

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

BMO MM Lifestyle 5 Fund

Share Class: B Inc, a Fund of BMO Investment Funds (UK) ICVC VI (ISIN GB00B4YRCK80).
This Fund is managed by BMO Fund Management Ltd.

Objectives and investment policy

The Fund aims to deliver capital growth with some income.

The Fund invests at least 70% in collective investment schemes (which may include schemes operated by BMO) to obtain indirect exposure to a wide range of asset classes.

The manager uses a strategic asset allocation model that is matched to a specific target risk and volatility band (the volatility band is supplied by an external provider). The Fund is actively managed and the allocation to particular asset classes or geographies may vary over time at the manager's discretion.

To reflect the risk profile of the Fund, around 60% of the Fund's exposure through collective investment schemes will be to UK and global equities (ordinary shares in companies) including emerging markets.

The remaining exposure will be to UK corporate and government bonds, as well as global corporate and high yield bonds (securities that pay either a fixed or variable level of income on a periodic basis and generally repay a specified amount at a predetermined date).

To the extent that the Fund is not fully invested as set out above, it may also invest in other transferable securities, other collective investment schemes, money market instruments, deposits, cash and near cash.

Derivatives (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying securities) may be used for the purposes of efficient portfolio management only.

Income generated by the Fund will be distributed half yearly.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Currency Risk: your investment may be adversely affected by changes in currency exchange rates.

Fixed Interest Securities Risk: changes in interest rates can affect the values of fixed interest holdings.

Emerging Markets Risk: this Fund invests in emerging markets which are less developed and have additional legal and political risks.

Credit Risk: receiving income or capital due from debt instruments is dependant on the provider's ability to pay.

Property Risk: the value of such securities is likely to reflect valuations of property assets as determined by professional valuers. Such valuations are the opinion of the valuer at a particular time, may not be supported by recent transactions and a liable to revision, up or down.

Specified Asset Allocation Risk: the ability of the manager to alter the composition of the portfolio is restricted by the need to remain within the specified asset allocation.

Leverage Risk: the use of derivatives to increase the exposure of the Fund to the market through either long or short positions will make the value of the Fund's investments more volatile than those of an un-leveraged fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.05%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is estimated due to a change to the way in which costs and charges are accrued within the fund.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.bmogam.com.

Past performance

You should be aware that past performance is not a guide to future performance.

Fund launch date: 30/03/2007.

Share/unit class launch date: 27/07/2009.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.

Practical information

This document is issued by BMO Fund Management Limited (trading name BMO Global Asset Management).
