

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

THREADNEEDLE UK FIXED INTEREST FUND (THE "FUND")

Class 2 Income Shares (GBP) GB00BD8GMH10, a sub-fund of Threadneedle Specialist Investment Funds ICVC (the "Company"), regulated by the FCA.

This sub-fund is managed by Threadneedle Investment Services Limited (the "Management Company") (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

The aim of the Fund is to provide income with the potential to grow the amount you invested.

The Fund invests at least two-thirds of its assets in bonds (which are similar to a loan and pay a fixed or variable interest rate) issued by the UK government and other bonds that are priced in British pounds.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can buy and sell shares in the Fund on any day that is a business day in London. You can find more detail on the objectives and investment policy of the Fund in the section of the prospectus with the heading "Investment Objectives, Policies and Other Details of the Funds".

The fund manager will make reference to the FTSE UK Gilts Government (All) index as part of the investment process. The Fund does not aim to track the index, and will not hold every security in the index and in theory may hold none. The fund manager may also invest in securities that are not in the index. The FTSE UK Gilts Government (All) index is also considered as part of Columbia Threadneedle's investment risk monitoring process, to ensure the overall level of risk taken by the fund manager is not inconsistent with the index.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,
Typically lower rewards

Higher Risk,
Typically higher rewards

- The Fund is rated 4 because historically it has shown a medium level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund invests in securities whose value would be significantly affected if the issuer refused, was unable to or was perceived to be unable to pay.
- The Fund holds assets which could prove difficult to sell. The Fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.
- Changes in interest rates are likely to affect the Fund's value. In general, as interest rates rise, the price of a fixed rate bond will fall, and vice versa.
- The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

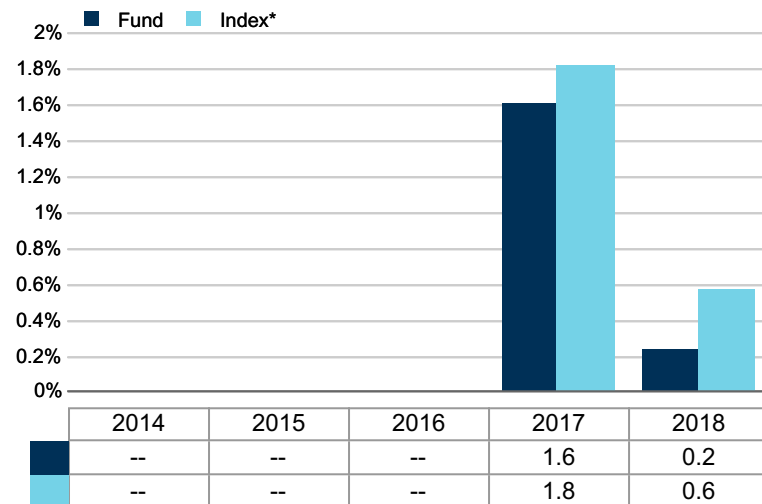

Ongoing Charges:	0.35%
------------------	-------

Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure is based on expenses for the year ending 30/04/18. This figure may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

Past Performance

Source: Morningstar

Past performance is not a guide to future performance.

Fund launch date: 09/12/2016

Share/unit class launch date: 09/12/2016

Performance is calculated in GBP.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

Performance of the Fund before 09/12/16 is based on the performance of another Fund, the Threadneedle UK Fixed Interest Fund (a sub-fund of Threadneedle Investment Funds III ICVC) which was merged into the Fund on that date.

*FTSE UK Gilts Government (All) (Although the Fund makes reference to the index as part of the investment process, it is not intended that the performance of the Fund should track the index.)
