Policy:

- To aim to achieve its objective, the Fund will invest in a concentrated portfolio of approximately 30-60 stocks.
- The Fund will seek to achieve its objective by investing at least 80% or more in securities of companies incorporated in Continental Europe and Ireland.
- The Fund may also invest in companies that are headquartered or quoted outside Europe which derive a significant part of their business from Europe and whose securities are listed or traded on an eligible securities exchange.
- The Fund will not concentrate on any particular sector but will invest in a broad range of stocks without regard to market capitalisation.
- The fund manager will however have regard to liquidity and tracking error.
- The Fund may also invest in other transferable securities, units in collective investment schemes, money market instruments and deposits.
- The Fund may also make use of derivatives and forward transactions for the purpose of efficient portfolio management, including the use of hedging techniques and stock lending.

Benchmark:

The investment objective of the Fund is to achieve above average returns and attempt to perform a top quartile profile when measured against competing funds in the same sector. The Fund uses the Investment Association's (IA) IA Europe ex UK Sector as a target benchmark against which the performance of the Fund has been set ('Target Benchmark').

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.
- Class R Shares appear as a '6' on the scale. This is because the Fund invests in the shares of companies, whose values tend to vary more widely.

- The indicator above does not take account of the following risks of investing in the Fund:
- Values can go up and down because of changes in currency exchange rates.
- The Fund will hold a limited number of investments which may increase the chance of gains but can lead to more risk than where investments are held more widely.
- There is a risk that a bank or building society could face financial problems, leading to the loss of some or all of any money on deposit.
- There is a risk that third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.
- For full details of the Fund's risks please see Section 5 of the Fund's Prospectus.
