In this case a short description of the Element is included in the summary with the mention of “not applicable”.

Notes:

- In years prior to 31 March 2012 the Group accounted for all of its swap instruments as effective hedges and took changes in fair value movements to other comprehensive income. However, in 2012, the Board determined that a swap attaching to £111 million of borrowings should not have been treated as an effective hedge, in accordance with IAS 39, due to the non-coterminous periods of the swap and the loan, and that changes in fair value should have been dealt with in profit and loss. The figures set out above for the year ending on 31 March 2011 have been extracted from the Group's 31 March 2011 financial statements as originally published. These were restated in the 31 March 2012 financial statements, based on the Group's current accounting policies and are set out below.
- Restated figure – (9,195)

B.34	Description of investment objective, policy and investment restrictions	<p>The Company's investment objective and policy is set out below. The investment policy has not changed materially since the launch of the Company but has been amended from time to time by the Board in consultation with the Investment Manager.</p> <p>Evolving structural and cyclical changes in the UK commercial property market means that, in the view of the Investment Manager, there is an opportunity to broaden the Company's investable universe through exposure to additional alternative property types such as healthcare, hotels and student accommodation. These alternative property types could make a positive contribution to performance through diversification and other benefits such as longer lease terms with inflation-linked rents.</p> <p>Whilst this is not a material change to the investment policy but more an expansion of it, the Board believes that Shareholders should be given the opportunity to approve this restated investment policy and, accordingly, the Investment Policy Resolution will be proposed to Shareholders at the EGM.</p> <p>2.1 <i>Current investment objective and policy</i></p> <p><i>Investment objective</i></p> <p>The investment objective of the Company is to provide shareholders with an attractive level of income together with the potential for income and capital growth through investing in UK commercial property. The Group invests principally in the UK commercial property sectors including office, retail and industrial and it may invest in other sectors from time to time, such as residential and leisure.</p> <p><i>Investment policy</i></p> <p>The investment policy of the Company is to own a diversified portfolio of UK commercial property with good fundamental characteristics, as outlined below.</p> <p><i>Diversification and asset allocation</i></p> <p>The Board believes that, in order to maximise the stability of the Group's income, the optimal strategy for the Group is to invest in a portfolio of assets diversified by location, sector, asset size and tenant exposure with low vacancy rates and creditworthy tenants. The value of any individual asset at the date of its acquisition must not exceed 15 per cent. of gross assets and the proportion of rental income deriving from a single tenant must not exceed 10 per cent. From time to time the Board may also impose limits on sector, location and tenant types, together with other activity such as development. At present, the Board has instructed the Investment Manager to seek to maintain the Group's exposure to the office sector at below 60 per cent. of the total</p>

value of the Group's assets. This instruction will be kept under review by the Board.

The Company's portfolio will be invested and managed in accordance with the Listing Rules, the Listing Rules of the CISE and taking into account the Company's investment objectives, policies and restrictions.

Borrowings

The Board has established a gearing guideline for the Investment Manager, which seeks to limit on-balance-sheet debt, net of cash, to 40 per cent. of on-balance-sheet assets while recognising that this may be exceeded in the short term from time to time. It should be noted that the Company's Articles limit its borrowings to 65 per cent. of the Group's gross assets, calculated as at the time of borrowing. The Board keeps this guideline under review and the Directors may require the Investment Manager to manage the Group's assets with the objective of bringing borrowings within the appropriate limit while taking due account of the interests of Shareholders. Accordingly, corrective measures may not have to be taken immediately if this would be detrimental to Shareholder interests.

Interest rate exposure

It is the Board's policy to hedge interest rate risk, either by ensuring that borrowings are on a fixed rate basis, or through the use of interest rate swaps/derivatives used solely for hedging purposes. There are currently no interest rate swaps due to the fixed rate nature of the newly refinanced debt.

2.2 *New investment objective and policy*

Conditional on the Investment Policy Resolution being passed, the Company's investment objective and policy will be as follows:

Investment objective

The investment objective of the Company is to provide Shareholders with an attractive level of income together with the potential for income and capital growth through investing predominantly in UK commercial property.

Investment policy

The investment policy of the Company is to own a diversified portfolio of UK property with good fundamental characteristics, as outlined below. The Group invests principally in the UK commercial property sectors including office, retail and industrial and will also invest in other sectors including mixed use, residential, hotels, healthcare and leisure.

		<p><i>Diversification and asset allocation</i></p> <p>The Board believes that, in order to maximise the stability of the Group's income, the optimal strategy for the Group is to invest in a portfolio of assets diversified by location, sector, asset size and tenant exposure with low vacancy rates and creditworthy tenants. The value of any individual asset at the date of its acquisition must not exceed 15 per cent. of gross assets and the proportion of rental income deriving from a single tenant must not exceed 10 per cent. From time to time the Board may also impose limits on sector, location and tenant types, together with other activity such as development.</p> <p>The Company's portfolio will be invested and managed in accordance with the Listing Rules, the Listing Rules of the CISE and taking into account the Company's investment objectives, policies and restrictions.</p> <p><i>Borrowings</i></p> <p>The Board has established a gearing guideline for the Investment Manager, which seeks to limit on-balance-sheet debt, net of cash, to 40 per cent. of on-balance-sheet assets while recognising that this may be exceeded in the short term from time to time. Accordingly, corrective measures may not have to be taken immediately if this would be detrimental to Shareholder interests.</p> <p><i>Interest rate exposure</i></p> <p>It is the Board's policy to hedge interest rate risk, either by ensuring that borrowings are on a fixed rate basis, or through the use of interest rate swaps/derivatives used solely for hedging purposes.</p>
B.35	Borrowing and/or leverage limits	<p>Borrowings</p> <p>On 16 April 2013, the Company announced the completion of a new £129.58 million loan facility with Canada Life to refinance its £114.5 million securitised loan in full. This represented the successful conclusion of a strategy of selective property disposals, where asset management initiatives had been completed, to reduce the quantum of the Company's debt and its loan to value ratio in order to optimise the terms of the refinancing.</p> <p>The Board has established a gearing guideline for the Investment Manager, which seeks to limit on-balance-sheet debt, net of cash, to 40 per cent. of on-balance-sheet assets while recognising that this may be exceeded in the short term from time to time. It should be noted that the Company's Articles limit its borrowings to 65 per cent. of the Group's gross assets, calculated as at the time</p>

		<p>of borrowing. The Board keeps this guideline under review and the Directors may require the Investment Manager to manage the Group's assets with the objective of bringing borrowings within the appropriate limit while taking due account of the interests of Shareholders. Accordingly, corrective measures may not have to be taken immediately if this would be detrimental to Shareholder interests.</p>

The NAV is published through a regulatory information service provider to the London Stock Exchange and the CISE as soon as practicable after the end of the relevant quarter. The publication of the NAV per Ordinary Share will only be suspended in circumstances where the underlying data necessary to value the Company's investments cannot readily, or without undue expenditure, be obtained having regard to the fact that, in such circumstances, the CISE may require the listing of the Ordinary Shares on its Official List to be suspended. It is expected that Admission will become effective and that unconditional dealings in the New Shares will commence during the period from 17 April 2014 to 19 March 2015.
C.7	Dividend policy	Dividends may be paid to holders of Ordinary Shares whenever the financial position of the Company, in the opinion of the Directors, justifies such payment, subject to the Company being

	<p>able to satisfy the solvency test, as defined under the Law, immediately after payment of such dividend. The Company may by ordinary resolution from time to time declare dividends. The dividend policy adopted by the Board is to typically pay dividends to holders of Ordinary Shares quarterly in February, May, August and November in each year.</p> <p>The dividends paid on each Ordinary Share in respect of the last three financial years were as follows: 3.52 pence (2011); 3.52 pence (2012); and 3.52 pence (2013). Section D – Risks		
D.1	Key information on the key risks that are specific to the Company	<ul style="list-style-type: none"> • Property and property-related assets are inherently subjective as regards value due to the individual nature of each property. As a result, valuations are subject to uncertainty. • Property investments can perform in a cyclical nature and values can increase or decrease. Economic, political, fiscal and legal issues can affect values as they can with any other investment. • The performance of the Company would be adversely affected by a downturn in the property market in terms of capital value or a weakening of rental yields. • The Company invests in residential and commercial properties which may be viewed as a higher risk and illiquid investment and at times it may be difficult to obtain reasonable price quotes. The Company may, therefore, be adversely affected by a decrease in market liquidity for the assets in which it invests. • The terms of the Company's loan facility include extensive financial covenants given by the Company as well as security granted in favour of the lender. In the event that the Company were to breach any of the financial covenants, the lender may enforce security over the Company's assets as well as demanding repayment of the loan. • The Company intends to issue New Shares pursuant to the Initial Placing and Offer and the Placing Programme only when it has identified properties for purchase so as to deploy the capital raised as quickly as is practicable. However, there is no guarantee that the purchase of such properties by the Company will proceed to completion and, accordingly, in circumstances where the Company has successfully

		<p>completed an issue of New Shares but is unable to invest the proceeds immediately, the Company may retain significant cash reserves. This may adversely affect the Company's performance in the short term.</p> <ul style="list-style-type: none"> The Company's future performance depends on the success of the Investment Manager's strategy, skill, judgement and reputation.
D.3	Key information on the key risks that are specific to the Shares	<ul style="list-style-type: none"> There may not be a liquid secondary market for the Ordinary Shares. In addition, the value of the Ordinary Shares can go down as well as up. The market price and the realisable value of the Ordinary Shares, as well as being affected by the underlying value of the Company's assets, will be affected by interest rates, supply and demand for the Ordinary Shares, market conditions and general investor sentiment. As such, the market value of the Ordinary Shares will fluctuate and may vary considerably. Shareholders do not have a right for their Ordinary Shares to be redeemed and the Company does not have a fixed winding-up date. Those Shareholders wishing to realise their investment will be required to dispose of their Ordinary Shares on the stock market or vote to wind up the Company. The ability of the Board to declare dividends on the Ordinary Shares is conditional upon the Company satisfying the solvency test under the Law.

Section E – The Issues

E.1	Proceeds and expenses of the Issues	<p>The costs of the Initial Placing and Offer are dependent on subscriptions received but, by way of illustration, will be between 4.14 per cent. of the Gross Proceeds should the Initial Placing and Offer raise Gross Proceeds of £20 million and 2.98 per cent. of the Gross Proceeds should the Initial Placing and Offer raise £40 million. These expenses will be met out of the Gross Proceeds of the Initial Placing and Offer.</p> <p>The Net Proceeds of the Initial Placing and Offer and the Placing Programme are dependent on subscriptions received pursuant to both the Initial Placing and Offer and the Placing Programme. Assuming that Gross Proceeds of £40 million are raised under the Initial Placing and Offer and Gross Proceeds of a further £60 million are raised under the Placing Programme, the Net Proceeds of the Initial Placing and Offer and the Placing Programme would be approximately £97.72 million with expenses (including any commission) of approximately £2.28 million. These expenses will be met out of the Gross Proceeds of the Initial Placing and Offer and the Placing Programme.</p>
E.2a	Reasons for the Issue, use of proceeds and estimated net amount of proceeds	<p>The net proceeds of the Issues will be invested in accordance with the Company's investment objective and policy.</p> <p>The Board is proposing the Initial Placing and Offer for Subscription to enable the Company to take advantage of the prevailing market conditions and investment opportunities, with</p>

		<p>the net issue proceeds used to complete purchases of properties that the Investment Manager has identified that are suitable for acquisition.</p> <p>The Company is also proposing a Placing Programme to fund future acquisitions that support the Company's investment objective and acquisition criteria in the period from 18 April 2014 to 19 March 2015.</p> <p>Assuming the Issues are fully subscribed, which would raise approximately £100 million, the estimated Net Proceeds of the Issues are expected to be £97.72 million.</p>
E.3	Terms and conditions of the Offer for Subscription	<p>The Offer for Subscription is conditional, <i>inter alia</i>, on:</p> <ul style="list-style-type: none"> (i) the Issue Resolution being passed at the EGM; (ii) the Placing Agreement becoming wholly unconditional (save as to Initial Admission) and not having been terminated in accordance with its terms prior to Initial Admission; and (iii) Initial Admission occurring by 8.00 a.m. on 17 April 2014 (or such later date as the Company, Numis and J.P. Morgan Cazenove may agree in writing, being not later than 8.00 a.m. on 31 May 2014). <p>The Offer for Subscription is being made in the UK only. The public generally (unless they are located or resident outside the UK) may apply for New Shares through the Offer for Subscription. Completed Application Forms and the accompanying payment in relation to the Offer for Subscription must be posted to Computershare Investor Services PLC, Corporate Actions Projects, Bristol BS99 6AH or by hand (during normal business hours) to Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol BS13 8AE so as to be received by no later than 11.00 a.m. on 10 April 2014.</p> <p>Commitments under the Offer for Subscription, once made, may not be withdrawn without the consent of the Directors.</p> <p>Applicants under the Offer must specify a fixed number of New Shares for which they wish to apply at the Initial Placing and Offer Price being 50.25 pence per New Share. The aggregate subscription price is payable in full on application. Individual applications must be for a minimum of 1,000 New Shares and applications in excess of that amount should be made in multiples of 100 New Shares, although the Board may accept applications below the minimum amounts stated above in their absolute discretion. Multiple subscriptions under the Offer for Subscription by individual investors will not be accepted.</p>
E.4	Material interests	Not applicable; there are no interests that are material to the Initial Placing, Offer for Subscription or Placing Programme.
E.5	Selling securities holders and lock-up agreements	Not applicable; there are no persons offering to sell shares in the Company and there are no lock-up agreements in place.
E.6	Dilution	Existing Shareholders are not obliged to participate in the Issues. However, those Shareholders who do not participate in the Issues

		<p>will suffer a dilution in the percentage of the issued share capital that their current holding represents based on the actual number of Ordinary Shares issued. Assuming 80 million New Shares are issued, Shareholders will suffer a dilution of approximately 20 per cent. to their existing percentage holdings. However, as the New Shares will be issued at a premium to the prevailing NAV per Share in order to take account of the costs of such issue, it is not anticipated that there will be any dilution in the NAV per Share as a result of the Initial Placing and Offer or the Placing Programme.</p>
E.7	Estimated expenses charged to investors by the Company	<p>The price at which New Shares issued by the Company pursuant to the Issues will be calculated by reference to the prevailing NAV per Ordinary Share (cum income) plus a premium sufficient to cover the expenses of such issue, including any placing commissions. No additional expenses will be charged to investors.</p>

RISK FACTORS

The Company's business, financial condition, performance, prospects, results and/or Ordinary Share price could be materially and adversely affected by any of the risks described below. If any of the adverse events described below actually occur, investors may lose all or part of their investment.

In addition to the other information set out in this document, the risks described below should be carefully considered by investors and prospective investors prior to making any investment decision relating to the New Shares. The risks set out below are those risks which the Directors consider to be material as at the date of this document, but are not the only risks relating to the Ordinary Shares and the Company. There may be additional risks that the Directors do not currently consider to be material or of which the Directors are not aware, which may affect the Company's financial condition, performance, prospects, results and/or the price of Ordinary Shares.

An investment in the Ordinary Shares is suitable only for investors who are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear losses (which may equal the whole amount invested) that may result from such an investment. An investment in the Ordinary Shares should constitute part of a diversified investment portfolio. Typical investors are expected to be professionally advised private investors and professional investors. If investors are in any doubt as to the consequences of their acquiring, holding or disposing of Ordinary Shares, or whether an investment in Ordinary Shares is suitable for them in the light of information in, or incorporated by reference into, this document or their personal circumstances including the financial resources available to them, they should consult their stockbroker or other independent financial adviser authorised under FSMA or, in the case of investors outside the United Kingdom, another appropriately authorised independent financial adviser before making their own decision to invest in the Ordinary Shares.

1. Risks relating to the Company

Property valuation

Property and property-related assets are inherently subjective as regards value due to the individual nature of each property. As a result, valuations are subject to uncertainty. The valuation report in Part 7 of this document is made on the basis of certain assumptions which may not prove to reflect the true position. There is no assurance that the valuation of the properties will reflect actual sale prices even where any such sales occur shortly after the relevant valuation date.

Property investments can perform in a cyclical nature and values can increase or decrease. Economic, political, fiscal and legal issues can affect values as they can with any other investment. The Portfolio will be valued on each valuation date by a professional valuer. This valuation will be by way of a professional opinion of the open market value of the Portfolio. The valuation will be undertaken by such reputable entity as may be appointed by the Company from time to time. This entity will be paid fees in accordance with the industry standards for such services. There is no assurance that the valuation of the Portfolio will reflect the actual sale price even where such sales occur shortly after the relevant valuation date.

If property values rise significantly between the publication of this document and the time when the funds available to the Company following their issue (including borrowings) and remaining after the acquisition of the properties identified are invested, the potential returns available for Shareholders may be less than those set out in this document.

Factors affecting performance

The performance of the Company would be adversely affected by a downturn in the property market in terms of capital value or a weakening of rental yields. In the event of a default by a tenant or during any other void period, the Company will suffer a rental shortfall and incur additional expenses until the property is re-let. These expenses could include legal and surveyor's costs in re-letting, maintenance costs, insurances, rates and marketing costs.

Any future property market recession could materially adversely affect the value of properties. Returns from an investment in property depend largely upon the amount of rental income generated from the property and the costs and expenses incurred in the maintenance and management of the property, as well as upon changes in its market value.

Rental income and the market value for properties are generally affected by overall conditions in the economy, such as growth in gross domestic product, employment trends, inflation and changes in interest rates.

Rent reviews may not be agreed at the then estimated rental values.

Both rental income and property values may also be affected by other factors specific to the real estate market, such as competition from other property owners, the perceptions of prospective tenants of the attractiveness, convenience and safety of properties, the inability to collect rents because of the bankruptcy or insolvency of tenants or otherwise, the periodic need to renovate, repair and re-lease space and the costs thereof, the costs of maintenance and insurance, and increased operating costs. In addition, certain significant expenditures, including operating expenses, must be met by the owner even when the property is vacant.

The Company may face significant competition from UK or other foreign property companies. Competition in the property market may lead either to an over-supply of commercial premises through over-development or to prices for existing properties or land for development being driven up through competing bids by potential purchasers. Accordingly, the existence of such competition may have a material adverse impact on the Company's ability to secure tenants for its properties at satisfactory rental rates and on a timely basis and to acquire properties or develop land at satisfactory prices.

The performance of the Company would also be affected in the event of default by an occupational tenant as the Group will suffer a rental income shortfall and incur additional costs, including legal expenses, in maintaining, insuring and re-letting the property.

Liquidity risk

The Company invests in residential and commercial properties which may be viewed as a higher risk and illiquid investment. In some circumstances, investments may be very illiquid, partly because they may be subject to legal or contractual restrictions on their resale and partly due to a relatively inactive market. This can make it difficult to acquire or dispose of investments. At times it may be difficult to obtain reasonable price quotes at all. The Company may, therefore, be adversely affected by a decrease in market liquidity for the assets in which it invests.

Investments in property are relatively illiquid and more difficult to realise than equities or bonds.

Reliance on the Investment Manager and its key personnel

The Company's future performance depends on the success of the Investment Manager's strategy, skill, judgement and reputation. There can be no guarantee that any individual employee of the Investment Manager will remain in its employment. The departure of a key employee may have an adverse effect on the performance of the Company. Similarly, the Company relies on the reputation of the Investment Manager and any decline in the Investment Manager's reputation may have an adverse effect on the Company's performance through its impact on the Ordinary Share price.

Borrowings

On 16 April 2013, the Company announced the completion of a new £129.58 million loan facility with Canada Life Limited (the "**Lender**") to refinance its £114.5 million securitised loan in full. The terms of the loan facility include extensive financial covenants given by the Company as well as security granted in favour of the Lender. In the event that the Company were to breach any of the financial covenants, the Lender may enforce security over the Company's assets as well as demanding repayment of the loan. In such circumstances, the Company may be forced to sell a number of its assets, potentially at a discount to their market value.

Conflicts of interest

The Investment Manager is not required to devote all its resources to the Company. To the extent that the Investment Manager devotes resources to its responsibilities to other business interests, its ability to devote resources and attention to the Company's affairs will be limited. This could adversely affect the Company's ability to achieve its investment objective, which could have a material adverse effect on the Company's profitability, Net Asset Value and Ordinary Share price.

The Investment Manager is involved in other financial, investment or professional activities which may on occasion give rise to conflicts of interest with the Company. In particular, the Investment Manager manages funds other than the Company and may provide investment management, investment advisory or other services in relation to these funds or future funds which may have similar investment policies to that of the Company.

Past performance

The past performance of the Investment Manager, the Company or of other assets or funds are not guides to the future performance of the Company. There can be no guarantee that the investment objective and policy of the Company will be met or that any stated current or future targets or returns will be achieved.

Timing of fundraising

The Company intends to issue New Shares pursuant to the Initial Placing and Offer and the Placing Programme only when it has identified properties for purchase so as to deploy the capital raised as quickly as is practicable. However, there is no guarantee that the purchase of such properties by the Company will proceed to completion and, accordingly, in circumstances where the Company has successfully completed an issue of New Shares but is unable to invest the proceeds immediately, the Company may retain significant cash reserves. This may adversely affect the Company's performance in the short term.

Continuation vote

In accordance with the Articles, the Company is required to propose an ordinary resolution to the annual general meeting of the Company to be held in 2014 proposing that the Company should continue in existence until such further resolution is passed to determine otherwise. In the event that this resolution is not passed, the Board is required to draw up proposals for the reconstruction, unitisation or other reorganisation of the Company within three months of the annual general meeting. If such proposals are not passed, the Board is required to propose the voluntary liquidation of the Company. In these circumstances, Shareholders may be forced to realise their investment in the Company, regardless of whether they voted in favour of the continuation of the Company.

2. Risks relating to the Ordinary Shares

Entitlement to income

Shareholders will be entitled to all of the amounts resolved by the Directors to be distributed as dividends in accordance with the Law. Dividend growth from the Ordinary Shares will depend on growth in the Company's returns from its portfolio of investments. The Net Asset Value of the Ordinary Shares will be determined by the performance of the Company's portfolio.

Any change in the tax treatment of dividends paid or income received by the Company may reduce the dividends paid to the holders of the Ordinary Shares. A reduction of returns from the Company's investments would adversely affect the yield on the Ordinary Shares. Such a reduction could arise, for example, from lower rental yields.

The Law provides that a distribution may not be made by a company unless its directors are satisfied on reasonable grounds (and certify) that the relevant company will, immediately after making such distribution, satisfy the solvency test as defined under the Law. For the purposes of the Law, a company satisfies the solvency test if (i) the company is able to pay its debts as they become due; (ii) the value of the company's assets is greater than the value of its liabilities; and (iii) in the case of a supervised company, the company

satisfies any other requirements as to solvency imposed in relation to it under section 527(1)(c) of the Law. Accordingly, any entitlement to income is dependent on the Company meeting the solvency test.

There may not be a liquid secondary market for the Ordinary Shares, the price of which may fluctuate

There may not be a liquid secondary market for the Ordinary Shares. In addition, the value of the Ordinary Shares can go down as well as up. The market price and the realisable value of the Ordinary Shares, as well as being affected by the underlying value of the Company's assets, will be affected by interest rates, supply and demand for the Ordinary Shares, market conditions and general investor sentiment. As such, the market value of the Ordinary Shares will fluctuate and may vary considerably. In addition, the published market price of the Ordinary Shares will be, typically, their middle market price. Due to the potential difference between the middle market price of the Ordinary Shares and the price at which the Ordinary Shares can be sold, there is no guarantee that the realisable value of the Ordinary Shares will be the same as the published market price.

Shareholders do not have a right for their Ordinary Shares to be redeemed and the Company does not have a fixed winding-up date. Those Shareholders wishing to realise their investment will be required to dispose of their Ordinary Shares on the stock market or vote to wind up the Company.

There is less market liquidity in the shares of companies such as the Company than in shares issued by larger companies traded on the London Stock Exchange. Notwithstanding that applications will be made for the New Shares to be admitted to trading on the London Stock Exchange and the CISE, there can be no guarantee that a liquid market will exist at any time for the Ordinary Shares.

Listing should not be taken as implying that there will be a liquid market for the Ordinary Shares. There is no guarantee that an active market will arise or be sustained for the Ordinary Shares. If an active trading market is not maintained, the liquidity and trading price of the Ordinary Shares could be adversely affected. Even if an active trading market is maintained, the market price for the Ordinary Shares may fall below their Issue Price and Shareholders may not realise their initial investment.

3. Risks relating to taxation

Any change in the Company's tax status, or in taxation legislation or practice in the United Kingdom or elsewhere, could affect the value of the investments in the Portfolio and the Company's ability to achieve its investment objective.

Statements in this document concerning the taxation of Shareholders are based upon current UK and Guernsey tax law and published practice, which law and practice are in principle subject to change (potentially with retrospective effect) that could adversely affect the ability of the Company to meet its investment objective. In particular, should the Company or the Ordinary Shares be regarded as an "offshore fund" for the purposes of the UK offshore fund rules, this may have adverse tax consequences for certain UK resident shareholders on the disposal of Ordinary Shares. Also, should the Company come to be regarded as UK tax resident, this may adversely affect the tax position of the Company and, consequently, the value of the Ordinary Shares.

Further details relating to taxation are set out in Part 10 of this document. Any investor or potential investor who is in any doubt about his/her tax position should consult their independent professional adviser.

4. Regulatory risks

Changes in laws

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect the Company's business, investments and performance. The Company is subject to laws and regulations enacted by national and local government. In particular, the Company is subject to and will be required to comply with certain regulatory requirements that are applicable to listed closed-ended collective investment companies which are domiciled in Guernsey. These include compliance with any decision of the GFSC. In addition, the Company is subject to and will be required to comply with certain regulatory requirements which are applicable to closed-ended investment companies (including continuing obligations) whose shares

are listed on the premium segment of the Official List of the FCA. Any change in the laws and regulations affecting the Company, the Investment Manager or the Company's investments may have an adverse effect on the ability of the Company to carry on its business and pursue its investment policy.

The Alternative Investment Fund Managers Directive

The AIFMD, which was required to be transposed by EU Member States into national law by 22 July 2013, seeks to regulate investment fund managers (in this paragraph, "AIFM") established in the EU and prohibits such managers from managing any alternative investment fund (in this paragraph, "AIF") or marketing shares in such funds to investors in the EU unless an AIFMD authorisation is granted to the AIFM. In order to obtain such authorisation, and be able to manage the AIF, an AIFM will need to comply with various obligations in relation to the AIF and in relation to the conduct and operations of its own business, which may create significant additional compliance costs that may, where considered appropriate, be passed to investors in the AIFs managed by AIFMs.

The UK has implemented the AIFMD in a way that allows the continuation of certain activities after the date of transposition, provided that the authorisation conditions are met within a year after that date (the "Transitional Period"). The Investment Manager has the benefit of the Transitional Period and the Company has not yet appointed the Investment Manager or any other entity as its AIFM. At the end of the Transitional Period, if the Company's AIFM does not or cannot obtain authorisation under the AIFMD, the marketing of shares in the Company to investors in the EU may be impaired. Moreover, if the Investment Manager was to fail to, or be unable to, obtain such an authorisation, it may be unable to continue to manage the Company or its ability to manage the Company may be impaired.

Any regulatory changes arising from implementation of the AIFMD and any derivative legislation or guidance (or otherwise) that impairs the ability of the Investment Manager to manage the investments of the Company, or limits the Company's ability to market its Ordinary Shares, may materially adversely affect the Company's ability to carry out its investment strategy and achieve its investment objective.

PART 1

INFORMATION ON THE ISSUES

1. The Company

Schroder Real Estate Investment Trust Limited (the “**Company**”) was launched in July 2004 with the investment objective of providing Shareholders with an attractive level of income together with the potential for both income and capital growth from investing in UK commercial property.

The Company currently holds a diversified portfolio of UK commercial properties and is currently mainly invested in the three commercial property sectors: office, retail and industrial. Evolving structural and cyclical changes in the UK commercial property market means there is an opportunity to broaden the Company’s investable universe through exposure to alternative property types such as healthcare, hotels and student accommodation in addition to the traditional sectors. These alternative property types could make a positive contribution to performance through diversification and other benefits such as longer lease terms with inflation-linked rents. Consequently the Board is proposing to allow the Investment Manager to invest in these sectors and this is set out in more detail in paragraph 2 below.

In pursuing the investment objective, the Investment Manager concentrates on assets with good fundamental characteristics, a diverse spread of occupational tenants and with opportunities to enhance value through active management.

Since its launch, the Company’s underlying property portfolio has delivered an average total return of 5.4 per cent. per annum, outperforming the IPD Index by 1.0 per cent per annum.

Following the recent placing in January 2014 which represented 9.99 per cent. of the Company’s then issued share capital, the Board and the Investment Manager believe there is potential to enhance returns to Shareholders through further disciplined and accretive growth of the Company.

Therefore, to enable the Company to take advantage of the prevailing market conditions and investment opportunities, the Board is proposing an Initial Placing and Offer for Subscription, with proceeds used to complete purchases of properties that the Investment Manager has identified that are suitable for acquisition. The Company is also proposing a Placing Programme to fund future acquisitions that support the Company’s investment objective and acquisition criteria in the period from 18 April 2014 to 19 March 2015. New Shares will only be issued to new and existing Shareholders at a premium to the prevailing NAV in order to take account of the costs of such issue and will therefore be accretive to NAV for existing Shareholders.

2. Background to and reasons for the Issues

Significant progress has been made strengthening the Company’s balance sheet over the past 36 months in order to position the Company for a market recovery and future growth. Central to this strategy was the need to refinance the Company’s loan which was due to mature in July 2014. This process was undertaken early in 2013 in order to take advantage of long term yields being at historic lows. The Company’s refinancing objectives were to secure a long-term debt maturity, a reduction in the cost of debt and sufficient operational flexibility to permit proactive asset management of the Portfolio.

In order to optimise terms, during the 12 months prior to the re-financing, the Company completed £67 million of disposals at an average yield of 3.4 per cent., realising good performance from asset management activity. These disposals served to reduce the Company’s loan to value ratio to a level which enabled access to longer term lenders. Following negotiations with a number of prospective lenders, on 16 April 2013 a new £129.58 million loan facility was agreed with Canada Life Limited, on the following principal terms, which satisfied the Company’s refinancing objectives referred to above:

- 20 per cent. of the loan will mature in 10 years’ time and 80 per cent. in 15 years’ time to give a weighted term as at 31 December 2013 of 14 years;

- the loan carries a total fixed interest rate of 4.77 per cent. per annum compared with the interest rate on the Company's previous loan of 5.72 per cent. per annum;
- there is no amortisation of the loan; and
- the loan provides flexibility to asset manage the Portfolio and the ability to utilise cash from disposals to fund capital expenditure.

A summary of the loan facility is set out in paragraph 13.4 of Part 9 of this document.

Completion of the refinancing enabled the Board to review the Company's dividend policy and conclude that a sustainable dividend, having regard to the Portfolio, asset business plans and market conditions, was 0.62 pence per share ("**pps**") per quarter, representing a reduction of 30 per cent. with effect from the quarter ending June 2013. This provided a solid platform from which to review and implement the Company's longer term strategy and stated objective: namely, to provide Shareholders with an attractive level of income, with the potential for both income and capital growth.

Since April 2013, the Company has made progress with asset management initiatives and prospective disposals offering the potential to make a positive contribution to income and Net Asset Value. These include:

- exchanged conditional contracts to sell Reynards Trading Estate in Brentford to Notting Hill Home Ownership ("**NHHO**") on a subject to planning basis, for a price of approximately £20 million, compared to the value as at 17 March 2014 of £16 million. NHHO is responsible for making the planning application at its own cost and there continues to be uncertainty regarding the timing and prospects for achieving a residential planning consent; and
- exchanged conditional contracts to sell a one acre site at Olympic Office Centre in Wembley to UNITE Group Plc ("**UNITE**") on a subject to planning basis for a price of approximately £7.4 million, compared to the valuation as at 17 March 2014 of £6.25 million. The Company has already secured outline planning consent for UNITE's use of student accommodation and completion is subject to UNITE securing detailed planning consent.

During this period the Company has also benefited from a recovery in the UK commercial property market which has, in turn, been led by improving GDP growth and positive economic data relating to employment growth, retail sales and the housing market. This recovery is reflected in the latest Investment Property Databank ("**IPD**") Monthly Index which reported a 4.5 per cent. increase in capital values between April 2013 and December 2013. This contributed to a total return of 10.9 per cent. for the calendar year 2013, with the office and industrial sectors producing a total return of 14.4 per cent. and 14.2 per cent. respectively, and the retail sector producing the weakest total return of 7.6 per cent. As noted below, the Company's Portfolio benefited from a strategically low weighting to the retail sector in 2013.

The recovery since April 2013 followed 18 months of consecutive capital value declines and, despite the positive momentum in the market since then, average capital values remain 35 per cent. below the previous peak of June 2007. The recovery is notable for improving sentiment towards good quality secondary property outside the core central London markets. This is partly due to the yield premium available but also reflects an improving occupational market and rental value growth in the strongest centres and regions, as a result of economic growth and reducing levels of supply. This emerging trend is yet to fully feed through into IPD data, with, for example, capital values of offices (measured by IPD) outside of central London still 50 per cent. below their previous peak of June 2007.

These conditions are presenting mis-pricing opportunities for well capitalised investors amongst an increasing number of available deals offering potential total returns consistent with the Company's investment objective.

Against this backdrop, the Board and Investment Manager continue to believe that there is potential to enhance future returns to Shareholders through a gradual increase in the size of the Company. In January 2014, this led to the Company placing 35,592,128 new Ordinary Shares, representing 9.99 per cent. of the

issued share capital prior to the placing, raising gross proceeds of £17.17 million. These placing proceeds were immediately invested into the acquisition of the Headingley Property, a multi-let retail, leisure and office property in a densely populated suburb just outside the CBD in Leeds, for a purchase price of £16.23 million, or £17.1 million including acquisition costs. The purchase price reflected a net initial yield of 9.14 per cent. and satisfied the Company's investment criteria by offering good underlying fundamentals in terms of location and specification, affordable rents and sustainable tenant demand.

Following the acquisition of the Headingley Property, in February the Company acquired Morgan Sindall House in Rugby for £3.95 million, or £4.17 million including acquisition costs, reflecting a net initial yield of 8 per cent. The office property is let to Morgan Sindall for 15 years without tenant break options and complements the current Portfolio by offering a long lease to an established tenant at an above average yield with inflation-linked rental uplifts.

The January Placing and the acquisition of both the Headingley Property and the Rugby Property have had the following positive financial impact compared with the last reported NAV as at 31 December 2013:

- increase in the NAV from £168.5 million as at 31 December 2013 to approximately £190.6 million as at 17 March 2014;
- increase in dividend cover from 74 per cent. over the quarter to December 2013 to approximately 91 per cent. as at 17 March 2014;
- increase in the Portfolio value from £279.59 million as at 31 December 2013 to £306.48 million as at 17 March 2014; and
- reduction in the loan to value ratio, net of cash, from 40.7 per cent. as at 31 December 2013 to 39.1 per cent. as at 17 March 2014.

The positive financial impact of the January Placing has provided the Company with the opportunity to pursue a prudent growth strategy that is value accretive to Shareholders, with the key potential corporate benefits summarised below:

- an enhancement in net income due to the arbitrage between the Ordinary Share price yield and the yields currently achievable on UK commercial property;
- additional liquidity in the Ordinary Shares should be gained with a larger market capitalisation;
- a reduction in the Company's loan to value ratio; and
- operational leverage and economies of scale.

As illustrated by the recent acquisitions, new equity can potentially be invested in properties offering an attractive yield with scope for adding value through asset management. Furthermore, improving dividend cover enables the Company to consider acquiring lower yielding assets offering enhanced growth prospects. More specifically, future acquisitions are likely to target the following markets:

Offices:

- London sub-markets with robust demand and areas known as the London 'villages' which benefit from multiple alternative uses including commercial as well as residential occupiers; and
- cities and towns outside of London with a "knowledge-based" economy offering creativity and innovation e.g. Cambridge, Oxford, Thames Valley and Brighton.

Industrial:

- medium-sized warehouses around big cities to support e-tailing – specification is key; and
- Greater London industrial offering long-term change of use.

Retail:

- convenience retailing in affluent areas;
- “value” retailing where overall cost to retailer is low; and
- higher yielding retail in strong cathedral towns and regional centres.

Alternatives:

- target operators with pricing power who pass on rising costs to end users;
- fixed or inflation linked rental uplifts where underlying rents will keep pace; and
- sectors including healthcare, student accommodation, affordable housing or serviced apartments.

As stated above, the Investment Manager believes that there is an opportunity to broaden the Company’s investable universe through exposure to additional alternative property types such as healthcare, hotels and student accommodation. These alternative property types could make a positive contribution to performance through diversification and other benefits such as longer lease terms with inflation-linked rents. Further details of the Company’s current and proposed investment policies are set out in paragraph 2 of Part 4 of this document.

The Investment Manager is actively targeting a pipeline of potential acquisitions which satisfy the Company’s investment criteria above and it is intended that the net proceeds from the Initial Placing and Offer for Subscription will be deployed into acquisitions that are currently under negotiation and where terms have been agreed with the vendors.

In the event that the acquisitions currently under negotiation do not proceed to completion, the Company will seek to invest the net proceeds of the Initial Placing and Offer in accordance with the Company’s investment policy as soon as is practicable. Further details of the Initial Placing and Offer are set out in Part 2 of this document.

The Company is also proposing the Placing Programme to enable the Company to raise additional capital in the period from 18 April 2014 to 19 March 2015 as and when it identifies properties that are suitable for acquisition. This should, in turn, enable the Investment Manager to act opportunistically, by making a series of accretive property acquisitions whilst also mitigating the risk of cash drag on Shareholders’ funds. Further details of the Placing Programme are set out in Part 3 of this document.

New Shares will only be issued to new and existing Shareholders at a premium to the prevailing NAV at the time of issue in order to take account of the costs of such issue and will therefore be accretive to the prevailing NAV for existing Shareholders.

3. Overview of the Company’s portfolio

The Company currently owns 54 properties with a value, adopting the Independent Property Valuation as at 17 March 2014 of £306.48 million. At the same date, the Portfolio produced a rent of £21.1 million per annum which, based on the Independent Property Valuation, reflected a net initial yield of 6.5 per cent. The Portfolio’s rental value is £23.6 million per annum, resulting in a reversionary yield of 7.3 per cent. It is anticipated that the Portfolio will benefit from additional fixed rental uplifts of £1.6 million per annum due by December 2015.

As at 17 March 2014, the Portfolio void rate was approximately 12.0 per cent., with the potential for a reduction to approximately 11.0 per cent. based on lettings under offer or conditional exchange. As at 17 March 2014, the average unexpired lease term, assuming all tenants vacate at the earliest opportunity, is approximately 7.3 years.

4. Performance track record

The performance of the Company's Portfolio compared with its benchmark, the IPD Index, as at 31 December 2013 (being the latest available data) is shown below:

<i>Period</i>	<i>SREIT total return p.a. (%)</i>			<i>IPD Index total return p.a. (%)</i>			<i>Relative p.a. (%)</i>		
	<i>12 months</i>	<i>Three years</i>	<i>Since inception</i>	<i>12 months</i>	<i>Three years</i>	<i>Since inception</i>	<i>12 months</i>	<i>Three years</i>	<i>Since inception</i>
Retail	8.2	2.4	4.6	7.1	4.4	3.5	1.0	-2.0	1.0
Offices	13.8	10.1	5.4	12.5	7.7	5.0	1.1	2.3	0.4
Industrial	10.0	9.2	5.2	12.4	7.5	4.8	-2.2	1.6	0.4

Total	10.1	7.7	5.4	9.7	6.1	4.3	0.4	1.5	1.0

The long-term outperformance of the Company's Portfolio compared with the IPD Index is attributable to a focus on properties offering an above average income return and a pro-active approach to asset management.

PART 2

THE INITIAL PLACING AND OFFER FOR SUBSCRIPTION

1. Introduction

Under the Initial Placing and Offer, subject to compliance with the Law and the Articles, the Company is proposing to issue up to 80 million New Shares at 50.25 pence per New Share to raise Gross Proceeds of up to approximately £40.2 million. The Initial Placing and Offer Price is based on the prevailing NAV per Share on 17 March 2014 plus a premium to cover the costs of the Initial Placing and Offer.

The Directors have reserved the right, in consultation with Numis and J.P. Morgan Cazenove, to increase the number of New Shares offered pursuant to the Initial Placing and Offer to up to the maximum amount for which the Directors are seeking authority pursuant to the Issues, being up to 200 million New Shares. Any such increase will be announced via an RIS.

The costs of the Initial Placing and Offer are dependent on subscriptions received but, by way of illustration, will be between 4.14 per cent. of the Gross Proceeds should the Initial Placing and Offer raise Gross Proceeds of £20 million and 2.98 per cent. of the Gross Proceeds should the Initial Placing and Offer raise £40 million. These expenses will be met out of the Gross Proceeds of the Initial Placing and Offer.

The New Shares will rank *pari passu* in all respects with the existing Ordinary Shares, (save for any dividends or other distributions declared, made or paid on the Ordinary Shares by reference to a record date prior to the allotment of the relevant New Shares). The New Shares issued under the Initial Placing and Offer will not be entitled to receive any dividend for the period from 1 January 2014 to 31 March 2014.

The Initial Placing and Offer is conditional, *inter alia*, on:

- (i) the Issue Resolution being passed at the EGM;
- (ii) the Placing Agreement becoming wholly unconditional (save as to Initial Admission) and not having been terminated in accordance with its terms prior to Initial Admission; and
- (iii) Initial Admission occurring by 8.00 a.m. on 17 April 2014 (or such later date as the Company, Numis and J.P. Morgan Cazenove may agree in writing, being not later than 8.00 a.m. on 31 May 2014).

The Directors intend to apply the Net Proceeds of the Initial Placing and Offer in accordance with the Company's investment objective and policy. The Initial Placing and Offer is not being underwritten.

2. Details of the Initial Placing

Numis and J.P. Morgan Cazenove have agreed under the Placing Agreement to use their reasonable endeavours to procure Places for New Shares at the Initial Placing and Offer Price. Details of the Placing Agreement are set out in paragraph 13.1 of Part 9 of this document.

The total number of New Shares issued under the Initial Placing will be determined by the Company, Numis and J.P. Morgan Cazenove, after taking into account demand for the New Shares, prevailing market conditions and the acquisition costs of properties that the Investment Manager has identified as being suitable for purchase by the Company. The final result of the Initial Placing will be announced via an RIS.

The Initial Placing will close at 3.00 p.m. on 11 April 2014 (or such later date, not being later than 31 May 2014, as the Company, Numis and J.P. Morgan Cazenove may agree). If the Initial Placing is extended, the revised timetable will be notified via an RIS.

The procedure for, and the terms and conditions of, application under the Initial Placing are set out in Part 11 on pages 115 to 122 of this document.

Commitments under the Initial Placing, once made, may not be withdrawn without the consent of the Directors.

3. Details of the Offer for Subscription

The Directors are also proposing to offer New Shares under the Offer for Subscription. The Offer for Subscription is being made in the UK only. The public generally (unless they are located or resident outside the UK) may apply for New Shares through the Offer for Subscription.

Applicants under the Offer must specify a fixed number of New Shares for which they wish to apply at the Initial Placing and Offer Price being 50.25 pence per New Share. The aggregate subscription price is payable in full on application. Individual applications must be for a minimum of 1,000 New Shares and applications in excess of that amount should be made in multiples of 100 New Shares, although the Board may accept applications below the minimum amounts stated above in their absolute discretion. Multiple subscriptions under the Offer for Subscription by individual investors will not be accepted.

The procedure for, and the terms and conditions of, application under the Offer for Subscription are set out in Part 12 on pages 123 to 130 of this document and an Application Form for use under the Offer for Subscription is set out at the end of this document.

Completed Application Forms and the accompanying payment in relation to the Offer for Subscription must be posted to Computershare, Corporate Actions Projects, Bristol, BS99 6AH so as to be received by no later than 11.00 a.m. on 10 April 2014.

Commitments under the Offer for Subscription, once made, may not be withdrawn without the consent of the Directors.

4. Admission and dealing arrangements

Applications will be made to the FCA and to the CISE for admission of the New Shares to their respective Official Lists. Applications will also be made for the New Shares to be admitted to trading on the London Stock Exchange and the CISE. It is expected that Admission will become effective and that unconditional dealings in the New Shares will commence on the main market for listed securities of the London Stock Exchange and on the CISE at 8.00 a.m. (London time) on 17 April 2014.

The Initial Placing and Offer Shares will be issued in registered form and may be held in certificated or uncertificated form. The Initial Placing and Offer Shares allocated will be issued through the CREST system unless otherwise stated. The Initial Placing and Offer Shares will be eligible for settlement through CREST with effect from Admission.

The Company will arrange for CREST to be instructed to credit the appropriate CREST accounts of the applicants concerned or their nominees with their respective entitlements to the Initial Placing and Offer Shares. The names of applicants or their nominees that invest through their CREST accounts will be entered directly on to the share register of the Company.

Dealings in the Initial Placing and Offer Shares in advance of the crediting of the relevant stock account shall be at the risk of the person concerned.

The Initial Placing and Offer Shares will be denominated in Sterling.

5. Transfer of the Initial Placing and Offer Shares

The transfer of the Initial Placing and Offer Shares outside the CREST system should be arranged directly through the Registrar by completing and lodging an appropriate stock transfer form. However, an investor's beneficial holding held through the CREST system may rematerialise, in whole or in part, only upon the specific request of a beneficial owner to CREST through submitting a stock withdrawal form for share certificates or an uncertificated holding in definitive registered form.

If an applicant or transferee requests Initial Placing and Offer Shares to be issued in certificated form and is holding such Initial Placing and Offer Shares outside CREST, a share certificate will be despatched either to it or its nominated agent (at its own risk) within 10 days of completion of the registration process or transfer,

as the case may be, of the Initial Placing and Offer Shares. Investors holding a definitive certificate may elect at a later date to hold their Initial Placing and Offer Shares through CREST.

6. Scaling back

In the event that the number of New Shares applied for under the Initial Placing and Offer at the Initial Placing and Offer Price would result in the Company receiving net proceeds which are significantly in excess of the Issue size then it would be necessary to scale back applications under the Initial Placing and Offer. In such event New Shares will be allocated as nearly as reasonably possible, so that applications from existing Shareholders are given priority over other applicants, and, where applicable, with a view to ensuring that existing Shareholders are allocated such percentage of New Shares as is as close as possible to their existing percentage holding of Ordinary Shares. In the event of oversubscription New Shares will be allocated to the Investec Related Party and/or the Schroders Related Party at the sole discretion of the Company, J.P. Morgan Cazenove and Numis on a basis that does not give them preferential treatment as against the other Shareholders taking into account the proportions of their shareholdings and the extent of the oversubscription.

7. Commissions

Each of Numis and J.P. Morgan Cazenove will be entitled to a commission payable by the Company in connection with monies raised under the Initial Placing. No commissions are payable by the Company to Placees under the Initial Placing.

8. Dilution

Existing Shareholders are not obliged to participate in the Issues. However, those Shareholders who do not participate in the Issues will suffer a dilution to the percentage of the issued share capital that their current holding represents based on the actual number of Ordinary Shares issued. Assuming 80 million New Shares are issued, Shareholders will suffer a dilution of approximately 20 per cent. to their existing percentage holdings. However, as the New Shares will be issued at a premium to the prevailing NAV per Share in order to take account of the costs of such issue, it is not anticipated that there will be any dilution in the NAV per Share as a result of the Initial Placing and Offer.

PART 3

THE PLACING PROGRAMME

1. Details of the Placing Programme

Following the Initial Placing and Offer, the Directors intend to implement the Placing Programme. Conditional on the Issue Resolution being passed, the Directors will be authorised to issue up to 200 million New Shares pursuant to the Placing Programme less any such shares issued pursuant to the Initial Placing and Offer without having to first offer those New Shares to existing Shareholders. The Placing Programme is being implemented to enable the Company to raise additional capital in the period from 18 April 2014 to 19 March 2015 as and when it identifies properties that are suitable for acquisition. This should, in turn, enable the Investment Manager to act opportunistically, by making a series of accretive property acquisitions whilst also mitigating the risk of cash drag on Shareholders' funds.

The Net Proceeds of the Initial Placing and Offer and the Placing Programme are dependent on subscriptions received pursuant to both the Initial Placing and Offer and the Placing Programme. Assuming that Gross Proceeds of £40 million are raised under the Initial Placing and Offer and Gross Proceeds of a further £60 million are raised under the Placing Programme, the Net Proceeds of the Initial Placing and Offer and the Placing Programme would be approximately £97.72 million with expenses (including any commission) of approximately £2.28 million. These expenses will be met out of the Gross Proceeds of the Initial Placing and Offer and the Placing Programme.

The Directors intend to apply the Net Proceeds of the Placing Programme in making investments in accordance with the Company's investment objective and policy. The Placing Programme is not being underwritten.

New Shares will be issued from 8.00 a.m. on 18 April 2014 until 8.00 a.m. on 19 March 2015. The issue of New Shares pursuant to the Placing Programme is at the discretion of the Directors.

In the event that there are any significant changes affecting any of the matters described in this document or where any significant new matters have arisen after the publication of this document and prior to Admission of the New Shares issued pursuant to the Placing Programme, the Company will publish a supplementary prospectus. Any supplementary prospectus published will give details of the significant change(s) or the significant new matter(s).

2. Conditions

The Placing Programme is conditional, *inter alia*, on the following:

- (i) the Issue Resolution being passed at the EGM;
- (ii) the Placing Programme Price being determined by the Directors as described below;
- (iii) Admission of the New Shares issued pursuant to such issue; and
- (iv) a valid supplementary prospectus being published by the Company if such is required by the Prospectus Rules and/or the Authorised Closed-Ended Investment Schemes Rules 2008.

In circumstances where these conditions are not fully met, the relevant issue of New Shares pursuant to the Placing Programme will not take place.

3. Placing Programme Price

The Placing Programme Price will be determined by the Company and will be at a premium to the Net Asset Value (cum income) per Ordinary Share.

The Directors will determine the Placing Programme Price on the basis described above so as to cover the costs and expenses of each issue under the Placing Programme and to thereby avoid any dilution of the Net Asset Value of the existing Ordinary Shares. In determining the Placing Programme Price, the Directors will also take into consideration, *inter alia*, the prevailing market conditions at that time.

The Placing Programme Price will be announced through an RIS as soon as is practicable in conjunction with each Issue.

4. Admission and dealing arrangements

Applications will be made to the FCA and to the CISE for admission of the New Shares to their respective Official Lists. Applications will also be made for the New Shares to be admitted to trading on the London Stock Exchange and the CISE throughout the period from 18 April 2014 to 19 March 2015. It is expected that such admission and dealings in the Ordinary Shares issued pursuant to the Placing Programme will commence in the period from 18 April 2014 to 19 March 2015.

The New Shares will be issued in registered form and may be held in uncertificated form. The New Shares allocated will be issued to Placees through the CREST system unless otherwise stated. The New Shares will be eligible for settlement through CREST with effect from Admission.

The Company will arrange for CREST to be instructed to credit the appropriate CREST accounts of the Placees concerned or their nominees with their respective entitlements to the New Shares. The names of Placees or their nominees that invest through their CREST accounts will be entered directly on to the share register of the Company.

Dealings in the New Shares in advance of the crediting of the relevant stock account shall be at the risk of the person concerned.

The New Shares will be denominated in Sterling.

5. Scaling back

Conditional on the Issue Resolution being passed, the Directors will be authorised to issue up to 200 million New Shares pursuant to the Issues. In the event that the aggregate applications under the Initial Placing and Offer and the Placing Programme were to exceed 200 million New Shares or would result in the Company receiving Net Proceeds which are significantly in excess of the estimated costs of properties that the Investment Manager has identified for acquisition at the time of such issue, then it would be necessary to scale back applications under the Placing Programme. In such circumstances, it is intended that New Shares will be allocated so that applications from existing Shareholders are given priority over other applicants, with a view to existing Shareholders being allocated such percentage of New Shares as is as close as possible to their existing percentage holding of Ordinary Shares. Existing Shareholders will not, however, be entitled to any minimum allocation of New Shares in the Placing Programme and there will be no guarantee that existing Shareholders wishing to participate in the Placing Programme will receive all or some of the New Shares for which they have applied. Further, the Company, in consultation with J. P. Morgan Cazenove and Numis, will have absolute discretion to determine the proportion of New Shares allocated to each person wishing to participate in the Placing Programme. In the event that the aggregate applications under the Initial Placing and Offer and the Placing Programme were to exceed 200 million New Shares, no further commitments will be accepted.

PART 4

INFORMATION ON THE COMPANY

1. Introduction

The Company was incorporated in Guernsey on 27 May 2004. The Company is an authorised closed-ended collective investment scheme pursuant to The Protection of Investor (Bailiwick of Guernsey) Law, 1987, as amended, and the Authorised Closed-Ended Investment Schemes Rules 2008. The Ordinary Shares have been admitted to listing on the Official Lists of the FCA and the CISE and to trading on the London Stock Exchange's main market for listed securities since July 2004.

2. Investment objective and policy

The Company's investment objective and policy is set out below. The investment policy has not changed materially since the launch of the Company but has been amended from time to time by the Board in consultation with the Investment Manager.

Evolving structural and cyclical changes in the UK commercial property market means that, in the view of the Investment Manager, there is an opportunity to broaden the Company's investable universe through exposure to additional alternative property types such as healthcare, hotels and student accommodation. These alternative property types could make a positive contribution to performance through diversification and other benefits such as longer lease terms with inflation-linked rents.

Whilst this is not a material change to the investment policy but more an expansion of it, the Board believes that Shareholders should be given the opportunity to approve this restated investment policy and, accordingly, the Investment Policy Resolution will be proposed to Shareholders at the EGM.

2.1 *Current investment objective and policy*

Investment objective

The investment objective of the Company is to provide shareholders with an attractive level of income together with the potential for income and capital growth through investing in UK commercial property. The Group invests principally in the UK commercial property sectors including office, retail and industrial and it may invest in other sectors from time to time, such as residential and leisure.

Investment policy

The investment policy of the Company is to own a diversified portfolio of UK commercial property with good fundamental characteristics, as outlined below.

Diversification and asset allocation

The Board believes that, in order to maximise the stability of the Group's income, the optimal strategy for the Group is to invest in a portfolio of assets diversified by location, sector, asset size and tenant exposure with low vacancy rates and creditworthy tenants. The value of any individual asset at the date of its acquisition must not exceed 15 per cent. of gross assets and the proportion of rental income deriving from a single tenant must not exceed 10 per cent. From time to time the Board may also impose limits on sector, location and tenant types, together with other activity such as development. At present, the Board has instructed the Investment Manager to seek to maintain the Group's exposure to the office sector at below 60 per cent. of the total value of the Group's assets. This instruction will be kept under review by the Board.

The Company's portfolio will be invested and managed in accordance with the Listing Rules, the Listing Rules of the CISE and taking into account the Company's investment objectives, policies and restrictions.

Borrowings

The Board has established a gearing guideline for the Investment Manager, which seeks to limit on-balance-sheet debt, net of cash, to 40 per cent. of on-balance-sheet assets while recognising that this may be exceeded in the short term from time to time. It should be noted that the Company's Articles limit its borrowings to 65 per cent. of the Group's gross assets, calculated as at the time of borrowing. The Board keeps this guideline under review and the Directors may require the Investment Manager to manage the Group's assets with the objective of bringing borrowings within the appropriate limit while taking due account of the interests of Shareholders. Accordingly, corrective measures may not have to be taken immediately if this would be detrimental to Shareholder interests.

Interest rate exposure

It is the Board's policy to hedge interest rate risk, either by ensuring that borrowings are on a fixed rate basis, or through the use of interest rate swaps/derivatives used solely for hedging purposes. There are currently no interest rate swaps due to the fixed rate nature of the newly refinanced debt.

2.2 *New investment objective and policy*

Conditional on the Investment Policy Resolution being passed, the Company's investment objective and policy will be as follows:

Investment objective

The investment objective of the Company is to provide Shareholders with an attractive level of income together with the potential for income and capital growth through investing predominantly in UK commercial property.

Investment policy

The investment policy of the Company is to own a diversified portfolio of UK property with good fundamental characteristics, as outlined below. The Group invests principally in the UK commercial property sectors including office, retail and industrial and will also invest in other sectors including, but not limited to, residential, leisure, healthcare, hotels and student accommodation.

Diversification and asset allocation

The Board believes that, in order to maximise the stability of the Group's income, the optimal strategy for the Group is to invest in a portfolio of assets diversified by location, sector, asset size and tenant exposure with low vacancy rates and creditworthy tenants. The value of any individual asset at the date of its acquisition must not exceed 15 per cent. of gross assets and the proportion of rental income deriving from a single tenant must not exceed 10 per cent. From time to time the Board may also impose limits on sector, location and tenant types, together with other activity such as development.

The Company's portfolio will be invested and managed in accordance with the Listing Rules, the Listing Rules of the CISE and taking into account the Company's investment objectives, policies and restrictions.

Borrowings

It should be noted that the Company's Articles limit its borrowings to 65 per cent. of the Group's gross assets, calculated as at the time of borrowing. The Board keeps this guideline under review and the Directors may require the Investment Manager to manage the Group's assets with the objective of bringing borrowings within the appropriate limit while taking due account of the interests of Shareholders. Interest rate exposure

It is the Board's policy to hedge interest rate risk, either by ensuring that borrowings are on a fixed rate basis, or through the use of interest rate swaps/derivatives used solely for hedging purposes.

2.3 Investment restrictions

As the Company is an authorised closed-ended investment fund for the purposes of the Listing Rules and the Listing Rules of the CISE, the Group will adhere to the Listing Rules and the Listing Rules of the CISE applicable to closed-ended investment funds. The Company and, where relevant, its subsidiaries will observe the following restrictions applicable to closed-ended investment funds in compliance with the current Listing Rules and the Listing Rules of the CISE:

- neither the Company nor any subsidiary will conduct a trading activity which is significant in the context of the Group as a whole and the Group will not invest in other listed investment companies; and
- where amendments are made to the Listing Rules and/or the Listing Rules of the CISE, the restrictions applying to the Company will be amended so as to reflect the new Listing Rules or the Listing Rules of the CISE (as appropriate).

3. Investment Manager

The Investment Manager, Schroder Property Investment Management Limited, was appointed on 13 January 2012 as the Company's Investment Manager, providing investment management and accounting services, following the transfer of the management team from Invista Real Estate Investment Management Limited to the Investment Manager. This team, comprising Duncan Owen, Nick Montgomery, Melinda Knatchbull, Andrew MacDonald and Jessica Berney, continues to have responsibility for implementing the Company's strategy, supported by the extensive resources available within Schroder Property Investment Management Limited and the wider Schroders business. Duncan Owen and Nick Montgomery have been the Company's investment and asset management advisers since launch in July 2004.

The Investment Manager is a wholly owned subsidiary of Schroders plc ("**Schroders**"), which is a global asset management company with £256.7 billion (€307.2 billion /US\$415.8 billion) under management as at 30 September 2013. Its clients include corporations, insurance companies, local and public authorities, charities, pension funds, high net worth individuals and retail investors.

Schroders has managed property funds since 1971 and has £10.6 billion (€12.7 billion/US\$17.2 billion) of gross property assets under management as at 30 September 2013. Its property team consists of around 100 people operating from nine offices across Europe. The team is highly experienced in property fund management, research and strategy, product and client management, finance and administration, and benefits from the significant resource of the Schroders group. Schroders currently manages three property owning investment companies.

4. Dividends, distributions and dividend policy

Dividends may be paid to holders of Ordinary Shares whenever the financial position of the Company, in the opinion of the Directors, justifies such payment, subject to the Company being able to satisfy the solvency test, as defined under the Law, immediately after payment of such dividend. The Company may by ordinary resolution from time to time declare dividends. The dividend policy adopted by the Board is to typically pay dividends to holders of Ordinary Shares quarterly in February, May, August and November in each year.

The dividends paid on each Ordinary Share in respect of the last three financial years were as follows: 3.52 pence (2011); 3.52 pence (2012); and 3.52 pence (2013). The Board announced in July 2013 that a sustainable dividend, based on the Company's portfolio and business plans, is 0.62 pence per Ordinary Share per quarter, representing a reduction of 30 per cent. from the previous level of dividend.

The Board keeps the dividend policy under close review with a view to ensuring the Company can deliver a sustainable level of cover whilst having due regard to current and anticipated future market conditions, rental values and the outcome of any future debt refinancing.

Investors subscribing for New Shares under the Initial Placing and Offer will not be entitled to receive any dividend for the period from 1 January 2014 to 31 March 2014.

5. Share repurchases

The Board monitors the level of the Ordinary Share price compared to the NAV per Ordinary Share. Where appropriate on investment grounds, the Company may from time to time repurchase its own Ordinary Shares, but the Board recognises that movements in the Ordinary Share price premium or discount are driven by numerous factors, including investment performance, gearing and market sentiment. Accordingly, it focuses its efforts principally on addressing sources of risk and return as the most effective way of producing long term value for Shareholders.

At the last annual general meeting held on 12 September 2013, the Company was granted authority to make market purchases of a maximum aggregate number of up to 14.99 per cent. of the Ordinary Shares then in issue. The Company's authority to make market purchases of the Ordinary Shares will expire at the conclusion of the next annual general meeting to be held in 2014 and a renewal of this authority will be sought from Shareholders at each annual general meeting.

6. Duration

The Company was incorporated with an unlimited life. The Board is required to put an ordinary resolution to the annual general meeting of the Company to be held in 2014 proposing that the Company should continue in existence until such further resolution is passed to determine otherwise (the "**Continuation Resolution**"). If any such resolution is not passed in 2014, the Board is required draw up proposals for the reconstruction, unitisation or other reorganisation of the Company for submission to the members of the Company at an extraordinary general meeting to be convened by the Board for a date not more than three months after such annual general meeting. Given the Company's recent performance and in light of the Placing Programme, it is the Board's current intention to recommend that Shareholders vote in favour of the Continuation Resolution.

2. Corporate Governance

Statement of compliance with the UK Code on Corporate Governance

The Directors are committed to maintaining high standards of corporate governance. Insofar as the Directors believe it to be appropriate and relevant to the Company, it is their intention that the Company should comply with best practice standards for the business carried on by the Company.

On 1 January 2012, the GFSC's Finance Sector Code of Corporate Governance (the "**Code**") came into effect. The GFSC has stated in the Code that companies which report against the UK Corporate Governance Code or the Association of Investment Companies' Code of Corporate Governance (the "**AIC Code**") are deemed to meet the requirements of the Code, and need take no further action.

The Board has considered the principles and recommendations of the AIC Code by reference to the AIC Corporate Governance Guide for investment companies (the "**AIC Guide**"). The AIC Code, as explained by the AIC Guide, addresses all the principles set out in the UK Corporate Governance Code, as well as setting out additional principles and recommendations on issues that are of specific relevance.

The Board considers that reporting against the principles and recommendations of the AIC Code, and by reference to the AIC Guide (which incorporates the UK Corporate Governance Code), will provide better information to Shareholders. Copies of the AIC Code and the AIC Guide can be found at www.theaic.co.uk.

It is the Board's intention to continue to comply with the AIC Code.

Statement of compliance

The Company has complied with the recommendations of the AIC Code and the relevant provisions of the UK Corporate Governance Code, except as set out below.

The UK Corporate Governance Code includes provisions relating to:

- the role of the chief executive;
- executive directors' remuneration; and
- the internal audit function.

For the reasons set out in the AIC Guide, and as explained in the UK Corporate Governance Code, the Board considers these provisions are not relevant to the Company, being an externally-managed investment company. The Company has therefore not reported further in respect of these provisions.

Role of the Board

The Board has determined that its role is to consider and determine the following principal matters which it considers are of strategic importance to the Company:

- the overall objectives of the Company as described under the paragraph headed "Investment objective and policy" in Part 4 of this document and the strategy for fulfilling those objectives within an appropriate risk framework in light of market conditions prevailing from time to time;
- the capital structure of the Company including consideration of an appropriate policy for the use of borrowings both for the Company and in any joint ventures in which the Company may invest from time to time;
- the appointment of the Investment Manager, Administrator and other appropriately skilled service providers and to monitor their effectiveness through regular reports and meetings; and
- the key elements of the Company's performance including NAV growth and the payment of dividends.

Board decisions

The Board makes decisions on, among other things, the principal matters set out under the paragraph above headed "Role of the Board". Issues associated with implementing the Company's strategy are generally

considered by the Board to be non-strategic in nature and are delegated either to the Investment Manager or the Administrator, unless the Board considers there will be implementation matters significant enough to be of strategic importance to the Company and should be reserved to the Board. Generally these are defined as:

- large property decisions affecting 10 per cent. or more of the Company's assets;
- large property decisions affecting 5 per cent. or more of the Company's rental income; and
- decisions affecting the Company's financial borrowings.

Board committees

Audit committee

The Audit Committee is chaired by Harry Dick-Cleland with Lorraine Baldry, John Frederiksen, Keith Goulborn, Alison Ozanne and David Warr as members. The Board considers that Harry Dick-Cleland's experience makes him suitably qualified to chair the Audit Committee. The Audit Committee meets no less than twice a year and, if required, meetings can also be attended by the Investment Manager, the Administrator and the Auditors.

The Audit Committee is responsible for reviewing the half-year and annual financial statements before their submission to the Board. In addition, the Audit Committee is specifically charged under its terms of reference to advise the Board on the terms and scope of the appointment of the Auditors, including their remuneration, independence, objectivity and reviewing with the Auditors the results and effectiveness of the audit.

Nomination committee

The Nomination Committee is chaired by Lorraine Baldry with all other Directors as members.

Remuneration committee

As all the Directors are non-executives, the Board has resolved that it is not appropriate to have a Remuneration Committee.

Transactions committee

The members of the Transactions Committee are Harry Dick-Cleland, Alison Ozanne and David Warr, with the Chairman elected at each meeting. The Transactions Committee reviews transactions between regular scheduled Board meetings where a Board approval is required. All transaction proposals are circulated to all Directors in advance of meetings of the Transactions Committee, together with a recommendation and explanatory note from the Investment Manager. All Board members may comment in advance of the Transactions Committee meeting, but only those attending will consider the proposal. Transactions are noted subsequently at regular quarterly Board meetings. The members of the Transactions Committee are each paid a fee of £5,000 per annum, in addition to their fees as Directors.

3. Conflicts of interest

Directors

There are no conflicts of interest between: (i) any duties to the Company of any of the Directors and (ii) their private interests and/or other duties.

Investment Manager

The Investment Manager is not required to devote all its resources to the Company. In particular, the Investment Manager manages funds other than the Company and may provide investment management, investment advisory or other services in relation to these funds or future funds which may have similar investment policies to that of the Company.

Pursuant to the terms of the Investment Management Agreement, the Company has been provided with a copy of the Investment Manager's conflicts of interest policy which sets out the procedures that are in place

to identify, record and manage the actual and potential conflicts of interest that arise or might arise in the course of the Investment Manager carrying out its business (the “**Policy**”).

In accordance with the FCA rules and as set out in the Policy, the Investment Manager is obliged to treat its clients (including the Company) fairly and to ensure that material conflicts of interest are either avoided or are managed to avoid damage to a client’s interests. In the event that a conflict of interest cannot be avoided or managed, such conflicts might need to be disclosed to the relevant client in order for them to make an informed decision as to whether to start or continue the business relationship.

6. Costs of acquisition and holding of properties

The standard acquisition cost assumption for direct commercial property is 5.8 per cent of the price. This comprises stamp duty land tax (“**SDLT**”) at 4.0 per cent. of the property price, property agent fees at approximately 1.0 per cent. of the property price and other professional fees at approximately 0.8 per cent. of the property price.

The direct costs associated with holding commercial properties for investment will normally be the responsibility of the tenant and include (but are not limited to) utilities, business rates, insurance and maintenance.

Where a property is vacant or partially vacant the Company is liable for its proportion of such costs. The Company’s current budget for direct property costs over the calendar year 2014 is approximately £3.25 million to £3.75 million.

In addition to property-level costs and expenses, the Company incurs others costs associated with its general operation, including investment management fees, administrative expenses and interest expenses.

Dear Sirs,

Schroder Real Estate Investment Trust Limited (the “Company”)

Valuation as at 17 March 2014

1.0 Introduction

- 1.1 In accordance with our instructions, we have carried out a valuation of the freehold and leasehold interests in the properties referred to in the Schedules appended to this Report (the “**Properties**”) and now report our opinion of the Market Values of the Properties as at 17 March 2014. We confirm that there have been no material changes since 17 March 2014, being the valuation date of the Properties.
- 1.2 This Report is required for inclusion in a prospectus (the “**Prospectus**”) which is to be published in connection with the proposed issue of new shares in the capital of the Company by way of an initial placing and offer and a placing programme.
- 1.3 The Properties comprise retail, office, industrial, leisure and development assets and have been categorised as investment properties.
- 1.4 The valuations have been prepared in accordance with the RICS Valuation – Professional Standards January 2014, issued by the Royal Institution of Chartered Surveyors (the “**Red Book**”), with Rules 5.6.5 and 5.6.6 and paragraph 2.7, Annex XV, Appendix 3 of the Prospectus Rules published by the Financial Conduct Authority and with paragraphs 128 to 130 of ESMA Update of the CESR Recommendations for the consistent implementation of the European Commission’s Regulation (EC) No 809/2004 implementing the Prospectus Directive (the “**CESR Recommendations**”).
- 1.5 The Schedules comprise brief details of each of the Properties, terms of tenure and main tenancies. For the Properties with Market Values of £8,000,000 and over as at 17 March 2014 the individual values, together with the Net Annual Rent where applicable, are shown.

Net Annual Rent is defined within the FCA’s handbook as:

“The current income or income estimated by the valuer:

- (1) ignoring any special receipts or deductions arising from the property;

T +44 20 7629 8171 F +44 20 7493 4114

- (2) excluding Value Added Tax and before taxation (including tax on profits and any allowances for interest on capital or loans); and
- (3) after making deductions for superior rents (but not for amortisation) and any disbursements including, if appropriate, expenses of managing the property and allowances to maintain it in a condition to command its rent.”

The Schedules also include the Market Values as at 31 March 2013 of the Properties with Market Values of £8,000,000 and over as at 17 March 2014. We are required to include the values as at 31 March 2013 by paragraph 130 of CESR Recommendations as they represent the valuations included in the last published annual accounts. We also include an explanation of any differences between these valuations as is also required.

- 1.6 The Properties were inspected within the last 12 months. The individual dates of these inspections are included in the Schedules.

2.0 Compliance and Disclosures

- 2.1 Knight Frank LLP is instructed as External Valuers, as defined by the Red Book and regulations made by the Financial Conduct Authority.
- 2.2 As you are aware, we are instructed to value the Properties on a quarterly basis for performance purposes having been appointed in September 2004. Hazel E Morris MRICS has been responsible for this instruction since December 2013.
- 2.3 You are also aware that we undertook valuations of 52 of the Properties for the purpose of secured lending for Canada Life Limited (“**Canada Life**”) and report our opinion of the value of those Properties to Canada Life on a quarterly basis in connection with the loan facility and for the purposes of internal management and monitoring of loan covenants and performance.

We have also advised you that with regard to the Arndale Centre, Headingly, we previously provided advice to Lloyds Banking Group prior to the acquisition of that property.

- 2.4 Other than as stated above, Knight Frank LLP has not had any material involvement with the Properties within the last 12 months.
- 2.5 The valuer, on behalf of Knight Frank LLP, with responsibility for this report is Hazel E Morris MRICS, RICS Registered Valuer. Parts of the valuation have been undertaken by additional valuers. We confirm that the valuer and additional valuers collectively meet the requirements of RICS Valuation – Professional Standards VPS 3 having sufficient current knowledge of the particular market and the skills and understanding to undertake the valuation competently.
- 2.6 In relation to Knight Frank LLP’s preceding financial year, the proportion of the total fees paid by the Company to the total fee income of Knight Frank LLP was less than 5%. We recognise and support the RICS Rules of Conduct and have procedures for identifying conflict of interest checks.

3.0 Basis of Valuation

- 3.1 The Properties have been valued on the basis of Market Value in accordance with the RICS Valuation – Professional Standards VPS4(1.2). This is an internationally recognised basis and is defined as:

“The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.”

- 3.2 The valuations as at 31 March 2013 were undertaken on the basis of Fair Value in accordance with the RICS Valuation – Professional Standards VPS4(1.5) Fair Value and VPGA1 Valuations for

Inclusion in Financial Statements which adopt the definition of Fair Value used by the International Accounting Standards Board. Fair Value is defined as:

“The price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.”

In our opinion the adoption of the Fair Value basis does not result in any material difference in the values from those derived under the definition of Market Value.

- 3.3 No allowance has been made for expenses of realisation or for any taxation which might arise, and our valuations are expressed exclusive of any Value Added Tax that may become chargeable.
- 3.4 Our valuations reflect usual deductions in respect of purchaser’s costs and, in particular, full liability for UK Stamp Duty as applicable at the valuation date.
- 3.5 Our valuation has been undertaken using appropriate valuation methodology and our professional judgement.
- 3.6 The Valuer’s opinion of Market Value was primarily derived using recent comparable market transactions on arm’s length terms, where available, and appropriate valuation techniques (The Investment Method).
- 3.7 In the case of the Properties having development potential, the Residual Method has been adopted which is the generally accepted method for valuing such properties. In these instances we form an opinion of the completed development (Gross Development Value) using the Investment Method and deduct from it the total costs of development and an allowance for developer’s profit.
- 3.8 None of the Properties is actually in the course of development.
- 3.9 The Properties have been valued individually and not as part of a portfolio.
- 3.10 Save as otherwise disclosed, it has been assumed for the purpose of valuation that the relevant interests in the Properties are free of mortgage, charge or other debt security and no deduction has been made for such charge or debt.

4.0 Valuation Assumptions

4.1 Sources of Information

Our valuations are based on information provided by the Company’s investment manager, Schroder Property Investment Management Limited, upon which we have relied, and which has not been verified by us. Our assumptions (as defined in the Red Book) relating to this information are set out below. If any of the information or assumptions is subsequently found to be incorrect then our valuations should be reviewed.

- 4.2 We have not read documents of title or leases and, for the purpose of our valuations, have accepted the details of tenure, tenancies and all other relevant information with which we have been supplied by Schroder Property Investment Management Limited. When considering the covenant strength of individual tenants we have not carried out credit enquiries but have reflected in our valuations our general understanding of purchasers’ likely perceptions of tenants’ financial status.

4.3 Title

Our valuations assume that the Properties have good and marketable titles and are free of any undisclosed onerous burdens, outgoings or restrictions.

4.4 ***Land Register Inspection and Searches***

We do not undertake searches or inspections of any kind (including web based searches) for title or price paid information in any publicly available land registers, including the Land Registry for England & Wales, Registers of Scotland and Land & Property Services in Northern Ireland.

4.5 ***Planning, Highway and Other Statutory Regulations***

We have made verbal/web based enquiries of the appropriate Town Planning and Highways Authorities in respect of matters affecting the Properties, where considered appropriate, although this information was given to us on the basis that it should not be relied upon.

We have not seen planning consents and, except where advised to the contrary, have assumed that the Properties have been erected and are being occupied and used in accordance with all requisite consents and that there are no outstanding statutory notices. No allowances have been made for rights, obligations or liabilities arising under the Defective Premises Act 1972.

4.6 ***Structural Condition***

We were not instructed to carry out structural surveys of the Properties, nor to test the services, but have reflected in our valuations, where necessary, the general condition of the Properties as observed during the course of our inspections or of which we have been advised. Our valuations assume the buildings contain no deleterious materials and that the sites are unaffected by adverse soil conditions, except where we have been notified to the contrary.

4.7 ***Environmental Issues***

We have not carried out any investigations into past or present uses of either the Properties or any neighbouring land to establish whether there is any potential for contamination from these uses or sites to the Properties. We understand that the Company has established procedures for the inspection of newly acquired properties to be carried out with particular reference to environmental matters, and that any such matters identified receive appropriate attention. Unless we have been provided with information to the contrary, we have assumed that the Properties are not, nor are likely to be, affected by land contamination and that there are no ground conditions which would affect the present or future uses of the properties.

Should it be established subsequently that contamination exists at any of the Properties or on any neighbouring land or that the Properties have been or are being put to a contaminative use this might reduce the values now reported.

We have used the website of the Environment Agency's Indicative Floodplain Maps to provide a general overview of lands in natural floodplains and therefore potentially at risk of flooding from rivers or the sea. The maps use the best information currently available, based on historical flood records and geographical models. They indicate where flooding from rivers, streams, watercourses or the sea is possible. From the website, we have established that there are Properties within the portfolio that lie within or close to a flood plain or have a history of flooding.

4.8 ***Property Insurance***

Our valuations assume that the Properties would, in all respects, be insurable against all usual risks including terrorism, flooding and rising water table at normal, commercially acceptable premiums.

4.9 ***Building Areas***

Our valuations are based on measurements which have been provided by Schroder Property Investment Management Limited. We have assumed these measurements have been undertaken in accordance with the current RICS Code of Measuring Practice.

5.0 **Valuation**

5.1 We are of the opinion that the aggregate of the Market Values of the freehold and leasehold interests in the Properties as at 17 March 2014 was **£306,480,000 (Three Hundred and Six Million, Four Hundred and Eighty Thousand Pounds)**.

1. In years prior to 31 March 2012 the Group accounted for all of its swap instruments as effective hedges and took changes in fair value movements to other comprehensive income. However, in 2012, the Board determined that a swap attaching to £111 million of borrowings should not have been treated as an effective hedge, in accordance with IAS 39, due to the non-coterminous periods of the swap and the loan, and that changes in fair value should have been dealt with in profit and loss. The figures set out above for the year ending on 31 March 2011 have been extracted from the Group's 31 March 2011 financial statements as originally published. These were restated in the 31 March 2012 financial statements, based on the Group's current accounting policies and are set out below.

5. NAV calculations

Properties are valued quarterly by an external valuer and their valuation is reviewed quarterly by a committee of the Board. The NAV attributable to the Ordinary Shares is published quarterly based on the properties' most recent valuation and calculated under IFRS. The NAV is published through a regulatory information service provider to the London Stock Exchange and the CISE as soon as practicable after the end of the relevant quarter. The publication of the NAV per Ordinary Share will only be suspended in circumstances where the underlying data necessary to value the Company's investments cannot readily, or without undue expenditure, be obtained having regard to the fact that, in such circumstances, the CISE may require the listing of the Ordinary Shares on its Official List to be suspended. Details of any suspension in publishing such calculations will be announced through an RIS.

The last published unaudited NAV per Ordinary Share prior to the Latest Practicable Date was 47.3 pence per Ordinary Share as at 31 December 2013.

3. Mandatory offers and squeeze-out rules

3.1 *Mandatory offers*

The Takeover Code applies to the Company. Under the Takeover Code, if an acquisition of Ordinary Shares were to increase the aggregate holding of the acquirer and any parties acting in concert with it to Ordinary Shares carrying 30 per cent. or more of the voting rights in the Company, the acquirer and, depending on the circumstances, its concert parties (if any) would be required (except with the consent of the Panel on Takeovers and Mergers) (the "**Panel**") to make a cash offer for Ordinary Shares not already owned by the acquirer or its concert parties (if any) at a price not less than the highest price paid for Ordinary Shares by the acquirer or its concert parties (if any) during the

previous 12 months or (where there has been no acquisition of Ordinary Shares) at a comparable price agreed by the Panel. A similar obligation to make such a mandatory cash offer would also arise on the acquisition of Ordinary Shares by a person holding (together with its concert parties, if any) Ordinary Shares carrying at least 30 per cent., but not more than 50 per cent., of the voting rights in the Company if the effect of such acquisition was to increase the percentage of the aggregate voting rights held by the acquirer and its concert parties (if any).

3.2 *Squeeze-out rules*

The Law provides that if an offer is made for the shares or any class of shares in the capital of a company and if, within 4 months after the date of such offer, the offer is approved by shareholders comprising 90 per cent. in value of the shares affected (excluding any shares held as treasury shares) then the offeror may, within 2 months after the expiration of those 4 months, send an acquisition notice to any dissenting shareholders informing them that it wishes to acquire their shares (an “**Acquisition Notice**”). Where an Acquisition Notice is given, the offeror is then entitled and bound to acquire those shares on the terms on which the original offer, approved by the shareholders comprising 90 per cent. in value of the shares affected, was made.

4. **Memorandum and Articles of Incorporation of the Company**

4.1 The Memorandum of Incorporation provides that the Company’s objects are unrestricted and it shall therefore have the full power and authority to carry out any object not prohibited by the Law, or any other law of Guernsey. Copies of the Memorandum of Incorporation are available for inspection at the addresses specified in paragraph 19 of this Part 9.

4.2 The Articles of the Company contain provisions, *inter alia*, to the following effect. Copies of the Articles are available for inspection at the addresses specified in paragraph 19 of this Part 9.

4.3 The Articles contain provisions, *inter alia*, to the following effect:

4.3.1 *Shares*

- (a) Subject to paragraph 4.3.7(a) the Company may issue an unlimited number of shares.
- (b) The holders of the Ordinary Shares shall have the following rights:

Dividends

Holders of Ordinary Shares are entitled to receive, and participate in, any dividends or other distributions out of the profits of the Company available for dividend and resolved to be distributed in respect of any accounting period or other income or right to participate therein.

Winding-up

On a winding up, the holders of Ordinary Shares shall be entitled to the surplus assets remaining after payment of all the creditors of the Company.

Voting

The holders of Ordinary Shares shall have the right to receive notice of and to attend and vote at general meetings of the Company and each holder of Ordinary Shares being present in person or by proxy or by a duly authorised representative (if a corporation) at a meeting shall upon a show of hands have one vote and upon a poll each such holder present in person or by proxy or by a duly authorised representative (if a corporation) shall have one vote in respect of each Ordinary Share held by him.

Variation of rights

The rights attached to any class of shares may be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a special resolution of the holders of the shares of that class.

- (c) Without prejudice to any special rights previously conferred on the holders of any existing shares or class of shares and subject to any requirement of the Law, any share in the Company may be issued with such preferred, deferred or other special rights or restrictions whether as to dividend, voting, return of capital or otherwise as the Company at any time by ordinary resolution may determine and subject to and in default of such determination as the Board may determine.
- (d) Subject to the provisions of the Laws and the Articles:
 - (i) any shares may with the sanction either of the Board or an ordinary resolution be issued on terms that they are or at the option of the Company or the holder are liable to be redeemed on such terms and in such manner as the Company before the issue may by ordinary resolution determine and subject to and in default of such determination as the Board may determine;
 - (ii) the Company may purchase any of its own shares whether or not they are redeemable and may pay the purchase price in respect of such purchase to the fullest extent permitted by the Law;
 - (iii) shares repurchased by the Company may be held as treasury shares and dealt with by the Directors to the fullest extent permitted by the Law;
 - (iv) the Company and any of its subsidiary companies may give financial assistance directly or indirectly for the purpose of or in connection with the acquisition of shares in the Company or in connection with reducing or discharging any liability incurred in connection with the purchase of shares in the Company;
 - (v) fractions of shares may be issued or purchased by the Company; and
 - (vi) the Company may issue shares of no par value or shares with a par value or a combination of both.
- (e) If at any time the share capital is divided into different classes of shares the rights attached to any class (unless otherwise provided by the terms of issue) may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class or with the sanction of a special resolution of the holders of the shares of that class.

4.3.2 *Duration*

The Board shall put an ordinary resolution to the annual general meeting of the Company to be held in 2014 proposing that the Company should continue in existence until such further resolution is passed to determine otherwise. If such resolution is not passed in 2014, the Board shall draw up proposals for the reconstruction, unitisation or other reorganisation of the Company for submission to the members of the Company at an extraordinary general meeting to be convened by the Board for a date not more than three months after such annual general meeting. Implementation of the proposals will require the approval of members by special resolution. If the resolution to approve such proposals is not passed, the Board shall put a special resolution to the Company requiring the Company to be wound up voluntarily.

4.3.3 *Winding-up*

- (a) The Company shall be wound up in any of the circumstances specified in the Law.
- (b) If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the members *in specie* the whole or any part of the assets of the Company and may with the like sanction vest any part of the assets in trustees upon such trusts for the benefit of members as the liquidator with the like sanction shall think fit.

4.3.4 *Notice requiring disclosure of interest in shares*

The Directors may serve notice on any member requiring that member to disclose to the Company the identity of any person (other than the member) who has any interest in the shares held by the member and the nature of such interest.

Any such notice shall require any information in response to such notice to be given within such reasonable time as the Directors may determine. The Directors may be required to exercise their powers under the relevant Article on a requisition of members holding not less than one tenth of the paid up capital of the Company. If any member is in default in supplying to the Company the information required by the Company within the prescribed period (which is 28 days after service of the notice or 14 days if the shares concerned represent 0.25 per cent. or more in value of the issued shares of the relevant class), the Directors in their absolute discretion may serve a direction notice on the member. The direction notice may direct that in respect of the shares in respect of which the default has occurred (the “**default shares**”) the member shall not be entitled to vote in general meetings or class meetings. Where the default shares represent at least 0.25 per cent. of the class of shares concerned the direction notice may additionally direct that dividends on such shares will be retained by the Company (without interest) and that no transfer of the shares (other than a transfer authorised under the Articles) shall be registered until the default is rectified.

4.3.5 *Dividends*

- (a) Subject to compliance with Section 304 of the Law, the Board may at any time declare and pay such dividends as appear to be justified by the position of the Company. The Board may also declare and pay any fixed dividend which is payable on any shares of the Company half-yearly or otherwise on fixed dates whenever the position in the opinion of the Board so justifies.
- (b) The method of payment of dividends shall be at the discretion of the Board.
- (c) No dividend shall be paid in excess of the amounts permitted by the Law or approved by the Board.
- (d) Subject to the Articles, all dividends shall be declared and paid *pro rata* according to the number of shares held by each member.
- (e) The Board may deduct from any dividend payable to any member on or in respect of a share all sums of money (if any) presently payable by him to the Company on account of calls or otherwise.
- (f) The Board may retain any dividend or other moneys payable on or in respect of a share on which the Company has a lien and may apply the same in or towards satisfaction of the liabilities or obligations in respect of which the lien exists.
- (g) The Board may retain dividends payable upon shares in respect of which any person is entitled to become a member until such person has become a member.
- (h) With the sanction of the Company in general meeting, any dividend may be paid wholly or in part by the distribution of specific assets and, in particular, of paid-up shares of the Company. Where any difficulty arises in regard to such distribution the Board may settle the same as it thinks expedient and in particular may issue fractional shares and fix the value for distribution of such specific assets and may determine that cash payments shall be made to any members upon the footing of the value so fixed in order to adjust the rights of members and may vest any such specific assets in trustees for the members entitled as may seem expedient to the Board.
- (i) Any dividend interest or other moneys payable in cash in respect of shares may be paid by cheque or warrant sent through the post to the registered address of the holder or, in

the case of joint holders, to the registered address of that one of the joint holders who is first named on the Register. Any one of two or more joint holders may give effectual receipts for any dividends, interest, bonuses or other moneys payable in respect of their joint holdings.

- (j) No dividend or other moneys payable on or in respect of a share shall bear interest against the Company.
- (k) All unclaimed dividends may be invested or otherwise made use of by the Board for the benefit of the Company until claimed and the Company shall not be constituted a trustee in respect thereof. All dividends unclaimed for a period of six (6) years after having been declared shall be forfeited and shall revert to the Company.

4.3.6 *Transfer of shares*

The Articles provide that the Directors may implement such arrangements as they may think fit in order for any class of shares to be admitted to settlement by means of the CREST system. If the Directors implement any such arrangements no provision of the Articles shall apply or have effect to the extent that it is in any respect inconsistent with:

- (a) the holding of shares of that class in uncertificated form;
- (b) the transfer of title to shares of that class by means of the CREST system; or
- (c) the CREST Guernsey Requirements.

Where any class of shares is for the time being admitted to settlement by means of the CREST system such securities may be issued in uncertificated form in accordance with and subject as provided in the CREST Guernsey Requirements. Unless the Directors otherwise determine, such securities held by the same holder or joint holder in both certificated form and uncertificated form shall be treated as separate holdings. Such securities may be changed from uncertificated to certificated form and from certificated to uncertificated form in accordance with and subject as provided in the CREST Guernsey Requirements. Title to such of the shares as are recorded on the register as being held in uncertificated form may be transferred only by means of the CREST system. Every transfer of shares from a CREST account of a CREST member to a CREST account of another CREST member shall vest in the transferee a beneficial interest in the shares transferred, notwithstanding any agreements or arrangements to the contrary, however and whenever arising and however expressed.

Subject as provided below, any member may transfer all or any of his shares which are in certificated form by instrument of transfer in any form which the Directors may approve. The instrument of transfer of a share shall be signed by or on behalf of the transferor. The Directors may refuse to register any transfer of certificated shares unless the instrument of transfer is lodged at the registered office accompanied by the relevant share certificate(s) and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer. The Directors may refuse to register a transfer of any share which is not fully paid up or on which the Company has a lien provided that this would not prevent dealings from taking place on an open and proper basis.

Subject to the provisions of the CREST Guernsey Requirements, the registration of transfers may be suspended at such times and for such periods as the Directors may from time to time determine, provided that such suspension shall not be for more than 30 days in any year. Shareholders are required to notify the Administrator and Registrar immediately in the event that they become, or hold their shares on behalf of, US Persons. Such shareholders will be required to dispose of their shares to non-US Persons as soon as possible. The Company reserves the right to require the transfer of any shares which are or become owned, directly or indirectly, by a US Person, provided that the Company will only exercise such right if, by not exercising it, the Company itself would suffer a disadvantage. The Directors may also refuse to

register any transfer of shares which is prohibited by the provisions described in paragraph 4.3.4 above or any transfer of shares unless such transfer is accompanied by the share certificate to which it relates, is in respect of one class of share only, is in favour of no more than four transferees and is lodged at the registered office or such other place as the Directors may appoint.

The Company shall be entitled to sell (at a price which the Company shall use its reasonable endeavours to ensure is the best obtainable) the shares of a member or the shares to which a person is entitled by virtue of transmission on death or insolvency or otherwise by operation of law if and provided that: (i) during the period of not less than twelve (12) years prior to the date of the publication of advertisements referred to below at least three dividends have been declared but not claimed; (ii) the Company shall following the expiry of such twelve (12) year period insert advertisements in a national newspaper and in a newspaper circulating in the area in which the last known address of the member is located; (iii) during the period of three (3) months following publication of such advertisements, the Company shall have received indication neither of the whereabouts nor the existence of such member; and (iv) notice shall have been given to the stock exchanges on which the Company is listed.

4.3.7 *Pre-emption rights*

- (a) Subject to the provisions of paragraph 4.3.7(b) the Company shall not allot any Ordinary Shares in the capital of the Company which are unissued from time to time (“Unissued Ordinary Shares”) to any person unless it has previously offered to each holder of Ordinary Shares to allot to him on the same or more favourable terms a proportion of those Unissued Ordinary Shares which is as nearly as practicable equal to the proportion held by him of the aggregate Ordinary Shares in issue at such date.
- (b) The Directors shall be entitled to allot Ordinary Shares otherwise than in accordance with the pre-emption rights set out in paragraph 4.3.7(a) where:
 - (i) the issue is in relation to further Ordinary Shares not exceeding 10 per cent. of the total number of Ordinary Shares then in issue (not including those Ordinary Shares proposed to be issued);
 - (ii) the issue of Ordinary Shares is for non-cash consideration;
 - (iii) the issue of Ordinary Shares is in connection with a rights issue, open offer or other offer of securities in favour of holders of Ordinary Shares on the register of members at such record date as the Directors may determine where the Ordinary Shares respectively attributable to the interests of Shareholders are proportionate (as nearly as may be) to the respective numbers of Ordinary Shares held by them on such record date, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or stock exchange or by virtue of shares being represented by depositary receipts or any other matter whatever; or
 - (iv) the issue of Ordinary Shares has previously been approved by holders of Ordinary Shares by special resolution.

4.3.8 *Alteration of capital and purchase of shares*

The Company may by ordinary resolution: consolidate and divide all or any of its share capital into shares of larger amounts than its existing shares; subdivide all or any of its shares into shares of a smaller amount; or cancel any shares which at the date of the resolution have not been taken or agreed to be taken and diminish the amount of its authorised share capital by the amount of shares so cancelled. The Company may by special resolution reduce any share capital account in any manner and with and subject to any incident authorised and consent required by the Law.

4.3.9 *Notice of general meetings*

Notice for any general meeting (other than an adjourned meeting) shall be sent by the secretary or officer of the Company or any other person appointed by the Board not less than fourteen clear days before the meeting. Notice of a general meeting of the Company must be sent to every member of the Company (being only persons registered as a member of the Company), every Director and every alternate Director registered as such. The notice must specify the time, date and place of the general meeting and the general nature of the business to be transacted. Notices and other documents may be sent in electronic form or published on a website in accordance with section 208 of the Law.

Notice of a general meeting of the Company must specify any special business to be put to the meeting (as defined in the Articles), contain the information required under section 178(6)(a) of the Law in respect of a resolution which is to be proposed as a special resolution at the meeting, contain the information required under section 179(6)(a) of the Law in respect of a resolution which is to be proposed as a waiver resolution at the meeting, and contain the information required under section 180(3)(a) of the Law in respect of a resolution which is to be proposed as a unanimous resolution at the meeting. A general meeting may be convened by a shorter notice than otherwise required if all the members entitled to attend and vote so agree. The accidental omission to give notice of any meeting or the non-receipt of such notice by any member shall not invalidate any resolution, or any proposed resolution otherwise duly approved, passed or proceeding at any meeting.

4.3.10 *Interests of Directors*

- (a) Save as mentioned below, a Director may not vote or be counted in the quorum on any resolution of the Board (or a committee of the Directors) in respect of any matter in which he has (together with any interest of any person connected with him) a material interest (other than by virtue of his interest in shares or debentures or other securities of the Company).
- (b) A Director shall be entitled to vote (and be counted in the quorum) in respect of any resolution concerning any of the following matters:
 - (i) the giving of any guarantee, security or indemnity in respect of money lent or obligations incurred by him or any other person at the request of or for the benefit of the Company or any of its subsidiaries;
 - (ii) the giving of any guarantee, security or indemnity in respect of a debt or obligation of the Company or any of its subsidiaries for which the Director himself has assumed responsibility in whole or in part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security;
 - (iii) any proposal concerning an offer of securities of the Company or its subsidiaries in which offer he is or may be entitled to participate or in the underwriting or sub-underwriting of which he is to or may participate;
 - (iv) any proposal concerning any other company in which he is interested, directly or indirectly, as an officer or shareholder or otherwise, provided that he, together with persons connected with him, is not to his knowledge the holder of or beneficially interested in one per cent. or more of any class of the equity share capital of any such company (or of any third company through which his interest is derived) or of the voting rights of such company;
 - (v) any arrangement for the benefit of employees of the Company or any of its subsidiaries which accords to the Director only such privileges and advantages as are generally accorded to the employees to whom the arrangement relates; or
 - (vi) any proposal for the purchase or maintenance of insurance for the benefit of the Director or persons including the Directors.

- (c) Any Director may act by himself or by his firm in a professional capacity for the Company, other than as auditor, and he or his firm shall be entitled to remuneration for professional services as if he were not a Director.
- (d) Any Director may continue to be or become a director, managing director or other officer or member of a company in which the Company is interested, and any such Director shall not be accountable to the Company for any remuneration or other benefits received by him.

4.3.11 *Remuneration of Directors*

- (a) The Directors shall be remunerated for their services at such rate as the Directors shall determine provided that the aggregate amount of such fees shall not exceed £250,000 per annum (or such sum as the Company in general meeting shall from time to time determine).
- (b) The Directors shall also be entitled to be paid all reasonable expenses properly incurred by them in attending general meetings, board or committee meetings or otherwise in connection with the performance of their duties.
- (c) A Director may hold any other office or place of profit under the Company (other than the office of auditor) in conjunction with his office of Director on such terms as to tenure of office and otherwise as the Directors may determine.
- (d) The Directors may from time to time appoint one or more of their body to the office of managing director or to any other office for such term and at such remuneration and upon such terms as they determine.
- (e) A Director, notwithstanding his interest, may be counted in the quorum present at any meeting whereat he or any other Director is appointed to hold any such office or place of profit under the Company, or where the terms of appointment are arranged or any contract in which he is interested is considered and he may vote on any such appointment or arrangement other than his own appointment or the terms thereof.
- (f) The Directors may at any time appoint any person to be a Director either to fill a casual vacancy or as an addition to the existing Directors. Any Director so appointed shall be eligible for re-election at the next annual general meeting following his appointment. Without prejudice to those powers, the Company in general meeting may appoint any person to be a Director either to fill a casual vacancy or as an additional Director.

4.3.12 *Retirement of Directors*

- (a) At each annual general meeting of the Company all the Directors who held office at the two preceding annual general meetings and who did not retire thereat shall be required to retire from office.
- (b) A Director shall not be required to hold any qualification shares.
- (c) There is no age limit at which a Director is required to retire.
- (d) The office of Director shall be vacated if the Director resigns his office by written notice, if he shall have absented himself from meetings of the Board for a consecutive period of six months and the Board resolves that his office shall be vacated, if he becomes of unsound mind or incapable, if he becomes insolvent, suspends payment or compounds with his creditors, if he is requested to resign by written notice signed by all his co-Directors, if the Company in general meeting shall declare that he shall cease to be a Director, or if he becomes resident in the United Kingdom and, as a result, a majority of the Directors are resident in the United Kingdom.

4.3.13 *Borrowing powers*

The Board may exercise all the powers of the Company to borrow money and to give guarantees, mortgage, hypothecate, pledge or charge all or part of its undertaking, property or assets and uncalled capital and to issue debentures and other securities whether outright or as collateral security for any liability or obligation of the Company or of any third party provided always that the aggregate principal amount of all borrowings (as defined in the Articles) by the Company shall not at the point of drawdown of any borrowings exceed 65 per cent. of the gross assets of the Group.

5. **Directors**

Interest on the Loan is paid quarterly at a fixed rate of 4.77 per cent. The Loan Agreement is governed by English law.

An amount of £129,585,000 was drawn under this facility on 16 April 2013. No further drawdowns are available under the Loan Agreement. Twenty per cent. of the facility is repayable after 10 years of drawdown and the remainder repayable after 15 years of drawdown.

The Loan was made available for the purpose of refinancing the existing indebtedness of the Borrower and the Propcos under a credit agreement dated 25 March 2005 as amended and restated on 29 June 2007 (the “**Credit Agreement**”) and for financing the payment of certain breakage costs in respect of the interest rate swap entered into by the Borrower in relation to the existing indebtedness of the Borrower under the Credit Agreement.

An event of default will occur if, amongst other reasons, the Borrower, Propcos or the Company do not pay on the due date any amount payable pursuant to a finance document of the Loan Agreement at the place and in the currency in which it is expressed to be payable (an “**Event of Default**”).

Recourse under the loan is limited to assets held by the Borrower and the Propcos and does not extend to the Company. In particular, the Company does not guarantee the Loan Agreement and there is only limited recourse to shares in the Borrower and security over certain inter-company loans owed from the Borrower to the Company.

A summary of the covenants in relation to loan to value (“**LTV**”) and interest cover ratio (“**ICR**”) are as follows:

- maximum LTV covenant of 65 per cent. (as at 31 December 2013 the LTV was 47.5 per cent.); and

- (b) arising out of or as a result of the conversion of currency as well as any discrepancy between exchange rates; and
- (c) incurred by the Lender as a result of investigating any event which it reasonably believes is an Event of Default or acting or relying on any notice, request or instruction which it reasonably believes to be genuine, correct and appropriately authorised.

Under the Loan Agreement, the Borrower will also indemnify the Lender and every receiver against any cost, loss or liability incurred by the Lender or receiver as a result of:

- (a) the occurrence of any event of default;
- (b) a failure by an obligor to pay any amount due under a finance document in relation to the Loan Agreement on its due date;

- (d) the Loan not being prepaid in accordance with a notice of prepayment given by the Borrower.

Under the Loan Agreement, the Borrower and the Propcos have provided a guarantee for each other's obligations and an indemnity against any cost, loss or liability the Lender incurs as a result of the Borrower or a Propco not paying any amount expressed to be payable by it under any finance document in relation to the Loan Agreement.

In the event that the Lender is entitled to enforce its security, it would have, amongst other remedies, the right to sell assets of the Chargors to pay off amounts owing to it together with all costs and other liabilities on the terms specified in the Debenture. In the event that the Lender is entitled to enforce its security, it would have, amongst other remedies, the right to sell assets of the Chargors to pay off amounts owing to it together with all costs and other liabilities on the terms specified in the Security Interest Agreements. PART 10

TAXATION

The comments below are of a general and non-exhaustive nature based on the Directors' understanding of the current revenue law and published practice in Guernsey and the United Kingdom. The comments relate to the position of persons who are resident or ordinarily resident in Guernsey or the United Kingdom for tax purposes, who hold their Ordinary Shares as an investment and who are the absolute beneficial owners of Ordinary Shares. The comments below may not apply to certain classes of persons, such as dealers, collective investment schemes, insurance companies, persons holding 10 per cent. or more of the Ordinary Shares and persons making or holding their investment with the purpose of obtaining a UK tax advantage.

Investors should note that tax law and interpretation can change (possibly with retrospective effect) and that, in particular, the levels, basis of and reliefs from taxation may change. Such changes may alter the benefits of investment in the Company.

If you are in any doubt about your tax position, or if you may be subject to tax in a jurisdiction other than Guernsey or the United Kingdom, you should consult your professional adviser.

United Kingdom Taxation

(i) *The Company*

The Directors intend to continue to conduct the affairs of the Company so that it does not become resident in the United Kingdom for UK tax purposes. Accordingly, and provided that the Company does not carry on a trade in the United Kingdom (whether or not through a branch, agency or permanent establishment situated there), the Company will not be subject to UK income tax or corporation tax other than on certain types of UK source income.

The Directors do not consider the Company to be an "offshore fund" for UK tax purposes with respect to the Ordinary Shares. If the Company or the Ordinary Shares were to be treated as an "offshore fund" for UK tax purposes, gains on disposals of Ordinary Shares may be taxable to Shareholders as income, not capital gains.

(ii) *Ordinary Shareholders*

Dividends

The Company will not be required to withhold UK tax at source when paying a dividend.

Shareholders who are subject to UK income tax should treat dividends paid on the Ordinary Shares as income for UK income tax purposes and should be entitled to a UK tax credit in respect of any dividend paid.

The tax credit will equal one ninth of the amount of dividend received. The income tax payable in respect of the dividend will be based on the amount of dividend plus the UK tax credit. The individual should be entitled to deduct the UK tax credit from the income tax payable. However, if the income tax payable is less than the UK tax credit, the excess can neither be claimed as a tax refund nor used against any other income tax liability.

Shareholders which are subject to UK corporation tax and are not small companies should be able to claim exemption from UK corporation tax in respect of any dividend received.

UK small companies will be subject to UK corporation tax as income on dividends received on the Ordinary Shares. A company is "small" for these purposes for any accounting period during which staff headcount is below 50 and either turnover or balance sheet total is less than or equal to €10 million.

Shareholders should note that income received by the Company may be subject to withholding taxes. However, Shareholders will not be entitled to claim relief in respect of any such withholding tax or underlying tax.

Disposals

UK taxpayers (whether subject to UK capital gains tax or to UK corporation tax) should treat any gain arising on the sale, redemption or other disposal of Ordinary Shares at the time of such sale, redemption or disposal as a chargeable gain. Equally, any loss should be an allowable loss.

Shareholders who are subject to UK capital gains tax may, depending on their circumstances, be able to use their annual exemption from Capital Gains Tax against any such chargeable gain.

For Shareholders subject to UK corporation tax, indexation allowance may reduce any chargeable gain arising on disposal of Ordinary Shares but will not create or increase an allowable loss.

(iii) *Stamp Duty and Stamp Duty Reserve Tax (“SDRT”)*

The following comments are intended as a guide to the general UK Stamp Duty and Stamp Duty Reserve Tax (“SDRT”) position and do not relate to persons such as market makers, brokers, dealers, intermediaries and persons connected with depository arrangements or clearance services to whom special rules apply. No UK Stamp Duty or SDRT will be payable on the issue of the Ordinary Shares. UK Stamp Duty (at the rate of 0.5 per cent., rounded up where necessary to the next £5, of the amount of the value of the consideration for the transfer) is payable on any instrument of transfer of Ordinary Shares executed within, or in certain cases brought into, the UK where the consideration is greater than £1,000. Provided that Ordinary Shares are not registered in any register of the Company kept in the UK, any agreement to transfer Ordinary Shares should not be subject to SDRT.

Guernsey Taxation

(i) Introduction

The following information is general in nature and relates only to Guernsey taxation applicable to the Company and the anticipated tax treatment in Guernsey that applies to persons holding Ordinary Shares in the Company as an investment. The summary does not constitute legal or tax advice and is based on taxation law and practice at the date of this document. Investors and prospective investors should be aware that the level and bases of taxation may change from those described and should consult their own professional advisors on the implications of acquiring, holding, disposing of, transferring or redeeming Ordinary Shares in the Company under the laws of the countries in which they are liable to taxation.

(ii) The Company

The Company has been granted tax exempt status by the Director of Income Tax in Guernsey pursuant to the Income Tax (Exempt Bodies) (Guernsey) Ordinance, 1989. The Company will need to reapply annually for exempt status, an application that currently incurs a fee of £600 per annum. It is expected that the Company will continue to apply for exempt status.

Once exempt status has been granted, the Company will not be considered resident in Guernsey for Guernsey income tax purposes and will be exempt from tax in Guernsey on both bank deposit interest and any income that does not have its source in Guernsey. It is not anticipated that any income other than bank deposit interest will arise in Guernsey and therefore the Company is not expected to incur any additional liability to Guernsey tax. In the absence of exemption, the Company would be treated as resident in Guernsey and subject to a zero rate of income tax.

In response to the review carried out by the European Union Code of Conduct Group (“EUCCG”), the States of Guernsey has abolished exempt status for the majority of companies and introduced a zero rate of tax for companies carrying on all but a few specified types of regulated business. The States of Guernsey has also agreed that, as collective investment

schemes were not one of the regimes in Guernsey that were classified by the EUCCG as being harmful, such schemes such as the Company would continue to be able to apply for exempt status for Guernsey tax purposes.

A review of Guernsey's corporate regime was announced by the States of Guernsey in October 2009, again in response to further comments from the EUCCG. A consultation document was issued on 21 June 2010. The EUCCG reviewed Guernsey following similar reviews of other crown dependencies in 2011, and then reported that Guernsey's deemed distribution regime was not compliant with the EU Code of Conduct ("Code"). The States of Guernsey responded by agreeing to abolish deemed distributions to subsequently allow Guernsey to become Code compliant and for the States of Guernsey review of its company tax regime to be concluded. The EUCCG confirmed in September 2012 that Guernsey's tax regime would then conform to the Code and this was ratified by the EU Economic and Financial Affairs Council ("ECOFIN") in December 2012. The States of Guernsey abolished deemed distributions with effect from 1 January 2013. Again, collective investment schemes have not been affected and can continue to apply for exempt tax status.

The Policy Council of the States of Guernsey has stated that it may consider further revenue raising measures in the future, including the possible introduction of a goods and services tax, depending on the state of Guernsey's public finances at the time.

(iii) EU Savings Tax Directive

Guernsey has introduced measures that are equivalent to the EU Savings Tax Directive. The Company will not, under the existing regime, be regarded as an undertaking for collective investment established in Guernsey that is equivalent to a UCITS authorised in accordance with EC Directive 85/611/EEC of the Council for the purposes of the application in Guernsey of the bilateral agreements on the taxation of savings income entered into by Guernsey with EU Member States. Consequently, in accordance with current States of Guernsey guidance on the application of the bilateral agreements, where the Company's paying agent (as defined for these purposes) is located in Guernsey, the paying agent would not be required to exchange information regarding distributions made by the Company and/or the proceeds of the sale, refund, or redemption of shares in the Company.

The operation of the EU Savings Tax Directive is currently under review by the European Commission and a number of changes have been outlined which, if agreed, will significantly widen its scope. These changes could lead to the Company having to comply with the provisions of the EU Savings Tax Directive in the future.

(iv) Shareholders

Non-Guernsey resident Shareholders will not be subject to any income tax in Guernsey in respect of or in connection with the acquisition, holding or disposal of any Ordinary Shares owned by them. Such Shareholders will receive dividends without deduction of Guernsey income tax.

Any Shareholders who are resident in Guernsey will be subject to Guernsey income tax on any dividends paid to such persons but will not suffer any deduction of tax by the Company from any such dividends payable where the Company is granted tax exempt status. The Company is however required to provide details of distributions made to Shareholders resident in Guernsey to the Director of Income Tax in Guernsey.

At present Guernsey does not levy taxes upon capital gains, capital transfers, wealth, inheritance, gifts, sales or turnover, nor are there any duties save for an *ad valorem* fee for the grant of probate or letters of administration. No stamp duty is chargeable in Guernsey on the issue, transfer, switching or redemption of Ordinary Shares in the Company.

(v) Foreign tax considerations

It is the intention of the Directors to conduct the affairs of the Company so that the central management and control of the Company is not exercised anywhere other than in Guernsey. They also intend not to carry on a trade through any permanent establishment. Thus the Company is not expected to be considered tax resident or subject to tax in any jurisdiction other than Guernsey.

PART 11

TERMS AND CONDITIONS OF APPLICATION UNDER THE INITIAL PLACING AND PLACING PROGRAMME

1. Introduction

Each Placee which confirms its agreement to either Numis or J.P. Morgan Cazenove to subscribe for New Shares under the Initial Placing and/or the Placing Programme will be bound by these terms and conditions and will be deemed to have accepted them.

The Company, Numis and/or J.P. Morgan Cazenove may require any Placee to agree to such further terms and/or conditions and/or give such additional warranties and/or representations as it/they (in its/their absolute discretion) sees fit.

2. Agreement to subscribe for New Shares

Conditional on: (i) the Issue Resolution being passed at the EGM, (ii) Initial Admission of New Shares occurring and becoming effective by 8.00 a.m. (London time) on or prior to 17 April 2014 (or such later time and/or date, not being later than 8.00 a.m. on 31 May 2014, as the Company, Numis and J.P. Morgan Cazenove may agree) and any Subsequent Admission under the Placing Programme occurring not later than 8.00 a.m. on such other dates as may be agreed between the Company, Numis and J.P. Morgan Cazenove prior to the closing of each placing under the Placing Programme, not being later than 19 March 2015; (iii) the Placing Agreement becoming otherwise unconditional in all respects and not having been terminated on or before the date of such Admission; and (iv) Numis or J.P. Morgan Cazenove confirming to the Placees their allocation of New Shares, a Placee agrees to become a member of the Company and agrees to subscribe for those New Shares allocated to it by Numis or J.P. Morgan Cazenove at the relevant Issue Price. To the fullest extent permitted by law, each Placee acknowledges and agrees that it will not be entitled to exercise any remedy of rescission at any time. This does not affect any other rights the Placee may have.

3. Payment for New Shares

3.1 Each Placee must pay the relevant Issue Price for the New Shares issued to the Placee in the manner and by the time directed by Numis or J.P. Morgan Cazenove. If any Placee fails to pay as so directed and/or by the time required, the relevant Placee's application for New Shares may, at the discretion of J.P. Morgan Cazenove or Numis, either be rejected or accepted and in the latter case paragraph 3.2 of these terms and conditions shall apply.

3.2 Each Placee is deemed to agree that if it does not comply with its obligation to pay the relevant Issue Price for the New Shares allocated to it in accordance with paragraph 3.1 of these terms and conditions and J.P. Morgan Cazenove or Numis elects to accept that Placee's application, J.P. Morgan Cazenove or Numis may sell all or any of the New Shares allocated to the Placee on such Placee's behalf and retain from the proceeds, for J.P. Morgan Cazenove's or Numis' own account and profit, an amount equal to the aggregate amount owed by the Placee plus any interest due. The Placee will, however, remain liable for any shortfall below the aggregate amount owed by such Placee and it may be required to bear any tax or other charges (together with any interest or penalties) which may arise upon the sale of such New Shares on such Placee's behalf.

4. Representations and warranties

By agreeing to subscribe for New Shares, each Placee which enters into a commitment to subscribe for New Shares will (for itself and any person(s) procured by it to subscribe for New Shares and any nominee(s) for any such person(s)) be deemed to represent and warrant to each of the Company, the Investment Manager, Numis and J.P. Morgan Cazenove that:

- (a) in agreeing to subscribe for New Shares under the Initial Placing and/or the Placing Programme, it is relying solely on this document and any supplementary prospectus issued by the Company and not on any other information given, or representation or statement made at any time, by any person concerning the Company, the Initial Placing and/or the Placing Programme. It agrees that none of the Company, the Investment Manager, Numis, J.P. Morgan Cazenove and the Company against any liability, loss or cost ensuing due to the failure to process such application, if such information as has been required has not been provided by it;
- (w) it acknowledges that any person in Guernsey involved in the business of the Company who has a suspicion or belief that any other person (including the Company or any person subscribing for New Shares) is involved in money laundering activities, is under an obligation to report such suspicion to the Financial Intelligence Service pursuant to the Terrorism and Crime (Bailiwick of Guernsey) Law, 2002, as amended;
- (x) it acknowledges and agrees that information provided by it to the Company or the Registrar will be stored both on the Registrar’s and the Administrator’s computer system and manually. It acknowledges and agrees that for the purposes of the Data Protection (Bailiwick of Guernsey) Law, 2001, as amended (the “**Data Protection Law**”) and other relevant data protection legislation which may be applicable, the Registrar is required to specify the purposes for which it will hold personal data. The Registrar and the Administrator will only use such information for the purposes set out below (collectively, the “**Purposes**”), being to:

- (i) process its personal data (including sensitive personal data) as required by or in connection with its holding of New Shares, including processing personal data in connection with credit and money laundering checks on it;
 - (ii) communicate with it as necessary in connection with its affairs and generally in connection with its holding of New Shares;

For the purposes of this document, **“data subject”**, **“personal data”** and **“sensitive personal data”** shall have the meanings attributed to them in the Data Protection Law;

Morgan Cazenove and the Company;

Morgan Cazenove on behalf of it and/or any person acting on behalf of it will not be treated as client money within the meaning of the relevant rules and regulations of the FCA which therefore will not require Numis or J.P. Morgan Cazenove to segregate such money, as that money will be held by Numis or J.P. Morgan Cazenove under a banking relationship and not as trustee;
- (cc) any of its clients, whether or not identified to Numis or J.P. Morgan Cazenove, will remain its sole responsibility and will not become clients of Numis or J.P. Morgan Cazenove for the purposes of the rules of the FCA or for the purposes of any other statutory or regulatory provision;

It acknowledges that any sale, transfer, assignment, pledge or other disposal made other than in compliance with such laws and the above stated restrictions will be subject to the compulsory transfer provisions as provided in the Articles;
- (g) it is purchasing the New Shares for its own account or for one or more investment accounts for which it is acting as a fiduciary or agent, in each case for investment only, and not with a view to or for sale or other transfer in connection with any distribution of the New Shares in any manner that would violate the Securities Act, the Investment Company Act or any other applicable securities laws;
- (h) it acknowledges that the Company reserves the right to make inquiries of any holder of the New Shares or interests therein at any time as to such person’s status under US federal securities laws and to require any such person that has not satisfied the Company that holding by such person will not violate or require registration under US securities laws to transfer such New Shares or interests in accordance with the Articles;

- (i) it acknowledges and understands that the Company is required to comply with FATCA and agrees to furnish any information and documents the Company may from time to time request, including but not limited to information required under FATCA;

- (k) it has received, carefully read and understands this document, and has not, directly or indirectly, distributed, forwarded, transferred or otherwise transmitted this document or any other presentation or offering materials concerning the New Shares to within the United States or to any US Persons, nor will it do any of the foregoing; and
- (l) if it is acquiring any New Shares as a fiduciary or agent for one or more accounts, the Placee has sole investment discretion with respect to each such account and full power and authority to make such foregoing representations, warranties, acknowledgements and agreements on behalf of each such account.

The Company, the Investment Manager, Numis, J.P. Morgan Cazenove and their respective directors, officers, agents, employees, advisers and others will rely upon the truth and accuracy of the foregoing representations, warranties, acknowledgments and agreements.

If any of the representations, warranties, acknowledgments or agreements made by the Placee are no longer accurate or have not been complied with, the Placee will immediately notify the Company.

6. Supply and disclosure of information

If Numis, J.P. Morgan Cazenove, the Registrar or the Company or any of their agents request any information about a Placee's agreement to subscribe for New Shares under the Initial Placing and/or the Placing Programme, such Placee must promptly disclose it to them.

7. Miscellaneous

The rights and remedies of the Company, the Investment Manager, Numis, J.P. Morgan Cazenove and the Registrar under these terms and conditions are in addition to any rights and remedies which would otherwise be available to each of them and the exercise or partial exercise of one will not prevent the exercise of others.

On application, if a Placee is a discretionary fund manager, that Placee may be asked to disclose in writing or orally the jurisdiction in which its funds are managed or owned. All documents provided in connection with the Initial Placing and/or the Placing Programme will be sent at the Placee's risk. They may be returned by post to such Placee at the address notified by such Placee.

Each Placee agrees to be bound by the Articles once the New Shares, which the Placee has agreed to subscribe for pursuant to the Initial Placing and/or the Placing Programme, have been acquired by the Placee. The contract to subscribe for New Shares under the Initial Placing and/or the Placing Programme and the appointments and authorities mentioned in this document and all disputes and claims arising out of or in connection with its subject matter or formation (including non-contractual disputes or claims) will be governed by, and construed in accordance with, the laws of England and Wales. For the exclusive benefit of the Company, the Investment Manager, Numis, J.P. Morgan Cazenove and the Registrar, each Placee irrevocably submits to the jurisdiction of the courts of England and Wales and waives any objection to proceedings in any such court on the ground of venue or on the ground that proceedings have been brought

in an inconvenient forum. This does not prevent an action being taken against the Placee in any other jurisdiction.

In the case of a joint agreement to subscribe for New Shares under the Initial Placing and/or the Placing Programme, references to a “Placee” in these terms and conditions are to each of the Placees who are a party to that joint agreement and their liability is joint and several.

Numis, J.P. Morgan Cazenove and the Company expressly reserve the right to modify the Initial Placing and/or the Placing Programme (including, without limitation, the timetable and settlement) at any time before allocations are determined. The Initial Placing and/or the Placing Programme is subject to the satisfaction of the conditions contained in the Placing Agreement and the Placing Agreement not having been terminated. Further details of the terms of the Placing Agreement are contained in Part 9 of this document.
