GUINNESS ASSET MANAGEMENT

Fund profile

Aim	► Income and long-term capital growth
Investment case	► Provides exposure to dividend paying companies in the Asia Pacific region. ► Asia Pacific economies have developed and diversified due to factors including demographics, industrialisation, productivity gains and consumer spending. ► Value can be found in companies that have turned these themes into returns on capital above the cost of capital on a sustained basis.
Process	► Quality: We look for companies that have sustained higher returns on invested capital which we believe are likely to persist. ► Value: We look for companies whose shares under-price the likely persistence of those returns on capital. ► Dividends: We look for companies that can grow their Dividends.
Portfolio	► Conviction: through a concentrated, equally weighted portfolio of 36 stocks, rebalanced periodically and managed on a one-in/one-out basis. ► Low turnover; minimum $500m market cap; no benchmark-driven constraints on sector and regional weightings

Risks

Guinness Asian Equity Income Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund only invests in the Asia region; it is therefore susceptible to the performance of that region, and can be volatile. Details on the risk factors are included in the Fund's documentation, available on our website. Shareholders should note that all or part of the fees and expenses will be charged to the capital of the Fund. This will have the effect of lowering the capital value of your investment. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested.
