WisdomTree
DAX 30 3x Daily Short

Investment Objective
WisdomTree DAX® 30 3x Daily Short is a fully collateralised, UCITS eligible Exchange Traded Product (ETP). The ETP tracks the ShortDAX® x3 TR index, providing three times the inverse daily performance of the DAX index, adjusted to reflect fees as well as the costs

For example, if the DAX rises by 1% over a day, then the ETP will fall by 3%, excluding fees. However if the DAX falls by 1% over a day, then the ETP will rise by 3%, excluding fees.

Potential Benefits
- Magnify your returns in one simple trade
- Liquid. Trades like an equity on exchange, with multiple authorised participants (APs) and market makers (MMs)
- You cannot lose more than the amount invested, and an intraday rebalance mechanism is built-in to cushion the largest intra-day falls
- Simple to trade, no need for futures, no need to borrow cash or short stocks
- Transparent structure with world class service providers and fully collateralised

Potential Risks
- Investing in Short and Leveraged ETPs is only suitable for sophisticated and/or informed investors who understand leverage, daily rebalancing and compounded daily returns and are willing to magnify potential losses
- Investors can lose the full value of their initial investment, however they cannot lose more than their initial investment
- Losses are magnified due to the nature of leveraged returns. Therefore, Short and Leveraged ETPs are only suitable for investors willing to take a high level of risk
- Transparent, cost-efficient and fully collateralised ETC structure
- Daily compounding may result in returns which an investor may not expect, if the investor has not fully understood how a WisdomTree ETP works

Product Information

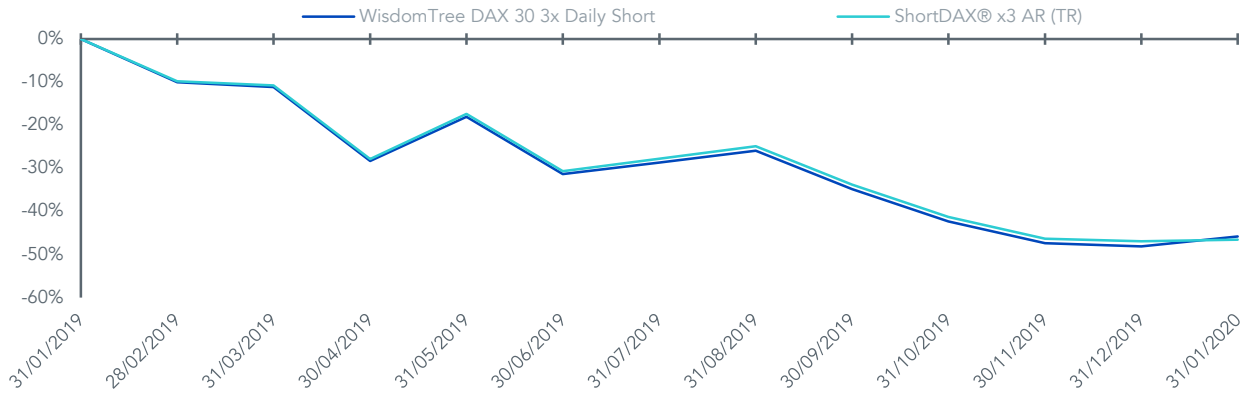

Asset Class	Equities
ISIN	IE00B8GKPP93
Base Currency	EUR
Inception Date	13/12/2012
Currency Hedged	No
Management Fee	0.80%
Daily Swap Rate	0.004440%

WisdomTree
DAX 30 3x Daily Short

Glossary

Dividend Weighted Index: an index that determines the weight of its constituents using the dividends paid by the security rather than another variable (the most common is Market Cap weighted indices). **Fully Replicated:** assets are invested in securities that match the constituents of the relevant index, in the same proportion. **Fundamentally Weighted Index:** an index that weights securities on the basis of factors such as dividends or earnings. **Large Cap, Mid Cap and Small Cap:** refers to market capitalisation and is calculated by multiplying the price of a stock by the number of shares outstanding. **Listing currency:** the trading currency on the exchange. **Physical (Optimised):** assets are predominately invested in securities that are constituents of the index, but may also hold securities whose characteristics closely resemble the characteristics of the index. **Physically Backed:** securities held by the fund are the actual securities not a derivative.**Rebalance:** An index is created by applying a certain set of selection and weighting rules of countries, sectors and stocks at a certain frequency. A Rebalance is when WisdomTree re-applies its rules based selection and weighting process. **Rebalance Frequency:** The frequency by which the constituents of the index are screened and their weights changed. **Replication Method:** the method by which the fund gets exposure to the benchmark index. **Share class currency or the "NAV currency":** The currency that the fund's NAV is issued in. **Total Expense Ratio (TER):** a measure of the total costs associated with managing and operating a fund. The TER consists primarily of management fees plus other expenses such as trustee, custody and operating expenses. It is expressed as a percentage of the fund's total net asset value.

WisdomTree Multi Asset Issuer PLC (the "Issuer") issues products under a Prospectus ("WTMA Prospectus") approved by the Central Bank of Ireland, drawn up in accordance with the Directive 2003/71/EC. The WTMA Prospectus has been passported to various European jurisdictions including the UK, Italy and Germany and is available on this document.

WisdomTree Multi Asset Issuer PLC Exchange Traded Products ("ETPs") are suitable for financially sophisticated investors who wish to take a short-term view on the underlying indices and can understand the risks of investing in products offering daily leveraged or daily short exposures. ETPs offering daily leveraged or daily short exposures ("Leveraged ETPs") are products which feature specific risks that prospective investors should understand before investing in them. Higher volatility of the underlying indices and holding periods longer than a day may have an adverse impact on the performance of Leveraged ETPs. As such, Leveraged ETPs are intended for financially sophisticated investors who wish to take a short-term view on the underlying indices and understand such risks. As a consequence, WisdomTree is not promoting or marketing WisdomTree Multi Asset Issuer PLC ETPs to retail clients. Investors should refer to the section entitled "Risk Factors" and "Economic Overview of the ETP Securities" in the WTMA Prospectus for further details of these and other risks associated with an investment in Leveraged ETPs and consult their financial advisors as needed. Neither WisdomTree, nor the Issuer has assessed the suitability of any Leveraged ETPs for investors other than the relevant Authorised Participants.
