This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "not applicable."

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the 2021 Debentures. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the 2021 Debentures are described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the 2021 Debentures, but the Issuer may be unable to pay interest, principal or other amounts on or in connection with the 2021 Debentures for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Persons contemplating purchasing any 2021 Debentures should reach their own views prior to making any investment decision.

The risks relating to the Issuer's group and the 2021 Debentures summarised in Part 1 of this document headed "Summary" are the risks that the Issuer believes to be most essential to an assessment of whether to consider an investment in the 2021 Debentures. However, as the risks which the Issuer's group faces relate to events and depend on circumstances that may or may not occur in the future, the information on the key risks summarised in Part 1 of this document headed "Summary" should be considered together with, among other things, the risks and uncertainties described below.

Words and expressions defined elsewhere in this Prospectus have the same meaning in this section.

1. Factors that may affect the Issuer's ability to fulfil its obligations under the 2021 Debentures

Portfolio generally

The Issuer's financial instruments comprise securities, property and other investments, cash balances, loans and debtors and creditors that arise directly from its operations; for example, in respect of sales and purchases awaiting settlement or debtors for accrued income.

UK securities usually account for between half and three-quarters of the total portfolio and property for a quarter to a half.

Adverse market conditions in one or more asset classes or changes in economic factors may lead to a reduction in value and/or revenues. In addition, actual or perceived changes in market or economic outlook may lead the Issuer to alter its allocations to particular assets.

The value of the Issuer's UK equity portfolio is subject to volatility and may decrease or increase abruptly as a result of factors beyond the Issuer's control relating to, amongst other things, the underlying performance of any company in which the Issuer holds securities or the general economic climate and market conditions.

Rental revenues and property values are affected by changes in the general economic climate and local conditions such as an oversupply of space, a reduction in demand for property in an area, competition from other available space or increased operating costs. Rental revenues and property values are also affected by such factors as political developments, government regulations and changes in planning or tax laws, interest rate levels, inflation, the availability of financing and yields of alternative investments. The rental levels and values of the properties in the portfolio of property of the Issuer are sensitive to such factors, which can sometimes result in rapid and substantial decreases in rental and valuation levels.

Dependence on income

The Issuer's ability to fulfil its obligations under the 2021 Debentures will depend, in part, on the Issuer continuing to receive a significant level of rent from its tenants and dividends from the companies in which it holds securities.

The Issuer's ability to fulfil such obligations could be affected if occupancy levels were to fall or if a significant number of tenants were unable to meet their obligations. As existing leases terminate or become subject to tenant break options or space needs to be re-let for other reasons, there can be no assurance that such space will be re-let or, if re-let, that it will be re-let on terms (including rental levels) as favourable to the Issuer as those currently, or then, existing or that new tenants will be as creditworthy as existing tenants.

There can be no assurance that any company in which the Issuer holds equity will have sufficient available profits to declare or pay dividends or that the directors of any such company will choose to declare them.

Insurance

The Issuer seeks to maintain insurance cover on all its key property and liability exposures to a level consistent with sound business practice, using appropriate insurance products and providers, including self-insurance where applicable. No assurance can be given that the insurance cover acquired by the Issuer provides adequate or sufficient cover for all events or incidents. The insurance market is volatile and therefore there can be no guarantee that existing cover will remain available or will be available at commercially acceptable premia. If events or incidents were to occur which are not covered by the Issuer's insurance and/or adequate insurance were not to be available at commercially acceptable premia, this could adversely affect the financial position of the Issuer and its ability to meet its financial obligations.

2. Risks relating to the Issuer's business

The main risks that the Issuer faces from its financial instruments are (i) market risk (comprising price risk, interest rate risk and currency risk); (ii) liquidity risk; and (iii) credit risk.

Market risk

The fair value of, or future cash flows from, a financial instrument held by the Issuer may fluctuate because of changes in market prices, which may affect the value of the Issuer's investments.

Interest rate movements may affect the fair value of the investments in property and the level of income receivable on cash deposits.

A small proportion of the Issuer's investment portfolio is invested in securities whose fair value and dividend stream are affected by movements in foreign exchange rates. The Issuer does not currently engage in any currency hedging.

See the risk factors entitled "Portfolio generally" and "Dependence on income" above for further information as to the effect of market risk on the 2021 Debentures.

Liquidity risk

The Issuer may encounter difficulty in meeting obligations associated with its financial liabilities. The Issuer's assets comprise of readily realisable securities which can be sold to meet commitments if required and investment properties which, by their nature, are less readily realisable. However, no assurance can be given that the Issuer will be able to sell its assets or that, if sold, the value realised on any sale of the Issuer's securities, or its investment properties, will be sufficient to meet obligations associated with its financial liabilities.

See the risk factors entitled "Portfolio generally" and "Dependence on income" above for further information as to the effect of liquidity risk on the 2021 Debentures.

Property risk

The Issuer's commercial property portfolio is subject to both market and specific property risk. The UK commercial property market has been cyclical for many years, and may be adversely affected by the price and availability of credit, real economic growth and the constraints on the development of new property.

See the risk factors entitled "Portfolio generally" and "Dependence on income" above for further information as to the effect of property risk on the 2021 Debentures.

Regulation

The UK, European and global regulatory environments are rapidly evolving. The expectations of financial regulators are changing and regulated entities must embed regulatory compliance in their business models

to an even greater extent than previously required. Regulation has become, in many areas, more complex and onerous and regulated entities are faced with shorter timelines to interpret and implement new regulation. There is substantial complexity from overlapping regulatory directives. Failure to comply with such regulations could expose the Issuer to penalties, claims for financial compensation and significant reputational damage. In addition, regulatory change may lead to the Issuer incurring substantive additional costs, including as a result of increased reliance on specialist third-party service providers.

Portfolio management

The Issuer's performance will depend on its and the Managers' ability to identify and acquire, operate and manage suitable investments and to overcome competition in doing so. The Issuer's success depends principally on the ability of the Managers to source, screen and select and then, under the direction of the board, operate and manage investments that it believes will meet the Issuer's investment policy.

The Issuer's future success is substantially dependent on the Managers' ability to attract, train, motivate and retain key management, commercial and technical personnel with the necessary skills and experience. There is no guarantee that the Managers will be successful in attracting and retaining key personnel. The loss of any of these key personnel may have a material adverse effect on the future of the Issuer's business.

Furthermore, there can be no assurance that the Issuer will be able to identify, realise, operate and manage and exit investments that satisfy its investment and rate of return objectives, or that it will be able fully to invest its capital. In addition, it is possible that competition for appropriate investment opportunities could increase, thereby reducing the number of opportunities available and adversely affecting the terms upon which the Issuer's investments may be made.

3. Risks relating to the 2021 Debentures

Return

There can be no certainty that the market price of the 2021 Debentures will fully reflect their underlying value. The price at which investors may dispose of their 2021 Debentures may be influenced by a number of factors, some of which may be related to the Issuer and the 2021 Debentures, and some not. Holders of the 2021 Debentures may realise less than the original amount invested.

Suitability

Any person contemplating purchasing any 2021 Debentures must determine the suitability of that investment in light of its own circumstances. In particular, any potential purchaser should: (i) have sufficient knowledge and experience to make a meaningful evaluation of the 2021 Debentures, the merits and risks of investing in the 2021 Debentures and the information contained or incorporated by reference in this Prospectus or any applicable supplement; (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the 2021 Debentures and the impact such investment will have on its overall investment portfolio; (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the 2021 Debentures; (iv) understand thoroughly the terms of the 2021 Debentures and be familiar with the behaviour of any relevant markets; and (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Credit ratings may not reflect all risks

Although the 2021 Debentures will not be assigned a credit rating by any rating agency on the Effective Date, one or more independent credit rating agencies may assign credit ratings to some or all of the 2021 Debentures in the future. The ratings may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the 2021 Debentures. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the relevant rating agency at any time.

Meetings

The terms and conditions of the 2021 Debentures contain provisions for calling meetings of holders of the 2021 Debentures to consider matters affecting their interests generally. These provisions permit defined

majorities to bind all holders of 2021 Debentures including any holders who did not attend and vote at the relevant meeting and any holders who voted in a manner contrary to the relevant majority.

Modification and waivers

The terms and conditions of the 2021 Debentures also provide that the Trustee may, without the consent of holders of the 2021 Debentures but provided that in each case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the holders of the 2021 Debentures, agree to (a) any modification of, or to the waiver of any breach or proposed breach of, any of the provisions of the 2021 Debentures or (b) determine without the consent of the holders of the 2021 Debentures that any Event of Default or potential Event of Default shall not be treated as such, although the Trustee may not exercise this power in contravention of express direction from the requisite holders of the 2021 Debentures.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories have agreed to adopt similar measures. Holders of the 2021 Debentures should be aware that the European Commission has proposed certain amendments to the EC Council Directive 2003/48/EC which may, if implemented, amend or broaden the scope of the requirements described above.

Withholding Tax

Under the current tax law of the United Kingdom, provided the 2021 Debentures continue to be listed on a "recognised stock exchange" (see the section entitled "United Kingdom Taxation" below), the Issuer is not, in respect of United Kingdom income tax, required to make any withholding or deduction at source from payments of any amounts in respect of the 2021 Debentures. If a change in law obliges the Issuer to make any withholding or deduction from payments of any amount in respect of the 2021 Debentures, such payments will be made subject to such required deduction or withholding. In such circumstances where the payment in question is a payment of interest in respect of the 2021 Debentures and the Issuer is required to make a deduction of United Kingdom income tax from such interest payment, there will be no obligation on the Issuer to pay any additional amounts to the holders of the 2021 Debentures as a result.

Change of law

The Terms and Conditions are based on English law in effect as at the date of the issue of the 2021 Debentures. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice.

4. Risks relating to the substitution of the Issuer as debtor under the 2021 Debentures

Certificates of Title

No new certificates of title have been or will be produced in respect of the Property comprised in the Specific Security in contemplation of the substitution of the Issuer as principal debtor in respect of the 2021 Debentures.

Each Property comprised in the Specific Security currently stands as security for the 2021 Debentures and was, at the time it became part of the security for the 2021 Debentures, the subject of a certificate of title given in contemplation of that security (the "**Existing Certificates of Title**") given by the then solicitors of Audax. The Existing Certificates of Title were issued between 1991 and 2012 and will not be updated in contemplation of the substitution of the Issuer as principal debtor in respect of the 2021 Debentures.

Although the Properties comprised in the Specific Security were considered suitable as security for the 2021 Debentures as at their date of inclusion within the relevant security package, information given in those Existing Certificates of Title is likely to be, in certain cases, substantially out of date and the time

period for bringing any claim in the event of any misstatement or omission in respect of the Existing Certificates of Title will, in the majority of cases, have elapsed.

Each Property comprised in the Specific Security has been subject to certain limited title investigations in contemplation of the substitution of the Issuer for Audax in respect of the 2021 Debentures. This investigation comprises searches at the Land Registry (in respect of Property comprised in the Specific Security in England and Wales) and the Land Register of Scotland or the General Register of Sasines (in respect of Property comprised in the Specific Security in Scotland) to confirm that there have not been any adverse registrations in respect of the Property comprised in the Specific Security since the provision of the Existing Certificates of Title.

Except as stated above, no additional searches or enquiries will be made in respect of the Specific Security or the Issuer.

Trustee Indemnification

The Issuer is required to indemnify, without contractual limit but subject to certain exceptions, the Trustee against liabilities incurred in connection with the substitution of the Issuer as debtor of the 2021 Debentures. The indemnification obligation of the Issuer would be payable from its assets.

together with interest accrued to the date of repayment PROVIDED THAT the price at which the Stock is repaid shall not exceed three times the nominal amount of the Stock.

For the purposes of the foregoing:

"the Gross Redemption Yield" in respect of the Stock or on 131/2% Treasury Stock 2004-2008 or on any other Qualifying Gilt or otherwise will be expressed as a percentage and will be calculated

in accordance with the principles indicated by the Joint Index and Classification Committee of the Institute and Faculty of Actuaries as reported in the Journal of the Institute of Actuaries, Volume 105, part 1, 1978, page 18. In the case of the Stock such calculation will be made as if such Stock were to remain outstanding until, and be redeemed as its nominal amount on 31 March 2021;

"Qualifying Gilt" means a redeemable fixed interest sterling obligation of the UK Government listed on The Stock Exchange and having a final maturity date occurring on or after the fifth anniversary of the third dealing day prior to the Relevant Date and which is not convertible; and

"**Relevant Date**" means in the case of a redemption on a winding up by the Court (otherwise than subsequent to a resolution of the Issuer in general meeting for winding up) the date of presentation of the petition for winding up and in any other case the date of the notice convening the meeting to consider the voluntary winding up or, if the Stock so becomes redeemable before either such date, the date on which it so becomes redeemable.

- 6.2 The Trustee will have the right at any time to require a Valuation of the whole (with such exceptions as the Trustee may agree) of the Approved Investments comprised in the Specific Security provided that the Trustee has reason to believe that the aggregate Value of such Approved Investments has changed such that the requirement for the Issuer to make good deficiencies applies.

7. Substitution

- 10.1 Except as set out in paragraph 10.2 below, the Issuer (which expression in this paragraph includes any Charging Company) shall not during the continuance of the security constituted by the Trust Deed exercise over or in relation to any of the Specific Security without the consent of the Trustee any of the powers of leasing at common law or powers of leasing and ancillary powers contained in or given by sections 99 and 100 of the Law of Property Act 1925 or in relation to the Property situate in Northern Ireland section 18 of the Conveyancing Act 1881 and section 3 of the Conveyancing Act 1911 to a mortgagor in possession.

if the relevant lease were then being granted with the term or rent review provisions in their varied form the consent of the Trustee to such grant would by virtue of such provisions be requisite in accordance with the proviso referred to in paragraph 10.2.1 above;

- 10.2.4 propose or agree to refer to the determination by an arbitrator or expert the amount of any rent payable by or to the Owning Company to be reviewed pursuant to the provisions for review under any lease of the Specific Security or any part thereof vested in the Owning Company or subject to which the same is (whether mediately or immediately) held by the Owning Company;

21. Governing Law

INFORMATION ON THE REORGANISATION

Background

The Issuer has one subsidiary undertaking, Audax, the principal business of which is a property investment company. As at 30 September 2013, Audax's net assets (on an unaudited basis) were valued at £12,988,684.

On 7 August 1986, Audax constituted the First Debenture Stock and, on 23 March 1988, Audax constituted the Second Debenture Stock. On 27 September 1991, the First Debenture Stock and the Second Debenture Stock became known as the 2021 Debentures. The 2021 Debentures are listed on the Official List of the UK Listing Authority and admitted to trading on the London Stock Exchange's main market for listed securities.

The Directors have resolved to simplify the structure of the Issuer's group so that the assets (and liabilities) of Audax are transferred to the Issuer and Audax is dissolved. The Issuer and Audax have entered into a business transfer agreement in terms of which the Charged Property Portfolio, the Uncharged Property Portfolio and any and all other assets of Audax will be transferred to the Issuer at market value, such consideration to be satisfied by the assumption by the Issuer of any and all liabilities of Audax, including Audax's obligations in terms of the 2021 Debentures, with the balance in cash to be left outstanding on intercompany account until such time as Audax is dissolved.

As part of this reorganisation, the Issuer will become the sole debtor in respect of the 2021 Debentures and Audax will cease to be an obligor in relation to the 2021 Debentures. The Issuer will assume all obligations of Audax under the 2021 Debentures including, without limitation, the obligation to repay all interest accrued but unpaid as at the Effective Date and payable on the interest payment date following the Effective Date (being 31 March 2014).

The 2021 Debentures are secured by charges granted by Audax over its Charged Property Portfolio in favour of the Trustee, which will be released and then re-granted by the Issuer upon transfer to it by Audax of the Charged Property Portfolio.

This substitution and release and re-grant of security in connection with the substitution: (i) will be implemented by the Deed of Amendment, Deed of Substitution and Deed of Release; and (ii) requires the approval by the holders of the 2021 Debentures by way of two Extraordinary Resolutions to be proposed at a meeting of the holders of the 2021 Debentures convened for 11 March 2014.

The First Extraordinary Resolution

The Existing Trust Deed does not contain an express power of the holders of the 2021 Debentures to approve, by way of Extraordinary Resolution, the substitution of the Issuer as debtor under the 2021 Debentures and release and re-grant of security in connection with such substitution. In terms of the First Extraordinary Resolution, the holders of the 2021 Debentures are therefore being asked to assent to the supplementation of their powers that are exercisable by Extraordinary Resolution only to so provide them with the power to approve this substitution of the Issuer and release and re-grant of security in connection with such substitution.

In addition, by passing the First Extraordinary Resolution, the holders of the 2021 Debentures will be:

- approving the entry by the Trustee into the Deed of Amendment, in terms of which the powers of the holders of the 2021 Debentures exercisable by Extraordinary Resolution only were so supplemented; and
- discharging the Trustee from any liability in connection with the First Extraordinary Resolution.

The Second Extraordinary Resolution

In terms of the Second Extraordinary Resolution, which is proposed conditional upon the Deed of Amendment coming into effect, the holders of the 2021 Debentures are being asked to assent to the release of Audax from all and any of its obligations under the Existing Trust Deed and the assumption by

the Issuer of the rights and obligations in substitution for, and to the exclusion of, Audax. In addition, by passing the Second Extraordinary Resolution, the holders of the 2021 Debentures will be:

- approving the entry by the Trustee into the Deed of Substitution, in terms of which the substitution will effected, new certificates in respect of the 2021 Debentures will be issued to holders, new security will granted over the properties that are transferred by Audax to the Issuer and certain consequential amendments will made to the Existing Trust Deed;
- approving the entry by the Trustee into the Deed of Release, in terms of which the existing security over Audax's Charged Property Portfolio will be released; and
- discharging the Trustee from any liability in connection with the Second Extraordinary Resolution.

Condition

The Deed of Amendment, the Deed of Substitution and the Deed of Release will be entered into following approval by the holders of the 2021 Debentures of the Extraordinary Resolutions. The effectiveness of Deed of Substitution and the Deed of Release will conditional upon Admission becoming effective by no later than 30 June 2014.

Listing

An application will be made to the UK Listing Authority and the London Stock Exchange for cancellation of the listing and admission to trading of the 2021 Debentures in the name of Audax, and for Admission.

The application for cancellation of the listing and admission to trading of the 2021 Debentures in the name of Audax will be made conditional upon Admission becoming effective.

It is expected that the cancellation of the listing admission to trading of the 2021 Debentures, and Admission, will take place on 28 March 2014. Concurrently with this, Audax's assets and liabilities will be transferred to the Issuer and the substitution, release and re-grant of security (and other amendments provided for in the Deed of Substitution) will become effective.

On the Effective Date, certificates in respect of the 2021 Debentures will cease to be valid. Temporary documents of title will not be issued pending despatch by post of new definitive certificates for the 2021 Debentures to be issued by the Issuer. Pending the issue of such certificates, holders of the 2021 Debentures wishing to register transfers of their 2021 Debentures may certify their forms of transfer against the register of holders of the 2021 Debentures by contacting the Issuer's registrar, Computershare Investor Services plc. On registration of any such transfers, the transferee will receive a certificate in respect of the 2021 Debentures the subject of the relevant transfers.

INFORMATION ON THE ISSUER

Introduction

The Issuer was incorporated in Scotland under the Companies Act 1948 to 1967 on 19 April 1972 with registered number SC050366 and under the name S.F.M. Investments Limited as a company limited by shares. It was re-registered as a public limited company on 22 December 1981. It changed its name to The Scottish European Investment Company Limited by special resolution dated 1 May 1972, to Stewart Enterprise Investment Company plc by special resolution dated 1 June 1981 and to its present name, Value and Income Trust plc, by special resolution dated 5 August 1986.

The Issuer operates under the Companies Act as a public limited company. The Issuer is domiciled in the UK. The Issuer's registered office is located at Kintyre House 205, West George Street, Glasgow, Scotland G2 2LW, the telephone number is 0141 306 7400 and its principal place of business is at Pollen House, 10/12 Cork Street, London W1S 3NP.

Business

The Issuer is an investment company within the meaning of the Companies Acts and has been approved as an investment trust by HMRC (or its predecessors) under the provisions now contained in the Corporation Taxes Act 2010 for each accounting period from 1974 to 2012.

Investment objectives and policy

The investment objective of the Issuer is to provide above average long-term growth in dividends and capital values through selective long term investments in higher yielding, less fashionable areas of UK commercial properties and UK quoted equity markets, particularly in smaller companies. The Issuer aims for long term real growth in dividends and capital value without undue risk.

The typical investors for whom the Issuer is designed are institutional investors and professionally advised private investors seeking, over the longer term, a high, secure dividend yield on their investments and long-term capital growth from investments principally in equities and commercial properties.

The Issuer's policy is to invest in, and its portfolio consists primarily of, quoted UK equities, UK commercial property and cash or near cash securities. It is not normally the Issuer's policy to invest in overseas shares or in unquoted companies. UK equities usually account for between half and three-quarters of the total portfolio and property for a quarter to a half. However, the asset allocation may go outside these ranges if relative market levels and investment value, or a desired increase in cash or near cash securities, make it appropriate. The Issuer focuses on the fundamental values and incomes of the businesses in which it invests – their profitability, cash flows, balance sheets, management and products and services – and the location, tenants and leases of its property investments.

The Issuer has held between 30 and 40 individual shareholdings and between 20 and 30 individual properties in recent years, but these ranges may change as the market conditions or size of the portfolio vary in future. No individual shareholding will account for more than 10% of the equity portfolio at the time of purchase. For further information see the paragraph headed "Investment Restrictions" below.

It is the Issuer's policy to increase its exposure to equities and, particularly, to property through the judicious use of borrowings. In accordance with the Articles, the Issuer's borrowings shall not (unless sanctioned by ordinary resolution of the Issuer's shareholders) exceed three times the Issuer's adjusted total of capital and reserves (within the meaning given to such term in the Articles).

All borrowings have been long term debentures (see under the heading "**Borrowings**" below). Gearing has varied between a quarter and two-fifths of the total portfolio. It is the Issuer's policy to maintain gearing at this level and not to raise new borrowings if the total net borrowings would then represent more than half of the total assets.

In accordance with the Listing Rules, any material change in the Issuer's investment policy will only be made with the approval of the Issuer's shareholders by ordinary resolution passed at a general meeting of the Issuer. Such an alteration would be announced by the Issuer through a Regulatory Information Service.

Valuations

The Issuer's property portfolio is valued as at 31 March and 30 September each year by an independent valuer in compliance with the Practice Statements contained within the RICS Valuation – Professional Standards 2012 and in accordance with the requirements of the Listing Rules of the FCA. The Issuer's equity portfolio is valued daily in accordance with the Issuer's accounting policies.

The monthly net asset value is calculated by BNP Paribas Securities Services SCA and released by the Issuer each month to a Regulatory Information Service. Calculation of the net asset value per share will be suspended only in circumstances in which the underlying data necessary to value the investments of the Issuer cannot readily or without undue expenditure be obtained. Any such suspension will be announced to an Regulatory Information Services.

Investment restrictions

The Issuer will manage its investments in a manner consistent with its published investment policy, Chapter 15 of the Listing Rules, sections 1158 and 1159 of the Corporation Taxes Act 2010. Accordingly:

- distributable income will be principally derived from investments. The Issuer will not conduct any trading activity which is significant;
- not more than 15 per cent. of distributable income will be retained by the Issuer;
- not more than 15 per cent. of the Issuer's gross assets will be lent to or invested in the securities of any one company; and

• the distribution as dividend of surpluses arising from the realisation of investments is prohibited.

Dividend policy

The dividends paid to the Issuer's shareholders depend on, inter alia, the income return on the Issuer's portfolio; they may therefore vary over time. It is the objective of the Issuer to maximise the return to its equity shareholders in the form of long term real growth in dividends and capital value without undue risk through the optimisation of the debt and equity balance. Since 1986 (when the current investment managers were appointed), the level of dividend per share has increased every year. Dividends are paid in accordance with the Articles and the restriction set out under the paragraph entitlement "Investment restrictions" above.

In the financial year ended 31 March 2011, the Issuer paid an aggregate dividend of 7.80p per share, in the financial year ended 31 March 2012 8.05p per share and, in the financial year ended 31 March 2013, 8.30p per share.

Borrowings

The non-current liabilities of the Issuer and, prior to the Reorganisation, of Audax comprise the 2021 Debentures and the 2026 Debentures. The Issuer has no other material non-current liabilities.

2021 Debentures

The 2021 Debentures are repayable at par on 31 March 2021 and, prior to the Effective Date, are secured over specific assets of the Issuer and of Audax. Following the Effective Date, the 2021 Debentures will continue to be secured over the same specific assets, each of which will be held by the Issuer.

The Trust Deed contains various covenants with which Audax or, following the Effective Date, the Issuer must comply, including the following:

- the value of the assets which are subject to charge and which secure the 2021 Debentures should not be less than one and one-half times the aggregate amount of the 2021 Debentures.
- the rental income from those assets should not be less than one and one-half times the annual interest of the 2021 Debentures (£1.65 million).
- not more than 20 per cent. of the total value of those assets should be attributable to a single property.
- not more than 10 per cent. of the assets should be attributable to leaseholds having an unexpired term of less than 50 years.

For further details of the terms and conditions of the 2021 Debentures, see Part 6 ("Terms and Conditions of the 2021 Debentures") of this document.

2026 Debentures

The 2026 Debentures are repayable at par on 30 November 2026 and are secured by a floating charge over the property and assets of the Issuer.

The trust deed dated 30 June 1995 and entered into between the Issuer and PTCL constituting the 2026 Debentures contains certain restrictions and events of default.

These include restrictions on the ability of the Issuer to:

- change its business as an investment trust;
- make disposals of the whole or a substantial part of its properties, assets or revenues;
- create security;
- reduce its share capital; and
- allow the aggregate amount of (a) the 2026 Debentures; and (b) indebtedness secured by floating charges which rank pari passu with the floating charges securing the 2026 Debentures to exceed the value of securities beneficially owned by the Issuer and quoted on the London Stock Exchange.

In addition, the restrictions include a requirement that the Issuer's aggregate borrowings (on a consolidated basis), £35 million as at 31 March 2013, must not at any time exceed the Issuer's total consolidated capital and reserves (equivalent to net assets of £135.82 million as at 31 March 2013).

Trends

Equities

Over the six month period to 30 September 2013, UK equities made further modest progress. The FTSE All Share Index rose by 1.9% and recorded a total return, including income, of +3.8%. In June 2013, fears of 'tapering' of Quantitative Easing ("QE") by the Federal Reserve in America caused sharp falls in asset prices. In July 2013, prices recovered and rose further as investors realised that QE would only be tapered when economic growth becomes firmly established and that in most parts of the world this is not yet the case. In the UK, statistics announced for growth in GDP in the second quarter (+0.7%) continued the improving trend in economic growth and resulted in upgraded forecasts for 2013 and 2014, reversing the long trend of downgraded forecasts. Mid-sized and small companies rose by 7.1% and 10.5% in their respective indices, strongly outperforming the FTSE 100 Index of the largest companies, which rose by just 0.8%. High yielding companies also underperformed with a rise of just 0.9%.

In the first quarter of 2013, UK GDP increased by 0.3% and in second quarter growth accelerated to +0.7%. Expectations for the third quarter are now for the fastest rate of growth in a single quarter since June 2007. Forecasts are now being upgraded with +1.3% and +2.0% now generally expected for GDP growth in 2013 and 2014. There has been a steady growth in the equity indices since mid 2012, with one exceptional month in June 2013, when fears about the tapering of QE briefly caused sharp falls.

The FTSE All Share Index currently yields 3.4%, with dividends continuing to grow, and compares with ten year gilt yields of 2.7%. Gilt yields remain unsustainably low, supported by QE and by the statement from the new Governor of the Bank of England that Base Rate will remain at 0.5% until the unemployment level has fallen to 7%, unless there are exceptional circumstances.

Properties

UK commercial property values have been generally increasing since the first quarter of 2013, having been decreasing since mid 2011. The Directors believe that good long term investment value offered by the current high yields (6.9% as at 30 September 2013) on well-let property is now more recognised by both institutional and debt-financed investors.

Capital values increased by about 20% from the depths of the property crash in mid-2009 to autumn 2011, and then decreased by 5%, before stabilising in early 2013. Retail and industrial/warehouse property, as well as office property outside Central London, fell by more, but rising London office values offset the negative total returns on provincial offices, which were the worst performing subsector in the IPD Index.

In the retail sector, supermarkets (which have longer than average lease lengths and often indexed rent reviews) continue to perform better than retail warehouses, high street shops and shopping centres where average rental values are still falling. Retail capital values are, however, also stabilising as institutional investors, in particular, are finding current high retail yields attractive. Capital and rental values for warehouse and industrial property have suffered from shortening lease lengths and tenants exercising break clauses, or vacating property when leases ended. Void rates are just starting to decline as the properties developed in the period 2005 to 2008 are being sold and investment sentiment in this sector is more positive.

Rental values remain under pressure in provincial offices, but office rents in London are still rising, especially in the West End where office buildings are being converted into luxury flats at a great rate as residential values increase rapidly. Letting markets are still variable, with tenants slow to sign new leases, so valuers' estimated rental values are still often too optimistic, with generous incentives to tenants not factored in.

Average property capital values are anticipated to rise by about 3% over 2013 as a whole, despite a slight drop in the first quarter of 2013, giving average total returns of 9% - 10%. Average rental values are likely to be flat over 2013, but with improving trends towards the end of the year.

As at 31 December 2013, OLIM Property Limited had £463 million of funds under thirds party discretionary management.

Articles of Association

General

The Articles (which are incorporated into this Prospectus by reference) are registered with the Registrar of Companies at Companies House. The objects of the Issuer are unrestricted.

In this paragraph "Statutes" means the Companies Act and every statute (including any orders, regulations or other subordinate legislation made under the Act) from time to time in force concerning companies so far as they apply to the Issuer.

Rights attaching to the ordinary shares

The ordinary shares (which at the date of this document are the only class of share in issue in the Issuer) have attached thereto the respective rights and privileges and are subject to the respective limitations and restrictions set out below:

Voting rights

Subject to any terms as to voting upon which any shares may be issued or may for the time being be held, on a show of hands every member who is present in person or by proxy at a general meeting of the company and every duly authorised corporate representative shall have one vote. On a poll every member who is present in person or by proxy shall have one vote for every share of which he is the holder and every person appointed as proxy of a member shall have one vote for every share in respect of which he is appointed as proxy and every duly authorised corporate representative may exercise all the powers on behalf of the company which authorised him to act as its representative and shall have one vote for every share in respect of which he is appointed as the corporate representative.

Dividend rights

The Issuer may by ordinary resolution from time to time declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the Board.

The Board may also from time to time pay such interim dividends as appear to them to be justified by the financial position of the Issuer and may also pay any dividend payable at a fixed rate at intervals settled by the Board whenever the financial position of the Issuer, in the opinion of the Board, justifies such payment. Any dividend unclaimed for a period of 12 years from the date of declaration of such dividend shall be forfeited and shall revert to the Issuer. Subject to the rights attaching to, or the terms of issue of, any shares, no dividend or other moneys payable by the Issuer on or in respect of any shares shall bear interest against the Issuer.

Distribution of assets

If the Issuer shall be wound up (whether voluntarily or otherwise), the liquidator may, with the sanction of a special resolution, divide among the members *in specie* the whole or any part of the assets of the Issuer, and that whether or not the assets shall consist of property of one kind or shall consist of properties of different kinds, and may for each purpose set such value as he deems fair upon any one or more class or classes of property and may determine how such division shall be carried out as between the members or different classes of members. The liquidator may, with the authority of a special resolution, vest the whole or any part of the assets in trustees upon such trusts for the benefit of members as the liquidator shall think fit, but not so that no member shall be compelled to accept any shares or other property in respect of which there is any liability.

Redemption rights

Subject to the provisions of the Statutes and to any rights previously conferred on the holders of any other shares, any share may be issued which is to be redeemed or is liable to be redeemed at the option of the Issuer or the holder and the Board is entitled to determine the terms, conditions and manner of redemption of any such shares.

Transfer of shares

The Articles provide that shares may be transferred on the following basis, subject to any specific restrictions set out in the Articles (including those detailed below) which may be applicable:

(i) any member may transfer all or any of his uncertificated shares by means of a relevant system in such manner provided for, and subject as provided in the Uncertificated Securities Regulations 2001 and the rules of any relevant system, and accordingly no provision of the Articles shall apply in respect of an

uncertificated share to the extent that it requires or contemplates the effecting of a transfer by an instrument in writing or the production of a certificate for the share to be transferred; and

(ii) any member may transfer all or any of his certificated shares by an instrument of transfer in any usual form or in any other form which the Board may approve. The instrument of transfer shall be executed by or on behalf of the transferor and (in the case of a partly paid share) the transferee, and the transferor shall be deemed to remain the holder of the share concerned until the name of the transferee is entered in the register of members of the Issuer in respect of it. All instruments of transfer, when registered, may be retained by the Issuer.

However, the Board may, in its absolute discretion and without giving any reason for so doing, decline to register any transfer of any share which is not fully paid provided that where such share is admitted to the Official List of the UK Listing Authority such discretion may not be exercised in such a way as to prevent dealings in shares of that class from taking place on an open and proper basis.

The Board may only decline to register a transfer of an uncertificated share in the circumstances set out in the Uncertificated Securities Regulations 2001, and where, in the case of a transfer to joint holders, the number of joint holders to whom the uncertificated share is to be transferred exceeds four.

In relation to certificated Shares, the Board may also decline to register any transfer unless:

(i) the instrument of transfer is left at the registered office of the Issuer or such other place as the Board may from time to time determine, accompanied (save in the case of a transfer by a person to whom the Issuer is not required by law to issue a certificate and to whom a certificate has not been issued) by the certificate for the share to which it relates and such other evidence as the Board may reasonably require to show the right of the person executing the instrument of transfer to make the transfer;

(ii) (if stamp duty is generally chargeable on transfers of certificated shares) the instrument of transfer is duly stamped or adjudged or certified as not chargeable to stamp duty;

(iii) the instrument of transfer is in respect of only one class of share; and

(iv) in the case of a transfer to joint holders, the number of joint holders to whom the share is to be transferred does not exceed four.

Variation of rights attaching to the shares

Subject to the provisions of the Statutes, all or any of the rights for the time being attached to any class of shares for the time being issued may from time to time (whether or not the Issuer is being wound up) be varied either with the consent in writing of the holders of not less than three-fourths in nominal value of the issued shares of that class (excluding any shares of that class held as treasury shares) or with the sanction of a special resolution passed at a separate general meeting of the holders of those shares. All the provisions of the Articles as to general meetings of the Issuer shall, *mutatis mutandis*, apply to any such separate general meeting, but so that the necessary quorum shall be two persons holding or representing by proxy not less than one third in nominal value of the issued shares of the class (excluding any shares of that class held as treasury shares), (but so that at any adjourned meeting one holder present in person or by proxy (whatever the number of shares held by him) shall be a quorum), that every holder of shares of the class present in person or by proxy (excluding any shares of that class held as treasury shares) shall be entitled on a poll to one vote for every share of the class held by him (subject to any rights or restrictions attached to any class of shares) and that any holder of shares of the class present in person or by proxy may demand a poll. The foregoing provisions shall apply to the variation of any special rights which only attach to certain shares of a particular class as if the shares carrying such special rights formed a separate class.

Alteration of capital

The Issuer may from time to time by ordinary resolution:

(i) increase its share capital by such sum to be divided into shares of such amount as the resolution shall prescribe;

(ii) consolidate, or consolidate and then divide, all or any of its share capital into shares of larger amount than its existing shares;

(iii) sub-divide all or any of its shares into shares of smaller amounts and the resolution may determine that, as between the shares resulting from the sub-division, any of them may be given any preferred, deferred or other rights or be subject to any restrictions as the Issuer has power to attach to unissued or new shares as compared with the others; and

(iv) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

Capital reserve

The Board shall establish a reserve to be called the "capital reserve" and shall either carry to the credit of such reserve from time to time all capital profits or appreciations arising on the sale, transposition, payment of or revaluation of any investment or other capital asset of the Issuer in excess of the book value thereof or apply the same in providing for depreciation or contingencies. For the avoidance of doubt, accrued but unpaid interest or any sum received in respect of accrued but unpaid interest shall not be treated as capital profits or appreciations arising on the sale, transposition, payment off of or revaluation of any investment or other capital asset. Any losses realised on the sale, transposition, payment off of or revaluation of any investment or other capital asset and any other expenses, loss or liability (or provision thereof) considered by the Board to be of a capital nature shall be carried to the debit of the capital reserve except in so far as the Board may in its discretion decide to make good the same out of other funds of the Issuer. Any increase or diminution in the amount of any index-linked stock or other index-linked obligation of the Issuer shall be carried to the debit or credit of the capital reserve so far as the Board may in its discretion decide to make good the same to other index-linked obligation of the Issuer shall be carried to the debit or credit of the capital reserve, except so far as the Board may in its discretion decide to make good the same to other funds or reserves of the Issuer shall be carried to make good the same out of or credit the same to other funds or reserves of the Issuer.

Subject to the Statutes and without prejudice to the foregoing generality, the Board may determine whether any amount received by the Issuer is to be dealt with as income or capital or partly one and partly the other. The Board may determine whether any cost, liability or expense (including, without limitation, any costs incurred or sums expended in connection with the management of the assets of the Issuer or finance costs (including, without limitation, any interest payable by the Issuer in respect of any borrowings of the Issuer)) is to be treated as a cost, liability or expense chargeable to capital or to revenues or partly one and partly the other, having regard, *inter alia*, to the investment objectives of the Issuer, and to the extent the Board determines that any such cost, liability or expense should reasonably and fairly be apportioned to capital the Board may debit or charge the same to the capital reserve.

Any surplus over the book value derived from the sale or realisation of any capital asset and any other sums representing capital profits within the meaning of section 832 of the Companies Act 2006 or any other accretions to capital assets, including in particular any sums resulting from the writing up of the book values of any capital assets and any surpluses arising from the realisation of investments, shall not be transferred to the revenue account or be regarded or treated as profits of the Issuer available for dividend or any other distribution within the meaning ascribed thereto by section 829 of the Companies Act 2006 (otherwise than by way of the redemption or purchase of any of the shares in accordance with Chapter 3 or 4 of Part 18 of the Companies Act 2006).

General Meetings

Annual general meetings shall be convened by not less than 21 clear days' notice in writing. Subject to the Statutes, all other general meetings shall be convened by not less than 14 clear days' notice in writing. The notice shall specify the place, day and time of the meeting, and the general nature of the business to be transacted. Notice of every general meeting shall be given to all members other than any who, under the provisions of the Articles or the terms of issue of the shares they hold, are not entitled to receive such notices from the Issuer, and also to the auditors of the Issuer.

Notwithstanding that a meeting of the Issuer is convened by shorter notice, it shall be deemed to have been properly convened if it is so agreed:

- (i) in the case of an annual general meeting, by all members entitled to attend and vote at the meeting; and
- (ii) in the case of any other meeting, by a majority in number of the members having a right to attend and vote at the meeting, being a majority together holding not less than 95 per cent. in nominal value of the shares giving that right.

The Board may direct that persons wishing to attend any general meeting should submit to such searches or other security arrangements or restrictions as the Board shall consider appropriate in the circumstances and shall be entitled in its absolute discretion to, or to authorise some one or more persons who shall include a Director or the secretary or the chairman of the meeting to, refuse entry to, or to eject from, such general meeting any person who fails to submit to such searches or otherwise to comply with such security arrangements or restrictions.

Appointment and removal of directors

Subject to the provisions of the Articles, and unless otherwise determined by ordinary resolution of the Issuer, the number of directors (disregarding alternate directors) shall not be less than two.

The Issuer may by ordinary resolution appoint any person who is willing to act to be a Director (either as an addition to the Board or to fill a vacancy).

The Board may also appoint any person who is willing to act to be a Director to the Board (either as an addition or to fill a vacancy). Any Director so appointed shall hold office only until the next annual general meeting and shall then be eligible for election.

Each Director shall retire from office at the third annual general meeting after the annual general meeting at which he was last elected.

In addition to any power of removal conferred by the Statutes, the Issuer may remove a Director at any time by special resolution. The office of Director shall also be vacated if:

- (i) he resigns his office by notice in writing; or
- (ii) by notice in writing he offers to resign and the Board resolves to accept such offer; or
- (iii) by notice in writing his resignation is requested by all of the other Directors and all of the other Directors are not less than three in number; or
- (iv) a registered medical practitioner who is treating that Director gives a written opinion to the Issuer stating that that Director has become physically or mentally incapable of acting as a director and may remain so for more than three months; or
- (v) by reason of a Director's mental health, a court makes an order which wholly or partly prevents that Director from personally exercising any powers or rights which that Director would otherwise have; or
- (vi) he is absent without the permission of the Board from meetings of the Board (whether or not an alternate director appointed by him attends) for six consecutive months and the Board resolves that his office is vacated; or
- (vii) he becomes bankrupt or compounds with his creditors generally; or
- (viii) he is prohibited by law from being a Director; or
- (ix) he ceases to be a Director by virtue of company law or is removed from office pursuant to the Articles.

Proceedings of Directors

Questions arising at any meeting shall be determined by a majority of votes. In the case of an equality of votes the chairman of the meeting shall have a second or casting vote.

The quorum at Board meetings shall be two Directors (unless fixed at another number by the Board).

Directors' interests

No Director or proposed or intending director shall be disqualified by his office from contracting with the Issuer, either with regard to his tenure of any office or place of profit or as vendor, purchaser or in any other manner whatever, nor shall any contract in which any Director is in any way interested be liable to be avoided, nor shall any Director who is so interested be liable to account to the Issuer or the members for any remuneration, profit or other benefit realised by the contract by reason of the Director holding that office or of the fiduciary relationship thereby established.

A Director may hold any other office or place of profit with the Issuer (except that of the auditor) in conjunction with his office of Director for such period (subject to the provisions of the Statutes) and upon

such other terms as the Board may decide, and may be paid such extra remuneration for so doing (whether by way of salary, commission, participation in profits or otherwise) as the Board or any committee authorised by the Board may decide, and either in addition or in lieu of any remuneration provided for by or pursuant to any other article of the Articles.

A Director may be or become a director or other officer of, or otherwise interested in, any company promoted by the Issuer or in which the Issuer may be interested or as regards which it has any power of appointment, and shall not be liable to account to the Issuer or the members for any remuneration, profit or other benefit received by him/her as a director or officer of or from his interest in the other company.

A Director may act by himself or his firm in a professional capacity (otherwise than as auditor) and he or his firm shall be entitled to remuneration for professional services as if he were not a Director.

A Director shall not vote on or be counted in the quorum in relation to any resolution of the Board concerning his own appointment, or the settlement or variation of the terms or the termination of his own appointment, as the holder of any office or place of profit with the Issuer or any other company in which the Issuer is interested but, where proposals are under consideration concerning the appointment, or the settlement or variation of the terms or the appointment, of two or more directors to offices or places of profit with the Issuer or any other company in which the Issuer or any other company in which the Issuer is interested, a separate resolution may be put in relation to each Director and in that case each of the Directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution unless it concerns his own appointment or the settlement or variation of the terms or the termination of his own appointment or the appointment of another Director to an office or place of profit with a company in which the Issuer is interested and the Director seeking to vote or be counted in the quorum owns one per cent. or more of it.

A Director shall not vote on, or be counted in the quorum in relation to, any resolution of the Board in respect of any actual or proposed transaction or arrangement with the Issuer in which he has an interest which (taken together with any interest of any person connected with him) is to his knowledge an interest of which he is aware, or ought reasonably to be aware, does conflict, or can reasonably be regarded as likely to give rise to a conflict, with the interests of the Issuer and, if he shall do so, his vote shall not be counted (subject to certain carve-outs).

A Director who is in any way, whether directly or indirectly, interested in an actual or proposed transaction or arrangement with the Issuer shall declare the nature and extent of his interest at the meeting of the Board at which the question of entering into the contract is first taken into consideration, if he knows his interest then exists, or in any other case at the first meeting of the Board after he knows that he is or has become so interested.

In respect of any situation in which a Director has, or can have, a direct or indirect interest that conflicts, or possibly may conflict, with the interests of the Issuer, the Board may authorise the matter, on such terms as they may determine, provided that: (i) the Director has declared the full nature and extent of the situation to the Board; and (ii) it is proposed (either by the Director in question or another) that the Board authorise the matter and upon the resolution to do so the requirement for the quorum is met without counting the Director in question and the resolution was agreed to without such Director voting or would have been agreed to if that conflicted Director's vote had not been counted.

Subject to the Statutes, the Issuer may by ordinary resolution suspend or relax the above provisions on directors' conflicts to any extent or ratify any contract not properly authorised by reason of a contravention of the Articles.

Directors' fees, expenses and remuneration

The fees paid to Directors for their services as Directors shall not exceed £75,000 per annum in aggregate or such higher amount as the Issuer may by ordinary resolution determine and such remuneration shall be divided between the Directors as the Board shall agree or, failing agreement, equally.

Any Director who is appointed to any executive office or who performs services which, in the opinion of the Board or any committee authorised by the Board, go beyond the ordinary duties of a Director, may be paid such extra remuneration as the Board (or any committee thereof) may think fit.

A Director may also be paid his reasonable travelling, hotel and incidental expenses of attending and returning from meetings of the Board (or any committee thereof) and any other meeting that he is entitled to

attend and all other costs and expenses properly and reasonably incurred by him in the conduct of the Issuer's business or in the discharge of his duties.

Untraced shareholders

Subject to various notice requirements, the Issuer may sell on the London Stock Exchange at the best price reasonably obtainable, any certificated share (including further shares issued in respect of that share) provided that: (i) for a period of 12 years at least three dividends on those shares have become payable; (ii) no such dividend has been claimed by presentation at a bank of the relevant cheque or warrant or been satisfied by the transfer of funds to a bank account designated by the holder of (or person entitled to) the shares or otherwise been transferred by means of a relevant system; and (iii) so far as the Directors are aware the Issuer has not received any communication during the relevant period from the holder of, or person entitled to those shares.

Borrowing powers

The Directors may, subject to the restrictions set out below, exercise all of the powers of the Issuer to borrow money and to mortgage or charge its undertaking, property and uncalled capital, and to issue debentures and other securities, whether outright or as collateral security for any debt, liability or obligation of the Issuer or of any third party.

The Directors shall restrict the borrowings of the Issuer and exercise all voting and other rights or powers of control exercisable by the Issuer in relation to its subsidiaries (if any) so as to secure (so far, as regards subsidiaries, as by such exercise they can secure) that the aggregate principal amount (including any fixed or minimum premium payable on final repayment) outstanding in respect of borrowings (whether secured or not) by the Issuer of and / or any of its subsidiary companies (exclusive of money outstanding in respect of borrowings by the Issuer from any such subsidiary or by any such subsidiary from another such subsidiary or from the Issuer) shall not at any time without the previous sanction of an ordinary resolution of the Issuer exceed a sum equal to three times the adjusted total of capital and reserves and shall not (until such time as the first consolidated balance sheet and profit and loss account of the Issuer shall be published) exceed the sum of £15,000,000.

Material contracts

Save as described below, the Issuer has not (i) entered into any material contracts (other than contracts in the ordinary course of business) in the two years immediately preceding the date of this document; or (ii) entered into any contracts that contain provisions under which the Issuer has any obligation or entitlement that is material to the Issuer as at the date of this document.

Investment management agreement with OLIM Limited

Under the terms of the investment management agreement between the Issuer and OLIM Limited entered into in April 2012 and a side letter to that agreement dated 24 September 2013, the annual investment management fee payable to OLIM Limited shall be calculated at the rate of 72.5% of 2/3 of 1% per cent of the gross assets of the Issuer. The management fee will remain at this level for as long as the valuation of the property portfolio is in the range of 25-30% of the valuation of the Issuer's total investment portfolio. If the property portfolio moves out of this range as at 31 March in any year, this will give rise to a further review by the Issuer of the level of management fee payable to OLIM Limited.

OLIM Limited is also entitled to a performance fee under the investment management agreement, subject to the achievement of certain criteria. The performance fee is paid annually in respect of performance over the preceding three years. The level of any performance fee payable to OLIM Limited in respect of a three year period will be on the basis of the average of the management fee rate over each of the previous three years.

The investment management agreement will continue unless and until terminated by either party giving to the other not less than one year's notice. In addition, the Issuer is entitled, by giving written notice to OLIM Limited, to terminate the investment management agreement immediately upon certain events relating to OLIM Limited, including: (i) insolvency events; (ii) on a material breach of the agreement; (iii) on a change of control; (iv) if Angela Lascelles ceases to be an executive director; and loss of appropriate FCA authorisation.

OLIM Limited is entitled, by giving notice to the Issuer, to terminate the investment management agreement immediately upon certain events relating to the Issuer, including: (i) insolvency events; or (ii) non-payment of fees. In each of these circumstances (and on any termination other than an immediate termination by the Issuer as described above), OLIM Limited shall be entitled to receive a compensation payment based on a formula set out in the investment management agreement.

Investment management agreement with OLIM Property Limited

Under the terms of the investment management agreement between the Issuer and OLIM Property Limited entered into in March 2012 and a side letter to that agreement dated 24 September 2013, the annual investment management fee payable to OLIM Property Limited shall be calculated at the rate of 27.5% of one per cent of the gross assets of the Issuer. The management fee will remain at this level for as long as the valuation of the property portfolio is in the range of 25-30% of the valuation of the Issuer's total investment portfolio. If the property portfolio moves out of this range as at 31 March in any year, this will give rise to a further review by the Issuer of the level of management fee payable to OLIM Property Limited and any change to the amount of the management fee following such review will be effective from the first day of the following financial year.

OLIM Property Limited is also entitled to a performance fee under the investment management agreement, subject to the achievement of certain criteria. The performance fee is paid annually in respect of performance over the preceding three years. The level of any performance fee payable to OLIM Property Limited in respect of a three year period will be on the basis of the average of the management fee rate over each of the previous three years.

The investment management agreement will continue unless and until terminated by either party giving to the other not less than one year's notice. In addition, the Issuer is entitled, by giving written notice to OLIM Property Limited, to terminate the investment management agreement immediately upon certain events relating to OLIM Property Limited, including: (i) insolvency events; (ii) on a material breach of the agreement; (iii) on a change of control; (iv) if Matthew Oakeshott ceases to be an executive director; and loss of appropriate FCA authorisation.

OLIM Property Limited is entitled, by giving notice to the Issuer, to terminate the investment management agreement immediately upon certain events relating to the Issuer, including: (i) insolvency events; or (ii) non-payment of fees. In each of these circumstances (and on any termination other than an immediate termination by the Issuer as described above), OLIM Property Limited shall be entitled to receive a compensation payment based on a formula set out in the investment management agreement.

Custodian Agreement

Pursuant to the terms of the custody agreement entered into in January 2005 between the Issuer and The Bank of New York Mellon, a banking corporation organised pursuant to the laws of the State of New York with registered number FC005522 and operating through its branch in London, at One Canada Square, London E14 5AL (the "**Custodian**"), the Custodian is entrusted with the securities of the Issuer. The Custodian was incorporated on 1 June 1965 in the United States and is domiciled in the United States. The Issuer may deposit cash and any securities with the Custodian, in whatever form.

The Custodian may from time to time appoint any sub-custodian in connection with the performance of its duties under the custodian agreement and will use reasonable care in the selection and continued appointment of sub-custodians.

The custody agreement was entered into in January 2005 and will continue in full force and effect until terminated by either the Custodian or the Issuer upon delivery of ninety days prior written notice to the other party. The custody agreement shall terminate automatically upon the Issuer being subject to insolvency or analogous proceedings in any jurisdiction.

The Issuer shall pay the Custodian for its services under the custodian agreement an amount by way of fees as agreed in writing between the Issuer and the Custodian from time to time (the fees in respect of the quarter ended 30 September 2013 were £10,792.15).

The custodian agreement contains provisions for the indemnification by the Issuer of the Custodian and its respective nominees against and from any and all claims, losses, liabilities, damages, costs, expenses and judgements including reasonable legal fees and expenses howsoever arising from or in connection with the

custodian agreement or the performance of their duties under the custodian agreement including disputes between the parties or the enforcement of the custodian agreement, provided that nothing in the custodian agreement shall require that the Custodian or its nominee companies be indemnified for their respective fraud, negligence or wilful default.

Secretarial and administration agreement

Pursuant to the terms of the secretarial and administration agreement entered into on 7 January 2013 between the Issuer, Audax and Maven Capital Partners UK LLP, a limited liability partnership incorporated under the laws of England and Wales (registered no. OC339387) and having its registered office at Queens Chambers, 5 John Dalton Street, Manchester M2 6ET ("**Maven**"), the Issuer appointed Maven to act as secretary of the Issuer.

The secretarial and administration agreement became effective on 1 February 2013 for an initial period of three years and will continue in full force and effect until terminated in accordance with the agreement. The agreement is terminable by either the Issuer or Maven giving to the other party no less than six months prior notice in writing to expire on 1 February 2016 or on any date thereafter. In addition, both the Issuer and Maven are entitled to terminate the agreement immediately upon certain events relating to the other party including (i) insolvency events; (ii) material breach of the agreement; and in relation to Maven (iii) loss of FCA authorisation or qualifications to act as a secretary.

As consideration for the performance of Maven's duties under the agreement, the Issuer shall pay to Maven an annual secretarial and administration fee. This fee is £130,000 for the first year, and, subject to being upwards index linked annually, £170,000 thereafter.

The agreement contains mutual indemnities in terms of which each party undertakes to indemnify, and keep indemnified, the other on demand and save it harmless against all costs, claims and demands incurred or suffered by the other arising (i) in respect of the Issuer, directly out of the proper performance by Maven of its duties under the agreement, save to the extent that such costs, claims or demands arise by reason of any breach by Maven of its duties or obligations under the agreement or the negligence, wilful default or fraud of Maven or any of its officers, or agents; and (ii) in respect of Maven, out of any breach by Maven or any of its officers, employees or agents.

The Directors Value & Income Trust plc and Audax Properties plc Pollen House 10-12 Cork Street London W1S 3NP

13 February 2014

Dear Sirs

VALUE & INCOME TRUST PLC ("THE COMPANY") VALUATION OF PROPERTY HOLDINGS AS AT 30 SEPTEMBER 2013

In accordance with instructions received from the Directors of Value & Income Trust plc ("the Directors"), the interests held by the Company and its subsidiary, Audax Properties plc ("Audax") in the properties listed in the tables at Figure 1 and Figure 2 below have been valued as at 30 September 2013.

We understand that this Valuation Report is required by the prospectus rules of the UK Financial Conduct Authority (the "Prospectus Rules") in connection with a prospectus in relation to the listing and admission to trading of certain debenture stock (the "Prospectus").

The valuations have been carried out in compliance with the Practice Statements contained within the RICS Valuation - Professional Standards 2012 and the requirements of the Prospectus Rules and the recommendations for the consistent implementation of the European Commission's Regulation on Prospectuses published by the European Securities and Markets Authority in March 2013 (the "ESMA Guidance") and in particular paragraphs 128-130 (inclusive) of the ESMA Guidance.

The interests have been valued subject to and with the benefit of any lettings which have been disclosed. No allowance has been made for expenses incurred in sale nor for taxation that may arise in the event of a disposal, deemed or otherwise, although valuations are net of a purchaser's costs. Estimates of rental or capital value exclude any VAT that may be applicable.

We confirm that the properties are regularly inspected on a rolling basis and, where available, the last external inspection dates are set out in the tables at Figure 1 and Figure 2 below. The remaining properties are due to be inspected during 2014 and were last inspected no more than 24 months prior to the date of valuation.

Documents of title and leases have not been inspected and for the purpose of these valuations details of tenure, tenancies, planning, statutory notices, floor areas and other relevant information supplied by the Company or its advisors have been accepted as correct. The properties have been valued on this basis and the understanding that there are no undisclosed matters that would affect the valuations. It is assumed, unless otherwise advised, that the title deeds and leases do not contain any unusual or onerous restrictions, covenants or other encumbrances, which would affect the value of the properties.

Save as otherwise disclosed, it has been assumed for the purpose of valuation, that the relevant interests in the properties are free of mortgage, charge or other debt security and no deduction has been made for such charge or debt.

No planning consents have been inspected save those disclosed by the Company, and it is assumed that the properties were erected, are occupied and used in accordance with all requisite consents and that there are no statutory requirements or notices outstanding. Where planning enquiries have been instituted information supplied by planning officers has been given without liability on their part and accordingly responsibility for this information cannot be accepted.

The properties have not been structurally surveyed for the purpose of this valuation, nor have the services been tested. The properties have been valued on the assumption that no known deleterious materials or techniques have been used in the construction of any of the buildings and that the ground is not susceptible to subsidence, shrinkage or any other similar hazard. No responsibility is accepted for any existing defects nor for those which may arise in the future.

We have been informed by the Company that the Company has established procedures for inspections of the subject properties to be carried out with particular reference to environmental matters and that such matters identified receive appropriate attention. We have not been provided with information to the contrary and have assumed that the properties are not, nor are likely to be, affected by land contamination or other environmental issues which would affect the present or future use of the properties.

Having regard to the foregoing, it is considered that the Market Value, which is defined as "the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arms length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion", of the interests held by the Company in the properties listed below as at 30 September 2013, subject to and with the benefit of the tenancies currently subsisting are as follows:-

We are of the opinion that the aggregate of the Market Values as at 30 September 2013 was £46,400,000 which is £175,000 higher than the equivalent aggregate figure included in the valuation as at 31 March 2013. Four properties reduced in value over the period due to being over rented and closer to their lease expiry date whilst seven increased in value due to improved market sentiment or the rent being closer to the next indexed uplift.

PART 11

TAXATION

The following applies only to persons who are the beneficial owners of 2021 Debentures and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. Holders of 2021 Debentures who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

A. INTEREST ON THE 2021 DEBENTURES

Payment of interest on the 2021 Debentures

Payments of interest on the 2021 Debentures may be made without deduction or withholding on account of United Kingdom income tax provided that the 2021 Debentures continue to be issued by a company and listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007. The London Stock Exchange is a recognised stock exchange. Securities are treated as listed on the London Stock Exchange if they are admitted to the Official List by the UK Listing Authority and admitted to trading by the London Stock Exchange. Provided, therefore, that the 2021 Debentures remain so listed, interest on the 2021 Debentures will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the 2021 Debentures may also be paid without withholding or deduction on account of United Kingdom tax where interest on the 2021 Debentures is paid to a person who belongs in the United Kingdom for United Kingdom tax purposes and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the 2021 Debentures is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest, provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that it is likely that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

In other cases, an amount must generally be withheld from payments of interest on the 2021 Debentures on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a holder of 2021 Debentures, HMRC can issue a notice to the Issuer to pay interest to the holder without deduction of tax (or for interest to be paid with tax deducted at the lower rate provided for in the relevant double tax treaty). Holders of 2021 Debentures who are individuals may wish to note that HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to or receives interest for the benefit of an individual. Information so obtained may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the holder is resident for tax purposes.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual, or certain other persons, resident in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories have adopted or agreed to adopt similar measures.

Further United Kingdom Income Tax Issues

Interest on the 2021 Debentures constitutes United Kingdom source income for tax purposes and, as such, may be subject to income tax by direct assessment even where paid without withholding. However, interest with a United Kingdom source received without deduction or withholding on account of United Kingdom tax will not be chargeable to United Kingdom tax in the hands of a holder of 2021 Debentures (other than certain trustees) who is not resident for tax purposes in the United Kingdom unless that holder

carries on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency in connection with which the interest is received or to which the 2021 Debentures are attributable (or where that holder is a company, unless that holder carries on a trade in the United Kingdom through a permanent establishment in connection with which the interest is received or to which the 2021 Debentures are attributable). There are exemptions for interest received by certain categories of agent (such as some brokers and investment managers). The provisions of an applicable double taxation treaty may also be relevant for such holders.

B. UNITED KINGDOM CORPORATION TAX PAYERS

In general, holders of 2021 Debentures which are within the charge to United Kingdom corporation tax will be charged to tax as income on all returns, profits or gains on, and fluctuations in value of, the 2021 Debentures (whether attributable to currency fluctuations or otherwise) broadly in accordance with their statutory accounting treatment.

C. OTHER UNITED KINGDOM TAX PAYERS

Taxation of Chargeable Gains

It is expected that the 2021 Debentures will be treated by HMRC as qualifying corporate bonds within the meaning of section 117 of the Taxation of Chargeable Gains Act 1992. Accordingly, a disposal of the 2021 Debentures by an individual holder should not give rise to a chargeable gain or an allowable loss for the purposes of the United Kingdom taxation of chargeable gains depending on the individual circumstances of that holder.

Accrued Income Scheme

On a disposal of 2021 Debentures by a holder, any interest which has accrued since the last interest payment date may be chargeable to tax as income under the rules of the accrued income scheme if that holder is resident in the United Kingdom or carries on a trade in the United Kingdom through a branch or agency to which the 2021 Debentures are attributable. Holders of the 2021 Debentures are advised to consult their own professional advisers for further information about the accrued income scheme.

D. STAMP DUTY AND STAMP DUTY RESERVE TAX

No United Kingdom stamp duty or stamp duty reserve tax (SDRT) is payable on a transfer of the 2021 Debentures.

E. AMENDMENTS TO THE TRUST DEED / SUBSTITUTION

The amendments to the Trust Deed and substitution of the Issuer as debtor of the 2021 Debentures should not give rise to a disposal of the 2021 Debentures, or therefore any liability to tax of chargeable gains.
