

db x-trackers SMI[®] UCITS ETF (DR)

Share Class: 1D (ISIN: LU0274221281), (WKN: DBX1SM), (Currency: CHF)

a sub fund of db x-trackers. The Fund is managed by Deutsche Asset Management S.A., part of the Deutsche Bank Group.

Objectives & Investment Policy

The aim is for your investment to reflect the performance of the SMI[®] (Swiss Market Index) (Index) which is designed to reflect the performance of shares of 20 of the largest and most traded companies listed on the SIX Swiss Exchange. The companies making up the Index are large and medium sized companies, based on the combined value of a company's shares as compared to other companies on the stock exchange. The companies are either Swiss or Liechtenstein companies. The composition of the Index is reviewed once a year.

The Index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax.

To achieve the aim, the Fund will attempt to replicate the Index by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as they have in the Index as determined by the Sub-Portfolio Manager of the Fund which is Deutsche Asset Management (UK) Limited.

The Fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The Fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund.

Dividends may be paid on your shares.

You may redeem your shares on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund will attempt to replicate the Index. However, exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's performance to be substantially different from the performance of the Index.

Deutsche Bank and its related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

Your investment is dependent on the performance of the Index less costs but your investment is not expected to match that performance precisely.

This Fund is not in any way sponsored, ceded, sold or promoted by the SIX Swiss Exchange and the SIX Swiss Exchange makes no warranty or representation whatsoever, express or implied, either to the results to be obtained from the use of the Index and/or the level at which such index stands at any particular time. The SIX Swiss Exchange shall not be liable to any person for any error in the index and the SIX Swiss Exchange shall not be under any obligation to disclose such errors. The Index trademarks have been registered in Switzerland and/or abroad by the SIX Swiss Exchange. Their use is subject to a license.

The Fund may use derivatives in an attempt to efficiently manage the portfolio. It may be that the use of derivatives will not have the desired result and can cause share prices to fluctuate which may in turn result in the Fund and your investment suffering a loss. More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.†
Entry charge*	3.00%	
Exit charge*	3.00%	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		The ongoing charges figure is based on expenses for the year ending October 2015. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.
Charges taken from the Fund over a year		
Ongoing charges	0.30%	
Charges taken from the Fund under certain specific conditions		More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.
Performance fee	None	
		* or CHF 7,500 whichever is the higher.

[†]Entry and exit charges will only apply when shares are subscribed or redeemed directly from the Fund, and will not apply when investors buy or sell such shares on stock exchanges. Investors dealing on exchange will pay fees charged by their stock brokers. Such charges can be obtained from stock brokers. Authorised participants dealing directly with the Fund will pay related transaction costs.

To the extent the Fund undertakes securities lending to reduce costs, the Fund will ultimately be allocated 70% of the associated revenue generated, Deutsche Asset Management (UK) Limited, as sub-portfolio manager, will be allocated 15%, and Deutsche Bank AG, as securities lending agent, will be allocated 15%. To facilitate this the Fund will initially receive 85% of the associated revenue generated from which Deutsche Asset Management (UK) Limited will receive its allocation. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2007 and the share class was launched in 2007.

Past performance has been calculated in CHF.
