BMO Responsible UK Income Fund

Share Class: 2 Acc, a Fund of BMO Investment Funds (UK) ICVC V (ISIN GB00B4NKFT88).
This Fund is managed by BMO Fund Management Ltd.

Objectives and investment policy

The objective is to provide income and long-term capital growth.

The Manager seeks to achieve this by investing mainly in UK equities (ordinary shares in companies listed on the UK stock market). The Manager invests only in assets which meet the Fund's ethical screening criteria. The ethical screening applied to the Fund means that a number of the UK's largest companies (those that form part of the FTSE 100 Index) are screened out on ethical grounds. As a result, the Fund will usually include significant exposure to medium and smaller companies.

While the Manager will invest mainly in equities, it may also invest in other investments such as corporate bonds (fixed interest securities issued by companies) and derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying equities) to gain exposure to companies to manage the portfolio efficiently.

Hedging is an investment technique that may be used to protect the value of the Fund from adverse price movements in equities.

Investment is concentrated in UK companies whose products and operations are considered to be making a positive contribution to society and seeks to avoid companies which, on balance do particular harm (including those involved in the sale of armaments) or operate irresponsibly (for example with regard to the environment or human rights).

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the FTSE All-Share index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Any income earned by this share class will be reinvested back into the share class to help boost the value of a share.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk ← **Typically higher rewards, higher risk** →

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.

Credit Risk: receiving income or capital due from debt instruments is dependant on the provider's ability to pay.

Yield Risk: the yield on the FTSE All-Share Index can fall and rise and is not guaranteed.

Charges from Capital Risk: taking the charges from the capital of the Fund to increase the distributable income may impact on capital returns.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.79%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 30/11/2019

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.bmogam.com.

Past performance

You should be aware that past performance is not a guide to future performance.
