# Schroder Responsible Value UK Equity Fund

**an Authorised Unit Trust of Schroder Unit Trusts Limited**  
**Class Z Accumulation GBP (GB00BF783V38)**

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

## Objectives and Investment Policy

### Objectives

The fund aims to provide capital growth and income in excess of the FTSE Customised All-Share ex Ethically Screened (Gross Total Return) index\* (after fees have been deducted) over a 3 to 5 year period by investing in equities of UK companies.

\* The fund's benchmark is adjusted to exclude companies that do not meet the Responsible Investment Policy.

### Investment Policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equities of UK companies. These are companies that are incorporated, headquartered or have their principal business activities in the UK. The fund typically holds 30 to 50 companies.

The fund follows a responsible investment approach by using the Schroder Responsible Value UK Equity Fund Responsible Investment Policy, a process by which companies are vetted against certain responsible standards. The Responsible Investment Policy applies investment restrictions on companies involved in military products and services, non-military firearms, pornography, tobacco, gambling, alcoholic drinks, high interest rate lending and human embryonic cloning.

The investment manager also assesses companies on their environmental and social impact as well as the strength of their corporate governance.

The fund focuses on companies that have certain "Value"

characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the manager believes have been undervalued by the market.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

### Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the FTSE Customised All-Share ex Ethically Screened (Gross Total Return) index, and compared against the FTSE All Share (Gross Total Return) index. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

### Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

### Distribution Policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

## Risk and Reward Profile

### The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk factors

The following risks may affect fund performance.

**Concentration risk:** The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/

or individual positions. This may result in large changes in the value of the fund, both up or down, which may adversely impact the performance of the fund.

**Counterparty risk:** The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the fund, potentially creating a partial or total loss for the fund.

**Currency risk:** The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**Derivatives risk:** A derivative may not perform as expected, and may create losses greater than the cost of the derivative.

**Equity risk:** Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**Leverage risk:** The fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of fund operations or losses.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be

achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

## Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing Charge	0.93%
Charges taken from the fund under certain specific conditions	
Performance fee:	None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2018 and may vary from year to year.

Please see the prospectus for more details about the charges.

## Past Performance

- 1 Performance achieved during this period was achieved in circumstances that no longer apply. The fund name and objectives and investment policy changed on 14 February 2018.
- 2 Performance shown during this period predates the launch of this unit class and has been simulated using the history of a similar unit class within the fund.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 24 March 2006.
