MFM Techinvest Special Situations Fund Class P Shares

A Sub-fund of the MFM Techinvest Special Situations Fund OEIC (ISIN Accumulation GB00B90KJ504)  
This Fund is managed by Marlborough Fund Managers Ltd

Objectives and Investment Policy

The MFM Techinvest Special Situations Fund aims to provide long-term capital growth and the accumulation of income through an actively managed portfolio of equities whose future prospects do not appear to be fully reflected yet in the current stock market price.

The focus will be on smaller UK companies, although opportunities outside the UK may also be included, where appropriate. Particular attention will be paid to new emerging growth stocks and to recovery situations where change in a company's underlying dynamics or direction can be expected to lead to an improvement in

its reported results.

The Investment Adviser to the Fund decides which investments to buy and when within the constraints of the objectives and policy. The Fund is not constrained by a benchmark.

The Techinvest Special Situations Fund does not pay income. Instead, any income received by the Fund is reinvested back into the Fund.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets. Stock Market prices can move irrationally and be affected unpredictably by diverse

factors, including political and economic events.

- The Fund invests in the shares of smaller companies which are generally more volatile over shorter time periods.
- The Fund invests mainly in the UK therefore investments will be vulnerable to sentiment in that market which may strongly affect the value of the Fund.

Risks which are not adequately captured by the risk indicator include:

- In certain market conditions some assets in the Fund may be less liquid and therefore more difficult to sell at their true value or in a timely manner.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.
