# JPMorgan European Discovery Trust plc

(formerly JPMorgan European Smaller Companies Trust plc) Uncovering Europe's hidden gems

J.P.Morgan Asset Management

#### Objective

Capital growth from smaller European companies (excluding the United Kingdom).

#### **Investment Policies**

- To invest in a diversified portfolio of smaller companies in Europe, excluding the United Kingdom.
- To emphasise capital growth rather than income. Therefore shareholders should expect the dividend to vary from year to year.
- To manage liquidity and borrowings to increase potential returns to shareholders. The Board's current gearing policy is to be between 20% net cash and 20% geared.
- To invest no more than 15% of gross assets in other UK listed investment companies (including investment trusts).

#### Risk

It should be noted that the Company invests in the shares of smaller companies, which tend to be more volatile than those of larger companies. The Company also employs gearing to generate greater returns. The Company's shares should therefore be regarded as carrying greater than average risk.

#### Benchmark

MSCI Europe (ex UK) small cap net total return index in sterling terms. (Prior to 31st March 2020, it was the Euromoney Smaller European Companies (ex UK) Total Return Index in sterling terms).\*

#### **Capital Structure**

At 30th September 2021, the Company's share capital comprised 159,462,885 ordinary shares of 5p each.

#### **Management Company and Company Secretary**

The Company employs JPMorgan Funds Limited ('JPMF' or the 'Manager') as its Alternative Investment Fund Manager and Company Secretary. JPMF delegates the management of the Company's portfolio to JPMorgan Asset Management (UK) Limited ('JPMAM').

#### Association of Investment Companies ('AIC')

The Company is a member of the AIC.

#### Website

The Company's website, which can be found at www.jpmeuropeandiscovery.co.uk, includes useful information on the Company, such as daily prices, factsheets and current and historic half year and annual reports.

\* The free float adjusted market capitalisation range for the Index is 108m - 6.5bn

# Chairman's Statement

Marc van Gelder Chairman

Dear Shareholder,

I am pleased to present the Company's results for the half-year ended 30th September 2021.

#### Performance

I would like to report that as a result of positive stock selection, the Company recorded a total return on net assets of +13.3% in the six months to 30th September 2021, outperforming the Company's benchmark index, the MSCI Europe (ex UK) Small Cap Index, which returned +9.8% over the same period. The total return to shareholders was +11.7%, reflecting a slight widening of the discount at which the Company's shares trade from 12.9% to 14.4% over the six months.

The Company's longer term performance remains strong with the 5 year and 10 year total return on net assets rising 76.7% and 311.4%, respectively, whilst the benchmark total return rose 78.1% and 273.2%. The Investment Managers' Report that follows provides a review of markets, more detail on the performance drivers within the portfolio and the outlook for investing.

#### **Revenue and Dividends**

Gross revenue return for the six months to 30th September 2021 was higher than the corresponding period in 2020 at 6.57 pence per share (2020: 4.46 pence), reflecting the fact that many companies are slowly coming back to pre-Covid dividend levels. The Board has decided to maintain the interim dividend of 1.2 pence (2020: 1.2 pence) per share which will be paid on 28th January 2022 to shareholders on the register as at 17th December 2021 (the ex-dividend date will be 16th December 2021). The Board will keep this under review and take into account the income received and the level of the Company's revenue reserves when determining the final dividend for the year in 2022.

#### **Discount Management and Share Repurchases**

The Board continues to monitor closely the level of the discount and considers its ability to repurchase shares to minimise the short term volatility and the absolute level of the discount of prime importance. No shares were repurchased in the six months to 30th September 2021; however, since then [243,930] shares have been repurchased, at an average discount of [13.21]%.

#### The Board

The 2021 Annual Report highlighted that the Board progressed its succession plans during the year resulting in the decision to appoint Sarah Watters as an independent non-executive director with effect from 1st July 2021. As planned and announced previously, Stephen White retired from the Board on 31st October 2021, having served as a Director for more than nine years. Further, as announced on 8th September 2021, due to external time commitments, Tanya Cordrey also stepped down from the Board, on 26th November 2021. The Board would like to thank Stephen and Tanya for their significant contributions to the Company during their tenure and wishes them well for the future.

The Board has commenced a recruitment process to ensure that it continues to have an appropriate balance of skills and diverse approaches to its tasks.

#### Environmental, Social and Governance ('ESG')

The Board has continued to engage with the Manager on the integration of ESG factors into its investment process. While the investment managers have always considered ESG issues in their investment process, it is now rigorously integrated into their investment processes so that these are considered at every stage of the investment decision. For more details, please refer to pages 19 to 21 of the 2021 Annual Report which can be found on the Company's website at: www.jpmeuropeandiscovery.co.uk

#### Name Change

The Company changed its name in June 2021 to better reflect the Company's investment strategy and portfolio. The name change was well received by the investors.

#### **Outlook**

Europe's economy recovered strongly over the summer after being severely affected by Covid-19 in the spring. However, supply chain disruption, enormous increases in energy prices, shortage of certain key products and the potential for new variants of Covid-19 to flare up continue to threaten economic growth. European companies have weathered the difficult 2020 well and are generally in good shape. There is substantial fiscal stimulus coming through in Europe and the US as the recovery from Covid-19 takes priority. This will help support equities, as will the measures taken by the European Central Bank. Monetary and fiscal policy remain extremely supportive despite growing inflationary pressures. While uncertainty still looms, this will not distract the investment team from executing their philosophy and process. We are fortunate that our stock research is conducted in a large diverse region of opportunities. It allows us to uncover high quality niche opportunities at attractive prices, and this is what will drive our long-term returns.

Marc van Gelder

Francesco Conte Investment Manager

Edward Greaves Investment Manager

#### Review

During the six months to September 2021, equity markets continued to rise strongly from the Covid-19 related sell off in early 2020. Earnings grew more strongly than expected as the economic backdrop remained supportive and companies proved to be better than expected at coping with cost inflation.

During the period the benchmark MSCI Europe (ex UK) Small Cap Net Total Return Index rose by 9.8 per cent, outperforming the large cap MSCI Europe (ex UK) Net Total Return Index that rose by 8.3 per cent.

#### Portfolio

With a return of 13.3 per cent over the six months to September 2021, the NAV of the portfolio outperformed its benchmark by 3.5 per cent.

Contributors to performance included two suppliers to the healthcare industry, Eckert & Ziegler in Germany and Vitrolife in Sweden. Eckert & Ziegler is benefitting from growing demand for their radionuclide generators which are used by the healthcare industry for the diagnosis and treatment of cancer. Vitrolife is a global leader in providing fertility solutions for IVF clinics and it recently announced the acquisition of Igenomix to complement its offering in the fast growing genetic testing segment. The Italian IT consultant, Reply, also contributed to performance as demand for its digitalisation expertise remained buoyant.

Detractors from performance included Scatec Solar, a Norwegian listed renewable energy generation company focused on emerging markets, due to concerns that it will not achieve its targeted growth objectives this year; Valeo, a French automotive components supplier, due to concerns around order intake in its electric mobility JV with Siemens; and Aramis, a French used car e-commerce platform, which underperformed despite its guidance upgrade because of uncertainties around the supply of pre-registered cars due to chip shortages.

During the period we continued to reduce our exposure to renewable energy generation via the disposals of ERG, Falck Renewables and Scatec Solar, as we believed that their valuations had become less attractive while competition is increasing. We also sold Stillfront, the Swedish mobile video game developer, as we considered Apple's privacy rules change to be a significant threat to their business model, and the aforementioned automotive components supplier, Valeo.

The proceeds from these divestments were used to continue to add to fundamentally high quality companies with strong growth prospects. These include intralogistics solutions providers such as Interroll and Kardex, which are seeing increased investment into warehouse automation as their clients recognise the growing importance of efficient supply chains; Bachem, the global leader in the contract manufacturing of peptides used by the pharma industry, which sees a fast-growing pipeline of new drugs using peptides and increasing outsourcing of manufacturing by pharma companies; and Lotus Bakeries, the Belgian manufacturer of Biscoff biscuits and other snacks, which has successfully entered the US market and continues to gain market share in the biscuit industry. We also increased our exposure to the insurance sector by topping up Unipol Gruppo, Helvetia and asr Nederland due to attractive valuations.

During the period we participated in a number of IPOs: of Azelis, a specialty chemical distributor, which is a high-quality company with defensive properties; Aramis, the French used cars e-commerce platform, whose leading position in Europe puts it in a strong position to capture a greater share of the used cars market; Cherry, a German manufacturer of high-end components for gaming and industrial keyboards; Vimian, a Swedish company that intends to consolidate the fragmented animal health market; and Antin, a French infrastructure fund manager, which should see strong demand for their funds given the yield offered by infrastructure.

Based on the Industry Classification Benchmark (ICB) methodology, Software & Computer Services remains the largest sector overweight as we invest in companies benefitting from technological disruption. Construction & Materials remains the second largest sector overweight due to our investments in companies benefitting from the drive to improve building energy efficiency. Non-life insurance has become the third largest sector overweight due to attractive valuations and further earnings recovery potential as economies continue to normalise. The two largest sector underweights are Real Estate and Banks, both sectors we see as commoditised.

France has become the largest country overweight followed by Italy, while Germany and Spain are the largest underweights.

Gearing decreased over the period, ending at 1.2 per cent, versus 8.8 per cent gearing at the start of the period. There are a number of interesting upcoming IPOs and we want to ensure that we have sufficient funds to participate in these.

#### Outlook

The global economy continues to bounce back strongly as lockdowns are eased, supported by accommodative fiscal and monetary policies. However, due to this rapid growth, supply chains have been placed under extreme pressure which has resulted in component shortages and increasing input costs. In this context, we focus on high-quality companies that have pricing power, allowing them to mitigate cost inflation via price increases. We expect these pressures to alleviate over time as supply constraints are resolved and economic growth slows back to trend.

The discovery of the new Omicron Covid variant has roiled markets. It is too early to know how disruptive this new variant will be to economic activity although it does seem likely that existing vaccines are likely to provide some protection. Additionally, governments are now in a much better position to control new outbreaks given past experience. While it does appear that Covid will remain with us perhaps indefinitely, this risk should be mitigated by our continued focus on companies that have a combination of high returns on invested capital, strong cash flows, business models that are protected by economic moats and end markets that are likely to remain strong for the foreseeable future.

All revenue and capital items in the above statement derive from continuing operations. No operations were acquired or discontinued in the period.

The 'Total' column of this statement is the profit and loss account of the Company and the 'Revenue' and 'Capital' columns represent supplementary information prepared under guidance issued by the Association of Investment Companies.

The net return after taxation represents the profit for the period/year and also the total comprehensive income.

#### FOR THE SIX MONTHS ENDED 30TH SEPTEMBER 2021

#### 1. Financial statements

The information contained within the financial statements in this half year report has not been audited or reviewed by the Company's auditors.

The figures and financial information for the year ended 31st March 2021 are extracted from the latest published financial statements of the Company and do not constitute statutory accounts for that year. Those financial statements have been delivered to the Registrar of Companies, including the report of the auditors which was unqualified and did not contain a statement under eithe section 498(2) or 498(3) of the Companies Act 2006.

#### 2. Accounting policies

The financial statements have been prepared in accordance with the Companies Act 2006, FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' of the United Kingdom Generally Accepted Accounting Practice ('UK GAAP') and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' (the revised 'SORP') issued by the Association of Investment Companies in October 2019.

FRS 104, 'Interim Financial Reporting', issued by the Financial Reporting Council ('FRC') in March 2015 has been applied in preparing this condensed set of financial statements for the six months ended 30th September 2021.

All of the Company's operations are of a continuing nature.

The accounting policies applied to this condensed set of financial statements are consistent with those applied in the financial statements for the year ended 31st March 2021.

#### 3. Return per share

|   | (Unaudited)<br>Six months ended<br>30th September 2021<br>£'000 | (Unaudited)<br>Six months ended<br>30th September 2020<br>£'000 | (Audited)<br>Year ended<br>31st March 2021<br>£'000 |
|---|---|---|---|
| Return per share is based on the following: |   |   |   |
| Revenue return                              | 10,471  | 7,112   | 7,051   |
| Capital return                              | 101,654   | 245,927   | 332,684   |
| Total return                                | 112,125   | 253,039   | 339,735   |
| Weighted average number of shares in issue  | 159,462,885   | 159,462,885   | 159,462,885   |
| Revenue return per share                    | 6.57p   | 4.46p   | 4.42p   |
| Capital return per share                    | 63 <b>.</b> 75p   | 154.22p   | 208.63p   |
| Total return per share                      | 70.32p  | 158.68p   | 213.05p   |

#### 4. Dividends paid

|  | (Unaudited)         | (Unaudited)         | (Audited)       |
|--|---------------------|---------------------|-----------------|
|  | Six months ended    | Six months ended    | Year ended      |
|  | 30th September 2021 | 30th September 2020 | 31st March 2021 |
|  | £'000               | £'000               | £'000           |
| 2021 final dividend of 5.5p (2020: 5.5p) per share | 8,770               | 8,770               | 8,770           |
| 2021 interim dividend of 1.2p per share            | –                   | _                   | 1,914           |
| Total dividends paid in the period/year            | 8,770               | 8,770               | 10,684          |

All dividends paid in the period/year have been funded from the revenue reserve.

An interim dividend of 1.2p (2020: 1.2p) has been declared in respect of the six months ended 30th September 2021, amounting to £1,914,000.

#### 5. Net asset value per share

|                           | (Unaudited)<br>Six months ended<br>30th September 2021 | (Unaudited)<br>Six months ended<br>30th September 2020 | (Audited)<br>Year ended<br>31st March 2021 |
|---------------------------|--|--|--|

| Level 1<br>Level 2 <sup>1</sup> | 961,055<br>1    | _<br>(18)                                 | 804,024         |  | 921,200         | _<br>_                                |
| Total                           | 961,056         | (18)                                      | 804,024         | -  | 921,200         | -                                     |

<sup>1</sup> Includes forward foreign currency contracts.

# Interim Management Report

The Company is required to make the following disclosures in its half year report:

#### **Principal Risks and Uncertainties**

The principal risks and uncertainties faced by the Company fall into the following broad categories: investment underperformance and strategy; market and currency; accounting, legal and regulatory; operational; cyber crime, financial, corporate governance and shareholder relations, pandemic risk and emerging risks. Information on these areas is given within the Annual Report and Financial Statements for the year ended 31st March 2021.

#### **Related Parties Transactions**

During the first six months of the current financial year, no transactions with related parties have taken place which have materially affected the financial position or the performance of the Company.

#### **Going Concern**

The Directors believe, having considered the Company's investment objectives, risk management policies, capital management policies and procedures, the nature of the portfolio and expenditure projections, taking into account the impact of Covid-19 on the revenue expected from underlying investments in these projections, the Company has adequate resources, an appropriate financial structure and suitable management arrangements in place to continue in operational existence for the foreseeable future. More specifically, that there are no material uncertainties pertaining to the Company that would prevent its ability to continue in such operation existence for at least twelve months from the date of the approval of this half yearly financial report. The Company's investments are in quoted securities which are readily realisable and exceed its liabilities significantly. Gearing levels and compliance with loan notes covenants are reviewed by the Board on a regular basis. The Company's key third party suppliers, including its Manager, are not experiencing any operational difficulties to adversely affect their services to the Company. For these reasons, they consider that there is reasonable evidence to continue to adopt the going concern basis in preparing the financial statements.

#### **Directors' Responsibilities**

The Board of Directors confirms that, to the best of its knowledge:

- (i) the condensed set of financial statements contained within the half-yearly financial report has been prepared in accordance with FRS 104 'Interim Financial Reports' and gives a true and fair view of the state of affairs of the Company and of the assets, liabilities, financial position and net return of the Company, as at 30th September 2021, as required by the UK Listing Authority Disclosure Guidance and Transparency Rules 4.2.4R; and
- (ii) the interim management report includes a fair review of the information required by 4.2.7R and 4.2.8R of the UK Listing Authority Disclosure Guidance and Transparency Rules.

In order to provide these confirmations, and in preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business;

and the Directors confirm that they have done so.

For and on behalf of the Board Marc van Gelder Chairman

8th December 2021

# Shareholder Information

#### **Return to Shareholders (APM)**

Total return to the shareholders, on a last traded price to last traded price basis, assuming that all dividends received were reinvested, without transaction costs, into the shares of the Company at the time the shares were quoted ex-dividend.

| Total return calculation                      | Page | Six months ended<br>30th September 2021 |     |
|---|------|---|-----|
| Opening share price (p)                       | 4    | 462.0                                   | (a) |
| Closing share price (p)                       | 4    | 510.0                                   | (b) |
| Total dividend adjustment factor <sup>1</sup> |      | 1.011494                                | (C) |
| Adjusted closing share price (d = b x c)      |      | 515.9                                   | (d) |
| Total return to shareholders (e = d / a - 1)  |      | 11.7%                                   | (e) |

<sup>1</sup> The dividend adjustment factor is calculated on the assumption that the dividends paid out by the Company are reinvested into the shares of the Company at the last traded price quoted at the ex-dividend date.

#### Return on Net Assets (APM)

Total return on net asset value ('NAV') per share, on a bid value to bid value basis, assuming that all dividends paid out by the Company were reinvested, without transaction costs, into the shares of the Company at the NAV per share at the time the shares were quoted ex-dividend.

| Total return calculation                      | Page | Six months ended<br>30th September 2021 |     |
|---|------|---|-----|
| Opening NAV per share (p)                     | 4    | 530.7                                   | (a) |
| Closing NAV per share (p)                     | 4    | 595.5                                   | (b) |
| Total dividend adjustment factor <sup>1</sup> |      | 1.009653                                | (C) |
| Adjusted closing NAV per share (d = b x c)    |      | 601.2                                   | (d) |
| Total return on net assets (e = d / a - 1)    |      | 13.3%                                   | (e) |

<sup>1</sup> The dividend adjustment factor is calculated on the assumption that the dividends paid out by the Company are reinvested into the shares of the Company at the NAV at the ex-dividend date.

In accordance with industry practice, dividends payable which have been declared but which are unpaid at the balance sheet date are deducted from the NAV per share when calculating the total return on net assets.

#### Benchmark total return

Total return on the benchmark, on a closing-market value to closing-market value basis, assuming that all dividends received were reinvested, without transaction costs, in the shares of the underlying companies at the time the shares were quoted ex-dividend.

The benchmark is a recognised index of stocks which should not be taken as wholly representative of the Company's investment universe. The Company's investment strategy does not follow or 'track' this index and consequently, there may be some divergence between the Company's performance and that of the benchmark.

#### Gearing/(Net Cash) (APM)

Gearing represents the excess amount above shareholders' funds of total investments, expressed as a percentage of the shareholders' funds. If the amount calculated is negative, this is shown as a 'net cash' position.

|   |      | 30th September<br>2021 |         |     |
|---|------|------------------------|---------|-----|
| Gearing calculation                                   | Page | £'000                  | £'000   |     |
| Investments held at fair value through profit or loss | 15   | 961,055                | 921,200 | (a) |
| Net assets  | 15   | 949,659                | 846,304 | (b) |
| Gearing/(net cash) (c = a / b - 1)                    |      | 1.2%                   | 8.8%    | (C) |

#### Ongoing Charges (APM)

The ongoing charges represent the Company's management fee and all other operating expenses excluding finance costs payable, expressed as a percentage of the average of the daily cum-income net assets during the year and is calculated in accordance with guidance issued by the Association of Investment Companies.

The figure as at 30th September 2021 is an estimated annualised figure based on the numbers for the six months ended 30th September 2021.

| Ongoing charges calculation                            | Page | 30th September<br>2021<br>£'000 | 31st March<br>2021<br>£'000 |     |
|--|------|---------------------------------|-----------------------------|-----|
| Management Fee   | 14   | 7,786                           | 6,092                       |     |
| Other administrative expenses                          | 14   | 618                             | 675                         |     |
| Total management fee and other administrative expenses |      | 8,404                           | 6,767                       | (a) |
| Average daily cum-income net assets                    |      | 932,643                         | 741,466                     | (b) |
| Ongoing charges (c = a / b)                            |      | 0.90%                           | 0.91%                       | (C) |

#### Share Price Discount/Premium to Net Asset Value ('NAV') per Share (APM)

If the share price of an investment trust is lower than the NAV per share, the shares are said to be trading at a discount. The discount is shown as a percentage of the NAV per share.

The opposite of a discount is a premium. It is more common for an investment trust's shares to trade at a discount than at a premium.

You can invest in a J.P. Morgan investment trust through the following:

#### 1. Via a third party provider

Third party providers include:

AJ Bell You Invest Barclays Smart Investor Charles Stanley Direct Fidelity Personal Investing Halifax Share Dealing Hargreaves Lansdown Interactive Investor Selftrade EQi

Please note this list is not exhaustive and the availability of individual trusts may vary depending on the provider. These websites are third party sites and J.P. Morgan Asset Management does not endorse or recommend any. Please observe each site's privacy and cookie policies as well as their platform charges structure.

The Board encourages all of its shareholders to exercise their rights and notes that many specialist platforms provide shareholders with the ability to receive company documentation, to vote their shares and to attend general meetings, at no cost. Please refer to your investment platform for more details, or visit the Association of Investment Companies' ('AIC') website at www.theaic.co.uk/aic/shareholder-voting-consumer-platforms for information on which platforms support these services and how to utilise them.

#### 2. Through a professional adviser

Professional advisers are usually able to access the products of all the companies in the market and can help you find an investment that suits your individual circumstances. An adviser will let you know the fee for their service before you go ahead. You can find an adviser at unbiased.co.uk

You may also buy investment trusts through stockbrokers, wealth managers and banks.

## Be ScamSmart

# Investment scams are designed to look like genuine investments

#### Spot the warning signs

Have you been:

- contacted out of the blue
- promised tempting returns
- and told the investment is safe
- called repeatedly, or
- told the offer is only available for a limited time?

If so, you might have been contacted by fraudsters.

#### Avoid investment fraud

- **1 Reject cold calls** If you've received unsolicited contact about an investment opportunity, chances are it's a high risk investment or a scam. You should treat the call with extreme caution. The safest thing to do is to hang up.
- **2 Check the FCA Warning List** The FCA Warning List is a list of firms and individuals we know are operating without our authorisation.
- **3 Get impartial advice** Think about getting impartial financial advice before you hand over any money. Seek advice from someone unconnected to the firm that has approached you.

Remember: if it sounds too good to be true, it probably is!

#### Report a Scam

If you suspect that you have been approached by fraudsters please tell the FCA using the reporting form at www.fca.org.uk/consumers/reportscam-unauthorised-firm. You can also call the FCA Consumer Helpline on 0800 111 6768

If you have lost money to investment fraud, you should report it to Action Fraud on 0300 123 2040 or online at www.actionfraud.police.uk

Find out more at www.fca.org.uk/scamsmart

#### History

On 24th April 1990, the Company acquired the undertaking and assets of Fleming European Fledgeling Fund Limited (the 'Fund') in exchange for the issue of its shares and warrants. That Fund was an open-ended, unquoted investment company based in Jersey with the same objectives and investment policies as the Company. The Company changed its name from JPMorgan European Smaller Companies Trust plc to JPMorgan European Discovery Trust plc on 15th June 2021. It is a constituent of the FTSE 250 index.

## FCA regulation of 'non-mainstream pooled investments' and 'Complex Instruments'

The Company currently conducts its affairs so that the shares it issues can be recommended by Independent Financial Advisers to ordinary retail investors in accordance with the rules of the Financial Conduct Authority ('FCA') in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future.

The shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment trust.

The Company's ordinary shares are not considered to be 'complex instruments' under the FCA's 'Appropriateness' rules and guidance in the Conduct of Business sourcebook.
