

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing charges	1.02%
Charges taken from the Fund under certain specific conditions	
Performance fee	
18% of the amount, negative or positive, that the Gross Asset Value (net asset value (NAV) before deduction of performance fee) of the Share Class exceeds the higher of i) the previous day's NAV and ii) the High Water Mark (HWM), accrued daily and paid annually. HWM for any day is NAV at the end of the last annual performance fee period where the NAV was higher than HWM, increased by the cumulative daily hurdle adjustments (based on the 3-month LIBOR rate of the Share Class Currency). In the last financial year 0.53% of daily average value of the share class was charged as performance fee. The amount charged previously was calculated under a different methodology which no longer applies.	

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on expenses for the year ending October 2018. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.

## Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2010 and the share class was launched in 2010.

Past performance has been calculated in GBP.
