78140 VELIZY VILLACOUBLAY

Statutory auditor's report on the consolidated financial statements

Year ended December 31, 2017

This is a translation into English of the statutory auditor's report on the consolidated financial statements of the Company issued in French and it is provided solely for the convenience of English speaking users.

This statutory auditor's report includes information required by European regulation and French law, such as information about the appointment of the statutory auditors or verification of the management report and other documents provided to shareholders.

This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

To the Novacyt Annual General Meeting,

Opinion

In compliance with the engagement entrusted to us by your Annual General Meeting, we have audited the accompanying consolidated financial statements of Novacyt for the year ended December 31, 2017.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group as of December 31, 2017 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Basis for Opinion

Audit Framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the "*Statutory Auditor's Responsibilities for the Audit of the Consolidated Financial Statements*" section of our report.

Independence

We conducted our audit engagement in compliance with independence rules applicable to us, for the period from January 1, 2017 to the issue date of our report, and specifically we did not provide any prohibited non-audit services referred to in the French Code of Ethics (*Code de déontologie*) for statutory auditors.

Emphasis of matter

Without qualifying the above opinion, we draw your attention to the matter outlined in the "Going concern" note regarding the going concern assumptions used by the Board of Directors to prepare the December 31, 2017 consolidated financial statements.

Justification of our assessments

In accordance with the requirements of Articles L.823-9 and R.823-7 of the French Commercial Code (*Code de commerce*) relating to the justification of our assessments, we hereby inform you of the following assessments that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period.

These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon. We do not provide a separate opinion on specific items of the consolidated financial statements.

Going concern

As stated in the "Emphasis of matter" section of this report, the "Going concern" note describes the assumptions used by the Board of Directors to approve the consolidated financial statements while applying the going concern principle. Based on our procedures and the information made available to us to date, we assessed the reasonableness and appropriateness of the assumptions used by the Board of Directors. We also believe that the note to the consolidated financial statements provides an appropriate disclosure on the Company's situation with respect to the going concern principle.

Goodwill

Goodwill was subject to impairment tests according to the procedures described in the "Impairment testing" note to the consolidated financial statements. We reviewed the procedures used to implement these tests as well as the cash flow forecasts and assumptions used for this purpose, and we verified that the "Impairment testing" and "Goodwill" notes provided an appropriate disclosure.

Verification of the Information Pertaining to the Group Presented in the Management Report

As required by law, we have also verified, in accordance with professional standards applicable in France, the information pertaining to the Group presented in the Board of Directors' management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The consolidated financial statements were approved by the Board of Directors.

Statutory Auditor's Responsibilities for the Audit of the Financial Statements

Our role is to issue a report on the consolidated financial statements. Our objective is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L. 823-10-1 of the French Commercial Code, our statutory audit does not include assurance on the viability of the Company or the quality of management of the affairs of the Company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit and furthermore:

- Identifies and assesses the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to

be sufficient and appropriate to provide a basis for his opinion The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the consolidated financial statements;
- Assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of his audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in the consolidated financial statements or, if such disclosures are not provided or inadequate, to modify the opinion expressed therein;
- Evaluates the overall presentation of the consolidated financial statements and assesses whether these statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtains sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. The statutory auditor is responsible for the direction, supervision and performance of the audit of the consolidated financial statements and for the opinion expressed on these consolidated financial statements.

Neuilly-sur-Seine, April 27, 2018

The Statutory Auditor

Deloitte & Associés

Benjamin HAZIZA

Consolidated income statement for the years ended 31 December 2016 and 31 December 2017

NOTES TO THE ANNUAL ACCOUNTS

1. APPLICABLE ACCOUNTING STANDARDS

Novacyt S.A is incorporated in France and its principal activities are specialising in cancer and infectious disease diagnostics. Its registered office is located at 13 Avenue Morane Saulnier, 78140 Vélizy Villacoublay.

The financial information contained in this report comprises the consolidated financial statements of the Company and its subsidiaries (hereinafter referred to collectively as “**the Group**”). They are prepared and presented in ‘000s of euros.

The consolidated financial statements for the fiscal year ended December 31, 2017 were established in accordance with the international accounting standards and interpretations (IAS / IFRS) adopted by the European Union and applicable on December 31, 2017.

The 2017 consolidated financial statements were approved by the Board of Directors on April 25, 2018.

2. ADOPTION OF NEW STANDARDS AND AMENDMENTS TO EXISTING STANDARDS

- Standards, interpretations and amendments to standards with mandatory application for periods beginning on or after 1 January 2017
 - Amendments to IAS 7: “disclosures enabling users of financial statements to evaluate changes in liabilities arising from financing activities, whether or not such changes result from cash flows”; and
 - Amendments to IAS 12: “clarify how to account for deferred tax assets related to debt instruments measured at fair value”.
- Standards, interpretations and amendments to standards already published by the IASB and endorsed by the European Union but not yet mandatory as of 31 December 2017
 - IFRS 9 “Financial Instruments”;
 - IFRS 15 and amendments to IFRS 15 “Revenue from Contracts with Customers”; and
 - IFRS 16 “Leases”.

These standards and interpretations have not been early adopted. The Group is currently examining the impact on the historical financial information of applying these. At this stage, it does not expect any material impact on its consolidated financial statements.

The texts adopted by the European Union are available on the website of the European Commission at the following address:

http://ec.europa.eu/finance/company-reporting/ifrs-financial-statements/index_en.htm

3. SUMMARY OF ACCOUNTING POLICIES APPLIED BY THE GROUP

The preparation of the financial information under IFRS requires management to exercise judgement on the application of accounting policies, and to make estimates and assumptions that affect the amounts of assets and liabilities, and income and expenses. The underlying estimates and assumptions, made in accordance with the going concern principle, are based on past experience and other factors deemed reasonable in the circumstances. They serve as the basis for the exercise of judgement required in determining the carrying amounts of assets and liabilities that cannot be obtained directly from other sources. Actual amounts may differ from these estimates. The underlying estimates and assumptions are reviewed continuously. The impact of changes in accounting estimates is recognised in the period of the change if it affects only that period, or in the period of the change and subsequent periods if such periods are also affected.

The financial information has been prepared on the historical cost basis except in respect of those financial instruments that have been measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial information is determined on such a basis, except for leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

The areas where assumptions and estimates are material in relation to the financial information are the measurement of goodwill resulting from the Company's acquisition of the Lab21 subgroup and Primerdesign (see note 18), the carrying amounts and useful lives of intangible assets (see note 19), deferred taxes (see note 22), trade receivables (see note 24) and provisions for risks and other provisions related to the operating activities (see note 29).

The accounting policies set out below have been applied consistently to all periods presented in the financial information.

Basis of consolidation

The financial information includes all companies under exclusive control. The Company does not exercise joint control or have significant influence over other companies. Subsidiaries are consolidated from the date on which the Group obtains effective control.

Exclusively controlled companies are consolidated by the full consolidation method with recognition of non-controlling interests. Under IFRS 10, an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant

facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation. The Company's scope of consolidation included the following companies, all fully consolidated through the current and prior year.

| Companies | Closing | | | Opening | | |
|--------------------------|---------------------|--------------------|----------------------|---------------------|--------------------|----------------------|
| | Interest percentage | Control percentage | Consolidation method | Interest percentage | Control percentage | Consolidation method |

*Legend: FC: Full consolidation
NC: Not consolidated*

Consolidation methods

The consolidated historical financial information is prepared using uniform accounting policies for transactions and other similar events in similar circumstances.

◦ **Elimination of intercompany transactions**

The intercompany balances arising from transactions between consolidated companies, as well as the transactions themselves, including income, expenses and dividends, are eliminated.

◦ **Translation of accounts denominated in foreign currency**

The historical financial information is presented in euros. The financial statements of companies whose functional currency is not the euro are translated into euros as follows:

- balance sheet items are translated at the closing exchange rate, excluding equity items, which are stated at historical rates; and
- transactions in the income statement and statement of cash flows are translated at the average annual exchange rate.

Translation differences on earnings and equity are recognised directly in other comprehensive income under “Translation reserve” for the portion attributable to the Group. On disposal of a foreign company, the translation differences relating thereto and recognised in other comprehensive income are reclassified to profit or loss.

Exchange differences arising from intragroup balances are recognised as exchange losses or gains in the consolidated income statement.

Going concern

The directors have, at the time of approving the financial statements, a reasonable expectation that the Company have adequate resources to continue in operational existence for the foreseeable future. Thus they adopt the going concern basis of accounting in preparing the financial statements.

The going concern model covers the period up to and including April 2019. In making this assessment the Directors have considered the following elements:

- the working capital requirements of the business;
- a positive cash balance at 31 December 2017 of €4,345,000;
- the repayment of the current bond borrowings according to the agreed repayment schedules.

The forecast prepared by the company shows that it is able to cover its cash needs during the financial year 2018 and until April 2019 without the raising of any further bank or other financing facility

Business combinations and measurement of goodwill

◦ **Business combinations**

Business combinations are accounted for using the purchase method (see IFRS 3R).

Each time it takes over a company or group of companies constituting a business, the Group identifies and measures the assets acquired and liabilities assumed, most of which are carried at

fair value. The difference between the fair value of the consideration transferred, including the recognised amount of any non-controlling interest in the acquiree and the net amount recognised in respect of the identifiable assets acquired and liabilities assumed measured at fair value, is recognised as goodwill.

Pursuant to IFRS 3R, the Group applies the following principles:

- transaction costs are recognised immediately as operating expenses when incurred;
- any purchase price adjustment of an asset or a liability assumed is estimated at fair value at the acquisition date, and the initial assessment may only subsequently be adjusted against goodwill in the event of new information related to facts and circumstances existing at the acquisition date if this assessment occurs within the 12-month allocation period after the acquisition date. Any adjustment of the financial liability recognised in respect of an additional price subsequent to the intervening period or not meeting these criteria is recognised in the Group's comprehensive income;
- any negative goodwill arising on acquisition is immediately recognised as income; and
- for step acquisitions, the achievement of control triggers the remeasurement at fair value of the interest previously held by the Group in profit or loss; loss of control results in the remeasurement of the possible residual interest at fair value in the same way.

For companies acquired during the year, only the results for the period following the acquisition date are included in the consolidated income statement.

◦ **Measurement of goodwill**

Goodwill is broken down by cash-generating unit (CGU) or group of CGUs, depending on the level at which goodwill is monitored for management purposes. In accordance with IAS 36, none of the CGUs or groups of CGUs defined by the Group are greater in size than an operating segment.

◦ **Impairment testing**

Goodwill is not amortised, but is subject to impairment testing when there is an indication of loss of value, and at least once a year at the reporting date.

Such testing consists of comparing the carrying amount of an asset to its recoverable amount. The recoverable amount of an asset, a CGU or a group of CGUs is the greater of its fair value less costs to sell and its value in use. Fair value less costs to sell is the amount obtainable from the sale of an asset, a CGU or a group of CGUs in an arm's length transaction between well-informed, willing parties, less the costs of disposal. Value in use is the present value of future cash flows expected to arise from an asset, a CGU or a group of CGUs.

It is not always necessary to determine both the fair value of an asset less costs to sell and its value in use. If either of these amounts exceeds the carrying amount of the asset, the asset is not impaired and it is not necessary to estimate the other amount.

Intangible fixed assets

◦ **Patents**

Patents on the balance sheet were acquired or created internally.

These patents have been recognised in accordance with the following rules:

- Research phase: recognition of expenses in operating expenses; and
- Development phase: recognition in assets insofar as the patents are identifiable assets controlled by the Company and from which future economic benefits will arise.

Each patent has been recognised in accordance with its value, corresponding to the costs incurred during the development phase or the acquisition price.

The event generating amortisation is the start of use, i.e. the filing date of the patent. Patents are amortised on a straight-line basis over 20 years.

◦ **Customer relationships**

In accordance with IFRS 3, the Company's acquisition of Primerdesign resulted in the recognition of the value of the acquired customer base on the balance sheet. The value of this asset was determined by discounting the additional margin generated by customers after remuneration of the contributing assets.

Customer relationships will be amortised on a straight-line basis over nine years.

◦ **Trademark**

The acquisition price of Primerdesign by the Company was also "allocated" in part to the Primerdesign trademark. The value of this asset was determined by discounting the cash flows that could be generated by licensing the trademark, estimated as a percentage of revenue derived from information available on comparable assets.

The trademark will also be amortised on a straight-line basis over nine years.

◦ **Other intangible assets**

Intangible assets include licences recognised at cost and amortised over useful lives of between 7 and 20 years.

Intangible assets under construction

Pursuant to IAS 38, the Group capitalises development costs (external costs and personnel expenses), provided that they meet the following criteria:

- the Group has the intention, as well as the financial and technical capacity, to complete the development project;
- the asset will generate future economic benefits; and
- the cost of the intangible asset can be measured reliably.

Assets under construction are not amortised until the development programme has been completed and the asset brought into use. Other research and development expenses not meeting the criteria set out above are expensed directly.

Property, plant and equipment

Items of property, plant and equipment are recognised at their acquisition cost (purchase price plus incidental expenses and acquisition costs).

Depreciation and amortisation

Property, plant and equipment and intangible assets are depreciated or amortised on a straight-line basis, with major components identified separately where appropriate, based on the following estimated useful lives:

| | |
|---------------------------------------|-------------------------------------|
| - Patents: | Straight-line basis – 20 years |
| - Leasehold improvements: | Straight-line basis – 2 to 15 years |
| - Trademark: | Straight-line basis – 9 years |
| - Customers: | Straight-line basis – 9 years |
| - Industrial machinery and equipment: | Straight-line basis – 3 to 6 years |
| - General fittings, improvements: | Straight-line basis – 3 to 5 years |
| - Transport equipment: | Straight-line basis – 5 years |
| - Office equipment: | Straight-line basis – 3 years |
| - Computer equipment: | Straight-line basis – 2 to 3 years |

The depreciation or amortisation of fixed assets begins when they are ready for use and ceases at their disposal, scrapping or reclassification as assets held for sale in accordance with IFRS 5.

Given the nature of its assets, the Group does not recognise residual value on the items of property, plant and equipment it uses.

Depreciation and amortisation methods and useful lives are reviewed at each reporting date and revised prospectively if necessary.

Asset impairment

Depreciable and non-depreciable assets are subject to impairment testing when indications of loss of value are identified. In assessing whether there is any indication that an asset may be impaired, the Company considers the following external and internal indicators:

External indicators:

- drop in the market value of the asset (to a greater extent than would be expected solely from the passage of time or the normal use of the asset);
- significant changes with an adverse effect on the entity, either having taken place during the period or expected to occur in the near future, in the technical, economic or legal environment in which the Company operates or in which the asset is used; and
- increases in market interest rates or other market rates of return during the year when it is likely that such increases will significantly reduce the market value and/or value in use of the asset.

Internal indicators:

- existence of indication of obsolescence or physical damage of an asset unforeseen in the depreciation or amortisation schedule;
- significant changes in the way the asset is used;
- weaker-than-expected performance by the asset; and

- significant reduction in the level of cash flow generated by the asset.

If there is an indication of impairment, the recoverable amount of the asset is compared with its carrying amount. The recoverable amount is the greater of fair value less costs to sell and value in use. Value in use is the present value of future cash flows expected to flow from an asset over its estimated useful life.

The recoverable amount of assets that do not generate independent cash flows is determined by that of the cash-generating unit (CGU) to which it belongs, a CGU being the smallest homogeneous group of identifiable assets generating cash flows that are largely independent of other assets or groups of assets.

The carrying amount of an asset is its gross value less, for depreciable fixed assets, accumulated depreciation and impairment losses.

In the event of loss of value, an impairment charge is recognised in profit or loss. Impairment is reversed in the event of a change in the estimate of the recoverable value or if indications of loss of value disappear. Impairment is recognised under “Depreciation, amortisation and provisions for impairment of property, plant and equipment and intangible assets” in the income statement.

Intangible assets not subject to amortisation are tested for impairment at least once a year.

Leases

Leases in which the Group is the lessee are analysed on the basis of their substance and financial reality, and are classified either as operating leases or finance leases.

◦ Finance leases

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee. It is treated as the acquisition of an asset by the lessee, financed by a loan granted by the lessor.

The Group does not have any finance leases.

◦ Operating leases

An operating lease is a contract that does not transfer substantially all the risks and rewards incidental to ownership to the lessee. Lease payments under an operating lease are expensed on a straight-line basis over the entire lease term, even if payments are not made with the same regularity.

The lease agreement for the Company’s offices in Vélizy can be analysed as an operating lease.

A provision for restoration of leased office space to good condition has been set aside to address the contractual obligations arising from lease contracts.

Inventories

Inventories are carried at the lesser of their acquisition cost and their recoverable amount. The acquisition cost of inventories includes materials and supplies, and, where applicable, personnel expenses incurred in transforming inventories into their current state. It is calculated using the

weighted average cost method. The recoverable amount represents the estimated selling price less any marketing, sales and distribution expenses.

The gross value of goods and supplies includes the purchase price and incidental expenses.

A provision for impairment, equal to the difference between the gross value determined in accordance with the above terms and the current market price or the realisable value less any proportional selling costs, is recognised when the gross value is greater than the other stated item.

Trade receivables

Trade receivables are recognised upon transfer of ownership, which generally corresponds to delivery for sales of goods and the rendering of the service for services.

Receivables are recorded at their fair value, which corresponds most often to their nominal value. Receivables may be impaired by means of a provision, to take into account any difficulties in recovering the outstanding amounts. Provisions for impairment are determined by comparing the acquisition cost and the likely realisable value, which is defined as the present value of the estimated recoverable amounts.

Trade receivables have not been discounted, because the effect of doing so would be immaterial.

Cash and cash equivalents

Cash equivalents are held in order to meet short-term cash commitments rather than for investment or other purposes. For an investment to qualify as a cash equivalent, it must be readily convertible into a known amount of cash and be subject to an insignificant risk of change in value. Cash and cash equivalents comprise cash funds, current bank accounts and marketable securities (cash Undertakings for Collective Investment in Transferable Securities "UCITS", negotiable debt securities, etc.) that can be liquidated or sold within a very short time (generally less three months at the acquisition date) and which have a negligible risk of change in value. All such items are measured at fair value, with any adjustments are recognised in profit or loss.

Financial liabilities

Borrowings are initially recognised at fair value. They are subsequently accounted for using the amortised cost method, based on the effective interest rate. Under this principle, any arranging costs are carried in the balance sheet item relating to the relevant borrowings and amortised in financial expense over the life of the loan.

- **Compound financial instruments**

Some financial instruments contain both a liability and an equity component. This is notably the case of the Obligations Convertibles en Actions avec Bons de Souscription d'Actions (convertible bonds with warrants attached), "OCABSAs", which are bonds convertible into shares with warrants. The various components of these instruments are accounted for and presented separately according to their substance, as defined in IAS 32 "Financial Instruments: Disclosure and Presentation". The amortised cost is calculated on the basis of the liability only, once the equity component and, in this case, the embedded derivative have been separated.

- Primerdesign contingent consideration

The Company negotiated contingent consideration for the acquisition of the Primerdesign securities with the Primerdesign's former shareholders, subject to the achievement of a revenue target. The final payment will be made around June 2018.

In accordance with IAS 39, the financial liability has been remeasured at its fair value as of the balance sheet date to take into account changes in the exchange rate of sterling on the one hand and the discounting of the liability on the other hand.

- Trade payables

Trade payables are obligations to provide cash or other financial assets. They are recognised in the balance sheet when the Group becomes a party to a transaction generating liabilities of this nature. Trade and other payables are recognised in the balance sheet at fair value on initial recognition, except if settlement is to occur more than 12 months after recognition. In such cases, they are measured using the amortised cost method. The use of the effective interest rate method will result in the recognition of a financial expense in the income statement. Trade and other payables are eliminated from the balance sheet when the corresponding obligation is extinguished.

Trade payables have not been discounted, because the effect of doing so would be immaterial.

Provisions

In accordance with IAS 37 "Provisions, Contingent Liabilities and Contingent Assets", a provision is recognised when the Group has a current obligation as of the reporting date in respect of a third party and it is probable or certain that there will be an outflow of resources to this third party, without at least equivalent consideration from the said third party. Provisions for risks and charges cover the amount corresponding to the best estimate of the future outflow of resources required to settle the obligation.

The provisions are for the restoration of leased premises, an industrial relations litigation, and a long term management incentive plan.

Long Term Incentive Plan

Novacyt granted certain employees to purchase shares under a long term management incentive plan adopted on 1 November 2017. The exercise price is set at the share price on the grant date and the options will be settled in cash. The options will fully vest on the third anniversary of the grant date. The payment expenses are calculated under IFRS 2 "Share-based payments". The accounting charge is spread across the vesting period to reflect the services received and a liability recognized on the balance sheet.

Employee benefits

Group employees receive short-term benefits (paid leave, sick leave, etc.) and post-employment benefits via defined contribution and defined benefit plans (retirement bonuses, pensions, etc.).

For defined-contribution plans, payments made by the Group are expensed in the period in respect of which they are due.

Post-employment benefits relate mainly to retirement bonuses, and solely cover the Company's employees. Defined benefits are the subject of a calculation performed by an actuary, based on the following parameters:

- retirement at the age of 64 for managers;
- retirement at the age of 62 for non-managers;
- wage increases at a rate of 3% per annum, i.e. the long-term inflation rate plus 1%;
- discount rate of 1.5% in 2016 and 1.4% in 2017, in line with the average rate of private sector bonds issued in euros (blue chip) for durations equivalent to the commitments in question;
- staff turnover based on the Group's actual experience: projection of 0.5 resignations over the next 12 months;
- life expectancy based on the Insee 2012-2014 mortality table; and
- Average rate of social security contributions of 41.10% in 2016 and 40.16% in 2017.

Rights expressed as months of wages resulting from the application of national agreements and the "Pharmaceuticals, pharmacy, veterinary products: production & trade" collective agreement. Retirement benefits are expensed when due. The provision for this expense is reversed in the same period.

Discontinued operations and assets held for sale

Discontinued operations and assets held for sale are restated in accordance with IFRS 5. There were no discontinued operations or assets held for sale during the periods presented.

Consolidated revenue

The applicable standard is IAS 18 "Revenue". Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT and other sales-related taxes.

◦ Novacyt S.A.'s activity

Revenue from "sales of goods" consists primarily of the sale of machines (automated equipment, accessories and spare parts to distributors and industrial partners or sold directly from laboratories or hospitals). Revenue is recognised upon transfer of the risks and rewards incidental to ownership, which corresponds to the date on which the machines are delivered to the distributor or the end customer in the case of direct sales.

Revenue from "production sold" is the activity involving the distribution of consumables such as bottles and settling systems.

◦ The activity of Lab21 and its subsidiaries

Lab21 provides laboratory-based diagnostic services. Revenue is recognised when the service is rendered (diagnosis made).

Lab21's subsidiaries manufacture and sell reagents and kits for bacterial and blood tests.

Revenue is recognised upon delivery of products sold and, where appropriate, after formal customer acceptance.

- **Primerdesign's activity**

Primerdesign designs, manufactures and distributes test kits for certain diseases in humans, animals and food products. These kits are intended for laboratory use and rely on “polymerase chain reaction” technology. Revenue is recognised when the test kits are sold. The company accounts for the sale of the product upon delivery.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Current and deferred tax

A deferred tax liability is recognised on timing differences related to accelerated depreciation. It only covers Primerdesign.

Government subsidies

Directly taxed industrial and commercial companies that record research expenditure are entitled to a tax credit in France, which is the case for Novacyt S.A. The tax credit is calculated per calendar year and deducted from the tax payable by the company in respect of the year during which research expenses were incurred. Tax credits that cannot be deducted from tax expense are refunded to the Company. The granting of the tax credit is independent of the Group's tax position. The Group has accordingly elected to treat it as a subsidy. It appears in an item covering subsidies in the income statement.

The Lab21 subgroup companies and Primerdesign also benefit from tax credits for their research activities. Such tax credits are treated as subsidies in the income statement.

In France, the law amending the 2012 budget introduced a new tax credit from 1 January 2013, known as the competitiveness and employment tax credit (*crédit d'impôt pour la compétitivité et l'emploi* – CICE). Its calculation is based on a portion of the salaries paid to employees of French companies. It is paid by the state, regardless of the position of the entity in respect of corporation tax. It has been decided to classify this income as a reduction in personnel expenses.

Loss per share

The Group reports basic and diluted losses per common share. Basic losses per share is calculated by dividing the profit attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period.

Diluted losses per share is determined by adjusting the profit attributable to common shareholders by the weighted average number of common shares outstanding, taking into account the effects of all potential dilutive common shares, including options.

Exceptional items

Exceptional items are those costs or incomes that in the view of the Board of Directors, require separate disclosure by virtue of their size or incidence, and are charged/credited in arriving at operating profit in the historical financial information.

The exceptional items in the historical financial information relate to the costs in relation to the acquisitions of Lab21 and Primerdesign, the impairment of goodwill in relation to Lab21 and other one-off income and expenses as detailed in note 13.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATE UNCERTAINTY

The preparation of the financial information in accordance with IFRS requires management to exercise judgement on the application of accounting policies, and to make estimates and assumptions that affect the amounts of assets and liabilities, and income and expenses. The underlying estimates and assumptions, made in accordance with the going concern principle, are based on past experience and other factors deemed reasonable in the circumstances. They serve as the basis for the exercise of judgement required in determining the carrying amounts of assets and liabilities that cannot be obtained directly from other sources. Actual amounts may differ from these estimates. The underlying estimates and assumptions are reviewed continuously. The impact of changes in accounting estimates is recognised in the period of the change if it affects only that period, or in the period of the change and subsequent periods if such periods are also affected.

Critical accounting judgements in applying the Group's accounting policies

The following is a critical judgement, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the historical financial information.

- **Discount rate used to determine the carrying amount of the Group's defined benefit obligation**

The Group's defined benefit obligation is discounted at a rate set by reference to market yields at the end of the reporting period on high quality corporate bonds. Significant judgement is required when setting the criteria for bonds to be included in the population from which the yield curve is derived. The most significant criteria considered for the selection of bonds include the issue size of the corporate bonds, quality of the bonds and the identification of outliers which are excluded.

The areas where assumptions and estimates are material in relation to the historical financial information are the measurement of goodwill resulting from the Company's acquisition of the

Lab21 subgroup and Primerdesign (see note 18), the carrying amounts and useful lives of intangible assets (see note 19), deferred taxes (see note 22), trade receivables (see note 24) and provisions for risks and other provisions related to the operating activities (see note 29).

Key sources of estimation uncertainty

The Group has a number of key sources of estimation uncertainty as listed below. Of these items only the measurement of goodwill, the measurement of useful lives of intangible assets, measurement of fair value of assets and liabilities in business combinations, recognition of deferred taxes and the value trade and other receivables are considered likely to give material adjustment. Others are areas of estimates not material.

- **Measurement of goodwill**

Goodwill is tested for impairment on an annual basis. The recoverable amount of goodwill is determined mainly on the basis of forecasts of future cash flows.

The total amount of anticipated cash flows reflects management's best estimate of the future benefits and liabilities expected for the relevant cash-generating unit (CGU).

The assumptions used and the resulting estimates sometimes cover very long periods, taking into account the technological, commercial and contractual constraints associated with each CGU.

These estimates are mainly subject to assumptions in terms of volumes, selling prices and related production costs, and the exchange rates of the currencies in which sales and purchases are denominated. They are also subject to the discount rate used for each CGU.

The value of the goodwill is tested whenever there are indications of impairment and reviewed at each annual closing date or more frequently should this be justified by internal or external events.

The carrying amount of goodwill at the balance sheet and related impairment loss over the periods are shown below:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|------------------------|-----------------------------------|-----------------------------------|
| Goodwill Lab21 | 19,042 | 19,042 |
| Impairment of goodwill | - 9,786 | - 9,786 |
| Net value | 9,256 | 9,256 |
| Goodwill PrimerDesign | 7,210 | 7,210 |
| Impairment of goodwill | - | - |
| Net value | 7,210 | 7,210 |
| Total Goodwill | 16,466 | 16,466 |

- **Measurement and useful lives of intangible assets**

Other intangible assets (except for goodwill) are considered to have a finite economic useful life. They are amortised over their estimated useful lives that are reviewed at each reporting date. In the event of impairment, an estimate of the asset's recoverable amount is made.

The main intangible assets requiring estimates and assumptions are the Primerdesign trademark and the customer relationships attached to Primerdesign.

The value of the intangible assets is tested whenever there are indications of impairment and reviewed at each annual closing date or more frequently should this be justified by internal or external events.

- **Trademark**

The value of this asset was determined by discounting the cash flows that could be generated by licensing the trademark, estimated as a percentage of revenue derived from information available on comparable assets.

This asset is amortised on a straight-line basis over a period of nine years, estimated as its useful life. It is also tested for impairment. Its recoverable amount is determined on the basis of forecasts of future cash flows. The total amount of anticipated cash flows reflects management's best estimate of the future benefits and liabilities expected from the operation of the trademark. The assumptions used and the resulting estimates are subject to discount rate, percentage of revenue and useful life assumptions.

The carrying amount of the Primerdesign trademark at 31 December 2017 is €540,000 after an amortisation of € 119,000 recognised in 2016 and 2017.

- **Customer relationships**

The value of this asset was determined by discounting the additional margin generated by customers after remuneration of the contributing assets.

Customer relationships are amortised on a straight-line basis over a period of nine years, estimated as its useful life. It is also tested for impairment. Its recoverable amount is determined on the basis of forecasts of future cash flows over an estimated period of time. The total amount of anticipated cash flows reflects management's best estimate of the future benefits and liabilities expected from customer relationships.

The assumptions used and the resulting estimates are subject to assumptions in respect of the discount rate, additional margin generated by customers after remuneration of contributing assets and useful lives.

The carrying amount of the Primerdesign customer relationship at 31 December 2017 is € 3,012,000 after amortisation of € 664,000 recognised in 2016 and 2017.

- **Business combinations**

As part of the acquisitions of Lab21 and Primerdesign, the identifiable assets and liabilities acquired, including intangible assets, were recognised at their fair value in accordance with IFRS 3 'Business combinations'. The determination of the fair values on acquired assets and liabilities is based to a considerable extent, on management's estimation.

- **Deferred taxes**

Deferred tax assets are only recognised only insofar as it is probable that the Group will have future taxable profits against which the corresponding temporary difference can be offset.

Deferred tax assets are reviewed at each balance sheet date and impaired in the event of a risk of non-recovery.

For deferred tax assets on tax loss carry forwards, the Group uses a multi-criteria approach that takes into account the recovery timeframe based on the strategic plan, but which also factors in the strategy for the long-term recovery of tax losses in each country.

On the basis of the analysis performed, considering that the deferred tax losses could not be used within a reasonable period of time, the Group has decided not to recognise any deferred tax asset.

- **Trade and other receivables**

An estimate of the risks of non-receipt based on commercial information, current economic trends and the solvency of individual customers is made in order to determine the need for impairment on a customer-by-customer basis.

- **Provisions**

The carrying amount of provisions as at 31 December 2016 and 2017 are as per the table below:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Retirement benefit obligations | 14 | 14 |
| Provisions for restoration of premises | 140 | 89 |
| Long term management incentive plan | 18 | - |
| Provisions for litigation | 50 | 66 |
| Total Provisions | 222 | 169 |

- **Pensions and other post-employment benefits**

The Group's assessment of the assets and liabilities relating to pension liabilities and other post-employment commitments requires the use of statistical data and other parameters designed to anticipate future developments. These parameters include actuarial assumptions such as the discount rate, the rate of wage increases, the retirement date, and the turnover and mortality rates. Actuarial calculations are performed by actuaries independently of the Group. At the date of preparation of the financial information, the Group considers that the assumptions used to evaluate these commitments are appropriate and justified.

- **Provisions for restoration of premises**

The amount of provisions is determined by management on the basis of available information, experience and, in some cases, expert estimates.

When these obligations are settled, the amount of the costs or penalties that are ultimately incurred or paid may differ significantly from the amounts initially provisioned and regularly reviewed, and may therefore have a significant effect on the Group's future results.

To the Group's knowledge, there is no indication to date that the parameters adopted as a whole are not appropriate, and there are no known developments that could significantly affect the amounts of provisions.

- **Litigations**

Certain of the Group's subsidiaries may be party to regulatory, judicial or arbitration proceedings that, in view of the relating uncertainties, may have a material impact on the Group's financial position.

The Group's management lists current proceedings, regularly reviews their progress and assesses the need to establish appropriate provisions or to change their amount if the occurrence of events during the course of the proceedings necessitates a reassessment of the risk. Internal or external advisors are involved in determining the costs that may be incurred.

The decision to set aside provisions to cover a risk and the amount of such provisions are based on the risk assessment on a case-by-case basis, management's assessment of the unfavourable nature of the outcome of the proceeding in question (probability) and the ability to reliably estimate the associated amount.

5. REVENUE

The table below shows revenue from ordinary operations:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|----------------------|-----------------------------------|-----------------------------------|
| Manufactured goods | 12,520 | 9,453 |
| Services | 1,021 | 870 |
| Traded goods | 1,045 | 417 |
| Other | 368 | 336 |
| Total Revenue | 14,954 | 11,076 |

A portion of the Group's revenue is generated in foreign currencies (particularly in sterling). The group has not hedged against the associated currency risk.

The breakdown of revenue by operating segment and geographic area is presented in note 6.

6. OPERATING SEGMENTS

Segment reporting

Pursuant to IFRS 8, an operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the Group's chief executive and the managers of the various entities to make decisions regarding the allocation of resources to the segment and to assess its performance;
- for which discrete financial information is available.

The Group has identified three operating segments, whose performances and resources are monitored separately:

- **Cytology**

This segment corresponds to the sale of machines (automated equipment, accessories and spare parts to distributors and partners, or directly to laboratories or hospitals) and consumables (mainly bottles and storage systems) in the field of cytology. This is the Group's core business.

- **Diagnostics**

This segment corresponds to diagnostic activities in laboratories, and the manufacturing and distribution of reagents and kits for bacterial and blood tests. This is the activity conducted by Lab21 and its subsidiaries.

- **Molecular testing**

This segment represents the activities of recently acquired Primerdesign, which designs, manufactures and distributes test kits for certain diseases in humans, animals and food products. These kits are intended for laboratory use and rely on "polymerase chain reaction" technology.

The Chief Operating Decision Maker is the Chief Executive Officer.

Reliance on major customers

The Group is not dependent on a particular customer, there are no customers generating sales accounting for over 10% of revenue.

Breakdown of revenue by operating segment and geographic area

- At 31 December 2017

| Amounts in '000 € | Cytology | Diagnostics | Molecular products | Total |
|--------------------------|-----------------|--------------------|---------------------------|---------------|
| Geographical area | | | | |
| Africa | - | 299 | 363 | 662 |
| Europe | 1,205 | 3,347 | 2,531 | 7,083 |
| Asia-Pacific | 761 | 1,608 | 1,656 | 4,025 |
| America | - | 661 | 1,192 | 1,854 |
| Middle East | 239 | 739 | 352 | 1,330 |
| Revenue | 2,204 | 6,655 | 6,095 | 14,954 |

◦ At 31 December 2016

| Amounts in '000 € | Cytology | Diagnostics | Molecular products | Total |
|--------------------------|--------------|--------------|--------------------|---------------|
| Geographical area | | | | |
| Africa | - | 376 | 249 | 625 |
| Europe | 1,095 | 3,217 | 1,620 | 5,932 |
| Asia-Pacific | 326 | 1,555 | 511 | 2,392 |
| America | - | 542 | 690 | 1,232 |
| Middle East | 171 | 506 | 218 | 895 |

Segment assets and liabilities are not reported to the Chief Operating Decision Maker on a segmental basis and are therefore not disclosed.

7. COST OF SALES

| Amounts in '000 € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|---|--------------------------------|--------------------------------|
| Purchases and movement in inventories of raw materials and other supplies | 3,949 | 3,074 |
| Purchases and movement in inventories of traded goods | 576 | 291 |
| Movement in finished goods and work in progress | - 59 | 98 |
| Change in stock provision | - 17 | 15 |
| Non-stock items and supplies | 18 | 140 |
| Freight costs | 165 | 143 |
| Direct labour | 1,331 | 1,168 |
| Other | 69 | 67 |
| Total | 6,030 | 4,996 |

8. SALES, MARKETING AND DISTRIBUTION EXPENSES

| Amounts in '000 € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|---|--------------------------------|--------------------------------|
| Remuneration of intermediaries and fees | 475 | 430 |
| Advertising expenses | 238 | 251 |
| Distribution expenses | 326 | 278 |
| Employee compensation and social security contributions | 1,557 | 1,642 |
| Travel and representation expenses | 241 | 210 |
| Other sales and marketing expenses | 411 | 359 |
| Total | 3,249 | 3,170 |

9. RESEARCH AND DEVELOPMENT EXPENSES

| Amounts in '000 € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|---|--------------------------------|--------------------------------|
| Employee compensation and social security contributions | 705 | 693 |
| Other expenses | 115 | 101 |
| Total | 819 | 794 |

10. GENERAL AND ADMINISTRATIVE EXPENSES

| Amounts in '000 € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|--|--------------------------------|--------------------------------|
| Purchases of non-stored raw materials and supplies | 232 | 166 |
| Subcontracting | 247 | 137 |
| Lease and similar payments | 468 | 427 |
| Maintenance and repairs | 149 | 170 |
| Insurance premiums | 152 | 133 |
| Legal and professional fees | 1,208 | 1,098 |
| Travel and entertainment expenses | 363 | 327 |
| Banking services | 61 | 71 |
| Employee compensation and social security contributions | 2,430 | 1,913 |
| Allowances to and reversals of depreciation, amortisation and provisions | 1,089 | 840 |
| Other general and administrative expenses | 716 | 334 |
| Total | 7,114 | 5,616 |

11.EMPLOYEE BUSINESS UNIT SPLIT

The breakdown of employees (including executive directors) between the three segments as of the reporting date is as follows:

| | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|--------------------|-----------------------------------|-----------------------------------|
| Cytology | 15 | 13 |
| Diagnostics | 62 | 61 |
| Molecular products | 38 | 28 |
| Total | 115 | 102 |

12.GOVERNMENTAL SUBSIDIES

Directly taxed industrial and commercial companies that record research expenditure are entitled to a tax credit in France, which is the case of Novacyt S.A. Other companies within the Group, located chiefly in the United Kingdom, benefit from a similar scheme. The tax credit is calculated per calendar year and deducted from the tax payable by the company in respect of the year during which research expenses were incurred. Tax credits that cannot be deducted from tax expense are refunded to the company. The granting of the tax credit is independent of the Group's tax position.

This tax credit is treated as an operating subsidy or, more exactly, as a governmental subsidy.

| Amounts in '000 € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|----------------------|-----------------------------------|-----------------------------------|
| Government subsidies | 368 | 427 |
| Total | 368 | 427 |

13.COSTS RELATED TO ACQUISITIONS

On 12 May 2016, the Group took control of the British company Primerdesign, through the acquisition of 100% of its shares by Novacyt S.A. The costs related to the acquisition amounted to 508 k€ and are the expenses for the acquisition of the shares of Primerdesign.

14. OTHER OPERATING INCOME AND EXPENSES

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Other operating income | 16 | 20 |
| Other operating income | 16 | 20 |
| Provision for litigation with employees | -171 | - |
| Restructuring expenses | -78 | -348 |
| Set-up China structure | - | -107 |
| IFRS transition expenses | - | -95 |
| IPO preparation | -1,631 | -288 |
| Relocation expenses | -176 | -57 |
| Other expenses | -141 | -5 |
| Other operating expenses | -2,197 | -900 |

The restructuring expenses of €348,000 in the year ended 31 December 2016 and €78,000 in the period ended 31 December 2017 relate to indemnities to employees in relation to restructuring taken place during this period.

The IPO preparation expenses of €288,000 in the year ended 31 December 2016 and €1,631,000 in the period ended 31 December 2017 relate to the fees incurred in preparation for the company's AIM listing in 2017.

15. FINANCIAL INCOME AND EXPENSE

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|-----------------------------------|-----------------------------------|-----------------------------------|
| Exchange gains | 287 | 416 |
| Change in fair value of options | 140 | 178 |
| Reversals of financial provisions | - | 110 |
| Other financial income | 39 | 32 |
| Financial income | 466 | 736 |
| Interest on loans | -1,202 | -1,047 |
| Exchange losses | -251 | -565 |
| Contingent consideration | -386 | -235 |
| Other financial expense | - | -136 |
| Financial expense | -1,839 | -1,983 |

Financial Income:

Exchange gains

Exchange gains in the year ended 31 December 2017 resulted from recurring operations and, in the amount of €156,000, from variations in sterling on the contingent consideration liability between the Primerdesign acquisition date and the reporting date.

Change in fair value of options

The company's liability in relation to Primerdesign warrants was first accounted for in June 2016 at the original EUR 444K valuation. The December 2016 balance relates to the revaluation of Primerdesign warrants liability from €444,000 to €266,000.

The December 2017 balance relates to the revaluation of the Primerdesign warrants liability from €266,000 to €126,000.

Financial Expense:

Interest on loans

The interest charge is mainly related to the Kreos and Vatel bond notes.

Exchange Losses

Exchange losses in 2016 and 2017 were mainly those recorded by the British company Lab21 Ltd on its operations.

For 2016, the loss is related to exchange loss on the monthly revaluation of the Novacyt loan in Lab21 Ltd's books, with the loan balance growing from £2.9m in January 2016 to £3.7m in December 2016.

For 2017, £172,000 (€196,000) related to exchange loss on the monthly revaluation of the Novacyt loan in Lab21 Ltd's books, with the loan balance growing from £3.6m in January 2017 to £5.6m December 2017.

Contingent consideration:

The contingent consideration in 2016 and 2017 relate to the discounting of the contingent consideration liability in favour of Primerdesign shareholders.

16. INCOME TAX

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|--------------------------------------|-----------------------------------|-----------------------------------|
| Corporation tax: | | |
| Current year | 3 | -2 |
| Adjustment in respect of prior years | - | - |
| Deferred tax | - | - |

| | | |
|---|----------|-----------|
| Total tax (expense) / income in the year | 3 | -2 |
|---|----------|-----------|

The charge for the year / period can be reconciled to the profit in the income statement as follows:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|--|--------------------------------------|--------------------------------------|
| Result / (Loss) before taxation | -5,444 | -5,708 |
| Tax at the French corporation tax rate (2017: 33.33%, 2016: 33.33%) | -1,815 | -1,902 |
| Impact of the accelerated tax depreciation | 17 | 9 |
| Effect of non-deductible expenses | -523 | 67 |
| Other timing differences | 140 | -145 |
| Tax losses utilised | | - |
| Research tax credits | -191 | -123 |
| Losses not recognised for deferred tax | 2,082 | 1,978 |
| Effect of different tax rate of subsidiaries operator of other jurisdictions | 293 | 114 |
| Total tax expense / income for the year | 3 | -2 |

As at 31 December 2017 the Group has unused tax losses of €55,963,000 (2016: €49,585,000) available for offset against future profits. No deferred tax asset has been recognised in respect of such losses since visibility as to when taxable profits are available is insufficient.

The main consolidated companies do not pay income taxes, but receive tax credits for their research and development expenditures. These tax credits are recorded as “governmental subsidies” in the consolidated income statement.

17. LOSS PER SHARE

Loss per share is calculated based on the weighted average number of shares outstanding during the period. Diluted loss per share is calculated based on the weighted average number of shares outstanding and the number of shares issuable as a result of the conversion of dilutive financial instruments.

| Amounts in 000' € | Year-ended 31 December 2017 | Year-ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Net loss attributable to owners of the company | -5,442 | -5,711 |
| Impact of dilutive instruments | - | - |
| Net loss attributable to owners of the company | -5,442 | -5,711 |
| Weighted average number of shares | 23,075,634 | 12,086,038 |
| Impact of dilutive instruments | - | - |
| Weighted average number of diluted shares | 23,075,634 | 12,086,038 |
| Earnings per share (in euros) | -0.24 | -0.47 |
| Diluted earnings per share (in euros) | -0.24 | -0.47 |

Pursuant to IAS 33, options whose exercise price is higher than the value of the Company's security were not taken into account in determining the effect of dilutive instruments.

18. GOODWILL

Goodwill is the difference recognised, upon consolidation of a company, between the fair value of the purchase price of its shares and the net assets acquired and liabilities assumed, measured in accordance with IFRS 3.

| | € |
|---|----------------------|
| Cost | |
| At 1 January 2016 | 19,042 |
| Recognised on acquisition of a subsidiary | <u>7,210</u> |
| At 31 December 2016 | 26,252 |

| Eliminated on disposal of a subsidiary | - |
| At 31 December 2017 | <u>9,786</u> |
| Carrying value at 31 December 2016 | 16,466 |
| Carrying value at 31 December 2017 | <u><u>16,466</u></u> |

◦ Primerdesign

Primerdesign entered the scope of consolidation on 12 May 2016. Goodwill totalling €7,210,000 has been identified:

| | |
|---|----------|
| Components of the purchase price of securities: | |
| Value of Novacyt S.A. securities tendered | €3,430k |
| Option to purchase Novacyt S.A. securities | €445k |
| Cash paid | €7,081k |
| Contingent consideration forecast to be payable in 2017 and 2018 | €2,610k |
| Total purchase price | €13,566k |
| Value at the date of acquisition of assets and liabilities on the Primerdesign balance sheet: | €2,021k |
| Value of the Primerdesign customer base: | €3,676k |
| Value of the Primerdesign trademark: | €660k |
| Goodwill | €7,210k |

The contingent consideration of €2,610,000 is due in the event of the achievement of revenue targets; a first payment was made in November 2017 for €1,747,000 and the final payment is currently estimated to be paid in June 2018. The value of this liability was determined based on the best estimates of management at the date of the acquisition.

In accordance with IFRS 3, the Company's acquisition of Primerdesign resulted in the recognition of assets consisting of "customer relationships" and the trademark separately from goodwill. These assets fit the definition posed by the IASB's conceptual framework, which cites resources controlled by the company as the result of past transactions and from which the company expects to obtain future economic benefits.

The value of "customer relationships" was determined by discounting the additional margin generated by customers after remuneration of the contributing assets.

The value of the trademark was determined by discounting the cash flows that could be generated by licensing the Primerdesign trademark, estimated as a percentage of revenue derived from information available on comparable assets.

IFRS 3 provides for a period of 12 months from the takeover to complete the identification and measurement of the fair value of assets acquired and liabilities assumed. Therefore, since May 2017, the gross amount of goodwill is no longer subject to adjustment.

◦ **Lab21**

All the shares of the Lab21 Ltd subgroup were acquired on 30 June 2014. Goodwill totalling €19,042,000 has been identified:

| | |
|---|------------------|
| - Purchase price of securities: | €18,847k |
| - Lab21's adjusted equity as of 30 June 2014: | negative €1,952k |
| - Goodwill transferred from Lab21: | €2,147k |
| - Goodwill: | €19,042k |

The deadline for the identification and measurement of assets and liabilities has expired. The gross amount of goodwill can therefore no longer be changed.

Goodwill is subject to impairment testing annually, and whenever there is an indication of loss of value. To perform this testing, goodwill is deemed to have been assigned to the subgroup of the British companies comprising Lab21 and its subsidiaries, housed in the "Diagnostics" operating segment.

The goodwill impairment testing performed on 31 December 2015 resulted in a goodwill impairment in the amount of €9,786,000, bringing goodwill to a recoverable amount of €9,256,000.

The impairment testing of the CGU as of 31 December 2017 was conducted by the DCF (discounted cash flow) method, with the key assumptions as follows:

- Five-year business plan
- Extrapolation of cash flows beyond five years based on a growth rate of 1.5%.
- Discount rate corresponding to the expected rate of return on the market for a similar investment, regardless of funding sources, equal to 15%.

The implementation of this approach demonstrated that the value of the Enterprise Value amounted to €10,115,000, which is greater than the carrying amount of this asset. As such, no impairment was recognised in the year ended 31 December 2017.

Sensitivity of the value derived from the Discounted Cash Flow model to change in the assumptions used for Lab21 acquisition

| | | Terminal growth rates | | | | | | |
|------------|--------|-----------------------|--------|--------|--------|--------|--------|--------|
| | | 0.0% | 0.5% | 1.0% | 1.5% | 2.0% | 2.5% | 3.0% |
| WACC rates | 10,115 | | | | | | | |
| | 12.5% | 11,583 | 11,886 | 12,198 | 12,535 | 12,902 | 13,303 | 13,745 |
| | 13.0% | 11,108 | 11,383 | 11,666 | 11,969 | 12,298 | 12,657 | 13,051 |
| | 13.5% | 10,667 | 10,918 | 11,175 | 11,449 | 11,746 | 12,068 | 12,420 |
| | 14.0% | 10,257 | 10,487 | 10,720 | 10,970 | 11,238 | 11,529 | 11,844 |
| | 14.5% | 9,875 | 10,086 | 10,299 | 10,526 | 10,770 | 11,033 | 11,317 |
| | 15.0% | 9,518 | 9,712 | 9,907 | 10,115 | 10,337 | 10,575 | 10,833 |
| | 15.5% | 9,184 | 9,362 | 9,542 | 9,732 | 9,935 | 10,152 | 10,386 |
| | 16.0% | 8,871 | 9,035 | 9,200 | 9,375 | 9,561 | 9,759 | 9,972 |
| 16.5% | 8,576 | 8,728 | 8,881 | 9,042 | 9,212 | 9,394 | 9,589 | |

This sensitivity table shows the difference in the recoverable amounts of the Enterprise Value depending on change in the discount rate (WACC) and the perpetual growth rate. Our sensitivity analysis shows that an increase of 1 percent in the WACC would result in the need to impair the Lab21 goodwill.

19. OTHER INTANGIBLE ASSETS

| Amounts in '000 € | At 1 January 2017 | Additions | Disposals | Reclass. | Charge for the period | Effect of foreign exchange rate changes | At 31 December 2017 |

21. NON-CURRENT FINANCIAL ASSETS

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Rental deposits | 131 | 24 |
| Liquidity contract | 9 | 20 |
| Guaranty deposit - Distributor in China | 94 | 94 |
| Other | 4 | - |
| Total | 238 | 138 |

22. DEFERRED TAX ASSETS

Most of Group's major companies has tax loss carry forwards. Their period of use is unlimited. No deferred tax assets have been recognised in the accounts since visibility as to when it will be possible to utilise the carry forwards against taxable profits is insufficient.

The following table shows the deferred tax assets not presented in the balance sheet.

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Novacyt | 6,975 | 5,899 |
| Lab21 | 4,698 | 4,346 |
| Healthcare | 1,172 | 1,041 |
| Microgen | 47 | 33 |
| Total unrecognised deferred tax assets | 12,892 | 11,319 |

23. INVENTORIES AND WORK IN PROGRESS

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|-------------------|-----------------------------------|-----------------------------------|
| Raw materials | 931 | 820 |
| Work in progress | 135 | 173 |
| Finished goods | 562 | 489 |
| Traded goods | 316 | 152 |
| Stock provisions | -2 | -20 |
| Total | 1,942 | 1,614 |

The cost of inventories recognised as an expense includes €2,000 (Dec. 2016: €20,000) in respect of write-downs of inventory to net realisable value.

24. TRADE AND OTHER RECEIVABLES

- Trade and other receivables

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Trade and other receivables | 3,111 | 2,072 |
| Allowance for doubtful debts | - | 140 |
| Accrued income | 117 | 89 |
| Tax receivables (excluding income tax) | 489 | 284 |
| Other receivables | 180 | 51 |
| Total Trade and other receivables | 3,804 | 2,356 |

- Amount receivable from the sale of goods can be analysed as follows:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Amount receivable not past due | 1,021 | 1,121 |
| Amount receivable past due but not impaired | 1,998 | 811 |
| Amount receivable impaired (gross) | 92 | 140 |
| Less impairment | -92 | -140 |
| Total | 3,019 | 1,932 |

- Ageing of past due but not impaired receivables

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Not more than 3 months | 1,707 | 579 |
| More than 3 months but not more than 6 months | 159 | 97 |
| More than 6 months but not more than 1 year | 37 | 80 |
| More than 1 year | 94 | 55 |
| Total | 1,998 | 811 |

- Ageing of past due and impaired receivables

| Amounts in '000 € | Year ended 31 December 2017 | Year-ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Balance at the beginning of the period | 140 | 174 |
| Impairment losses recognised | 86 | 3 |
| Amounts written off during the year as uncollectible | -5 | - |
| Amounts recovered during the year | -124 | - |
| Impairment losses reversed | - | -15 |
| Foreign exchange translation gains and losses | -5 | -22 |
| Balance at the end of the period | 92 | 140 |

25. PREPAYMENTS

| Amounts in 000' € | Year ended 31 December 2017 | Year-ended 31 December 2016 |
|--------------------------|-----------------------------------|-----------------------------------|
| Issuance costs - current | - | 53 |
| Prepaid expenses | 537 | 260 |
| Total | 537 | 313 |

The 2017 balance includes a €195,000 prepayment for Q16 instruments in the Primerdesign business in the UK to ensure that the expected 2018 sales demand is met.

26. CASH AND CASH EQUIVALENTS

The net cash available to the Group includes the following items:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|----------------------------------|-----------------------------------|-----------------------------------|
| Money market deposits | 13 | 13 |
| Available cash | 4,332 | 2,843 |
| Cash and cash equivalents | 4,345 | 2,856 |

27. BORROWINGS

The following tables show borrowings and financial liabilities carried at amortised cost.

◦ Maturities as of 31 December 2017

| Amounts in '000 € | Amount due for settlement within 12 months | Amount due for settlement after 12 months | Total |
|------------------------------------|--|---|--------------|
| Bond notes | 2,664 | 1,028 | 3,692 |
| Bank borrowings | 66 | 87 | 153 |
| Accrued interest on borrowings | 49 | - | 49 |
| Total financial liabilities | 2,778 | 1,115 | 3,894 |

◦ Maturities as of 31 December 2016

| Amounts in '000 € | Amount due for settlement within 12 months | Amount due for settlement after 12 months | Total |
|------------------------------------|--|---|--------------|
| Bond notes | 3,017 | 2,603 | 5,620 |
| Bank borrowings | 67 | 153 | 220 |
| Accrued interest on borrowings | 415 | - | 414 |
| Total financial liabilities | 3,499 | 2,756 | 6,254 |

◦ Change in borrowings and financial liabilities in 2017

| Amounts in '000 € | At 31 December 2016 | Increase | Repayment | Conversion | At 31 December 2017 |
|------------------------------------|---------------------------|--------------|----------------|---------------|---------------------------|
| Bond notes | 5,620 | 2,664 | - 3,227 | -1,365 | 3,692 |
| Bank borrowings | 220 | - | - 67 | | 153 |
| Accrued interest on borrowings | 414 | 49 | -414 | | 49 |
| Total financial liabilities | 6,254 | 2,713 | - 3,708 | -1,365 | 3,894 |

◦ Change in borrowings and financial liabilities in 2016

| Amounts in 000' € | At 31 December 2015 | Increase | Repayment | At 31 December 2016 |
|------------------------------------|---------------------------|--------------|---------------|---------------------------|
| Bond notes | 3,284 | 4,221 | -1,885 | 5,620 |
| Bank borrowings | 32 | 250 | -62 | 220 |
| Accrued interest on borrowings | 57 | 429 | -72 | 414 |
| Total financial liabilities | 3,373 | 4,900 | -2,019 | 6,254 |

As of 31 December 2016, the Group's financing primarily comprised:

- A bond subscribed by Kreos Capital IV Ltd in the amount of €3.5 million, issued on the 15th July 2015, with an interest rate of 12.5% for a term of three years, with the first repayment due on 1 February 2016;
- A second bond subscribed by Kreos Capital V Ltd in the amount of €3.0 million issued on 12 May 2016, with an interest rate of 12.5% for a term of three years, with the first repayment due on 1 November 2016.

As of 31 December 2017, the Group's financing primarily comprised:

- A bond subscribed by Kreos Capital IV Ltd in the amount of €3.5 million on 15 July 2015;
- A bond subscribed by Kreos Capital V Ltd in the amount of €3 million issued on 12 May 2016;
- A convertible bond subscribed by Vatel in the amount of €1.5 million issued on 31 March 2017, with an interest rate of 7.9 % for a term of 3 years. The Vatel Bonds are convertible into Shares only where the Company fails to comply with its payment obligations under the agreement within 15 days of receipt of a notice of an event of default.

In addition to the loans above, the Group financed its short-term working capital needs through convertible notes issued with warrants. On 31 July 2015, the Board of Directors approved the principle of the issue of 20 OCABSA warrants (the "Warrants") exercisable at the discretion of the Company over the subsequent 36 months, in several successive tranches representing bond debt in a maximum amount of €5 million, as part of a private placement subscribed by the YA Global Master SPV Ltd private equity fund.

The convertible bonds (Obligations Convertibles en Actions – "OCA") are issued at par, i.e. €10,000 each, with an interest rate of 2% per annum, and have a maturity of nine months from issue. The Company must redeem unconverted OCAs upon maturity.

The bond debt represented by the OCAs (par value of an OCA taking into account, if applicable, the corresponding interest) can be converted into shares at the request of the holder, on the basis of the following conversion rate: 95% of the lowest of the five (5) average daily prices of the the Company's share weighted by volume (as reported by Bloomberg) immediately preceding the request for the conversion of the relevant OCA, without its being possible for this amount to be lower than the par value of the the Company's share, i.e. 1/15th of a euro. The OCAs are transferable subject to the Company prior written consent.

The number of equity warrants to be issued upon each issuance of OCABSAs is that which will be multiplied by the exercise price of the equity warrants (determined under the terms set out

below). The amount received will be equal to half of the par value of the 25 OCAs issued, i.e. €125,000.

The equity warrants will be immediately detached from the OCAs and will be transferable from issue. They may be exercised from issue until the 36th month inclusive following their issue date (the "Exercise Period"). Each equity warrant will entitle the holder thereof, during the Exercise Period, to subscribe for one (1) new Novacyt S.A. share.

The exercise price of the equity warrants is equal to 110% of the closing price of the Novacyt share on the day immediately preceding the Warrant exercise request date giving rise to the issuance of the OCAs from which the equity warrants will be detached (or the issue date of the OCAs for the first tranche of OCAs, i.e. 31 July 2015).

The OCAs and the warrants will not be the subject of a request for admission to trading on Alternext Paris, and as such will not be listed.

In accordance with IAS 32, the first tranche of the bond issued on 31 July in the amount of €250,000 (tranche 1) breaks down as follows:

- the conversion option, treated in this case as an embedded derivative under IAS 32, worth €13,158, was recorded at "fair value through profit or loss" in current borrowings,
- the equity warrants, valued at €9,831 overall, were treated as equity instruments and accounted for net of tax, i.e. €6,554,
- lastly, the residual amount, €227,011, was recognised at amortised cost under current financial liabilities.

Between 1 January 2016 and 31 December 2016, the Company exercised 8 Warrants (OCABSA warrants), each resulting in the issuance of 25 OCABSAs in a total amount of €250,000. In accordance with IAS 32, each tranche of bonds issued during the year has been broken down in the same way as the first instalment and in identical amounts. Issuance is as follows:

- Issuance of the second tranche on 1 March 2016 (tranche 2): all OCABSAs were converted during the year;
- Concurrent issuance of the third and fourth tranches on 18 April 2016 (tranches 3 and 4): all OCABSAs were converted during the year;
- Concurrent issuance of the fifth and sixth tranches on 2 August 2016 (tranches 5 and 6): all OCABSAs were converted during the year;
- Concurrent issuance of the seventh, eighth and ninth tranches on 26 September 2016 (tranches 7, 8 and 9): only the tranche 7 OCABSAs were converted during the year. (It should nevertheless be noted that 20 tranche 8 OCABSAs were converted on 4 January 2017.)

Between 1 January 2017 and 30 June 2017, the Company has converted all OCABSA bonds issued in the eighth and ninth tranches: 20 OCABSAs on 4 January 2017 and 5 OCABSAs on 23 February 2017 for tranche 8, and 10 OCABSAs on 23 February 2017 and 15 OCABSAs on 13 April 2017 for tranche 9.

The Company also exercised 2 OCABSA warrants on 17 February 2017, each giving rise to the issuance of a tranche of 25 OCABSAs totalling €250,000 (tranches 10 and 11), all 50 OCABSAs having been converted on 15 May 2017.

Since 1 July 2017, the Company exercised the tranches 12, 13, 14, and 15 of the contract, representing 4 Warrants (OCABSA warrants) each resulting in the issuance of 25 OCABSAs in a total amount of €1,000,000. All OCABSAs were converted.

Between 1 January 2017 and 31 December 2017, the Company exercised 6 OCABSA warrants, each giving rise to the issuance of a tranche of 25 OCABSAs totalling €250,000. In accordance with IAS 32, each tranche of the bond issued during the year was split on the same terms than the first one. The issuances are as follows:

- Concurrent issuance of the tenth and eleventh tranches on 17 February 2017 (tranches 10 and 11): all OCABSAs were converted during the year;
- Concurrent issuance of the twelfth, thirteenth, fourteenth and fifteenth tranches on 20 July 2017 (tranches 12, 13, 14 and 15): the tranches 12 and 13 OCABSAs were converted during the year, the tranche 14 was partly converted, 10 OCABSAs on 25 September 2017, and partly redeemed early, 15 OCABSAs on 2 November 2017, and all the OCABSAs of the fifteenth tranche were redeemed early on the same day.

28. CONTINGENT CONSIDERATION

The contingent consideration related to the acquisition of the Primerdesign shares.

| Amounts in 000' € | Year ended 31 December 2017 | Year-ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Contingent consideration (non-current portion) | - | 1,647 |
| Contingent consideration (current portion) | 1,126 | 946 |
| | 1,126 | 2,593 |

The movement in the liability between the 31 December 2016 and 31 December 2017 is due to the variance of the foreign exchange rate (contingent liability is denominated in Pounds Sterling), offset by the discounting of the liability.

29. PROVISIONS

- Nature of and change in provisions for risks and charges for the period from 1 January 2017 to 31 December 2017

| Amounts in '000 € | At 1 January 2017 | Increase | Reduction | Change in exchange rates | At 31 December 2017 |
|--|-------------------------|-----------|-------------|--------------------------------|---------------------------|
| Provisions for restoration of premises | 89 | 55 | - | - 4 | 140 |
| Long term management incentive plan | - | 18 | - | - | 18 |
| Long-term provisions | 89 | 73 | - | - 4 | 158 |
| Provision for litigation | 66 | - | - 16 | - | 50 |
| Short-term provision | 66 | - | - 16 | - | 50 |

- Nature of and change in provisions for risks and charges for the period from 1 January 2016 to 31 December 2016

| Amounts in '000 € | At 1 January 2016 | Increase | Reduction | Change in exchange rates | At 31 December 2016 |
|--|-------------------------|----------|-----------|--------------------------------|---------------------------|
| Provisions for restoration of premises | 103 | - | - | - 14 | 89 |
| Long-term provision | 103 | - | - | - 14 | 89 |
| Provision for litigation | 66 | - | - | - | 66 |
| Short-term provision | 66 | - | - | - | 66 |

Provisions chiefly cover:

- a provision for litigation with personnel;
- provisions for the restoration of the premises as per the lease agreements;
- a provision for a long term incentive plan to the management of the group.

The provisions for the restoration of the premises should generate a cash payment at the end of the rental periods, thus at the following dates:

- Lab21 Ltd: March – April 2019,
- Lab21 Healthcare Ltd: September 2018,
- Microgen Ltd: September 2017.

The provision for litigation generates a cash payment in February 2018.

The provision for the long-term incentive plan generates a cash payment in November 2020.

30. TRADE AND OTHER PAYABLES

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---------------------------------------|-----------------------------------|-----------------------------------|
| Trade payables | 1,746 | 2,087 |
| Accrued invoices | 1,042 | 694 |
| Social security liabilities | 553 | 348 |
| Tax liabilities | 123 | 53 |
| Other liabilities | 102 | 29 |
| Options classified as liabilities | 127 | 293 |
| Total trade and other payables | 3,692 | 3,504 |

Options treated as liabilities relate to:

- The Company's equity warrants granted to former Primerdesign shareholders in the amount of €127,000 as of end-December 2017 and €266,000 as of end December 2016. This is a component of the purchase price of Primerdesign;
- the conversion option attached to tranches 8 and 9 of the OCABSAs unconverted as of 31 December 2016, in the amount of €27,000.

31. OTHER CURRENT LIABILITIES

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|-------------------|-----------------------------------|-----------------------------------|
| Deferred income | 137 | 24 |
| Total | 137 | 24 |

32. SHARE CAPITAL

As of 1 January 2016, the Company's share capital of €479,281 was divided into 7,189,214 shares with a par value of 1/15th of a euro each.

The transactions on share capital from this date are summarised below:

- On 22 February 2016, the Company decided to increase its capital through the issue of 2,365,815 shares subject to one or more capital increases in a total amount of at least 7,000,000 euros or the receipt of an equivalent amount. This transaction subject to a condition precedent is consideration for the contribution of 59,893 shares of Primer Design Limited by its shareholders.

- On 29 March 2016, the Company completed a capital increase from €479,280.87 to €569,423.20 through the issue of 1,352,135 shares at a price of €1.40 per share, with a share premium of €1,802,846.67.
- On 29 March 2016, the Company completed a capital increase from €569,423.20 to €574,089.87 through the issue of 70,000 shares at a price of €1.40 per share, with a share premium of €93,333.33.
- On 21 April 2016, the Company completed a capital increase from €574,089.87 to €669,328 through the issue of 1,428,572 shares at a price of €1.40 per share, with a share premium of €1,904,762.67.
- On 26 April 2016, the Company completed a capital increase from €669,328 to €674,101.27 through the issue of 71,599 shares at a price of €1.401 per share, with a share premium of €95,537.84.
- On 3 May 2016, the Company completed a capital increase from €674,101.27 to €678,963.40 through the issue of 72,932 shares at a price of €1.376 per share, with a share premium of €95,493.43.
- On 11 May 2016, the Company noted that the condition precedent on the capital increase through a contribution in kind approved on 22 February 2016 had been lifted. Share capital was consequently increased from €678,963.40 to €836,684.40 through the issue of 2,365,815 shares at a price of €2.696 per share, or a share premium of €6,220,514.
- On 19 May 2016, the Company completed a capital increase from €836,684.40 to €842,372.20 through the issue of 85,317 shares at a price of €1.176 per share, with a share premium of €94,645.53.
- On 23 May 2016, the Company completed a capital increase from €842,372.20 to €867,933.40 through the issue of 383,418 shares at a price of €1.176 per share, with a share premium of €425,338.80.
- On 1 June 2016, the Company completed a capital increase from €867,933.40 to €935,650.53 through the issue of 1,015,757 shares at a price of €1.40 per share, with a share premium of €1,354,342.67.
- On 25 August 2016, the Company completed a capital increase from €935,650.53 to €943,967.66 through the issue of 124,757 shares at a price of €1.20 per share, with a share premium of €141,766.20.
- On 7 September 2016, the Company completed a capital increase from €943,967.66 to €949,438.26 through the issue of 82,059 shares at a price of €1.22 per share, with a share premium of €94,723.84.
- On 21 September 2016, the Company completed a capital increase from €949,438.26 to €957,421.66 through the issue of 119,751 shares at a price of €1.26 per share, with a share premium of €142,424.93.
- On 5 October 2016, the Company completed a capital increase from €957,421.66 to €962,942.86 through the issue of 82,818 shares at a price of €1.21 per share, with a share premium of €94,937.14.
- On 1 December 2016, the Company completed a capital increase from €962,942.86 to €969,517.06 through the issue of 98,613 shares at a price of €1.02 per share, with a share premium of €91,814.69.

- On 15 December 2016, the Company completed a capital increase from €969,517.06 to €1,151,183.73 through the issue of 2,725,000 shares at a price of €1.00 per share, with a share premium of €2,543,333.33.
- On 21 December 2016, the Company completed a capital increase from €1,151,183.73 to €1,161,134.20 through the issue of 149,257 shares at a price of €1.01 per share, with a share premium of €140,799.53.
- On 4 January 2017, the Company completed a capital increase from €1,161,134.20 to €1,173,905.27 through the issue of 191,566 shares at a price of €1.05 per share, with a share premium of €188,373.37.
- On 23 February 2017, the Company completed a capital increase from €1,173,905.27 to €1,184,487 through the issue of 158,726 shares at a price of €0.953 per share, with a share premium of €140,684.94.
- On 13 April 2017, the Company completed a capital increase from €1,184,487 to €1,196,713.87 through the issue of 183,403 shares at a price of €0.827 per share, with a share premium of €139,448.13.
- On 15 May 2017, the Company completed a capital increase from €1,196,713.87 to €1,237,170.53 through the issue of 606,850 shares at a price of €0.828 per share, with a share premium of €462,015.56.
- On 12 June 2017, the Company completed a capital increase from €1,237,170.53 to €1,384,874.73 through the issue of 2,215,563 shares at a price of €0.85 per share, with a share premium of €1,735,524.35.
- On 19 June 2017, the Company completed a capital increase from €1,384,874.73 to €1,472,482.46 through the issue of 1,314,116 shares at a price of €0.85 per share, with a share premium of €1,029,390.87.
- On 14 August 2017, the Company completed a capital increase from €1,472,482.46 to €1,482,491.86 through the issue of 150,141 shares at a price of €0.667 per share, with a share premium of €90,135.04.
- On 22 August 2017, the Company completed a capital increase from €1,482,491.86 to €1,502,310.46 through the issue of 297,279 shares at a price of €0.674 per share, with a share premium of €180,548.07.
- On 7 September 2017, the Company completed a capital increase from €1,502,310.46 to €1,519,671.66 through the issue of 260,418 shares at a price of €0.770 per share, with a share premium of €183,161.00.
- On 25 September 2017, the Company completed a capital increase from €1,519,671.66 to €1,528,317.46 through the issue of 129,687 shares at a price of €0.774 per share, with a share premium of €91,731.98.
- On 23 October 2017, the Company completed a capital increase from €1,528,317.46 to €2,031,701.26 through the issue of 7,550,757 shares at a price of €0.660 per share, with a share premium of €4,480,115.82.
- On 1 November 2017, the Company completed a capital increase from €2,031,701.26 to €2,510,956.06 through the issue of 7,188,822 shares at a price of €0.660 per share, with a share premium of €4,265,369.10.

| Amounts in '000 € | Amount of share capital | Unit value per share | Number of shares issued |
|--|-------------------------|----------------------|-------------------------|
| At 1 January 2016 | 479 | 0.07 | 7,189,214 |
| Capital increases | 439 | 0.07 | 6,591,464 |
| Contribution of Primerdesign securities | 158 | 0.07 | 2,365,815 |
| Capital increase by conversion of OCABSA | 85 | 0.07 | 1,270,521 |
| At 31 December 2016 | 1,161 | 0.07 | 17,417,014 |
| Capital increases | 1,218 | 0.07 | 18,269,258 |
| Capital increase by conversion of OCABSA | 132 | 0.07 | 1,978,070 |
| At 31 December 2017 | 2,511 | 0.07 | 37,664,342 |

As of 31 December 2017, the Company's share capital of €2,510,956.06 was divided into 37,664,342 shares with a par value of 1/15th of a euro each.

The Company's share capital consists of one class of share. All outstanding shares have been subscribed, called and paid.

33. SHARE PREMIUM

| Amounts in '000 € | |
|---|---------------|
| Balance at 1 January 2016 | 32,382 |
| Premium arising on issue of equity shares | 15,338 |
| Expenses of issue of equity shares | - 622 |
| Balance at 31 December 2016 | 47,120 |
| Premium arising on issue of equity shares | 12,987 |
| Expenses of issue of equity shares | - 1,826 |
| Balance at 31 December 2017 | 58,281 |

34. OTHER RESERVES

| | |
|------------------------------------|----------------|
| Balance at 1 January 2016 | - 81 |
| Translation differences | 204 |
| Other variations | -1 |
| Acquisition on Primerdesign shares | -2,948 |
| Balance at 31 December 2016 | - 2,826 |
| Translation differences | 8 |
| Other variations | 2 |
| Balance at 31 December 2017 | - 2,815 |

The €2,948 thousand change in share consideration in relation to the acquisition of Primerdesign in 2016 reflects the difference between the share premium amount arising from the capital increase on 22 February 2016, compared to the fair value of the same shares at the time of completion of the acquisition on 12 May 2016.

35.EQUITY RESERVE

Amounts in '000 €

| | |
|---|------------|
| Balance at 1 January 2016 | - |
| Grant to Kreos Capital of Novacyt S.A. warrants | 283 |
| Conversion of the OCABSA Yorkville | 62 |
| Balance at 31 December 2016 | 345 |
| Conversion of the OCABSA Yorkville | 76 |
| Balance at 31 December 2017 | 421 |

This reserve represents the equity component of warrants and loans.

36.RETAINED LOSSES

Amounts in '000 €

| | |
|------------------------------------|-----------------|
| Balance at 1 January 2016 | - 22,157 |
| Net loss for the period | - 5,710 |
| Balance at 31 December 2016 | - 27,867 |
| Net loss for the period | - 5,442 |
| Balance at 31 December 2017 | - 33,309 |

37.ACQUISITION OF SUBSIDIARIES

Acquisition of Primerdesign

On 12 May 2016, the Group took control of British company Primerdesign, through the acquisition of 100% of its shares by Novacyt S.A. For the purpose of simplification and as a result of this having no material impact, the initial consolidation is deemed to have taken place on 1 May 2016. Primerdesign specialises in the design, manufacture and sale of molecular diagnostic kits. It also markets a molecular biology technology platform.

This acquisition offers the Group scope to extract synergies derived from the commercialisation of the Primerdesign offering via the Novacyt network and from the complementary technological nature of the cytology and molecular biology sectors.

The purchase price was €13,566,000, breaking down as follows:

| | |
|---|-----------------|
| Value of Novacyt securities tendered | €3,430k |
| Option to purchase Novacyt securities | €445k |
| Cash disbursed | €7,081k |
| Contingent consideration payable in 2017 and 2018 | €2,610k |
| Total purchase price | €13,566k |

The fair value of assets acquired and the liabilities assumed are as follows:

| | |
|--|----------------|
| Net property, plant and equipment and intangible assets | €473k |
| Customer relationships | €3,676k |
| Trademark | €660k |
| Inventories | €462k |
| Trade receivables | €531k |
| Other receivables | €487k |
| Net cash and cash equivalents | €764k |
| Trade payables | €-281k |
| Other liabilities | €-416k |
| Fair value of assets acquired and liabilities assumed | €6,356k |

Goodwill **€7,210k**

The net cash impact of the acquisition of Primerdesign is as follows:

| | |
|------------------------|-----------------|
| Cash paid | €-9,691k |
| Cash acquired | €749k |
| Net cash impact | €-8,942k |

The fair value of assets includes unimpaired trade receivables with a net value of €531,000.

Goodwill is a residual component calculated as the difference between the purchase price for the acquisition of control and the fair value of the assets acquired and liabilities assumed. It includes unrecognised assets such as the value of the personnel and know-how of the acquiree.

The fair value of the Novacyt S.A. securities tendered as consideration for the acquisition of the Primerdesign securities was determined on the basis of the market price on the date of the transaction.

The contingent consideration was estimated at the sum of €2,665,000 payable in the event of achievement of sales targets in the three years following the acquisition. The contingent consideration was estimated on the basis of estimated revenue and has been discounted.

The acquisition costs amounted to €508,000. They are included on the statement of comprehensive income in the year ended 31 December 2016 as "Costs related to acquisitions". Primerdesign contributed €3,288,000 to consolidated revenue in the year ended 31 December 2016 and €971,000 to net profit or loss attributable to owners of the company between its consolidation on 1 May 2016 and 31 December 2016.

If the acquisition of Primerdesign were deemed to have been completed on 1 January 2016, the opening date of the Group's 2016 financial year, consolidated revenue would have amounted to €12,925,000 and net profit or loss attributable to owners of the company to a loss of €5,424,000.

The table below presents the group income statement for the 12 months period ended on 31 December 2016 as if the acquisition of Primerdesign had been completed on 1st January 2016.

| Amounts in 000' € | 31 December 2016 Pro forma |
|---|-------------------------------|
| Revenue | 12,925 |
| Cost of sales | -5,297 |
| Gross profit | 7,628 |
| Sales and marketing costs | -3,451 |
| Research and development | -895 |
| General & administrative costs | -6,410 |
| Governmental subsidies | 372 |
| Recurring operating loss | -2,756 |
| Costs related to acquisitions | -508 |
| Other operating income | 20 |
| Other operating expenses | -935 |
| Operating loss | -4,179 |
| Financial income | 781 |
| Financial expenses | -1,983 |
| Loss before tax | -5,381 |
| Tax expense | -44 |
| Loss after tax | -5,425 |
| Total net loss | -5,425 |
| Attributable to owners of the company | -5,425 |
| Attributable to non-controlling interests | - |

38. NOTES TO THE CASH FLOW STATEMENT

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---|-----------------------------------|-----------------------------------|
| Loss for the year / period | -5,442 | -5,710 |
| Adjustments for: | | |
| Depreciation, amortisation and impairment loss | 1,265 | 826 |
| Unwinding of discount on contingent consideration | 386 | 86 |
| (Increase) / decrease of fair value | -140 | 293 |
| Gains / (losses) on disposal of fixed assets | 11 | 23 |
| Operating cash flows before movements of working capital | -3,920 | -4,482 |
| (Increase) / decrease in inventories | -377 | 141 |
| (Increase) / decrease in receivables | -1,805 | 338 |
| Increase / (decrease) in payables | 425 | 766 |
| Cash used in operations | -5,678 | -3,236 |
| Changes in debt issues expenses | -19 | -71 |
| Income taxes paid | -148 | -299 |
| Finance costs | 1,199 | 1047 |
| Net cash used in operating activities | -4,646 | -2,559 |

39. OPERATING LEASE

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Lease payments under operating leases recognised as an expense in the year | 468 | 427 |

The Group has a number of operating leases, primarily for the rental of offices or premises intended for production.

Operating leases rentals payable under operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the lease asset are consumed.

Novacyt S.A.

In France, Novacyt S.A. has taken out a nine-year lease for its offices ending on 14 February 2022. The lease contract contains clauses relating to membership of the onsite communal restaurant, the payment of insurance premiums and other rental charges. The rent is revised on each anniversary because it is indexed to the national cost of construction index. The annual charge for the site (with service charges) was €60,976 in 2017.

Primer Design Limited

An operating lease currently exists for the York House site which is currently a mixed use for office, storage, and laboratory purposes. The lease originally commenced in November 2015 for a five-year period to November 2020. This was originally for the majority of the ground floor of the building. This area incurred an annual charge £79,883 per annum (including service charges) and a £4,717 rent free period. A variation to the lease was signed in March 2017 to enable increased capacity at the site and the use of all of the upstairs of the York House site. This was led to an additional annual charge of £22,560 (including service charges). The annual charge for the site (with service charges) is now £107,160 per annum.

Microgen Ltd

An operating lease existed for the Admiralty Way site which had a mixed use for office, storage, and laboratory purposes. The lease commenced in October 2015 for a two-year period to September 2017. The annual charge was £93,539. Microgen vacated the old site in H2 FY 2017. As a consequence, a new lease has been signed for the Watchmoor Park site which will again be mixed use. This commenced in May 2017, and will run until May 2032. There are rent review clauses in May 2022 and 2027. The annual charge for the site is £173,173 per annum (including service charges).

Healthcare ltd

An operating lease currently exists for the Bridport site which is currently used for manufacturing, storage, and laboratory purposes. The lease originally commenced in October 2013 for a five-year period to September 2018. There is an option to extend. The annual charge for the site is £38,903 per annum.

Lab 21 Limited

An operating lease currently exists for the Park House site which is currently a mixed use for office, storage, and laboratory purposes. The lease originally commenced in April 2014 for a five-year period to April 2019. The annual charge for the site including service charges is £63,700 per annum (which includes a £4,550 rent free period).

The transactions performed on assets received under operating leases are subject to contracts providing the following minimum future payments:

| Amounts in 000' € | Year ended 31 December 2017 | Year-ended 31 December 2016 |
|--|-----------------------------------|-----------------------------------|
| Future minimum payments in respect of non-cancellable contracts | | |
| Payments due in less than 1 year | 435 | 334 |
| Payment due in more than 1 year and less than 5 years | 904 | 288 |
| Total | 1,339 | 622 |

40. RETIREMENT BENEFIT OBLIGATIONS

The cost of defined-benefit plans is determined at the end of each year in accordance with the projected unit credit method. The calculation is based on an actuarial method using assumptions with regard to future salary and retirement age.

The Group's defined benefit plan relates to bonuses payable under collective agreements in a lump sum on retirement and concerns only the employees of the French company Novacyt. Pursuant to the law and collective agreements, the Group gives a bonus to each employee upon retirement, expressed in number of months' salary (calculated on the basis of the wages paid during the 12 months preceding retirement) and seniority within the Group.

◦ Net expense for the year / period

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|-------------------------|-----------------------------------|-----------------------------------|
| Service cost | 5 | 4 |
| Financial cost | - | - |
| Other items | -3 | -31 |
| Expense (income) | 12 | -27 |

◦ Change in the actuarial liability

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---------------------------------------|-----------------------------------|-----------------------------------|
| Obligation – beginning of year | 14 | 40 |
| Service cost | 4 | 4 |
| Decreases/payments | -2 | -31 |
| Financial cost | - | - |
| Actuarial gains and losses | -2 | 1 |
| Obligation – end of year | 14 | 14 |

◦ Breakdown of actuarial gains and losses

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|-------------------------------------|-----------------------------------|-----------------------------------|
| - Effect of experience | -2 | - |
| - Change in demographic assumptions | - | - |
| - Change in financial assumptions | - | 1 |
| - | - | - |
| Actuarial gains and losses | -2 | 1 |

- Actuarial assumptions

The assumptions used for measuring change in obligations in respect of retirement benefits are presented in the table below:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---------------------------------------|-----------------------------------|-----------------------------------|
| Retirement age – managers | 64 | 64 |
| Retirement age – non-managers | 62 | 62 |
| Wage increases | 3.00% | 3.00% |
| Rate of social security contributions | 40.16% | 41.10% |
| Discount rate | 1.40% | 1.50% |

41. FINANCIAL INSTRUMENTS

Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concern whilst maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy is to ensure there is sufficient working capital to optimize the performance of the business.

The capital structure of the Group consists of net debt (borrowings disclosed in note 27 after deducting cash and bank balances) and equity of the Group (comprising issued capital, reserves and retained losses in notes 33 to 37).

The Group is not subject to any externally imposed capital requirements.

The Group's focus is on cash management and this is reviewed on a regular basis by the Group Financial Controller and the Chief Financial Officer. The funding mix of the business is reviewed and managed regularly by the CFO and the CEO.

Gearing ratio

The gearing ratio at the year-end is as follows:

| Amounts in '000 € | Year ended 31 December 2017 | Year ended 31 December 2016 |
|---------------------------------|-----------------------------------|-----------------------------------|
| Debt | -3,893 | -6,255 |
| Cash and cash equivalents | 4,345 | 2,856 |
| Net debt | -452 | 3,399 |
| Equity | 24,914 | 17,768 |
| Net Debt to Equity ratio | -2% | 19% |

Debt is defined as long-term and short-term borrowings (excluding derivatives and financial guarantee contracts) as detailed in note 27.

Equity includes all capital, premiums and reserves of the Group that are managed as capital.

Significant accounting policy

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the basis of measurement and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in note 3.

Categories of financial instruments

| Amounts in '000 € | Year ended 31 December 2017 | Year-ended 31 December 2016 |
|------------------------------------|-----------------------------------|-----------------------------------|
| Financial assets | | |
| Cash & cash equivalents | 4,345 | 2,856 |
| Loans and receivables | 3,563 | 2,220 |
| Financial liabilities | | |
| Fair value through profit and loss | 127 | 293 |
| Amortised cost | 7,909 | 11,657 |

Financial risk management objectives

The Group's Finance Function is responsible for managing the financial risks relating to the running of the business. These risks include market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

If there are any material risks then the Group would look to mitigate that risk through the appropriate measure such as hedging against currency fluctuations.

The Group does not use derivative financial instruments to hedge these risk exposures.

Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates.

There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

Foreign currency risk management

The Group undertakes transactions denominated in foreign currencies; consequently exposures to exchange rate fluctuations arise. Exchange rate exposures are not managed utilising forward foreign exchange contracts.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

| Amounts in '000 € | Liabilities | | Assets | | Net exposure | |
|-------------------|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|
| | Year ended 31 December 2017 | Year ended 31 December 2016 | Year ended 31 December 2017 | Year ended 31 December 2016 | Year ended 31 December 2017 | Year ended 31 December 2016 |
| | GBP | - 733 | - 3,858 | 1,464 | 1,288 | 731 |
| USD | - 103 | - 137 | 1,453 | 476 | 1,350 | 339 |
| CNY | - | - | 6 | 3 | 6 | 3 |
| CHF | - 74 | - | | 54 | - | 54 |

Foreign currency sensitivity analysis

The Group is mainly exposed to the currency of the UK entities that are included in the operating segments “Diagnostics” and “Molecular Testing”.

The following table details the Group’s sensitivity to a 5% increase and decrease in euros against the relevant foreign currencies. 5% represents management’s assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number below indicates an increase in profit and other equity.

FX sensitivity analysis

| Amounts in '000 € | Net exposure | |
|-------------------------------------|-----------------------------------|-----------------------------------|
| | Year ended 31 December 2017 | Year ended 31 December 2016 |
| | GBP | 731 |
| Conversion rate | 0.887980 | 0.856640 |
| Impact EUR strengthening : FX + 5 % | - 35 | - 216 |
| Impact EUR weakening : FX - 5 % | 38 | 509 |
| USD | 1,350 | 339 |
| Conversion rate | 1.183621 | 1.054100 |
| Impact EUR strengthening : FX + 5 % | - 64 | - 16 |
| Impact EUR weakening : FX - 5 % | 71 | 18 |

Interest rate risk management

The Group borrows funds at fixed interest rate and therefore it is not exposed to significant interest rate risk.

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group uses publicly available financial information and its own trading records to rate its major customers risk levels. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group uses debt collection agencies and government backed schemes to collect difficult aged debts as a last resort.

Trade receivables consist of a large number of customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable and, where appropriate, credit guarantee insurance cover is purchased.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The carrying amount of the financial assets recorded in the historical financial information, which is net of impairment losses, represents the Group's maximum exposure to credit risk as no collateral or other credit enhancements are held.

Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The contractual maturity is based on the earliest date when the Group may be required to pay.

| | <u>Effective interest rate</u> % | <u>Less than 1 month</u> '000 € | <u>1-3 months</u> '000 € | <u>3 months to 1 year</u> '000 € | <u>1-5 years</u> '000 € | <u>Total</u> '000 € |
|------------------------------------|---|--|-----------------------------|---|----------------------------|------------------------|
| 31 December 2017 | | | | | | |
| Variable interest rate instruments | | - | - | - | - | - |
| Fixed interest rate instruments | 19.6% | 304 | 607 | 2,254 | 1,250 | 4,415 |
| 31 December 2016 | | | | | | |
| Variable interest rate instruments | | - | - | - | - | - |
| Fixed interest rate instruments | 21.7% | 263 | 526 | 2,312 | 3,158 | 6,259 |

The following table details the Group's expected maturity for its non-derivative financial assets. The tables below have been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary to understand the Group's liquidity risk management as the liquidity is managed on a net asset and liability basis.

| | <u>Effective interest rate</u> % | <u>Less than 1 month</u> '000 € | <u>1-3 months</u> '000 € | <u>3 months to 1 year</u> '000 € | <u>1-5 years</u> '000 € | <u>Total</u> '000 € |
|-------------------------|---|--|-----------------------------|---|----------------------------|------------------------|
| 31 December 2017 | | | | | | |
| Non-interest bearing | - | 6,863 | 520 | 235 | 229 | 7,847 |
| 31 December 2016 | | | | | | |
| Non-interest bearing | - | 4,035 | 784 | 139 | 118 | 5,076 |

Fair value measurements

The information set out below provides information about how the Group determines fair values of various financial assets and financial liabilities.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

| Financial assets/financial liabilities | Fair value as at | | Fair value hierarchy | Valuation technique (s) and key input (s) | Significant unobservable input (s) | Relationship of unobservable inputs to fair value |
|---|------------------|----------|----------------------|---|--|---|
| | 31/12/16 | 31/12/17 | | | | |
| 1) Contingent consideration (current and non-current portion). | 2,592 | 1,126 | 3 | Discounted cash flow method was used to capture the present value of the expected future economic benefits that will flow out of the Group arising from the contingent consideration. | Discount rate of 16% for December 2016. No discount for December 2017. | If the discount rate was 1 point higher or lower while other variables were held constant, the carrying amount would respectively decrease by 17K€ and increase by 18K€ at December 2016. |
| 2) Trade and other payables: Options classified as liabilities - Warrant Primer Design. | 267 | 126 | 2 | Monte Carlo simulation model. | Expected volatility of 52.80 used for December 2017. | If the expected volatility was 5% higher or lower while other variables were held constant, the carrying amount would respectively increase by 13K€ and decrease by 16K€ as at December 2017. |
| 3) Trade and other payables: Options classified as liabilities - Warrant Yorkville. | 26 | - | 1 | Quoted bid prices in an active market. | N/A | N/A |

| Convertible loan notes | 3 |
| Bank loans at fixed interest rate | 3 |
| Accrued interest | 3 |

There were no transfers between Levels during the current or prior years.

42.COMMITMENTS GIVEN AND RECEIVED

The guarantees given by the Group are as follows:

Under the terms of the bond contracts subscribed by Kreos Capital IV Ltd and Kreos Capital V Ltd, and as a guarantee of perfect repayment of this loan and interest, fees, commissions or other amounts due, the Group has agreed to the following guarantees in favour of the two structures:

- Pledge of the business;
- Senior pledge on receivables;
- Non-possessory pledge of inventories; and
- Senior and non-recourse pledge of bank accounts.

The amount of guaranteed loans is presented in note 27 "Borrowings".

The Company has also granted Primerdesign shareholders a variable contingent consideration, settlement of which is scheduled for mid 2018. As security for the payment of such sums, third-line pledge on business assets and collateral subject to English law (mortgage debentures) have been implemented.

45.IMPACT OF BREXIT ON THE GROUP'S ACTIVITY

Companies operating in the “Diagnostics” and “Molecular testing” sectors are established in the United Kingdom. It is difficult to anticipate the impact of Brexit on trade relations and regulatory constraints. The tax consequences depend on the outcome of negotiations between Europe and the United Kingdom, and to date are undetermined. Management is seeking to identify market, operational and legal risks and to take the appropriate adaptation measures as required.

46.SUBSEQUENT EVENTS

No significant events have taken place since the reporting date.
