BNY MELLON GLOBAL EMERGING MARKETS FUND

INSTITUTIONAL SHARES W (INCOME) (ISIN: GB00BVYP917)

A SUB-FUND OF BNY MELLON INVESTMENT FUNDS

THIS FUND IS MANAGED BY BNY MELLON FUND MANAGERS LIMITED

OBJECTIVES AND INVESTMENT POLICY

OBJECTIVE

To achieve long term capital growth.

POLICY

The Fund will:

- invest in global emerging markets;
- invest in company shares and similar investments; and
- be actively managed which means the investment manager has discretion over the selection of investments subject to the investment objective and policies disclosed in the Prospectus. The MSCI Emerging Markets NR Index is used as a comparator against which to measure the performance of the Fund. The portfolio holdings of the Fund will not be limited to components of this Index and the investment manager will use its discretion to invest outside the Index in pursuit of the Fund's investment objective.

The Fund may:

- invest up to 10% in other collective investment schemes; and
- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income.

Treatment of income: income from investments will be paid to shareholders annually on or before 31 August.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each working day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 10,000,000.

RISK AND REWARD PROFILE

This Fund is in category 6 because its simulated historical value has shown relatively high volatility. With a Fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. As this Fund has less than five years performance data available, it is based on simulated volatility and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

– **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

– **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.

– **Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect ("Stock Connect") risk:** The Fund may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

– **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
