GENERAL INFORMATION

Fidelity UCITS ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 19 August 2016 under registration number C158668 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Except where the context otherwise requires, defined terms shall bear the meaning given to them in the Prospectus of the Fund.

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each sub-fund will have a distinct schedule of investments. Currently, there are seven Sub-Funds (each, a "Sub-Fund" and, collectively, the "Sub-Funds") under the umbrella:

Sub-Fund	Launch Date
Fidelity Global Quality Income UCITS ETF	27 March 2017
Fidelity US Quality Income UCITS ETF	27 March 2017
Fidelity Emerging Markets Quality Income UCITS ETF	30 October 2017
Fidelity Europe Quality Income UCITS ETF	30 October 2017
Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF	18 May 2020
Fidelity Sustainable Research Enhanced US Equity UCITS ETF	21 May 2020
Fidelity Sustainable Research Enhanced Global Equity UCITS ETF	27 May 2020

With the prior approval of the Central Bank, the Fund from time to time may create an additional Sub-Fund or Sub-Funds. The investment policies and objectives for which will be outlined in a Relevant Supplement, together with details of the initial offer period, the initial subscription price for each Share and such other relevant information in relation to the additional Sub-Fund or Sub-Funds as the Directors may deem appropriate, or the Central Bank requires, to be included. Each Relevant Supplement will form part of, and should be read in conjunction with, the Prospectus. In addition, the Fund may create additional Classes of Shares within a Sub-Fund to accommodate different terms, including different charges and/or fees and/or brokerage arrangements provided that the Central Bank is notified in advance, and gives prior clearance, of the creation of any such additional Class of Shares.

The most recent Prospectus of the Fund is dated 18 October 2019. The most recent Supplements for Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF, Fidelity Sustainable Research Enhanced US Equity UCITS ETF and Fidelity Sustainable Research Enhanced Global Equity UCITS ETF are dated 5 March 2020. The most recent Supplement of Fidelity Global Quality Income UCITS ETF is dated 14 August 2020. The most recent Supplements for all other Sub-Funds are dated 18 October 2019.

The Sub-Funds are exchange traded funds ("ETFs") and all Shares in the Sub-Funds are designated as "ETF Shares" (being Shares that are intended to be actively traded on a secondary market). The following Sub-Funds are the Index Tracking Sub-Funds: Fidelity Global Quality Income UCITS ETF, Fidelity Income UCITS ETF, Fidelity Emerging Markets Quality Income UCITS ETF and the Fidelity Europe Quality Income UCITS ETF. The following Sub-Funds are the Actively Managed Sub-Funds: Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF, Fidelity Sustainable Research Enhanced Global Equity UCITS ETF. The benchmark indices for the Index Tracking Sub-Funds are listed below:

Sub-Fund	Index
Fidelity Global Quality Income UCITS ETF	Fidelity Global Quality Income Index
Fidelity US Quality Income UCITS ETF	Fidelity US Quality Income Index
Fidelity Emerging Markets Quality Income UCITS ETF	Fidelity Emerging Markets Quality Income Index
Fidelity Europe Quality Income UCITS ETF	Fidelity Europe Quality Income Index

The Manager has appointed Geode Capital Management, LLC to act as Investment Manager of the Index Tracking Sub-Funds and FIL Investments International to act as Investment Manager of the Actively Managed Sub-Funds (each, an "Investment Manager" and, collectively, the "Investment Managers").

The investment objective of the Index Tracking Sub-Funds is to provide investors with a total return, taking into account both capital and income returns, which reflects, before fees and expenses, the return of the relevant benchmark index (each, an "Index").

For more information on the Index please refer to the available index methodology which can be downloaded from the Fidelity ETFs website, www.fidelity-etfs.com/documents.

GENERAL INFORMATION (CONTINUED)

The investment objective of the Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in Europe.

The investment objective of the Fidelity Sustainable Research Enhanced US Equity UCITS is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in the United States.

The investment objective of the Fidelity Sustainable Research Enhanced Global Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies domiciled globally.

Fidelity Global Quality Income UCITS ETF

The Fidelity Global Quality Income Index is designed to reflect the performance of stocks of large and mid-capitalisation dividend paying companies from developed countries that exhibit quality fundamental characteristics. The Index comprises the equity securities of the relevant companies. The Index constituents are screened according to fundamental measures such as free cash flow margin, return on invested capital and free cash flow stability with the objective of identifying financially robust companies. The companies with highest dividend yield are then selected for inclusion within the Index. The Index is rebalanced annually.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index

In order to seek to achieve this investment objective, Geode Capital Management LLC will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

The following are the active Share Classes in the Sub-Fund as at 31 July 2020:

Share Class	Share Class Launch Date	Currency
Inc	27 March 2017	USD
EUR Hedged (Acc)	29 November 2017	EUR
GBP Hedged (Acc)	29 November 2017	GBP
CHF Hedged Inc	22 June 2020	CHF

Fidelity US Quality Income UCITS ETF

The Fidelity US Quality Income Index is designed to reflect the performance of stocks of large and mid-capitalisation dividend paying US companies that exhibit quality fundamental characteristics. The Index comprises the equity securities of the relevant companies. The Index constituents are screened according to fundamental measures such as free cash flow margin, return on invested capital and free cash flow stability with the objective of identifying financially robust companies. The companies with highest dividend yield are then selected for inclusion within the Index. The Index is rebalanced annually.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, Geode Capital Management LLC will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

EUR Hedged (Acc)	20 November 2017	EUR
GBP Hedged (Acc)	20 November 2017	GBP

Fidelity Emerging Markets Quality Income UCITS ETF

The Fidelity Emerging Markets Quality Income Index is designed to reflect the performance of stocks of large and mid-capitalisation dividend paying companies that exhibit quality fundamental characteristics from emerging market countries. The Index comprises the equity securities of the relevant companies. The Index constituents are screened according to fundamental measures such as free cash flow margin, return on invested capital and free cash flow stability with the objective of identifying financially robust companies. The companies with highest dividend yield are then selected for inclusion within the Index. The Index is rebalanced annually.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Fidelity Europe Quality Income UCITS ETF

The Fidelity Europe Quality Income Index is designed to reflect the performance of stocks of large and mid-capitalisation dividend paying companies that exhibit quality fundamental characteristics from countries within Europe. The Index comprises the equity securities of the relevant companies. The Index constituents are screened according to fundamental measures such as free cash flow margin, return on invested capital and free cash flow stability with the objective of identifying financially robust companies. The companies with highest dividend yield are then selected for inclusion within the Index. The Index is rebalanced annually.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, Geode Capital Management LLC will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

GENERAL INFORMATION (CONTINUED)

Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF

The Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF is designed to achieve its investment objective by actively investing in a portfolio primarily made up of equity securities of companies domiciled, or exercising the predominant part of their economic activity, in Europe.

FIL Investments International will use a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. The portfolio will have a robust environmental, social and governance (the "ESG") profile, focusing on companies that maintain strong ESG credentials.

The Sub-Fund will hold a portfolio of equity securities which is systematically selected and managed with the aim of outperforming the MSCI Europe (Net Total Return) Index (the "Benchmark") over the long-term. The Benchmark is designed to measure the capital gains of the larger segments of the European stock market and assumes that any cash distributions, such as dividends, are reinvested.

The following is the active Share Class in the Sub-Fund as at 31 July 2020:

Share Class	Share Class Launch Date	Currency
Acc	18 May 2020	EUR

Fidelity Sustainable Research Enhanced US Equity UCITS ETF

The Fidelity Sustainable Research Enhanced US Equity UCITS ETF aims to achieve its investment objective by actively investing in a portfolio primarily made up of equity securities of companies domiciled, or exercising the predominant part of their economic activity, in the United States.

FIL Investments International will use a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. The portfolio will have a robust environmental, social and governance profile, focusing on companies that maintain strong ESG credentials.

The Sub-Fund will hold a portfolio of equity securities which is systematically selected and managed with the aim of outperforming the MSCI USA (Net Total Return) Index (the "Benchmark") over the long-term. The Benchmark is designed to measure the capital gains of the larger segments of the U.S. stock market and assumes that any cash distributions, such as dividends, are reinvested.

The following is the active Share Class in the Sub-Fund as at 31 July 2020:

Share Class	Share Class Launch Date	Currency
Acc	27 May 2020	USD

INVESTMENT MANAGERS' REPORT

Fidelity Global Quality Income UCITS ETF

The Fidelity Global Income Index ("Index") returned -4.40% for the six month period ending July 31, 2020. The Fidelity Global Quality Income UCITS ETF ("Fund") outperformed and returned -4.25% (gross of fees) for the same period. The overperformance was mainly attributable to tax differential between the fund and the benchmark. The Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals, trading costs, and withholding tax differences between the Fund and the Index.

Thirteen of the eighteen countries within the Index had negative returns. Japan and the United States returned -13.5% and -17.8% respectively drove the index return down. In Scandinavia, Finland and Denmark were up 12.8% and 16.0% leading the way for the small group of countries that gained for the period. On a stock level, Apple Inc. +37.8% and Microsoft. +20.9% led the way. Stocks that dragged for the period included AT&T Inc. in the US and Royal Dutch Shell in the UK, they dropped -21.4% and -41.3% respectively.

The Fund seeks to track benchmark returns by closely replicating the constituents and characteristics of the Fidelity Global Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section on page 102.

July 2020

Geode Capital Management LLC

Fidelity US Quality Income UCITS ETF

The Fidelity US Quality Income Index ("Index") was down -2.03% for the six-month period ending July 31, 2020. The Fidelity US Quality Income UCITS ETF ("Fund") outperformed and returned -1.84% (gross of fees). The primary driver of outperformance for the period was the tax differential between the fund and the benchmark. The Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals and withholding tax differences between the Fund and the Index.

Four of the eleven GICS sectors had positive returns over period. Information Technology contributed the most to the index return up 12.4% followed by the Health Care sector gaining 7.5%. Financials and Energy fared the worst, they were off -25.6% and -34.3% respectively. Microsoft and Apple led the way returning 20.9% and 37.8% respectively. The top two detractors were Boeing Co. which dropped -50.1%, and Raytheon Co. with a decline of -47.0%.

The Fund continues to track benchmark returns by closely replicating the constituents and characteristics of the Fidelity US Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section on page 102.

July 2020

Geode Capital Management LLC

Fidelity Emerging Markets Quality Income UCITS ETF

The Fidelity Emerging Markets Quality Income Index ("Index") fell -2.75% for the six-month period ending July 31, 2020. The Fidelity Emerging Markets Quality Income UCITS ETF ("Fund") return declined -2.98% (gross of fees). The primary drivers of the underperformance were trading cost on the annual index reconstitution and tax differences between the fund and the benchmark. The Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of security selection from the portfolio optimization employed and withholding tax differences between the Fund and the Index.

Only seven of the twenty-three countries within the Index had positive returns. China (+18.6%) and Taiwan (+3.7%) were both positive contributors. The two countries detracting the most Brazil and South Africa, they fell -22.8% and 27.7% respectively. On a stock level, Tencent Holdings LTD a China constituent contributed the most up 43.8% followed by Kingdee International Software Group in Hong Kong which gained 154.9%. Housing Development Financial India and Lukoil in Russia were the leading detractors falling -28.8% and -27.8% respectively.

INVESTMENT MANAGERS' REPORT (CONTINUED)

Fidelity Emerging Markets Quality Income UCITS ETF (continued)

The Fund seeks to track benchmark returns by replicating the constituents and characteristics of the Fidelity Emerging Markets Quality Income Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section on page 102.

July 2020

Geode Capital Management LLC

Fidelity Europe Quality Income UCITS ETF

The Fidelity Europe Quality Income Index ("Index") lost -12.14% for the six-month period ending July 31, 2020. The Fidelity Europe Quality Income UCITS ETF ("Fund") outperformed for the period by seventeen basis points, returning -11.97% (gross of fees). The drivers of performance variance included tax differences between the fund and the benchmark which was partially offset by trading costs generated by the index reconstitution. The Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals and withholding tax differences between the Fund and the Index. Returns are in Euros.

All but two of the fourteen countries within the Index had negative returns. Denmark (+11.3%) and Netherlands (+5.1%) were the top two positive contributors. UK (-18.0%) and France (-12.3%) accounted for most of the drag on performance. ASML Holdings in the Netherland was a leading contributor up 18.5%. Pandora A/S in Denmark also help by retuning 43.5%. Some of the underperformers included ITV a British broadcasting company fell -59.7% and Lloyd Banking Group dropped -47.1%.

The Fund continues to track the benchmark return by closely replicating the constituents and characteristics of the Fidelity Europe Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section on page 102.

July 2020

Geode Capital Management LLC

Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF

The Fidelity Sustainable Research Enhanced Europe Equity ETF ("Sub-Fund"), which was listed on 3rd June 2020, returned -2.77% for the period ending 31st July 2020*, outperforming the MSCI Europe Net Total Return Index ("Index") returns of -3.47% (+0.60%). The portfolio is managed by the Fidelity Systematic Equities team and constructed using a rigorous and repeatable investment process designed to provide sustainable broad global equity exposure with low active risk. The sub-fund is therefore expected to behave very similarly to the Index with broadly neutral sector and regional positions and no significant individual securities exposures. With a low tracking error (below 200bps), it is designed to moderately outperform its benchmark, with an alpha target of +1% per annum through the market cycle.

Amid economic uncertainty, the European market posted declines. Relative contribution from Germany, the UK and France, the key geographic constituents, was positive. Consumer staples and Information Technology led the contribution to relative return, which was primarily due to stock avoidance including not owning British American Tobacco and Wirecard; the former is an excluded stock in our sustainable strategies and the well publicised latter was excluded on fundamental and sustainability grounds. Avoiding healthcare company Bayer also contributed to performance, due to a challenging operating environment in agriculture and forthcoming patent expiry in its pharmaceuticals business. Conversely, the Industrials and Utilities sectors were the biggest detractors; the holding in airlines company IAG has not yet started to recover and avoiding power company ABB has also negatively impacted the fund.

July 2020

FIL Investments International

^{*} Period from the listing date, 3rd June 2020

INVESTMENT MANAGERS' REPORT (CONTINUED)

Fidelity Sustainable Research Enhanced US Equity UCITS ETF

The Fidelity Sustainable Research Enhanced US Equity ETF ("Sub-Fund"), which was listed on 3rd June 2020, returned 5.78% for the period ending 31st July 2020*, outperforming the MSCI USA Net Total Return Index ("Index") returns of 5.49% (+0.29%). The portfolio is managed by the Fidelity Systematic Equities team and constructed using a rigorous and repeatable investment process designed to provide sustainable broad global equity exposure with low active risk. The sub-fund is therefore expected to behave very similarly to the Index with broadly neutral sector and regional positions and no significant individual securities exposures. With a low tracking error (below 200bps), it is designed to moderately outperform its benchmark, with an alpha target of +1% per annum through the market cycle.

The strong market was led by the FANGS and new technologies. Specifically, companies including Amazon, Apple, Microsoft and Tesla all posted formidable gains. In terms of our portfolio, Industrials were the largest contributors to outperformance, as we avoided stocks such as Raytheon, General Electric and Boeing. Communication Services and Information Technology (IT) also added alpha, supported by stock specific gains in the afore mentioned group of companies such as Apple, Microsoft, AT&T, Disney and Amazon. Conversely, the key detractors were also in IT: As the sector has re-rated not owning stocks including Paypal and AMD negatively impacted contribution.

July 2020

FIL Investments International

Fidelity Sustainable Research Enhanced Global Equity UCITS ETF

The Fidelity Sustainable Research Enhanced Global Equity ETF ("Sub-Fund"), which was listed on 3rd June 2020, returned 4.52% for the period ending 31st July 2020*, outperforming the MSCI World Net Total Return Index ("Index") returns of 3.93% (+0.59%). The portfolio is managed by the Fidelity Systematic Equities team and constructed using a rigorous and repeatable investment process designed to provide sustainable broad global equity exposure with low active risk. The sub-fund is therefore expected to behave very similarly to the Index with broadly neutral sector and regional positions and no significant individual securities exposures. With a low tracking error (below 200bps), it is designed to moderately outperform its benchmark, with an alpha target of +1% per annum through the market cycle.

The buoyant market was supported by the FANGs and new technology companies, including strong gains in Apple, Amazon, Microsoft, Salesforce and Tesla. At a portfolio level, our investments in the UK, France, US and Germany all contributed to positive returns as Industrials, Consumer Staples and Utilities were the key drivers of portfolio alpha. Information Technology did not positively contribute to relative returns as despite our key contributing positions in heavyweights Apple, Microsoft and Amazon, these were more than offset by not owning other sector names including Paypal, AMD and Shopify as the sector re-rated. The sustainable focus of this fund helped drive positive relative contribution by avoiding energy companies including Exxon Mobile and Royal Dutch Shell. Conversely, our position in financials company JP Morgan Chase detracted from alpha, amidst near term pressure on the overall sector.

 ³ The Sub-Fund launched on 27 May 2020.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2020

1. Organisation

Fidelity UCITS ICAV (the "Fund") was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 19 August 2016 under registration number C158668 and is authorised by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

The Fund is organised in the form of an umbrella fund with segregated liability between Sub-Funds. The Prospectus provides that the Fund may offer separate Sub-Funds. Each Sub-Fund will have a distinct schedule of investments. The portfolio of assets maintained for each Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund as specified in the Relevant Supplement. For more information please refer to the General Information section on page 2.

The Shares of each Index Tracking Sub-Fund are admitted to the Official List and to trading on the Regulated Market of Euronext Dublin and are admitted to trading on the London Stock Exchange and Deutsche Börse, additionally the Shares of Fidelity US Quality Income UCITS ETF are admitted to trading on SIX Switzerland.

The Shares of each Actively Managed Sub-Fund are admitted to the Official List and to trading on the Regulated Market of Euronext Dublin and are admitted to trading on the London Stock Exchange.

2. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are consistent with those of the annual audited financial statements for the financial year ended 31 January 2020 as described in those financial statements.

The accounting policy is as follows:

a) Basis of Preparation of Financial Statements

These condensed unaudited interim financial statements for the financial period ended 31 July 2020 have been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting' ("IAS 34"). They should be read in conjunction with the Fund's annual audited financial statements for the financial year ended 31 January 2020, which have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union ('IFRS'), interpretations adopted by the International Accounting Standards Board ('IASB'), ICAV ACT 2015 and certain requirements of the UCITS Regulations and the Central Bank's (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (the "Central Bank UCITS Regulations") that apply to financial reports.

The condensed interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets, financial liabilities and derivative financial instruments at fair value through profit or loss.

The preparation of the condensed interim financial statements requires the Directors of the Manager and management to exercise critical judgments in the process of applying the Funds' accounting policies and to make certain accounting estimates and assumptions. Actual results may differ from those estimates and assumptions. Critical accounting judgments and estimates are set forth in Note 2.

The condensed interim financial statements as at 31 July 2020 are unaudited. We note that the statutory auditor's report in the audited year end financial statements as at 31 January 2020 was unqualified.

Similar to the financial year ended 31 January 2020, these financial statements were prepared on a going concern basis.

The Fund is authorised by the Central Bank as a UCITS pursuant to the UCITS Regulations.

For the Index Tracking Sub-Funds the comparative figures used on the Statement of Financial Position and related notes are as at 31 January 2020. Comparative figures for the six months period ended 31 July 2019 are presented for the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Cash Flows and the related notes. For the Actively Managed Sub-Funds the period ended 31 July 2020 is the first reporting cycle, and therefore there are no comparatives in the financial statements.

b) New standards, amendments and interpretations

New standards and amendments to existing standards

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2020 that have a material effect on the financial statements of the Sub-Funds.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2020 (CONTINUED)

2. Significant Accounting Policies (continued)

b) New standards, amendments and interpretations (continued)

New standards, amendments and interpretations effective after 1 January 2020 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2020 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

c) Cash and Cash Equivalents and Collateral Cash

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman, or with third party institutions approved by the Manager on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day.

Collateral cash provided by the Sub-Fund is identified on the Statement of Financial Position under Cash Collateral due from/to broker and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Fund classify that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

d) Futures Contracts

A futures contract is a legal agreement, to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future.

Initial margin deposits are made upon entering into open futures contracts and are generally made in cash or cash equivalents. Subsequent payments (variation margin) to and from the clearing broker are made on a daily basis based on changes in the market value of futures contracts. Initial margin and variation margin is presented under Margin Cash Due from Broker or Margin Cash Due to Broker on the Statement of Financial Position. The fair value of open futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised.

e) Forward Foreign Exchange Contracts

Forward foreign exchange contracts are agreements between two parties to exchange two designated currencies at a specific time in the future.

The fair value of open forward foreign exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Changes in the value of forward foreign exchange contracts are recognised as unrealized gains or losses on forward foreign exchange contracts until the contracts are terminated, at which time realized gains and losses are recognised.

A Sub-Fund may use forward foreign exchange contracts for the purposes of hedging the currency exposure of the underlying securities into the relevant base currency or on behalf of a specific class in order to hedge some or all of the foreign exchange risk for such class.

For each relevant Sub-Fund, gains or losses on open foreign currency exchange spot contracts are included in Cash and Cash Equivalents in the Statement of Financial Position. Unrealised gains and losses on open forward foreign currency exchange contracts are included in Financial Derivative instruments under assets or liabilities, as appropriate, on the Statement of Financial Position and are shown on the Schedule of Investments of each relevant Sub-Fund. Realised gains and losses and change in unrealised gains and losses on forward foreign currency contracts are included in Net Gain/(Loss) on Financial Assets at Fair Value through Profit or Loss and Financial Derivative Instruments on the Statement of Comprehensive Income.

f) Foreign Exchange Translation

Functional and Presentation Currency

Items included in the Sub-Funds' financial statements are measured using the currency in which Shareholder transactions take place (the "Functional Currency"). The Functional Currency and presentation currency of each Sub-Fund is as follows:

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2020 (CONTINUED)

2. Significant Accounting Policies (continued)

f) Foreign Exchange Translation (continued)

Sub-Fund	Functional currency	Presentation currency
Fidelity Global Quality Income UCITS ETF	USD	USD
Fidelity US Quality Income UCITS ETF	USD	USD
Fidelity Emerging Markets Quality Income UCITS ETF	USD	USD
Fidelity Europe Quality Income UCITS ETF	EUR	EUR
Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF	EUR	EUR
Fidelity Sustainable Research Enhanced US Equity UCITS ETF	USD	USD
Fidelity Sustainable Research Enhanced Global Equity UCITS ETF	USD	USD

Transactions and Balances

Assets and liabilities denominated in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the year. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates prevailing at the dates of the transactions.

g) Investments Purchased and Sold

Investments purchased and sold represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. The due from brokers balance is held for collection. These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required if the credit risk increases to the point that it is considered to be credit impaired. During the financial period ended 31 July 2020 no such impairments have occurred.

h) Interest Revenue

Interest revenue is recognised on the effective interest method and credited to the Statement of Comprehensive Income.

i) Dividend Income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Income is shown gross of any non-recoverable withholding taxes and net of any tax credits. Withholding tax is disclosed in the Statement of Comprehensive Income.

j) Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

k) Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

2. Significant Accounting Policies (continued)

I) Foreign Withholding Taxes

Dividends, interest and capital gains (if any) received on investments made by each Sub-Fund may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

Dividend and interest revenue is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

m) Redeemable Participating Shares

Redeemable Participating Shares provide the Shareholders with the right to redeem their Shares for cash equal to their proportionate share of the Net Asset Value of the Sub-Funds and, accordingly, are classified as financial liabilities. The liability to Shareholders is presented in the Statement of Financial Position as "Net Assets Attributable to Holders of Redeemable Participating Shares" and is based on the residual assets of each Sub-Fund after deducting all other liabilities.

n) Distribution Policy

The Prospectus empowers the Directors to declare dividends in respect of Shares in any Distributing Class out of net income (including dividend income, securities lending income and interest revenue less expenses) in respect of investments of each Sub-Fund (collectively, "Net Income").

In respect of Distributing Classes, and subject to Net Income being available for distribution, it is the current intention of the Directors, subject to any de minimis threshold, to declare dividends out of Net Income attributable to each of the relevant classes. Under normal circumstances, the Directors intend that dividends shall be declared on a quarterly basis in or around February, May, August and November of each year and paid on the last Thursday of that relevant month, or any such other Business Day that the Directors deem appropriate in relation to the Net Income for the relevant period. However, Shareholders should note that the Directors may, in their discretion, decide not to make such payment in respect of a Distributing Class.

The Directors may in their sole discretion, determine that the Fund shall, on behalf of one or more Sub-Funds, apply an equalisation methodology in respect to any Distributing Class Shares. An equalisation account will be maintained for each Sub-Fund so that the amount distributed will be the same for all Shares of each Distributing Class notwithstanding different dates of issue. A sum equal to that part of the subscription issued price of an Distributing Class Share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid to Shareholders in the relevant Sub-Fund with the first dividend to which the Shareholder was entitled in the same relevant year as that in which the Shares are issued. The redemption price of each Distributing Class Share will also include an equalisation payment in respect of the accrued income of the relevant Sub-Fund up to the Dealing Day on which the relevant Distributing Class Shares are redeemed.

Dividends for the financial period ended 31 July 2020 are disclosed in the table below:

Fidelity Europe Quality Income UCITS ETF		•	
Class Inc			
	14 November 2019	1,233	0.0123

Distributions are recognised in the Statement of Comprehensive Income as Finance Costs.

o) Income Equalisation

In respect of the "Distributing Classes", each Sub-Fund operates equalisation arrangements and makes equalisation payments in respect of each Share of such Distributing Classes to reflect the pro rata payment of distributions based on the year of time the share has been owned by a Shareholder. Income equalisation is recognised in the Statement of Comprehensive Income as Finance Costs.

p) Dilution Adjustment

Large transactions in or out of a Sub-Fund can create "dilution" of the Sub-Fund's assets because the price at which an investor buys or sells Shares in the Sub-Fund may not entirely reflect the dealing and other costs that arise when an Investment Manager has to trade in underlying investments to accommodate large cash inflows or outflows. In order to counter this and enhance the protection of existing Shareholders, there may be an adjustment to a Sub-Fund's Net Asset Value as part of the regular valuation process to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

On any Dealing Day, the Net Asset Value of a Sub-Fund may be adjusted upwards or downwards as applicable to reflect the costs that may be deemed to be incurred in liquidating or purchasing investments to satisfy net daily transactions of that Sub-Fund. The Directors reserve the right to make such an adjustment taking into account factors such as the estimated dilution costs (such as underlying dealing spreads, commissions and other trading expenses) and the size of the relevant Sub-Fund. In deciding whether to make such an adjustment the Directors will have regard to the interests of existing, continuing and potential Shareholders in the Sub-Fund. The adjustment will be upwards when the net aggregate transactions result in an increase of the number of Shares and will be downwards when the net aggregate transactions result in a decrease of the number of Shares.

2. Significant Accounting Policies (continued)

p) Dilution Adjustment (continued)

The adjusted Net Asset Value will be applicable to all transactions on that day. Because the determination of whether to adjust the Net Asset Value is based on the net transaction activity of the Dealing Day, Shareholders transacting in the opposite direction of the Sub-Fund's net transaction activity may benefit at the expense of the other Shareholders in the Sub-Fund. In addition, the Sub-Fund's Net Asset Value and short-term performance may experience greater volatility as a result of this adjustment methodology. Dilution adjustment, if any, is recognized in the Statement of Financial Position.

3. Cash and Cash Equivalents and Collateral Cash

All cash and cash equivalents balances at the financial year end are held with Brown Brothers Harriman & Co. or with approved counterparties on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day.

In line with the Central Bank of Ireland (the "CBI") Guidance paper entitled Umbrella Funds – Cash Accounts Holding Subscription, Redemption and Dividend Monies published in March 2016, one or more Company cash accounts are being operated by the Administrator, on behalf of the Fund, in accordance with the requirements of the CBI. Such Company cash accounts are designed to hold unprocessed subscription monies received from investors, redemption monies payable to investors and/or other amounts due to investors. As at 31 July 2020 and 31 January 2020 there was no cash held in these accounts. Any balances held on these cash accounts at the financial period end are reflected on the Statement of Financial Position.

4. Share Capital

The Fund may issue up to 500,000,000,000,000. Shares of no par value. The maximum issued Share capital of the Fund shall be 500,000,000,000,000. Shares of no par value and the minimum issued Share capital of the Fund shall be 600,000,000,000. Shares of no par value issued for 600,000,000,000,000,000. The issued Share capital of the Fund shall not be less than the currency equivalent of 600,000,000,000,000,000,000. The issued Share capital of the Fund shall not be less than the currency equivalent of 600,000,000,000,000,000,000. The issued Share capital of the Fund shall not be less than the currency equivalent of 600,000,000,000,000,000,000.

The movement in the number of redeemable participating Shares for each Sub-Fund for the financial period ended 31 July 2020 and financial year ended 31 January 2020 are as follows:

5. Taxation

Each Sub-Fund is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. The Sub-Funds will not be liable to Irish tax in respect of their income and gains, other than on the occurrence of a chargeable event with respect to Irish resident Shareholders. The Fund will be obliged to account for Irish income tax to the Irish Revenue Commissioners if Shares are held by non-exempt Irish resident Shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each Share Class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund", which include making reports to HM Revenue and Customs and investors for each year of account, without a requirement to apply for further certification by HM Revenue and Customs.

Each Share Class in the Sub-Funds is treated as a "reporting fund". This has been approved by HM Revenue and Customs.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares by an Irish resident Shareholder or on the ending of a "Relevant Period". A "Relevant Period" for these purposes is an eight year beginning with the acquisition of the Shares by the Irish resident Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period

A gain on a chargeable event does not arise in respect of:

- (i) a Shareholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the Sub-Fund; or
- (ii) certain exempted Irish resident investors who have provided the Sub-Fund with the necessary signed statutory declaration.

Capital gains, dividends, and interest received by the Sub-Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

6. Fees

All of the fees and expenses payable in respect of each Sub-Fund are paid as one single fee. This is referred to as the total expense ratio or "TER". The Manager is responsible for arranging the payment from the TER of all operational expenses of the Sub-Funds, including Directors', Auditors', Legal Advisors', Administrator's, Depositary's and other service providers' fees and expenses and Class hedging costs. The Manager is entitled to an annual fee in respect of the services that it provides to the Sub-Funds. However, this fee will only be paid in circumstances where there is a residual amount left from the TER after the other operational expenses have been paid. Save where another party has agreed to reimburse the Sub-Funds, the TER includes but is not limited to fees and expenses of an Investment Manager, Depositary, Administrator, Secretary and any sub-investment advisor. Subject to applicable law and regulation, the Manager or an Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Fund or in respect of the Sub-Funds.

The TER does not include extraordinary costs, transaction costs and related expenses, including but not limited to, transaction charges, stamp duty or other taxes on the investments of the Sub-Funds, including duties and charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Sub-Funds' investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Sub-Funds and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Sub-Funds or the Fund, which will be paid separately out of the assets of the relevant Sub-Fund.

The TER is calculated and accrued daily from the Net Asset Value of the Sub-Funds and payable at least quarterly in arrears. The TER of each Sub-Fund is as listed in the Relevant Supplement. If the Sub-Funds' expenses exceed the TER outlined above in relation to operating the Sub-Funds, the Manager will cover any shortfall from its own assets.

6. Fees (continued)

The table below outlines the maximum TER figures applicable to the active share classes of each Sub-Fund:

	TER
Sub-Fund	(% of Net Asset Value)
Fidelity Global Quality Income UCITS ETF

Class Acc	0.35

Directors' Fees

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the Sub-Funds (including expenses) for the financial period ended 31 July 2020 was EUR25,000 which were paid to the Independent Directors. For the financial period ended 31 July 2019 the amount was EUR15,000 which were paid to the Independent Director.

Executive Directors are not paid a fee from the Fund.

7. Related Parties and Connected Persons

Related Party Disclosures

In the opinion of the Directors of the Manager, the list of related parties under IAS 24 "Related Party Transactions" is as follows:

- FIL Limited the ultimate holding company of the Manager and fellow subsidiary undertakings namely:
 - (i) FIL Fund Management (Ireland) Limited
 - (ii) FIL Distributors
 - (iii) FIL Investments International.
- The Directors of the Fund and their dependents.
- The Managers and the Investment Manager of the Actively Managed Sub-Funds are related parties to the Fund and receive fees, as outlined on the Note 6. The amounts payable as at 31 July 2020 and 31 January 2020 are disclosed in the Statement of Financial Position.

There were no related parties holding shares in the Sub-Funds as at 31 July 2020 and 31 January 2020.

7. Related Parties and Connected Persons (continued)

All related parties transactions are at arm's length.

Connected Persons

The Manager, the Depositary, the Investment Managers and each of their respective affiliates are considered to be connected parties of the Fund for the purposes of the Central Bank UCITS Regulations.

The following table details the types of transaction entered into with counterparties that are connected persons:

Type of Transaction Counterparty

Administration Brown Brothers Harriman Fund Administration Services (Ireland) Limited

Depositary, FX and Hedging Services Brown Brothers Harriman Trustee Services (Ireland) Limited

Distributor FIL Distributors

Manager FIL Fund Management (Ireland) Limited
Investment Managers Geode Capital Management LLC
FIL Investments International

Dealing with Connected Persons

Regulation 43 of the Central Bank UCITS Regulations ("Restriction on transactions with connected persons") states that "a responsible person shall ensure that any transaction between a UCITS and connected person is:

- (i) conducted at arm's length; and
- (ii) in the best interest of the unit-holders of the UCITS".

In accordance with Regulation 81(4) of the Central Bank UCITS Regulations, the Board of Directors are satisfied that:

- (i) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and
- (ii) all transactions with connected persons that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

8. Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the of the financial asset or liability. In order to achieve its investment objective, each Sub-Fund incurs transaction costs in relation to trading activity on its portfolio. These costs may include broker commissions, settlement fees, stamp duties, and financial transaction taxes. For some financial instruments, such as debt securities, repurchase agreements, and forward foreign exchange contracts, transaction costs are embedded in the price of the instruments and are not separately identifiable. Identifiable transaction costs incurred during the financial periods ended 31 July 2020 and 31 July 2019 are recognised as an expense for financial reporting purposes in the Statement of Comprehensive Income.

9. Financial Risk Management

The activities of the Fund expose it to various financial risks such as market risk (including other price risk, interest rate risk, and currency risk), credit risk and liquidity risk. The overall risk management process for the Fund focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance for the Fund.

The Funds financial risk management objectives and policies are consistent with those disclosed in the Funds audited financial statements as at and for the financial year ended 31 January 2020.

a) Fair Value Estimation

Each Sub-Fund has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The Fair value hierarchy has the following levels as defined under IFRS 13:

- (i) Level 1: Investments whose values are based on quoted market prices in active markets and are therefore classified within level 1 include active listed equities, U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Administrator. The Administrator considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

As at 31 July 2020 and 31 January 2020, cash and cash equivalents are classified as Level 1. All other assets and liabilities not disclosed in the tables below are classified as Level 2.

There were no investments classified at level 3 at the financial period ended 31 July 2020 and financial year ended 31 January 2020.

9. Financial Risk Management (continued)

a) Fair Value Estimation (continued)

The following tables analyse within the fair value hierarchy of the Sub-Funds' financial assets and liabilities measured at fair value at 31 July 2020 and 31 January 2020:

b) Cybersecurity Risk

The Fund and its service providers (including the Investment Manager) are susceptible to cyber-attacks and technological malfunctions that may have effects that are similar to those of a cyber-attack. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorisation, and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund, the Investment Manager, or the Depositary, or other service provider may adversely affect the Sub-Funds or their Shareholders. For instance, cyber-attacks may interfere with the processing of Shareholder transactions, affect the Fund's ability to calculate its Net Asset Value, cause the release or misappropriation of private Shareholder information or confidential Sub-Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. The Manager and the Investment Manager have established business continuity plans and systems designed to prevent cyberattacks. Such plans and systems are subject to inherent limitations. Similar types of cyber security risks also are present for issuers of securities in which the Sub-Funds invest, which could result in material adverse consequences for such issuers, and may cause the Sub-Funds' investments in such securities to lose value.

10. Exchange Rates

11. Soft Commission Agreements

From 3 January 2018, as a result of the Markets in Financial Instruments Directive II ("MiFID II") adopted by ESMA, research and advisory services are no longer paid out of commissions arising from the Fund's portfolio transactions. There were no research costs incurred by the Fund during the financial period ended 31 July 2020 (31 July 2019: Nil).

12. Efficient Portfolio Management

The Sub-Funds may employ investment techniques and instruments for efficient portfolio management purposes only, subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland. Any such technique or instrument must be one which (alone or in combination with one or more other techniques or instruments) is believed by an Investment Manager to be economically appropriate to the efficient portfolio management of the Sub-Fund, i.e. the use of a technique or instrument may only be undertaken for the purposes of one or more of the following:

- (a) a reduction in risk;
- (b) a reduction in costs; or
- (c) the generation of additional capital or income for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund and the general provisions of the UCITS Regulations.

During the financial period ended 31 July 2020 and financial year ended 31 January 2020, the Sub-Funds used futures contracts for efficient portfolio management purposes. The exposure, counterparties, net revenues and costs from using these techniques are all detailed below.

Exposure obtained through the efficient portfolio management:

Fidelity Global Quality Income UCITS ETF

31 July 2020

		Net Exposure
Collateral Issuer	Туре	USD

13. Significant Events during the Financial Period

Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF, Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF, Fidelity Sustainable Research Enhanced US Equity UCITS ETF and Fidelity Sustainable Research Enhanced US Equity UCITS ETF were approved as new sub-funds of the Fund on 5 March 2020.

The Relevant Supplements for Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF, Fidelity Sustainable Research Enhanced US Equity UCITS ETF and Fidelity Sustainable Research Enhanced Global Equity UCITS ETF were published on 5 March 2020.

Following the United Kingdom formally leaving the European Union ("EU") since January 2020, commonly referred to as "BREXIT", the Fund and the wider Fidelity International Group have considered the implications of BREXIT. The Fidelity Group and the Fund have planned for and taken certain mitigating steps prior to the original exit date of 29 March 2019 to reduce the impact of a 'hard' BREXIT where deemed required. Specific BREXIT related management actions have included availing of the UK regulator FCA Temporary Permission Regime ("TPR") since March 2019.

Currently, until 1 January 2021, there is a transition period until the end of 2020, while the UK and EU negotiate additional arrangements. According to the BREXIT withdrawal agreement, both the UK and the EU would commence assessing the equivalence of each other's financial regulatory systems by June 2020. However, uncertainty remains for financial services in terms of the ultimate outcome of the equivalence basis and these UK / EU negotiations. Whilst the Fidelity Group and the Fund continues to monitor and evaluate the impact of the UK exit from the EU, at the time of finalisation of these financial statements, the ultimate outcome of these negotiations is still uncertain, the Board has considered the key risks and possible impacts, including the impact of a 'hard' or negative BREXIT outcomes.

Since late January 2020, the number of COVID-19 cases and countries affected outside of China grew rapidly, and on 11 March 2020, the World Health Organisation ("WHO") declared COVID-19 to be a global pandemic. During this period, national governments and various private sector organisations have taken significant measures to contain the virus, including quarantines and school, store, plant and border closures. Consequences of the outbreak have also contributed to significant volatility in global stock markets since late February 2020.

Dominic Rossi was appointed as a Director of the Fund, effective 21 April 2020.

There have been no other significant events affecting the Fund during the financial period.

14. Events since the Financial Period End

The Central Bank of Ireland have been provided with regular liquidity reports on the Sub-Funds since early March and there have been no issues to report. The Board have carefully considered the impacts of COVID-19 at and after the entity's reporting date up to the date of approval of these financial statements. They are comfortable that the impact of COVID-19 has not created any going concern and/or liquidity issues to highlight for the Shareholders attention at this time and that COVID-19 is a non-adjusting event per IAS 10.

On 14 August 2020, the Central Bank noted a revised Supplement for Fidelity Global Quality Income UCITS ETF reflecting the change of distribution policy of the existing launched EUR and GBP hedged Share Classes of the Sub-Fund from accumulating to distributing, the removal of the existing unlaunched EUR and GBP hedged distributing Share Classes and USD and CHF hedged accumulating Share Classes and provision for the creation of six new Non-ETF Share Classes of the Sub-Fund.

There were no other significant events affecting the Fund after the financial period end.

15. Approval of Financial Statements

The interim report and unaudited condensed financial statements were approved by the Board of Directors of the Fund on 21 September 2020.

APPENDIX 2 - TRACKING ERROR

Each of the Index Tracking Sub-Funds employ a "passive" investment strategy designed to replicate the performance of the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably possible (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Index Tracking Sub-Funds will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Tracking error measures the volatility of the return difference between each Index Tracking Sub-Fund and the Index. It is calculated as the standard deviation of the delivered excess returns over an annual period. Anticipated tracking error is disclosed for the Index Tracking Sub-Funds in the table below. Realised (ex-post) tracking error may vary from the anticipated tracking error, depending on a range of circumstances. These include transaction costs, securities lending income and withholding tax differences. The anticipated tracking error and ex-post tracking error are not expected to vary significantly under normal circumstances.

For the financial period ended 31 July 2020, the anticipated tracking errors and the ex-post tracking errors were as follows:

Sub-Fund	Anticipated tracking error (bps)	Ex-post tracking error (bps)
Fidelity Global Quality Income UCITS ETF	10	3
Fidelity US Quality Income UCITS ETF	5	3
Fidelity Emerging Markets Quality Income UCITS ETF	75	6
Fidelity Europe Quality Income UCITS ETF	10	5

The table below compares the realised Index Tracking Sub-Funds' performance against the performance of the relevant benchmark Index during the financial period ended 31 July 2020. An explanation for the difference gross of TER is provided:

Sub-Fund	Sub-Fund return (net of TER) for the financial period ended 31 July 2020 %	Benchmark return for the financial period ended 31 July 2020 %	Tracking difference net of TER %	TER %	Tracking difference gross of TER %	Explanation of the tracking difference
Fidelity Global Quality Income UCITS ETF	(4.65)	(4.40)	(0.25)	0.40	0.15	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity US Quality Income UCITS ETF	(2.14)	(2.03)	(0.11)	0.30	0.19	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity Emerging Markets Quality Income UCITS ETF	(3.48)	(2.75)	(0.73)	0.50	(0.23)	The underperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity Europe Quality Income UCITS ETF	(12.27)	(12.14)	(0.13)	0.30	0.17	The outperformance of the Sub-Fund was due to the sampling techniques employed.

APPENDIX 3 – SECURITIES FINANCING TRANSACTIONS

The Securities Financing Transactions ("SFTs") Regulation (the "Regulation") came into force on 12 January 2016 and introduced additional disclosure requirements around securities lending, repurchase agreement/reverse repurchase agreements, total return swaps (TRSs) and other lending/borrowing transactions in annual and interim annual financial statements, published after 13 January 2017. The Regulation came about due to what was perceived as 'shadow banking' risk in the securities financing markets and aims to reduce this risk by improving transparency in the securities financing markets in a number of ways:

- By imposing conditions on the 'reuse' of collateral, so that clients and counterparties understand the risks involved and give their consent to the reuse,
- By requiring managers to make detailed disclosures to their investors of the use they make of SFTs both in their periodic financial statements and pre-contractual documentation; and
- By requiring counterparties to report SFTs to a trade repository so as to provide transparency to regulators on the use of SFTs by market participants.

As the Sub-Funds did not hold any SFTs as at 31 July 2020, the interim report and unaudited financial statements do not include any additional disclosures.
