**SVM All Europe SRI Fund: B Class Shares**, a sub-fund of SVM Funds ICVC (ISIN: GB00B1FL7V46)

This fund is managed by SVM Asset Management Limited

## Objectives and Investment Policy

The Fund aims to achieve above average capital growth over the medium to long term (although short term investment opportunities will also be considered) and it aims to outperform the FTSE World Europe Index.

The FTSE World Europe Index has been selected as the target benchmark for the Fund; its constituents make it an appropriate benchmark given the securities permitted for the Fund.

This Fund will invest principally in securities which are dealt in or traded on all European Eligible Securities Markets. From time to time, when particular opportunities are identified, or the ACD considers it appropriate, this Fund may invest in securities which are dealt in or traded on other Eligible Securities Markets or which are otherwise permitted for this Fund.

Whilst focused on profitability and investor returns, the ACD is also aware of the social and environmental aspects of its investments. Although the Fund may negatively screen out some companies the approach is one of positive screening and actively engaging with the management of investee companies. Information on this strategy is available from the ACD on request and is also available on the ACD's website at [www.svmonline.co.uk](http://www.svmonline.co.uk).

The Fund is actively managed within its objectives and is not constrained by a benchmark.

Shares in the Fund can be bought and sold on demand on each business day.

Only accumulation shares are in issue, any income arising from the Fund is reinvested.

Portfolio transaction costs will have an impact on performance of the Fund.

Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years.
