

Xtrackers FTSE 100 Short Daily Swap UCITS ETF

Share Class: 1C (ISIN: LU0328473581), (WKN: DBX1AV), (Currency: GBP)

a sub fund of Xtrackers. The Fund is managed by DWS Investment S.A., part of the DWS Group.

Objectives & Investment Policy

The Fund is passively managed. The aim is for your investment to track the performance of the FTSE 100 Daily Short Index (Index) which provides the opposite performance of the FTSE 100 Total Return Declared Dividend Index (Underlying Index) on a daily basis plus a rate of interest and minus borrowing costs. This means that the level of the Index should rise when the Underlying Index falls and fall when the Underlying Index rises on a daily basis. The interest rate added to the Index level is based on double the rate at which banks in London lend to each other on an overnight basis (as reported to the Bank of England). The Underlying Index reflects the performance of the shares of the largest 100 UK companies listed on the London Stock Exchange.

The companies are selected on the basis that they have the largest combined value of shares as compared to other companies on the stock exchange. The Index is calculated on a gross total return basis which means that all dividends and distributions are reinvested in the shares. The composition of the Underlying Index is reviewed quarterly.

To achieve the aim, the Fund will enter into financial contracts (derivatives) with one or more swap counterparties to swap most subscription proceeds for the return on the Index.

No dividends will be paid on your shares.

You may redeem your shares on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 5 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund does not invest directly in the components of the Index and its returns will be dependent on the performance of the derivatives used.

The Fund may enter into one or more derivatives with one or more counterparties. If any of the counterparties fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

DWS entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Index is constructed to track the performance of a negative (known as a short) position on the Underlying Index, meaning that the level of the Index should rise when the Underlying Index falls and fall when the Underlying Index rises. The Index is designed to do this on a daily basis only which should not be equated with seeking a short position for periods longer than a day. The performance of the Fund over periods longer than one day may not be inversely proportional or symmetrical with the returns of the Underlying Index.

The Fund is intended for investors who wish to take a very short term view on the Underlying Index and whose investments are not intended as buy and hold investments.

The derivative used to gain exposure to the Index may be adjusted to reflect certain expenses in relation to taxes and/or buying, selling, borrowing, financing or custody costs. These replication costs may result in the Fund and your investment suffering a loss.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | None |
| Exit charge | None |
| This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge). | |
| Charges taken from the Fund over a year | |
| Ongoing charges | 0.50% |
| Charges taken from the Fund under certain specific conditions | |
| Performance fee | None |

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the Fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the year ending October 2018. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2008 and the share class was launched in 2008.

Past performance has been calculated in GBP.

■ Fund
■ Index

--- As of 16 January 2014 the Fund changed its investment objective to reflect the performance of the Index. The past performance shown from 2009 up to 2013 (inclusive), is that of the FTSE 100 Short Index.
