Premier Miton Income Fund – Class C Shares

A sub-fund of Premier Miton Income Funds ICVC

Class C Income Shares, ISIN no.GB0003884722 (representative share class) & Class C Accumulation Shares, ISIN no.GB00BTHH0849

Authorised Corporate Director - Premier Portfolio Managers Ltd.

Objectives and investment policy

The objective of the Fund is to provide an income together with capital growth over the long term, being five years or more. Income is paid twice a year as dividend distributions.

The Fund will invest a minimum of 80% of its assets in shares of companies listed in the UK.

Up to 20% of the Fund may be invested in other investments including listed company shares in other geographical regions, such as Europe and the USA, as well as government and company bonds, convertible bonds, collective investment schemes and cash.

The Fund is expected to hold between 60 and 90 individual investments, which will be diversified across a range of different industries, sectors and different sized companies. The Fund Manager will focus on the dividends paid by those companies and assess whether they are sustainable and likely to grow over time.

The Fund is actively managed which means that the Fund Manager will adapt the portfolio depending on their assessment of the broad

economic environment and market conditions but always within the boundaries outlined in the Fund's objective and policy.

The full investment objective and policy, which outline all the eligible investments, are available in the Fund's prospectus.

The minimum recommended term for holding shares in this Fund is at least 5 years. This does not mean that the Fund will achieve this objective over this, or any other, specific time period and there is a risk of loss to the original capital invested.

You can buy, sell and switch shares in the Fund on any UK business day. We will need to receive your instruction before 12 noon to buy shares at that day's price.

Terms explained:

Accumulation shares: any income made by the Fund will be reinvested to grow the value of your investment.

Income shares: any income made by the Fund will be paid out to you.

Convertible bonds: bonds that can convert into company shares.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

The Fund is ranked as 6 because it has experienced relatively high rises and falls in value over the past five years.

Please note that even the lowest ranking does not mean a risk-free investment.

The Fund holds equities concentrated by location in the UK. Equities, as an asset class, tend to experience higher volatility than many other asset types such as bonds or money market instruments. Funds concentrated in one geographic location are more vulnerable to market sentiment in that specific location and can carry a higher risk than funds holding more geographically diversified assets.

The level of income is not guaranteed.

The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The indicator may not take fully into account the following risks of investing in this Fund:

- **Legal or tax risk:** arising from a change in legal regulations, tax rules or the application of them.

A more detailed description of the risks identified as being applicable to the Fund are set out in the 'Risk Factors' section of the Prospectus.
