### Investment team

Peter Elston - chief investment officer\*  
Mark Wright - fund manager  
Richard Parfect - fund manager  
Tom Delic - fund manager  
Gary Moglione - fund manager\*

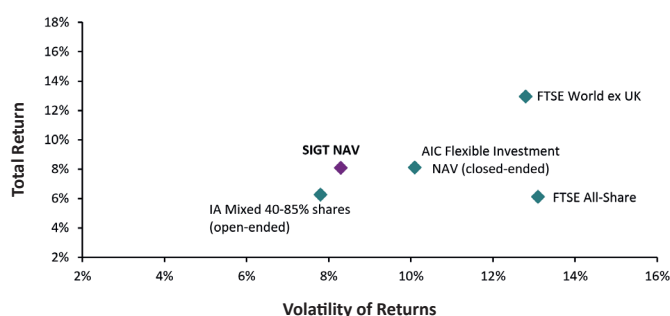

\* Portfolio oversight (process implementation, cash and cashflow management)

### Investment objective

Over a typical investment cycle<sup>1</sup>, the Company will seek to achieve a total return of at least CPI plus 6 per cent per annum after costs with low volatility, and with the aim of growing aggregate annual dividends at least in line with inflation, through the application of a Multi-Asset Value Investment Policy.

The manager takes active allocation decisions within defined ranges. These tactical moves are made through a combination of direct investment and commitments to third party funds, both open and closed end.

Source: Seneca IM, Bloomberg, Trading Economics & Morningstar. Share prices calculated on a total return basis with net dividends reinvested. NAV returns based on NAVs including income and with debt valued at par. Returns do not include current year revenue. Benchmark: CPI plus 6% from 06.07.17. Previously LIBOR GBP 3 Months plus 3%, all after costs. For the period ending 31.03.2019, a forecast CPI is used. The information on this factsheet is as at 31.03.2019 unless otherwise stated. <sup>1</sup>Seneca IM defines a typical investment cycle as one which spans 5-10 years, and in which returns from various asset classes are generally in line with their very long term averages.

## Important information

\*\*Managed Liquidity is a term used to describe assets that can be quickly converted into cash. This category includes investments in open ended funds which invest in short dated corporate bonds and covered bonds (these will have a minimum credit rating of AA-) and money market instruments (these will have a minimum credit rating of A). These funds offer very low risk exposure to interest rate, credit spread and currency risks.
