EF Tellsons Endeavour Fund, a sub-fund of EF Tellsons ICVC

EF Tellsons Endeavour PF GBP Acc (ISIN GB00BJ391J22)

The Fund is managed by WAY Fund Managers Limited

Objective and investment policy

Objective:

The investment objective of the Fund is to target capital growth, with less of the volatility of equities*, at a rate of 3-4% in excess of a composite performance benchmark** (50% of UK Consumer Prices Index (CPI) (rolling 5-year average) and 50% of the UK 5-year and less Gilt Index) over a 5 year period.

Policy:

The Investment Manager aims to achieve the Fund's objective by investing at least 80% of its net assets in a diverse global allocation of direct and indirect investment in equities and corporate bonds. The Fund may also invest in other transferable securities, warrants, cash, near cash, deposits and money market instruments.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, meaning that the Investment Manager has the absolute discretion to weight the portfolio towards any permitted investment type or sector at any time.

The use of derivatives is permitted by the Fund for efficient portfolio management purposes (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling).

Borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis.

*means that the price of shares in the Fund are not expected to experience the short-term peaks and troughs in value that commonly affect the prices of ordinary shares (or international equivalents).

**a benchmark representing the aggregate performance of two or more measurable indices.

Benchmark:

The Fund's target benchmark is to grow, over any 5 year period, by 3-4% above the rate of the aggregate performance of 50% of UK Consumer Price Index (CPI) (rolling 5-year average) and 50% of the UK 5-year and less Gilt Index with volatility being measured against the MSCI World 100% Hedged to GBP Index over the same period.

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Fund appears as a "4" on the scale. This is because it invests in a mixture of investments. The value of some of these investments may vary more widely than others.

The indicator above does not take account of the following risks of investing in the Fund:

• The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities.

There can be no assurance that any appreciation in the value of investments will occur.

• There is a risk that third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.

• Changes in exchange rates may mean the value of your investment goes up and down.

• Interest rate movements affect the value of bonds. Bonds with a longer maturity period are more sensitive to changes in interest rates.

• A third party which issues bonds may fail to meet the interest repayments, or repay its debt, leading to losses for the Fund. The risk is greater for investments that have a lower credit-rating.

For full details of the Fund's risks please see the Fund's Prospectus, which is available from WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856.
