# Vanguard LifeStrategy Funds ICVC Authorised Corporate Director's Commentary and Statement of Responsibilities

Year ended 31 March 2021

The Authorised Corporate Director ("ACD") of Vanguard LifeStrategy Funds ICVC (the "Company") is Vanguard Investments UK, Limited. The ACD is the sole director of the Company. The Depositary is State Street Trustees Limited and the Independent Auditors are PricewaterhouseCoopers LLP. The Company is an authorised open-ended investment company with variable capital under Regulation 14 (Authorisation) of the Open-Ended Investment Companies Regulations 2001 (as amended) (the "OEIC Regulations"), and the shareholders are not liable for the debts of the Company.

The Company is an umbrella company and currently consists of 16 sub-funds (collectively "Funds"). New Funds may be formed by the ACD subject to regulatory approval.

The Funds seek to achieve their investment objectives predominantly through investments consisting of related party ("affiliated") collective investment schemes; the Company's policy for pursuing those objectives and a review of each Fund's investment activities for the relevant year are set out in this Annual Report and Financial Statements.

### Important Events During the Year

Effective 10 August 2020, the Investment Policy of Vanguard Target Retirement 2015 Fund and Vanguard Target Retirement 2020 Fund was updated. The percentage of each fund's assets that invest in affiliated collective investment schemes was changed from "more than 90%" to "more than 80%".

With effect from 16 December 2020, Michael Gower resigned as a director of Vanguard Investments UK, Limited.

With effect from 31 December 2020, James M. Norris resigned as a director of Vanguard Investments UK, Limited.

#### Events After the Balance Sheet Date

There were no events subsequent to year-end requiring recognition or disclosure in the financial statements.

### Potential Implications of Brexit

The United Kingdom is no longer a member state of the European Union. Despite the negotiation of the UK-EU Trade and Cooperation Agreement in December 2020, the future economic and political relationship between the United Kingdom and the European Union (and between the United Kingdom and other countries) remains uncertain and subject to further negotiation in many respects, and a period of economic and political uncertainty may therefore continue in the United Kingdom and the European Union.

Political and economic uncertainty may lead to speculation and subsequent market volatility, particularly for assets denominated in British pounds. Vanguard continues to encourage investors to follow its core investing principles, including maintaining long-term discipline.

The implications of Brexit extend beyond the UK economy and financial markets, affecting multinational organisations globally. The relevant regulatory authorities in the United Kingdom may in the future make changes to their rules which deviate from the standards applicable in the European Union. This could result in changes being made to the rules applicable in the European Union.

The nature and extent of the impact of these factors on the Funds is uncertain, but may be adverse. Vanguard remains committed to safeguarding our investors' assets and their long-term interests and has devoted significant resources to developing plans to manage the impact of Brexit.

### Coronavirus (COVID-19)

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds. Vanguard continues to encourage investors to follow its core investment principles, including maintaining long-term discipline. Vanguard is committed to safeguarding the assets of investors and their long-term interests.

### Authorised Corporate Director's Statement of Responsibilities in Relation to the Financial Statements of the Company and Funds

The Financial Conduct Authority's Collective Investment Schemes sourcebook ("COLL") requires the ACD to prepare Financial Statements for each annual and half-yearly accounting period, in accordance with United Kingdom Generally Accepted Accounting Practice, which give a true and fair view of the financial position of the Company and Funds and of its net revenue and the net capital gains/(losses) on the property of the Company and Funds for the year.

In preparing the Financial Statements the ACD is required to:

- prepare the Financial Statements on a going-concern basis;
- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare Financial Statements in accordance with the Statement of Recommended Practice for Authorised Funds issued by the Investment Management Association (now the Investment Association) (the "SORP 2014"), and with Financial Reporting Standard ("FRS") 102;
- keep adequate accounting records that are sufficient to show and explain the Funds' transactions and disclose with reasonable accuracy
  at any time the financial position of the Company and Funds, and enable it to ensure that the Financial Statements comply with the
  requirements above.

The ACD is responsible for the management of the Company in accordance with the Company's Instrument of Incorporation, the Prospectus and the COLL and for taking reasonable steps for the prevention and detection of fraud, error and noncompliance with law or regulations.

The ACD's report and the Financial Statements for the year ended 31 March 2021 were signed on 26 July 2021 on behalf of the ACD by:

John Bendl,

# Vanguard LifeStrategy Funds ICVC Report of the Depositary to the Shareholders

Year ended 31 March 2021

The Depositary must ensure that the Company is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228), as amended, the Financial Services and Markets Act 2000, as amended (together "the Regulations"), and the Company's Instrument of Incorporation and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Company and its investors

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Company in accordance with the Regulations.

The Depositary must ensure that:

- the Company's cash flows are properly monitored and that cash of the Company is booked into the cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of shares are carried out in accordance with the Regulations;
- the value of shares of the Company are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Company's assets is remitted to the Company within the usual time limits;
- the Company's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Corporate Director ("ACD"), which is the UCITS Management Company, are carried out (unless they
  conflict with the Regulations).

The Depositary also has a duty to take reasonable care to ensure that the Company is managed in accordance with the Regulations and Scheme documents in relation to the investment and borrowing powers applicable to the Company.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Depositary of the Company, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the Company, acting through the ACD:

- i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Company's shares and the application of the Company's income in accordance with the Regulations and the Scheme documents of the Company, and
- ii) has observed the investment and borrowing powers and restrictions applicable to the Company.

# Independent Auditors' Report to the Shareholders of Vanguard LifeStrategy Funds ICVC

### Report on the audit of the financial statements

#### Opinion

In our opinion, the financial statements of Vanquard LifeStrategy Funds ICVC (the "Company"):

- give a true and fair view of the financial position of the Company and each of the sub-funds as at 31 March 2021 and of the net revenue and
  the net capital gains on the scheme property of the Company and each of the sub-funds for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the Instrument of Incorporation.

Vanguard LifeStrategy Funds ICVC is an Open Ended Investment Company ("OEIC") with 16 sub-funds. The financial statements of the Company comprise the financial statements of each of the sub-funds. We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Balance Sheets as at 31 March 2021; the Statements of Total Return and the Statements of Change in Net Assets Attributable to Shareholders for the year then ended; the Distribution Tables; and the notes to the financial statements, which include a description of the significant accounting policies.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's or any sub-fund's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Authorised Corporate Director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's or any of the sub-fund's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Authorised Corporate Director with respect to going concern are described in the relevant sections of this report.

### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Authorised Corporate Director is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

### Authorised Corporate Director's Report

In our opinion, the information given in the Authorised Corporate Director's Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

### Responsibilities for the financial statements and the audit

### Responsibilities of the Authorised Corporate Director for the financial statements

As explained more fully in the Authorised Corporate Director's Statement of Responsibilities in Relation to the Financial Statements of the Company and Funds, the Authorised Corporate Director is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Authorised Corporate Director is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Corporate Director is responsible for assessing the Company's and each of the subfunds ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Corporate Director either intends to wind up or terminate the Company or individual sub-fund, or has no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company/industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of the Collective Investment Schemes sourcebook, and we considered the extent to which non-compliance might have a material effect on the financial statements, in particular those parts of the sourcebook which may directly impact on the determination of amounts and disclosures in the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase revenue or to increase the net asset value of the Company or the sub-funds.

Audit procedures performed included:

- Discussions with the Authorised Corporate Director, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- Reviewing relevant meeting minutes, including those of the Authorised Corporate Director's board of directors;
- · Identifying and testing journal entries, specifically any journals posted as part of the financial year end close process; and
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

### Use of this report

This report, including the opinions, has been prepared for and only for the Company's shareholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook as required by paragraph 67(2) of the Open-Ended Investment Companies Regulations 2001 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

# Other required reporting

## Opinion on matter required by the Collective Investment Schemes sourcebook

In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

### Collective Investment Schemes sourcebook exception reporting

Under the Collective Investment Schemes sourcebook we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.

PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors Edinburgh

26 July 2021

# Vanguard LifeStrategy 20% Equity Fund

Managed by Vanguard Global Advisers, LLC.

### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and increase in value through exposure to a diversified portfolio composed of approximately 20% by value of shares and 80% by value of bonds and other similar fixed income investments.

### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower ris	Lower risk			High	er risk	
Typically lower rewards				Typic	cally higher	rewards
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the lower range of the risk and reward indicator because the values of the Fund's investments have experienced a lower rate of change in the past.

### Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were further buoyed by the approval and roll out of COVID-19 vaccines.
- Vanguard LifeStrategy 20% Equity Fund returned 7.72% for Income Shares and 7.73% for Accumulation Shares for the 12 months.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.

### Total Returns

Total Returns Periods Ended 31 March 2021 (Annualised for periods over one year)

	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
A GBP Gross Accumulation	7.73%	4.86%	5.60%
A GBP Gross Income	7.72	4.86	5.59

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar GBP Cautious Allocation category or the Investment Association Mixed Investment 0-35% Shares category.

1 Since-inception returns: A GBP Gross Accumulation and A GBP Gross Income, 23 June 2011.

<sup>1</sup> The net asset value per share shown may diverge from the net asset value per share used for dealing purposes as at 31 March 2021 because of any adjustments for trade date accounting and any adjustments in valuation to bid prices. The quoted price for underlying collective investment schemes may be inclusive of any applicable swing pricing adjustments.

<sup>2</sup> Operating charges include indirect costs incurred in the maintenance and running of the Fund, as disclosed in the detailed expenses within the Statement of Total Return and Note 9.

<sup>3</sup> The distribution on Income and Accumulation Shares includes distribution paid and payable in the financial year.

<sup>4</sup> Direct transaction costs have been calculated against the average shares for the financial year.

<sup>5</sup> Returns have been calculated using methods prescribed in the SORP 2014 regulations. They may differ slightly from returns shown in the Fund Performance Summary.

<sup>6</sup> Direct transaction costs have been calculated against the average net asset value for the financial year.

<sup>7</sup> Share prices represent the net asset value per share used for dealing purposes.

# Summary of Significant Changes For the year ended 31 March 2021

	Cost (£)
Largest Purchases

# **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Gross Accumulation				
Group 1	197.4082	_	197.4082	242.2783
Group 2	116.8021	80.6061	197.4082	242.2783
A GBP Gross Income				
Group 1	173.3674	_	173.3674	216.0490
Group 2	105.2622	68.1052	173.3674	216.0490

Group 1—Shares purchased before 1 April 2020.

Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard LifeStrategy 40% Equity Fund

Managed by Vanguard Global Advisers, LLC.

### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and increase in value through exposure to a diversified portfolio composed of approximately 40% by value of shares; and 60% by value of bonds and other similar fixed income investments.

### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

	Lower risk  Typically lower rewards			High	er risk			
					Typic	cally higher	rewards	
	1	2	3	4	5	6	7	1

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

### Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were further buoyed by the approval and rollout of COVID-19 vaccines.
- Vanguard LifeStrategy 40% Equity Fund returned 14.27% for both share classes for the 12 months.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.

### Total Returns

Total Returns Periods Ended 31 March 2021 (Annualised for periods over one year)

	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
A GBP Accumulation	14.27%	6.73%	6.90%
A GBP Income	14.27	6.73	6.90

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar GBP Moderately Cautious Allocation category or the Investment Association Mixed Investment 20-60% Shares category.

1 Since-inception returns: A GBP Accumulation and A GBP Income, 23 June 2011.

<sup>1</sup> The net asset value per share shown may diverge from the net asset value per share used for dealing purposes as at 31 March 2021 because of any adjustments for trade date accounting and any adjustments in valuation to bid prices. The quoted price for underlying collective investment schemes may be inclusive of any applicable swing pricing adjustments.

<sup>2</sup> Operating charges include indirect costs incurred in the maintenance and running of the Fund, as disclosed in the detailed expenses within the Statement of Total Return and Note 9.

<sup>3</sup> The distribution on Income and Accumulation Shares includes distribution paid and payable in the financial year.

<sup>4</sup> Direct transaction costs have been calculated against the average shares for the financial year.

<sup>5</sup> Returns have been calculated using methods prescribed in the SORP 2014 regulations. They may differ slightly from returns shown in the Fund Performance Summary.

<sup>6</sup> Direct transaction costs have been calculated against the average net asset value for the financial year.

<sup>7</sup> Share prices represent the net asset value per share used for dealing purposes.

# Summary of Significant Changes For the year ended 31 March 2021

	Cost (£)
Largest Purchases

# **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	208.3353	_	208.3353	263.8620
Group 2	117.6334	90.7019	208.3353	263.8620
A GBP Income				
Group 1	182.1303	_	182.1303	234.4198
Group 2	86.1197	96.0106	182.1303	234.4198

Group 1—Shares purchased before 1 April 2020.

Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard LifeStrategy 60% Equity Fund

Managed by Vanguard Global Advisers, LLC.

### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and increase in value through exposure to a diversified portfolio composed of approximately 60% by value of shares and 40% by value of bonds and other similar fixed income investments.

### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk					High	er risk	
Typically lower rewards				Typi	cally higher	rewards	
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

### Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were further buoyed by the approval and rollout of COVID-19 vaccines.
- Vanguard LifeStrategy 60% Equity Fund returned 21.46% for both share classes for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

### Total Returns

Total Returns Periods Ended 31 March 2021 (Annualised for periods over one year)

	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
A GBP Accumulation	21.46%	8.72%	8.19%
A GBP Income	21.46	8.72	8.19

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar GBP Moderate Allocation category or the Investment Association Mixed Investment 40-85% Shares category.

1 Since-inception returns: A GBP Accumulation and A GBP Income, 23 June 2011.

<sup>1</sup> The net asset value per share shown may diverge from the net asset value per share used for dealing purposes as at 31 March 2021 because of any adjustments for trade date accounting and any adjustments in valuation to bid prices. The quoted price for underlying collective investment schemes may be inclusive of any applicable swing pricing adjustments.

<sup>2</sup> Operating charges include indirect costs incurred in the maintenance and running of the Fund, as disclosed in the detailed expenses within the Statement of Total Return and Note 9.

<sup>3</sup> The distribution on Income and Accumulation Shares includes distribution paid and payable in the financial year.

<sup>4</sup> Direct transaction costs have been calculated against the average shares for the financial year.

<sup>5</sup> Returns have been calculated using methods prescribed in the SORP 2014 regulations. They may differ slightly from returns shown in the Fund Performance Summary.

<sup>6</sup> Direct transaction costs have been calculated against the average net asset value for the financial year.

<sup>7</sup> Share prices represent the net asset value per share used for dealing purposes.

# **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	262.4604	_	262.4604	325.4806
Group 2	140.5968	121.8636	262.4604	325.4806
A GBP Income				
Group 1	227.9783	_	227.9783	288.0750
Group 2	111.2356	116.7427	227.9783	288.0750

Group 1—Shares purchased before 1 April 2020.

Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard LifeStrategy 80% Equity Fund

Managed by Vanguard Global Advisers, LLC.

### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and increase in value through exposure to a diversified portfolio composed of approximately 80% by value of shares and 20% by value of bonds and other similar fixed income investments.

### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk			Higher risk				
	Typically lower rewards			Typi	cally higher	rewards	
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

### Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard LifeStrategy 80% Equity Fund returned 28.85% for both share classes for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with nine of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

### Total Returns

Total Returns Periods Ended 31 March 2021 (Annualised for periods over one year)

	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
A GBP Accumulation	28.85%	10.63%	9.39%
A GBP Income	28.85	10.63	9.39

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar GBP Moderately Adventurous Allocation category or the Investment Association Mixed Investment 40-85% Shares category.

1 Since-inception returns: A GBP Accumulation and A GBP Income, 23 June 2011.

<sup>1</sup> The net asset value per share shown may diverge from the net asset value per share used for dealing purposes as at 31 March 2021 because of any adjustments for trade date accounting and any adjustments in valuation to bid prices. The quoted price for underlying collective investment schemes may be inclusive of any applicable swing pricing adjustments.

<sup>2</sup> Operating charges include indirect costs incurred in the maintenance and running of the Fund, as disclosed in the detailed expenses within the Statement of Total Return and Note 9.

<sup>3</sup> The distribution on Income and Accumulation Shares includes distribution paid and payable in the financial year.

<sup>4</sup> Direct transaction costs have been calculated against the average shares for the financial year.

<sup>5</sup> Returns have been calculated using methods prescribed in the SORP 2014 regulations. They may differ slightly from returns shown in the Fund Performance Summary.

<sup>6</sup> Direct transaction costs have been calculated against the average net asset value for the financial year.

<sup>7</sup> Share prices represent the net asset value per share used for dealing purposes.

<sup>2</sup> Includes adjustments for equalisation.

# **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	323.5470	_	323.5470	399.6622
Group 2	171.2444	152.3026	323.5470	399.6622
A GBP Income				
Group 1	278.6527	_	278.6527	351.9175
Group 2	123.5622	155.0905	278.6527	351.9175

Group 1—Shares purchased before 1 April 2020.

Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard LifeStrategy 100% Equity Fund

Managed by Vanguard Global Advisers, LLC.

### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and increase in value through exposure to a diversified portfolio composed of approximately 100% by value of shares.

### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk				Higher risk		
Typically	lower rewa	ards		Typi	cally higher	rewards
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

### Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard LifeStrategy 100% Equity Fund returned 36.30% for both share classes for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.

### Total Returns

		Periods End (Annualised for per	
	One Year	Five Years	Ten Years or Since Inception <sup>1</sup>
A GBP Accumulation	36.30%	12.49%	10.50%
A GBP Income	36.30	12.49	10.49

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar Global Large Cap Blend Equity category or the Investment Association Global category.

<sup>1</sup> The net asset value per share shown may diverge from the net asset value per share used for dealing purposes as at 31 March 2021 because of any adjustments for trade date accounting and any adjustments in valuation to bid prices. The quoted price for underlying collective investment schemes may be inclusive of any applicable swing pricing adjustments.

<sup>2</sup> Operating charges include indirect costs incurred in the maintenance and running of the Fund, as disclosed in the detailed expenses within the Statement of Total Return and Note 9.

<sup>3</sup> The distribution on Income and Accumulation Shares includes distribution paid and payable in the financial year.

<sup>4</sup> Direct transaction costs have been calculated against the average shares for the financial year.

<sup>5</sup> Returns have been calculated using methods prescribed in the SORP 2014 regulations. They may differ slightly from returns shown in the Fund Performance Summary.

<sup>6</sup> Direct transaction costs have been calculated against the average net asset value for the financial year.

<sup>7</sup> Share prices represent the net asset value per share used for dealing purposes.

# Summary of Significant Changes For the year ended 31 March 2021

## **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence PerShare
A GBP Accumulation				
Group 1	391.6196	_	391.6196	492.2299
Group 2	211.9524	179.6672	391.6196	492.2299
A GBP Income				
Group 1	333.9140	_	333.9140	431.1436
Group 2	176.4883	157.4257	333.9140	431.1436

Group 1—Shares purchased before 1 April 2020.

Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2015 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to hold investments that will pay out money and have some increase in value for investors planning to retire in or within approximately five years after 2015.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 80% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

	Lower ris	Lower risk Higher risk					
Typically lower rewards				Typic	cally higher	rewards	
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2015 Fund returned 12.69% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

#### Total Returns

Total Returns
Periods Ended 31 March 2021
(Annualised for periods over one year)

Ten Years or
One Year Five years Since Inception¹

12.69% 6.51% 6.80%

Performance is based on NAV with net income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar EEA Fund Target Date 2011-2015 category or the Investment Association Mixed Investment 20-60% Shares category.

1 Since-inception returns: A GBP Accumulation, 17 December 2015.

## **Distribution Table**

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	115.2253	_	115.2253	140.0925
Group 2	87.3239	27.9014	115.2253	140.0925

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2020 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2020.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 80% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

4	Lower ris	sk			High	er risk	
•	Typically lower rewards				Typically higher rewards		
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2020 Fund returned 17.41% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from those lows. They jumped more than 40% over the 12 months period for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

#### Total Returns

Performance is based on NAV with net income reinvested

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar EEA Fund Target Date 2016-2020 category or the Investment Association Mixed Investment 40-85% Shares category.

1 Since-inception returns: A GBP Accumulation, 17 December 2015.

## Distribution Table

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	155.1398	_	155.1398	207.2173
Group 2	80.2231	74.9167	155.1398	207.2173

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2025 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2025.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk					High	er risk	
	Typically	lower rewa	ards		Typi	cally higher	rewards
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2025 Fund returned 20.85% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

# Vanguard Target Retirement 2030 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2030.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk Higher risk							
	Typically	lower rewa	ards		Typi	cally higher	rewards
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2030 Fund returned 22.77% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

## Distribution Table

For the year ended 31 March 2021

### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	186.1220	_	186.1220	239.9022
Group 2	91.6448	94.4772	186.1220	239.9022

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2035 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2035.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower ris	wer risk Higher risk					
Typically lower rewards				Typi	cally higher	rewards
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free". The Fund appears in the middle range of the risk and reward indicator because the values of the Fund's investments have experienced a moderate rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2035 Fund returned 24.69% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar EEA Fund Target Date 2036-2040 category or the Investment Association Mixed Investment 40-85% Shares category.

1 Since-inception returns: A GBP Accumulation, 17 December 2015.

## Distribution Table

For the year ended 31 March 2021

#### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	198.8156	_	198.8156	258.7009
Group 2	106.0426	92.7730	198.8156	258.7009

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2045 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2045.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

	Lower ris	Lower risk Higher risk					
Typically lower rewards			Typic	cally higher	rewards		
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were further buoyed by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2045 Fund returned 28.50% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

## Vanguard Target Retirement 2050 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2050.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower ris	sk			High	er risk	
Typically lower rewards				Typi	cally higher	rewards
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoyed by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2050 Fund returned 28.59% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from those lows. They jumped more than 40% over the 12-month period for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

## Distribution Table

For the year ended 31 March 2021

#### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	201.1587	_	201.1587	260.6742
Group 2	107.1497	94.0090	201.1587	260.6742

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

# Vanguard Target Retirement 2055 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2055.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower ris	sk			High	er risk	
Typically lower rewards				Typi	cally higher	rewards
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2055 Fund returned 28.57% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2%
  despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those
  markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a
  gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

## Vanguard Target Retirement 2060 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2060.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk			High	er risk		
Typically	cally lower rewards Typically higher rewar			rewards		
1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2060 Fund returned 28.62% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

## Distribution Table

For the year ended 31 March 2021

#### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	145.0286	_	145.0286	178.6273
Group 2	63.8567	81.1719	145.0286	178.6273

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

## Vanguard Target Retirement 2065 Fund

Managed by Vanguard Global Advisers, LLC.

#### Investment Objective

The Fund's investment objective is to achieve an increase in value and, consistent with a gradually changing investment allocation, hold investments that will pay out money for investors planning to retire in or within approximately five years after 2065.

#### Investment Strategy

The Fund will seek to achieve its investment objective by investing more than 90% of its assets in passive funds that track an index, which are managed or operated by the ACD or its associates.

#### Synthetic Risk and Reward Indicator

Lower risk			Higher risk				
	Typically lower rewards				Typi	cally higher	rewards
	1	2	3	4	5	6	7

The Synthetic Risk and Reward Indicator (SRRI) measures the volatility of the Fund. The risk and reward category (which may range from 1 to 7) is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free." The Fund appears in the higher range of the risk and reward indicator because the values of the Fund's investments have experienced a higher rate of change in the past.

## Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Surging COVID-19 infections prompted the imposition of travel restrictions and business closures across much of the world early in the 12 months ended 31 March 2021. Resulting disruptions in the economy and a spike in unemployment led swiftly to a deep global recession.
- Governments quickly tried to blunt the economic impact of efforts to slow the virus's spread, providing fiscal stimulus in the form of spending, loans, loan
  guarantees, job retention programmes and extended unemployment benefits. Many central banks also took quick action cutting interest rates, restarting or
  expanding asset purchases and providing additional liquidity. Even as new variants of the virus began to surface, hopes of a speedy economic recovery were
  further buoved by the approval and rollout of COVID-19 vaccines.
- Vanguard Target Retirement 2065 Fund returned 28.54% for the 12 months.
- Global stocks had fallen precipitously in the first quarter of 2020, so their performance for the Fund's fiscal year reflects the recovery in the markets from
  those lows. They jumped more than 40% over the 12 months for UK-based investors, as measured by the FTSE Global All Cap Index. UK stocks' gains were
  more modest but still strong, about 27% as measured by the FTSE All-Share Index, with 9 of 11 sectors posting positive returns. Emerging-market stocks
  performed roughly in line with global stocks as a whole.
- Global bonds, as measured by the Bloomberg Barclays Global Aggregate Float Adjusted and Scaled Index hedged in British pounds, returned roughly 2% despite posting a negative return for the first three months of 2021. With bond yields rising in the UK and the US, returns for government bonds in those markets posted significant declines. Returns for their Japanese counterparts also ended in negative territory, whereas European government bonds posted a gain. The improving outlook for economic growth helped investment-grade corporate bonds post strong returns in the UK, the US and Europe.

#### Total Returns

Total Returns
Periods Ended 31 March 2021

28.54% 7.52%

Performance is based on NAV with net income reinvested

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the Fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at http://global.vanguard.com. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

The Fund is not managed to a benchmark and there is not a benchmark against which the performance of the Fund can appropriately be assessed. However, investors may compare the performance of the Fund against other funds within the Morningstar EEA Fund Target Date 2046+ category or the Investment Association Mixed Investment 40-85% Shares category.

1 Since-inception returns: A GBP Accumulation, 5 December 2017.

## Distribution Table

For the year ended 31 March 2021

#### Final distribution payable 28 May 2021

	Net Income Pence Per Share	Equalisation Pence Per Share	Distribution Payable 28 May 2021 Pence Per Share	Distribution Paid 31 May 2020 Pence Per Share
A GBP Accumulation				
Group 1	129.5037	_	129.5037	171.4305
Group 2	62.2305	67.2732	129.5037	171.4305

Group 1—Shares purchased before 1 April 2020.
Group 2—Shares purchased between 1 April 2020 and 31 March 2021.

Note: Equalisation applies only to shares purchased during the distribution period (Group 2 shares). It is the average amount of income included in the purchase price of all Group 2 shares and is refunded to holders of these shares as a return of capital. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

## Notes to the Financial Statements

For the year ended 31 March 2021

#### 1. General Information

Vanguard LifeStrategy Funds ICVC is an open-ended investment company and was incorporated on 16 June 2011 and under the laws of England and Wales. The address of the ACD is the Walbrook Building, 25 Walbrook, London EC4N 8AF, United Kingdom.

To achieve the targeted allocation of assets of their Investment Objectives, the Funds invest more than 80% of their assets in selected related party ("affiliated") collective investment schemes.

#### 2. Basis of Presentation

The Financial Statements have been prepared on a going-concern basis in accordance with Financial Reporting Standard ("FRS") 102 and the Statement of Recommended Practice for UK Authorised Funds (the "SORP 2014") issued by the Investment Management Association (now known as the Investment Association) in May 2014.

#### 3. Significant Accounting Policies

- (a) Critical Accounting Estimates and Judgements. The preparation of these Financial Statements requires the use of certain accounting estimates and requires the ACD to exercise judgement when applying the Fund's accounting policies. The estimates and associated judgements are based on historical experience and various other facts that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the classification of financial assets and liabilities, the carrying values of certain financial assets and liabilities, as well as their fair values in instances where information is not readily apparent from other sources.
- (b) Revenue Recognition. Income arising from collective investment schemes is recognised when the securities are quoted ex-dividend or when sufficient relevant and reliable information that establishes a right to this income has been obtained. Where income from collective investment schemes is reported in lieu of a distribution, such as when the units are held in an accumulation form, the amount reported is recognised as income. Equalisation returned with the distribution is deducted from the cost of the investment and does not form part of the distributable income.

The treatment of returns from derivatives is dependent upon the nature of the transaction and considers both motives and circumstances to determine whether returns should be treated as capital or revenue. Where positions are undertaken to protect or enhance capital, the returns are considered capital. Similarly, where positions are undertaken for generating or protecting revenue, the returns are considered revenue. Where positions generate total returns, an apportionment of any such return between capital and revenue is made to properly reflect the nature of the transaction.

In the case of debt securities, any difference between acquisition cost and maturity value is recognised as revenue over the life of the security using the effective yield basis of calculating amortisation. Revenue from debt securities is accounted for on a basis which takes account of the amortisation of any discount or premium between the purchase price and the expected final maturity price over the remaining life of the security. With respect to inflation-linked securities, changes in the maturity value are calculated by reference to inflation and recorded as revenue. If required, adjustments are made to ensure the total return of the bond is treated as revenue.

Revenue is recognised gross of any withholding taxes incurred.

Bank interest is recognised on an accrual basis.

(c) Treatment of Expenses. All expenses, except those relating to the purchase and sale of investments, are charged against revenue and are recognised on an accrual basis.

To the extent any Fund invests in affiliated products, the ACD intends to reduce its annual management charge in amount equal to similar charges already incurred by an underlying fund. This reduction represents the entire amount of the synthetic element and is recognised on an accrual basis as a reduction of expenses.

(d) Taxation. Corporate tax is payable at current tax rates on the excess taxable revenue over allowable expenses. Deferred taxation is provided on all timing differences that have originated but not reversed by the reporting date. Deferred tax is measured at the rates expected to apply for the period in which the timing differences will reverse. Deferred taxes are not discounted to reflect the time value of money and are only recognised to the extent they are expected to crystallise.

Additionally, the Funds incur withholding taxes imposed by certain foreign countries on investment income. Such income is recorded gross of the related withholding taxation, which is shown as a separate tax expense in the Statement of Total Return.

#### (e) Financial Assets and Liabilities.

Classification and Measurement. Financial assets and financial liabilities, including derivative investments, are classified and measured at fair value from inception. Obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortised cost, which approximates fair value.

Recognition and Derecognition. Purchases and sales of financial instruments are recognised on the trade date, being the date on which the purchase or sale is executed. Financial instruments are initially recognised when the Funds become party to the contractual provisions of the instrument. Financial instruments are derecognised when the contractual rights to the cash flows from the instruments expire, or when substantially all the risks and rewards of ownership have been transferred.

Collective Investment Schemes. Collective investment schemes are valued at their single price if a single price for buying and selling units or shares is quoted and the bid-market price if separate buying and selling prices are quoted on the last business day of the accounting year. Where the ACD or its appointed investment adviser considers that no reliable price exists for a share in a collective investment scheme at a valuation point, the ACD or appointed adviser may value an investment at a price that in its opinion reflects a fair and reasonable price for that investment

**Fixed Income.** Fixed income securities traded in recognised markets are valued using the latest bid prices on the securities exchange in which they are principally traded or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities, and ratings), both as furnished by independent pricing services.

**Derivatives.** Futures contracts are valued in an active market if quoted prices are readily and regularly available; this represents the amount that would be required to close the position.

- (f) Fair Value Hierarchy. The Funds classify financial instruments measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Each security or investment held in a Fund is valued at the close of business on each business day on the market that in the opinion of the Administrator is the principal market on which such security or investment is traded.
- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 Significant unobservable inputs (including the fund's own fair value assumptions).
- (g) Transaction Costs. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of an investment. These costs include fees and commissions paid to agents, advisers, brokers and dealers. Investments in financial instruments include transaction costs which form part of the net capital gains/losses.
- (h) Foreign Currency. All transactions in foreign currencies are translated into sterling at the exchange rates prevailing on the date of the transaction. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the prevailing exchange rates. Gains and losses arising on translation are included as part of the return and are reported on a net basis.
- (i) Cash and Bank Overdrafts. Cash is composed of demand deposits with financial institutions or bank overdrafts. Bank overdrafts, when applicable, are presented as current liabilities. Cash held or pledged as margin against derivative instruments is included within Cash and Bank Overdrafts on the balance sheet and disclosed separately in the Notes to the Financial Statements as Amounts Held at, or Overdrafts with, Futures Clearing Houses and Brokers, as applicable.

Margin. Upon entering into futures contracts, cash deposits are required (initial margin) in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are made or received by the Funds each day.

(j) Swing Pricing. The Funds employ swing pricing policy as a means to prevent dilution. Swing pricing results from the ACD's determination to adjust the Funds' net asset value, on any dealing day, following a consideration of dealing activity (i.e. level of subscriptions and redemptions) and the level of costs associated with such activity. A dilution adjustment is exercised only for the purpose of reducing the negative effects of transaction charges in the interest of the non-dealing shareholders in the Funds and is applied consistently in respect of the Funds, and in respect of all assets of the Funds. The direction of the swing depends on whether there are net subscriptions or net redemptions in the Funds on the relevant dealing day, while the magnitude of the swing is based on pre-determined estimates of the average execution costs in the relevant asset classes in which the Funds are invested.

There were no dilution adjustments applied during the year ended 31 March 2021 (31 March 2020: None).

#### 4. Distribution Policy

- (a) Basis of Distribution. Where revenue from investments exceeds expenses of the share class, a distribution will be made to that share class. Should expenses exceed revenue, there will be no distribution and the shortfall will be transferred to capital. Revenue attributable to Accumulation shareholders is retained at the end of each distribution period and represents a reinvestment of revenue. All remaining revenue is distributed in accordance with the Collective Investment Schemes sourcebook. Additionally, some or all of the expenses are charged to capital for distribution purposes. The amount charged may vary between accounting periods.
- (b) Equalisation. Equalisation occurs to reflect the pro rata payment of distributions based on the time period over which shares have been owned by an investor. If shares are purchased when the Fund has accrued income but has not yet declared a distribution, the Fund will credit to the equalisation account the portion of the purchase price representing income accrued but directly attributable to those shares. Conversely, if shares are redeemed when the Fund has accrued income but has not yet declared a distribution, the Fund will deduct from the equalisation account the portion of the redemption price representing income accrued but directly attributable to those shares.

#### 5. Risk Management Policies

(a) Price Risk. Price risk is the risk that the value of financial instruments held by the Funds will fluctuate because of changes in the market. The ACD considers the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors while continuing to follow the investment objectives of the Funds.

The Funds seek to achieve their investment objectives predominantly through investment in passive, index-tracking collective investment schemes. For index-tracking collective investment schemes, the investment objective is to seek to track as closely as reasonably possible the performance of the benchmark indices. In order to achieve this objective, an index-tracking collective investment scheme invests primarily in securities held in the relevant benchmark index. An index-tracking collective investment scheme places limitations on the amount by which a holding may deviate from the proportion in the benchmark to limit the market risk from mismatched positions.

(b) Allocation Risk. The Asset Allocation Funds pursue an investment strategy whereby the Investment Manager has discretion over the composition of the Funds' portfolio holdings and is not managed with reference to a benchmark index. However, the investment manager manages the Funds through pre-determined asset allocations to equity and fixed income securities using a combination of underlying collective investment schemes. Asset allocation risk occurs when the Asset Allocation Funds are not able to invest the pre-determined allocations. The Investment Manager moderates this risk through careful selection of the underlying collective investment schemes chosen for the pre-determined allocation.

All investments present a risk of loss of capital. The ACD assesses the Funds' market risk volatility to ensure that the effect of using financial derivative instruments is not significant enough to cause disproportionate losses to the Funds' overall value. The ACD moderates this risk through careful selection of financial instruments. The ACD manages this risk through a combination of risk metrics.

- (c) Currency Risk. Currency risk is the risk that the value of the Funds' investments will fluctuate as a result of changes in currency exchange rates. Local interest rates and monetary policy, as well as other government fiscal and labour policies, also can adversely impact the Fund's currency values. Currency risk is not significant to the Funds.
- (d) Interest Rate Risk. The Funds may invest in fixed income securities either directly or through index-tracking collective investment schemes. Revenue may be affected by changes in interest rates relevant to particular securities or as a result of the ACD being unable to secure similar returns on the expiry of contracts or sale of securities. The value of fixed rate securities may be affected by interest rate movements or the expectation of such movements in the future. Interest receivable on bank deposits or payable on bank overdraft positions will also be affected by fluctuations in interest rates.

Only Vanguard Target Retirement 2015 Fund, Vanguard Target Retirement 2020 Fund and Vanguard Target Retirement 2025 Fund hold direct investments in fixed income product; however, the exposure for Vanguard Target Retirement 2020 and Vanguard Target Retirement 2025 Fund is not significant to the portfolio.

#### Vanguard Target Retirement 2015 Fund

The interest rate risk profile of financial assets and liabilities as at 31 March 2021 was as follows:

Floating Rate Financial Assets <sup>1</sup> 31 March 2021 (£)	Fixed Rate Financial Assets 31 March 2021 (£)	Financial Assets Not Carrying Interest 31 March 2021 (£)	Total (f)

Management of Market Risk (Including Market Price, Allocation Risk, Foreign Currency and Interest Rate Risks). The Investment Adviser performs daily reviews of performance and portfolio attributes, such as sector diversification, maturity and credit quality, and makes adjustments where necessary to ensure that the risk components closely match those of the respective investment policies. Potential tracking errors are raised and discussed by the Investment Adviser and the Administrator for investigation and resolution. Market impact, currency discrepancies and interest rate exposure are investigated as possible causes. Currency positions are reconciled daily and discrepancies are immediately resolved. Procedures are established with the Investment Adviser to trade currency as closely as possible to the close of the markets, so as to obtain exchange rates that closely approximate the rates used in the valuation.

Market disruptions associated with the COVID-19 pandemic have had a global impact, and uncertainty exists as to the long-term implications. Such disruptions can adversely affect assets of the Funds and thus performance of the Funds.

(e) Market Risk Sensitivity Analysis. Market risk exposures to the Funds are measured using value-at-risk (VaR), which estimates the maximum expected loss over a defined period given a specified confidence level. The VaR methodology is a statistically defined, probability-based approach that takes into account estimates for market volatilities and correlations between assets in the portfolio. Risks can be measured consistently across markets and products, and risk measures can be aggregated to arrive at a single risk number. For the purpose of this annual report, a one-year historical (realised) absolute VaR calculation has been completed for each Fund as set out below. VaR as presented is based on historical performance through 31 March 2021 and does not reflect the effects of any market volatility since that date. The calculation includes a 95% confidence interval with a 260-trading-day (one-year) VaR period. That is, under normal market conditions and assuming no changes to Fund holdings, there is a 95% probability that the value of Fund assets will not decrease by more than the calculated value over a one-year period.

	31 March 2021 (%)	31 March 2020 (%)
Vanguard LifeStrategy 20% Equity Fund	5.74	8.34
Vanguard LifeStrategy 40% Equity Fund	8.85	11.06

Vanguard Target Retirement 2015 Fund	8.11	9.41
Vanguard Target Retirement 2020 Fund	10.89	12.44
Vanguard Target Retirement 2025 Fund	13.07	15.23

	31 March 2021 (%)	31 March 2020 (%)
Vanguard Target Retirement 2030 Fund	14.32	17.14
Vanguard Target Retirement 2035 Fund	15.18	17.89
Vanguard Target Retirement 2040 Fund	16.01	19.43
Vanguard Target Retirement 2045 Fund	16.85	20.75
Vanguard Target Retirement 2050 Fund	16.97	20.80
Vanguard Target Retirement 2055 Fund	16.95	20.80
Vanguard Target Retirement 2060 Fund	16.96	20.80
Vanguard Target Retirement 2065 Fund	16.94	20.80

Global exposure is measured using the commitment approach, which considers the full constituents of the portfolio. The Investment Adviser will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

The use of derivatives creates a higher degree of risk exposure. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivative positions can therefore increase volatility. The leverage is calculated on a gross exposure basis, by taking the sum of the notional values of the derivatives, without netting, and is expressed as a percentage of the net asset value. Leverage was not significant during the year.

The Funds use equity index futures only for efficient portfolio management – index futures are used to equitise cash holdings from inflows and outflows and also anticipated cash flows (e.g. dividend receivables).

The Funds did not hold any futures at year end.

(f) Liquidity Risk. Liquidity risk is the risk that sufficient cash cannot be raised to meet liabilities when due. One of the key liquidity factors influencing the Funds is exposure to cash redemptions of redeemable shares. Hence the Funds invest in collective investment schemes for which the large majority of their underlying investments are traded in active markets and can ordinarily be readily disposed. However, liquidity risk will occur if an issuer becomes credit-impaired or if the relevant market becomes illiquid. In such a case, it may not be possible to initiate or liquidate a position at a price deemed by the ACD to be demonstrating fair value. Liquidity risk may be temporary or may last for extended periods. The Funds primarily invest in underlying index-tracking collective investment schemes that form part of their respective benchmark indices. Benchmark indices for the underlying collective investment schemes are constructed from index rules requiring securities to have a specified minimum trading volume, which, although not guaranteeing liquidity, provides indication of the liquid nature of the securities within the underlying funds. The Funds are exposed to withdrawals and contributions that are invested in order to meet the investment objective of the Funds.

The Funds may use index futures contracts to a limited extent, to maintain full exposure to the index, maintain liquidity and minimise transaction costs. The Funds may equitise cash holdings from inflows and outflows by purchasing futures contracts to immediately invest incoming cash in the market, or selling futures in response to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity.

Liquidity risk is not significant to the Funds.

Management of Liquidity Risk. In order to meet redemption requests and raise cash from the portfolio, the Investment Adviser receives daily reports of capital share activity from the Administrator. The Investment Adviser incorporates cash forecasts into the daily management of the portfolio and monitors cash balances daily.

Subject to certain circumstances as detailed in the Prospectus, negative impacts to liquidity or transaction costs caused by significant shareholder redemptions may be mitigated through the Funds' available liquidity measures including, but not limited to, the use of (a) it's swing pricing policies, (b) distribution of underlying investments rather than cash, subject to certain conditions, in which case the shareholder may bear the cost of charges incurred in connection with the sale of such underlying investments, (c) limiting the maximum amount of daily redemptions when total redemption requests for the day exceed 10%, or (d) temporary suspension of dealing in shares. Should the Funds require, they also have access to a syndicated line of credit for temporary or emergency purposes (as disclosed in Note 21).

(g) Credit Risk. Vanguard Target Retirement 2015 Fund, Vanguard Target Retirement 2020 Fund and Vanguard Target Retirement 2025 Fund invest in government bonds, where credit risk is negligible because of the low risk of the UK Treasury defaulting on interest payments or maturities. The remaining funds invest in only equity and fixed income securities through underlying collective investment schemes. These securities are not credit instruments, and therefore these Funds are not directly exposed to credit risk. When efficient portfolio management techniques are employed, exchange-traded index futures, which are subject to daily valuation, are used to minimise counterparty risk.

Management of Credit Risk. Where applicable, each Fund's exposure to credit risk is considered negligible, any action performed by the Investment Adviser would be minimal.

Transaction costs are incurred when buying and selling financial instruments. These costs can be direct, as in the case of brokerage or dealer commissions or taxes due on equity securities and futures contracts. However, transaction costs can also be indirect, as in the case of debt securities, currency forwards or collective investment schemes where these costs are not separately identifiable but rather form part of the dealing spread. Indirect transaction costs do not form part of the transaction cost disclosure above. Additionally, all derivative instruments have been excluded from the above analysis as the initial net cash outlay to enter into a position is not comparable to the instruments' settlement or notional value and therefore not comparable to the debt, equity and collective investments schemes as presented.

Average portfolio dealing spread as at 31 March 2020:

	Vanguard	Vanguard	Vanguard	Vanguard	Vanguard	Vanguard	Vanguard	Vanguard

### (c) Future Tax Charge

The Vanguard LifeStrategy 100% Equity Fund has surplus management expenses that have resulted in an unrecognised deferred tax asset of £1,189,022 (2020: £754,201). This asset has not been recognised in the Financial Statements as the Funds' current investment strategy is unlikely to generate sufficient taxable profits in the future to enable the value of this asset to be realised.

### 11. Distributions

The distributions take account of equalisation received on the creation of shares and deducted on cancellation of shares, and comprise:

Distributions for the 2020-21 year:

# 15. Capital Commitments and Contingent Liabilities

The Funds had no capital commitments or contingent liabilities at year-end (31 March 2020: Nil).

#### 16. Efficient Portfolio Management

The Company may employ investment techniques and use financial derivative instruments (FDIs) (such as futures contracts, forward foreign currency contracts, options and swaps) for efficient portfolio management of the assets of the Funds, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Adviser to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative transactions are accounted for through the Statement of Total Return as Net Capital Gain/(Losses).

#### 17. Related Party Transactions

Authorised Corporate Director. Vanguard Investments UK, Limited, is the ACD and acts as a principal in respect of all transactions of shares in the Funds. For its services, the ACD receives a fixed single fee per share class (the "Management Charge") calculated on a daily basis and paid monthly. Out of the fees received, the ACD pays for any sub-advisers, as well as the costs of administration including audit, depositary, legal, registration and regulatory fees associated with the Funds. As a result, the ACD anticipates the ongoing charges figure

("OCF") of each share class will closely track the Management Charge. The ACD, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

The Funds invest in affiliated collective investment schemes, and the Net Capital Gains/(Losses) and Revenue from these collective investment schemes, as disclosed in Notes 6 and 8, respectively, are derived from related party holdings. Additionally with respect to the Funds, the ACD intends to reduce its annual management charge in an amount equal to similar charges already incurred in the underlying affiliated collective investment schemes. This reduction is voluntary and at the sole discretion of the ACD and could be discontinued at any time without notice. Amounts due from or to the ACD are disclosed in Notes 12 and 14. Amounts earned by the ACD in respect to annual management charges are disclosed in Note 9.

The table below presents the amounts in effect during the period and as at 31 March 2021:

### 20. Auditors' Remuneration

Audit fees paid on behalf of each fund by the ACD were £8,725, excluding VAT (2020: £8,725).

#### 21. Credit Facility Disclosure

The Funds and certain other funds managed by the ACD and its affiliates participate in an annually renewable USD \$4.3 billion committed credit facility. Each participating fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes, and are subject to the participating fund's regulatory and contractual borrowing restrictions. Participating funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the ACD. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Total Return.

Any borrowings under this facility denominated in euro bear interest at the Euro Interbank Offered Rate plus an applicable margin, while borrowings under this facility in denominations other than euro bear interest at a rate equal to the higher of the one-month London Interbank Offered Rate (or an acceptable alternate rate, if necessary), federal funds effective rate, or overnight bank funding rate plus an agreed-upon spread.

The Funds did not have any borrowings outstanding at 31 March 2021 or any time during the year then ended (31 March 2020: Nil), and they have not incurred any interest charges.

### 22. Important Events During the Year

With effect from 16 December 2020, Michael Gower resigned as a director of Vanguard Investments UK, Limited.

With effect from 31 December 2020, James M. Norris resigned as a director of Vanguard Investments UK, Limited.

#### 23. Events After the Balance Sheet Date

There were no events subsequent to year-end requiring recognition or disclosure in the financial statements.

# **Further Information**

#### Reports and Financial Statements

Each year, annual and interim reports will be prepared. They will describe investment activity during the period and provide management commentary.

Recipients of this document should not treat the contents as advice relating to legal, taxation or investment matters and should consult their own professional advisers concerning the acquisition, holding or disposing of investments in the Funds.

Past performance is not necessarily indicative of future performance, and the value of the shares and income from them may fall as well as rise. On redemption of shares, investors may receive back an amount less than the original amount of their investment. The assets of the Funds will be in a variety of currencies, and therefore movements in the value of currencies may affect the value of an investor's holdings and the income from the holdings may fluctuate in value in money terms.

#### Prospectus

The Fund Prospectus, an important document describing each Fund in detail, is available from the ACD, which is responsible for the management and administration of the Funds.

The ACD for Vanguard LifeStrategy Funds ICVC is Vanguard Investments UK, Limited, located at 4th Floor, The Walbrook Building, 25 Walbrook, London EC4N 8AF.

#### Types of Shares Available

Each of the LifeStrategy 40% Equity, 60% Equity, 80% Equity and 100% Equity Funds offers two classes of shares: A GBP Income Shares and A GBP Accumulation Shares. The LifeStrategy 20% Equity Fund has two share classes: A GBP Gross Income and A GBP Gross Accumulation.

Each of the Target Retirement Funds offers one class of shares: A GBP Accumulation Shares.

#### Switching

Investors may sell their shares and transfer the proceeds into any of the other Funds by calling our dealing desk on 0800 408 2065.

#### Distributions

The existing Funds allocate revenue to shareholders once a year, on 31 May.

### Publication of Prices

The most recent share prices are published daily on https://global.vanguard.com.

### Cross Holdings

On 31 March 2021 there were no shares in any sub-fund held by other sub-funds of the Vanguard LifeStrategy Funds ICVC.

#### Remuneration Disclosure

The Vanguard UK Consolidation Group publishes annually its Pillar 3 disclosures, including certain information on remuneration. The latest Pillar 3 disclosures can be found at https://global.vanguard.com/documents/pillar3-disclosures.pdf.

Vanguard personnel providing services to the ACD are subject to the Vanguard European Remuneration Policy (the "Remuneration Policy"). The Remuneration Policy includes the remuneration requirements of the UCITS V Directive (2014/91/EU) (as implemented in the UK). Details of the Remuneration Policy are available through https://www.vanguard.co.uk/uk/portal/investment-information.jsp, which will be updated periodically to reflect changes to the policy.

The governance of remuneration within Vanguard Europe is undertaken through a tiered structure, including Vanguard's Global Remuneration Committee and the European Leadership Team. The Global Remuneration Committee also operates at The Vanguard Group level and oversees the overall compensation programmes of The Vanguard Group. The European Leadership Team is responsible for implementing the remuneration programmes in accordance with our total rewards philosophy and global organisation, including overseeing the Remuneration Policy.

The Remuneration Policy provides for an appropriate balance of fixed salary; benefits, such as pension; and annual bonus and long-term incentive arrangements. Incentives are based on the overall business performance of The Vanguard Group, or individual, team, business unit and fund performance. The incentive plans are reviewed and approved by the European Leadership Team (and other applicable groups) in order to ensure that plans appropriately assess financial and non-financial performance and do not encourage conflicts of interest, and to ensure that risk or compliance issues are appropriately reflected.

The European Leadership Team also reviews and approves the list of UK UCITS code staff annually. Identified code staff are notified and understand the code staff responsibilities.

Under the UCITS V Directive (as implemented in the UK), the ACD is required to disclose information relating to the remuneration paid to its staff for the financial year, split into fixed and variable remuneration. The table below presents the aggregate total remuneration paid to staff who provide services to the Funds and the aggregate total remuneration paid to all relevant UK UCITS code staff.

	Headcount <sup>1,2</sup>	lotal Remuneration (£000) <sup>3</sup>
Funds, of which	488	18,044
Fixed Remuneration	488	12,051
Variable Remuneration	488	5,993
Performance Fees	n/a	n/a
UCITS Code Staff, of which	15	2,846
Senior Management	11	2,489
Other Code Staff	4	357

- 1 This is the total number of employees who are fully or partly involved in the activities of the Funds.
- 2 The staff in this table may provide services to other entities within The Vanguard Group.
- 3 The remuneration disclosed is the total remuneration received by staff and is apportioned based on assets under management.

Remuneration reflects fixed pay (salary) and performance-related pay (annual and long-term incentives). Individual incentive outcomes under the plans are based on performance assessed by reference to an appropriate balance of quantitative and qualitative measures, such as behaviour, including compliance with all applicable policies. The individual incentive outcome is fully discretionary and, if appropriate, outcomes based on financial performance can be overridden based on the qualitative measures.

#### Assessment of Value

Under rules laid out in COLL 6.6.20R of the Financial Conduct Authority's Handbook, the ACD is required to inform investors annually whether its funds are providing value to investors and then publish an annual statement summarising the outcome of this process. Details of the statement are available at https://www.vanguard.co.uk/adviser/adv/about-vanguard/assessment-of-value.

#### Synthetic Ongoing Charges Figure

The Ongoing Charges Figure (OCF) is the ratio of the Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. Because the Fund invests more than 80% of its assets in other UCITS or Collective Investment Undertakings (CIU), it is required to disclose a synthetic OCF that accounts for the ongoing charges incurred in the underlying CIUs.

The Synthetic OCF Charge for each shareclass as at 31 March 2021:

	Vanguard LifeStrategy 20% Equity Fund (%)	Vanguard LifeStrategy 40% Equity Fund (%)	Vanguard LifeStrategy 60% Equity Fund (%)	Vanguard LifeStrategy 80% Equity Fund (%)	Vanguard LifeStrategy 100% Equity Fund (%)	Vanguard Target Retirement 2015 Fund (%)	Vanguard Target Retirement 2020 Fund (%)	Vanguard Target Retirement 2025 Fund (%)
