensive income into the profit or loss in the amount of RUB nil million and RUB 1,644 million respectively.

Financial assets held for trading primarily comprise marketable equity and debt securities intended to generate short-term profits through trading.

Available-for-sale long-term financial assets in total amount of RUB 202,128 million and RUB 201,824 million are shown net of provision for impairment of RUB 1,745 million and RUB 1,797 million as of 31 March 2015 and 31 December 2014, respectively.

As of 31 March 2015 and 31 December 2014 long-term available-for-sale financial assets include OJSC NOVATEK shares in the amount of RUB 133,003 million and RUB 133,787 million, respectively.

Carrying value of financial assets and liabilities not measured at fair value approximate their fair value.

RELATED PARTIES

For the purpose of this consolidated interim condensed financial information, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operational decisions as defined by IAS 24 Related Party Disclosures. Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

The nature of the related party relationships for those related parties with whom the Group entered into significant transactions or had significant balances outstanding is detailed below.

Government

The Government of the Russian Federation is the ultimate controlling party of PJSC Gazprom and has a controlling interest (including both direct and indirect ownership) of over 50 % in PJSC Gazprom.

The Government does not prepare consolidated financial statements for public use. Governmental economic and social policies affect the Group's financial position, results of operations and cash flows.

As a condition of privatisation in 1992, the Government imposed an obligation on the Group to provide an uninterrupted supply of gas to customers in the Russian Federation at government controlled prices.

Parties under control of the Government

In the normal course of business the Group enters into transactions with other entities under Government control.

As of 31 March 2015 prices of natural gas sales, gas transportation and electricity tariffs in Russia were regulated by the Federal Tariffs Service ("FTS"). According to the Presidential Edict 21 July 2015 the functions of the FTS were transferred to the Federal Antimonopoly Service ("FAS").

Bank loans with related parties are provided on the basis of market rates. Taxes are accrued and settled in accordance with the applicable statutory rules.

As of 31 March 2015 and 31 December 2014 and for the three months ended 31 March 2015 and 2014, the Group had the following significant transactions and balances with the Government and parties under control of the Government:

Gas sales and respective accounts receivable, oil transportation expenses and respective accounts payable included in the table above are related to major state controlled companies.

In the normal course of business the Group incurs electricity and heating expenses (see Note 17). A part of these expenses relates to purchases from the entities under Government control. Due to the specifics of the electricity market in the Russian Federation, these purchases can not be accurately separated from the purchases from private companies.

See the consolidated interim condensed statement of changes in equity for returns of social assets to government during the three months ended 31 March 2015 and 2014. See Note 9 for net book values as of 31 March 2015 and 31 December 2014 of social assets vested to the Group at privatisation.

Compensation for key management personnel

Key management personnel (the members of the Board of Directors and Management Committee of PJSC Gazprom) receive short-term compensation, including salary, bonuses and remuneration for serving on the management bodies of various Group companies. Government officials, who are directors, do not receive remuneration from the Group. The remuneration for serving on the Boards of Directors of Group companies is subject to approval by the General Meeting of Shareholders of each Group company.

Compensation of key management personnel (other than remuneration for serving as directors of Group companies) is determined by the terms of the employment contracts. Key management personnel also receive certain short-term benefits related to healthcare.

According to Russian legislation, the Group makes contributions to the Russian Federation State pension fund for all of its employees including key management personnel.

Key management personnel also participate in certain post-retirement benefit programs. The programs include pension benefits provided by the non-governmental pension fund, NPF Gazfund, and a one-time retirement payment from the Group. Employees of the majority of Group companies are eligible for such benefits.

The Group provided medical insurance and liability insurance for key management personnel.

Associated undertakings and joint ventures

For the three months ended 31 March 2015 and 2014 and as of 31 March 2015 and 31 December 2014 the Group had the following significant transactions and balances with associated undertakings and joint ventures:

¹ In May 2014 the shares in all gas transportation companies that belonged to W&G Beteiligungs-GmbH & Co. KG were transferred to WIGA Transport Beteiligungs-GmbH & Co. KG. As of 31 March 2015 WIGA Transport Beteiligungs-GmbH & Co. KG forms an independent subgroup of associated undertakings.

² CJSC Gazprom YRGM Trading and CJSC Gazprom YRGM Development are not associated undertakings and joint ventures.

³ Wintershall Erdgas Handelshaus Zug AG is the subsidiary of Wintershall Erdgas Handelshaus GmbH & Co. KG.

⁴ In accordance with the provisions of the Third Energy Package of the European Union regarding the split between the gas transmission and distribution activities in August 2013 AB Lietuvos dujos transferred assets, liabilities and rights related to gas transportation to AB Amber Grid, an associate of the Group. In June 2014 the Group sold its 37 % interests in associates, AB Lietuvos dujos and AB Amber Grid, to companies controlled by the Republic of Lithuania for Euro 121 million.

⁵ In March 2014 the Group acquired 100 % share in LLC Aero TO the only asset of which is 50 % share in LLC Gazpromneft-Aero Sheremetyevo. As a result the Group's effective share in LLC Gazpromneft-Aero Sheremetyevo increased from 47.84 % to 95.68 % and the Group obtained control over LLC Gazpromneft-Aero Sheremetyevo.

Gas is sold to associated undertakings in the Russian Federation mainly at the rates established by the FAS. Gas is sold outside the Russian Federation mainly under long-term contracts at prices indexed mainly to world oil product prices.

Taxation

The tax, currency and customs legislation within the Russian Federation is subject to varying interpretations and frequent changes. Tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments. Management believes that its interpretation of the relevant legislation as of 31 March 2015 is appropriate and all of the Group's material tax, currency and customs positions will be sustainable.

Legal proceedings

On 16 June 2014, PJSC Gazprom submitted a request for arbitration to the Arbitration Institute of the Stockholm Chamber of Commerce, Sweden, against NJSC Naftogaz Ukraine to recover more than USD 4,500 million unpaid debt for gas supplies and related interest charged. On 12 June 2015, PJSC Gazprom submitted to arbitration a review on the claim from NJSC Naftogaz Ukraine and new counter - claim, in which clarified its claims totalling to USD 29,200 million.

On 16 June 2014, NJSC Naftogaz Ukraine submitted a request for arbitration to the Arbitration Institute of the Stockholm Chamber of Commerce against PJSC Gazprom seeking a retroactive revision of the price, compensation of all overpaid amounts starting from 20 May 2011, which according to the claim amounted to not less than USD 6,000 million and cancellation of the contractual prohibition on reexport of natural gas.

On 21 July 2014, both cases were consolidated. Oral hearings will start not earlier than in February - March 2016. Decision of the arbitration panel is scheduled for late June 2016.

On 13 October 2014 NJSC Naftogaz Ukraine submitted a request for arbitration to the Arbitration Institute of the Stockholm Chamber of Commerce, Sweden, against PJSC Gazprom, seeking:

- (1) to acknowledge that rights and obligations of NJSC Naftogaz Ukraine under Contract on volumes and terms of gas transportation contract through Ukraine in 2009-2019 years should be transferred to PJSC Ukrtransgaz;
- (2) to acknowledge that certain provisions of Contract, which will be subsequently updated, are invalid and / or inoperative and should be supplemented with or substituted by provisions which will be updated in line with the energy and anti-monopoly legislation of Ukraine and the European Union ("EU");

23 COMMITMENTS AND CONTINGENCIES (continued)

(3) to oblige PJSC Gazprom to pay a compensation of USD 3,200 million (and related interest) to NJSC Naftogaz Ukraine for the failure to provide gas for transit;

(4) to acknowledge that the transit tariff stipulated in Contract should be revised in such a way as provided in further written statements of NJSC Naftogaz Ukraine in line with key principles of the Swedish contractual law.

The claim amounts to approximately USD 6,200 million. On 28 November 2014 PJSC Gazprom filed its response to the request of arbitration. On 11 December 2014 the arbitration panel was formed. On 28 January 2015 the arbitration court made a decision not to combine the case with the above ones. On 30 April 2015 NJSC Naftogaz Ukraine filed a claim, significantly increasing the amount of the claims, according to various estimates, up to USD 11,000-16,000 million. Verbal hearing of the case is expected late September 2016 and decision of the arbitration panel is expected by the end of January 2017.

On 3 October 2012, the Ministry of Energy of the Republic of Lithuania submitted a request for arbitration to the Arbitration Institute of the Stockholm Chamber of Commerce, Sweden, against PJSC Gazprom. The Ministry of Energy of the Republic of Lithuania declared that PJSC Gazprom violated the shareholders' agreement with AB Lietuvos dujos, by unfair pricing of gas supplied to the Republic of Lithuania and claimed for LTL 5 billion compensation (as of 31 March 2015 – RUB 91,765 million). PJSC Gazprom did not agree to the claims and on 9 November 2012, filed with the Arbitration Institute of the Stockholm Chamber of Commerce response to the request for arbitration. Arbitration panel was formed and hearing on the merits took place from 1 to 9 July 2015. As a result of the hearing the parties have until 30 September 2015 to submit further written statements on the basis of the analysis of materials of hearings, including testimony of witnesses and experts.

In August 2012 the European Commission initiated an investigation into a potential breach of European Union antimonopoly law by PJSC Gazprom. In April 2015 the European Commission adopted a Statement of Objections in the course of the ongoing antitrust investigation of PJSC Gazprom activity in the European Union. The deadline for providing a formal response to the Statement of objections, the European Commission extended until 11 September 2015. The adoption of the Statement of Objections is just one of the stages of the antitrust investigation and does not imply holding PJSC Gazprom liable for any violation of the European Union antitrust legislation. PJSC Gazprom considers the claims brought by the European Commission to be unsubstantiated and expects the situation to be resolved in accordance with the agreement reached earlier between the Government of the Russian Federation and the European Commission.

The Group is also a party to certain other legal proceedings arising in the ordinary course of business and subject to various environmental laws regarding handling, storage, and disposal of certain products, regulation by various governmental authorities. Management believes, there are no such current legal proceedings or other claims outstanding which could have a material adverse effect on the results of operations or financial position of the Group.

Sanctions

In 2014 EU, the United States and some other countries introduced a series of sanctions against Russian Federation and some Russian entities. Some of these sanctions are aimed directly against the PJSC Gazprom, JSC Gazprom Neft and other companies, including Gazprombank (Joint-stock Company), and some of them include general restrictions of economic activity in certain sectors of the Russian economy.

The U.S. sanctions prohibit any U.S. person, and U.S. incorporated entities (including their foreign branches) or any person or entity in the U.S. or related with the territory of U.S. from:

1) transacting in, providing financing for, or otherwise dealing in new debt of longer than 90 days maturity or newly issued share capital, property or rights to property in respect of a number of Russian energy companies, including JSC Gazprom Neft;

2) to carry out operations, to provide funding or otherwise make transactions related to new borrowings with maturity of longer than 30 days or newly issued share capital, property or rights to property of a number of Russian companies of the banking sector, including Gazprombank (Joint-stock Company);

3) providing, exporting, or reexporting, directly or indirectly, goods, services (except for financial services), or technology in support of potential exploration and production of oil in deep water, Arctic offshore, or shale formations in the Russian Federation, or in territorial waters claimed by the Russian Federation with participation of Russian companies, including PJSC Gazprom and JSC Gazprom Neft.

U.S. sanctions apply to any entity, in the capital of which the companies from the sanctions list directly or indirectly, individually or in the aggregate, own 50 or more percent interest in capital.

PJSC Gazprom is not expressly stated in the number of entities against whom the EU sanctions are imposed. However, JSC Gazprom Neft and Gazprombank (Joint-stock Company), as well as their subsidiaries in which they own more than 50 percent interest in capital are subject to certain financial restrictions imposed by the EU. In addition, the EU imposed sanctions in relation to certain sectors of the Russian economy, affecting some of the activities of the Group in the field of oil production.

The sanctions imposed by the EU prohibit all citizens of countries-EU members, as well as to all legal entities and bodies established or created under the laws of the country-a member of the EU (both within the EU and abroad), as well as all legal entities, bodies in connection with any economic activities carried out in whole or in part within the EU:

1) provision of drilling, well testing, logging and completion and services and supply of specialized floating vessels necessary for deep water oil exploration and production, and (or) Arctic oil exploration and production, and shale oil projects in Russia, as well as the direct or indirect financing, financial assistance, technical and brokerage services in relation to these activities;

2) purchasing, selling, providing investment services for or assistance in the issuance of, or other dealings with transferable securities and money market instruments with a maturity of more than 90 days issued from 1 August 2014 to 12 September 2014 or more than 30 days, issued after 12 September 2014 by certain Russian companies in banking sector, including Gazprombank (Joint-stock Company);

3) purchase, sale, provision of investment services for or assisting in the issuance of, or other dealings with transferable securities and money market instruments issued by some Russian energy companies, including JSC Gazprom Neft, after 12 September 2014 with maturity of more than 30 days;

4) providing after 12 September 2014 directly or indirectly or being part of any arrangement to make new loans or credit with a maturity of more than 30 days to a number of Russian companies (including JSC Gazprom Neft and Gazprombank (Joint-stock Company)), except for loans or credit that have a specific and documented objective to provide financing for non-prohibited imports or exports of goods and non-financial services between the EU and Russia or for loans that have a specific and documented objective to provide emergency funding to meet solvency and liquidity criteria for legal entities established in the EU, whose proprietary rights are owned for more than 50 percent by any entity referred to above.

These EU sanctions also apply to any entity if 50 percent or more of its capital is owned, directly or indirectly, separately or in the aggregate, by sanctioned entities.

Canada and some other countries have also introduced sanctions against some Russian individuals and legal entities, including PJSC Gazprom and JSC Gazprom Neft.

In June 2015 Canada imposed additional sanctions on the Russian energy sector, including PJSC Gazprom, JSC Gazprom Neft and other oil and gas companies of the Russian Federation.

Sanctions imposed by Canada prohibit any person in Canada and any Canadian citizen to transact in, provide financing for, or otherwise deal in new debt with maturity of more than 90 days for a number of Russian energy companies, including PJSC Gazprom and JSC Gazprom Neft. In addition, there is the ongoing restriction on the export, sale and delivery by persons in Canada, Canadians and located outside the territory of Canada of certain goods to Russia or any person in Russia, if such goods are used for deep-water oil exploration (at a depth of more than 500 meters), for the exploration and production of oil in the Arctic, as well as the exploration and production of shale oil.

The Group continues to assess and monitor the impact of the ongoing sanctions but currently does not believe they have a significant impact on the financial position and results of operations of the Group.
