#### **RISK AND REWARD PROFILE**

Potentially lower rewards				Potentially higher rewards		
Lower	r risk		Higher risk			
1	2	3	4	5	6	7

- · The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- · The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile. · A risk indicator of "1" does not mean that the investment is
- "risk free".

#### The risk indicator may not fully take into account the following risks and the following may affect fund performance:

- · Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
- · Currency risk: The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.
- · Special situations risk: The fund invests in companies that are in recovery, need re-financing or are suffering from lack of market attention (special situations). These companies are subject to higher-than-average risk of capital loss.

Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.
